CITY OF BOSTON.

Organization of the City Government.

Monday, Jan. 2, 1899.

Meeting of the City Government of 1899 for organization.

The members-elect of the Board of Aldermen met in their chamber at ten o'clock A.M., Alderman-elect Presho, senior member, in the Chair.

The Board was notified by a committee of the Common Council-elect, that a quorum of the members-elect of the Common Council were in session, ready to proceed to business, and the members-elect of the Board of Aldermen-elect at 10:30 A.M., proceeded to join the members-elect of the Common Council in joint convention.

The members-elect of the Common Council assembled in the Common Council Chamber, and were called to order at 10:17 A.M. by Mr. Nangle of Wd. 19, senior member-elect.

Mr. Nangle, on taking the Chair, said:—Gentlemen, being the senior member of this body, the duty devolves upon me today to call the meeting to order. The first business in order will be the appointment of a Clerk. The Chair requests Mr. O'Kane, the Clerk of 1898, to act as Clerk pro tem. The roll of the members will be called by the Clerk.

The Clerk then called the roll from the official list furnished to him by the Board of Election Commissioners, and a quorum was found to be present.

Mr. MULCAHY of Wd. 14 offered an order—That a committee be appointed to invite the Board of Aldermen-elect to join the Common Council-elect in the Common Council Chamber to be qualified.

Passed, and Councilmen-elect Mulcahy of Wd. 14, Curley of Wd. 18 and Hibbard of Wd. 24 were appointed said committee. They retired at 10:27 A.M., and presently reported that they had performed the duty assigned and that the Aldermen-elect would be in attendance very soon. The report was accepted, and the committee was discharged.

IN JOINT CONVENTION.

The Board of Aldermen-elect entered the Common Council Chamber at 10:31 A.M., escorted by the City Messenger, and took seats with the Common Councilmen-elect. Alderman-elect Presho, senior member, took the chair.

On motion of Alderman-elect McDonald, it was voted that a committee of five be appointed to notify the Mayor that the Board of Aldermen-elect and the Common Council-elect were assembled in the Common Council Chamber for the purpose of being qualified.

Aldermen-elect McDonald and Berwin and Councilmen-elect Chamberlain of Wd. 12, Kiley of Wd. 8 and Logan of Wd. 11, were appointed said committee. They retired at 10:35 A.M., and presently reported that they had attended to the duty assigned, and that His Honor the Mayor would be in attendance upon the convention in a very few minutes. The report was accepted, and the committee dismissed.

The Mayor, Josiah Quincy, accompanied by Rev. Peter Ronan, chaplain of the day, the members-elect of the Board of Apportionment, and others, entered the Common Council Chamber, escorted by the

City Messenger, at 10:41 A.M., and took seats with the convention.

Prayer was offered by the Chaplain as follows:—

Remembering Thy goodness, O Lord, and our own unworthiness, we approach near to Thee this morning to thank Thee for the great blessings conferred upon our nation, our State and our city during the year now drawn to a close. May those blessings be made permanent amongst the people throughout the length and breadth of our land. We pray Thee, the Giver of every good gift, that the blessings of peace may be extended to our sister nations of the world, so that we all may appear in Thy sight as one great family, united in the bonds of love.

We thank Thee, also, for the great privilege of entering upon this new year filled with new hopes and with new aspirations. Grant, O God, the right disposition of heart to us, that we may endeavor to spend the precious time of the new year in a manner that will be pleasing to Thee and beneficial to ourselves. We praise Thee, O Lord, for the many blessings which we enjoy as citizens of the great metropolis of New England. May Thy choicest blessings descend upon our city. Be pleased, O Lord, at the commencement of this new year, to bring joy and happiness to every dwelling in this community, and may the labors and the enterprises of our people be blessed with Thy spirit and crowned with success. Upon this solemn and important occasion, we ask Thee, O Lord, to look down with complacency and approval, and so guide our deliberations that they may attend to Thy greater glory and to the welfare of the people of our city. We pray Thee, O Lord, that Thy spirit of wisdom and fortitude may rest upon our Chief Executive, His Honor the Mayor, and upon the members of our City Government, that they may proceed and execute what is right and best for our beloved city. In the fulfillment of all the duties of their honored positions, assist them by Thy Holy Grace, so that they may be true to Thee, true to themselves, and true to the sacred trust confided to their keeping. Grant us, O Lord, these, our humble petitions, through Christ, our Redeemer. Amen.

A message was received from the Board of Election Commissioners certifying the names of the members-elect of the Board of Apportionment and of the City Council.

Placed on file.

The usual oaths of office were administered by Mayor Quincy to the members-elect of the Board of Apportionment, the Aldermen-elect and Councilmen-elect, all being present except Councilmen Thomas J. Collins of Wd. 13, Frank S. Atwood of Wd. 16 and Samuel H. Mildram of Wd. 24, and taking the oaths as follows:—

BOARD OF APPORTIONMENT.

For two years: John Henry Sullivan.
For one year: Laurence Minot.

ALDERMEN.

Wilbur Fiske Adams. Edward William Dixon.
David Franklin Barry. Frederick William Day.
William Berwin. James Henry Doyle.
Michael William Brick. Patrick Francis McDonaid.
Franklin Lincoln Codman. Frank John O'Toole.
John Henry Colby. Edward Webb Presho.

Ald. PRESHO—Members of the City Council will now give their attention while His Honor, Mayor Quincy, delivers his inaugural address.

MAYOR QUINCY'S ADDRESS.

Gentlemen of the City Council:—

The past year has been one of substantial progress and development in several lines of our municipal work. Many laws have been passed materially affecting this city or making considerable changes in its government, new departments have been created and new lines of municipal activity initiated, and several important public undertakings have been planned, advanced or completed. I think it can be truthfully claimed that there is a general forward movement going on in Boston, that her people are awake to their opportunities of advancement—in education, in art, in charity, in commercial development, in mechanical appliances, in public works, in municipal organization—and that they desire to prepare their city to take a high rank among the greatest, most enlightened and most progressive communities of the coming century.

FINANCIAL STATEMENTS.

The debt statement is as follows:—

| | |
|-------------------------------|-----------------|
| Gross debt Dec. 31, 1897..... | \$76,668,166 41 |
| Gross debt Dec. 31, 1898..... | 82,652,656 60 |
| Increase during the year..... | \$5,984,490 19 |
| Net debt Dec. 31, 1897..... | \$49,053,446 06 |
| Net debt Dec. 31, 1898..... | 54,505,814 71 |
| Increase during the year..... | \$5,452,368 65 |

| | |
|---|--------------|
| Increase in sinking funds and other redemption funds during the year..... | \$532,121 54 |
|---|--------------|

| | |
|---|--------------|
| Total amount of debt issued during 1898, both inside and outside of debt limit..... | 9,485,780 00 |
| Funded debt paid during the year | 3,501,289 81 |

| | |
|--|----------------|
| Increase in gross debt, as above | \$5,984,490 19 |
|--|----------------|

| | |
|--|---------------------|
| Loans inside the debt limit issued during the year 1898.... | \$1,879,980 00 |
| Of this amount loans authorized in the municipal year 1898 re-presented | \$351,980 00 |
| Loans authorized prior to 1898..... | 278,000 00 |
| Loans inside of debt limit for construction of new schoolhouses, under chap. 408 of 1895 and chap. 442 of 1897.. | 650,000 00 |
| | <u>1,879,980 00</u> |

The loans outside the debt limit issued during 1898 were the following:—

| | |
|---|--------------------|
| Sewerage works..... | \$2,000,000 |
| Laying out and construction of assessable streets..... | 1,561,000 |
| Public Parks..... | 950,000 |
| Bluc Hill, Columbus, Huntington and Commonwealth avenues..... | 750,000 |
| Haymarket Sq. property..... | 616,000 |
| Rapid Transit..... | 600,000 |
| South Union Station..... | 400,000 |
| Extension of water mains, etc..... | 290,000 |
| Additional supply of water..... | 150,000 |
| Improved ferry facilities..... | 128,800 |
| Improvement of Stony brook..... | 100,000 |
| New Library building..... | 100,000 |
| Cambridge bridge..... | 50,000 |
| Total | <u>\$7,605,800</u> |

The borrowing capacity of the city within the debt limit for the municipal year 1898 was \$1,728,082.00.

The loans authorized by the City Council or by the Legislature during the year exhausted the whole of this borrowing capacity except the sum of \$58,102.00.

The loans authorized by the City Council in 1898 inside the debt limit were for the following purposes:—

| | |
|--|------------------|
| Street improvements, extensions and construction | \$544,980 |
| Faneuil Hall, reconstruction..... | 80,000 |
| Hospital Department, improvements | 61,500 |
| Wire Department..... | 50,000 |
| Institutions, improvements..... | 40,500 |
| School purposes | 36,000 |
| Additional portable booths and furnishing | 30,000 |
| Bridges | 28,500 |
| Back Bay fens, removal of sewage.. | 25,000 |
| Chapel, Mt. Hope cemetery..... | 25,000 |
| Public bathing establishments..... | 17,500 |
| Public convenience station..... | 10,000 |
| Fire department, completion of salt water pipe system..... | 7,500 |
| Commonwealth park, gymnasium.... | 5,000 |
| Steamer "Vigilant," new boiler..... | 5,000 |
| Miscellaneous purposes..... | 7,500 |
| Total | <u>\$973,980</u> |

| | |
|--|--------------------|
| In addition the Legislature added within the debt limit the amount that may be borrowed for South Union Station (chap. 248, Acts 1898) | 750,000 |
| Total | <u>\$1,723,980</u> |

The following table shows all the purposes for which debt has been issued during the last three years. Of course, this represents only the increase in the gross debt of the city, and is offset by the accumulation of the sinking funds. It is impossible to assign the increase of the net debt to any particular objects of expenditure, and it is therefore necessary to use

the figures of the gross debt in making any analysis of the causes of the increase. Of the total increase, the items for assessable streets, for sewers and for avenues are very largely taken care of by special assessments, the item for rapid transit represents an investment—upon which a sufficient return to provide for sinking funds, as well as for interest, is being received—and the item for South Union Station represents a short loan, which merely distributes this expense over the tax levy of a four-year period, while the item for schools is not under the control of the City Council or the Mayor. These items aggregate \$15,257,500 of the total increase:—

| | |
|--|--------------|
| Rapid transit..... | \$3,650,000 |
| Street improvements, extensions and construction..... | 3,169,280 |
| Assessable streets..... | 3,061,000 |
| Schools | 2,250,000 |
| Blue Hill, Huntington, Columbus and Commonwealth avenues.... | 2,392,000 |
| Sewers | 2,204,500 |
| Parks | 1,711,300 |
| South Union Station..... | 1,700,000 |
| Charlestown bridge..... | 930,000 |
| Market or other public purposes.. | 616,000 |
| Stony Brook improvement..... | 500,000 |
| Hospital department, New buildings and improvements..... | 350,500 |
| Water department..... | 350,000 |
| Playgrounds | 260,500 |
| Public institutions, improvements. | 201,100 |
| Ferry department, improved facilities | 176,800 |
| Wire department..... | 150,000 |
| Library department, new building and branches..... | 149,000 |
| Parade grounds, etc., for the militia | 125,000 |
| Fire department, new buildings, boat and salt-water service..... | 124,500 |
| Bathing establishments..... | 100,500 |
| New general register of voters.... | 100,000 |
| Repayment of sidewalk assessments | 100,000 |
| Faneuil Hall, reconstruction..... | 80,000 |
| Bridges | 63,000 |
| Police department, new boat and sub-station | 58,500 |
| Public buildings, improvements... | 51,500 |
| Cambridge bridge..... | 50,000 |
| Cemeteries, improvements in..... | 42,500 |
| New electrical construction..... | 25,000 |
| New voting booths..... | 30,000 |
| Massachusetts Historical Society building | 25,000 |
| Ward rooms..... | 21,500 |
| Gymnasium..... | 23,500 |
| Public grounds..... | 19,000 |
| Wharf and buildings, East Boston | 15,000 |
| Miscellaneous | 40,100 |
| | \$24,916,580 |

The total loans outside of the debt limit authorized during 1898 were the following:—

| | |
|---|-----------|
| Blue Hill, Columbus, Commonwealth and Huntington avenues, chap. 236, Acts 1898..... | \$750,000 |
| Public Parks, chap. 313, Acts 1898.... | 500,000 |
| Completion of Public Library Building, chap. 475, Acts 1898..... | 100,000 |
| Cambridge bridge, chap. 467, Acts 1898. No limit to amount. | |

The average valuation of property upon which the debt and tax limits for the year 1899-1900 are based has increased \$22,897,113 over that of last year. The estimated borrowing capacity of the city for the coming year, after deducting the sum of \$200,000 for playgrounds and \$300,000 for schools set aside by special legislative acts, is

| | |
|--|-------------|
| Amount which was assessed under \$9 tax limit for financial year 1898-99 | \$8,564,750 |
| Estimated general revenue..... | 3,488,224 |
| Debt requirements..... | 4,264,040 |
| County expenses, exempt from tax limit | 425,000 |

Total amount appropriated for the current expenses of the year....\$16,742,024

| | |
|---|-------------|
| Making the tax rate on the thousand | \$13 60 |
| Amount which can be raised within the \$9 tax limit for the financial year 1899-1900..... | \$8,770,824 |
| Increase over financial year 1898-99 | 206,074 |

All loans issued during the year were at the rate of three and a half per cent per annum.

CLOSING OF FINANCIAL YEAR.

Under the financial practice which has prevailed in the past, the City Council has appropriated early in the year the entire amount which could be raised within the \$9 tax limit, plus the estimated income of the city,—from its distributive share of the corporation tax, from charges made by various departments, and from miscellaneous sources. As the whole amount included in the tax levy is fully appropriated, although quite a fraction of it is not collected within the limit of the financial year, but remains outstanding, it is obvious that there is a balance which must be made up from receipts on account of unpaid taxes of previous years, if the city treasury is actually to receive in cash by the end of the financial year the full amount which has been appropriated. In the past the assumption that a certain average percentage of the taxes for the year would be actually paid into the treasury in cash by the last day of the financial year, January 31, and that the balance of the amount included within the \$9 tax limit would be received from payments on account of unpaid taxes of former years, has practically held good; but it is clear that if in any year the collections made prior to February 1st fall materially below the average, a deficiency is created, which can only be bridged over by an excess of income received above the estimates. It is unfortunately the case that for some reason or other,—but through no fault of the Collecting Department,—the collections for this financial year up to the 1st of January have been about one and three-quarters per cent, less than for the same period of last year; as the total assessment this year is \$14,262,000 this makes a deficiency in collections of about \$250,000 up to the present time. Of course, we may come up to the average percentage of collections before February 1, but this cannot be counted upon.

At the same time we are unfortunately obliged to meet a considerable shortage in income, as our share of the proceeds of the corporation tax alone has, owing to changes in State legislation, fallen about \$60,000 below the amount received last year. We are further confronted with the difficulty that, under the new law fixing the expenditures of the School Committee, referred to below, the sum of \$230,000 had to be provided to meet the amount of \$2.83 on each thousand of valuation allowed for schools for the current financial year, in excess of the appropriation of \$2,470,000, which had always been made. This additional sum could only be found by increasing the Auditor's estimate of income by including surplus water income, the amount of which was somewhat uncertain, and which it was very necessary to hold in reserve to meet such possible deficiencies in other directions as I have mentioned, as well as to provide for extraordinary contingencies in connection with the work of the departments. On top of these difficulties the necessary expenditures already made by the Street Department for the removal of snow during the financial year, owing to extraordinary storms, have exceeded the average expenditure of other years by fully \$75,000, and there have been other unavoidable expenses incurred in excess of department appropriations—such as those of the City Hospital for the care of

soldiers. It has also been necessary to make certain expenditures, some of them required by contracts, properly chargeable to loans, which the City Council has failed to provide for in that manner, leaving them to be met out of maintenance appropriations. Owing to these various reasons the task of closing the accounts of the city for this financial year will be one of unusual difficulty, and the requirements of the situation will at once be laid before the Board of Apportionment. There seems to be no plausible explanation of this deficiency of one and three-quarters per cent. in the collections except that quite a number of taxpayers are awaiting the decision of the Supreme Court upon the case which has been brought to test the legality of the sewer assessments, before paying even their ordinary taxes; it is hoped that this decision will be rendered during the present month.

BOARD OF APPORTIONMENT.

In my last inaugural address I pointed out some of the difficulties met with in the attempt to secure proper and business-like management of the finances of the city, and expressed the opinion that there was no adequate remedy for them except through the creation of a Board of Apportionment, on somewhat similar lines to that which has long existed in the City of New York. This subject was very soon after laid before the Merchants' Municipal Committee, which had been freshly constituted, upon my invitation, by the Associated Board of Trade; and, after full consideration, the members of the committee gave the proposal their hearty and unanimous support, and secured for it the endorsement of a number of the representative trade organizations. After much discussion of the form which the proposed measure should take, a bill was finally drafted and presented to the Committee on Metropolitan Affairs.

This bill proposed a board of six members, to consist of the Mayor, the presiding officers of the two branches of the City Council, the City Auditor, the City Engineer, and the Chairman of the Board of Statistics, all serving ex-officio. While the members of the Merchants' Committee continued to adhere to the opinion that an ex-officio board of this character would give the best results, they were obliged to yield to the objections which were made to this constitution, and to assent to a modification of the bill, reducing the membership of the board to five, and providing for two elective members. While this change was conceded reluctantly, the belief was still entertained that even with this modification the new system would produce vastly better results, and this still remains the opinion of the committee. It may perhaps be regarded as fortunate that one of the officers named in the original bill to serve as an ex-officio member of the board, namely, the Chairman of the Board of Statistics,—whose experience and training in the work of that department ought to render him especially qualified for such service,—has now been made by election a member of the board, to serve for the first year of its existence,—during which its work will be of especial importance in the establishment of precedents and principles to govern future action.

The creation of this board, with such a constitution, not only marks the most important and far-reaching improvement, in my opinion, which has been effected in the government of Boston since the passage of the Charter Amendment Act of 1885, with its radical redistribution of powers, but it also marks a radical departure in American municipal government, and one whose results will be watched with interest elsewhere. The board will really be a small financial council, a sort of elective municipal ministry, with the complete responsibility for financial legislation, but

without any administrative duties. That this innovation will prove a panacea for all of the evils, real or imaginary—and they are largely of the latter character—which afflict our municipal government, I do not for a moment believe; but it will surely afford an opportunity such as has never existed before for the formulating of something like a scientific budget, particularly in respect to loan appropriations.

I believe that the public opinion of the whole city will have a much greater influence upon this board, four of whose members are elected by the city at large, than it can possibly have in a common council of seventy-five members elected from purely local constituencies. The financial resources of the city can at least be applied at a seasonable time in the year, and with a comprehensive view of the needs of all the departments, and of all of the various proposals for the expenditure of loan money. Whether the constitution of the board is the best possible one or not, it should, in my opinion, be given a full trial upon its present lines before any amendment is proposed. In order that the business interests of the city may be fully and closely informed as to the operation of the board, and may be kept in close touch with it, it is my intention to recommend to the board to invite the Merchants' Municipal Committee, representing the associated trade associations of the city, to select a representative to be present at all its meetings, and to follow its work in detail.

One of the most important questions which the Board will have to determine will be that of the extent to which the regular department appropriations shall be itemized. The past practice—which I believe has unquestionably been the best one under the conditions heretofore existing—has been that of making a single lump appropriation for each department or division of a department, leaving the application of this amount and the fixing of salaries solely to the executive officers of the city. On the other hand, the practice of Congress is to itemize pretty closely the appropriations for the government departments and to fix nearly all salaries. The practice of the New York Board of Apportionment has been to sub-divide department appropriations into various classes, without carrying the itemizing process as far as is done in the federal government. Under the conditions existing in this city it is a question whether the Board of Apportionment should not carry the itemizing process to a considerable extent.

The pressure of expenditures upon the nine dollar tax limit would seem to make it almost necessary that the departments should be conducted with somewhat less financial latitude, and more closely upon a certain definite scale of expenditure, which can only be altered once a year. I am inclined to think that it will be found necessary to establish a minimum limit for the expenditures of each department, setting aside a sufficient amount in a reserved fund to provide for contingencies, and then to meet any real but unexpected needs of the different departments by special transfers, made from time to time through the year from this fund. The pressure upon the financial resources of the city within the tax limit seems to be constantly increasing, and the most careful and scientific management of our finances will be required in order to enable existing branches of municipal service to continue without such a restriction of their work as would be injuriously felt by our citizens, and to enable such new branches of service as the public welfare may require to be established from time to time.

SCHOOL COMMITTEE.

In my last inaugural address I stated my own belief that the best organization of

the School Committee would be to place it upon exactly the same basis as the other departments of the same basis as the other providing for the appointment by the Mayor of a Board of Education of seven members,—while admitting that it was improbable that the Legislature could be got to sanction such a departure from the old-established practice of this Commonwealth of electing the school authorities by popular vote. I now desire to express my hearty support of a compromise proposition presented to the last Legislature in a bill prepared by a committee of citizens interested in education, namely, that of reducing the number of members of the School Board by one-half, from twenty-four to twelve, three such members to be appointed by the Mayor, one each year, and nine to be elected, three each year. While such an organization of the School Committee may not be theoretically an ideal such an organization of the School Committee may not be theoretically an ideal one from any standpoint, I believe that it would, in practice, effect an important improvement, and it ought to be within the range of possibility to secure the passage of a bill of this character.

The large number of candidates to be voted for at each election is a great weakness of the present system from the standpoint of the citizen, and the large membership of the Board, resulting in the transaction of the most important part of its business by committees, is a great drawback from an administrative standpoint. The appearance of the official ballot at the last city election, with its 23 candidates for the School Committee and its multiplicity of designations, resulted in the bewilderment of the average voter, and in the suppression of any clear-cut and distinct issue between candidates. If only a few persons are candidates for an office the people can be got to take an active and intelligent interest in an elective contest; but this becomes hopelessly confused and belittled by such a multiplicity of candidates as is inevitable where eight are to be elected at a time.

The mere reduction of the number of persons to be elected to the School Committee each year from eight to three, would, in my opinion, accomplish a great deal of good, by making the office far more conspicuous and by compelling the nomination of more specially qualified candidates,—thus creating a tendency, sadly lacking in the past, to make the election turn rather upon methods and systems of school administration than upon merely personal considerations.

I believe that the incorporation into the committee of a minority of appointed members would also operate beneficially, through its tendency to bring into the committee some persons of special expert training who, under the present system, are either unwilling or unable to be nominated and elected. Possibly the changed political complexion of the School Committee resulting from the last election, may lead the legislature to receive with more favor than in the past propositions for its reorganization; and if those who lately interested themselves in the movement conducted by the Public School Association will devote one-half as much of effort toward convincing the Legislature of the desirability of reform, Boston may be enabled to take an important step forward in the administration of her schools during the coming year.

By chapter 149 of the Acts of 1893 the School Committee was given additional loans of \$300,000 in 1899, \$300,000 in 1900, and \$250,000 in 1901, making \$850,000 in all, to pay the expenses of building and furnishing High and Latin schools, including the land therefor. By the amendment of chapter 408 of the Acts of 1895 made by chapter 442 of the Acts of 1897, not less than \$500,000 of the loans to be issued by the School Committee for new school-houses in the years 1897 and 1898 were to be applied to new

high schools. Thus, within the five years from 1897 to 1901, inclusive, the city will have expended \$1,350,000 for new high schools, and for the seven years from 1895 to 1901, inclusive, will have expended under the authority of special statutes amounts aggregating \$3,150,000; of this sum, \$1,800,000 will have been devoted to Primary and Grammar schools, and \$1,350,000, as above stated, to High and Latin schools. Of this aggregate amount, the \$500,000 authorized to be expended in 1895 was outside the debt limit, while the balance has been, or is to be, issued inside the debt limit. The regular borrowing capacity of the city for the coming year is thus reduced by the sum of \$300,000 to provide for additional high school accommodations.

The problem of keeping the cost of new school buildings, particularly where land is to be bought for them in the more thickly populated districts of the city, within reasonable limits, has become one of pressing importance. The cost of the new Paul Revere School upon Bennett St. will amount to the surprising total of about \$400,000—\$230,000 for land and \$170,000 for cost of building and furniture. The School Committee very properly secured at the last session of the Legislature an amendment of the unnecessarily onerous provisions of the building laws governing the construction of school buildings, and it is to be hoped that these changes, with the exercise of special care in the selection of sites, will result in greater economy in the future.

SCHOOL FINANCES.

By chapter 400 of the Acts of 1898 a most important, and, I believe, beneficial, departure was made in respect to the finances of the School Committee. In my last inaugural address I called particular attention to the evils of the financial system then existing—under which the appropriations for the support of the schools were nominally made by the City Council, but in reality by the School Committee itself, through its power to make expenditures for certain purposes in excess of its appropriations. By the act referred to a definite financial system for the support of our schools has at last been established, under which the City Council is deprived of the nominal power which it formerly exercised, and the School Committee itself becomes an appropriating body, but subject to a definite limit established by law. Under this act the School Committee, on or before the first day of March in each year, is to pass an itemized budget subject to the right of the Mayor to veto any item—the Board having the right to pass an item over the veto of the Mayor only by vote of three-fourths of all of its members. This gives the Mayor for the first time a real and effective financial check upon the specific expenditures of the School Committee; hitherto he has only had the power of signing or vetoing the general, unitemized appropriation for schools passed by the City Council—which of course gave him no real financial control. Under the new act the School Committee is limited in its appropriations to \$2.85 on \$1000 for the coming financial year, and to \$2.90 thereafter, so that it is now possible for the first time to make up a really scientific budget of all of the current expenditures of the city. For the financial year which closes on the first of February next, the School Committee was allowed to expend \$2.50 upon each thousand dollars of the actual taxable valuation of the city; this sum amounted to only \$2,700,000, while the appropriation made by the City Council, before the passage of the act, amounted to only \$2,470,000. The necessity of providing this additional sum of \$230,000 after the passage of the annual budget imposed a very serious strain upon the finances of the city for the present year, and this could only be met at all by adding to the school appropriation the probable surplus

income which had been kept in reserve to meet contingencies, and was no more than sufficient for such purpose. It seemed to me better, however, to submit to any financial inconvenience this year for the sake of securing the benefit of a definite limitation of school expenditures—even though that limitation allowed for a substantial increase of school appropriations during the next two years. If the \$9.60 tax limit is to be maintained, it would certainly seem that 32 per cent. of the total amount which the city is allowed to raise for current municipal expenditures, outside of interest and sinking fund requirements, is as much as can be devoted to the public schools without serious prejudice to other necessary branches of the city service. There was every reason to believe that if this check had not been imposed the expenditures of the School Committee would have continued to increase at a more rapid ratio than valuations, and would have been considerably over \$2.90 on a thousand of the valuation by 1901. I believe that our school expenditures can be, and must be, kept within the limits now established by this law, and that any movement for the modification of its provisions, at least until it has been fairly tried for a series of years, should be strongly resisted.

CITY COUNCIL.

It seems hardly necessary for me to repeat the views which I have expressed in preceding addresses in respect to the constitution of the City Council. The passage of the act establishing the Board of Apportionment greatly strengthens the considerations, strong enough before, in favor of the consolidation of the two branches in one body. The maintenance of a lower chamber of seventy-five members, drawing \$22,500 a year in salaries, and now having scarcely a vestige of financial power,—only that of rejecting items passed by the Board of Apportionment,—and with no control over street franchises, seems such a palpable absurdity, and such a costly method of maintaining a municipal debating club, if that be considered a desirable object, that it seems to me scarcely possible that it can much longer be allowed to exist. Even with its financial powers unabated, the record of the Common Council during the last year in respect to the transaction of public business hardly seems to be such as to warrant its longer continuance. Since the summer vacation it undertook to hold fifteen meetings, but was obliged to adjourn six times for want of a quorum without transacting any business, while it adjourned three times more because of the breaking of a quorum before the business before it had been disposed of; and it was only upon rare and exceptional occasions that the attendance was such as to warrant any hope that the fifty votes necessary for the passage of a loan order could be secured, whatever might be the merits of the measure.

I do not wish by any means that it should be inferred that I am opposed to local representation in the City Council upon a reasonable plan. On the contrary, I believe that such representation is necessary and useful upon a proper basis. I would magnify the importance of ward representation by reducing the number of local councilmen from three to one from each ward, and I would combine this local representation with that of the city at large, as now represented in the Board of Aldermen, by consolidating the two branches into a single body.

The law passed by the last Legislature requiring each political party to nominate twelve candidates for the Board of Aldermen,—the sole practical outcome of all the legislative attention given to the subject of the reorganization of our City Council at the last session,—seems to me a striking example of the sham reform which is

sometimes inflicted upon the public by well-meaning persons unfamiliar with practical conditions, or by others having sinister objects in view. The theory of this measure was that it would enlarge the latitude of choice by the people, which had been absurdly restricted by the operation of the law as it stood, with its limited vote feature; but the practical result has been, as every one acquainted with politics knew that it would be, to demoralize both political parties, and to substitute a personal scramble and a competition in political throat-cutting for an orderly election, with opposing party tickets. The law as it stood, practically restricting the voter to the right to reject two out of the fourteen candidates, was bad enough; but with this last change it is decidedly worse. No well-informed politician regarded the result of the recent aldermanic election as other than a lottery, and the final determination of the party complexion of the Board by a few votes in the whole city, and that only after a recount, was only what was naturally to be expected under such a system. Moreover, the striking fact should be noted, which perhaps was not anticipated by the framers of this act, that it took a far smaller number of votes to be elected to the Board of Aldermen than ever before,—the candidate receiving the largest number of votes only having 19,807, or 57 per cent. of the whole number cast for the successful candidates for the Board of Apportionment, while the successful candidate receiving the smallest number of votes only had 15,500, or 42 per cent. of such number. Last year, on the other hand, the votes cast for successful candidates for Aldermen ranged from 38,507 to 34,227.

The party system may have its evils, but, in my opinion, they are very distinctly less than those of the last plan which the Legislature has endeavored to substitute for it.

NEW DEPARTMENTS.

In my first inaugural address, three years ago, I stated my desire "to promote by every means within my power the interest of the citizens at large in their municipal work and to invite their cooperation in every practicable manner in its administration and in the consideration of municipal problems." I have been fortunate in having been able to carry out this purpose to such a considerable extent through securing the establishment of seven new unpaid boards and enlisting the services of so many citizens in an advisory or semi-official capacity. While I believe in giving all necessary powers to the Chief Executive of a city, I have never believed that the best results could be achieved, or the greatest progress realized, in municipal government through the sole agency of single headed departments and paid officials, responsible only to the Mayor. The establishment of unpaid boards, subject to appointment and removal by the Mayor, introduces a happy medium between the old system of administration carried on under the direction of legislative committees, and the newer theory of single headed and centralized administration under the Mayor. I believe that in many departments Boston is now securing precisely the benefits which many English cities have realized to such a striking extent through the service of public-spirited citizens upon administrative committees of the City Council, without encountering the evils inherent, under our very different political conditions, in any attempt to secure similar results by precisely the same machinery which works well abroad. The substance of good municipal government is very much more important than any particular forms of organization, and I believe that the people of Boston will adhere to whatever system, whether of centralization or

distribution of powers, they find to give the best results in the long run.

The development and extension of the work of the city, and the increasing extent to which it has become specialized, are well indicated by the department changes of the last three years. On January 1, 1896, the total number of strictly executive departments—excluding the street commissioners, the city clerk, the city messenger and the clerk of committees—was 28; six of these departments were controlled by unpaid boards, and the remainder by salaried officials. At the present time we have a total of 36 executive departments, of which no less than 13 are under unpaid boards—the total increase having been in departments of this character, with the exception of the soldiers' relief department, created by an act of the last legislature, which is in charge of a single paid commissioner, and the institutions registration department. Seven new departments headed by unpaid boards have brought 44 additional persons into the service of the city, and, including 36 persons who were serving in this manner three years ago, we now have a total body of 80 men and women engaged in the official service of the city without pay. If we include the seven members of the merchants municipal committee, the ten members of the advisory committee on free municipal lectures recently appointed, the four members of the committee on the municipal camp, and the seven members of the special committee to investigate the operations of the law relating to the punishment of drunkenness, elsewhere referred to in this address, the total number of persons engaged in this manner in the official or semi-official service of the city would amount to 101. To have such a large number of persons brought into contact with the problems of city work from an outside standpoint should certainly have a considerable effect upon the government of the city.

ASSOCIATION OF CITY OFFICIALS.

The charter amendment act of 1885 provided that the Mayor should "once a month, or oftener, call together the heads of the departments for consultation and advice upon the affairs of the city." This provision has never been carried out in practice, and it would at the present time entail the calling together of 123 persons. While it does not seem practicable to carry out literally this feature of the charter, it has seemed to me that its spirit might be observed, and that in the end decided advantage might result, through the formation of an association to contain such of the heads of departments, and perhaps other principal officials, as cared to join it, the number of members of boards, heads of departments, chiefs of divisions, secretaries of boards and superintendents of institutions in the service of the city now amounting to over 150. The object of such an association would be to promote a better personal acquaintance with each other among the chief officials of the city, a better understanding by all of the work of each, and a more active and intelligent interest on the part of each official in the general work of the city and in the broad problems of municipal government. Such an association should be able to secure from time to time addresses from well-known authorities upon municipal government, or practical administrators from other cities.

With these ideas in view, a meeting of the members of unpaid boards has already been held, at my invitation, and preliminary steps have been taken looking to the formation of such an association, to include salaried as well as non-salaried heads of departments. A keener and more general interest in the problems of municipal government is very greatly needed, and such an association, if judiciously managed, ought to serve as an important

agency for promoting intelligent civic spirit among the people, and increasing their interest in, and attention to, municipal affairs.

AN ARCHITECTURE DEPARTMENT.

At the beginning of last year the Architectural Division was transferred from the Public Buildings Department to the Engineering Department, and the position of Consulting Architect to the Mayor, which was established by me three years ago, was united with that of Chief of this Division. The connection of this work with the Engineering Department is clearly the most suitable one, if it is not to be given an independent standing, and the service of the Division has proved useful and valuable in many ways—such as in the preparation of studies and estimates for proposed new buildings, and of plans for alterations and repairs and for steam heating and ventilating. The examination of all plans requiring the approval of the Mayor, including those of new school buildings, by a consulting architect, has proved of great utility and value to the city.

While I would not favor the revival of the office of city architect as it formerly existed, experience has satisfied me that there are considerable drawbacks to the plan of securing outside architectural service prescribed by chapter 49 of the Acts of 1895, and that the city loses a good deal by scattering its work among so many different architects, and having it done to a great extent without continuity or harmony. I have recently taken up this subject with a committee of the Boston Society of Architects appointed to consider it, and it now appears to me that a scheme of organization for an architectural department can be formulated which will be free from most of the dangers and drawbacks existing under the old system, and which will secure the advantages of a continuous department, of a proper professional character, without being exposed to the political and administrative difficulties formerly experienced. The plan which has most commended itself to the members of this committee and to myself is that of establishing an architectural department under a board of three or five practising architects, who would only give such portion of their time to the city as might be required. These architects might be appointed partly by the president of the school committee, acting on behalf of that body,—on account of the large amount of building work in connection with schools,—and partly by the mayor, subject in each case to confirmation by the art commission; the latter provision is deemed an absolutely essential one to insure the maintenance of a sufficiently high professional standard, and to remove the choice beyond the sphere of political influences.

The designing and erecting of all school buildings would be done by one of the members of the board named on behalf of the School Committee, the work being divided in some manner between them, probably by territorial districts, and the same duty in relation to all other municipal buildings would be divided between the two members of the board appointed by the Mayor; plans of school buildings to be subject to the approval of the School Committee and of the Mayor, and all plans for any other municipal buildings to be subject to the approval of the Mayor, as at present. All plans would come before the full board of architects for approval, and in this manner the same advantages would be secured, with competent men constituting the board, which were realized in such a striking manner through the work of the board of architects which passed upon the plans of the buildings for the Chicago fair. It seems to me that under this plan a continuity and harmony of purpose, and a combined professional judgment, would be introduced in a man-

ner which is now impossible, and that there would be the greatest assurance possible under any system that the architectural work of the city would be of the best obtainable character. The advantage of having the same architect, if thoroughly competent, work year after year upon one class of buildings, such as school-houses, seems obvious, and the combined judgment of the board would take the place, in an even more effective manner, of the important service now performed by the consulting architect, while the expense to the city need not be any greater than under the present system. The importance of securing the best possible architectural work upon new municipal buildings can hardly be exaggerated, and any change of organization which promises to secure the highest character of professional service will, I believe, be likely to receive the approval of the Legislature.

The cost of the work of the Architectural Division for the present financial year will be about \$12,000; \$3000 of this amount, however, represents charges against other departments of the city. During the year this division will have performed architectural services for work costing about \$250,000, upon which in ordinary private practice,—the work being mostly in the nature of alterations,—the commissions of an architect would be at the rate of ten per cent. In addition to this, the office force has been engaged largely upon preliminary plans and estimates for contemplated buildings, and has made many plans for the different departments for purely administrative purposes.

REPAIR DIVISION.

I spoke in my address a year ago of the desirability of starting a repair division, through which the city could perform directly all work of repairs or alterations upon its own buildings. This was established as a division of the Public Buildings Department in the month of February, and the old Armory Building, on Wareham street, was enlarged and fitted up to adapt it for this use; the city now has here well-equipped shops for doing all kinds of work connected with buildings,—including carpentering, cabinet making, plumbing, steamfitting, gas piping, roofing, plastering and painting. An experienced and successful contractor, Mr. Charles Logue, was appointed at the head of this division, and its work has been carried on under the supervision of the Architectural Division so far as plans and specifications have been required. The operations of this division have been of a very comprehensive and varied character, and I have no hesitation in saying that it has already proved a very useful and economical addition to our municipal machinery, producing results highly creditable to its chief.

The regular basis upon which work for other departments has been done has been that of charging actual cost of materials and labor, plus ten per cent. to cover general expenses; but quite an amount of work has been done upon the basis of a fixed sum estimated in advance. Not only has this basis of charges enabled the city to get a more reliable quality of work than could have been secured from private contractors at the same prices, but the financial showing of the division itself has been highly satisfactory. Up to December 1 the division has done work for other departments to the amount of about \$140,000, and the bills rendered exceeded the current expenditures by over \$12,000, and in addition some \$4,000 has been spent upon the plant in excess of the \$20,000 covered by the regular appropriation, thus showing a total profit upon the books of over \$16,000 for the first ten months. I have invited the Boston Society of Architects to appoint a committee to go over the books and examine the operations of this division and to make

a report thereon, for the information of the City Council and of the public.

In view of the fact that the connection of this work with that of the Public Buildings Department is only nominal, and is something of an inconvenience financially, and that it has now attained an importance which entitles it to the rank of an independent department, I have lately recommended the passage of an ordinance raising the division into a Building Construction Department, and I trust that this will be favorably acted upon by the present City Council at an early date.

It is only fair to state that the work of this division has been somewhat handicapped through the inadequacy of the appropriation upon which it was started, and through the lack of a fund for meeting its current pay-rolls and bills, in anticipation of its collections from other departments. It necessarily has a large amount of charges outstanding pending completion of work, and it therefore requires cash capital to run it upon a proper basis, just as a similar private organization would do.

LIBRARY DEPARTMENT.

Boston was a pioneer in the establishment of municipal libraries in this country, and the growth and development of this important educational agency has long been an object of solicitude and a subject of pride to our citizens. The general importance and rank of our library is well understood, but only those familiar with its work fully realize the magnitude of its operations, the comprehensive and far reaching extent of its service, its character as an educational institution—rather than a mere collection of books,—and the special facilities which it affords for research in particular lines, entitling it almost to the rank of a university. The removal of the library to its new building on Copley square, constituting the chief architectural monument of the city and one of the finest library buildings in the world, opened a new era in its history and immensely extended its opportunities for usefulness. The use of the new library for all purposes has far exceeded the anticipations of its builders, and already its ample accommodations are almost fully occupied. The library now contains some 700,000 volumes, and this number is being added to at the rate of about 30,000 a year. A count made last March showed that it was visited in one week by over 34,000 persons, nearly all who came to consult or take out books. While the library ranks about eighth in the world in the number of volumes, it is practically the first in this country in this respect, and it undertakes a greater variety of service than any other library in the world.

Our library is not a single isolated collection of books; it is a great system of libraries, comprising the central library on Copley Square, ten branch libraries of independent collections of books, and eighteen stations for the delivery of books, of which twelve contain deposits of books from the central library. Residents from all parts of the city can draw books from the central library on an application made at the branch located in their immediate vicinity. The interesting experiment of delivering books from the central library to the public schools is also being tried, and five schools are now served in this manner. The number of outstanding active cards is sixty-five thousand, for an estimated population of five hundred and thirty thousand at the present time, so that one out of every eight men, women and children in the City of Boston, including all conditions, races and ages, is the holder of a library card; our library system as a whole can fairly claim a larger actual constituency than any in the world.

Besides being a popular circulating library for the citizens of Boston, ours is a great reference library for scholars, containing the largest and most available collections for reference in this country. The

service which it renders to scholarship throughout the Union is strikingly indicated by the fact that in a single week one hundred and fifteen different towns and cities, from Maine to California, and from Minnesota to Texas, have been represented in the recorded applications for books. The library plant and equipment, including books, represents an investment of at least \$5,000,000, and the endowments to the library amount to \$215,000 more, it is very much to be desired that the amount of such endowments should be increased through the bequests of those who are able to realize the value of the work which the library is doing, and the great need of adding to its strength by endowments, to cover special purposes which cannot fairly be met by taxation.

Over 2,000,000 persons entered the various departments of the library during the year 1897, and 1,200,000 books were issued to card holders for use at home. At almost any time over 700 readers may be found at work in the central library building. The total number of persons employed in all capacities in connection with the library and its branches is no less than 345.

By chapter 475 of the Acts of 1898, the Library Trustees were authorized to expend not exceeding \$100,000 to complete the equipment of the library building and to make certain changes and improvements in the arrangements for handling books, the necessity of which had been felt for some years. This sum has now been substantially expended, and the improvements which have been already effected have resulted in greatly improving the service.

During the summer the trustees, finding it possible to secure the services of Mr. Worthington C. Ford, late chief of the Bureau of Statistics of the Treasury Department at Washington, a man of unusual accomplishments in this line, decided, with my approval, to establish a division of economics and statistics in connection with the library, and this has now been carried on for six months under his direction. There is every reason to believe that this new line of work will be of decided value, and that it will still further increase the facilities and the standing of the library as a great educational agency.

An ordinance provides for the annual appointment by the Trustees of the Public Library of an examining committee of not less than five persons, who shall examine the library and make a report to the board of its condition. This system has been in operation for some time, and, upon the whole, with good results. I desire to endorse a suggestion contained in the report of the last examining committee that this body should be given a more continuous character, through the appointment of a third of its members each year, to serve for the term of three years. The operations of our library system are now so extensive, and so much investigation is required to acquire any real knowledge of its practical workings, to serve as a basis of valuable suggestions for improvements, that the more permanent character which would thus be given to this task of friendly criticism would be decidedly advantageous. Five library trustees cannot begin to come into personal contact with all of the varied elements in the city which are interested in the development and the work of the library, nor can they approach this task from the many different points of view which are needed to give it a comprehensive and well-rounded character; and it seems to me that an examining committee appointed upon the basis suggested would better supplement their work.

FREE PUBLIC LECTURES.

I need not repeat the arguments which I have recently advanced in favor of the establishment here of free lectures, of an educational character, for adults, upon somewhat the same lines which have

proved so highly successful in the city of New York. The School Committee has readily responded to my request to permit the use of suitable school-halls for this purpose, and the City Council has just appropriated the sum of \$2500 to start the work. I have recently appointed an advisory committee of ten members to take charge of these lectures; it has been assigned a regular office in the building leased by the city at No. 64 Pemberton square, and is actively engaged in arranging for about one hundred lectures to be given during the coming winter and spring. I believe that this plan, intelligently conducted and properly correlated with the work of the Public Library, can accomplish much for the spread of enlightenment among the masses of the people, as well as afford a great deal of recreation of an improving character. Courses of free lectures given in the various districts of the city, carefully arranged and developed from year to year, and supplemented by the educational facilities of the Public Library and its branches, will come near to constituting a university for the people—where all who have a thirst for knowledge, whatever may be their daily occupations, can be given an opportunity of enlarging their information and of broadening their minds. It seems to me of the highest importance to enforce the idea that education does not stop with the school-room, that the adult is only less in need of further learning than the child who has acquired its first rudiments, and that the municipality should assume the function, through the Public Library and the lecture platform, of promoting such education. The character of the proposed work has been emphasized by the appointment upon this committee of three of the teachers of our public schools and one member of the School Committee, while the close connection of the undertaking with the Public Library has been secured through the service of the librarian as another member. It is proposed to give some of the lectures, as a central course, in the Old Public Library Building, several having been already arranged upon the subject of imperialism; but they will chiefly be given in suitable school-halls throughout the city.

MUSIC DEPARTMENT.

The ordinance establishing the Department of Music was passed by the City Council, upon my recommendation, in the month of April, of last year, and the Commission entered upon its duties about the first of June. It now consists of one orchestral conductor, one band master, one pianist, one instructor in the theory of music, and one instructor in singing, the two latter also being organists. The establishment of this department marked a unique departure in municipal government, in this country, at least, and the work it has already accomplished, with the public interest which it has aroused, gives assurance of its future value as a means of popularizing good music.

Immediately after the organization of the Commission a municipal brass band of 35 pieces was organized, under the direction of Mr. E. N. Catlin as conductor, and practically all of the usual open-air concerts paid for by the city during the summer months were given by this band. The music upon the Common was given more the character of regular concerts than ever before, through the provision of some 5000 seats and of printed programmes, as well as through the larger number of musicians engaged; and when the weather was favorable the attendance ran as high as 10,000 to 15,000 people, considerably exceeding that of former years. The same band also gave regular Sunday evening concerts at the Marine Park, South Boston, and there, also, the attendance was much larger and the audiences more interested than ever before.

The appreciation of the seats provided on the Common, and the suitability of the site for regular use for concerts, leads me to suggest the desirability of providing by loan for the erection of permanent seats, arranged in the form of an amphitheatre. These could be removed in winter, and used year after year, and they would considerably improve the opportunities for listening to the music with advantage. It seems to me that the cost of this improvement would be fully warranted by the results.

The Music Commission has arranged, at my suggestion, for giving a number of local concerts of a chamber concert character—the musicians consisting of a string quartette, a pianist and a singer—in the various sections of the city. Twelve concerts of this character, at an estimated cost of about \$60 each, have been arranged for, and eight have actually been given; the results have been, on the whole, highly encouraging, though there have been drawbacks in some places, which can be removed in future. Those who have attended these concerts have generally appreciated them, and they have certainly tended to enlarge the popular knowledge of music and to cultivate the taste for it. I trust that it may be found possible in future to give thirty of these concerts yearly, which would enable three different programmes to be presented during the season in each hall used for the purpose. The total expense of such a series of concerts need not exceed \$2,000, and I believe that this amount can be expended in this manner to good advantage.

A more ambitious undertaking—which, owing to legal difficulties, has been carried on by the members of the Commission individually, with my co-operation, and not acting as a board—has been the series of twelve orchestral concerts, ten of which have already taken place, given on Sunday evenings in Music Hall by an orchestra of thirty-five musicians; this has been led at different times by Emil Mollenhauer and by Mr. John C. Mullally, both accomplished and experienced orchestral conductors. The highest charge for reserved seats at these concerts has been 25 cents, and a portion of the seats have been priced at 10 and 15 cents. The result has been, upon the whole, decidedly gratifying and encouraging. The musical critics have recognized the excellent character of the performances, and the audiences have generally been large and appreciative. These concerts have undoubtedly afforded a better opportunity to listen to good music at cheap prices than has ever been given in Boston before; and if they can be maintained upon a proper plane year after year, they should have a material influence in elevating the musical taste of our people and adding to the reputation of Boston as a centre of musical education and taste. It is unfortunate that the city, in the opinion of the Corporation Counsel, lacks the legal authority to give any concerts at which an admission fee is charged toward meeting expenses, and that the funds to make up any deficiency must therefore be raised by private subscription; but it ought to be possible to continue these concerts from year to year, even under these disadvantages. Experience thus far would indicate that a guarantee fund of about \$1000 is needed to cover deficiencies in a series of a dozen concerts; each one costs \$400, and, at the low prices charged, expenses are only met when the hall is entirely filled, which, of course, cannot always be the case.

The Music Commission is now provided with a secretary who gives about half of his time to its work, and has a regular office in Pemberton square. I trust that it may be given a sufficient appropriation during the coming year to promote the still further development and extension of its excellent work.

ART DEPARTMENT.

The old art commission, established by act of the legislature in 1890, and invested with purely negative powers, has now been replaced, under the provisions of chapter 410 of the Acts of 1898, by an art department, which retains the negative powers of the old commission in respect to the right to disapprove statues and other works of art, and is also given certain important positive powers,—including that of awarding, subject to the approval of the mayor, all contracts or orders for the execution of any monument, statue, bust or other work of art for the city; also the further power, to be exercised, however, only by unanimous vote, approved in like manner, of removing or altering any existing work of art in the possession of the city. The commission is now made up of five nominees, of the trustees of the Museum of Fine Arts, the trustees of the public library, the trustees of the Massachusetts Institute of Technology, the Boston Art Club and the Boston Society of Architects, respectively, each of these organizations submitting three names to the mayor, from which he selects one. This method of choice seems to me an excellent one, particularly for this special purpose, and the objections to the service of the mayor as a member of the commission, which I called attention to in my last inaugural address, are thus put an end to. The board as now made up consists of three architects, one student of art and one lawyer. Boston now enjoys the distinction of being the only American city which has placed art upon the same basis as other branches of municipal work through the organization of an art department with positive powers, and important results in some lines of artistic development may reasonably be expected.

The transfer of the duty of awarding contracts for works of art to be executed for the city from the Mayor to the Art Commission, will prove a relief to the Executive, who ought not to be called upon to perform directly any administrative act, and it should result in the long run in securing better works of art than the city has had in the past. At the present time the Art Commission is considering the important matter of awarding the commission for the statue of William Ellery Channing, to be paid for from the bequest of \$30,000 received by the city for that purpose under the will of John Foster. The full-size model of the new statue of Colonel Cass, to replace the one now on the Public Garden, has been approved by the Commission, and the statue should be in position by next summer. The sculptor to whom the commission was given is at work upon the model of the monument to Gen. Joseph Warren, and it is hoped that this also may be erected by the beginning of another year. I have asked the Commission to examine all our existing statues and monuments, with a view to the exercise of the power of removal or alterations in any cases which may seem to warrant it. In view of the importance of Copley square from an architectural and aesthetic standpoint, I have also requested the Commission to make some recommendation as to the best plan of laying it out anew.

BATH DEPARTMENT.

This department was created by an ordinance passed by the City Council on my recommendation and approved February 4, 1898, and its work has furnished a striking example of the benefits of specialized administration in municipal service and of the progress resulting from it. It was impossible for the Board of Health, which had had charge of public baths since 1879, with its other varied and pressing duties, to give to the administration of baths that attention which its importance calls for,—nor would it have been able, probably, to

obtain the large appropriation needed for the adequate development of public bathing. So far as can be ascertained, Boston was the first American city to establish public baths upon any considerable scale. As long ago as 1860 the City Council appointed a joint special committee "to consider and report what measures, if any, can be adopted to provide such facilities for cheap bathing as will induce all persons to avail themselves of the means provided." The report of this committee recommended the establishment of public baths, but no progress was made until the close of the Civil War, when, in 1866, the sum of \$10,000 was appropriated for the establishment of salt-water baths. During the thirty years from 1868 to 1898, in spite of the immense growth of the city during that time, there had been but little change in the appropriation for baths, or in the bathing places themselves. The Bath Commission found, on its establishment, thirteen floating bath-houses, and one beach bath which had been operated by the Board of Health, and another beach bath—that at the North End Park—which had been partially operated for one season by the Park Commission. In the course of its first season's work the Commission added one new floating bath of a greatly improved type, which was placed at the Harvard bridge, three new beach baths, located at Wood Island Park, Charlestown Heights Park and K St., South Boston, respectively, two river baths, one located on the Neponset River, near the Neponset Ave. bridge, and one on the Charles River, near Spring St., West Roxbury, on the grounds of the Parental School, and two swimming pools, one at Orchard Park and one at the Cabot St. bath-house. In addition, the Commission took charge of the administration of the baths at the North End Park, improving their facilities and increasing their use enormously. Furthermore, instruction in swimming was for the first time provided; this was given during the season by eleven instructors at twenty different points, and 3500 children were taught to swim. The total attendance of bathers increased from about 650,000 in the summer of 1897, as nearly as can be estimated, to over 1,900,000 in the summer of 1898,—a considerable part of the increase being due to the much larger use of the baths by children.

The total current expenditures of the department for the summer season, outside of permanent improvements upon the plant and additions to equipment, were about \$38,000, so that each bath given cost, upon the average, about two cents; this included the furnishing of free bathing suits to children everywhere, and to adults at the North End Park, the furnishing of bathing suits to adults elsewhere at a charge of five cents, and the furnishing of towels at a charge of one cent. Experience amply demonstrated that comparatively small improvements and close attention to administration, with an effort to study the convenience of bathers, resulted in a large increase in the patronage of the public. I believe that public opinion will pronounce this work worth at least what it cost, and I trust that it will receive the necessary financial support in the future.

I believe it was fully demonstrated that the portion of the North End Park to the east of Commercial St. should be regarded purely as a beach and bathing establishment, and that it should be permanently transferred from the Park Department to the Bath Department, which will require an Act of the Legislature. It is in no proper sense a park, and it should not be under park administration.

The popularity of the swimming pools at Orchard Park and at Cabot St. fully demonstrated that some facilities of this character are needed for districts two or three miles away from the water front. The whole cost of the Orchard Park swimming pool, with equipment for use, was only about \$3500, and this seems a moderate

price to pay for a pool used daily by about 1000 persons, on an average, during the summer months.

MUNICIPAL GYMNASIA.

By chapter 221 of the Acts of 1897 Boston was expressly authorized to establish public gymnasia, not exceeding one to each ward of the city, and to accept donations of lands or buildings for this purpose. The city acquired the East Boston gymnasium on Paris street, through the generous gift of Mrs. Esther P. Ahl, in the month of January, 1897. It was carried on under the direction of the Park Department, assisted by a local advisory committee, until the establishment of the Bath Department, and was turned over to the latter in the month of April, 1898. The large use which has been made of this gymnasium, since it passed into the hands of the city, and the beneficent influence which it has undoubtedly exerted in the portion of the city in which it is situated, afford ample encouragement for the establishment and maintenance, at the expense of the city, of similar gymnasia for other sections, and I earnestly advocate the adoption of such policy.

An appropriation of \$15,000 was made in 1895 for a gymnasium for Ward 13, South Boston; but, owing to the difficulty of finding a suitable site and of erecting a proper building within this amount, nothing was done until last summer, when it was decided to erect a wooden building upon land owned by the Commonwealth—taking the risk of its future sale, or of its future purchase by the city—and in September an additional appropriation of \$5,000 was obtained from the City Council. The building is now well advanced toward completion, and is expected to be ready for use early in February; I have no doubt that it will prove of as much value to the district in which it is situated as has been the case with the East Boston gymnasium. While the building can be completed ready for use for the amount now available, it will probably be found desirable to further increase the appropriation by a few thousand dollars, in order to still further increase its facilities.

While the experiment of establishing municipal gymnasia is a unique one, so far as I am aware, in this country—the municipal gymnasium, even abroad, being but little known, at least outside of Germany—I can hardly emphasize too strongly my belief in the great benefit to the community, not only physically, but also socially, and even morally, of an extensive development of reasonable and properly directed athletics, which can only be effected through local gymnasia maintained by the city. It is now fully recognized by students of social science that there is a close relation between physical exercise and crime,—that an active interest in athletic exercise, and the practice of it, tend to keep a person out of evil paths, while, on the other hand, an absence of any such interest makes many persons an easier prey to the temptations and influences which lead to crime. One distinguished observer, of much practical experience, goes so far as to say that "crime in our large cities is to a great extent simply a question of athletics." I am fully convinced that there is nothing visionary about the general proposition that the more the community spends in bringing facilities for exercise, which in winter must be to a great extent indoors, within the reach of all, and in encouraging and properly directing their use, the less it will have to spend for the punishment of crime,—to say nothing of the diminution in the expense of caring for the sick, which largely falls upon the public. Boston now expends about a thousand dollars a day upon its City Hospital; might not this burden be somewhat reduced if \$25,000 a year were expended in the support of public gymnasia, with the influence in the di-

rection of bodily health which they would exert, directly and indirectly?

The County of Suffolk will expend during this financial year about \$235,000 upon the support of its Houses of Correction at South Boston and at Deer Island, to say nothing of the sum of \$1,632,500, which the city pays for its police force, and of the large expenses for police courts, jails, etc. Putting the case merely upon the basis of economy in the expenditure of money, I firmly believe that prevention is cheaper than cure, and that judicious expenditures in directions which would in time, if not immediately, reduce crime, and also diminish pauperism and insanity, would in the end better justify themselves than a continuance in the present policy of devoting enormous sums to the maintenance of various classes of public institutions, without making a sufficient study of the causes which lead to the increase in the number of their inmates, or tracing effects back to causes, and attempting to remedy the conditions from which results inevitably follow.

I think that no one can study the causes of the crimes and misdemeanors which fill our public institutions without coming to the conclusion that a large percentage of them at least might have been prevented by the force of counteracting agencies, which can easily be set in motion through municipal effort. I believe that if we can establish and properly administer six or eight municipal gymnasia in different sections of the city, their influence for good can be so clearly seen within a few years that no one would propose to give them up. Boston has an opportunity to lead the way in this line of municipal work, and to initiate a departure which cannot but be of great interest to other American municipalities, and redound greatly to her credit.

FRANKLIN FUND.

I am happy to be able to state that material progress has been made during the last year in two important respects towards the proper utilization of the unique bequest made to the town of Boston over a hundred years ago by Benjamin Franklin. In the first place the supreme court handed down a decision last August declaring that there had been no failure in the trust, as the city of Boston was the trustee, so that there was no basis for the appointment of trustees, which had been made by the Probate Court upon the theory that the trust had failed. Secondly, the Board of Managers—consisting of the members of the Board of Aldermen and the three clergymen named in the will—has recently rescinded the unwise vote passed by a former board of managers devoting the fund to the establishment of a trades school, and authorizing the purchase of some five acres of land, on the top of Parker Hill, as a site therefor, at an expense of \$80,000,—such vote authorizing the purchase at forty cents a foot of land then assessed at twenty cents per foot, and now at twenty-five cents per foot in lots. It seems to me very fortunate that a quietus has thus been placed upon the ill-advised proposition to devote this fund to the erection of buildings for a trades school, leaving the institution without means for its support, and even without authority to obtain an appropriation out of the school funds.

I have fully expressed my views upon a desirable disposition of this fund in a communication to the Board of Managers, and I need not now repeat them. Doubtless a portion of the fund might be used with great advantage in some manner for enlarging the knowledge of mechanics, whom Franklin by another, and an independent provision of his will showed his desire to benefit; but I believe that this can much better be done by placing a portion of the fund in the hands of an institution like the Institute of Technology, which is al-

ready organized and equipped for such work,—subject to proper conditions as to the giving of free lectures upon technical subjects, or as to the establishment of free scholarships, open to graduates of the Boston schools.

This object can be practically accomplished through the purchase of a building and land from the Institute and its lease back again for a long period, at a nominal rent, subject to such conditions. I believe that the balance of the fund cannot be applied in any better manner with a view to the honorable perpetuation in this city of the name of the distinguished philosopher and revolutionary patriot than by devoting it to the erection of additional permanent baths, which object he specifically mentioned in his will, to be combined, wherever practicable, with gymnasia or ward-rooms. I trust that final action in some such directions will be speedily taken by the Board of Managers, so that the people of Boston may not longer be kept out of the enjoyment of the fund which Franklin intended for their benefit.

RANDIDGE PICNIC EXCURSIONS.

During the last summer season 13,540 children were given a day's outing on Long Island, including a luncheon and facilities for bathing, at an aggregate expense of about \$2600—\$2000 of this amount being the income of the Randidge Fund for last year, and the remainder an unexpended balance from the income of the fund for the previous year. These excursions, carried out without an accident and at an average expense of only fourteen cents for each child, afford a striking example of the widespread beneficence which can be accomplished, under proper management, by the use of the facilities which the city is able to supply. Such a record could not, I believe, be duplicated, or even approached, by any private charitable organization, and I have taken some pride in demonstrating, partly as an encouragement to others to follow his example, the wisdom of the donor in placing this somewhat unique bequest in the hands of the city. Last year the children were in nearly all cases furnished also with free transportation by special electric cars from the immediate vicinity of their homes, through the liberality of the Boston Elevated Railway Company, which contributed as many free tickets as were required for this purpose. The various churches of the city were invited to organize excursions, and to furnish volunteer committees to take charge of the children, and nearly all of them were carried out in this manner. The Penal Institutions Commissioner, Mr. E. C. Marshall, acted as director of these excursions, in addition to performing the regular duties of his office, and much of their success is due to his zealous and intelligent service. If these excursions are to continue to go to Long Island, it is very desirable that a pier should be constructed adjacent to the picnic ground, so that the children may be landed at a point much nearer to their destination than is now possible.

Fourteen excursions for mothers and babies were also given in naphtha launches, the parties being landed at Squantum Head, which offers considerable attractions for this purpose and is quite easy of access.

MUNICIPAL CAMP.

In the month of July of last year, an appropriation of \$2500 having been made for the purpose by the City Council upon my recommendation, the city initiated the unique experiment of opening a camp for boys who would not otherwise be able to secure a vacation outside of the city limits. A committee of four persons was given the general supervision and charge of the camp, and its executive direction was put

in the hands of Mr. E. C. Marshall, Penal Institutions Commissioner. The cost for the equipment of the camp, to accommodate one hundred boys, was a little under \$1000, and other expenses amounted to about \$1500. The camp remained open for seven weeks, and 831 boys were received in all, so that the weekly per capita cost of maintenance was \$1.83. The boys received were between the ages of ten and sixteen years, and upon the whole the results achieved were quite satisfactory and afford distinct encouragement for the considerable extension of this plan next summer.

I believe that this is a profitable line of educational and social work, and that training of some value can be given even during the short period of one week, besides affording to the boys most needing it an opportunity for a change of scene and for out-of-door life, with boating and bathing, which has so much recreative value and quickening influence. I have already expressed my belief that an expenditure of \$10,000, to give 5000 boys a week's outing each of this character, would be fully warranted in the value of the results from an educational standpoint alone—if we take a broad view of what education consists of and do not make the mistake of confining it to what can be learned from books in the school room.

VACATION WORK FOR CHILDREN.

I am strongly impressed with the idea that the civilization of any community is to be measured very largely by the extent and the character of the provisions which it makes for the education, training and development, both physical and mental, of its children, so far as such work can be undertaken by the public. The doctrine that it is not only a proper, but an essential, function of the municipality to provide free facilities for giving a certain minimum of education to the children of all its citizens, and that the State may properly require that all children shall either be given the instruction provided at public expense or similar private instruction, is now thoroughly accepted, at least in this country, and requires no argument in its support. It is also an accepted idea that the municipality must assume the burden of providing for the training and bringing up of dependent or neglected children, either in institutions supported at the public expense or in private families in which children are placed out under the supervision of public authorities, besides assuming the control, in institutions, of any children who may commit crimes or misdemeanors, or may be habitual truants. Our Parental School is practically a boarding school, maintained by the public for the benefit of boys who have shown that they require the training and the discipline which the day schools cannot afford. Under the act of the Legislature passed in 1897 establishing a board of trustees for children of the above-named classes, Boston has taken an important step in advance of other municipalities, and the benefits of separating the care of children under the public charge from the control of adult paupers or criminals have already been considerably felt, and will be still more strikingly manifested during the next few years, as changes of administration are affected and as buildings and plants are improved.

Between the work of the public schools on the one hand, and that of the Children's Institutions Department on the other, I believe there is a large and fruitful field for the employment of municipal effort. This has already been amply demonstrated by the work which has been accomplished during the last year—through the very extensive use by children of the new bathing facilities which were offered last summer for the first time, including instruction in swimming, through the extensive use of the larger opportunities afforded by the opening during the summer of a much

larger number of school yards than heretofore, through the remarkable success of the children's excursions to Long Island paid for out of the Randidge Fund, through the promising initiation of the experiment of conducting a city camp for boys on the same island, and through the use which has been made by children of the special facilities for exercise, under the direction of an instructor in gymnastics, which were afforded them at the East Boston gymnasium.

I believe that these various lines of work, all relating to development outside of the school-room, should be more closely correlated and considerably extended, and that this can best be effected by formally recognizing the provision of means for the physical development, training and healthful recreation of the children of the community as a proper municipal function, and by specializing this work under the general direction of a new department, to be created for this purpose, and to be under the charge of an unpaid board of trustees. The administration of public gymnasia is placed by ordinance under the charge of the Bath Commission and properly belongs to that body, so that the control of the use of gymnasium facilities by children may well be left in its hands, together with the control of the use by children of public bathing facilities, including instruction in swimming. But I believe that a new department may well be created to have charge of the use of school playgrounds, of the Randidge excursions, of the boys' camp, and of any similar lines of work which may be developed relating particularly to the out-door life of children, especially during the vacation season. Without in the least undervaluing the efforts of private charitable organizations in this direction, I think that no one can be familiar with the work which has been actually accomplished through municipal agency in the lines above mentioned without recognizing that the most far-reaching and comprehensive results can only be secured through the organization of the forces of the whole community, under the direction of the city itself. I shall accordingly ask the City Council to pass an ordinance providing for such a department, —the nucleus of which may already be found in the advisory committee which had the supervision of the boys' camp last summer, and in the Committee of the Massachusetts Emergency and Hygiene Association, which has for many years had charge of keeping open a limited number of school playgrounds for the use of children. It would be hard to assign limits to the comprehensive and beneficent work which could be developed under the specialized administration of a department of this character, at a comparatively small cost to the public, while the work which has been actually started is surely of sufficient magnitude and importance to call for continuous control. As the city secures more playgrounds and equips them, it will be very important that their use for sports shall be properly controlled and directed and this line of work might also well be entrusted later to such new department.

In this connection I desire to call attention to the fact that Boston is behind New York, at least, in failing to recognize the importance of vacation schools, and to make some provision for them. In that city the Board of Education has adopted the vacation school as a feature of the school system, and a regular appropriation of school funds is made for their maintenance; and the City of Philadelphia has also followed this example. Experience has shown that the value of such schools, and the demand for them, has to be demonstrated through other agencies before they can be incorporated into the educational system, and I believe it is better to follow the same course here rather than to urge the establishment of such schools upon the School Committee without such

preliminary demonstration of their value. This work may well be initiated by such a new department as I have suggested.

The turning loose upon the streets during the summer months of an immense number of children, whose parents are unable, on account of the occupations in which they are engaged, to control them or keep them out of mischief, presents a most serious social problem to the community. The comparatively little which the city has already done in the directions above mentioned has certainly exerted an appreciable influence for good; and I am sure that nothing will be more heartily welcomed by a very large proportion of the parents of school children than the provision by the city of some means of training and wholesome occupation for them during the vacation season. In my opinion the economic, social and moral loss of leaving the great mass of children upon whose education such an amount of public money is expended, to run wild to a great extent during the summer months, and to lose so much before returning to school, is so great that the community cannot afford to let it longer continue. If even two per cent. of the expense of carrying on the public schools was devoted to some form of vacation training, I have not the slightest doubt that it would be a more profitable and economical expenditure of public money.

The maintaining of continuity just as far as possible in the process of education and training is certainly of great importance. That it is desirable, even necessary, to suspend the regular routine work of the schools during the summer, I do not for a moment deny; but it by no means follows that a different kind of training, physical as well as mental, cannot be substituted during the vacation season, with the actual approval of the children themselves, and experience elsewhere has shown that great numbers of them are ready and anxious to attend vacation schools.

INSURANCE OF EMPLOYEES.

The practice of providing for those dependent upon a deceased municipal official by giving to them the balance of the salary to which he would have been entitled during the balance of the year within which he died, has been growing to such an extent as to call attention to this subject. Last year the Legislature passed no less than a dozen special acts authorizing the city to make such payments, and the question where, if at all, the line is to be drawn in the making of such donations, is fast becoming a practical one. If the present tendency continues unchecked, there will be no logical reason for confining such payments to the families of officials who have been in receipt of respectable salaries, and a demand will certainly be made, with a good deal of force, that the families of laborers who have served the city faithfully for many years shall be treated with similar consideration. Any inquiry into this subject will, I think, soon lead to the conclusion that the only way to deal equitably and satisfactorily with this problem is through the establishment of some general system providing for the insurance in case of death, and the retirement after a certain age, of all municipal officials and employees of certain classes or grades. In older countries this problem has been fully met and worked out through the adoption of systems of this nature, with satisfactory results.

The insurance or retirement fund is generally made up one-half through contributions from the salaries of employees, and one-half through a special contribution from the municipal treasury. The question whether the scale of salaries paid by this city is such that it would be just to throw the whole of the necessary contribution for this purpose upon the employee, or whether the city treasury ought equitably to bear a portion of it, is one of detail:

but I am fully prepared to take the position that in some manner or other a system of providing for such insurance and retirement should be established and made compulsory. It is only in this manner that special legislation of the character referred to, prompted by natural sympathy for those left unprotected for, but crude and inequitable in its operation, can be avoided, and even if the whole necessary contribution were deducted from salaries, the city would only be compelling its employees to adopt a course which enlightened self-interest, or a sense of obligation to others, ought in any case to lead them to take.

BUILDING LIMITS.

The very important matter of extending the present building limits has at length received the attention of the city council, and the committee on building department has recently presented an intelligent report, calling attention to the grave objections to permitting the construction of wooden buildings to the extent which is allowed in this city, and recommending the passage of an ordinance materially extending the present limits. While there are bound to be considerable difference of views, even among those who have no private interest which would be affected, as to the exact lines to which the limits should be extended, it does not seem to me that there is room for any honest difference of opinion, if we look at the matter solely from the standpoint of the general public interest, as to the crying need of some further restrictions. Boston has many things to be proud of, and sets an example to other cities in many ways; but in the matter of permitting the erection of wooden buildings we are decidedly behind other cities, and I have no hesitation in saying that our present policy is not only dangerous in exposing us to the possibility of a widespread conflagration, but uneconomical as well. All competent authorities recognize the great risk we run that under certain conditions a fire might be started in one of these districts of wooden dwelling houses which it would be absolutely impossible to stop until it had done immense damage. The danger from fire and the consequent effect upon insurance rates would alone be sufficient to stamp our present lax policy as a foolish one; but it has not even the excuse of anything but apparent economy in its favor, even from the standpoint of cost of construction. A brick building may cost in the first instance twenty per cent more than a wooden one, but it does not follow that there is any real economy in building the latter; on the contrary, the best authorities are agreed that the life of a wooden building is so much shorter, and the annual cost of keeping it in repair and painted is so much greater, that a brick building is really more economical in the long run. This seems to me clearly a case where municipal authority should be brought to bear to compel owners of property to conform to what will prove in the long run for their own interest, as well as for the safety and advantage of the whole community.

The extent to which wooden building is still carried on within our city limits is one of the very weakest spots in our proper municipal development, and while a great amount of harm has already been done through the absence of proper regulation, there should be no further delay in applying a radical remedy and introducing a better order of things. As the committee points out, the City of Philadelphia affords a striking example of the benefits of a sound policy regulating the erection of dwelling houses, and the sooner Boston starts upon the same path the better it will be for the future of the community. It is unfortunate that the committee reported at such a late date that it was not practicable for the last City Coun-

cil to take action, but I trust that the present body will promptly take up the matter. If it should fail to do so, I should favor an application to the Legislature for the passage of some restrictive legislation rather than a continuance of the present conditions. The fact that there has been no substantial increase in the area within the fire limits since 1871 is alone enough to indicate the need of some action to keep up with the growth of the city. I believe that the interests of real estate owners and of builders would adjust themselves more easily to a new order of things than some of them apprehend.

LIMITATION OF HEIGHT OF BUILDINGS.

After a long and complicated contest before the Legislature, arising out of the proposed erection of the Westminster Chambers building on Copley Sq., chapter 452 of the Acts of 1898 was passed, providing that no building within a certain defined district adjacent to this square should hereafter be built to a greater height than ninety feet, except that there could be erected on any such building above this limit "such steeples, towers, domes, sculptured ornaments and chimneys" as the Board of Park Commissioners might approve.

This act further provided that any person sustaining damage or loss in his property by reason of the limit of height prescribed by the act could recover his damages from the city of Boston,—thus establishing for the first time in this State, if not anywhere, the principle that for a special limitation upon the height of buildings the owners should receive compensation. This act further allows special damages, under a clause general in form, to the owners of the Westminster Chambers building, the erection of which had already been contracted for, giving them the right to recover from the city damages for material bought, or actually contracted for, which could not be used, and also for the extra cost of the material in the stories below ninety feet in excess of what the cost would have been for a building to be carried only to that height. Owing to the variety of conflicting interests and the confusion attending the whole matter, the officers of the city were unable to shape the proposed legislation, and while they acquiesced in its passage, as the best thing that could be done under the circumstances, they never admitted the constitutionality of the damage provision relating to compensation for the taking of mere air space—if a limitation of height may be regarded as constituting such a taking; nor did they believe that the limitation of height to ninety feet in the case of the Westminster Chambers, instead of ninety-six feet, which would have allowed one additional story, was called for by any aesthetic or practical consideration, or that it would be at all worth the additional cost that would be imposed upon the city, claimed by the owners to be from thirty to forty thousand dollars. The appearance of this building in relation to the other buildings around Copley square when it was subsequently erected to the height of ninety-six feet, fully confirmed us in the opinion that there was no sufficient reason for the city, at least, to initiate legal proceedings to keep the height of the building down to the ninety foot limit, thereby incurring this considerable extra expense,—particularly in view of the doubt as to just how much might be covered by the term "sculptured ornaments" in this case. The responsibility of bringing such proceedings was therefore left to others, and the case has recently been heard before the Supreme Court, but is not yet decided.

In this connection I desire to call attention to the desirability of legislation to authorize the city to take and remove the

upper stories of the single building on Commonwealth Ave., which was carried to a considerable height above that of other buildings on this avenue shortly before the passage of the law establishing a limit of the height of buildings on parkways. The cost of this taking should not be very large, and it would restore a symmetry of sky line upon our finest residential avenue which should never have been allowed to be broken.

NEW BRIDGE TO CAMBRIDGE.

In accordance with the provisions of chapter 500 of the Acts of 1897, the City of Boston, the City of Cambridge, and the Boston Elevated Railway Company, joined in a petition to the Legislature of 1898 for the passage of an act to provide for the building of a new bridge to Cambridge, to take the place of the present West Boston bridge, and chapter 467 of the Acts of 1898 was accordingly passed, providing for the building of such a bridge, and constituting the Mayors of Boston and Cambridge, ex-officio, with a third person to be selected by them, a commission for this purpose. Mr. E. D. Leavitt of Cambridge, a consulting engineer of the highest standing and of large experience, who had frequently been employed by this city upon important matters, was chosen as the third member of the commission, and it organized on June 16, by choosing me as its chairman, and by selecting Mr. William Jackson, City Engineer of this city, as chief engineer of the bridge. The Commission has held quite a number of meetings, and a good deal of preliminary study has been given to the problems involved, and certain general questions of policy have been acted upon; its members visited Chicago for the purpose of examining a certain type of draw, and it sent its chief engineer to Europe to examine some of the best bridges to be found there. Mr. Edmund M. Wheelwright, formerly City Architect of Boston, was selected to prepare sketches and designs from an architectural standpoint, and he has also recently studied the chief foreign bridges.

A design was prepared embodying an artificial island, midway between the two shores—or rather two islands with the main channel passing between them—with a bascule draw. This plan seemed to the Commission to have many advantages from an aesthetic standpoint, and it would add comparatively little to the cost. The Board of Harbor and Land Commissioners agreed to permit the building of such an island, provided that the material therefore were dredged from the basin, but the permission of the War Department is also required, and the Commission is not yet advised as to its decision, although the proper application was made several months ago.

The question of building the bridge at a somewhat higher elevation above the water and without any draw has lately been receiving attention, and at its last meeting the Commission voted in favor of this plan; but for this also the permission of the war department is required, and this may not be forthcoming. Until these fundamental questions are settled little progress can be made in the actual preparation of the plans of the new structure. The temporary pile bridge which will be necessary to provide for traffic while the new bridge is under construction is, however, under way, and will be completed next spring, at a cost of about \$45,000.

The greater part of the bank of the Charles above the present West Boston bridge, as far as navigation extends, has now been taken for park purposes, either by the Metropolitan or by the Cambridge Park Commissioners, and a large part of the remainder of the river bank is so held that it is not available for wharf uses. It is also probable that the owners of quite a portion of the rest of the shore would

consent to have the new bridge constructed without a draw, and certain classes of commerce would be better accommodated than at present by the increased clear head-room under the bridge,—which it is proposed to make about the same as that under the bridges over the Thames at London. The construction of this bridge without a draw would be a considerable saving, both in first cost and in the yearly expense of maintenance, and it would be far easier to construct a bridge of a fine appearance in this manner.

The Commission fully appreciates the opportunity for the construction in this conspicuous location of a bridge which will have a dignified and monumental character, and will be in keeping with the magnificent basin which it will span; and it believes that the people of the two cities have a right to expect the best possible artistic effect, as well as the most substantial and durable construction. Every effort will be made to make this one of the finest and most striking bridges in this country, and no reasonable expense will be spared to accomplish that result. A serious difficulty, however, is met with in connection with providing for the tracks of the elevated railway, as it is almost impossible to secure a beautiful structure if the tracks are carried over the bridge at an elevation. This does not seem to the Commission to be a necessity, as a reserved space can be provided in the centre of the bridge for the cars of the elevated railway. This matter is still under discussion between the Commission and the representatives of the Boston Elevated Railway Company, in its legal and engineering aspects, and it is hoped that some arrangements can yet be arrived at which will permit of the artistic treatment of the problem.

BEACON STREET EMBANKMENT.

Chapter 344 of the Acts of 1891, as amended by chapter 435 of the Acts of 1893, authorizes the city, through its board of park commissioners, to build a sea-wall, on lines to be drawn by the harbor and land commissioners, to extend the present embankment from West Boston bridge to the sea-wall in the rear of Beacon street, and thence parallel with this sea-wall to a point opposite the Back Bay Fens. I endeavored last year to secure the passage of an act to provide further that one-half of the expense of constructing that portion of such embankment, with a suitable sea-wall, running parallel to Beacon street, of a width of forty feet, should be assessed upon abutting estates,—leaving the connection of this embankment with the portion already constructed as far as the West Boston bridge to be filled in in future, on account of the greater expense of this section. Owing to the number of other matters which the city had pending before the metropolitan affairs committee, and the opposition of some persons who favored an embankment of greater width than forty feet, the measure failed at the last session; the effort to secure such a law will be again made this year, and I see no reason why it should not be successful. A stage has certainly been reached in the development and improvement of this fine basin of water when some remedy should be found for the conditions now existing in the rear of Beacon street, which detract so materially from the appearance of the river. I believe that a considerable majority of the abutters will be willing to stand one-half of the expense, the whole of which is estimated to amount to about half a million dollars, and that the city will find it profitable to bear the remainder. In view of the fact that the board of harbor and land commissioners has stated its opposition to the construction of an embankment extending more than forty feet into the river beyond the line of the present sea-wall, and of the doubt which exists whether the war department,

the approval of which is necessary, can be got to consent even to this limited amount of filling in of the area of the basin, it seems to me entirely impracticable to contend for any wider embankment than the one proposed, and I trust that all interests can be got to take this view of the matter.

THE SUBWAY.

The completed subway, extending from the Public Garden to the Northern Union Station, was finally opened for full use by passengers on September 3, 1898, and the figures for the first complete month of operation—October, show in a striking manner the large use which has been made of its facilities. The average number of cars running through the subway daily was 3518, and the average number of persons entering the cars at the subway stations was 64,467, or very nearly 2,000,000 for the month. 75,000 free transfers were made within the subway during the month. These figures, with the general opinion of the public, and the material reduction in the time of transit, sufficiently indicate that the subway has fully answered the expectations of its advocates, and has at least assisted very materially in the solution of the problem of rapid transit for passengers through the central part of the city. It certainly affords one of the best examples which can be found in this country of a public work well conceived in plan, skilfully carried out in design, built with economy, and fully justified by actual results. Competent authorities from other States and countries have pronounced it a most interesting and remarkable engineering work, and the manner in which the whole undertaking has been planned and carried out has redounded to the credit of the city. Without underestimating the value of the services of many others in connection with the enterprise, it is not too much to say that the credit of securing the adoption of the general plan, and of obtaining the necessary legislative authority to execute it, is chiefly due to ex-Mayor Nathan Matthews, Jr., under whose administration the work was commenced, and it seems to me proper to recognize at this time the indebtedness of the people of Boston to him for a very important public service.

The removal of the surface tracks from Boylston and Tremont Sts. has effected a great improvement in these important thoroughfares, and in their usefulness for teams and carriages. When Tremont St. is properly repaved—and I am inclined to favor an asphalt surface as the most suitable—between Boylston St. and Scollay Square, it will make a fine, open thoroughfare, which will materially add to the beauty and dignity of the city, particularly opposite the Common, and greatly facilitate the easy passage across the city of street traffic—which is subjected to much more difficulty and delay in its movement through any of the streets running across the city to the eastward of Tremont St. It is indeed possible that it may later be demonstrated that even these important considerations should be set aside in order to secure the advantages of street railway transportation on the surface of Tremont St., whether for local use or for through passengers; but it seems to me clearly improper to force this question to an issue so soon after the removal of the tracks, and before the new plan has had a fair test. The greatest good of the greatest number must govern in the long run, but the experiment of getting along without tracks upon Tremont St. should at least be given a proper trial.

THE ELEVATED RAILWAY.

The plans of the Boston Elevated Railway showing the character of the proposed structure were approved by me as to architectural appearance and obstruction to light and air, under the provisions of the statute, on April 29, 1898, and were ap-

proved by the Railroad Commissioners on July 11. Since the latter date the company has been actively engaged, with a considerable force of men, in making surveys and examinations of streets, and doing other preliminary work necessary to enable it to enter into the contracts for the erection of the elevated structure. Its officers now state that they expect to have a large portion of the structure under contract within a short time, to begin the work of putting in the foundations at the opening of next spring, and to build a large part of the work by the end of the year. The erection of the elevated railway upon the new Charlestown bridge is already under way, and the plans for the terminal stations at Roxbury and Charlestown have been completed.

SOUTHERN UNION STATION.

The new Southern Union Station, now substantially completed, and opened today for the use of the trains of the Old Colony and New England divisions of the New York, New Haven & Hartford Railroad Company, now represents the actual carrying out of the plans embodied in the act providing for such a station, passed by the legislature of 1896 and approved on June 9 of that year. The practical completion of this great undertaking, with all of the delays and drawbacks which it has been subjected to, within this period of two and one-half years, is a result that may well be referred to as a cause for congratulation, and as an important landmark in the development of this great municipal community. Boston now possesses a railroad passenger station which is not only the largest, the finest and most completely equipped of any in this country, but which has very few, if any, equals in the world. I have never entertained any doubt that this terminal would fully justify the wisdom of the expenditures incurred by the city for new streets in connection with it, without which the undertaking would not have been possible. Moreover, the contribution of the city has not been added to its long-term debt, but has already been paid in part—the sum of \$353,346 for this purpose having been included in the tax levy of last year—and the temporary debt will be entirely extinguished during the next few years, leaving us with the improvements as a permanent addition to our municipal assets, without a corresponding charge on the liability side of the account. Out of the original loan of \$2,000,000 authorized for this purpose, the sum of \$466,614 has not yet been expended; and while the amount of the loan authorized has been increased \$750,000 under the provisions of chapter 248 of the Acts of last year, to meet the unexpectedly high cost of land taken, \$250,000 of this amount was set aside for the proposed bridge carrying Cove st. over the railroad tracks, which was not contemplated in the original plan, and the whole \$750,000 was deducted from the ordinary borrowing capacity of the city for the last municipal year, so that this extra amount has not increased the indebtedness of the city outside the debt limit. It may be worth while to repeat that for its expenditure the city has secured the extension of Dorchester ave., 92 ft. in width, containing 178,150 sq. ft., the extension of Summer st., 100 ft. in width, containing 88,631 sq. ft., and Cove st., or Atlantic ave. by its new name, 100 ft. in width, and containing 81,946 sq. ft.; while it only had an area of 19,440 sq. ft. in Cove st. as it formerly existed, and has discontinued in Federal and other streets an additional area of 248,920 sq. ft. Thus the city possesses today 80,367 more square feet of street area than it did before, in addition to the important widening of Summer st. between Purchase st. and Atlantic ave., to the sea wall along Dorchester ave. extension, with its fine opportunities for the landing of boats of va-

rious sorts, and to the abolishment of the grade crossing of the Boston & Albany Railroad at Kneeland st.

PUBLIC ALLEYS.

Until last year there was no special provision for the laying out of alleys or passageways as public ways, and this had proved an inconvenience in many respects. It seemed to be clearly desirable that some arrangement should be made for the laying out, construction and cleaning of important alleys and passageways, and accordingly the officers of the city secured the passage of chapter 298 of the Acts of 1898 for that purpose. Under its provisions any alley or passageway not exceeding twenty-five feet in width can be laid out and constructed at the expense of the abutters in the same manner as an assessable street. The act provides, however, that the city shall not be liable for any defect or want of repair in any such alley, nor be required to keep it free from snow, but all such alleys are to be cleaned at the expense of the city. Under this act twenty-three alleys and passageways have now been legally laid out as public alleys, and will be properly reconstructed, drained and surfaced during the coming spring. While the new duty of cleaning such alleys imposes additional work upon the Street Cleaning Division, I believe that the assumption of this work by the city will prove of decided benefit.

Under this act the abutters are forbidden, under penalty of a fine, to place any snow in a public alley, and at the same time it is provided that the city shall not be required to keep such alleys clear of snow. This creates an unfortunate condition of things, as it is found exceedingly difficult to bring about the requisite concert of action and contribution toward expenses among the abutters to secure the proper removal of snow, and of course an abutter in the middle of a block cannot easily remove the snow opposite his estate unless his neighbors do the same thing. It would perhaps throw too much additional expense and responsibility upon the Street Department to require it to remove snow from public alleys upon the same basis as from streets; and it therefore seems to me that the best way of dealing with the difficulty would be to provide that the Street Department shall see to the removal of such snow by contract when requested by a petition signed by a majority of the abutters upon a public alley, the expense to be assessed upon all of the abutting estates. This work can certainly be accomplished better under municipal direction, and the imposing of such an assessment would not work any material hardship, while those who now pay for the removal of snow would get the work done at a lower cost, and under proper official supervision.

METROPOLITAN WATER SUPPLY.

I referred in my last inaugural to the large claim of the city against the Commonwealth for the taking of our water supply system by the Metropolitan Water Board. I am unable to report that any material progress has been made toward the settlement of this matter during the last year, except that this Board has paid to the city the sum of \$5,000,000 on account of the general taking, as well as \$1,154,766.84 in reimbursement of the moneys paid by it in partial construction of the reservoir at Southborough; but these sums represent only a fraction of what the officers of the city believe it is entitled to receive. While interest on the balance that may be found due is running in favor of the city at the rate of six per cent., and while therefore we can perhaps afford to wait as well as the people of the metropolitan water district outside of Boston, it certainly seems desirable that some steps be taken looking to the settlement

of this case in court. If, as is probably the case, it cannot be settled out of court. No proposition for a settlement has been received by the city from the Metropolitan Water Board, nor has the city been asked to name the sum which it would be willing to take. At the last session of the Legislature the Corporation Counsel and myself endeavored to obtain an amendment to the Metropolitan Water Act to make it clear that this important, and, in many respects unique, case could be tried before a commission, as all similar cases have heretofore been tried in this Commonwealth, instead of before a jury. We also joined with the Metropolitan Water Board in asking for authority for that body to employ its own counsel, instead of being dependent upon the Attorney General's office, believing that this would facilitate a settlement; but neither of these attempts were successful. It was contended, however, that under the machinery of existing law the case might be tried in the first instance by auditors, subject to an appeal to a jury by either party.

The above mentioned sum of \$3,000,000 which was received by the City Treasurer was temporarily used, under authority of law, for ordinary expenditures, in anticipation of the receipt of taxes, instead of borrowing money, as usual, to that amount. Under an order of the City Council, approved Sept. 16, the Treasurer is authorized to invest the whole or any part of this sum in bonds of the city, and to transfer such bonds to the Sinking Funds Commissioners, to be held and managed by them as a separate fund, the interest of which is to be used, so far as necessary, to meet the balance, if any, required for the purposes to which the income from the water works of the city may be applied under the provisions of section 1 of chapter 427 of the Acts of 1898. Under this authority, the City Treasurer has now purchased bonds of the city amounting to \$4,699,000, and has turned them over to the Sinking Funds Commissioners. The proper application of the amount already received on account of this settlement, and of the balance to be received, is thus ensured.

The water of the Nashua river was first brought into the Sudbury reservoir on March 1, 1898, and since then our supply has come partly from that source. The quality of the water has been good, and the assurance of an ample supply for many years to come should be a gratifying one to our citizens, in spite of the great cost of the new system. Up to Dec. 1, 1898, the total expenditures of the Metropolitan Water Board, including the sums paid in partial settlement of the claim of the city, amounted to nearly \$16,000,000. The great dam and basin at Clinton remain to be built, but otherwise the greater part of the work of construction has been finished.

BUILDING DEPARTMENT.

In view of the important and varied interests with which this department has to deal, and on account of requests which have been made to me that I should personally inquire into certain matters connected with its administration—which absolute inability to find the time prevented me from complying with—I have recently invited the Boston Society of Architects, the Master Builders' Association, the Boston Real Estate Exchange and the Boston Board of Fire Underwriters, to join in constituting a commission to examine into the organization, administration, system and methods of this department, "with the purpose of ascertaining whether deficiencies exist in it which should be remedied, and whether its service can be in any manner improved or perfected, whether by changes in the laws or ordinances or without such changes." Each of these bodies has been asked to recommend to me three persons from which I am to select one, and the completed board is to contain one lawyer, one architect, one

builder and one fire underwriter. It is expected that each of these organizations will join in the formation of a commission in this manner, and I trust that its work may result in effecting any improvement in the work of this department which a fair inquiry may show that there is room for. The work of the department is of vital importance to the future of the city, and any honest movement to increase its efficiency, and to strengthen its organization, will, I am confident, receive the hearty co-operation of its present officials, who have been obliged to carry on their work under many disadvantages which need not here be specified.

I shall ask this commission to report upon one proposed change in connection with this department which seems to me well worthy of consideration, namely, the establishment of a system of charges for the various services rendered by it. The payment of fees of a moderate amount would not, I believe, be seriously felt by the financial interests which come under the control of the department, and I believe that it would easily be possible to pay for the whole expense of maintaining it in this manner. The department has for years suffered through its inability to obtain sufficient appropriations to keep up with the increase in its work, and it is doubtful whether this difficulty can be removed in any other way than through the establishment of a fee system.

The gasfitting division of this department was established early in the month of October, 1897, under the provisions of chapter 465 of the Acts of that year. The Board of Gas Examiners fixed the number of inspectors at eight, and the eight highest on the civil service list were appointed by the Commissioner. The work of this division during the last year has largely exceeded the anticipations of the framers of the act, the number of permits to perform gasfitting applied for being over sixteen thousand, or over two thousand applications to be examined by each inspector, and it is only with much difficulty that the present force of inspectors is able to keep up with the work and comply with the requirements of the law. There are now 221 master gasfitters and 236 journeymen gasfitters holding licenses. The total annual expense of maintaining the division is about \$12,000.

The additional security afforded by the inspections made under this law has, I believe, been appreciated by citizens who have come in contact with the work which has been done, and the trade has now adjusted itself to the new conditions created by it. Experience in this line has again demonstrated the advisability in a large city of supervising and licensing trades which have relation to the safety and health of the community; and while there is some hardship at first in enforcing a new system under official supervision, this policy has in the long run proved the most satisfactory to every interest concerned.

METROPOLITAN SEWERAGE

The Metropolitan Sewerage Commission, as directed by chapter 4 of the Resolves of 1898, has made a careful investigation during the past year as to the best route and probable cost of a high level gravity sewer to receive the drainage of the present Metropolitan, Charles and Neponset Valley districts, and other areas in the Stony Brook basin and in Dorchester, and to have its outlet near the south westerly end of Peddock's Island. This scheme provides an outlet for areas in the Stony Brook valley and in Dorchester, which are now without sewerage on account of the want of an outfall; it does not at all supersede the present pumping system of the main drainage works. It is expected that this report will be presented to the Legislature early in the coming session, and the matter will receive the close attention of the representatives of the city.

PARK DEPARTMENT.

During the past year the work of this department has been actively directed to the grading, draining, loaming and planting of the improved grounds of the park system, a total area of about 140 acres having thus been developed and made available for public use. In connection with this work of improvement, about 125,000 trees and shrubs were planted, and 170,000 cubic yards of loam were used. New nurseries have been established, and many thousand young trees have been propagated and planted in them. The nurseries have been established and planted in them. The Francis Parkman road, skirting the west bank of Jamaica Pond, has been opened, and has added greatly to the attractiveness of this beautiful sheet of water. A new driveway has been opened around the Peters' Hill addition to the Arboretum. Two stables and two carriage sheds have been added to the buildings of the department. The handsome stone bridge spanning the Riverway at Longwood, with an arch of 100 feet, to connect Boston with Brookline, has been nearly completed. A good deal of work has been done in the way of erecting stone boundary walls and fences, and laying drains and sewers.

At the Strandway, South Boston, 500 linear feet of sea-wall have been added, and 50,000 cubic yards of filling put in place, the rough work upon this improvement having been nearly completed. A new wharf has been constructed for public use near the Marine Park Head-house.

I stated last year that the Park Commissioners had, by a careful revision, reduced the estimates for the cost of the construction work remaining to be done to complete our park system to the sum of \$1,000,000, exclusive of the work upon the Strandway and upon playgrounds. An application was made to the Legislature for the passage of an act authorizing an additional loan outside of the debt limit to this amount, but authority was only given to the Board, by chapter 313 of the Acts of 1898, to borrow one-half of this sum, as it was deemed advisable for some reason that another application should again be made after this amount had been expended. It seems desirable and economical that the present labor force should be continued until the work of construction is completed, and an application for an additional loan will therefore again be made to the incoming Legislature. I am satisfied that the Park Commission with the services of its present superintendent is performing its important work with great skill, efficiency and economy.

The improvement of the playgrounds already owned by the city, and in charge of this department, is an important matter, but it does not seem to me necessary, in view of other pressing demands upon the city treasury that it should be prosecuted with great rapidity. During the last year a considerable amount of filling and grading has been done at Neponset playground and at Billings Field. The plan of the department for the improvement of playgrounds is simply to make smooth, grassy open spaces, bordered by lines of seats and shade trees, giving full and free opportunities for sports.

Plans are under consideration for the improvement of the part of the Fens lying north of Beacon St., and it is hoped that work can be commenced here at an early date; but this matter is somewhat related to the question of an embankment in the rear of Beacon St., elsewhere referred to, and it can best be treated in connection with it. At Marine Park the grounds surrounding the three pools are to be laid out and planted, making a valuable addition to the available park area at this point. At Franklin Park the completion of the bordering plantations has been planned, so as to enclose the park within a belt of its own woodland. Boundary walls are to be built upon all open lines

in Franklin Park and Jamaica Park. Shelters and lavatories for various parts of the park system are much needed and are among the improvements planned. At Wood Island Park a large amount of planting is to be done this year, practically completing the work at this point.

The work of final development, which has now reached a point so near its end, is bringing the unequalled variety and beauty of our park system into greater prominence and making it more visible to every one. I believe that Boston stands pre-eminent among the cities not only of this country but of the world in the wise liberality with which the work of park development has been supported, in the professional skill which has been applied to it, and in the single-minded devotion of successive boards of park commissioners to the conservation and the development of the important interests entrusted to their charge. If we consider our parks and parkways merely as a real estate asset, they will surely figure in the aggregate valuation of municipal and private property for more than the thirteen million dollars which they have cost, and the Boston of the twentieth century, with its million of population, will have reason to be grateful for the priceless heritage which this generation will hand down to it.

By chapter 54 of the Acts of 1893, the park commission was given the important additional power of planting trees, and placing seats, fountains and works of art, upon streets connecting with any parkway, or road bordering upon a park, within the distance of 500 feet from the point of junction, and of prescribing rules and regulations relating to the height and character of fences, and to the display of advertisements within such limits. This enlarges in a highly desirable manner the powers of the Park Commissioners to protect the immediate vicinity of our parks and to prevent surroundings incongruous with their character.

PLAY GROUNDS.

A very important step in the line of providing local playgrounds upon a proper plan was taken last year, through the passage by the Legislature of chapter 412 of the Acts of 1898. This act, which was not to take effect until accepted by the City Council, authorized the Park Commission, "for the purpose of establishing a comprehensive system of playgrounds, to meet the wants of the different sections of the city," to purchase, with the approval of the Mayor, land for playgrounds in such different locations, not exceeding twenty in number, as it might deem best. A total loan of \$500,000 was authorized for this purpose, to be within the debt limit, and not more than \$200,000 to be expended in any one year. It was not found financially possible for the City Council to accept this act until the very close of the last municipal year; but it has now gone into effect, and the Park Commission will proceed at once to carry out its provisions. The city should thus secure within the next three years a series of playgrounds which, joined to those it already possesses, will prove of the greatest future value, and should place Boston ahead of any city in the country in this important matter. Instead of land being selected more or less at haphazard, as appropriations could be obtained from the City Council, a careful study can now be made of the whole matter, and the loan can be distributed so as to provide as fully and as fairly as possible for the needs of every section. This act only provides for the purchase of land, which of course is the matter of most vital and pressing importance, leaving the improvement and equipment of the playgrounds to be provided for by such appropriations as may be made for the purpose, from time

to time, out of the regular funds. The healthful influence upon the rising generation of a large city of adequate playground facilities can hardly be overestimated; but in order to insure its full benefits we must later establish some such official supervision and direction of athletic sports and exercises as exists in some foreign cities.

At the present time the Park Commission has under its administration fourteen playgrounds, namely, Wood Island Park, Charlesbank, Charlestown Heights, Charlestown Playground, Franklin Field and the North End beach, taken under the Park Act, and the North Brighton, Nonset, First St., North End, Mystic, Fellows St., Christopher Gibson and Billings Field playgrounds, taken under the Playground Act.

The smallest of these, the North End playground, contains 11,384 square feet, and the largest, Franklin Field, contains 77 acres. Seven of these were acquired prior to 1896, and the other seven have been purchased since that time. While it is doubtless best to leave the matter of playgrounds in the hands of the Park Commission during the period of acquirement of land and of construction, I am inclined to believe that when they are ready for use it will be found desirable to create a special department to have charge of their further development and practical utilization.

ENGINEERING DEPARTMENT.

Work in connection with the abolition of the Congress-street grade crossing is making satisfactory progress. The masonry abutments and the piers in Fort Point Channel for the bridge in the line of Summer-street extension have been completed; the work on the foundations for the draw is well under way, and will be in readiness to receive the draw before the middle of March next. The steel superstructure of the fixed spans is under contract, to be completed before May 1.

The masonry abutments at A St. have been built, and those at B and C Sts. will be completed early in January. A large amount of filling has been deposited along the line of the new street, and a contract made for the timber bulkheads for supporting the filling between the water and A St. The portion of the new street near L-street bridge, for a length of about 550 feet, has been graded, the sidewalks built and the roadway paved. The sea wall along the widening of Congress St., between Atlantic Ave. and the harbor line, has also been built.

During the past year the sea wall on Dorchester-avenue extension has been completed from Federal-street bridge to Summer-street extension, and the street has been filled in; the temporary sidewalk has been built and the roadway temporarily paved with granite blocks, excepting a narrow strip adjoining a portion of the property of the Boston Terminal Company, upon which the buildings and other structures have not as yet been so far completed as to permit the paving to be done. The work of widening Federal-street bridge to connect it with the new street has also been done.

Summer st. extension, in front of the new station, has been paved and the sidewalks built. The square formed by the intersection of Summer st. and Atlantic ave. has been regraded and temporarily paved, the centre of the square having been raised about two and one-half feet. Atlantic ave., between Summer st. and East st., and from the latter street to Kneeland st., has been put in such condition that it can be used.

All of the contracts for the new Charlestown bridge have been let except those for the railing, the sidewalks, the final painting, the grading and paving of the approaches, and the construction of a part of the draw pier, which cannot be let

until the old Charlestown bridge is removed. The severe storm of Nov. 27 caused a temporary suspension of the work under contract, and, consequently, a part of this work, which otherwise could have been completed this season, will have to go over until spring. If the weather next spring is favorable, the bridge can be put into service early in the coming summer.

After much study, and after several plans had been prepared and carefully considered, the method of widening Charlestown st. was determined upon, and the plan therefor was approved Oct. 12, 1898. Work will be begun on this widening, and also upon the changes of grade of the street and of the intersecting streets, early in the coming season. The entire work, it is expected, will be completed before the close of next year.

Malden bridge is in poor condition, and if it is to be continued in use extensive repairs should be made. The present draw is too narrow, and should be replaced by a draw as wide as the bridge, as the teaming over the bridge is now limited by the width of the draw, which can only pass one line of travel. The expense of properly repairing the bridge and of rebuilding the draw, so as to put the bridge in proper condition for service during the next ten years, will be about \$40,000.

The expense of entirely rebuilding the bridge and of widening Alford St., from the bridge to the Poor Farm, by a pile structure along the street—the bridge to be of piles and to be sixty feet wide, with a paved roadway and a draw of same width—would be \$150,000, exclusive of the cost of a temporary bridge.

The North Beacon St. bridge to Watertown should be rebuilt to conform to plans approved by the United States War Department several years ago, in order that a sum of \$25,000, appropriated by the United States Government, may become available—the expending of the sum being contingent upon the reconstruction of two bridges to Watertown over the Charles river. One of these bridges has been rebuilt, and the reconstruction of the North Beacon St. bridge will enable this sum of \$25,000 to be used for dredging and improving this part of the river. The estimated expenditure by the city for its part of the expense of rebuilding this bridge is about \$11,000.

The extension of Cove St. has been much discussed, and several hearings have been held by the Street Commissioners; as a result of the various hearings and of conferences between the city authorities and the several railroads it is hoped that a plan can be agreed upon which will be acceptable to all parties, and that work can be commenced upon the foundations for the bridge over the railroad tracks by March 1st of this year.

The method of abolishing the Dorchester Ave. grade crossing has been determined by the commission appointed for that purpose. Plans have been prepared for building the abutments of the bridge on Boston St., it being the intention to raise and finish this street before disturbing Dorchester Ave. Plans for the abutments of the bridge on Sweet St. are nearly finished, so that both of these bridge abutments can be put under contract within two or three weeks.

The work of restoring the ground around the stand pipe on Fort Ave., Roxbury, known as the Roxbury High Fort, as nearly as is practicable, to the condition existing before the old fort was removed, has been performed as far as the funds appropriated would permit; much, however, remains to be done to finish this work in a proper manner.

Hearings are now in progress before a commission appointed by the court to determine as to the method of abolishing the Blue Hill Ave. grade crossing, and several plans and estimates have been prepared showing different methods of treating this pressing problem.

The bridge and abutments to carry the Boston & Albany Railroad over the extension of Brooks St. are completed, and the remainder of the work can be finished during the coming season if the necessary funds are provided. The expense of the completed work will be about \$40,000.

BOARD OF HEALTH.

The health of the city, as indicated by the statistics of the Board of Health, has been exceptionally good during the last year, as the death rate for the year will not exceed twenty and a very small fraction to each one thousand of population—which is the lowest death rate to be found in the available records of the vital statistics of the city. There has been no epidemic during the last year, and the mortality and morbidity from preventable diseases has been very low. Such a result speaks well for the improved sanitation of the city, and for the comprehensive work of the Board of Health.

Last March a bacteriological laboratory was established by the Board with my approval, and placed under the charge of a competent specialist. This laboratory has enabled the Board to perform directly a good deal of important work which it formerly had to pay for outside, and a system has been developed which places some of the branches of health work upon the soundest and most efficient basis yet established in this country. A large variety of work passes through this laboratory, and it has materially strengthened the equipment of the Board of Health. The cost of its maintenance at present is about \$5000 per year, and the Board believes this expenditure to be a highly economical one in view of the important work which it performs. The creation of this division of the work of the Board of Health affords another illustration of the value of increased specialization of municipal work.

By Chapter 219 of the Acts of 1897, the Board of Health was given authority under certain circumstances and conditions to condemn and remove buildings unfit for human habitation and incapable of repair, upon payment to the owner of only the actual damage sustained by him through such destruction, without the taking of his land. This gave to the Board a new and highly important power, which had been found useful in New York, where such a statute had been in force. The strict enforcement by the Board of Health of all laws under which any existing dwellings unfit for human habitation can be razed to the ground, and the spread of any slum areas prevented, is a matter of the greatest importance. The problem of securing the proper housing of the people has not yet assumed such urgent importance in Boston as it has in New York and in some other large cities. In this field of work it is particularly true that prevention is better than cure, and that the rigid maintenance and enforcement upon all landlords of a certain decent standard is easier and better than to allow the development of conditions which will have to be extirpated later at great cost. The slum represents a centre of disease in the body social, and it should be seasonably removed by measures no less drastic than those employed by the physician in dealing with an ulcer on the human body. In England the question of securing the proper housing of the poor is recognized as one of the most important questions connected with municipal life, and large amounts of public money have been expended in the erection of model tenements, owned and leased by the city. If the need of similar action here is to be avoided, landlords will have to be held up by public opinion and by official action to the maintenance of a proper standard in buildings let for tenements.

The total number of houses ordered vacated by the Board of Health was 207,

and 105 of these were actually vacated on account of the refusal of the owners to comply with the orders of the Board; the total number of dwellings ordered vacated and destroyed as unfit for human habitation was 50, and the total number actually destroyed was 23. The discrepancy between these numbers is due, as explained by the Board, to the numerous difficulties, legal and otherwise, which prevented the prompt execution of its orders.

HOSPITAL DEPARTMENT.

The work of the City Hospital during the last year has been unusually active, nearly 8000 patients having been treated in the 11 months ending Dec. 1, which is over 300 more than in the previous year of 12 months. The most notable event out of the usual routine was the fitting up and maintaining of tents and wards for the use of soldiers, of whom 500 were treated, involving a very considerable additional expense.

During the last year a good deal of work of an unusual or extraordinary nature has been accomplished. The new coal pocket, finished at the beginning of the year, has been in active use and has fulfilled all expectations. The enlargement of the boiler house, the extension of the coal conveyor, and the changes to provide for the use of finer and cheaper grades of coal, are practically completed and will soon be in active operation. The main portion of the new laundry building has been completed and partly occupied; contracts for the new laundry machinery have been made, and the hospital expects to have shortly one of the finest and best private laundries in New England. The Ann White Vose Building for Nurses is already roofed over, and the interior work is in progress. Two wards, including modern operating rooms, have been reconstructed for the use of the gynaecological service. Considerable expenditures have been made out of the maintenance appropriation for the completion of various portions of new work.

INSANE HOSPITAL DEPARTMENT.

The Insane Hospital Trustees have under their care at the present time about 1,577 patients, of whom about 1,000 are in State hospitals and the remainder at Austin and Pierce Farms. During the past year these two hospitals have been consolidated under one superintendent for administrative purposes, Pierce Farm being now used as a hospital for men, and Austin Farm as a hospital for women. A consulting staff of physicians has been appointed, and a training school for nurses will very soon be established.

The old wooden building at Austin Farm, originally built for female paupers, which had long been considered unsafe and unsuitable for the insane, has now been absolutely condemned by the State Board of Insanity, and the City Council has authorized the trustees to close the building and transfer its inmates, 138 in number, to the State Hospitals.

This action will lend still further force to the arguments to which I referred to a year ago in favor of considerably enlarging the accommodations for the care of insane furnished by the city, in order that the number of Boston insane patients who have to be boarded out in state institutions may be decreased. It is certainly the duty of the city to make suitable provisions for the care of all of its insane at the Boston Insane Hospital. Considerations of humanity and economy alike recommend this course; great distress is now caused to many people through their inability to visit insane relatives placed at a distance, and the per capita expense to the city of caring for all its insane at its own hospitals would be materially less than the amount now paid to the State, for reasons which have been fully explained heretofore.

The trustees propose to urge this year's city government to make a sufficient appropriation for the purchase of additional land and the erection of at least one new building, so that some material progress toward bringing the institution up to a larger capacity may be made during the coming year. The land already owned affords an admirable site for a great institution of this character, as it is readily accessible from all parts of the city, while it is surrounded on three sides by land forever restricted from being built upon—the land so restricted, together with that available for hospital uses, amounting to nearly one thousand acres.

Plans of this land have been made by the City Engineer, assisted by a landscape gardener, and from these plans sketches have been made for the further development of the hospital. These plans and sketches have been submitted to a committee of eminent experts in the administration of hospitals for the insane, who also visited the institution and inspected the grounds; this committee approved the present location of the hospital and the plans for its extension, and were unanimously of the opinion that a metropolitan hospital should be built in which all of the city's insane can be cared for. The first step must be the securing of an appropriation to erect a new building in place of the one just condemned, and I shall urge this matter as strongly as possible.

Under the present hospital trustees the needs of our insane are being more carefully and scientifically studied than has ever been possible before, and the wisdom of the separation of the care of the insane from that of other dependent persons and criminals has been fully developed.

CHILDREN'S INSTITUTIONS DEPARTMENT.

An important change has been effected in this department during the last year through the permanent closing of the Marcella St. Home, which was formerly the Roxbury Almshouse but has been used for many years for dependent and neglected children. This result has been rendered possible through the further carrying out of the policy, referred to in my last inaugural, of placing these children in families outside the city. The Trustees believe that the good results of this change are already marked. Eight hundred and seventy-eight children in all have now been placed out in families, board being paid for a little over half of the number, and the others being taken without charge. These children are visited by the agent of the Trustees once every two months, or oftener if deemed desirable. Before any home is accepted a careful investigation is made by a visitor, and thus far the Trustees have been able to find a sufficient number of families willing to receive such children. The policy of placing them in families of their own religious faith has been adhered to.

The need of additional dormitories at the Parental School, which I referred to last year, is more pressing than ever, and must now be met at the earliest possible moment. A summer school was held at this institution last summer, and the corps of teachers has been raised to the standard of public school teachers and given the same salaries. A new superintendent has been appointed within the last few months, and an improvement is expected under his administration. Additional land for this institution is much needed, and the grounds should be drained and graded.

The experience of another year has further emphasized the importance of removing the House of Reformation from Rainsford Island to some point upon the mainland. This institution should, if possible, be given plenty of land, upon which an institution upon the cottage plan, per-

mitting of the grading of the boys, can be built. There is imperative need of placing the younger boys, of 13 years of age or less, of whom there are about 30 out of the 145 in the institution, in a separate location, where they are not exposed to contact with the older and more hardened boys.

The expense of keeping the old buildings at Rainsford Island in repair is very considerable, and they are entirely out of date; the institution could be run more economically, as well as do its work better, in new quarters upon the mainland. A change has recently taken place in the office of superintendent, the new incumbent having been chosen on account of his successful experience in educational work, as well as at an institution for boys. It is certainly impossible to secure proper results at institutions of this character unless the greatest emphasis is placed upon the educational side of the work and superintendents are chosen who are competent to direct it, as well as to perform general administrative duties.

The work at the central office of the department has steadily grown, and it has been found necessary to engage additional visitors for children placed out; the office has at present twelve employees. The summer hospital for infants was again maintained at Rainsford Island, 152 having been admitted during the season. The average period of remaining in the hospital was about 21 days, and the mortality was 29 per cent., which is a decided improvement over the record of last year. The cost of maintaining this hospital was about \$7,000.

PAUPER INSTITUTIONS DEPARTMENT.

During the last year two important offices under this department, previously filled by men, have been placed in the hands of women. The trustees determined shortly after their appointment that as soon as practicable the almshouse at Charlestown should be treated as a home for women and aged couples only. This change led naturally to the appointment of a woman as superintendent, and the position is now filled acceptably by her. At Long Island the chief employee in the office is a woman, and she is also doing satisfactory work.

The Charlestown Almshouse has been improved by the addition of more modern appliances in the laundry, and of better facilities for baking, by which a better quality of bread is now furnished to the inmates. Further improvements at Long Island are urged strongly by the trustees, who feel that the material welfare of the inmates demands that there shall be better facilities for heating, lighting and ventilating the buildings. The present electric plant has been repeatedly condemned, and a new power and lighting plant is necessary to furnish the proper facilities. During the summer 61 soldiers were received at the Long Island Hospital and cared for there, an entire wing having been set aside for their use, and it is gratifying to state that not a single death occurred among them.

The City Council has recently appropriated the sum of \$11,000 for a much-needed addition to the facilities for the extinguishment of fire, and the large amount of property owned by the city will soon be given some adequate protection.

The trustees have prepared careful plans and estimates of important and urgent work chargeable to loans which should be done during the coming year, including a new building for a heating and lighting plant, a laundry and a bake shop, estimated to cost \$45,000. The architectural division reports that the present power and heating plant is in a very deplorable condition, and that it must have at least a very general overhauling during the coming year, and that the erection of a new

plant for this purpose would be much more economical in the long run.

INSTITUTIONS REGISTRATION DEPARTMENT.

The act of 1897 providing for the establishment of separate departments for the care of children, paupers and criminals, also established an Institutions Registration Department, to be under the charge of an Institutions Registrar, whose duties were "to investigate all questions relating to the settlement of paupers, to the commitment of the insane, or to the agency for discharged prisoners, or to any rights, duties or liabilities connected therewith, and to perform such services relating to the accounts, and to the collection, registration and tabulation of statistics relating to said departments, or any of them, as may be required by the Mayor, or by the officer or trustees in charge of any of said departments."

It seemed best to await for a time the development of the work of the newly created institutions boards before proceeding to fill this position, and the Penal Institutions Commissioner was therefore designated by me to serve as acting Registrar. As the result of recent conferences between representatives of the various institutions boards and myself, and of our consideration of the proper functions and best methods of administration of the registration department, it has been unanimously agreed that the best organization of the department would be to place it under the control of a board consisting of the Chairmen of the three institutions boards and of the Board of Overseers of the Poor, the Chairman of the Board of Statistics, and the Penal Institutions Commissioner, all serving ex officio.

As the registration department is merely an agency for the performance of certain special work affecting two or more of these other departments, it seems clearly better that it should be placed under their joint control in the manner above suggested, instead of under a single independent head appointed by the Mayor. A petition will therefore be presented to the Legislature at its coming session asking for a suitable amendment of the present law to accomplish this object.

This department has been engaged in making a complete revision of the legal settlements of all the paupers, insane persons and imbeciles supported by Boston in the city and State institutions, in compliance with the law passed last year, this work involving the investigation of over 2500 persons. It is at present undertaking the interesting work of making up a chart of the weekly population of the city institutions, including comparisons with the mean temperature and with the condition of business as indicated by weekly failures, to determine the relation, if any, which exists between them.

The department proposes to make a study in the near future of the location of the dependent classes by districts within the city, in order to determine exactly the areas in which pauperism, crime, and insanity are chiefly found, and also to enter upon an investigation as to the influence of heredity by making a study of the previous environment and antecedents of inmates of our institutions.

PENAL INSTITUTIONS DEPARTMENT.

The penal institutions are in a very satisfactory condition. No disturbances have occurred during the year, and although the discipline is firm the condition of the inmates is good, and their appearance shows that care and attention are being devoted to their well-being.

The school at the South Boston House of Correction is producing gratifying results, and it is proposed to extend the school system to Deer Island, in order that those who are illiterate may receive instruction

in the elementary branches of English. The constantly increasing numbers in our Houses of Correction of those unfamiliar with the English language makes this instruction very advisable.

At Deer Island the classification of the inmates is being made in four grades, the first containing those serving their first sentences, the second, those serving from the second to the fifth time, inclusive, the third, those serving from the sixth to the tenth time, inclusive, and the fourth, those who have been sentenced there for more than ten times. This classification, when fully made, will be beneficial in many ways.

The construction of a cemetery at Deer Island has been in line with the advanced thought of those interested in humane prison management. Until recently the last resting-place of convicts dying at this institution was simply a trench, where their remains were placed without special care. The last moments of the dying will not now be clouded by such a thought.

The antiquated system of lighting the women's building at Deer Island by oil should be replaced by electric lighting as soon as possible, through additions to the present electrical plant.

PUNISHMENT OF DRUNKENNESS.

It seems to me that the problem of so adjusting the penalties for drunkenness that, on the one hand, this form of misdemeanor will receive sufficient punishment to restrict, as far as practicable, over-indulgence in intoxicating liquor, without, on the other hand, imposing too large a direct financial burden upon the community—through the cost of maintaining an unnecessary number of drunkards in confinement at the public expense, and inflicting a still larger loss upon those dependent upon them for support—is worthy of closer study and more practical investigation than it has received. From a social standpoint, this is one of the most serious questions with which the city has to deal, on account of the very large number of persons who are directly or indirectly affected. It has appeared to me that the number of persons confined in our houses of correction for drunkenness was excessive, and that some way should be found to reduce the expense and loss to the community, without increasing the amount of intemperance. During the year ending January 31, 1898, there were 847 committals to the House of Correction at Deer Island on account of drunkenness, amounting to about 75 per cent. of the total committals; and on the basis of a pro rata division of the expenses of the institution, the direct cost to the county for the confinement of drunkards for that year amounted to over \$111,000 at this one institution. In addition, it is estimated that about 3000 persons are committed to our county jail yearly for this offence, besides a considerable number sent to the House of Correction at South Boston. In the last three years the committals to Deer Island for drunkenness have increased about 30 per cent. Past experience has shown the intimate relation between changes in the laws affecting the punishment for this offence and the drunkard population of Deer Island, and I believe it to be highly desirable that this important question should be carefully inquired into, from the standpoint of the financial, social and moral interests of this great municipal community, with a view to the recommendation of remedial measures, if such are found practicable. With this object in view, I have recently appointed a commission of inquiry, consisting of seven men and women specially qualified to investigate this question carefully and without prejudice. I trust that the report which they will make within the next few months will throw some light upon this important problem, and will lead to amendments to the present laws, if these are found desirable.

STATISTICAL DEPARTMENT.

During the last year this department completed an analysis of the receipts and expenditures of the city since its incorporation, intended primarily as a guide in the further study of its finances. This has served as a basis for a series of tables showing the capital account of the city by periods, and also for the tables contained in special publications of the department, already published or in course of preparation. Two important special financial publications were issued during the year, a third is now in press, and a fourth is well advanced in preparation. In the near future the department will undertake the publication of a monthly statistical bulletin. A system of exchanges has been established with a considerable number of statistical offices, both in this country and abroad, and a large number of reports from the executive departments of the principal great cities have been secured in exchange for copies of our own executive documents; a valuable, and in some respects unique, library is thus being collected at small expense. The department has instituted a number of special studies, at my request, in regard to experience in other cities in connection with certain new lines of work in process of establishment here, which have proved quite useful. The department has had editorial charge of the "City Record" and of the "Municipal Register."

THE CITY RECORD.

This weekly publication, which was recommended in my last inaugural address, was started immediately afterwards as a gazette of the executive departments, and later the City Council passed an ordinance, approved Feb. 9, 1898, establishing it as the official gazette of the city and placing the direction of its editing in the hands of the Board of Statistics. The cost of printing this publication for the year has been a little over \$8000, and of this sum about \$2500 is received back for advertisements, and about \$325 for subscriptions and sales. I believe that an official record of this character is fully worth its cost, and that its value will increase from year to year. It has in general fully answered the purposes for which it was established, and it has been particularly useful in enabling the Mayor to keep more fully informed as to the operations of the different departments. It is also serving a useful purpose as a means of getting a variety of important municipal documents printed in a convenient form for reference and preservation, and its statistical value is also considerable. The additional publicity which it ensures for official action should be of influence in holding the departments up to a high standard of work, and enabling any citizen who really cares to do so to follow in a good deal of detail the work of the city. Its publication has attracted favorable notice elsewhere; it has a large exchange list, and thus serves to spread the knowledge of any new or effective municipal work which is in operation here. About 800 copies are printed of each number, and there are 112 paying subscribers at \$2 a year.

CIVIL SERVICE DIVISION.

Six months ago the City Auditor established, at my suggestion, a civil service division of his department, to serve primarily as a record office for the requisitions made by the different departments upon the civil service commission, for the certifications of names to the departments by this commission, and for action taken by the departments under such certifications. The division was further designed as an agency through which the different departments might be furnished with such information as they might require from

time to time as to the somewhat complicated matters of the operation, effect and construction of the civil service law or rules, or as to the state of the eligible lists. The division was established on account of the growth of the business transacted between the different departments of the city and the civil service commission, and it is intended as a convenient organization to facilitate such business, and to see that it is properly conducted and that the civil service laws and rules are strictly observed. The general duty of scrutinizing the pay-rolls of the different departments, to see that no names are added to them or borne upon them improperly, or without strict observance of the civil service rules, also falls upon this division; also the duty of compiling statistical information as to the employees of the various departments. Experience has already demonstrated the convenience and value of an office of this character, and I am confident that it will prove not only a decided convenience to the different departments as a channel for information, but that its work will have a material influence in promoting the regular and orderly operation of the civil service system.

FIRE DEPARTMENT.

The installation of the salt-water fire service in a limited down-town district, which has been delayed through many unforeseen obstacles, was completed last fall, and it is with much satisfaction that I am able to state that under the trials to which it has thus far been subjected the system has shown itself fully satisfactory, and amply competent to perform the work expected of it. At a test made on November 13, the fire boat, lying at Central Wharf, and working with only its average pressure, was able to throw some 3,000 gallons of water a minute in Post Office Sq. to the height of a ten-story building, and in the opinion of the Commissioner, still better results could be shown in an emergency. The total cost of the 4,646 feet of 12-inch pipe thus far laid, together with 200 feet of 6-inch supply pipe, has been \$30,000, and there can be no doubt that this method of fire protection is both economical and effective, within a limited area, as an auxiliary to the regular engines. The Commissioner recommends the laying of about 6,000 feet additional of this salt-water pipe.

The department has been strengthened during the year by additional horses and chemical engines, and the long-felt want of a veterinary hospital for its horses will shortly be removed through the completion of a brick building for this purpose on Swett St.

ELECTION DEPARTMENT.

I am in full agreement with the opinion of the Election Commissioners that the number of election officers now required by law is excessive, and imposes unnecessary expense upon the public. The election officers for each precinct should be reduced to a warden, a clerk, and two inspectors, instead of four, and the number of deputies should be reduced from six to two. This smaller force would answer all practical purposes.

The Commissioners are also strongly of the opinion that the number of precincts, now 191, should be increased so that the maximum number of voters to a precinct should not be over four hundred, and strong arguments can be advanced in favor of such a change.

I will only refer, without repeating former arguments, to the suggestions which I have made in other addresses to the City Council relative to the desirability of greatly restricting recounts of votes, if not doing away with them altogether, and of substituting some other system of counting the ballots for that now in use.

SEWER ASSESSMENTS.

This subject has recently become a burning one through the issuance of the first tax bills containing these charges. It is perhaps not to be wondered at that taxpayers, very few of whom ordinarily take much interest in the finances of the city, or take the trouble to acquire much information as to the requirements of its service, should object to any new form of taxes, particularly if their fears are aroused that it is to be followed by others. The difference between the unanimity of favor with which the law providing for the building of sewers upon the assessment plan was received at the time of its passage in 1897, both within the legislature and outside, and the equal unanimity with which it is now denounced in many quarters as an unrighteous and indefensible contribution wrung from the owners of real estate, affords a striking illustration of the contrast between the way a law is sometimes regarded before and after it goes into operation. The present administration cheerfully assumes the full responsibility of framing and proposing the present sewer assessment law, and it would be glad to receive the whole credit of the important results already accomplished under it; but truth compels the statement that the plan proposed was carefully examined by the committee on metropolitan affairs of the legislature of 1897, and passed by the latter body after full opportunity for consideration, with little, if any, dissent—so that it would seem that the credit, or discredit, whichever it may be, for the adoption of this somewhat novel plan for paying for sewerage work must be divided. The plan embodied in the law of 1897 was brought forward, first, for the practical reason that it seemed to be the only one which dealt effectively with existing conditions and could be enacted into law, and, secondly, for the reason that it seemed to the representatives of the city to be theoretically the most equitable and least objectionable scheme of securing necessary sewerage works. They have not since seen any reason to change the opinions then held; but if it shall seem wise to the Legislature of 1899 to upset this system of special assessment established by the Legislature of 1897,—either because the new sewerage works which were once admitted to be necessary become superfluous when the time to pay for them arrives, or because the assessment, based largely upon the basis of special benefits received, which was approved two years ago, now seems inequitable in its operation,—the representatives of the city will have no other objection to offer than may be involved in laying all of the facts relating to the matter fully and freely before the Legislature.

The practical result of bringing the main drainage pumping plant and the sewerage storage basins up to the requirements of the present and the immediate future, has at any rate been accomplished, or is under contract and far advanced toward completion,—thus giving the city a firm standing ground from which to resist the movement for the taking of its chief sewerage works by the Metropolitan Sewerage Commission, which it was obliged to meet two years ago; this is alone sufficient justification for the Act, to say nothing of the large amount of work which has been accomplished toward meeting the long neglected problem of surface drainage in a number of important districts. Experience had shown that appropriations for these very important purposes could not be obtained from the City Council within the debt limit, and I believe that no competent authority will say either that the work accomplished and in process of execution was unnecessary, or that it has not been properly planned and executed with reasonable economy.

If objection is made, not to the work or

to the manner of its carrying out, but merely to the laying of a special assessment to pay for it, I can only point out that the policy of laying all taxes upon real estate, of which this may be considered a single application, is supported by many eminent authorities and by many large owners of real estate. In my first inaugural I stated my belief that "taxation levied upon real estate distributes itself through the community at least as equitably as it can be distributed under any system, while it has the great advantages of perfect simplicity, impossibility of evasion and absolute freedom for business development."

I still adhere to these views, and they strengthen my own belief that it is sounder policy to pay for necessary sewerage works by a special charge upon real estate than by general taxation levied upon all kinds of property. But perhaps a still stronger argument is to be found in the fact that the benefits conferred by new sewers are very largely local and special, and that it is not, therefore, equitable to distribute their cost equally over the whole community. I therefore still believe that the present system is at least more scientific as a method of taxation, and more equitable, both theoretically and practically, than any which can be substituted for it; and I think that it will be found much easier to denounce the present law in general terms than to frame any substitute for it which will not be open to still greater objections.

SEWER DIVISION.

Work on the reservoirs at Moon Island has progressed steadily during the last year, and about one-half of the work contracted for has been completed; this will give the reservoirs a storage capacity of fifty million gallons per tide, or one hundred million gallons per day. A long-standing nuisance has been abolished by the filling in of the cove on the easterly end of the island, and the building of a sea-wall to protect it. New flushing gates are to be put in, to be operated by compressed air.

At the main drainage pumping-station at Calif Pasture the four engines have been thoroughly overhauled, and their capacity has been increased nearly one-third. The plans for the 72,000,000 gallon pump are well advanced, and this pump will be in operation by the time it is needed to take care of the increased volume of sewage.

In the city proper the Canal-St. relief sewer has been pushed forward, about a thousand feet more having been built this year. This important sewer will be completed in the spring, and this will permit the proper drainage of the Canal-St. district and restore its sewers, which have been entirely filled with sewerage deposit since 1883, to a proper condition, which should result in a great improvement in the sanitary conditions of this thickly-settled business and residential section.

In the outlying districts a large amount of heavy sewer construction has been done in building conduits to carry off the surface water, which has flooded considerable areas in the past. Important work of this character has been done in the Tenean-Brook valley, Dorchester, on Goldsmith Brook, West Roxbury, on the Canterbury branch of Stony Brook, on Mattapan Brook, and on Salt Creek, Brighton. This essential work of providing proper separate channels for sewers for surface drainage, which has been so long neglected, has at last been accomplished to a considerable extent, as the main part of the heavy work has been done, leaving the building of smaller conduits and pipe-drains for the next few years.

The Superintendent of Streets recommends the extension of the Stony-brook conduit from the point to which it has now been completed, near Boylston sta-

tion, to a point a little beyond the Forest Hills station, on the ground that the West Roxbury low-level sewer will have to be extended this year in order to afford sewerage to low-lying districts in this portion of Jamaica Plain, which cannot be otherwise drained. If the Stony-brook conduit is not extended at the same time, this sewer would have to be built for immediate use, and then destroyed and rebuilt when the conduit was extended, which would seem to be necessary within a few years at the longest. Plans and estimates for this work are now being prepared. The Superintendent also believes that a conduit for the lower reaches of Mattapan brook should be built as soon as Blue Hill Ave. is extended to Mattapan. These seem to be the only two large pieces of surface drainage work remaining to be undertaken.

The Sewer Division has done a large amount of work during the year in completely remodelling the sewer system of the South-cove district, which was made necessary through the construction of the new Southern Union Station. Some of this work was of unusual difficulty, and it has been performed with entire success. The Boston Terminal Company has paid to the city about \$100,000 for its share of the benefits from these changes in the sewerage system.

PAVING DIVISION.

The appropriation for this division for construction work was this year very materially decreased from the amount allotted in the last few years, and there were no specials of any importance. From the construction appropriation, however, it was possible to partially take care of some of the most pressing needs in the way of new paving. The following streets were thoroughly reconstructed with granite blocks on concrete base, with pitch-joints: Tremont St., from Boylston to Pleasant; Hanover St., from Tremont row to Washington St.; Howard St.; Commercial St., Clinton St. to State St.

Other jobs of considerable size, with granite blocks on gravel base, were Bunker Hill St., Charlestown; Tremont St., Roxbury; Norfolk Ave. and Parker St.

Asphalt was laid on portions of Shawmut Ave., of Broadway, South Boston, and of Hayward Pl.

A new crusher was built in the Brighton District yard, which will compare favorably with any in the country. It is of 225 tons daily capacity, has compartments for storage, and can carry at least two days' crushings.

The regular work of this division has been considerably handicapped by the excessive cost of snow removal the past year.

Columbus Ave. extension, from Massachusetts Ave. to Franklin Park, has been completed with the exception of a short section between Centre and Ritchie Sts.; in this section one-half the roadway has been built, giving ample room for through travel. The remaining section would have been entirely completed in ten days if the work had not been suspended on account of the heavy snowstorm of November 27.

No work has been done on Blue Hill Ave. during the season, as the contemplated abolition of the grade crossing of the New England Railroad has been before a board of commissioners, who have now practically agreed upon a plan of abolishing the crossing by carrying the avenue over the railroad.

A plan of construction for the remaining section of Commonwealth Ave., from Warren St. to Chestnut Hill Ave., has been adopted. The work already done consists of the removal of ledge by contract and grading by the regular force of the Street Department. The work of grading and removing of ledges can be carried forward to advantage during the winter.

The Act of the Legislature authorizing the borrowing of money for the construc-

tion of this section (chapter 236 of 1898) requires that it shall be completed before the year 1900. To finish the work in one year will require the utmost diligence.

Columbia road, from Blue Hill Ave. to the New England Railroad is completed and in use. Work has not been commenced upon the railroad bridge. From the bridge to Edward Everett Sq. a large amount of work has been done. The grading is substantially completed, and nearly all the sewers, water pipes and gas pipes have been laid, and some work has been done on the surfacing. The contracts for construction require the work to be completed by July 1, 1899, and with the exception of the bridge the progress already made indicates that it will be substantially completed at that time. Work is in progress on the erection of the bridge over the Old Colony Division of the New York, New Haven & Hartford Railroad, and also on the filling of the section of the road and parkway between Atlantic and I Sts. Proposals have been received for completing the grading of the section between Mercer and Mt. Vernon Sts. Considerable filling has been done during the year on the latter section under several small contracts.

At Ipswich St., the bridge over the Fens waterway, the abutments of the bridge to carry the park driveway over the street, a retaining wall along the line of the railroad, and iron fences on both sides of the street at the crossing of the Fens have been finished, and a temporary wooden bridge to carry the park drive over the street has been erected.

The temporary bridge over Ipswich St. at the Fens will be replaced by a permanent steel structure early this season.

One crying need of the paving division should receive proper attention during the coming year. Comparatively little has been done in the way of repaving in the down-town section of the city for many years. The great proportion of streets there are paved with the old, small blocks, on gravel base, and they have been so often dug up that their surfaces are in bad condition. The loss to the teaming interests of the city annually caused by the rough and uneven pavements on many of the streets through which the heaviest teaming is done is very great, and it is important that Boston should apply somewhat the same liberal policy which she has adopted in building the great avenues which have been opened during the last few years to the work of resurfacing the important streets through which the great tide of business traffic is constantly carried on. I trust that the Board of Apportionment will adopt the policy of appropriating a substantial sum yearly for a series of years to the repaving of important business thoroughfares.

STREET CLEANING DIVISION.

The appropriation for this division has remained about the same, so that it has not been possible to materially extend its service, but its standard of efficiency has been well maintained within its necessary limits. An interesting change has been made in the methods of street cleaning in the west and north ends of the city, the use of machine sweepers having been abandoned in favor of hand sweeping. The former method was to sweep the streets at night several times a week by machine; at present the streets are divided into small sections and are swept by hand continuously. The expense has been but slightly greater, and the increase in cleanliness is very apparent, as under the old practice the streets would be more or less littered up within a few hours of being swept. The problem of securing at least the negative co-operation of the public to assist the work of street cleaning, through the giving up of the too common habit of throwing any kind of litter into the

streets, is a difficult one, but without such assistance it is almost impossible for the work of the Street Cleaning Division to cover all that is needed.

STREET WATERING.

For the financial year 1897-98 the sum of \$73,000, exclusive of water rates, was expended for street watering, which was done wholly at the expense of the city. In my last inaugural address I recommended that street watering should be done on the assessment plan, under the provisions of chapter 419 of the Acts of 1897, and after somewhat of a contest over the matter an order to that effect was passed by the City Council and approved April 18, 1898, and subsequently the Board of Aldermen authorized the Superintendent of Streets to fix the assessments under this act.

Owing, however, to the objections made to assessing the expense of street watering upon abutters in the outlying districts of the city, where there is so much vacant land, and where the frontages of estates are so much greater, the order as passed restricted watering under the assessment plan to districts within a radius of four miles from city hall. The adoption of an arbitrary limit of this sort doubtless works inequitably in many cases, and I am inclined to think that the matter should be somewhat differently regulated this year, and that the best plan would be to water the whole city by assessment, but to vary the amount of watering and the cost in different districts; but I strongly recommend an adherence to the system of watering by assessment, as the charge upon the average estate is a very small one, and a sufficient sum to water the streets of the city adequately cannot practically be obtained in any other manner.

The inequity of the former practice under which the city watered macadam streets and left the paved streets unwatered is perfectly obvious. The streets of the city were better watered last summer than ever before, about \$140,000 having been expended for this purpose, and if the citizens of Boston are to enjoy the benefits of an adequate service in this line the assessment system will have to be maintained. It should be borne in mind that these assessments are laid not under any special statute relating to Boston, but under a general law affecting all cities alike, and street watering by special assessment is common outside of Boston.

During the last summer one electric street watering car was put in operation, to give this system a practical trial, covering four miles of street. The results were upon the whole highly satisfactory, and so far demonstrated the advantage and economy of this method of watering as to encourage its more extended use by the city during the coming year.

FERRY DIVISION.

During the last year one new propeller ferry-boat, the "Governor Russell," was built, but was sold to the United States Government, being required for war purposes, for the sum of \$71,000, before she could be given her trial trip; the propeller ferry-boat "East Boston" was also sold to the government for the sum of \$57,500. A contract has been made for a new ferry-boat, which is now building and should be completed by the middle of February, and another new boat must also shortly be contracted for unless one of the boats sold to the government is to be re-purchased. Contracts have been made for two new drops and tanks, and these are now being put in place; this will make all the drops practically new, so that no more will be required for at least twenty years. Two of the slips have also been sheathed. The boat, slips, tanks, landings and head-houses, with the exception of the South Ferry, East Boston side, which needs re-

building, are in good condition, and no extraordinary expense should be required for some years.

DISPOSAL OF GARBAGE AND WASTE.

In my last inaugural address I made a full statement of the considerations which had led to the making of the contract with the New England Sanitary Product Company for the utilization of garbage by the reduction process, at works to be erected by the contractor adjacent to the Calf Pasture sewerage pumping station. Owing to unavoidable delays—chiefly due to the inability of sub-contractors to deliver some parts of the iron work on account of the demand created by the late war—the plant was not put in actual operation until the latter part of October.

Since that time it has been working in a highly satisfactory manner, fully meeting the expectations of the contractors and of the city, and it has already been demonstrated that there is no reason to fear that it will cause any nuisance in the vicinity. Owing to various causes, the contractors have been obliged to make a much larger investment in this plant than they anticipated, the total cost having amounted to nearly \$250,000. The plant, however, contains important new features and improvements, and is not only much superior to any other reduction works in this country, but is doubtless the best in the world, the various processes of extracting the valuable materials from garbage being conducted in the most scientific manner. The plant is in fact a fully equipped manufacturing establishment, which takes in garbage as its raw material and turns out grease, ammonia and a dry powder used as a base for fertilizers, as its finished products.

The only drawback in the whole arrangement is that the contractor has to be paid to take the raw material, as only a portion of the costs and profits can be realized from the sale of the manufactured products; but I am satisfied that the payment to be made by the city (\$47,400 a year)—which includes the transportation of the garbage to the plant from the various points upon the water front at which the city delivers it to the contractor—is a reasonable one, considering the large investment involved, the limited duration of the contract, and the value to the city of having the services of competent and experienced contractors; and, in addition, the city should be able to save a large part of the sum of \$25,000 which it has cost in the past to send garbage out to sea.

This plant has the capacity to handle 300 tons of garbage a day, and at the present time is receiving about 110 tons. The sale of swill to farmers will be entirely discontinued by the city within a few weeks, as soon as work now in progress at the Albany street yard, to permit of the shipment of garbage from that point, can be completed. We may well congratulate ourselves that the opening of this new year finds the old, unsanitary methods of handling garbage nearly obsolete in this city, and a scientific and sanitary manufacturing process substituted for them.

The Superintendent of Streets and myself have also been much interested in effecting some arrangement by which combustible waste might be disposed of in a similarly scientific manner, and I am glad to be able to announce that a contract for this purpose was recently made with Mr. Herbert Tate, a New York contractor who has had more experience in this line than any one else in this country, and who successfully operated a plant for this purpose for the late Colonel Waring when he was at the head of the street cleaning department of that city. Under this contract a building and plant have been erected, at the expense of the contractor, on the wharf property on At-

lantic Ave., near Oliver St., which was leased last year by the Street Department, and this plant will be in operation within a week or two. Everything of value is sorted out of the waste by hand as it is carried along upon a moving belt, and the residue is burned. The contractor is to be paid the sum of \$5500 a year, and the city has the right to purchase the plant, at a price to be fixed by arbitration, at the end of five years. Owing to the novelty of this system, and the great uncertainty as to the value of the materials which will be removed from the waste before burning, it seemed best that the city should not conduct an experiment on its own account, but should allow an experienced contractor, to whose books it would have access, to demonstrate actual results. Only the waste from the central portion of the city can be delivered at this plant, as the expense of cartage would be too great to justify bringing it very far from the point of collection, so that a number of additional local incineration plants will later be needed for this same purpose. Combustible waste will be placed by the householder in a receptacle separate from those used for garbage or for ashes, and will be collected in a different kind of team. This leaves the clean ashes available for filling, and puts an end to the nuisance of burning combustible waste upon the dumps used for receiving filling, and to the sanitary objections to making filled land out of ashes which are mixed with various miscellaneous substances subject to decay. The Board of Health has seriously objected to the former practice and has heartily approved the arrangement about to go into effect for putting an end to it.

CEMETERY DEPARTMENT.

This department found on assuming charge of the old burial grounds of the city that no records of any value or importance existed in connection with them. Since that time the department has been copying the inscriptions on the old stones, inquiring into the ownership of tombs and searching into public and private records in reference to interments and burials in the old cemeteries. This work has substantially been completed, so far as the search for information is concerned, and the department is about to classify this information so as to be available to the public, in the form of a card catalogue. This will be a complete record, so far as the same is obtainable at the present time, of matters pertaining to the old cemeteries of the city of Boston.

Plans have been submitted for a new chapel at Mt. Hope Cemetery, which will be constructed during the coming year. To save expense, the stone to be used in building this chapel is being quarried in the cemetery, giving an excellent quality of stone, and, at the same time, making additional land available for lot purposes.

The present main entrance to this cemetery is to be changed by throwing a large sweep of land into the roadway, for ornamental purposes, thereby obtaining a more suitable entrance and giving a better approach to the cemetery proper.

PUBLIC GROUNDS DEPARTMENT.

I have believed for some time that the excellent facilities of this department for the growth of plants and flowers should be made of more value to the public schools, and last fall, at my suggestion, the Superintendent tried the experiment of distributing the surplus plants of the department to be placed in the public schools instead of giving them to the general public as heretofore. The new plan was received with great favor, and the opportunity of securing plants for the beautifying of the school-rooms met with great appreciation; applications for plants were made by 849 masters and teachers, repre-

senting 149 schools, and over 27,000 plants were distributed. About 350 window boxes supplied by the schools were filled with loam, and some 12,000 plants were well started in these before they were placed in the school-rooms, the rest of the plants being delivered in pots furnished by the department. This gratifying record for the first year affords ample encouragement for the continuation and extension of such work, and I have given my approval to a suggestion made by the Superintendent that plants for this purpose should be specially grown during the summer months, so as to be ready for distribution in the fall at the beginning of the school term, as they will then be in a more perfect condition. This new work affords another illustration of the possibility of largely increasing the usefulness of a plant and an organization already at the command of the city, at a small extra expense. Nature work, as it is called, now fills an important place in modern educational methods, and the actual educational value which can be derived, under intelligent teachers, from plants and flowers placed in the school-rooms is very considerable, to say nothing of the new atmosphere which they introduce.

WIRE DEPARTMENT.

By chapter 49 of the Acts of last year provision was made for the placing of wires under ground in two additional miles of street each year for ten years, and wires have already been placed under ground in sixty miles of street. Chapter 263 of the Acts of last year further enlarged the powers and duties of the Wire Department in respect to the inspection of wires in buildings, practically giving it full control over this matter, and inspectors are now assigned to this work. The great development of electricity, and the increasing number of uses to which it is put in modern life, increase the importance of official supervision to insure proper work and protection against fire. While the Wire Department was originally established upon a temporary basis, and primarily for the purpose of securing the placing of wires under ground within a limited district, it has developed into a useful branch of municipal service, making it now desirable, particularly under the new acts referred to, to recognize it as a permanent organization. I have believed for some time that there should be some consolidation of the electrical work of the city effected through the transfer of the Electrical Construction Division from the Public Buildings Department to the Wire Department; it seems to me that the time is now ripe for this step, and I shall therefore recommend the necessary change in the ordinances.

This department is engaged in solving new and interesting problems in connection with the constant changes and improvements which are going on in the generation and distribution of electricity. For instance, the department has in many cases been called upon to account for the presence of electric currents in buildings containing no electric wires and fixtures, and has been able to determine the cause of such currents in each case, and to take proper measures to prevent their recurrence; these stray currents have been the cause of a considerable loss by fire, and the importance of preventing them is obvious. The cause of the explosion of gases in manholes and electric conduits has been another difficult problem which the department has been engaged in solving, but it is believed that this has been found and an effective remedy applied, as only one explosion of gas has occurred in a manhole during the last year, so far as known.

The investigation of fires caused, or conjectured to have been caused, by electric currents, is an interesting and important field of inquiry, and many

new phenomena are found from time to time. Outside of the period of the two severe snowstorms which have occurred since the middle of last winter, the number of fires due to electrical causes has been much less than in former years.

The department is constantly endeavoring to prevent the use in Boston of various electrical appliances and devices which have only their cheapness to recommend them, and to promote the use of the best apparatus and material in all electrical work. In view of the benefits which have been realized through the regulation of other mechanical trades and the licensing of mechanics, such as plumbers and gas-fitters, it would seem to be desirable to place electricians upon the same basis. The consequences of bad work in electrical construction are certainly as serious a menace to property, if not to life, as defective plumbing and gasfitting, and the nature of the work is such that it is even less within the power of the average citizen to be sure that he is getting good and safe work. The inspection of the work done in a mechanical trade has led in many instances to the direct regulation of the mechanics who practice it, and I am strongly inclined to agree with the position taken by this department that all persons engaged in any way in electrical work should be required to prove their qualification and take out a license.

ELECTRICAL CONSTRUCTION DIVISION.

The Chief of this division renews his former recommendations, which have my full support, in favor of establishing an electric lighting plant in the basement of City Hall. The city is now paying about \$22,000 a year for the lighting and heating of City Hall, the Old Court House and the Probate and Historical Buildings, and a saving of at least \$5000 a year can be made by the installation of an electric plant and the use of the exhaust steam for heating purposes. The estimated cost of such a plant complete is \$42,500.

This division also urges the installation of local fire-alarms for the protection of city buildings upon which no insurance is carried; it certainly seems desirable that where the city carries its own insurance it should make use of every possible precaution. A fire recently broke out in one of the city buildings used for a shop while the watchman was going from one end of the building to the other, and had it not been accidentally discovered, serious damage would have occurred.

Several American cities have in recent years installed electric fountains, which are capable of giving very beautiful and varied effects in various colors and forms of display. It seems to me that the Frog Pond upon the Common offers a very good opportunity for such a fountain, as it could be here seen by a large number of people to great advantage. At my suggestion this division has had plans for this purpose prepared by the best expert in this line of work, and these can be carried out at an expense of about \$11,000. I believe that this would constitute a great attraction, particularly upon holidays, and would draw large crowds of spectators.

WATER DEPARTMENT.

Under the Metropolitan Water Act of 1895, the Metropolitan Water Commission is to deliver water under such head that it will be available for the distribution system of this city. On the first of January water was for the first time delivered by the commission directly into our pipes.

The department has made arrangements for extensive changes in the fire system, which will enable water to be delivered at a greater pressure in the Jamaica Plain and Dorchester districts,

where at the present time considerable complaint exists because of the low pressure. An additional twelve-inch main is now being laid through Neponset and Squantum to re-enforce the supply of water to the islands in the harbor, as the increase in the use of water had rendered the existing pipes inadequate; a large twenty-inch main is also being laid to improve the supply of South Boston.

During the summer months the Water Department made arrangements for the first time for supplying cool water at a number of public fountains, this result being secured by having the water pass through a coil of pipes placed underground in an insulated ice box. These fountains were much appreciated by the public, and the expense of installing and operating them was very moderate; it will be still less for the coming year, owing to the fact that the Water Department will cut the ice from its own reservoir during the winter and store it for use next summer. I believe that a very considerable number of such fountains should be installed at different parts of the city for the benefit of the public.

SOLDIERS' RELIEF DEPARTMENT.

Under the provisions of the Statutes, State aid has been paid to soldiers and their families by the City of Boston since the year 1861. During the last year the sum of \$205,500 was disbursed to 3600 families residing in this city; of this amount the sum of \$3500 was paid to 216 families of soldiers and sailors who enlisted in the late war with Spain. By chapter 441 of the Acts of 1897, the distribution of soldiers' relief was removed from the jurisdiction of the Board of Aldermen and placed under the control of a commissioner appointed for the purpose, and this office was filled at the beginning of last year by the appointment of Mr. Reuben Peterson, who had had charge of the work under the Board for a great many years.

DIRECT EMPLOYMENT OF LABOR.

The extension of the policy of substituting the direct employment of labor by the city for the contract system has been somewhat noteworthy during the last two years. Within about that time three important branches of work, calling for the employment at times of considerable numbers of men, have been fully placed upon the new basis and removed from the sphere of contract work,—namely, the city printing, and the execution of electrical construction and repair work and of all kinds of repairs and alterations upon public buildings. These lines of work call for the services of from two hundred to five hundred men at a time, and their aggregate expenditures amount to about \$400,000 a year.

The proper management of such branches of work is very essential in order to assure their success under municipal control; but with such management I am more assured than ever that better results can be secured than are possible under the contract system, while the establishment of higher rates of wages and of better conditions of employment than are possible under the system of unlimited competition would alone, in my opinion, furnish a powerful argument in favor of the new policy. No labor questions have arisen in either of these branches of work which could not easily be dealt with, and I believe that upon the whole the employees have shown an appreciation of the advantages of the system, and a willingness to perform the work assigned to them with zeal and fidelity.

It is unfortunate, of course, that the volume of work to be done in each of these lines necessarily fluctuates very considerably, thus compelling the suspension dur-

ing a considerable portion of the year of a large number of those who are employed at other times; this condition, however, is absolutely unavoidable, and it is equally met with in private employment in the same branches. Of course any attempt to carry a fixed number of employees on the pay-rolls at all times would absolutely wreck either of these departments, as surely as it would lead to the failure of any firm which undertook to adopt such a policy in private work of a similar fluctuating character.

In this connection I may refer to a class of questions which often arise in the award of city contracts. It sometimes happens that a firm or corporation regularly employing citizens of Boston, at full rates of wages, will be a little underbid by an out-of-town concern, which may be able to pay considerably less for its labor.

Complaint is also made at times that Boston contractors employ men who are not even citizens of this country upon work done by them within the city limits, paying them low rates of wages. I am not a believer in the doctrine that the best results for the community are to be realized through the unrestricted play of the forces of competition, whether these operate within the sphere of capital or within that of labor, and the tendency of our time is now setting strongly in the direction of limiting competition in both these fields.

While I believe that it would be an absurd and extreme application of the theory of protection to require all goods used by the city to be manufactured within the city limits and by its own citizens, I am disposed to go as far as to hold that some preference may well be given in certain lines of public work to concerns within the city of Boston, if the conditions are such that reasonable competition can be secured and fair prices obtained within such limits. In adopting such a policy, however, the city should in fairness give notice in its advertisements inviting bids that it reserves the right to give such a preference. I believe that it is also practicable to require in many cases that only citizens of Boston shall be employed by contractors, and that the full market rates of wages, as fixed by the trades unions in case they are such a practical factor in the labor market as to entitle them to recognition, shall be paid.

Boston has remained behind many cities in this country, and some in England, in failing to adopt hitherto the policy of prescribing the terms and conditions under which contract work shall be performed, and I intend at once to try the experiment of inserting some clauses of this character in such contracts as seem reasonably to permit of it. I may mention, as an indication of what is going on in this direction elsewhere, that an ordinance has been passed in the city of Chicago requiring every contractor with the city to employ in the execution of his contracts only members of the various trades unions, where these have an actual standing in the particular line of work.

ANNEX TO CITY HALL.

I spoke a year ago of the pressing need of increased office accommodations for the city departments, and advocated the policy of providing such further offices in the immediate neighborhood of City Hall, through the reconstruction of existing buildings owned by the city. Further careful study of the problem of rebuilding the Historical Building has led the architect who had made the plans for this purpose to the conclusion that it would be better economy, and more satisfactory in every way, to take down the present building entirely, instead of attempting to utilize the walls, and to erect a single new building, to take the place of both the Historical and the Probate buildings, instead of treating one at a time, and the con-

sulting architect fully agrees in this conclusion. These two buildings have at present 12,500 square feet of office space, and this would be more than doubled by the erection of a new ten-story building, as this would contain, as planned, 26,825 square feet of office space. The cost of such building, at thirty-five cents per cubic foot, would be about \$215,000, or, say, \$225,000 including architect's commission. The accommodations afforded by it would provide for the various offices now occupying leased rooms, and there would certainly be an actual saving of considerably more than the interest on its cost. Such a building can be erected in about fifteen months, and while there would be great inconvenience in removing temporarily to other quarters the departments now occupying these two buildings, I believe that its erection should not be longer postponed, if it is found possible to provide the money for it. The policy of increasing office accommodations in the immediate neighborhood of City Hall will save the city a very large amount of money in the future, by postponing for an indefinite time the erection of a new City Hall, while, if nothing is done, the pressure for such a building on a new site will constantly become greater.

FANEUIL HALL.

This historic edifice has long been in considerable danger of destruction by fire, and has been in a general condition which rendered its reconstruction, to a large extent, very desirable. This matter has at length attracted the attention it deserves, and the City Council passed in the month of June last year an appropriation of \$80,000 for this purpose. A contract for the execution of the main part of the work has been awarded to a reliable builder, of experience in this special line, and there is now every assurance that at some time during the coming year this building, of such unique interest and value, will be reconstructed in a manner which will properly preserve and reproduce its antique character, and remove any future danger of its loss by fire, besides making it much more convenient and attractive for use. The appropriation was cut down to \$20,000 less than originally asked for in order to get it through, and a further appropriation of about this sum will be required to complete the work in a proper manner. An underground public convenience station is very much needed in this vicinity for the better accommodation of the occupants of the markets and of the general public.

REAL ESTATE EXPERT.

Some two years ago I adopted the practice of referring all matters relating in any way to real estate, such as settlements for land taken, leases, purchases of land, etc., to an expert regularly retained for this purpose. This plan has worked very well, and I believe that the closer examination of all questions relating to the value of real estate which has thus been made possible has resulted, directly and indirectly, in saving the city a good deal of money. There are a large number of papers relating in some way or other to real estate, which come to the Mayor for signature in the course of a year, and as he cannot personally take the time to look into them—and presumably does not possess the special knowledge to enable him to do so with the best results—it is certainly desirable that all questions of this class should be referred as a matter of course to an expert, for report in writing. This seems to me an important step in the process of specializing municipal work, and referring all technical or expert questions to some competent authority, which is essential for the proper development of city government. I am glad to take this opportunity to express my sense of the very considerable value to the city of the services of this character which have been rendered by Mr. John C.

Cobb, who has been acting in this capacity for the last two years.

NEWSBOY LICENSES.

There seems to be considerable need of some change, either in the terms or in the enforcement of the regulations of the board of aldermen relative to the licensing of minors to sell newspapers. The number of such licenses outstanding at the present time is 1654, and complaint is made by teachers that it is at present very difficult to enforce the conditions of licenses, owing to the ease with which badges can be transferred. It is suggested that the badges should be bought and owned by the city instead of by those holding licenses, and that this would afford better opportunities for control. In view of the very large number of boys who are employed in this manner, and of the important bearing which a strict observance of the conditions of licenses has upon school attendance, it is certainly very desirable that all steps possible should be taken to secure the proper identification of the holder of a license, and a strict compliance with its terms.

An order has recently been passed by the school committee requesting action upon this matter, and suggesting certain changes in the system which has existed.

HARBOR IMPROVEMENTS.

The Board of Harbor and Land Commissioners has taken, under authority of chapter 486 of the Acts of 1897, passed in pursuance of recommendations contained in the report of the State Board on Docks and Terminal Facilities, a strip of flats 1500 feet wide, bordering on the harbor line between Jeffries' Point and Wood Island Park, East Boston. This land has been taken with a view to its future use for public docks and terminals, but the form of such use, and the time when the preparatory work will begin, depend upon future action by the Legislature. The acquirement of this land by the Commonwealth still further strengthens the desirability of bringing about a comprehensive relocation of the railroad tracks in East Boston, with the view of abolishing the present grade-crossings as far as possible, and better serving the convenience of the public.

Work upon the new pier and dock at South Boston which is being built by the Board of Harbor and Land Commissioners is progressing; proposals for the building of a pile platform and pier around the solid core will shortly be advertised for, and it is expected that this work will begin during the coming summer.

During the last year an additional appropriation of \$250,000 was made by Congress toward carrying on the work of deepening and widening the main ship channel, under the act approved June 5, 1896, and thus far some \$44,000 cubic yards of material have been removed by dredging; the sum now in hand is sufficient to complete the dredging contract and to leave a substantial balance towards the removal of rock ledges uncovered by the dredging. The improvement actually made thus far is mainly in "The Narrows."

The work of improving the fortifications of the harbor has made rapid progress, and when that now under way is completed this city will be placed in at least a fair condition of defense from an attack by a hostile fleet.

CONSOLIDATION OF STATUTES.

In pursuance of my recommendation made a year ago, the City Council, in February last, authorized the appointment of a special commission, to consist of the Corporation Counsel and two other lawyers, to prepare a compilation of all special laws relating to the city of Boston,

with a view to the passage of a comprehensive consolidation act; and the city has been fortunate in securing the services of Hon. Albert E. Pillsbury, ex-attorney General of the Commonwealth, and Hon. Patrick A. Collins as members of this commission. Their work is now nearing completion, and it is hoped that it can be presented to the City Council during this month; I trust that the proposed consolidation act, which will prove not only a great practical convenience, but will make the government of the city much more comprehensible by the average citizen, will be passed at the coming session.

The twelfth revision of the ordinances of the city, which has been before the City Council for two years, was finally passed by that body last July, and has now been printed and distributed.

Gentlemen of the City Council:

In addressing the City Council at the beginning of this last year of my service in the office of mayor, I wish to assure you that it will be my effort to co-operate with you, in every way, as individuals, or as legislative bodies, regardless of any partisan considerations, in anything which will make for the advantage of the people who have elected us to serve them, and of the great municipal community whose interests are entrusted to our hands. If the positive powers of the City Council are less than in the past, ample opportunities of rendering useful service to their constituents and to the city still remain to its members, and they are still the elected representatives of the people. Let us all strive each in his own way and in his own sphere of duty, to accomplish something during the coming year which will redound to the credit of the city of Boston.

At the conclusion of His Honor's inaugural address he was given hearty applause.

The Mayor and suite retired, the convention dissolved and the aldermen returned to their chamber at 12:12 P.M.

INBOARD OF ALDERMEN.

The Board of Aldermen reassembled in the Aldermanic Chamber at 12:14 P.M., Ald. Presho, senior member, in the chair.

Ald. COLBY—Mr. Chairman, I move you that this Board do now take a recess.

Ald. BARRY—Mr. Chairman, I ask to amend that motion, that we adjourn, to meet tomorrow at 11 o'clock A.M.

The motion to adjourn was carried, and the Board adjourned at 12:15 P.M., to meet on Tuesday, Jan. 3, 1899, at 11 A.M.

IN COMMON COUNCIL.

After the retirement of the members of the Board of Aldermen, the Council was called to order by Mr. Nangle of Wd. 19, senior member.

Mr. Kiley of Wd. 8 and Mr. Connolly of Wd. 17 addressed the Chair, and Mr. Connolly was recognized.

Mr. CONNOLLY of Wd. 17 offered an order—That the Council now proceed to elect a President, that the roll be called by the clerk; that each member as his name is called announce aloud for whom he desires to vote; that the same be recorded by the clerk and that the person receiving a majority of the votes be declared elected President of the Common Council.

The order was read a second time and the question came on its passage.

Mr. CONNOLLY—Mr. Chairman, in speaking in favor of the passage of that order, I desire to call attention to the few democrats whom I know today are about to desert their party and combine with the republican members of this body to elect a renegade democrat as presiding officer of this body. (Hisses.)

Mr. CUDDY of Wd. 6—Mr. President, I rise to a point of order, that the gentleman's remarks are out of order.

Mr. CONNOLLY—Mr. President, I desire to call to the attention of those men, and to see if they can remember, the names of the following men—Edward J. Jenkins, Thomas J. Denny, John Gallagher, Patrick L. Cassidy, Michael H. Lynch, William A. Foss and Martin T. Folan. In 1884 or 1885, I don't remember which was the year, these gentlemen to whose attitude I especially call attention, formed an unholy alliance with the members of the republican party and defeated the Hon. John H. Lee, president of the Democratic city committee of Boston, as presiding officer of this body. What has been the record of those men since? Can any of you point to any one of those men in an honorable position? I call attention especially to the death of several of those men (laughter), and the manner in which they died. (Renewed laughter). I believe that the judgment of the democratic party will be against any such alliance as is attempted to be brought forward here today. Who is back of this, and why is it being done? Is it because the republican party desires the presidency of this Common Council? No, the renegade democrats of Wd. 8 desire to split the democratic party. (Hisses.)

The CHAIR—Gentlemen of the Council will come or order.

Mr. HARVEY of Wd. 24—Mr. President, I rise to a point of order.

Mr. CONNOLLY—They desire to split the democratic party.

Mr. HARVEY—Mr. President, I rise to a point of order, that the gentleman is not talking to the question.

The CHAIR—The point of order is not well taken. (Laughter.)

Mr. CONNOLLY—I am simply showing reasons why the order should pass. Probably the gentleman is ashamed of the fact that he is in alliance with a renegade democrat himself. (Laughter.) Far better and more honorable would it have been for the democratic members of this council to have nominated a member of their own party. But, no; they have been whipped into line by the chairman of the Republican City Committee, with the aid of Martin M. Lomasney of Wd. 8, who has shown them a few tricks that they did not know before. I tell you, gentlemen, that his hand is in this and it means the defeat of a democratic candidate for mayor in the year 1899.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I rise to a point of order, that the gentleman is not talking to the question.

The CHAIR—The gentleman will please confine himself to the question.

Mr. CONNOLLY—I desire to ask these men, whoever they may be, who intend to desert their party today, to remember that last November constituents of theirs in their various wards elected them to vote as democrats and for democratic candidates, not for republican nominees of a republican caucus. Gentlemen of this Council, and especially those men who are about to desert their party today, remember—remember I tell you, one and all (laughter)—that your constituents will rebuke the action you are taking today. You may think it is a laughing matter, but when you go before them next fall for reelection and they defeat you and send you out of political life forever, you will then find that the democratic party never forgets an injury such as you are about to inflict upon its organization today. Do you think for one instant that the people will allow you to sell out their mayoralty candidate next year and turn the city of Boston over to the republican party by the aid of the democratic voters of Wd. 8. (Hisses.)

I tell you, the people of Boston have placed themselves on record as favoring a democratic administration this year. They want it and must have it. I have been nominated for the presidency of this Council in a democratic caucus, receiving the majority of the votes of the

caucus, and I demand your democratic votes and support here today. If I don't get them you will be defeated in the next election. You will not come back to this body and your political fate will be sealed forever. Gentlemen, I ask you to consider this matter carefully, to look into it well, and as democrats to stand faithfully and loyally by your party, voting for the democratic candidate nominated in a democratic caucus.

Mr. KILEY of Wd. 8—Mr. President (applause and cheers).

The CHAIR—Gentlemen, I will state right here that if this conduct is continued I will adjourn this Council.

Mr. KILEY of Wd. 8—Mr. Chairman, I suppose the best answer I could give to my friend in the second division (Mr. Connolly) would be silence; but as he has referred to the constituency which has honored me with an election to this body, I would not be doing my duty if I did not reply to the very degrading attack made upon the personality of certain members of this Council. Mr. Chairman, he has talked about democracy, and he has talked about renegades. Let me read to you, Mr. Chairman and members of the Council, the proposition which the gentleman in the second division fathered and submitted to the Republican members of this body. It is as follows:—

"Whereas, the Republican members-elect of the Common Council have decided to vote for Daniel J. Kiley for President, I hereby pledge myself to vote for the choice of the Republican Councilmen-elect on the first ballot for President of the Common Council, provided that the choice of said Republican-elect is not said Daniel J. Kiley."

This gentleman in the second division, who prophesies the political ruin of men who support me here today, has shown this paper, this pledge and this promise, to republican members of this body—and I challenge him to successfully deny it. I am here as a candidate for the Presidency of the Council, looking for the votes of the members of the Common Council, with political liberty as my platform, untied and unfettered by the administration, by heelers or by political bandits, who now control party affairs in this city. (Applause.)

The CHAIR—Gentlemen, I will tell you right here and now (laughter) that if this occurs once more, I will adjourn this Council. The applause is uncalled for.

Mr. KILEY—I ask those present to maintain quietness until the result is announced. Mr. Chairman, I have no fear of the result today; but let me say to you, and through you to the other members of the Common Council and to those present, that today marks the beginning of the downfall of the men in this city who have subserviated party, who have subserviated principle, to their own selfish aggrandizement and greed. Mr. Chairman, the constituency which I represent is responsible for my presence here today. I am willing to answer to them at the next election for what I have done. I believe, also, that the men who stand loyally with me in this Council chamber will be as ready, as willing and as able, to answer to their constituency as the man in the second division who has made the proposition to the republican members of this Council to sell out the party, and to elect a republican. This is all I have to say, Mr. Chairman, and I leave my case in the hands of the members of this Council.

Mr. CONNOLLY—Mr. Chairman, in answer to the gentleman from Wd. 8—

Mr. WATSON of Wd. 18—Mr. President, I rise to a point of order.

Mr. CONNOLLY (continuing)—who has made the charge that he has, I wish to say that it should be—

Mr. WATSON—Mr. Chairman, I rise to a point of order. I arose and asked for the recognition of the Chair at the same time

that the gentleman speaking did, and he, having spoken before and I not having spoken, I demand the recognition of the Chair.

The CHAIR—The point of order is well taken. Mr. Watson has the floor.

Mr. WATSON—Mr. Chairman and fellow members of the Council, I don't intend to say but a word of two in answer to the prophet, Connolly. I wish to say that today I stand here ready to vote for Daniel J. Kiley. I am not voting to injure the organization in the city of Boston. I am voting for ability; I am voting for some recognition. I have a grievance, and I intend for that reason to cast my vote as I have stated. As for being afraid of going back to my constituents after such action, I have been dying politically for three years, and yet I am pretty lively today; but if the question of my coming back to this Council hangs on my vote, I say right here and now that I am done with the Common Council. My hopes would be higher. I say here and now that I am as independent today as ever. I have had everything offered to me today, from a house down to a dog. (Laughter.) I wish to say that I shall vote for ability, and, in doing so, it gives me great pleasure to vote for Daniel J. Kiley.

Mr. DONOVAN of Wd. 7—Mr. Chairman and fellow members of the Council, I also wish to reply to the gentleman from Wd. 17. I vote as a Democrat today. I vote for a Democrat, in the person of Daniel J. Kiley of Wd. 8, and I am willing to go back to my constituents and tell them how I vote. I vote for Daniel J. Kiley, and I am willing to stand by the result.

Mr. LINEHAN of Wd. 13—Mr. Chairman, I cannot add any more to what has been said by Mr. Daniel J. Kiley. I only desire to say that I stand here today to offer my vote as a protest against unjust taxation, ring rule and bossism in the city of Boston.

The CHAIR—The question is on the passage of the order.

Mr. CONNOLLY—Mr. Chairman, in answer to Daniel J. Kiley, when he says that I intended to sell out the Democratic party, I ask him to tell the members of this Council whether he has ever seen such a paper with my name on it, or if he can find one Democratic member of this Common Council who has agreed to do any such thing, or that I have asked to do such a thing. He has gone to the Republican party and has asked for their endorsement, and he has received it; and from this day forward he is a Republican, pure and simple. He cannot whitewash himself. He is a Republican, and will be so throughout this year. I say that I never placed my name on such a paper, and have never sanctioned any agreement as that in any shape or form.

Mr. KASANOF of Wd. 9—Mr. Chairman and members of the Council, I wish to say a few words in reference to this affair. I wish to say to those gentlemen who have been nominated and elected by a Democratic constituency that it has always been my experience in the local fights which I have had in my own ward that those who are defeated in the caucus can easily go out any time and get the Republican nomination. That has been proved to be the case in Wd. 9. I simply wish to state today to those members who have been nominated and elected by a Democratic constituency, that a caucus of the members-elect of this Council was duly called to nominate a candidate for President of the Common Council for the year 1899, that there were two candidates in the field, and that Mr. Timothy L. Connolly received the majority of the votes of the caucus; and I say today that every Democratic member of this Council who wanders away and votes for anybody else, no matter whether he be a Republican or a person claiming to be a Democrat, is doing an injustice to the party and the constitu-

ency which elected him, and that while he may suffer no injurious effects today, in a year from now he will find that his constituency will demand an answer for what he has done today.

As for the republican end, I wish to say that for as long as I remember, year after year, they have nominated a man of their own party, and have voted for him on inauguration day; and I do not see any reason why they should go to work and give their nomination to a democrat who has been looking for it. But in the past week they have travelled around getting members pledged to a democrat. I wish to remind the democratic members that any democrat who will go out of a democratic caucus and try to get the republican nomination can do so. This is all I have to say to you, gentlemen, today.

Mr. LEFTOVITH of Wd. 8—Mr. Chairman, I desire to say here to the members of this council that I am one of the renegades of Wd. 8. It may be the opinion of the gentleman that we are renegades, but I happened to come here last year, not thinking of ever being a candidate for the Common Council, but as a citizen of the city of Boston, and saw the way in which the gentleman in the second division (Mr. Connolly) presided over the deliberations of this body as the so-called leader of the democratic members of this Council, and the transactions at that time are what led me to vote for some one other than the gentleman in the second division. I thought then that if I ever were elected to this Council, representing the people of my ward, I would be the first one to desert the gentleman if he were a candidate for presiding officer over this great deliberative body. I hope today that, no matter how much of a renegade ward he may consider Wd. 8 to be, its representatives are going to stand by democratic principles and the democratic party, and are going to vote for a democratic president from Wd. 8, a member elected from that ward by a very large majority. It is not a question of desertion. It is a question of justice, and we come here to get that justice by electing Daniel J. Kiley as president.

Mr. BRADLEY OF Wd. 6—Mr. President, by the occurrences here today it is plainly indicated to us that it is absolutely imperative for us to elect a democratic President for the year 1899 to govern us as the presiding officer of our body. From time immemorial the principle of the democratic party has been that the primaries shall govern. Mr. Connolly has received the majority vote in a properly conducted democratic caucus, and, such being the case, he is entitled to recognition from the 44 democratic members of this body today. I hope and trust that he will receive every democratic vote, and I feel perfectly satisfied that he will.

Mr. HICKEY of Wd. 2—Mr. Chairman, I am pleased to have this opportunity to say a few words to my fellow members of the Common Council of 1899. As one who has served in this body throughout the past year, I can state that Timothy L. Connolly has been a presiding officer of ability. I know, as a member of that body, that Timothy L. Connolly has always treated every man as he should be treated, and I am here today to resent the imputations cast by the last speaker from Wd. 8 (Mr. Leftovith), when he said he as a democrat was going to vote against Tim Connolly because Mr. Connolly had not treated the members of the last Council fairly. I rise here, Mr. President, as a member of that Council, as one who occupies the seat I occupied throughout the past year, to say that Mr. Timothy L. Connolly as a presiding officer was a success, and was an honest man in the position. I speak also as the man who presided over the democratic caucus in the anteroom here the other evening, the regular democratic caucus to which every

democrat was invited and which nominated with a clear majority Timothy L. Connolly to the presidency. Why should there be an attempt to force an alliance between the Wd. 8 democrats and disaffected democrats of last year's board and the republican members who compose the new body? As a democrat, I am proud to stand here today to testify to the ability, honesty and political integrity of Timothy L. Connolly. My vote today will go for him, and I am proud to be able to pledge to him today the three votes from old Wd. 2. (Applause.)

Mr. MULCAHY of Wd. 14—Mr. Chairman, I did not desire to say anything in reference to the contest here today, but I must state that when the gentleman, Martin Leftovith of Wd. 8, gets up here and tells us about the transaction of the body of 1898, which he knows nothing about, his statements are wrong and absurd. I must say in behalf of my friend Timothy L. Connolly that, since I have been a member of this body, in 1897 and 1898, he has been, in my opinion, fair as a presiding officer and fair and broad as a member of this body—which is more than I can say for some of the democrats who are working today in conjunction with the republicans of this body in order to receive recognition to be received from the presiding officer of this body. There are no committees to seek for which will be of any personal benefit to any member here. Members who come here representing a democratic constituency are expected by democrats to come here and vote for the democratic candidate, the man who received the nomination fairly and honestly. I say, gentlemen, that I have been with Mr. Connolly in this contest from the beginning until the finish, and I will cast my vote today for Timothy L. Connolly, as a fair, honest, liberal, broad-minded democrat. (Applause.) Mr. Chairman, we held a caucus two weeks ago, I believe—I don't know the exact date just now. Mr. Connolly, as the candidate of that body, said to me, as I had the honor of presenting his name to that convention, that the caucus should be assigned for another week, so that the members who were candidates for president could all have a fair opportunity to seek the votes. The caucus was assigned to a later day. I will say for Mr. Connolly that if any other democrat in this body today can receive more democratic votes than he, he, as a democrat, will stand by him. But, Mr. Connolly being the choice of the party, having received the nomination fairly and honestly, I say it is the duty of democrats to vote for him. If they do not do so, I will repeat what he has stated, that they will have to answer to their constituency when they try to return for the year 1900.

Mr. KILEY—Mr. President, we have heard the last dying gasps of hard losers. An opportunity has been afforded to have this question well debated, and I most respectfully move you now, sir, the previous question.

The previous question was ordered, the order was passed, and the Clerk, in pursuance of the order, called the roll. Each member, as his name was called, announced his choice for president of the Common Council of 1899, with the following result:—

For Daniel J. Kiley—Armistead, Bagley, Battis, Bennett, Bordman, Brauer, Chamberlain, Cuddy, Donovan, Eddy, Emery, Harvey, Hibbard, Horrigan, Howard, Jordan, Kiley, Klemm, Leftovith, Linchan, Lorey, MacDonald, Mansfield, McInerney, Miller, Moore, O'Brien, Peck, Roemer, Roland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Walker, Watson, Wells, Winsloe, Wood—41.

For Timothy L. Connolly—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Doyle, Fenton, Flynn, Gibbons, Hickey, Johnson, Kasanof, Kelley, Leonard, Logan, Madden,

Martin, Mulcahy, Nangle, Newhall, Rice, Sullivan, Tobin, Turnbull—28.

Absent or not voting—Altwood, Collins, Donahoe, Giblein, Lydon, Midram—6.

(Loud and long continued applause and cheering, with cheers from the galleries for Daniel J. Kiley and Martin M. Lomasney).

The CHAIR—The result of the vote is as follows: For Timothy L. Connolly, 28; for Daniel J. Kiley, 41. The Chair will declare Mr. Kiley elected president for the year 1899. (Applause and cheers).

Mr. MULCAHY of Wd. 14—Mr. President, I move you, sir, that a committee of two be appointed to escort the president-elect to the chair.

The motion was seconded and carried, and the Chair appointed as said Committee, Messrs. Connolly of Wd. 17 and Hibbard of Wd. 24.

The Committee attended to the duty assigned them, and Chairman Nangle said: Gentlemen, I take great pleasure in introducing to you your President for the year 1899, Mr. Daniel J. Kiley of Wd. 8. (Applause.)

President KILEY—The Council will be in order.

Mr. MULCAHY of Wd. 14—Mr. President, I desire to offer the following order:

Ordered—That the President be authorized to deposit one ballot for Joseph O'Keane as the choice of this body for Clerk of the Common Council for the ensuing year.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I move you, sir, that this Council do now adjourn to Thursday, January 5, 1899, to meet at 7:45 P.M.

The PRESIDENT—The question is on the adoption of the order.

Mr. CHAMBERLAIN—Mr. President, I move that the order be assigned to the next meeting of the Council.

Mr. BAGLEY of Wd. 1—Mr. President, I ask for the yeas and nays on that.

Mr. MULCAHY of Wd. 14—Mr. President, inasmuch as the council of 1899 has not yet decided upon any date on which to meet, I claim that the gentleman's motion is out of order.

The PRESIDENT—The Chair would rule the point of order not well taken. The question is on reference of the order to the next meeting.

Mr. MULCAHY—Mr. President, I rise to a point of information from the presiding officer of this body—that is, as to the date when this body will meet?

The PRESIDENT—The date is to be decided by the Council itself. The Chair infers that, unless some date is fixed by the council it is subject to the order of the Chair.

Mr. Hickey of Wd. 2 addressed the chair and was recognized.

The PRESIDENT—The question is on reference of the order to the next meeting.

Mr. HICKEY of Wd. 2—Mr. President, that is what I intend to speak about. I am opposed to reference of the order to the next meeting of the Council. On the day set apart for the organization of the City Council I think it is no more than right that we should, on that same day, register our choice for the assistants who will help us out during the year in connection with our parliamentary work. I object to the assignment of the order, and I hope that we will go ahead and elect our Clerk of Committees, Clerk of the Common Council, City Messenger and City Clerk.

Mr. CONNOLLY of Wd. 17—Mr. President, I hope and trust that this order will not be referred to the next meeting of the Common Council, but that we will proceed to elect as Clerk of the Common Council the man who has faithfully served for the past 19 years as clerk of this body. I believe he is an efficient officer and should be re-elected here today, and I hope and trust that the order will not

be assigned to the next meeting of the Common Council, but that we well act upon it today as men.

Mr. CHAMBERLAIN—Mr. President, I rise for information. Will a motion to adjourn be now in order?

The PRESIDENT—The question being on reference to the next meeting, that motion will first have to be disposed of before any other motion will be entertained by the Chair.

Mr. ARMISTEAD of Wd. 11—Mr. President, I desire to offer at this time a substitute order for the one which is now before the body.

The PRESIDENT—The Chair will first read the order before ruling:—

“Ordered, That this Council do now adjourn to meet on Thursday evening next at 7:45, and that the same be the day and hour for meeting thereafter until otherwise ordered.” The Chair will rule the order out, as at this time it cannot be placed before the body until the motion made by the gentleman from Wd. 12 (Mr. Chamberlain) is disposed of. The question is on assignment of an order already before the council to the next meeting.

Mr. MULCAHY—Mr. President, inasmuch as the gentleman who made the motion gave no reason or argument why the order should be assigned to the next meeting, and the Chair decided the point of order I raised out of order, it would seem to me, we having no meeting day set as yet, that the procedure in this matter should continue, and that the order should be acted upon at this time. If the gentleman from Wd. 12 (Mr. Chamberlain) has an opponent to the clerk of this body, let him be a man and present the gentleman's name today. If not, why not proceed with the business of organization? I hope the order will go through today, as I would like to see the organization of this body formed.

The question was put on assignment to the next meeting, and, the President being in doubt, a rising vote was ordered. Before the rising vote was taken, however, Mr. Connolly of Wd. 17 said:—

Mr. President, I move that the roll be called.

Mr. MULCAHY—Mr. President, I second that motion.

The yeas and nays were ordered and the order was assigned to the next meeting of the Council, yeas 38, nays 31:—

Yeas—Armistead, Bagley, Battis, Bennett, Bordman, Brauer, Chamberlain, Cuddy, Donovan, Eddy, Emery, Harvey, Hibbard, Howard, Jordan, Kiley, Klemm, Leftovitch, Linehan, Lorey, MacDonald,

Mansfield, McInerney, Miller, Moore, O'Brien, Peck, Roemer, Rolland, Sander-son, Simpson, Stevens, Stockton, Walker, Watson, Wells, Winsloe, Wood—38.

Nays—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Doyle, Fenton, Flynn, Gibbons, Hickey, Horrigan, Johnson, Kasanof, Kelley, Leonard, Logan, Madden, Martin, Mulcahy, Nangle, Newhall, Rice, Stone, Sullivan, Sweeney, Tobin, Turn-
bull—31.

Absent or not voting—Atwood, Collins, Donahoe, Giblin, Lydon, Mildram—6.

Mr. WATSON of Wd. 18—Mr. President, I wish to offer an order (Sending an order to the chair).

Mr. MULCAHY—Mr. President, I rise to a point of information. I desire the chair to state to me when the next meeting of this body will be.

The PRESIDENT—If the gentleman will kindly allow the clerk to read the order, perhaps he may know.

Mr. MULCAHY—I would like to know now.

The PRESIDENT—The clerk will kindly read the order for the information of the gentleman, as well as the other members of the Council.

The Clerk read the order offered by Mr. Watson, as follows:

Ordered: That when this Council adjourn, that it adjourn to Thursday, January 5, at 7:45 p. m.

The order was passed.

Mr. Chamberlain moved to adjourn; declared carried. Mr. Connolly doubted the vote and asked for the yeas and nays, which were ordered, and the Council voted to adjourn, yeas 41, nays 28.

Yeas—Armistead, Bagley, Battis, Bennett, Bordman, Brauer, Chamberlain, Cuddy, Donovan, Eddy, Emery, Harvey, Hibbard, Howard, Jordan, Kiley, Klemm, Leftovitch, Linehan, Lorey, MacDonald, Mansfield, McInerney, Miller, Moore, O'Brien, Peck, Roemer, Rolland, Sander-son, Simpson, Stevens, Stockton, Stone, Sweeney, Turnbull, Walker, Watson, Wells, Winsloe, Wood—41.

Nays—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Doyle, Fenton, Flynn, Gibbons, Hickey, Horrigan, Johnson, Kasanof, Kelley, Leonard, Logan, Madden, Martin, Mulcahy, Nangle, Newhall, Rice, Sullivan, Tobin—28.

Absent or not voting—Atwood, Collins, Donahoe, Giblin, Lydon, Mildram—6.

Adjourned, at 1:03 P.M., to meet on Thursday, January 5, at 7:45 P.M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen.

Tuesday, January 3, 1899.

Adjourned regular meeting of the Board of Aldermen at 11 A.M., Ald. Presho, senior member, in the Chair.

The CHAIR—The Chair awaits the pleasure of the board.

Ald. DIXON—Mr. Chairman, I move you, sir, that we now proceed to the election of a permanent Chairman of the Board of Aldermen for the year 1899.

Ald. Dixon's motion that the Board proceed to ballot for a chairman for the year 1899 was carried. The Chair appointed as a committee to receive, sort and count votes, Ald. Dixon and Berwin. The committee having attended to their duty, reported as follows:—

| | |
|------------------------------|----|
| Whole number of ballots..... | 12 |
| Necessary for a choice..... | 7 |
| David F. Barry had..... | 7 |
| Frank J. O'Toole had..... | 5 |

and David F. Barry was declared elected Chairman for 1899.

On motion of Ald. Codman, a committee was appointed to escort the Chairman to the Chair. The committee, Ald. Codman and O'Toole, performed the duty assigned.

The CHAIR—I have the pleasure of introducing to you your Chairman for the year 1899, David F. Barry. (Applause.)

Chairman BARRY, in taking the Chair, said:—

Gentlemen of the Board of Aldermen—In entering upon the duties of the chairman of this board, I wish to express my appreciation of the honor which you confer upon me by choosing me as the successor of the long line of eminent citizens of Boston who have occupied this chair since 1822.

I recognize the confidence which you have placed in me and I assure you that, so far as it lies within my power, this confidence will not be abused.

It will be my constant effort to perform my duties in such a manner as to meet the commendation of my fellow-citizens, and at the same time I hope to be able to merit the approval of you, my associate members of the board of aldermen. It will be my aim to so preside over your deliberations as to show you that I have no other end in view than to carry out the beneficial laws of parliamentary practice, with due regard to the courtesy and impartiality which a presiding officer should always show towards those who have placed him in this position of honor and trust.

I deem the present a fitting occasion to express to the citizens of Boston my gratitude for the long period in which they have been pleased to retain me in the city government; for 14 years I was a member of the common council, during which time I served for five years as president of that body; in 1894, 1895, 1896 and 1897 I was a member of this board, and now, after an absence of a year, I am again returned by an exceedingly large vote.

It must be gratifying to any one to feel that he has the esteem of his fellow citizens, and I am pleased now to make public acknowledgment of the kindness and consideration which came to me from all quarters especially during the recent municipal campaign. I wish in particular to thank the press of Boston for the great service it rendered to me and to assure the gentlemen connected with it that their courtesy will never be forgotten.

And now, gentlemen, as a lengthy address would be inappropriate at this time, I will only say that I thank you with all my heart for your kindness in electing me to this office, and I wish to express the

hope that our relations during the present year will be of the pleasantest character, and that we will labor to the best of our ability to advance the best interests of our beloved city of Boston.

Ald. BRICK offered an order—That a joint special committee of three members of the Board of Aldermen, with such of the Common Council as may join, be appointed to consider and report what disposition shall be made of the several topics of the address delivered by His Honor the Mayor at the inauguration of this City Council.

Passed. Sent down.
Ald. BRICK offered an order—That the Committee on Railroads, when appointed, be requested to give a public hearing on the subject of the relocation of the tracks on Tremont and Boylston Sts.

The order was passed.
Ald. BERWIN—Mr. Chairman, I move a reconsideration of the last vote. If that prevails, I have some reasons to offer why the order should not pass.

Ald. BRICK—Mr. Chairman, I wish to be fair. If there are any reasons why this matter should not be given a public hearing they might be stated at this time. I think there are many reasons why the Board should inquire into this, and, even if we haven't any powers in the matter, at least suggest to the legislature some reasons why the tracks should be relocated. There is a good deal of complaint. The citizens of Boston and the merchants along Tremont and Boylston Sts. are complaining, and I think there is public necessity for some action. I think it is within our province to look into a matter of such importance to our city, and I hope, if there are any reasons why the matter should not be referred, that the gentleman will state them so that they may be fully considered by the Board.

Ald. BERWIN—Mr. Chairman, for the very reason that the honorable alderman from Wd. 8 (Ald. Brick) has stated, that we have no power in the matter whatsoever. The taking up of the tracks on Tremont St. was done under statute law, and the Board cannot act in the matter one way or the other. If it is the desire of the Board to place itself on record in favor of or against the proposition, that is one thing, but I do not care to prejudice myself in the matter at this time. I should much prefer to have the matter remain as it is. I understand petitions are to be offered to the legislature to have the matter reopened, and, if so, the members of the Board can take whatever position or stand they desire upon it. But, so far as the Board of Aldermen as a body is concerned, I don't believe it is a subject we can go into. As I said before, we can go before the legislature and take whatever stand we wish in the matter. In addition to that, public hearings generally entail a good deal of expense on the city of Boston. That has been my experience; and they generally give poor results.

Ald. BRICK—Mr. Chairman, if the gentleman desires, I would move, as a substitute motion, that this be assigned to the next meeting of the Board.

Ald. BERWIN—I accept the suggestion, Alderman.

Reconsideration was carried, and the question of passing the order was assigned to the next meeting of the Board.

Ald. BRICK offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan order the sum of \$50,000 for a new ward room for Wd. 8.

Referred to the Board of Estimate and Apportionment.

Ald. ADAMS offered an order—That the joint rules and orders of the last City Council, except rule 20, be adopted as the joint rules and orders of the present City Council, until otherwise ordered; and that a committee of five members of the Board of Aldermen, with such of the Common Council as may join, be appointed to pre-

pare rules and orders for the government of the present City Council.

Passed. Sent down.

Ald. ADAMS offered an order—That the rules and orders of the last Board of Aldermen, with the exception of rule 33, be adopted as the rules and orders of the present Board until otherwise ordered; and that a special committee of three members of this Board be appointed to prepare rules and orders for the present year.

Passed.

Ald. ADAMS offered an order—That the West End Street Railway Company be requested, through His Honor the Mayor, to relocate their tracks on Dewey Sq. in such a manner as to eliminate the sharp curves now existing there; said curves being a great detriment and delay to public travel, both for foot passengers and vehicles.

Assigned to the next meeting, on motion of Ald. Dixon.

Ald. ADAMS offered an order—That the Board of Estimate and Apportionment, when organized, be requested to provide a sufficient amount in the next loan bill to complete the construction of Talbot Ave., Dorchester.

Referred to the Board of Estimate and Apportionment.

Ald. ADAMS offered an order—That the Superintendent of Lamps be hereby requested to place an electric light at the Quincy St. crossing on Columbia Road; also suitable gas lamps on Alpha Road and Centre Court, off 333 Centre St., Wd. 20.

Passed.

Ald. CODMAN offered an order—That the Chairman of this Board be authorized in behalf of the Board, to approve permits for amusement licenses, until the appointment of the Committee on Licenses.

Passed.

Ald. PRESHO offered an order—That the Chairman of this Board be, and hereby is, authorized to employ Frank X. Chisholm as stenographer and clerk for the members of the Board, to date from January 2, 1899, and to fix the rate of compensation; the expense incurred to be charged to the appropriation for Board of Aldermen, Salaries.

Passed, under a suspension of the rule.

Ald. DIXON offered an order.—That the City Treasurer be directed to pay the amounts that may be due to soldiers and sailors and their families under the provisions of chapters 447 of the acts of 1890, 279 and 301 of the acts of 1894, 361 of the acts of 1895 and 561 of the acts of 1898, and acts in amendment or addition thereto, and to employ such assistance as may be required for the purpose; the amounts so paid and the expense incurred on account thereof to be charged to the appropriation for Soldier's Relief.

Passed.

Ald. DIXON offered an order.—That a special committee, to consist of three members of the Board of Aldermen, be appointed to determine the amounts to be paid to soldiers and sailors and their families under the provisions of chapters 447 of the acts of 1890, 279 and 301 of the acts of 1894, 361 of the acts of 1895, and 561 of the acts of 1898, and acts in amendment or addition thereto; the amounts so paid to be charged to the appropriation for Soldiers' Relief.

Passed.

Ald. DIXON offered an order.—That a special committee, to consist of three members of this Board, be appointed to inspect the prisons in Suffolk County, as required by chapter 220 of the Public Statutes.

Passed.

Ald. DIXON presented the following:—
Petitions for amusement licenses for season ending Aug. 1, 1899, viz:—

Albert O. Cullymore, Red Men's Hall, corner Washington St. and Chestnut Hill Ave.

W. F. Fallon, Jamaica Hall, corner Centre and Burroughs Sts., Jamaica Plain.

Severally referred to the Committee on Licenses, when appointed.

Ald. COLBY offered an order—That the expense incurred in the printing of city documents ordered by either branch of the City Council in accordance with the joint rules, be charged to the general appropriation for Printing.

Passed. Sent down.

Ald. DOYLE offered an order—That the heads of the various city departments be authorized to submit their annual reports in print; the expense to be charged to the appropriation for Printing.

Passed. Sent down.

Ald. DOYLE offered an order—That the several joint standing committees, when appointed, be authorized to resume the unfinished business referred to them from the last City Council.

Passed. Sent down.

Ald. DIXON offered an order—That a message be sent to the Common Council informing that branch that this Board has organized by the choice of David F. Barry as chairman.

The order was passed and the chairman appointed Ald. Dixon as a committee to inform the Common Council of the election of a chairman.

Ald. BRICK—Mr. Chairman, I move that we now proceed to the election of a City Clerk.

The motion was carried. Committee, Ald. Colby and Doyle. Twelve ballots were cast, all of which were received by J. Mitchell Galvin, who was accordingly declared elected City Clerk on the part of the Board of Aldermen. (Applause.)

On motion of Ald. Doyle, the Board voted to proceed to the election of a Clerk of Committees, Committee, Ald. Doyle and Adams. Twelve Ballots were cast, all of them for John F. Dever, who was declared elected Clerk of Committees on the part of the Board of Aldermen. (Applause.)

On motion of Ald. Adams, the board voted to proceed to the election of a City Messenger. Committee Ald. Adams and McDonald. Whole number of ballots, 12, all of which were cast for Edward J. Leary, who was accordingly elected City Messenger on the part of the Board of Aldermen. (Applause.)

Notices of the election by the Board of the above three officials was sent down to the Common Council.

Ald. DAY offered an order—That His Honor the Mayor be requested to furnish for publication a copy of the address delivered by him before the City Council on Inauguration Day.

Passed. Sent down.

The Board voted, on motion of Ald. Codman, that when the Board adjourns it be to meet on Monday next, at 3 o'clock P.M.

Ald. O'TOOLE offered an order—That the several standing committees of this Board, when appointed, be authorized to resume the unfinished business referred to this Board by the last Board of Aldermen.

Passed.

Ald. ADAMS moved a general reconsideration on all business transacted at the meeting today, hoping that the same would not prevail. Lost.

Adjourned, at 11:48 o'clock A.M., on motion of Ald. Berwin, to meet on Monday, Jan. 8, at 3 o'clock P.M.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, Jan. 5, 1899.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7:45 o'clock P.M., President Kiley in the chair.

ORGANIZATION OF BOARD OF ALDERMEN.

A message was received from the Board of Aldermen notifying the Common Council that the Board had organized by the choice of David F. Barry as Chairman.

Placed on file.

Later in the session, Alderman Dixon, as a committee of the Board of Aldermen, waited upon the Council, and notified that body that the Board had organized by the choice of David Franklin Barry as chairman for the year 1899.

The PRESIDENT—The Council receives the report of the committee, and congratulates the Board of Aldermen upon its organization.

PAPERS FROM BOARD OF ALDERMEN

1. Ordered, That His Honor the Mayor be requested to furnish for publication a copy of the address delivered by him before the City Council on Inauguration Day.

Passed in concurrence.

2. Ordered, That a joint special committee of three members of the Board of Aldermen, with such as the Common Council may join, be appointed to consider and report what disposition shall be made of the several topics of the address delivered by His Honor the Mayor at the inauguration of this City Council.

Passed in concurrence.

3. Ordered, That the joint rules and orders of the last City Council, except Rule 20, be adopted as the joint rules and orders of the present City Council, until otherwise ordered; and that a committee of five members of the Board of Aldermen, with such as the Common Council may join, be appointed to prepare rules and orders for the government of the present City Council.

Passed in concurrence.

4. Ordered, That the several joint standing committees, when appointed, be authorized to resume the unfinished business referred to them from the last City Council.

Passed in concurrence.

5. Ordered, That the expense incurred in the printing of city documents ordered by either branch of the City Council in accordance with the joint rules, be charged to the general appropriation for Printing.

Passed in concurrence.

6. Ordered, That the heads of the various city departments be authorized to submit their annual reports in print; the expense to be charged to the appropriation for Printing.

Passed in concurrence.

The Council voted, on motion of Mr. Watson of Wd. 18, to consider Nos. 7, 8 and 9 together, viz:—

7. Certificate of the election of J. Mitchell Galvin as City Clerk.

8. Certificate of the election of John F. Dever as Clerk of Committees.

9. Certificate of the election of Edward J. Leary as City Messenger.

Mr. HICKEY of Wd. 2 offered an order—That the President cast one ballot for the election on the part of the Common Council of J. Mitchell Galvin as City Clerk, John F. Dever as Clerk of Committees, and Edward J. Leary as City Messenger.

Passed.

The President attended to the duty assigned him, and announced the election of J. Mitchell Galvin as City Clerk, John F. Dever as Clerk of Committees and Edward J. Leary as City Messenger in concurrence, for the year 1899.

CLERK OF COMMON COUNCIL.

The Council proceeded to take up No. 10, unfinished business, viz:

10. Ordered, That the President be authorized to deposit one ballot for Joseph O'Kane as the choice of this body for the Clerk of the Common Council for the ensuing year.

The Council voted on motion of Mr. Chamberlain of Wd. 12, to take the vote on No. 10, by a roll call.

The order was passed, yeas 62 nays 0, and Mr. O'Kane was declared elected as Clerk of the Common Council.

Yeas—Armistead, Bagley, Balfis, Bennett, Bordan, Brauer, Brennan, Casey, Chamberlain, Collins, Connolly, Cuddy, Curley, Doherty, Donahoe, Donovan, Doyle, Eddy, Emery, Fenton, Gibbons, Giblein, Harvey, Hibbard, Hickey, Horigan, Howard, Johnson, Jordan, Kasanof, Kelley, Kiley, Klemm, Leftovith, Leonard, Linehan, Logan, Lorey, Madden, Mildram, Miller, Moore, Mulcahy, Nangle, Newhall, O'Brien, Feck, Rice, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sullivan, Sweeney, Walker, Watson, Wells, Winslow, Wood—62.

Nays—0.

Absent or not voting—Atwood, Badaracco, Bradley, Broderick, Carroll, Flynn, Lydon, Macdonald, Mansfield, Martin, McInerney, Tobin, Turnbull—13.

The City Messenger, by direction of the President, administered the oath of office to Mr. Joseph O'Kane.

INVESTIGATION OF CITY REMOVALS.

Mr. CUDDY of Wd. 8 offered an order—That a special committee of the Common Council, consisting of seven members, of which the President shall be a member, be appointed to investigate the causes for the discharge or suspension of city employees during the months of October, November and December, 1898, and January, 1899; that said committee be authorized and instructed to report its findings in print, with such recommendations and suggestions as they deem proper or expedient.

Mr. CUDDY of Wd. 8—Mr. President, in reference to that order, I wish to read one or two sections of the Massachusetts Civil Service Law, Section 10 says:—

"No person in the service of the state or any city thereof shall use his official authority or influence either to coerce the political action of any person or body, or to interfere with any election."

Section 24 says:—

"Whoever, after a rule has been duly established and published according to the provisions of this act, makes an appointment, or office, or selects a person for employment contrary to the provisions of such rule, or wilfully refuses or neglects otherwise to comply with or conform to the provisions of this act, or violates any of such provisions, shall be liable to a penalty of not less than \$100, or not more than \$1000 for each offence."

I cite these two sections of the law. Within the past few months, the people of my district, the section I represent, have been removed from positions in the employment of the city of Boston. I therefore offer this order and also cite the law of the civil service to back it up. I hope the order will pass unanimously tonight.

The PRESIDENT—The question comes on giving the order a second reading.

Mr. CONNOLLY of Wd. 17—Mr. President, I move that the order be assigned for one week.

Mr. WATSON of Wd. 13—Mr. President, I think we should not start the Common Council of the year 1899 by delaying matters. While this order does not affect my ward or my district, I have seen through the papers and have heard from conversation the fact that certain people in cer-

tain wards, because they would not be dictated to and pulled about by some political bosses, have been dropped from their jobs in the street department. In fact, Mr. President and fellow-members, I know of many employees of the city of Boston who have been dropped because of their political action, men who are now without bread and butter and who depend upon friends for sufficient to feed and clothe their children, those who have them. This is something we have got to settle here and now. If there is a law against the wholesale suspension and discharge of employees in that manner—and we have not seen the last of it—I say it is time that we appealed to it. Otherwise some men may be injured who do not deserve to be injured. There may be men in the different departments accused of certain things by political enemies, and what is said against them may be a pure lie. Let us have an investigation and one alone—to defeat the measure. I will state frankly that my ward has not been bothered yet, because I have not men working in this department, but if there had been any of my friends working in the department and I had taken a certain stand in this body, not one of them would have been given an opportunity to earn his bread and butter. I know what would come. So I sympathize with my friend in Wd. 13 and my friends in other wards of the 9th congressional district. I therefore appeal to the members not to delay matters. Let us find out where the screw is loose. I hope, therefore, that assignment will not prevail.

Mr. ARMISTEAD of Wd. 11—Mr. President, I sincerely trust that an assignment will not prevail. While my constituents have not been used badly by the administration—perhaps because of the fact that they are so few—I am favorably inclined towards that order, because I believe that an investigation should be had, and if the gentleman from Wd. 17 had no other reason to give why the matter should be assigned than that what he has given, I trust that assignment will be voted down.

Mr. KASANOF of Wd. 9—Mr. President and members, I am in great sympathy with my friend from Wd. 18 when he requests the Council tonight not to assign matters and not to delay matters, as the Council did last year—and that in spite of the fact that he was the main cause last year of assigning and delaying different bills. The only reason why I believe in assigning this order tonight, Mr. President, is that the majority of the Councilmen here are practically new members, and it would be nothing but right, as a matter of courtesy to the new members that we should have at least a week to look into this bill, which calls for an investigation. I do not know whether we want an investigation or not. I presume that the majority of the Council will decide that. I believe in an assignment for one week. I believe that ought to be allowed on this bill, so that the new members can look into the matter properly.

Mr. LEFTOVITH of Wd. 8—Mr. President, I desire to state here this evening that I am very much in favor of this committee being appointed. I believe that certain facts have come out since the last election, and that certain accusations have been made against the administration, and in order to clear up all the facts and to give a good understanding of affairs to the new members who have been elected to this Council for the first time—of which I am one—it would be no more than right that an investigating committee be appointed to see whether the Mayor of Boston is to blame for the accusations which have been made, or whether the "machine," as they call them, is at fault. Now, whoever is at fault for the discharge of employees of the City of Boston, I think it should be investigated, and every member of this Council should know who is right and who is wrong. I hope that this order will prevail.

Mr. MULCAHY of Wd. 14—Mr. President I have listened to the orator from Wd. 8, and to the sympathetic orator from Wd. 13, who I must say is taking a different proceeding from the line which he adopted last year. When he comes to compare his movements with those of last year, he will remember that he was a great gentleman then for asking for the assignment of orders for weeks—not one alone, but for several weeks and on several occasions. I am not opposed to the investigation which is called for here, but I must say, as my friend Kasanof of Wd. 9 has stated, that the new members of this body desire some information in reference to it. There are other members here who do not know so much about the particulars of this affair as the gentleman from Wd. 8, perhaps, and they desire to know. While I say that I do not oppose it, I should like to have the facts brought out, like the rest of the members of this body. Therefore, I hope that the matter will be assigned for one week.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, it strikes me that there are certain gentlemen in this Council tonight who are frightened at this proposed investigation. Now, I say, "turn on the X-rays." Let us start here. I believe it will be a forerunner of other investigations. I do not see why there should be so much opposition to the passage of this order tonight when there is no possible use of assigning it for one week. If the committee is appointed and finds that there has been a good reason why the gentlemen were discharged, well and good. There will be no harm done in that case. On the other hand, if they find out the contrary, that they were discharged for no good reason, I think that the appointment of the committee will bring a good result. Mr. President, I am most earnestly in favor of the passage of this order tonight.

(By direction of the President, the order was read again by the Clerk for information.)

Mr. DONOVAN of Wd. 7—Mr. President, I sincerely hope and trust that this order will pass here this evening. Although none of the city employees from my ward have been hurt during this year, they were hurt a year ago, on account of political reasons, and the same thing happened in Wd. 8 this year, I understand. Whether the persons have been discharged for political reasons can be very easily found out by an investigation. For those reasons, Mr. President, I hope that this order will pass here this evening.

Mr. BORDMAN of Wd. 10—Mr. President, I wish to state that I hope that the motion to assign will not prevail, as a new member. Some of the members on the other side have suggested that the new members should have time to become acquainted with the purport of this order. I think there is no new member who is not acquainted with it. But I think there is one more reason why we should not vote to assign this order this evening. I think that I voice the sentiment of His Honor Mayor Quincy, when I ask that this order be not assigned. In his inaugural address he stated that he desired the Council to be a working party, and not a dilatory party, and I believe in following his suggestions, and think that we ought to take action upon this order tonight. I hope that assignment will not prevail.

The PRESIDENT—The Chair will state that the question is on the assignment of the order to the next meeting.

Mr. WATSON of Wd. 18—Mr. President, I know Mr. Kasanof's reason for opposing assignment for one week. It is for the reason that he wishes the strategy board to take hold of this thing. (Applause and laughter.)

The PRESIDENT—The Chair will ask the councilmen to kindly refrain from personalities as much as possible, and also asks the Council to maintain order.

Mr. WATSON—Mr. President, I also desire to answer Mr. Mulcahy of Wd. 14. He speaks of my different actions this year from those last year. He says I was slow last year—that I made delays. Mr. President, I was slow. It took me three months to be recognized by the Chair. That wasn't my fault. Now, Mr. President, Mr. Mulcahy says that he is in favor of this investigation. I will make the prediction now that he will not vote for the investigation, and he knows it. Now, Mr. President, I think we have had enough talk upon this order. I am satisfied that assignment will not prevail. I do not believe the council will vote in favor of assigning it. We will vote to find out the reason for these discharges, and I am satisfied that we will find some pretty dirty linen in some places—especially if I have a chance. (Laughter.)

The PRESIDENT—The Chair will ask the members to refrain from laughter and boisterous demonstrations.

Mr. HARVEY of Wd. 24—Mr. President, I think that this matter has been discussed fully here tonight, and I most respectfully move the previous question.

The PRESIDENT—The question is—

Mr. HICKEY of Wd. 2—Mr. President—The PRESIDENT—Will the gentleman please allow the Chair to state the question?

Mr. HICKEY—I am waiting for the Chair to put the question.

The PRESIDENT—Mr. Harvey of Wd. 24 has moved the previous question. The question is "Shall the main question be now put?"

Mr. HICKEY of Wd. 2—Mr. President, the gentleman in the first division has stated that the members of the Council have had every opportunity to debate this question. Now, I have arisen in my place and attempted fifteen or sixteen times to secure the eye of the Chair but I failed—probably in consequence of my action on Inaugural Day. However, I am opposed to the passage of the order at this time, irrespective of what merit it may contain. It was a custom throughout last year to grant any member the courtesy of an assignment for one week when we asked it. I certainly hope that that courtesy will be granted to our last President of the Common Council, who made the motion.

Mr. HOGAN of Wd. 9—Mr. President, being one of the new members, I do think that we should be given some time to get acquainted with this measure. I want to find out something about it. I do not think we know enough about it now. I hope that assignment for one week will prevail, as I think that will give us ample time to look into the matter and will give us time to get acquainted with it.

The PRESIDENT—The question is "Shall the main question be now put?"

Mr. CUDDY of Wd. 8—Mr. President and members of the Council, I sincerely hope that this order will not be assigned or delayed in its passage. I appeal to the members of the Council. I appeal to the laboring men in their wards. If the laboring men in their constituency were loafing and looking around for bread and butter, I ask them if they would vote to have this order delayed a week? Laboring men in my district have been discharged, and they have no visible means of support. I ask the members of this Council whether, if they appeared here under the same conditions, they would vote to have an order of this kind assigned? Mr. President, I sincerely hope that this order will pass tonight without any further delay.

The motion for the previous question was put, and the main question was declared ordered. Mr. Kasanof of Wd. 9 doubted the vote, and asked for a rising vote, and the Chair appointed the following gentlemen as tellers: In the first division, Messrs. Bennett and Linehan; in the second division, Messrs. Hibbard and Sullivan; in the third division, Messrs. Brauer and Bord-

man; in the fourth division, Messrs. Howard and McInerney.

The Council stood divided and the main question was declared ordered, 47 members voting in the affirmative, 18 in the negative.

The question came on giving the order a second reading, and the yeas and nays were ordered on motion of Mr. Kasanof of Wd. 9.

The order was ordered to a second reading, yeas 53, nays 18:—

Yeas—Armistead, Bagley, Battis, Bennett, Bordman, Brauer, Chamberlain, Collins, Cuddy, Donovan, Doyle, Eddy, Emery, Fenton, Gibbons, Giblin, Harvey, Hibbard, Horrgan, Howard, Jordan, Kelley, Kiley, Klemm, Leftovich, Linehan, Lorey, Lydon, Mansfield, Martin, McInerney, Mildram, Miller, Moore, Newhall, O'Brien, Peck, Rice, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sullivan, Sweeney, Turnbull, Walker, Watson, Wells, Winsloe, Wood—53.

Nays—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Flynn, Hickey, Johnson, Kasanof, Leonard, Madden, Mulcahy, Nangle, Tobin—18.

Absent or not voting—Atwood, Donahoe, Logan, MacDonald—4.

The order was read a second time.

Mr. CASEY of Wd. 13—Mr. President, I object to a second reading of the order under rule 6 of the Common Council, which provides that an order cannot have its second reading without a suspension of the rule. The rule has not been suspended.

The PRESIDENT—The Chair will state that the gentleman is a little late in making his objection, the order already being ordered to a second reading by a yea and nay vote. The question now comes on the passage of the order.

The order was passed. Mr. Cuddy of Wd. 8 moved to reconsider; lost.

The PRESIDENT—The Chair wishes to appoint the following committee under the order just passed: Messrs. Kiley of Wd. 8, Bennett of Wd. 5, Chamberlain of Wd. 12, Connolly of Wd. 17, Hibbard of Wd. 24, Linehan of Wd. 13, and Walker of Wd. 25. The Chair will request the committee to assemble in the President's room immediately after the adjournment of the meeting.

BADGES.

Mr. HIBBARD of Wd. 24 offered an order—That a committee of three members of the Common Council be appointed to secure badges for the members of the Common Council; the expenses to be charged to the Contingent Fund, Common Council, and the price of the badges not to exceed seven dollars each.

The question came on giving the order a second reading.

Mr. KLEMM of Wd. 21—Mr. President, I move that the order be assigned for one week. I know this is the routine order for the regulation decoration, and I am well aware that it is well and desirable for the members of the Council to have something to show on occasions to identify themselves as members of the city government. But I am not sure but what it can be done for a less sum than \$7 apiece, which amounts to more than \$500, and for my part I want to give the new members an opportunity to look into the matter to see whether they want to have \$7 apiece paid for these badges, or want something which will cost less money.

Mr. Klemm's motion to assign to the next meeting was lost.

The order was read a second time and passed.

COUNCIL RULES.

Mr. WATSON of Wd. 13 offered an order—That a special committee, to consist of five members of this council, be appointed to prepare and report a draft of the rules to govern the Common Council for the year 1899.

Passed.

ENGINE HOUSE, NORFOLK STREET.

Mr. HARVEY of Wd. 24 offered an order—That the Board of Apportionment be requested to report in their next loan a sum sufficient for the erection of an engine house, Norfolk street near Dorchester station.

Passed. Sent up.

DRAWING OF SEATS.

Mr. BRAUER of Wd. 23 offered an order—That the Council now proceed to the choice of seats and that the first selection be allowed to Messrs. Nangle and Hibbard, in the order named, the remaining seats to be selected as usual.

The PRESIDENT—If there is no objection on the part of the members of the Council, the Chair will request that this order be laid over until the rest of the business of the Council is disposed of, so that the drawing of the seats may be done as the last business of the evening.

The order was laid over.
(See later in the meeting, under the same heading.)

PAPER RULED OUT.

Mr. HICKEY arose with a paper to present, and, in sending it to the Chair, said:—

Mr. HICKEY of Wd. 2—Mr. President, in presenting that order, I desire to just preface it with a word or two.

The PRESIDENT—The reading of the order would naturally be the first thing in order.

Mr. HICKEY—Mr. President, am I out of order?

The PRESIDENT—The gentleman will kindly refrain from speaking until the order is read by the Clerk.

The CLERK—Mr. Hickey presents the following preamble and resolve:—
City of Boston, Common Council,
Jan. 5, 1899.

Whereas, it is charged that extraordinary and improper methods were resorted to

The President requested the Clerk to allow him to examine the order.

The PRESIDENT (after examination)—The Chair will rule the order out.

Mr. BRADLEY of Wd. 6—Mr. President, as a matter of courtesy to this Council, I ask that the order be read.

Mr. HICKEY—Mr. President, Mr. President!

Mr. MULCAHY of Wd. 14—Mr. President! The PRESIDENT—(Rap, rap, rap!) The Council will be in order.

Mr. BRADLEY—The Council is in order, Mr. President. I ask that—

The PRESIDENT—The Council will preserve order.

Mr. CUDDY of Wd. 8—Mr. President, I desire to offer an order.

The PRESIDENT—Mr. Cuddy of Wd. 8. Mr. Cuddy sent an order to the Chair.

Mr. HICKEY—Mr. President!
Mr. BRADLEY—Mr. President!

Several other members also addressed the Chair. "Mr. President!"

The PRESIDENT—The Council will be in order. The gentleman from Wd. 8 has an order to present, and the Chair will request the members of the Council to be in order.

Mr. BRADLEY—Mr. President, I request that the order which you have ruled out be read tonight for information.

The PRESIDENT—(Rap, rap, rap!) The Council will be in order. Mr. Cuddy offers an order.

Mr. HICKEY—Mr. President, Mr. President!

Mr. BRADLEY—Mr. President, I rise to a point of order regarding that order—

The PRESIDENT—The gentleman will be in order, or the City Messenger will be requested to remove him from the Chamber. Mr. Cuddy has offered an order.

Mr. HICKEY—Mr. President, I rise to a point of order.

The PRESIDENT—(Rapping to order)

Mr. Cuddy of Wd. 8 has offered an order, the clerk will read:

The CLERK—"Ordered, that the Committee on"

Mr. HICKEY—Mr. President, I rise to a point of order, that I presented an order to the Chair, that the Chair ruled it out, and that the Chair prevented my speaking upon it, saying that I had no right to do so until it had been read.

The PRESIDENT—The order has been ruled out by the Chair. The Chair will request the gentleman to be in order.

Mr. HICKEY—Mr. President, will the Chair please give me a reason for ruling so.

The CLERK—(Continuing reading Mr. Cuddy's order.) "Ordered, that the Committee on Ordinances be requested"—

Mr. BRADLEY—Mr. President, Mr. President!

The CLERK—"To report an amendment to the revised ordinances to provide that the Saturday half-holidays"—

Mr. Bradley, Mr. Hickey and Mr. Mulcahy (addressing the Chair) Mr. President.

The CLERK (Continuing) "Shall be granted to all city employees, throughout the entire year, without loss of pay and in part compensation for their services to the city of Boston."

Several members addressed the Chair, amid laughter and applause in the galleries.

The PRESIDENT (rapping to order)—The Council will be in order. Spectators are kindly requested to cease levity and demonstrations of all kinds during the transaction of public business.

Mr. HICKEY—Mr. President, may I ask at this time the ground on which you ruled my order out? I claim that I have the right to know the ground.

The PRESIDENT (rapping to order)—The Chair will request the City Messenger to enforce the rule of the Common Council.

Mr. MULCAHY of Wd. 14—Mr. President, I rise to a point of information.

Mr. BRADLEY—Mr. President—

Mr. HICKEY—Mr. President, I rise to a question of personal privilege.

The PRESIDENT—There is a question now before the Council, and when that question is disposed of the gentleman will have the liberty of speaking to a question of personal privilege.

Mr. HICKEY—That is satisfactory, Mr. President.

The PRESIDENT—The question is on the passage of the order offered by Mr. Cuddy of Wd. 8.

Mr. CONNOLLY of Wd. 17—Mr. President, I request that that order be read for the information of the Council.

The PRESIDENT—It will be read for the information of the Council. The Clerk re-read the order offered by Mr. Cuddy, as follows:—

"Ordered, That the Committee on Ordinances be requested to report an amendment to the revised ordinances to provide that the Saturday half-holiday shall be granted to all city employees throughout the entire year, without loss of pay, and in part compensation for their services to the city of Boston."

The order was read a second time and referred to the Committee on Ordinances, when appointed.

A QUESTION OF PERSONAL PRIVILEGE.

Mr. HICKEY of Wd. 2—Mr. President, I wish to speak to a question of personal privilege.

The PRESIDENT—The gentleman will please state what his question of personal privilege is.

Mr. HICKEY—Having presented to this body an order which the Chair ruled out of order, but which I believe to be honestly legitimate, and the Chair having ruled that debate would not be allowed upon the order until it was read, I ask the Chair if he is afraid to have those preambles and resolutions read? I want to know, Mr. President—

The PRESIDENT—The gentleman will state his question of personal privilege and no more.

Mr. HICKEY—My question of personal privilege is that the Chair has no right to rule an order out without giving a specific ruling as to why it is out of order, and the Chair has not done that. (Applause.)

The PRESIDENT—The Chair will state that he considers the preambles and resolution offered by the gentleman from Wd. 2 as a serious reflection, not only upon the Chair, but upon the members of this Council, and he therefore has ruled, and ruled properly, that the order is out of order. (Applause and cheers.) The Council will be in order. The Chair awaits motions, orders and resolutions.

Mr. McINERNEY of Wd. 19 offered an order, which was handed to the Clerk.

Mr. MULCAHY of Wd. 14—Mr. President, I rise to a question of information.

Mr. McInerney's order, which was as follows, was read: Ordered, That the Board of Apportionment be requested to include in its first loan order a sum sufficient to establish a playground and open air gymnasium in Wd. 19.

Passed.

ELECTRIC LIGHT, WD. 7.

Mr. DONOVAN of Wd. 7 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to place an electric light at the corner of Utica and Beach Sts. in Wd. 7; the expense of same to be charged to Lamp Department.

Referred to His Honor the Mayor.

NEW HEAD HOUSE—SOUTH FERRY.

Mr. RICE of Wd. 2 offered an order—That His Honor the Mayor be requested to take the necessary steps in order that work may be begun at once on the new head house at South Ferry, East Boston side.

Referred to His Honor the Mayor.

IMPROVEMENT OF LIVERPOOL ST.

Mr. RICE of Wd. 2 offered an order—That the Boston Elevated Railway Company be requested, through His Honor the Mayor, to have Liverpool St. kept free from snow and ice during the present winter season, in order that its usefulness as an alternative route for cars may not be impaired.

Referred to His Honor the Mayor.

WARD ROOM, WD. 18.

Mr. WATSON of Wd. 18 offered an order—That the Board of Apportionment report in their next loan the sum of \$40,000 for a new ward room, Wd. 18.

Passed. Sent up.

BATH-HOUSE, WD. 18.

Mr. WATSON of Wd. 18 offered an order—That the Board of Apportionment be requested to report in the next loan order the sum of \$40,000 for a gymnasium and an all-the-year bathing house on the site of the present Cabot St. bath-house, Wd. 18.

Passed. Sent up.

REWARD FOR HEROISM.

Mr. WATSON of Wd. 18 offered an order—That the Board of Park Commissioners, through His Honor the Mayor, be requested to consider and report to this Council what action should be taken by the City Government to properly recognize the heroism of Neil J. Wallace of 354 Heath 2St., in saving children from drowning in Leverett Pond on Parkway, December 25, 1898.

Referred to His Honor the Mayor.

PLAYGROUND, WARDS 18 AND 19.

Mr. NANGLE of Wd. 19 offered an or-

der—That a special committee, to consist of five members of the Common Council, be appointed to select a site for a playground for Wds. 18 and 19.

Mr. NANGLE of Wd. 19—Mr. President, in regard to that order, I desire to say that last year, we made several attempts to try to provide a playground for Wds. 18 and 19. There were present, clergymen in that section of different denominations, and several masters in the schools. We held a meeting at which I suppose there were some twenty or thirty persons. One claimed that Parker Hill might be a good place; one claimed that Madison Park would be a good place. There was objection raised to Madison Park by the master of the Sherman School, he claiming that Madison Park was a proper place for mothers and nurses to go with children. Others picked out a place on the Back Bay Fens. I thought—and I believe members of the Council who were at that meeting agree with me—that the proper place would be a place between Parker Hill, Halleck, Ward and Ruggles St. They agreed that that would be the best place to pick out for both wards—the nearest, handiest and best. They expected last year to get money enough for this playground. They waited upon His Honor the Mayor, and if I don't make a mistake, I think he attended one of the meetings in Paine Memorial Hall. Mr. Paine presided at that meeting. They all agreed that a playground was something required in that section. The people out there have been looking for a playground, to my knowledge, for some ten years. Six years ago, there was \$1000 appropriated and paid out of the treasury of the city of Boston for a playground for one year. They couldn't buy the site at that time, but they paid out a thousand dollars for it for that year, I believe, to the heirs of the Sewall-Day people.

Now, I believe if they can afford to pay out a thousand dollars in one year, that something further should be done in the line of obtaining a playground for that section at this time. The Mayor is desirous of having playgrounds all over the different sections of the City of Boston, explaining the matter fully to the Council in his inaugural address as one of the things he is in favor of. I know when I waited on him myself he was very much in favor of playgrounds, saying that they were beneficial to people all over the city. In offering the order to provide for committee I did intend, Mr. President, to also add some of the aldermen, but I believe it would be well to leave it to the alderman from our section, Ald. O'Toole. I believe he will take the proper action in the Board of Aldermen regarding this matter. I hope when the committee is appointed there will be some notice taken of it. I also hope attention will be paid to the order offered by my colleague Mr. McInerney, asking that some provision be made in this line by the Board of Apportionment. I have an order here that I intended to introduce to that effect, but as my colleague Mr. McInerney saw fit to get one in first I have no objection. I simply introduce this order to accomplish the desirable results in this direction, and I hope it will go before a proper committee to consider it.

Mr. BAGLEY of Wd. 1—Mr. President, I hope that order will be assigned, as I understand that the president is about to appoint a committee on playgrounds.

Mr. WATSON of Wd. 18—Mr. President, I sincerely trust the order will not be assigned, for the reason I gave in connection with the first order introduced here—that I desire to save time. Then, again, this is in my district. I wish to corroborate all that has been said by Councilman Nangle and also to inform this body and through the body or through the press, His Honor the Mayor, that the people of Roxbury demand a playground in either Wd. 18 or Wd. 19. It has been promised us from time immemorial. Mr.

President, the organization of which I have the honor to be secretary has a committee on playground for Wds. 18 and 19, of which committee my two colleagues and three members of last year's Council are members; and at the meeting the gentleman from Wd. 19 refers to two members of the House of Representatives from each ward, 18 and 19, and both aldermen from those wards were present. I have had citizens come to me urging that some action be taken in the way of providing a playground for those wards. The people of Roxbury have nothing. It is true that we have a bathhouse which is a great sight for blind people. (Laughter.) I cannot add much to what Councilman Nangle has said, except simply to reiterate that the people of Roxbury, in Wds. 18 and 19, demand recognition in this matter of a playground. We have no improvements whatsoever—nothing; and I tell you there will be a revolution, a political revolution in those two wards, unless we get something this year. I hope the order will not be assigned.

Mr. McINERNEY of Wd. 19—Mr. President, in presenting my order I did so because I saw that something of the kind was necessary for the ward and section. As it stands now other sections of the city get what belongs to them. South Boston has its share; so have the North End, Charlestown and the West End. Roxbury is practically unknown. As I was told a short time ago, it is not on the map. The people of that section are beginning to wake up to the fact that they are going to have what they want. I must say we want this.

Mr. NANGLE—Mr. President—

The PRESIDENT—The Chair desires to make a statement, if the gentleman from Wd. 19 will pardon him at this time. The order asks that a special committee be appointed to consider the feasibility of providing a playground for Roxbury—Wds. 18 and 19. The Chair will state that he intended to have a committee on playgrounds appointed this year and that the subject matter of that order will be a proper subject for consideration by that committee, if the gentleman from Wd. 19 will be satisfied with that disposition of it. I would suggest that the order be referred to that committee. If the gentleman insists, however, on a special committee, thereby taking a step in the line of encumbering the Council with special committees, for which there is no necessity, the Chair will put the question on second reading of the order.

Mr. NANGLE—I understand you to say, Mr. President, that you intend to appoint a playground committee?

The PRESIDENT—I will state for the information of the gentleman that it was the intention of the Chair to have a committee on playgrounds appointed.

Mr. NANGLE—Well, Mr. President, the only feasible way to look at the matter is this. Nobody knows what the people of Wds. 18 and 19 desire as well as the people who live there. I, of course, don't want to be persistent at all in the matter, but I think it would be wise to appoint a committee to consider the question of a playground for that section, the committee to be appointed from that section. There are two wards to be provided for there. We don't ask a separate playground for each ward; and I think it would be wise for the members of that section to be appointed on that committee and allowed to pick out a site, because I think they could pick out a site more satisfactory to the people than one picked out by somebody else might be. As for my friend Bagley's request for assignment, I am surprised that he should ask for the assignment of an order of this kind. I am not asking for any money from the apportionment board at all. If there were any reason for assignment, I would be willing to have the matter assigned, but I think it would be well not to assign it, and I think also it would be wise

to appoint a committee from that section.

Mr. CONNOLLY of Wd. 17—Mr. President, I desire to ask the Chair if the Chair has an order ordering the appointment of a committee on playgrounds? The Chair made the statement that he was going to appoint a committee on playgrounds.

The PRESIDENT—The Chair would state for the information of the gentleman from Wd. 17 (Mr. Connolly) that no such order has been submitted, but that His Honor the Mayor recommended in his inaugural address that a committee on public playgrounds be appointed by both branches of the City Council, and in accordance with that suggestion and in line with an act passed by the legislature of 1898, the Chair thought it might be a proper thing to appoint such a committee. The Chair makes that statement, and if the gentleman from Wd. 17 is satisfied with it the Chair will proceed to put the order offered by the gentleman from Wd. 19 upon its second reading.

Mr. NANGLE—Mr. President, I desire to say that I believe it would be wise to pass that order, and I hope the members, out of courtesy to the people of my section, will see fit to vote for the order. I am not asking for any money at the present time, but simply for the appointment of the Committee, and I think it no more than right that the Committee should be appointed as outlined in my order as a matter of courtesy to that section.

The motion to assign was lost. The order was read a second time and passed.

MUNICIPAL BUILDING, WD. 15.

Mr. MARTIN of Wd. 15 offered an order—That the Board of Apportionment include in the next loan bill the sum of \$15,000 for a municipal building in Wd. 15.

Passed; sent up.

PAYMENT OF ELECTION OFFICERS.

Mr. CASEY of Wd. 18 offered an order—That the City Treasurer be requested to pay the supervisors who served at the state election as soon as possible.

Referred to the Committee on Treasury Department, when appointed.

RESUMPTION OF BUSINESS.

Mr. LEONARD of Wd. 9 offered an order—That the standing and special committee of the Common Council, when appointed, be authorized to resume the consideration of the unfinished business referred to them by the last City Council.

Passed.

ELECTRIC LIGHTS, WD. 25.

Mr. SANDERSON of Wd. 25 offered an order—That the Superintendent of Lamps be requested to locate a suitable number of electric lights on Tremont St., Wd. 25, between Oak Sq. and the Newton line, to properly light the street.

Referred to His Honor the Mayor.

EXTENSION OF BROOKS STREET.

Mr. SANDERSON of Wd. 25 offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to complete the extension of Brooks St., Wd. 25.

Passed. Sent up.

BUILDING CONSTRUCTION DEPARTMENT.

Mr. MULCAHY of Wd. 14 submitted the following:

AN ORDINANCE to Establish the Building Construction Department.
Be it ordained by the City Council of Boston, as follows:—

Section 1. The building Construction Department is hereby established and the same shall be under the charge of the Su-

perintendent of Building Construction, who shall execute all repairs and improvements on buildings or parts of buildings belonging to or hired by the city, whether used for city or county purposes, and all constructions of new buildings, except such constructions, repairs and improvements as are required by law to be made by contract, and such as can be made by the regular employees of the department or departments having the charge of the building or part of the building; said work shall include all work coming within any of the building trades or connected in any manner with the building trades, except electrical construction and electrical repair work, and the same shall be done by said Building Construction Department when requested by the officer in charge of such other department, such request in the case of new construction to be approved by the Mayor. Said Superintendent shall execute all such work by competent mechanics employed directly by him, and he shall purchase all the materials and supplies needed in connection with such work.

Sect. 2. The City Auditor at the close of each month shall transfer the amount of all bills allowed by him for materials furnished and work done by said Superintendent as aforesaid for another department to the appropriation for the Building Construction Department, to be used as a part of such appropriation.

Sect. 3. Said Superintendent shall be appointed annually by the Mayor, subject to confirmation by the Board of Aldermen, shall give a bond in the sum of three thousand dollars, and shall receive an annual salary of thirty-five hundred dollars.

Sect. 4. Section one, of chapter thirty-two, of the Revised Ordinances of 1898, is hereby amended by striking out, in the fourth line thereof, the words "and repairs," and by striking out in the ninth and tenth lines thereof, the words "make all repairs and improvements, and."

The PRESIDENT—The ordinance will be referred to the Committee on Ordinances, when appointed.

Mr. MULCAHY—Mr. President, I desire to know from the Chair at this time if he has a right to refer the said ordinance to that committee when the committee has not been appointed?

The PRESIDENT—The Chair will state, for the information of the gentleman from Wd. 14, that he believes he has the power to refer any matter to any committee before which he thinks it properly belongs; and as this is a matter affecting the ordinances of the city of Boston, he believes it is a matter that properly belongs to the Committee on Ordinances, and the Chair has therefore referred it to that committee, when appointed.

PARK, WD. 13.

Mr. LYDON of Wd. 13 offered an order—That the Board of Apportionment be and is hereby requested to include in their annual budget a sufficient sum to provide a small park in a central location in Wd. 13, South Boston.

Passed. Sent up.

CROSS WALKS, WD. 13.

Mr. LYDON of Wd. 13 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to construct a crosswalk from the foot of West Broadway to Broadway Extension, Wd. 13.

Referred to His Honor the Mayor.

PRINTING OF MUNICIPAL REGISTER.

Mr. BRAUER of Wd. 23 offered an order—That the Municipal Register be printed by the Superintendent of Printing, under the direction of the Joint Special Committee on Rules and Orders, when appointed, and that they also prepare a pocket edition of the rules and orders and a list of

the members and committees; the expense thus incurred to be charged to the appropriation for printing.

Passed. Sent up.

Mr. MULCAHY of Wd. 14—Mr. President, I move reconsideration of all orders on the calendar, hoping that the same will not prevail.

The PRESIDENT—The Chair will state that, inasmuch as some of the orders on the calendar have already been acted upon so far as that motion is concerned, the Chair will ask the gentleman from Wd. 14 to divide his motion accordingly.

Mr. MULCAHY—Mr. President, I move reconsideration of Nos. 7, 8, 9 and 10, hoping that the same will not prevail.

The PRESIDENT—The Chair will state that that motion has already been put, and that reconsideration has been refused.

Mr. WATSON of Wd. 18—Mr. President, I move a reconsideration of all business done by us up to this time, hoping that the same will not prevail.

The PRESIDENT—The Chair will state again that he will ask the gentleman from Wd. 18 to divide the question, inasmuch as a great many of the matters on the calendar have already been acted upon so far as reconsideration is concerned.

DRAWING OF SEATS.

Mr. CUDDY of Wd. 8—Mr. President, I move that we do now proceed to draw for seats.

The PRESIDENT—The Chair will state that an order is before the Council for consideration in reference to the drawing of seats, and when all other matters are disposed of, the Chair will call that matter up. If there is no other business, the Clerk will read that order.

The Clerk read the order referred to which had been introduced by Mr. Brauer earlier in the meeting.

The question came on giving the order a second reading.

Mr. MARTIN of Wd. 15—Mr. President, I move to amend that order by excepting Mr. Giblin of Wd. 15, giving him the third choice.

Mr. WATSON of Wd. 18—Mr. President, I move to further amend the amendment by giving the fourth choice to the President of the Council in 1898, Mr. Connolly.

The question was put on the adoption of the amendments, and they were declared rejected. Mr. Mulcahy of Wd. 14 doubted the vote and asked for a rising vote, which was ordered, and the amendments were adopted, 43 members voting in the affirmative, none in the negative.

The order was passed, as amended.

Mr. Nangle chose seat No. 32, Mr. Hibbard seat No. 31, Mr. Giblin seat No. 12, and Mr. Connolly seat No. 33.

The President and City Messenger then proceeded with the drawing of the seats, with the following result:—

Seat No.—Armistead, 3; Atwood, 59; Badaracco, 41; Pagley, 66; Battis, 19; Bennett, 61; Bordman, 40; Bradley, 8; Brauer, 56; Brennan, 70; Broderick, 26; Carroll, 14; Casey, 23; Chamberlain, 51; Collins, 43; Cuddy, 16; Curley, 57; Doherty, 47; Donahoe, 2; Donovan, 74; Doyle, 30; Eddy, 10; Emery, 29; Fenton, 4; Flynn, 17; Gibbons, 33; Harvey, 58; Hickey, 64; Horrigan, 43; Howard, 35; Johnson, 63; Jordan, 11; Kasanof, 36; Kelley, 39; Kiernan, 47; Leftwich, 52; Leonard, 45; Linehan, 63; Logan, 29; Lorey, 5; Lydon, 71; MacDonald, 27; Madden, 21; Mansfield, 24; Martin, 60; McInerney, 15; MILDram, 46; Miller, 13; Moore, 1; Mulcahy, 50; Newhall, 62; O'Brien, 42; Peck, 9; Rice, 35; Roemer, 34; Rolland, 25; Sanderson, 54; Simpson, 73; Stevens, 72; Stockton, 23; Stone, 37; Sullivan, 41; Sweeney, 49; Tobin, 63; Turnbull, 22; Walker, 7; Watson, 6; Wells, 69; Winsloe, 18; Wood, 65.

Adjourned, on motion of Mr. Casey of Wd. 18, at 9:47 P.M., to meet on Thursday, Jan. 12, at 7:45 P.M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen.

Monday, Jan. 9, 1899.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock P. M., Chairman Barry presiding, and all the members present.

The Board voted, on motion of Ald. Colby, to dispense with the reading of the records of the last two meetings.

APPOINTMENTS BY THE MAYOR.

Communications were received from His Honor, Mayor Quincy, making the following appointments, subject to confirmation by the Board, viz.:-

- (1) John F. Donovan, to be a Weigher of Coal for the term ending April 30, 1899.
- (2) James H. Cleaves, an Inspector of Petroleum and Its Products for the term ending April 30, 1899.

Severally laid over, under the law.

LEAVE GRANTED ON PETITIONS.

Ald. Colby presented the petition of Cotting & Welch, for leave to locate basement floor at grade 10 ft. 3 in., and boiler room floor at grade 2 of building on South, Essex and Tufts Sts.

The Board voted, on motion of Ald. Colby, to suspend all rules, and leave was granted to the petitioners, on the usual conditions.

Ald. Dixon presented two petitions that permits be granted to children under 15 years of age to appear at theatres, viz.:-
Monroe H. Rosenfeld, for permit for Fred Curran to appear at Grand Theatre for week beginning Jan. 9, 1899.

A. L. Griffin, manager, for permit for Charles Eggleston to appear at the Bowdoin Square Theatre for the week beginning Jan. 9, 1899.

The Board voted, on motion of Ald. Dixon, to suspend all rules, and the permits were severally granted, on the usual conditions.

Ald. Doyle presented the petition of William Shitzki, for leave to project a clock sign at 36 Lowell St., Wd. 8.

The Board voted, on motion of Ald. Doyle, to suspend the rules, and leave was granted to the petitioner, upon the usual conditions.

PETITIONS REFERRED.

The following petitions were received, and were referred to the committees named, when appointed, viz.:-

Building Dept. (Aid.)

Peter Pastene, for leave to excavate the cellar bottom of building No. 69-71 Fulton St., Wd. 6, at grade 8 feet 9 inches.

Petitions for leave to project signs, etc., viz.:-

Samuel H. Goldstein, two pawn-broker's signs, at 2020 Washington St., Wd. 17.

Lawrence W. Lunt, a sign, at 1177 Washington St., Wd. 24.

Thomas J. Shanny, an illuminated sign, at 1 Green St., Wd. 8.

John Violett's, a flag sign, at 1222 Washington St., Wd.

Bessie Hirshon, a sign, at 85 Joy St., Wd. 11.

John F. Ketterer & Co., illuminated sign, 168-170 Canal St.

William J. Logan & Co., illuminated sign, 40 Province St., Wd. 7.

Grove & Flynn, sign, 45 Bristol St., Wd. 9.

Claims.

Annie V. Connell, for payment to Dennis B. Connell of balance remaining from tax sale of estate on Temple St., W. R.

John H. Proctor, for payment of balance remaining from tax sale of estate on Elmira St.

County Accounts.

Proprietors of the Social Law Library, to be granted the sum of \$100 for the uses of said library.

Licenses.

Rev. J. N. Supple, for license for dramatic, musical and dancing entertainments at St. Francis Parochial Hall, Bunker Hill St., for the season ending August 1, 1899.

Public Improvements.

Peter Pastene, for leave to construct area under the sidewalk at 69-71 Fulton St., Wd. 6.

PAPERS FROM COMMON COUNCIL.

The Board voted, on motion of Ald. Berwin, to consider Nos. 1 to 7, inclusive, and that the same be read by their titles, viz.:-

(1) Ordered, That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to complete the extension of Brooks St., Wd. 25.

2. Ordered, That the Board of Estimate and Apportionment be and are hereby requested to include in their annual budget a sufficient sum to provide a small park in a central location in Wd. 13, South Boston.

3. Ordered, That the Board of Estimate and Apportionment include in the next loan bill the sum of fifteen thousand (15,000) dollars for a municipal building in Wd. 15.

4. Ordered, That the Board of Estimate and Apportionment be requested to report in the next loan order the sum of forty thousand (40,000) dollars for a gymnasium and an all-year bathing-house on the site of the present Cabot St. bath-house, Wd. 18.

5. Ordered, That the Board of Estimate and Apportionment report in their next loan the sum of forty thousand (40,000) dollars for a new ward-room, Wd. 18.

6. Ordered, That the Board of Estimate and Apportionment be requested to include in its first loan order a sum sufficient to establish a playground and open air gymnasium in Wd. 19.

7. Ordered, that the Board of Estimate and Apportionment be requested to report in their next loan a sum sufficient for the erection of an engine-house on Norfolk St., near Dorchester station.

Severally referred to the Board of Estimate and Apportionment, on motion of Ald. Berwin.

8. Ordered, that the Municipal Register be printed by the Superintendent of Printing, under the direction of the joint special committee on Rules and Orders, when appointed, and that they also prepare a pocket edition of the Rules and Orders, and a list of the members and committees; the expense thus incurred to be charged to the appropriation for printing.

Referred to the Committee on Printing, when appointed, on motion of Ald. Berwin.

RELOCATION OF TRACKS, DEWEY SQUARE.

The Board proceeded to take up No. 9, unfinished business, viz:

9. Ordered, That the West End Street Railway Company be requested, through His Honor the Mayor, to relocate their tracks on Dewey Sq., in such a manner as to eliminate the sharp curves now existing there; said curves being a great detriment and delay to public travel, both for passengers and vehicles.

Passed.

ASSISTANT CITY CLERK.

The following was received:—

Office of City Clerk, City Hall,
Boston, Jan. 6, 1899.

To the Honorable City Council:—

I respectfully inform you that John T. Priest has been duly appointed and qualified as Assistant City Clerk for the current municipal year, and until his successor is appointed and qualified.

Attest: J. M. Galvin, City Clerk.
Sent down.

ACCEPTANCE OF LOCATIONS.

Communications were received from the West End Street Railway Co. accepting the 159th, 160th and 161st locations granted to them by the Board of Aldermen, and approved by the Mayor, and agreeing to comply with the conditions contained therein. Severally placed on file.

CONSTABLE'S BOND.

The constable's bond of Horace Dennie, having been duly approved by the City Treasurer, was received by the Board. Approved by the Board.

AMUSEMENT REGULATION.

The Chairman submitted the following:—
City of Boston, in the year one thousand eight hundred and ninety-nine. A regulation to amend Chapter Three of the Revised Regulations of 1898.

Be it ordered, etc.:—
Chapter three of the Revised Regulations of 1898 is hereby amended in section one by striking out of said section the word "August," and inserting the word "January" in place thereof.

Referred to the Committee on Public Improvements, when appointed.

USE OF SAMMET HALL FOR WHIST PARTY.

Ald. PRESHO offered an order—That the Superintendent of Public Buildings be instructed to allow the use of Sammet Hall, Boylston Station, Wd. 22, to the Ancient Order of United Workmen, for a whist party, on the evening of January 31, 1899; waiving the usual fee.

Passed. Sent down.

WIDENING HANCOCK ST.

Ald. McDONALD offered an order—That the Board of Street Commissioners be requested to submit, through His Honor the Mayor, an estimate of the cost of widening Hancock St., Dorchester, Wd. 20, from Columbia Road to Freeport St., to a width of eighty feet.

Passed.

WIDENING OF DUDLEY ST.

Ald. McDONALD offered an order—That Board of Estimate and Apportionment be requested to report in their next loan a sum sufficient for the widening of Dudley St., at Upham's Corner and Columbia Road.

Passed.

REGULAR BOARD MEETINGS.

Ald. CODMAN offered an order—That Monday of each week, at three o'clock P. M., be the day and hour on which the regular meetings of this Board shall be held, until otherwise ordered.

Passed.

LIGHTS FOR NEPONSET PLAYGROUND.

Ald. CODMAN offered an order—That the Board of Park Commissioners, through His Honor the Mayor, be requested to place a suitable number of electric lights on the area reserved for skating on Neponset Playground.

Passed.

REMOVAL OF DEAD TREE, SARATOGA ST.

Ald. DAY offered an order—That the Superintendent of Public Grounds be requested to remove a dead tree standing in front of estate No. 130 Saratoga St., East Boston, Wd. 1; the expense attending the same to be charged to the appropriation for Public Grounds Department.

Passed.

METHODS OF COLLECTING DEPARTMENT.

A communication was read from the Collecting Department, addressed to the Board of Estimate and Apportionment, concerning the methods of conducting the business of the department.

Referred to the Board of Estimate and Apportionment.

VACANCY IN 13TH REPRESENTATIVE DISTRICT.

Notification was received from the Speaker of the House of Representatives of a vacancy in the 13th Representative District, caused by the death of Representative-elect James T. Mahony, Jr.

In connection with the above, Chairman Barry offered an order—That the City Clerk be and is hereby directed to give notice, by advertising the same as required by law, that meetings of the citizens of Wd. 13, qualified to vote for State officers, will be held at the several polling places in said ward designated for the purpose by the Board of Election Commissioners, on Tuesday, the seventh day of February next, for the election of a Representative in the General Court.

The polls at said meeting will be opened at six o'clock A.M., and closed at four o'clock P. M.

Passed.

PURCHASE OF PAINTING, "BOSTON MASSACRE."

Ald. DIXON offered an order—That His Honor the Mayor be requested to purchase the oil painting "Boston Massacre, March 5, 1770" and have the same hung in Faneuil Hall, and the Board of Estimate and Apportionment is hereby requested to provide a sum sufficient for said purchase.

Referred to the Board of Estimate and Apportionment.

BADGES FOR ALDERMEN.

Ald. DIXON offered an order—That the City Clerk be directed to procure suitable badges for the members of the Board of Aldermen; the expense incurred to be charged to the Contingent Fund, Board of Aldermen.

Passed.

FINANCE MATTERS REFERRED TO BOARD OF APPORTIONMENT.

Ald. BRICK offered an order—That all matters in the files of the Committee on Finance be referred to the Board of Estimate and Apportionment.

Passed. Sent down.

CLOCK POST, 40 WARREN ST.

Ald. O'TOOLE offered an order—That the Superintendent of Streets be authorized to issue a permit to John T. Kennedy to erect, maintain, and use a post with a clock surmounted thereon, in the sidewalk in front of the estate No. 40 Warren St., Wd. 17, the work to be completed on or before July 1, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

Passed.

RECESS TAKEN.

The Board voted, on motion of Ald. Berwin, at 3:27 P.M., to take a recess, subject to the call of the Chair.

The Board reassembled in the Aldermanic Chamber at 4:34 P.M.

—
APPOINTMENT OF COMMITTEES.

The Chairman announced the appointment of the following committees:—

Rules and Orders of the Board of Aldermen—Ald. McDonald, Colby and Doyle.

Public Improvements—The whole Board, Ald. O'Toole as Chairman.

—
ABATEMENT OF ASSESSMENT.

Ald. O'TOOLE offered an order—That the City Collector be authorized to accept \$1 in full for assessment charges against the Home for Destitute Catholic Children in Boston, levied for street watering, said charges amounting to \$35 04.

Passed, under a suspension of the rule. Sent down.

CHARLES RIVER BRIDGE, RECREATION PIERS.

Ald. PRESHO offered an order—That the City Engineer be requested to report to this Board at its next meeting on the expediency of retaining as much as possible of the Charles River Bridge, when abandoned, for the purpose of recreation piers.

Passed.

—
NEW PUBLIC LIBRARY, CHARLESTOWN.

Ald. PRESHO offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to provide a new public library building for the Charlestown District, including cost of land for same.

Referred to the Board of Estimate and Apportionment.

Adjourned at 4:37 P.M., on motion of Ald. Presho, to meet on Monday, January 16, 1899, at 3 o'clock P.M.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, January 12, 1899.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7:45 o'clock P. M., President Kiley in the Chair.

QUALIFICATION OF MEMBERS.

The following was received:—

City of Boston,
City Messenger Department, City Hall,
Boston, Jan. 9, 1899.
Joseph O'Kane, Esq., Clerk of the Common Council, City of Boston.

Dear Sir:—Messrs. Thomas J. Collins and Samuel H. Mildram, members of the Common Council of this city for the year 1899, qualified before me on Thursday, January 5, 1899. Yours very respectfully,

Charles D. Murphy,
Justice of the Peace,
Office of the City Clerk, City of Boston,
City Hall, January 9, 1899.

To the Honorable the Common Council:—
I respectfully inform you that Frank S. Atwood was duly qualified by me this day as a member of the Common Council from Wd. 16, for the current municipal year.
Attest: John T. Priest, Ass't City Clerk and Justice of the Peace.

In connection with the above, Mr. BAGLEY of Wd. 1 offered the following order—That the Board of Aldermen be hereby notified that Thomas J. Collins and Samuel H. Mildram were qualified as members of the Common Council on January 5, 1899; also that Frank S. Atwood was qualified as a member of said council on January 9, 1899.

The communications were severally placed on file and the order passed. Sent up.

COMMUNICATION FROM PAINTERS AND DECORATORS UNION.

A communication was received from Union No. 11, Painters and Decorators of America, in favor of the passage of an ordinance for the establishment of a city department to be known as the Building Construction Department, and that all repairs on public buildings be done by said department.

Referred to the Committee on Ordinances when appointed.

PAPERS FROM BOARD OF ALDERMEN

1. Notice of the appointment and qualification of John T. Priest as Assistant City Clerk.

Placed on file.

2. Ordered, That all matters in the files of the Committee on Finance be referred to the Board of Estimate and Apportionment.

Passed in concurrence.

3. Ordered, That the Superintendent of Public Buildings be instructed to allow the use of Sammet Hall, Boylston Station, Wd. 22, to the Ancient Order of United Workmen, for a whist party, on the evening of January 31, 1899, waiving the usual fee.

Passed in concurrence.

4. Ordered, That the City Collector be authorized to accept one dollar in full for assessment charges against the Home for Destitute Catholic Children in Boston, levied for street watering; said charges amounting to thirty-five dollars and four cents (\$35.04).

Passed in concurrence.

ADOPTION OF RULES AND ORDERS.

Mr. ARMISTEAD of Wd. 11 offered an or-

der—That the rules and orders of the Common Council of 1898 be adopted as the rules and orders of the present Common Council, until otherwise ordered.

Passed.

EXPENSES OF COMMON COUNCIL.

Mr. ARMISTEAD offered an order—That the office expenses of the clerk of the Common Council for printing, stationery and binding be charged to the general appropriation for printing.

Passed. Sent up.

PAYMENT TO VETERANS OF LATE WAR.

Mr. DONOVAN of Wd. 7 offered an order—That His Honor the Mayor be requested to petition the General Court for the passage of an act to authorize the City of Boston to pay all city employees who enlisted in the army or navy, during the late war with Spain, the amounts of compensation they would have received had they remained in the service of the city during the period of said war.
Referred to His Honor the Mayor.

QUESTIONS OF PRIVILEGE.

Mr. WATSON of Wd. 18—Mr. President, I rise to a question of personal privilege.

The PRESIDENT—The gentleman will state his question of privilege.

Mr. WATSON—Mr. President, in the Boston Traveler on Wednesday evening, there appeared an article written by one John Drohan, in which statements are made concerning me which are false—

The PRESIDENT—The Chair will request the gentleman to desist just a moment before beginning his remarks, and to kindly state to the floor his question of privilege.

Mr. WATSON—An attack upon me, Mr. President, by the Boston Traveler.

The PRESIDENT—The gentleman will proceed.

Mr. WATSON—Mr. President, an article appeared in the Boston Traveler written by one John Drohan, in which, statements are made concerning me that are absolutely false, and in which the official records of this body are deliberately misquoted.

This Drohan, who has run the gauntlet of Boston journalism, and who was, in the nick of time, taken under the protection of Josiah Quincy, is an official of the city, paid to do certain work for the city, and paid more than he ever earned before in his whole life, even when he was running a saloon in South Boston and attacking Democratic leaders, from Josiah Quincy, up.

Never before, since the Public Buildings Department of the city was established, was it in such a corrupt and inefficient condition as it is at the present time; and that is due to the fact that the nominal head of this department is busily engaged in writing slanderous attacks upon members of this government who are mentally, morally and politically his superiors.

I protest, as a member of the City Council, against permitting this notorious political turncoat and informer, paid to do certain work as well as his peculiar limitations will permit, to attack reputable members of this body, and I hope that the Mayor will take measures to see that said Drohan is, hereafter, compelled to confine his writing to observations upon his experiences in tenderloin bar-rooms after dark.

Mr. President, the Boston Traveler misquoted me in very large type. It says, "James A. Watson, of Wd. 18, rose in his place and said 'I have been offered everything from a house to a dog to vote for one or the other of the candidates.'" One-half of that quotation, Mr. President, is manufactured, is a deliberate lie. I did say I was offered everything from a house to a dog in this matter, and I want to say

to the Boston Traveler and to Mr. Drohan that it was not the friends of the President of this body of whom I spoke. The house was offered to me by Connolly and his friends, and the dog likewise, although it may sound like a joke. The article goes on to state, Mr. President, that I changed my mind from Saturday to Monday, that I was for Connolly on Saturday, and I was for Connolly on Saturday. If I was necessary for the Mayor of Boston to send for me early Monday morning and offer me all kinds of inducements, and to speak of my political future, which he never cared for? (Laughter and applause.) Mr. President, the Mayor of Boston asked me to go home sick, in order to dodge a vote that I had promised to give. I told him that I was obliged to vote for Mr. Kiley on Monday, because John B. Moran asked me to do so, and I am his friend. The man on whose account I voted for the President of this Council is my best friend on earth; and if an investigation ever comes—and I hope it will come—as to the methods of electing the President of this body, the Boston machine will be a dead body. (Applause and hisses.) I court an investigation of my vote. I said on inauguration day that my vote would be for ability, and my proof lies in the Chair of this year. The Chair of last year made a mess of it from start to finish, and, now that he has been fairly defeated, they cry like a lot of children. (Hisses in the galleries.)

Mr. HICKEY of Wd. 2.—Mr. President, I rise to a point of order.

The PRESIDENT—The Chair will state that if demonstrations such as have occurred are continued in the galleries, the galleries will be cleared. The gentleman will now state his point of order.

Mr. HICKEY—Mr. President, my point of order is simply this, that the gentleman in the First Division was given the floor for the purpose of answering a personal attack upon himself in the Boston Traveler, and he has now gone out of his way to make a personal attack, an onslaught, on the gentleman who was president of this body last year. I object to that.

The PRESIDENT—The Chair will rule the point of order not well taken, inasmuch as he believes that the gentlemen, speaking on an attack made on him in the Boston Traveler is justified, so far as the Chair can see, in using the language he has used so far. The gentleman from Wd. 18.

Mr. WATSON—Mr. President, the Traveler, I reiterate, wants to know why I changed my mind from Saturday to Monday. Perhaps for the same reason that Editor Wardner changed his mind in Dedham jail. (Laughter.) I have said about all I can say. I do want to say, however, that I court an investigation, and I know where the stone will hit.

Mr. HARRIGAN of Wd. 3.—Mr. President, I also rise to a question of personal privilege. My question of personal privilege is that my right as a member of this body has been infringed upon, and I also wish to reply to the statements made in last Monday's edition of the Boston Traveler in regard to my vote on inauguration day.

The PRESIDENT—The gentleman will proceed.

Mr. HARRIGAN—Mr. President, I desire to say that I did vote for Mr. Kiley on inauguration day, and I wish also to state that I am proud that I did vote for Mr. Kiley. I am proud that I had the courage of my convictions on inauguration day. I also wish to state that if the gentleman who wrote that article in the Boston Traveler does not retract it, I will attend to his case later on. Mr. President, I also wish to state, as the article in the Traveler says, that I gave my word of honor to the democratic leaders at a conference in the Parker House, Mr. President, that it is true that I went to the Parker House on Sunday night before inauguration day with

Councilman Bradley of Wd. 6 and a brother of Congressman Fitzgerald's, who came to my house at 11 o'clock at night on the Sunday previous to inauguration and took me away in a hack. Nobody knew where I was going. I did not know myself. I wish to state right here that I hope they will have an investigation of the methods used by the gentlemen who elected Mr. Kiley. I am sure that if such an investigation is had, the citizens of Boston will be surprised at some of the methods that the so-called democratic leaders of this city adopted to compel the members of this body to vote for Mr. Connolly. I am sure that in the Parker House I did not know what was to become of me. I remembered the time when, but a short while ago, the dearest friend that I ever had in the world went to attend one of those meetings—and you know the result! I refer to the recent leader in Wd. 3. I didn't know but what the same thing would happen to me. I never was in such a party of confidence men in my life as I was in that night in the Parker House. I never bought a gold brick until I went there. They offered me \$50 for my vote, if I would vote for Mr. Connolly for President. If they want an investigation, let them have it. We will show the methods that the Democratic leaders used to try to get votes for Mr. Connolly. I am proud, Mr. President, that I had the courage of my convictions, and that I voted for a man for President of this Council also this year who will be a credit to this Council, and not a disgrace, as the gentleman who presided over this body last year. (Uproar in the Council.)

The PRESIDENT—The Chair will ask the gentleman from Wd. 3 to kindly refrain from personal allusions.

Mr. HARRIGAN—Mr. President, I most sincerely hope that an investigation will be had, and that the people of Boston will have an opportunity to see the methods used by the democratic organization to get the votes of the democratic members of this body for Mr. Connolly.

WD. 17 WARDROOM, GRADING OF GROUNDS.

Mr. BRENNAN of Wd. 17 offered an order—That the Board of Estimate and Apportionment include in the next loan the sum of \$3000 for the grading of the grounds around the wardroom in Wd. 17.

Passed. Sent up.

PAVING OF NORFOLK AVE.

Mr. BRENNAN offered an order—That the Board of Estimate and Apportionment include in the next loan the sum of \$15,000 for the completion of the paving of Norfolk Ave., Wd. 17.

Passed. Sent up.

ELECTION OF OFFICERS.

Mr. LOGAN of Wd. 14 offered an order—That the Board of Aldermen be hereby notified that the Common Council has organized by the choice of Daniel J. Kiley as President and Joseph O'Kane as Clerk.

Passed.

SOLDIERS AND SAILORS MEMORIAL.

Mr. LOGAN offered an order—That the Board of Estimate and Apportionment be requested to appropriate the sum of \$50,000 for a monument to be dedicated to those citizens of Boston who died in the military and naval service of the United States during the late war.

Passed. Sent up.

EMPLOYMENT OF CITIZENS.

Mr. LINEHAN of Wd. 13 offered an order—That His Honor the Mayor be requested to instruct the heads of departments to make no contracts for city work with other than citizens of Boston, and to

see that a provision is inserted in each contract that none but citizens of Boston shall be employed as laborers at a rate of compensation of not less than \$2.00 a day, at eight hours per day.

Referred to His Honor the Mayor.

STEPS, MEAD STREET.

Mr. TURNBULL of Wd. 4 offered an order—That the Board of Estimate and Apportionment be requested to report in the next loan order the sum of \$15,000 for steps on Mead St., Wd. 4.

Passed. Sent up.

LABORERS' UNIFORMS.

Mr. WATSON of Wd. 18 offered the following:—

Resolved: That the Board of Park Commissioners, through His Honor the Mayor, be hereby notified that it is the opinion of the Common Council that it is inexpedient and to the detriment of the Park Department to oblige the wearing of uniforms by the laborers employed in said department.

Referred to the Committee on Park Department, when appointed.

INFORMATION REGARDING SUB-FOREMEN.

Mr. WATSON offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to inform the Common Council at his earliest convenience how many men are acting as sub-foremen in the various divisions of the Street Department at a rate of compensation of \$2.00 a day; also how many men are acting as sub-foremen who have not passed the civil service requirements.

Referred to His Honor the Mayor.

APPOINTMENT OF TELLERS.

The President appointed the following persons to act permanently as tellers:—

In the First Division: Messrs. Giblin of Wd. 15 and Armistead of Wd. 11.

In the Second Division: Messrs. Logan of Wd. 14 and Howard of Wd. 20.

In the Third Division: Messrs. Nangle of Wd. 19 and Simpson of Wd. 1.

In the Fourth Division: Messrs. Cuddy of Wd. 8 and Battis of Wd. 1.

RESOLUTIONS OF SYMPATHY TO COUNCILMAN CURLEY.

Mr. WATSON offered the following:—

Resolved, That the sympathy of the members of the Common Council be and the same hereby is extended to our associate, Councilman John J. Curley, on account of the great bereavement which has befallen him in the death of his respected mother.

Passed by a unanimous rising vote.

NEW BRIDGE, MEDWAY ST.

Mr. HIBBARD of Wd. 24 offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient for the construction of a new bridge across the Shawmut branch of the N. Y., N. H. & H. R. R. on Medway St., Wd. 24.

Passed. Sent up.

QUESTIONS OF PRIVILEGE.

Mr. CONNOLLY of Wd. 17—Mr. President, I rise to a question of personal privilege.

The PRESIDENT—The gentleman will state his question of personal privilege.

Mr. CONNOLLY—Mr. President, my question of privilege is that I have been attacked personally on the floor of this body.

The PRESIDENT—The gentleman will proceed.

Mr. CONNOLLY—Mr. Watson of Wd. 18 arose to a question of personal privilege, and in that question of personal privilege he attacked me and my friends, stating that I had given an offer to him of a house. That statement is a deliberate lie, and he knows it.

The PRESIDENT—The gentleman will kindly refrain from personal allusions of the character which he has just made when speaking of another member of the council. The Chair remembers, if he remembers correctly, that the gentleman to whom he refers said the house was offered by another person, and not by the gentleman from Wd. 17. The gentleman from Wd. 17 will proceed.

Mr. CONNOLLY—The Chair misunderstood the gentleman from Wd. 18, if that is the case. I understand that the gentleman from Wd. 18 said that I offered him the house; but I state here that I have offered Mr. Watson neither a house, a dog, or even a committee of the Common Council, for his vote; but Mr. Watson did come to me and state that if it was necessary he would cast his vote for me—

The PRESIDENT—The Chair will once more state to the gentleman from Wd. 17 that he must insist upon the rules of the Common Council being carried out. It is beneath the dignity of this body to violate parliamentary practice in the manner in which it is being done by the gentleman from Wd. 17. The Chair will once more call the gentleman's attention to the fact that the rules of the Common Council specifically state that personalities must not be indulged in.

Mr. CONNOLLY—The gentleman will bow to the rules of the parliamentary chair, but he believes that he has been assailed from the floor of this council by Mr. Watson of Wd. 18, and that being so, I have the right to answer Mr. Watson of Wd. 18.

The PRESIDENT—The gentleman will proceed, without using names, if possible.

Mr. CONNOLLY—Mr. Watson used my name, and the Chair did not correct Mr. Watson; therefore I demand the floor. (Applause in the galleries.)

The PRESIDENT—Once more I desire to remind those in the gallery that if demonstrations are continued, the gallery will be cleared.

Mr. CONNOLLY—And further, I did not make use of money or anything else in the movement to elect me to the presidency of the Common Council. I served as a democrat in the Common Council last year, and I was elected this year as a democrat. I am not a sorehead, and I have endeavored to keep out of this matter as much as possible. I did not say anything at the last meeting of the Council, and I did not intend to say anything tonight; but when such men as Mr. Watson and Mr. Horrigan get up in this Council and make the statements which they have, I throw back to them the words they have said against me and my character. I believe their constituents will look after them, and they know the kind of men they are. My character is such that I can go to my ward at any time and feel that the citizens of my district will stand behind me. I never look to such men as Watson and Horrigan to vouch for my character, and I never will. When I have to, I will resign from politics altogether. I thank you, gentlemen of the Council.

Mr. WATSON of Wd. 18—Mr. President, I rise to a question of personal privilege. Several members addressed the Chair.

The PRESIDENT—The Council will be in order. Motions, orders and resolutions.

Mr. WATSON—Mr. President, I rise to a question of personal privilege.

The PRESIDENT—The gentleman will please state his question of personal privilege.

Mr. WATSON—Mr. President, I desire to request the Chair to ask the official stenographer to read my remarks, or such

of them as refer to the dog and the house; and, Mr. President, I further wish to say that Mr. Connolly did meet me in the corridor, and I said to him: "If my vote will be the turning vote, I will vote for you"—and it was a jolly I gave him. (Laughter). Mr. President, I ask that the stenographer read my remarks. I said Mr. Connolly's friends, and not the president himself, offered me those things. I ask that my remarks be read, for the benefit of the gentleman from Wd. 17.

The PRESIDENT—The Chair will state that the stenographer who took down his remarks has since left the chamber, and he will ask the gentleman from Wd. 18 to kindly withdraw that request, as he believes there is no necessity for it at this time.

Mr. WATSON—I will, Mr. President.

CITY BINDERY.

Mr. LYDON of Wd. 13 offered an order—That the Superintendent of Printing, through His Honor the Mayor, be requested to submit to this body an estimate of the probable cost of the establishment of a bindery in connection with the present Municipal Printing Plant.

Referred to His Honor the Mayor.

INTRODUCTION OF ORDERS AND RESOLVES.

Mr. LYDON of Wd. 13 offered an order—That the Committee on Common Council, Rules and Orders, when appointed, be requested to devise such a change in the rules as will provide for a more systematic method than the one now in use for the introduction of orders and resolves by members of this body.

Referred to the Committee on Rules and Orders, when appointed.

ENGINE HOUSE, FOREST HILLS.

Mr. BRODERICK of Wd. 23 offered an order—That the Board of Estimate and Apportionment be requested to provide in its first loan bill the sum of \$30,000 for the purpose of purchasing land and constructing fire engine house at Forest Hills, Wd. 23.

Passed. Sent up.

PLAN OF COUNCIL SEATS.

Mr. NANGLE of Wd. 19 offered an order—That the City Messenger be requested to prepare a plan of the seats of the members of the Common Council for the year 1899, and to cause the usual number of copies to be printed, and that no change in the seats be allowed after Thursday, January 19, 1899; the expense of printing the same to be charged to the appropriation for Contingent Fund, Common Council, when made.

Passed, under a suspension of the rule.

LIGHTS UNDER RAILROAD BRIDGES.

Mr. NANGLE of Wd. 19 offered an order—That the Superintendent of Lamps be requested, through His Honor the Mayor, to locate and maintain electric lights under the bridges of the New York, New Haven & Hartford Railroad, from Ruggles St. to Old Heath St., Wd. 19.

Referred to His Honor the Mayor.

Mr. HICKEY of Wd. 2—Mr. President, I rise to a question of personal privilege.

The PRESIDENT—The Chair has just entertained an order from the gentleman from Wd. 19, and if the gentleman from Wd. 2 will refrain until the orders are read, he will then be allowed to rise to a question of personal privilege.

Mr. HICKEY—I will, Mr. President.

PLAYGROUND, ROXBURY.

Mr. NANGLE of Wd. 19 offered an order—That the Board of Estimate and Ap-

portionment be requested to provide in the first loan bill the sum of \$100,000 for a playground for Wds. 18 and 19.

Passed. Sent up.

IMPROVEMENT OF KINDERGARTEN SCHOOLS.

Mr. DOYLE of Wd. 19 offered an order—That the School Committee, through His Honor the Mayor, be requested to improve the buildings now used for kindergarten purposes in Wd. 19; also to provide two additional kindergarten schools for the children of said ward.

Referred to the Committee on Schools and Schoolhouses, when appointed.

WARD ROOM FOR GYMNASIUM PURPOSES.

Mr. DOYLE of Wd. 19 offered an order—That His Honor the Mayor be requested to furnish the Common Council with his opinion as to the feasibility of utilizing the ward room in Wd. 19 as a gymnasium when the same is not required for the usual ward purposes.

Referred to His Honor the Mayor.

ENGINE HOUSE, PARKER HILL.

Mr. DOYLE of Wd. 19 offered an order—That the Fire Commissioner, through His Honor the Mayor, be requested to inform this Council as to the advisability of providing a new engine house and apparatus in the vicinity of Parker Hill, Wd. 19.

Referred to His Honor the Mayor.

QUESTIONS OF PRIVILEGE.

Several members addressed the Chair, and Mr. Linehan of Wd. 13 was recognized, and sent an order to the Chair.

Mr. MULCAHY of Wd. 14—Mr. President, I rise to a point of order.

The PRESIDENT—The gentleman will state his point of order.

Mr. MULCAHY—Under the rules of the Council it is courtesy on the part of the Chair, as I understand it, to give recognition to a gentleman who seeks the floor at various times. Now, Mr. President, I have risen here three or four different times since you have been making the rounds of this body, myself and the gentleman behind me from Wd. 2 (Mr. Hickey), and the gentleman in front of me from Wd. 9 (Mr. Kasanof).

The PRESIDENT (rapping to order)—The Chair will ask the gentleman to state his point of order and no more. The Chair has entertained an order from the gentleman from Wd. 13.

Mr. HICKEY of Wd. 2—Mr. President, I rise to a question of personal privilege, and I demand being heard.

The PRESIDENT—The Clerk will read the order offered by the gentleman from Wd. 13.

The CLERK (reading)—Ordered, That—Mr. HICKEY—Mr. President, I have been sent here by the people of Wd. 2, and I was sent here for a purpose.

The Clerk (continuing reading)—"The School Committee, through His Honor the Mayor,"

A number of members addressed the Chair.

Mr. HICKEY—I demand, Mr. President, recognition from you on this floor.

The PRESIDENT—There is an order before the body, and the gentlemen of the Council will preserve order.

The CLERK (continuing reading)—"be requested to take"

A number of members addressed the Chair "Mr. President! Mr. President!"

The PRESIDENT (rapping to order)—The Council will preserve order.

Mr. HICKEY—Mr. President, I demand some recognition for the 1300 people who voted for me at the caucus.

A number of members addressed the Chair "Mr. President!"

The PRESIDENT—There is an order before the body.

Mr. HICKEY—Mr. President, I demand recognition—

The PRESIDENT—The gentleman will preserve order or the Chair will direct the City Messenger to remove him from the Chamber.

Mr. HICKEY—I defy you to do so, Mr. President. I demand recognition for the 2500 men who voted for me at the polls on election day. I demand the right of free speech in the Council Chamber of Boston.

The PRESIDENT (rapping to order)—If the gentleman does not preserve order he will be removed from the body by the City Messenger.

The Chair will ask the Clerk to read the order before the body.

The CLERK (reading)—“Ordered; That the School Committee, through His Honor the Mayor”—

A number of members addressed the Chair “Mr. President!”

Mr. HICKEY—Having been duly elected to this body, I defy you to remove me. (Uproar in the chamber.)

The PRESIDENT—The Council will be in order. The City Messenger will do his duty.

(The City Messenger approached Mr. Hickey.)

Mr. HICKEY—Mr. President, as a democrat, as a member of this body, I stand here and defy you to remove me. (Applause and hisses.)

The PRESIDENT—The Clerk will read the order.

The CLERK (continuing reading)—“be requested to take immediate steps to improve the sanitary condition of the Mather Schoolhouse in Wd. 13, South Boston.”

A number of members addressed the Chair—“Mr. President!”

Mr. HICKEY—Mr. President, Mr. President, I demand recognition on the floor of this body.

Mr. WATSON of Wd. 18—Mr. President, I move that the City Messenger be instructed to remove the gentleman from the Chamber.

The PRESIDENT—Mr. Watson moves that the City Messenger be directed to do his duty. Those in favor say “Aye” (a number of affirmative responses); those opposed “No” (a number of negative responses). It is a vote, and the City Messenger will do his duty.

Fifteen or sixteen members addressed the Chair “Mr. President! Mr. President!”

Mr. MULCAHY—Mr. President, I move that we adjourn. (Several voices: “Second the motion!”)

Mr. MULCAHY—Mr. President, I move that we adjourn.

A number of members addressed the Chair.

Mr. TOBIN of Wd. 9—Mr. President, I ask for a rising vote on that.

Mr. MULCAHY—Mr. President, I move that we adjourn.

The PRESIDENT—The Council will be in order.

Mr. HICKEY—Mr. President, I demand recognition on the floor of this body. The City Messenger will use force if he removes me from this Council Chamber. The City Messenger will use force if he removes me from this Council Chamber tonight. I am here to speak for the men whom I represent in Wd. 2.

Several members addressed the body “Mr. President!”

The PRESIDENT—The Council will be in order.

Mr. HICKEY—Mr. President, Mr. President.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I move that we do now adjourn.

Several members—“Second the motion!”

The PRESIDENT—It is moved and seconded that the Council do now adjourn. All those in favor of the motion will say “Aye” (a number of affirmative responses); all opposed will say “no” (a number of negative responses), and the Council stands adjourned to next Thursday at 7:45 P.M.

Adjourned at 8:30 P.M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen

Monday, Jan. 16, 1899.

Regular meeting of the Board of Aldermen held in the Aldermanic Chamber, City Hall, at 3 o'clock P.M., Chairman Barry presiding and all the members present.

The Board voted, on motion of Ald. Codman, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Jurors were drawn in accordance with the provisions of Chapter 514, of the Acts of 1894, as follows:—

One Hundred and Thirty-five Traverse Jurors, Superior Criminal Court, February sitting:—

Henry Peckerman, Wd. 22; James H. Carney, Wd. 21; Albert Sawyer, Wd. 5; John W. Magrath, Wd. 5; William G. Rose, Wd. 7; Walter J. Burns, Wd. 21; William W. Cunningham, Wd. 13; Harry M. Wright, Wd. 10; Elisha J. Wheaton, Wd. 10; Moses C. Plummer, Wd. 12; John J. O'Brien, Wd. 9; Adrien Rutishauser, Jr., Wd. 13; George H. Collyer, Wd. 20; Edward Williams, Wd. 17; Lewis P. Goss, Wd. 9; Timothy J. Dillon, Wd. 22; James O. Jordan, Wd. 20; Edwin S. Cabot, Wd. 8; David Connery, Wd. 21; John W. Kirkpatrick, Wd. 24; Jeremiah B. Seammon, Wd. 17; Albion Sanborn, Wd. 15; Charles O. Burrell, Wd. 17; John F. Greenleaf, Wd. 2; Henry H. McDonough, Wd. 1; John J. Crowley, Wd. 24; James J. Lee, Wd. 12; William H. Keller, Wd. 12; Dennis J. Lenehan, Wd. 16; Frank W. Stimson, Wd. 22; Frank H. Glover, Wd. 24; Clarence M. Reed, Wd. 12; William H. Simonds, Wd. 12; John E. Meehan, Wd. 13; David Strachan, Wd. 25; William H. Richardson, Wd. 2; George R. Crawford, Wd. 10; Frank Hill, Wd. 12; Dennis H. Quirk, Wd. 4; Joseph E. Frisbee, Wd. 9; Everett J. Timmins, Wd. 9; William L. Terhune, Wd. 20; Garode F. Joyce, Wd. 5; Thomas H. Cunningham, Wd. 1; Joseph B. Gould, Wd. 22; Walter R. Morse, Wd. 20; Elbridge F. Andrews, Wd. 9; George Bruns, Wd. 9; Newell P. Choate, Wd. 1; Burnett Lewis, Wd. 6; James R. Flanagan, Wd. 7; Thomas C. Newell, Wd. 20; William L. Smart, Wd. 20; Robert M. Higgins, Wd. 24; William E. Smith, Wd. 10; Francis J. Gerraughty, Wd. 9; James Connor, Wd. 10; William H. Stalker, Wd. 1; Maurice A. Galvin, Wd. 2; Cornelius J. Crowley, Wd. 17; Joseph E. Ryan, Wd. 9; Benjamin M. Lincoln, Wd. 18; William H. Quincy, Wd. 23; Edward B. Hoyt, Wd. 19; George E. Robinson, Wd. 12; Cortes H. Dwyer, Wd. 19; Daniel E. Bryan, Wd. 14; Charles A. Bates, Wd. 7; Edwin A. Reynolds, Wd. 19; Harris M. Stevenson, Wd. 22; Harry C. Grafton, Wd. 20; John T. Kimball, Wd. 20; John J. Norton, Wd. 14; James T. Roche, Wd. 5; James W. Longstreet, Wd. 19; Robert A. Coleman, Wd. 8; Edward J. McMulkin, Wd. 12; Alfred Johnson, Wd. 5; Thomas F. Meaney, Wd. 15; Robert D. Smith, Wd. 15; Frederick W. Bourne, Wd. 1; Frank H. Scannell, Wd. 18; Daniel C. Pierce, Wd. 23; John B. Walker, Wd. 16; Stephen Gale, Wd. 17; Francis A. Blackmer, Wd. 12; Emery H. White, Wd. 7; James T. Walte, Wd. 15; John E. Lander, Wd. 16; Timothy J. Healy, Wd. 1; James T.

Ball, Wd. 10; Albert F. Gue, Wd. 10; Henry Powers, Wd. 8; Dennis A. Doherty, Wd. 4; John B. Keeney, Wd. 7; Cornelius W. Reddy, Wd. 18; Henry S. Worrall, Wd. 21; John A. Armstrong, Wd. 8; Daniel E. Lynch, Wd. 16; Henry Hurd, Wd. 2; Wilbur Goodwin, Wd. 1; Henry A. Ackroff, Wd. 19; Seth S. Doane, Wd. 8; Israel F. Crafts, Wd. 4; Leonard M. Cummings, Wd. 24; George W. Briscoe, Wd. 18; Lyman C. Batchelder, Wd. 20; William A. Dresser, Wd. 10; James Scott, Wd. 12; James Edward Dingley, Wd. 21; Francis H. Sullens, Wd. 21; Charles H. Welch, Wd. 16; William A. Armstrong, Wd. 14; John H. Cullen, Wd. 15; Thomas P. E. Reilly, Wd. 3; Gustavus F. Alden, Wd. 17; Hollis L. Packard, Wd. 20; James W. Robertson, Wd. 14; Joseph D. Wood, Wd. 21; Ambruse E. Kelly, Wd. 17; Allen J. Proctor, Wd. 6; George W. Cashman, Wd. 1; Joseph Gladbach, Wd. 19; George H. Allen, Wd. 5; James L. Kingston, Wd. 21; Edward H. Gilday, Wd. 1; Theodore Leutz, Wd. 15; Charles H. Homan, Wd. 23; William H. Kitching, Wd. 21; Charles W. Trainer, Wd. 10; William H. Mahoney, Wd. 1; John D. Blen, Wd. 8; Benjamin F. Levy, Wd. 12; George H. Chapin, Wd. 9; Charles J. Doherty, Wd. 6.

USE OF WARD ROOMS.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 16, 1899.

To the City Council:—

In view of the growth of the practice of requesting the Superintendent of Public Buildings to grant the use of various ward rooms without charge, and of the inability of the Public Buildings Department to meet such expenses out of its regular appropriation, I feel obliged to give formal notice to the City Council that it will be impossible to grant such requests in the future. The practice of granting the use of Faneuil Hall, waiving the fee, had been growing, but until the last few months it had never been the practice, I believe, to grant the use of ward rooms without expense. Every time a ward room is used it imposes a material expense on the department for lighting, heating and cleaning, and as the department has no funds for this purpose it becomes necessary to terminate this practice before it grows to larger dimensions.

Respectfully submitted,
Josiah Quincy, Mayor.

Referred to the Committee on Public Improvements, on motion of Ald. Dixon.

APPOINTMENT BY THE MAYOR.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 16, 1899.

To the Board of Aldermen:—

Subject to your approval and confirmation, I hereby appoint Henry L. Plummer a member of the Board of Overseers of the Poor for the term ending April 30, 1901, to take the place of Frederick W. Day, resigned.

Josiah Quincy, Mayor.

Laid over, under the law.

APPROPRIATION FOR WIRE DEPARTMENT.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 12, 1899.

To the City Council:—

I respectfully transmit under the provisions of Chapter 434 of the Acts of 1898, the accompanying order this day passed by the Board of Estimate and Apportionment, under said Act. Respectfully,

Josiah Quincy, Mayor.

Mayor's Office, City Hall.

Boston, Jan. 12, 1899.

To the Board of Estimate and Apportionment:—

I respectfully request the Board to prepare and pass an order making an appropriation to pay the expenses incurred in

carrying on the work of the Wire Department, other than the work authorized by Chapter 454 of the Acts of 1894, and Acts in amendment or addition thereto.

Respectfully submitted,

Josiah Quincy, Mayor.

City of Boston.

In Board of Estimate and Apportionment,
Jan. 12, 1899.

Ordered: That the sum of ten thousand dollars (\$10,000) be appropriated to pay the expenses incurred on the work of the Wire Department, other than the work authorized by Chapter 454, of the Acts of 1894, and acts in amendment or addition thereto, the same to be met out of the income and taxes received by the city during the financial year 1899-1900.

Passed.

Josiah Quincy,
David F. Barry,
Daniel J. Kiley,
John H. Sullivan,
Laurence Minot.

Members of the Board of Apportionment.

Referred to the Committee on Public Improvements on motion of Ald. Berwin.

APPROPRIATION FOR WIRE DEPARTMENT.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 12, 1899.

To the Common Council:—

I respectfully transmit under the provisions of Chapter 434 of the Acts of 1898, the accompanying order this day passed by the Board of Estimate and Apportionment under said Act.

Respectfully,
Josiah Quincy, Mayor.

Mayor's Office, City Hall,
Boston, Jan. 12, 1899.

To the Board of Estimate and Apportionment:—

I respectfully request the Board to prepare and pass an order making an appropriation for the Wire Department to enable it to carry on the work devolved upon it by Chapter 454 of the Acts of 1894, and acts in amendment or addition thereto.

Respectfully submitted,
Josiah Quincy, Mayor.

City of Boston,

In Board of Estimate and Apportionment,
Jan. 12, 1899.

Ordered: That the sum of twenty thousand dollars (\$20,000) be appropriated to be expended by the Wire Department in carrying out the provisions of Chapter 454 of the Acts of 1894, and Acts in amendment or addition thereto, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation is not to meet a current expense.

Josiah Quincy,
David F. Barry,
Daniel J. Kiley,
John H. Sullivan,
Laurence Minot.

Members of the Board of Estimate and Apportionment.

Referred to the Committee on Public Improvements, on motion of Ald. Presho.

CONSTRUCTION OF SEWERAGE WORKS.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 12, 1899.

To the City Council:—

I respectfully transmit, under the provisions of Chapter 434 of the Acts of 1898, the accompanying order this day passed by the Board of Estimate and Apportionment, under said Act.

Respectfully,
Josiah Quincy, Mayor.

Mayor's Office, City Hall,
Boston, Jan. 11, 1899.

To the Board of Estimate and Apportionment:—

I respectfully request the Board to prepare and pass an order making an appropriation for the construction of sewerage works, under the provisions of chapter 426 of the Acts of 1897, and acts in amendment or addition thereto.

Respectfully submitted,

Josiah Quincy, Mayor.

City of Boston,

In Board of Estimate and Apportionment,
Jan. 12, 1899.

Ordered, That the sum of one million dollars (\$1,000,000) be appropriated for the construction of sewerage works, under the provisions of Chapter 426 of the Acts of 1897, and acts in amendment or addition thereto, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot.

Members of the Board of Estimate and Apportionment.

Referred to the Committee on Public Improvements, on motion of Ald. Adams.

RELOCATION OF WATER PIPE.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 16, 1899.

To the City Council:—

At the request of the Board of Harbor and Land Commissioners, I hereby recommend the passage of the order transmitted herewith, together with explanatory plan, providing for the relocation of a water pipe in E St., South Boston. This action is made necessary through the desire of this Board to change a contemplated laying out of land belonging to the Commonwealth.

Respectfully submitted,

Josiah Quincy, Mayor.

Ordered, That His Honor the Mayor be and he is hereby authorized, in the name and behalf of the city, to enter into an agreement with the Commonwealth of Massachusetts, whereby the city shall release the right to maintain its water pipes in E St., South Boston, as heretofore located, from Fargo St. to Summer St., and any other rights which it may have in said portion of E St., as heretofore located, in consideration that the said Commonwealth shall fill to the grade of sixteen feet above mean low water a proposed extension of said E St. from Fargo St. to Summer St., as shown on a plan of said proposed extension, dated December 28, 1898, signed by Frank W. Hodgdon, Engineer Harbor and Land Commissioners, and hereto attached; shall grant to the city the right to lay and maintain its water pipes in said proposed extension of E St., as shown on said plan, and shall pay to the city the reasonable cost of removing said water pipes from their present location and relaying them in the new location to be provided as aforesaid.

Referred to the Committee on Public Improvements, on motion of Ald. Dixon.

VETO—ABATEMENT OF STREET WATERING.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 16, 1899.

To the City Council:—

I return herewith without my signature an order authorizing the City Collector to accept one dollar in full payment for the assessment for street watering levied against the Home for Destitute Catholic Children, for the reason that any such order passed by the City Council has, in the opinion of the Corporation Counsel, no legal effect.

Respectfully submitted,
Josiah Quincy, Mayor.

Referred to the Committee on Public Improvements, on motion of Ald. O'Toole.

LEAVE GRANTED ON PETITIONS.

Ald. BERWIN presented the following petitions and moved that the rules be suspended and that leave be granted on the same, viz:

Lewis & Co., for permission to project cloth and wood signs on building 147 Washington St., 50 Brattle St., and 1-5 Cornhill.

E. E. Gray & Co., for permission to erect a permanent awning on buildings 132-6 Blackstone St. and 152-6 Hanover St. The rule was suspended and leave was granted on the usual conditions.

ERECTION OF GUY POSTS.

Under a suspension of the rule, Ald. Adams, offered the following:

Ordered, That the Superintendent of Streets be authorized to issue a permit to Bell & Co. to erect, maintain and use guy posts, two on Quincy St. and two on Phipps Ave., near the corner of Perth St., Ward 29. The work to be completed on or before July 1, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

Passed under a suspension of the rule.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, when appointed.

Building Dep't. (Ald.)

Petitions for leave to project signs, etc., viz:

Fritz Franz, a sign, at 15 Cornhill, Wd. 6.

K. Sapirstein, a sign, at 62 Austin St., Wd. 5.

George W. Ray, a sign, at 1006 Bennington St., Wd. 1.

Quong Shong, a sign, at 1068 Washington St., Wd. 9.

Claims.

Charles F. Cass, for payment of balance remaining from tax sale of estate on Kilton St. (lot 39).

Guilford L. Stark, for payment of balance remaining from tax sale of estate on Mt. Vernon St., W. R. (lot 49).

George Gannon, to be paid for damage to his sleigh caused by one of the city ash carts.

N. Dunne, for compensation for damage to her clothing while she was travelling on the East Boston Ferry.

Mrs. F. W. Moran, to be paid for damage to her clothing sustained while she was in the waiting room of the East Boston Ferry.

Jane E. Newell, for payment for balance remaining from tax sale of estate on Devon St.

Electric Wires.

Petitions of the New England Telephone and Telegraph Co. of Mass., viz.:-

For leave to erect and to remove one pole on Forest Hills St., Wd. 23.

For leave to erect poles on Chester and Farrington Sts., Wd. 25.

For extension of time to February 28, 1899, in which to erect poles in Columbus Ave., (granted Feb. 1, 1897).

For extension of time to February 28, 1899, in which to erect poles in Columbus Ave., (granted Nov. 24, 1897).

The N. E. Tel. and Tel. Co. of Mass., and the Postal Telegraph-Cable Company, that permission be granted to the first named company to attach its wires to poles of the second named company, on Eoston St.

Railroads.

West End Street Railway Company, for a location for double tracks on Washington St., between Newcomb and Ball Sts.

Public Improvements.

L. Wingsky, for leave to box two trees in front of 51 Devon St., Roxbury.

LICENSES GRANTED.

The CHAIRMAN submitted the following petitions—recommending that licenses be granted, viz.:-

C. F. Densmore, for a season license ending Aug. 1, 1899, for Arcanum Hall, corner Brighton Ave. and Allston St., for musical and dancing entertainments.

J. J. McAuliffe, for a license to exhibit an oil painting "Ecce Homo," at 170 Tremont St., for season ending Aug. 1, 1899.

The licenses were severally granted, on the usual conditions.

A. L. Griffen, manager, for a permit for Baby Blanche and Gussie Hunt to appear on stage of Bowdoin Sq. Theatre for week ending Jan. 21, 1899.

Report accepted, permit granted on the usual conditions.

TRACK LOCATION IN SARATOGA ST.

Ald. CODMAN presented the petition of the directors of an association for the formation of the Winthrop and Revere Street Railway Company for a location of tracks on Saratoga St., East Boston, with the right to use the overhead trolley system thereon.

In connection with the above an order of notice was passed—That fourteen days' notice be given by the petitioner to all parties interested, that this Board will, on Monday, February 6, at 3 o'clock P.M., take into consideration the expediency of granting the prayer of the above petition, when any parties who object thereto may appear and be heard.

The order of notice was passed.

PAPERS FROM COMMON COUNCIL.

1. Notice of the organization of the Common Council by the choice of Daniel J. Kiley as president, and Joseph O'Kane as clerk.

Placed on file.

2. Notice of the qualification of certain members of the Common Council, viz.:- Thomas J. Collins and Samuel H. Milderam, on January 5; and Frank S. Atwood, on January 9.

Placed on file.

The Board voted, on motion of Ald. Colby, to consider Nos. 3 to 10, inclusive, together, and that the same be read by their titles, viz.:-

3. Ordered, That the office expenses of the Clerk of the Common Council for printing, stationery and binding, be charged to the general appropriation for printing.

4. Ordered, That the Board of Estimate and Apportionment be requested to provide in the first loan bill the sum of one hundred thousand (100,000) dollars for a playground for Wds. 18 and 19.

5. Ordered, That the Board of Estimate and Apportionment be requested to appropriate the sum of fifty thousand (50,000) dollars for a monument to be dedicated to those citizens of Boston who died in the military and naval service of the United States during the late war.

6. Ordered, That the Board of Estimate and Apportionment be requested to report in the next loan order the sum of fifteen thousand (15,000) dollars for steps on Mead St., Wd. 4.

7. Ordered, That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient for the construction of a new bridge across the Shawmut Branch of the New York, New Haven & Hartford R.R., on Medway St., Wd. 24.

8. Ordered, That the Board of Estimate and Apportionment be requested to provide in its first loan bill, the sum of thirty thousand (30,000) dollars for the purpose of purchasing land and constructing a fire-engine house at Forest Hills, Wd. 23.

9. Ordered, That the Board of Estimate and Apportionment include in the next

loan the sum of three thousand (3000) dollars for the grading of the grounds around the ward-room in Wd. 17.

10. Ordered, That the Board of Estimate and Apportionment include in the next loan the sum of fifteen thousand (15,000) dollars for the completion of the paving of Norfolk Ave., Wd. 17.

Severally referred to the Board of Estimate and Apportionment on motion of Ald. Colby.

CONFIRMATION OF APPOINTMENTS.

The Board voted, on motion of Ald. Presho, to consider Nos. 11 and 12, unfinished business, together, viz.:-

Action on appointments of the Mayor, viz.:-

11. James H. Cleaves to be an Inspector of Petroleum and its products, for the term ending April 30, 1899.

12. John P. Donovan, to be a Weigher of Coal, for the term ending April 30, 1899.

The question came on confirmation, Committee—Ald. Presho and Doyle. Whole number of ballots case 11, yes 11, and the appointments were confirmed.

RELOCATION OF TRACKS ON TREMONT ST.

Ald. COLBY called up past assignment, No. 13, viz.:-

13. Ordered, That the Committee on Railroads, when appointed, be requested to give a public hearing on the subject of relocation of the tracks on Tremont and Boylston Sts.

Ald. COLBY—Mr. Chairman, I ask that the order be indefinitely postponed.

Ald. BRICK—Mr. Chairman, in the matter of order No. 13, it strikes me that if we were the Selectmen of Revere or any of the other small surrounding towns or cities this would be a matter of importance, a matter which would excite public interest. I don't know how it strikes some of my brothers in the Board. It certainly has occurred to me that this is a matter which vitally interests every man who takes cognizance of the affairs and the business interests of the city of Boston. Whether it is a matter that we should put through or not is another question; whether it is a question on which we should be placed is somewhat in issue; but, as to the advisability of giving a public hearing I think there is no question. It has been suggested to me that I put this in the form of a resolve, but I am free to say that I am somewhat in doubt and would be somewhat controlled by public opinion on this question. I think the matter should be investigated by a committee, that reports should be sent into this branch, and that we might gather some useful information about the matter. I realize that we have no power in the matter, but I do think our reports, our discussion and a public hearing, would have a bearing on the question, and that we in our reports could give as concise and faithful information as members of the legislature coming from Chicopee or some other town in this Commonwealth. I therefore hope the Committee on Railroads—which will be appointed, as I understand, today—will give a public hearing upon this matter, and that we get the sentiment of the citizens of Boston, pro and con, upon the question, so that we may have information upon it and, if it is for the best interests of the city, that we may make a report to the Board that will perhaps influence the minds of the members of the legislature on the question. I therefore ask a vote on the order.

Ald. COLBY—Mr. Chairman, I assume that any man who has accepted an office such as this is at the hands of the voters of the city understands full well that he is interested in anything that concerns the welfare of the city and is in duty bound to do anything in his power to further the interests of the city; but it strikes me that when we go out of our province and at-

tempt to take part in matters over which, as the alderman himself admits, we have no jurisdiction, we are simply misleading the public. I cannot understand anybody coming down here to City Hall and attending a public hearing upon this question if he understands that the Board before whom the hearing is held has absolutely no power in the matter. He would naturally want to go before the legislature and express his views pro or con. I understand that the matter is very actively before the legislature. Have the people who are most in interest come before us to ask us to do anything in the matter? Not a bit of it. They have organized, have employed counsel, and are pressing the matter before the legislature, where it now stands. They have not turned their faces this way, but towards the State House, fully realizing that we have no power in the matter; and why should we simply inflict upon the city the expense of a public hearing, with a stenographic report, when absolutely nothing can be accomplished by it. If the alderman has any information of interest, he can go to the legislature and state it, and the fact that he is a member of the Board of Aldermen ought to lend some weight to his statement. If he is in search of information, I submit to him that that is the proper place for him to get it, and that there the State will pay for it, and not the city. Therefore, as we can do nothing, and as previous experience has shown that there are no adequate results to pay for the expense of such a hearing, I hope the order will be indefinitely postponed.

Ald. O'TOOLE—Mr. Chairman, I think it would not do a particle of harm, in view of what the alderman from Wd. 12 (Ald. Colby) has said, if the alderman from Wd. 8 (Ald. Brick) would withdraw this order and then introduce it in the form of a resolve. I would then see no harm in the Board of Aldermen of Boston voting for such a resolve, showing to the Legislature in an emphatic manner that we agree that there should be a relocation of tracks on Tremont St. I myself agree with the alderman from Wd. 12 (Ald. Colby) that it means a large amount of superfluous work to have a public hearing before the Railroad Committee in the matter, for the simple reason that on several occasions mass meetings of people in Tremont Temple have advocated the relocation of the tracks on Tremont St. But it will not do a particle of harm to pass such a resolve as I have suggested. The State Legislature, which has no jurisdiction in matters before the National House of Congress, has passed resolutions concerning national matters time and time again, and I think it would do no harm at this time to pass a resolve such as I have suggested, if the gentleman will withdraw his order as it appears on the calendar and put it in the form of a resolve. I will be perfectly willing to vote for it.

Ald. BRICK—Mr. Chairman, I suggest that the gentleman withdraw the motion to indefinitely postpone, and I will then move to refer the matter to the Committee on Public Improvements.

Ald. COLBY—I will accept, Mr. Chairman.

The order was referred to the Committee on Public Improvements.

PETROLEUM LICENSE.

A certificate was received from the Fire Commissioner, approving the application of Mrs. Ella Abrams for a license to keep for sale oils or fluids composed wholly or in part of the products of petroleum, at 11 Savoy St.

The Board voted, on the said petition that leave be granted on the usual conditions.

Report accepted. Leave granted on the usual conditions.

FRANKLIN FUND ACCOUNTS.

A request was received from Samuel F. McCleary, Treasurer of the Franklin Fund, that a committee of two members of the Board of Aldermen be appointed to examine his accounts as treasurer of said fund.

The request was referred to special committee consisting of Ald. Colby and Day.

RULES OF THE BOARD OF ALDERMEN.

Ald. McDONALD submitted the following:

The special committee appointed to prepare rules for the government of the board of aldermen for the current year report herewith the accompanying draft, which they recommend for adoption, being the same rules as were in force for the year 1898, with the exception that the number of members on committees is made five, and rules 6 and 27 are stricken out.

Respectfully submitted,
Patrick F. McDonald, Chairman.

RULES OF THE BOARD OF ALDERMEN.

Chairman.

Rule 1. The Chairman of the Board shall take the chair at the hour to which the Board shall have adjourned, and shall call the members to order, and, a quorum being present, shall cause the minutes of the preceding regular meeting to be read; and, in the absence of the Chairman, the senior member present shall preside as Chairman pro tempore.

Rule 2. The Chairman shall preserve decorum and order, may speak to points of order in preference to other members, and shall decide all questions of order, subject to an appeal to the Board; and no other business shall be in order until the question on appeal shall have been decided.

Rule 3. The Chairman shall propound all motions in the order in which they are moved, unless the subsequent motions shall be previous in its nature, except that, in naming sums and fixing times, the largest sum and the longest time shall be put first.

Rule 4. The Chairman shall, at the request of any member, make a division of a question when the sense will admit.

Rule 5. The Chairman shall, without debate, decide all questions relating to priority of business to be acted upon.

Rule 6. The Chairman shall declare all votes; but if any member doubts a vote, the Chairman shall cause a rising vote to be taken; and when any member so requests, shall cause the vote to be taken or verified by yeas and nays.

Rule 7. The Chairman shall appoint all committees, fill all vacancies therein, and designate the rank of the members thereof.

Rule 8. When the chairman of the board or the chairman pro tempore shall desire to vacate the chair, he may call any member to it; but such substitution shall not continue beyond an adjournment.

Motions.

Rule 9. Every motion shall be reduced to writing if the chairman shall so direct.

Rule 10. A motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost shall not preclude amendment, or a motion to strike out and insert.

Rule 11. No motion or proposition of a subject different from that under consideration shall be admitted under color of amendment.

Rule 12. When an order or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the city council, such order or resolution shall, upon presentation, be referred to such committee. When a motion is made to refer any subject, and

different committees are proposed, the motion shall be put in the following order:—

1. To a standing committee of the board.
2. To a special committee of the board.
3. To a joint standing committee.
4. To a joint special committee.

Rule 13. After a motion has been put by the chairman, it shall not be withdrawn except by unanimous consent.

Rule 14. When a question is under debate the following motions only shall be entertained, and in the order in which they stand arranged.

1. To adjourn.
2. To lay on the table.
3. To postpone to a day certain.
4. To commit.
5. To amend.
6. To postpone indefinitely.

Rule 15. A motion to adjourn shall be in order at any time, except on an immediate repetition, or pending a verification of a vote; and that motion, the motion to lay on the table, and the motion to take from the table, shall be decided without debate.

Readings.

Rule 16. Every ordinance, order and resolution reported by a committee shall, unless rejected, have two several readings, both of which may take place at the same session, unless objection is made. Whenever the second reading immediately follows the first reading, the document may be read by its title only. Orders from the board of street commissioners, changing the names of streets, and orders granting locations for poles or posts, shall, however, have one reading only at the same session.

Confirmations.

Rule 17. The question of confirming a nomination made by the mayor shall be decided by a ye and nay ballot.

Reconsideration.

Rule 18. When a vote has been passed, any member may move a reconsideration thereof at the same meeting, or he may give notice to the clerk, within twenty-four hours of the adjournment, of his intention to move a reconsideration at the next regular meeting, in which case the clerk shall retain possession of the papers until the next regular meeting; and, when a motion for reconsideration is decided, that vote shall not be reconsidered.

Conduct of Members.

Rule 19. Every member when about to speak shall rise, address the chair, and wait until he is recognized, and in speaking shall confine himself to the question, and avoid personalities.

Rule 20. No member speaking shall, without his consent, be interrupted by another, except upon a point of order.

Rule 21. No member shall be permitted to vote on any question, or serve on any committee, where his private right is immediately concerned, distinct from the public interest.

Rule 22. Every member who shall be present when a question is put, where he is not excluded by interest, shall give his vote, unless the Board for special reasons shall excuse him. Application to be so excused on any question must be made before the Board is divided, or before the calling of the yeas and nays; and such application shall be accompanied by a brief statement of the reasons, and shall be decided without debate.

Standing Committees.

Rule 23. The following standing committees of the Board, to consist of five members each, except where otherwise herein provided, and the members of the joint standing committees on the part of this Board, named in the joint rules and orders of the City Council, and all other committees, unless otherwise provided for, or especially directed by the Board, shall be appointed by the Chair:—

Committee on Armories and Military Af-

fairs—County Accounts—Electric Wires—Faneuil Hall and County Buildings—Lamps—Licenses—Markets—Railroads—Public Improvements, to consist of all the members of the Board, and to be divided by the Chairman of the committee into the following sub-committees, namely, on Paving Division, Sewer Division, Bridge Division, Sanitary Division, Street-cleaning Division, and Ferry Division.

Order of Business.

Rule 24. At every regular meeting of the Board the order of business shall be as follows:—

- 1—Communications from His Honor the Mayor.
- 2—Hearings.
- 3—Presentation of petitions, memorials, and remonstrances.
- 4—Papers from the Common Council.
- 5—Unfinished business of preceding meetings.
- 6—Orders of notice of hearings.
- 7—Reports of city officers.
- 8—Reports of committees.
- 9—Motions, orders and resolutions.

Reports of Committees.

Rule 25. Committees of the Board, to whom any matter is especially referred, shall report within four weeks or ask for further time.

Spectators.

Rule 26. No person, except a member of the Board, shall be permitted to occupy the seat of any member while the Board is in session.

Rule 27. No persons, excepting members of the City Council, heads of departments, and reporters, shall be allowed in the ante-room of the Aldermanic Chamber while the Board is in session. No person shall be allowed to enter the Aldermanic Chamber while the Board is in session, after the seats furnished for spectators are occupied. The City Messenger shall enforce this rule.

Licenses.

Rule 28. No licenses shall be granted for exhibition of wrestling.

Rule 29. No permission to erect a pole or post for the support of electric wires or for the construction of underground conduits shall be granted until a public hearing shall have been given by the Board of Aldermen on the application for such permission, after notice of such hearing duly advertised by the applicant in one or more newspapers.

Rule 30. Every license or permit hereafter granted for the location of a street-railway track, the erection of a pole or post, the construction of an underground conduit, the laying of a pipe or wire, or for the doing of any other work which may involve the disturbance of a surface of a street, shall specify the time within which the contemplated work shall be done, and shall not confer authority to do any such work after the expiration of such specified time.

Suspension of Rules.

Rule 31. Any rule may be suspended by vote of two-thirds of the members of the board present and voting, except rule 28, which shall be suspended only by a unanimous vote upon a roll-call.

Referred to the Committee on Public Improvements, on motion of Ald. Berwin.

RESCISSION OF ASSESSMENTS.

Ald. O'TOOLE offered the following orders:—

Ordered—That so much of the order of the Board of Aldermen, approved December, 29, 1898, as levied an edgestone assessment of \$132 against the estate of the Boston & Albany Railroad Company on Commonwealth Ave., at the corner of Essex St., Wd. 25, be and the same is hereby rescinded on account of error in measurement.

The said land and corporation is hereby assessed for \$129.90.

Ordered—That so much of the order of the Board of Aldermen, approved March 6, 1898, as levied a sidewalk assessment of \$15.60 against estate of Catherine Tobin, No. 26 Mt. Vernon St., Wd. 16, be and the same is hereby rescinded, on account of a previous sidewalk in front of said estate.

Ordered—That so much of the order of the Board of Aldermen approved Dec. 29, 1898, as levied an edgestone assessment of \$15.12 against the estate of Hannah Prescott on Centre St., at the corner of a private way, Wd. 23, be and the same is hereby rescinded.

The orders were severally referred to the Committee on Public Improvements.

PORTION OF KILSYTH ROAD CLOSED.

Ald. O'TOOLE offered an order—That Kilsyth Road, between Coliston Road and Sutherland Road, Wd. 25, be closed to all public travel during necessary sewer construction by the Street Department.

Referred to Committee on Public Improvements.

PART OF HARVARD ST. CLOSED.

Ald. O'TOOLE offered an order—That the Roadway on Harvard St., between South and Utica Sts., be closed to public travel during necessary sewer construction on said street.

Referred to the Committee on Public Improvements.

USE OF CURTIS HALL.

Ald. COLBY offered an order—That the Superintendent of Public Buildings be authorized to allow the use of Curtis Hall, waiving the fee, on the evening of Feb. 7, 1899, by William Parkman Rebecca Lodge, I. O. O. F.

Passed. Sent down.

ABOLITION OF PARK EMPLOYEES UNIFORMS.

Ald. DOYLE offered an order, That His Honor the Mayor be requested to instruct the Board of Park Commissioners to abolish the practice of compelling the employees of the park department to wear uniforms which are paid for out of their wages and bought from a firm selected by the said commissioners.

Referred to the Committee on Public Improvements on motion of Ald. Berwin.

UNRESTRICTED DISTRICT FOR PEDDLERS.

Ald. DIXON offered an order:—That His Honor the Mayor be requested to take into consideration the advisability of setting apart a certain district of the city of Boston for the unrestricted use of peddlers during certain hours of the day or week.

Passed.

REPAVING HANOVER AND OTHER STREETS.

Ald. DIXON offered an order:—That the Board of Estimate and Apportionment be requested to provide in the first loan bill a sum sufficient to provide for the repaving with granite blocks on a concrete base of the following streets:

Hanover St., from Washington St. to Commercial St.

Blackstone St., from Clinton St. to Haymarket Sq.

Atlantic Ave., from Broad St. to Commercial St.

Commercial St., from Faneuil Hall Market to Hanover St.

Devonshire St., from Milk St. to State St.

Referred to the Board of Estimate and Apportionment.

LIGHTS FOR COVINGTON ST.

Ald. McDONALD offered an order—That the Superintendent of Lamps be requested

to light up that part of Covington St. that leads to Thomas Park, South Boston.
Passed.

BATH HOUSE AT SAVIN HILL BEACH.

Ald. McDONALD offered an order—That the Board of Estimate and Apportionment be requested to include in the loan bill a sufficient sum to provide a bathing house at Savin Hill Beach, Wd. 20.

Referred to the Board of Estimate and Apportionment.

PLEASANT ST.—PUTTING IN ORDER.

Ald. McDONALD offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested, to have Pleasant St., from Savin Hill Ave. to Efreport St., Wd. 20, Dorchester, put in order.
Passed.

MORE MEETING HOUSE HILL CARS.

Ald. McDONALD offered an order—That the Boston Elevated Railway Company be requested to have more cars run on the Meeting House Hill line to Dorchester.

Referred to the Committee on Railroads, when appointed.

ELECTRIC LIGHTS, WD. 20.

Ald. McDONALD offered an order—That the Superintendent of Lamps be requested to place electric lights on Hancock St. and Cushing Ave., Wd. 20.

Passed.

PAVING MASSACHUSETTS AVE.

Ald. McDONALD offered an order—That the Board of Estimate and Apportionment be requested to include in the new loan a sufficient sum to pave Massachusetts Ave., from Albany St. to the Five Corners in Dorchester, Wd. 20.

Referred to the Board of Estimate and Apportionment.

STATE AID AND PRISON INSPECTION COMMITTEES.

Ald. McDONALD offered an order—That the special committees of this Board on State Aid and on Inspection of Prisons consist of five members each, instead of three members as heretofore ordered.

Passed.

N. Y., N. H. & H. R.R. FOOTBRIDGE.

Ald. CODMAN offered an order—That the message of the Mayor transmitting an estimate from the Superintendent of Streets of the cost of constructing a footbridge across the tracks of the Shawmut branch of the New York, New Haven and Hartford Railroad, on the line of Rowena and Fuller St. extensions, be taken from the files and referred to the Board of Estimate and Apportionment.

Passed.

QUALIFICATION OF CITY CLERK.

The Assistant City Clerk, John T. Priest, administered the oath of office to City Clerk Galvin.

A RECESS TAKEN.

The Board voted, at 4:10 o'clock P. M., on motion of Ald. Dixon, to take a recess, subject to the call of the Chairman.

The members of the Board reassembled in the Aldermanic Chamber and were called to order at 5:07 o'clock P.M., by the Chairman.

PUBLIC IMPROVEMENTS.

Ald. O'TOOLE, for the Committee on Public Improvements, submitted the following:—

(1) Report on the petition of L. Wingersky (referred today) for leave to box

two trees in front of 51 Devon St., Roxbury—That leave be granted for protection purposes only.

Report accepted, leave granted as reported.

(2) Report on the Mayor's Message (referred today) relative to granting use of ward-rooms without charge—that the same be sent down.

Report accepted; message sent down.

(3) Report on the Mayor's Message (referred today) vetoing order for settlement of assessment for street watering against Home for Destitute Catholic Children—that the same be placed on file and that the veto be sustained.

The report was accepted. The question came on the passage of the order, the veto of His Honor the Mayor to the contrary notwithstanding. The Board refused to pass the order, and sustained the Mayor, yeas 0, nays 12.

(4) Report on the message of His Honor the Mayor (referred today) relative to the relocation of a water pipe in E St., South Boston—That the order accompanying the message be passed and that the message be sent down.

Report accepted, message ordered sent down. Order passed. Sent down.

(5) Report on order (referred today) relative to a hearing on relaying tracks in Tremont and Boylston Sts.—That the same be referred to the Committee on Railroads when appointed.

Report accepted, order referred to the Committee on Railroads when appointed.

(6) Report on the three orders (referred today) for the recision of (1) edgestone assessment against estate of B. & A. Railroad Co.; (2) sidewalk assessment against estate of Catherine Tobin; (3) edgestone assessment against the estate of Hannah Prescott—That the same ought to pass.

Report accepted; said orders passed.

(7) Report on the order (referred today) to close temporarily Kilsyth Road between Colliston and Sutherland Roads—That the same ought to pass.

Report accepted; said order passed.

(8) Report on the order (referred today) for the closing of the roadway on Harvard St., between South and Utica Sts., to public travel during necessary sewer construction—That the same ought to pass.

Report accepted; said order passed.

(9) Report on the petition of Peter Pastene (referred Jan. 9) for leave to construct an area under the sidewalk at 69-71 Fulton St., Wd. 6—Recommending the passage of the accompanying order:—

Ordered, That the Superintendent of Streets be authorized to issue a permit to Peter Pastene to construct, maintain and use an area with one coal-hole opening and sidewalk light covers, under and in the sidewalk in front of estate Numbers 69-71 Fulton St., Wd. 6, according to dimensions as shown on plan dated January 16, 1899, on file in the permit office of the street department; the work to be completed on or before July 1, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

Report accepted; order passed under suspension of the rules.

(10) Report on the report of the Special Committee on Rules of the Board of Aldermen (referred today)—recommending that said rules be adopted.

Report accepted; said rules adopted.

(11) Report on the order (referred today), requesting the Mayor to instruct the Park Commissioners to abolish the practice of compelling the employees of the department to wear uniforms which are paid for out of their wages, etc.—that the same be returned to the Board of Aldermen.

The report was accepted, and the question came on the passage of the order.

Ald. CODMAN—Mr. Chairman, I move that that matter be laid upon the table.

Ald. O'TOOLE—Mr. Chairman, I hope that the matter will not be laid upon the table. At this particular time in the year, when the employees of the Park Depart-

ment are on three or four days shifts, I think it is asking the employees of that department an extraordinary amount to charge them four dollars for a particular uniform. That same thing was advocated in the Street Department of Boston last year by a certain deputy superintendent, and it finally simmered down to this point, that he was satisfied with a badge being worn by his employees. That was all that was deemed necessary to distinguish him from other workmen who work for contractors throughout the city. This four dollars comes out of the pockets of the workmen in the Park Department, who are now working on a three or four day basis, and it bears very hard upon them. Many of them are men of large families and this takes dollars out of their pockets that should be spent for coal and other necessities of life. The city of Boston pays four dollars, besides, as its part of the expense of the uniform. I think, also, that it is about time for us to know whether any department has the right to specify that one particular clothing house of Boston should furnish these uniforms, or that the Park Commissioners should have the power to say to its employees that they shall get their uniforms at a certain particular clothing house.

It seems to me, as I said in my opening statement, that it bears particularly hard on the workmen in the Park Department at this particular time of year to have to pay four dollars for a uniform. In the middle of summer, it would not be so hard. I think that a badge is all that is necessary, and I trust that the motion made by the alderman from Dorchester will not be carried.

Ald. CODMAN—Mr. Chairman, personally I have no interest in the disposition of this order. It makes no difference to me whether it is laid on the table or passed at this time, except that I thought it was the general wish of the members of the board that we should inquire of the Park Commissioners what object they may have had in issuing this order, or in wishing their employees to have a certain uniform and wearing it. I don't know that it makes any difference about laying it on the table, and possibly I may be wrong in wording the motion in that manner. If so, I am willing to withdraw the motion; but it seems to me that if there are members of the Board who desire this information, the matter should either be laid on the table or assigned to the next meeting. If that is done, those who wish further information in regard to the matter can see the Park Commissioners and get the information desired. Otherwise, I have no interest in laying the matter over.

Ald. DOYLE—Mr. Chairman, I sincerely hope that this order will not be laid on the table at this time. I have a personal knowledge of this affair from the men who work in the Park Department. I had a committee wait upon me Saturday. They informed me that they had already bought all their winter clothing, and this clothing that the Park Commissioners propose to require them to purchase would be an altogether superfluous supply, and it is an expense that they don't care to meet,—particularly just at this time. As the alderman from Wd. 18 (Ald. O'Toole) has already said, the Park Department employees are now working on half time, and many of them have not made over eight dollars in the last two weeks; so I think it is very unfair for the Park Commissioners to expect the employees of that department to submit to a course which is not followed in any other department of the city and be compelled to buy this particular uniform. The winter is now very far advanced, and they have had to buy whatever winter clothing they need, so that this would be an entirely added expense, and one that it would be very hard for them to meet.

Ald. COLBY—Mr. Chairman, I was in favor of the motion to lay the matter on

the table for the reasons which were outlined by the alderman from Dorchester, (Ald. Codman.) I confess to not knowing any reason why these men should wear any uniform at all, and, as for myself, I was going to inquire from the Park Commissioners what they asked them to do it for. I dislike very much to vote upon anything until I know the grounds. As I said, I do not know any reason why they should wear any uniforms, but the Park Commissioners are intelligent persons, and I supposed that they had some reason or other for asking them to do it, and I thought I should like to know what that reason was, so that I might know both sides when I voted upon the order—both that presented here, and the other side. I confess that I haven't the faintest idea at this time as to why they should wear any uniform at all. I shall not vote to pass this order, however, until I have obtained such information as some of the other aldermen seem to have already obtained.

Ald. O'TOOLE—Mr. Chairman, I simply wish to say, in answer to the alderman from Wd. 12, (Ald. Colby), that this order is simply a request of the Mayor. If he wants other information in regard to this matter, undoubtedly he will call upon the Park Commissioners for it, and will have a hearing in regard to it. He can then send such information to the Board next Monday.

Ald. PRESNO—I think, Mr. Chairman, that there are two questions involved in this matter. One is whether the employees should be uniformed at all, or not; and the other as to whether they should pay for the uniforms. As to the first, I do not know what reason the Park Commissioners may have for desiring it; but I am very much against the men being obliged to pay for the uniforms. I am against requiring any men who are not employed permanently by the city to pay for any uniform, and, therefore, I shall vote against laying this matter on the table.

Ald. BRICK—Mr. Chairman, I hope this matter will be considered and settled at the present time. It is perhaps true that it is a matter which is out of our jurisdiction, but it is merely a request of the Mayor. Certain of us, at least, have in mind that this would be an expense to the men and one which it will be hard for them to meet at this time of the year. I think the order should be passed at this time, so that the Mayor can act upon it and the men get the benefit of the request. If it is put over a week or two weeks, the men may be obliged to buy the clothing in the meantime. I hope that the order will be passed today.

The motion to lay on the table was lost, and the order was passed. Sent down.

(12) Report on the Mayor's message (referred today) transmitting order for loan appropriation of one million dollars for construction of sewerage works, under the provisions of chapter 425 of the acts of 1897, and acts in amendment or addition thereto—Recommending that the same be sent down, and that the accompanying order be passed.

The report was accepted, and the question came on the passage of the order.

Ald. BERWIN—Mr. Chairman, I should like to have that matter laid over to the next meeting of the Board, and for these reasons: I take it that every member of the Board is aware of the fact that the act under which it is proposed to make this appropriation authorizes the Street Commissioners and the Superintendent of Streets, with the approval of His Honor the Mayor, to expend the sum of one million dollars. No one disputes that fact; but there is nothing compulsory in the act—nothing which requires His Honor or the Street Commissioners to expend the entire amount—and my purpose in asking for a delay of a week is to get information either from His Honor the Mayor or the Street Commissioners, or from some

other source, so that I may vote intelligently upon the subject.

Ald. BERWIN's motion to assign further consideration of the matter to the next meeting was declared lost.

Ald. BERWIN doubted the vote and called for the yeas and nays, and the motion was lost—Yeas 5, nays 7.

Yeas—Ald. Adams, Berwin, Codman, Colby, Presho—5.

Nays—Ald. Brick, Day, Dixon, Doyle, McDonald, O'Toole, Barry—7.

Ald. COLBY—Mr. Chairman, I would like to know the result of the vote.

The CHAIRMAN—The Chair has announced the vote.

Ald. COLBY—I didn't hear it announced.

The CHAIRMAN—Five in the affirmative and seven in the negative, and it is not a vote.

Ald. McDONALD moved that the matter be assigned to the next meeting; declared carried.

Ald. O'TOOLE—Mr. Chairman, I rise for information. I would like to ask the Chairman if it is not a fact that the motion to assign this matter to the next meeting was not defeated, and if, under Ald. McDonald's motion; the question does not come on reconsideration?

The CHAIRMAN—If the Board will pardon the Chair, the Chair will say that he was in error from a parliamentary point of view in accepting that motion, but the object of the Chair was to carry out the intention of Ald. Berwin. It is of course a fact that the same motion cannot follow a motion which has already been lost.

Ald. COLBY—Mr. Chairman, as I understand the matter, it stands assigned to the next meeting of the Board?

The CHAIRMAN—If the Board does not object, the Chair will rule that the matter is assigned to the next meeting of the Board.

Ald. DIXON moved to reconsider the last vote.

The CHAIRMAN—In order to bring the matter properly before the body, Ald. Dixon moves to reconsider the last vote.

The motion to reconsider was carried, and, on motion of Ald. McDonald, further consideration of the matter was assigned to the next meeting.

(13) Report on the message of His Honor the Mayor (referred today), transmitting order for appropriation of \$10,000 for the Wire Department,—recommending that the same be sent down and that the accompanying order be passed.

The report was accepted and the order (providing the sum of \$10,000 to pay the expenses incurred in carrying on the work of the Wire Department other than the work authorized by chapter 454 of the Acts of 1894, etc.) was assigned, on motion of Ald. Codman, to the next meeting of the Board.

(4) Report on the message of His Honor the Mayor (referred today), transmitting order for loan of \$20,000 for the Wire Department,—that the same be sent down and that the order accompanying the same be passed.

Report accepted; message ordered sent down; order passed, yeas 12, nays 0. Sent down.

TABLE FOR REPORTERS.

Chairman BARRY offered an order—That the City Messenger be authorized to furnish a round table for the use of the reporters in the Aldermanic Chamber and to separate the space occupied by said reporters from the rest of the chamber by a brass railing, the expense to be charged to the appropriation for Public Buildings Department.

Passed under suspension of the rules. Sent down.

FIRE PRECAUTIONS IN THEATRES.

Ald. O'TOOLE offered an order.—That His Honor the Mayor be requested to in-

struct the Building Commissioner to, have a thorough inspection made of the fire curtains and fire escapes in the various theatres in this city, and to report the result of said inspection to this Board.

The question came on the passage of the order.

Ald. BERWIN—Mr. Chairman, unless some good reason is offered as to why that order should pass, I shall oppose it. The Board of Aldermen has some rights in the matter, and there is no reason why, if there is to be an investigation, the Board of Aldermen should not make it, rather than this department.

Ald. CODMAN—Mr. Chairman, I am very glad to see that order offered at this time, although I would be perfectly willing to have the investigation made by the Board of Aldermen. At the same time, I think that perhaps the Building Commissioner is better able to attend to it than the Board of Aldermen. My experience has been that the Board of Aldermen, no matter how much they may be interested in that subject, if they apply at the theatres are more than liable to be refused admittance to the part of the house where the inspection would naturally occur—that is, in the back of the theatre—and sometimes the accommodations in the front are such as they should not be for members of the Board. Now, if that inspection is to be made by the Board of Aldermen, there ought to be some provision made so that the Aldermen could have the entire to all parts of the theatre at the proper time that may be set for the inspection. I trust that some action of this sort will be taken, and that it will be taken at once. I hope some such an order will pass, and I do not know as there could be any better form of the order than the present one. I think that the Building Department should make a report upon that subject as soon as possible to this board.

Ald. O'TOOLE—Mr. Chairman, I only want to say, in answer to the alderman from Wd. 6, (Ald. Berwin), that I am not offering this order from any silly standpoint. I ask that the Inspector of Buildings investigate the conditions existing in the different theatres, and that he report back to us. We can then take the report under consideration, and can act accordingly. I do not frequent the theatres very often, but recently on coming out of one of the theatres of Boston, I was struck by the immense number of people who attend the different theatres, and I want to find out if there is any carelessness in regard to the fire curtains or the fire escapes, or if they are in good condition. I think it is very important to the theatregoers that there should be an investigation of this sort. I didn't suppose that I was going to stir up a hornet's nest when I offered that order. I simply put it in innocently, desiring that he should investigate the subject and report back to this body.

Ald. COLBY—Mr. Chairman, there is very little power left in the Board of Aldermen now, anyway, and there seems to be quite a tendency at the present time on the part of the members to get rid of even what they do have. It is possible that that is wise, in the interest of the city; but I do not altogether consider it so. The revised regulations of the city of Boston have certain provisions in reference to places of public amusement, and according to Chapter 3, this whole matter seems to be under the supervision of the Committee on Licenses, which provides that they shall have such devices for protection against fire as the Committee on Licenses require. Now, if we have a Committee on Licenses and the proper devices are not required by it, our own Committee is rather at fault; and it seems to me that we would be censuring our Committee if we should go outside and practically say that our Committee cannot perform this duty, and that we must let some paid official look the matter up. I think the whole

matter should be referred to the Committee on Licenses, and I so move.

Ald. O'TOOLE—Mr. Chairman, in this order I am simply asking for information. When we get the information from the Building Commissioner, then if any order is presented for passage by this body, I will be perfectly willing to have it go to the Committee on Licenses and have the matter further investigated by them. I dare say all the theatres in Boston are living up to the requirements of the law. I am simply asking the Building Commissioner to investigate the matter and report back to this committee the results of his investigation, and if he finds that there is anything the matter, it can then go before the Committee on Licenses. This order does not take anything away from the powers or jurisdiction of the Committee on Licenses.

Ald. CODMAN—Mr. Chairman, I would like to move to amend that order by adding at the end of it: "And also as to whether said theatres are provided with proper exits, as required by the Public Statutes."

Ald. COLBY—Mr. Chairman, I hope this order will not be passed in its present form, or at least that it will not until the Board has exhausted its own resources. It strikes me that the position which the alderman is trying to force us into is one which not only stultifies ourselves, but also the Building Department. I do not know anything about what their duties are, but assuming that they have performed their duties fully, then the trouble does not exist that the alderman suggests. Now, that being the case, it seems to me that the only logical thing for us to do is to do our own investigating, and not confess that we are not able to do it and turn it over to somebody else to do.

Ald. PRESHO—Mr. Chairman, do I understand that the question before the Board is on the amendment offered by Ald. Codman?

The CHAIRMAN—Yes, sir; that he also investigate as to whether the theatres are provided with proper exits, as required by the public statutes.

Ald. PRESHO—Mr. Chairman, I move to further amend by inserting after the words "theatres in this city" the words "and the old Public Library Building."

At the request of Ald. O'Toole, the order was read, as it would stand if the amendments were adopted.

The amendments were adopted, and the question came on the passage of the order. On motion of Ald. Codman, the order, as amended, was referred to the Committee on Public Improvements.

ENGINE HOUSE, ETC., HEATH ST.

Ald. O'TOOLE offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan bill the sum of \$36,900 for the establishment of an engine house and suitable apparatus on Heath St., Wd. 19.

Referred to the Board of Estimate and Apportionment.

STATE AID.

Ald. DIXON, for the Committee on State Aid, submitted an order for the payment of allowances to soldiers and sailors and their families for the month of January, 1899.

COMMITTEE APPOINTMENTS.

The Chairman announced the appointment of the following committees:—

Standing Committees.

Armories and Military Affairs.—Berwin, Doyle, McDonald, Codman, Barry.

County Accounts.—Brick, Presho, O'Toole, Day, Colby.

Electric Wires.—Doyle, Codman, Brick, Berwin, Day.

Faneuil Hall, etc.—Codman, Dixon, Doyle, Adams, O'Toole.

Lamps.—O'Toole, Berwin, Codman, Dixon, Doyle.

Licenses.—Colby, Barry, Dixon, Presho, Day.

Markets.—Presho, Brick, Adams, McDonald, O'Toole.

Railroads.—Dixon, Adams, O'Toole, Colby, McDonald.

Public Improvements.—The Whole Board, Ald. O'Toole, Chairman.

Paving Division.—Presho, McDonald, Doyle.

Sewer Division.—Berwin, Day, Doyle, Sanitary Division.—Adams, Dixon, Brick.

Ferry Division.—Day, Berwin, Doyle. Bridge Division.—Codman, Day, McDonald.

Street Cleaning Division.—Brick, McDonald, Colby.

Special Committees:—

Inspection of Prisons.—Day, Codman, Doyle, Presho, Brick.

Rules and Orders.—Aldermen McDonald, Colby, Doyle, Barry, Presho.

State Aid.—Aldermen Dixon, Berwin, McDonald, Codman, Day.

Adjourned on motion of Ald. Dixon, at 5:43 o'clock, P.M., to meet on Monday, Jan. 23, at 3 o'clock, P.M.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, January, 19, 1898.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7:45 o'clock P. M., President Kiley in the chair, and a quorum present.

A STATEMENT BY THE PRESIDENT.

The President, after calling the Council to order, said:

The Chair will ask members to be seated. The Chair desires to make a statement in opening the proceedings of the Council here tonight, owing to what has taken place at former meetings. The Chair has a copy of the ordinances and the rules of the Common Council before him. The ordinances specifically state that the Council Chamber is under the control of the President—section 7, chapter 12 of the Revised Ordinances. Chapter 12, section 1, states that the City Messenger is under the direction of the Council and its President. Rule 4 of the Common Council says that the Chair shall make such rules as he deems proper to enforce order and maintain decorum.

In pursuance of the authority vested in the Chair according to that rule, he has ordered a rule printed here tonight and laid upon the desk of every member of the Council. That rule is as follows:

"Any member or members, other than the one recognized by the Chair, insisting in occupying the floor for any purpose, except to rise to a point of order, will upon request of the President take his seat, and upon refusal to comply with such request, the President may direct the City Messenger to cause said member or members to be removed from the Council Chamber, such removal to remain in effect during the remainder of the session, unless otherwise ordered by the President."

The Chair does not wish to assume any arbitrary right, and, in order that this rule may be expressed as the wish of the Council, the Chair will, on the conclusion of his statement, put the rule before the Council, so that it may receive its sanction. Boston's representative men have always been recognized as capable, honest and dignified public servants. We shall—and particularly the Chair—endeavor to maintain the dignity which belongs to this deliberative body. The Chair will attempt to shut off no man from a fair representation and a fair hearing. The Chair, however, will insist that no orders containing any indecent or abusive attacks upon the personal character or reputation of any member of the Council or of the Chair shall be entertained by the Chair. If any member of the Council believes that the Chair has ruled improperly, there is a parliamentary remedy by appealing from the decision of the Chair. That the Chair will suggest, as the proper remedy, and not a violation of all rules of the Common Council by creating disorder and disturbance.

The Chair wishes to further state that he has had a conference with the Police Commissioners and with other authorities today, and that he proposes to maintain order and decorum here tonight, and to see that the city's hushiness is transacted according to law. The Chair will now conclude by asking the members of the Common Council whether or not they approve of the rule as placed on each member's desk, by a viva voce vote. Those in favor of adopting the rule—

Mr. HICKEY of Wd. 2—Mr. President, after the lengthy statement made by the Chair—

The PRESIDENT—The Chair wishes to make one statement. He will ask the officers in the gallery, upon the slightest show of approval or disapproval of any statement, to clear the gallery.

Mr. HICKEY—Mr. President, after the statement already made by the Chair—a statement in which I heartily acquiesce—I wish merely to say a word in my own defence. I presume that it is apparent to the members—

The PRESIDENT—If the gentleman from Wd. 2 will kindly refrain—

Mr. HICKEY—Mr. President, I will speak, if you will allow me, on the acceptance of the rule you have placed on the desk of the members here tonight.

The PRESIDENT—The gentleman will proceed.

Mr. HICKEY—Inasmuch as the Chair has made reference to an indecent and abusive attack made upon members of this body or other persons, I merely desire to say that the resolutions I offered one week ago were not in any sense indecent or abusive—

The PRESIDENT—The Chair will kindly ask the gentleman to refrain from referring to the proceedings of a week ago, as the Chair did not make any special reference to them. The gentleman rises to speak on the rule as proposed for adoption tonight. If the gentleman will kindly confine himself to that rule, without reflecting upon the Chair, the Chair will thank the gentleman from Wd. 2.

Mr. HICKEY—Mr. President, as the Chair has stated, I arose to speak on the question of the acceptance of a rule that the Chair has placed on the desks of the various members. But, in doing so, I expect to be allowed the same latitude as the Chair assumed when he took it upon himself to defend his position. Now, Mr. President, I am opposed to the passage of this rule for the simple reason that it goes beyond the scope and the latitude of the rules on the authority of which it is based.

Rule 4 of the Common Council, which gives the President power to make any rules he may see fit for the preservation of order does not, in my opinion, give him the power to go beyond that limit; and I maintain that the President, in placing this rule here on his own authority, has gone beyond the scope of the power which it was intended he should have under Rule 4. In speaking a day or two ago with two men who served on the committee a few years ago, which drafted Rule 4 of the Common Council Rules, I was assured that that rule could not give the President such unlimited power as I believe and maintain that the President has assumed in making this rule. I maintain, Mr. President, that the Chair has no right whatever to make a rule of the character which he has introduced here tonight, and which has been laid on the desk of each member here tonight, and I protest against its passage.

The rule has undoubtedly been brought forward as the result of resolutions introduced by me two weeks ago. Those resolutions called for nothing but an investigation of the methods by which the president of this body was elected. If it reflected upon anybody in the city of Boston, that is what added strength and vigor to the resolutions, and that is what should cause the members of this body tonight to vote for the investigation. I will offer that investigation order, Mr. President, later in the session, and I hope that it will be accorded more respectful treatment than it has had so far. If you are afraid, Mr. President, of that investigation, then you may rule it out—

The PRESIDENT—The Chair will ask the gentleman to kindly refrain from personalities, and to confine himself to the question before the house.

Mr. HICKEY—But if you are not afraid of the investigation, then permit it to go

through this body; but I claim you are afraid to have the—

The PRESIDENT—The Chair will ask the gentleman to kindly confine himself to the question.

Mr. HICKEY—I am through, Mr. President.

The question was put on the adoption of the rule and it was declared adopted. Mr. Mulcahy doubted the vote and asked for a rising vote, and the President ordered a division of the Council.

Mr. RICE of Wd. 2—Mr. President, I rise to a point of order, that the motion was put before the members had a chance to speak upon it. I desire to speak upon this rule this evening.

The PRESIDENT—Does the gentleman rise to a point of order?

Mr. RICE—Yes, sir. My point of order is that you put the motion to the house, and asked the members to vote upon it, before giving the members of the body a chance to speak upon it.

The PRESIDENT—The Chair rules the point of order not well taken. Mr. Mulcahy doubts the vote—

Mr. CONNOLLY—Mr. President—

The PRESIDENT—(Continuing.)—and asks for a rising vote—

Mr. CONNOLLY—Mr. President, I rise to a point of order.

The PRESIDENT—(Continuing) Those in favor of the adoption of the rule will rise in their places and stand until counted.

Mr. CONNOLLY—Mr. President, I rise to a point of order.

The PRESIDENT—The gentleman from Wd. 17 will state his point of order.

Mr. CONNOLLY—Mr. President, my point of order is that I desire to speak upon the adoption of this rule.

The PRESIDENT—The Chair will state that the question is on solving the doubt on the vote which has been taken, and that no debate is in order upon that question.

Mr. CONNOLLY—Does the Chair declare my point of order not well taken?

The PRESIDENT—Those in favor of the adoption of the rule will rise in their places and stand until counted.

Mr. CONNOLLY—Mr. President, Mr. President, does the Chair declare my point of order not well taken?

The PRESIDENT—The tellers will please report.

The result of the rising vote was ascertained, and the rule was declared adopted, 43 members voting in the affirmative, 20 in the negative.

(Slight disturbance in the gallery.)

The PRESIDENT—The Chair will once more remind those in the gallery that they must preserve order tonight. Forty-three members have voted in the affirmative, 21 in the negative, and the rule is adopted.

Mr. Hickey of Wd. 2 doubted the vote and asked for the yeas and nays, which were ordered, and the rule was adopted—yeas 48, nays 22:—

Yeas—Armistead, Atwood, Bagley, Battis, Beunett, Bordman, Brauer, Chamberlain, Collins, Cuddy, Donahoe, Donovan, Eddy, Emery, Fenton, Giblin, Harvey, Hibbard, Horrigan, Howard, Jordan, Kiley, Klemm, Leftovith, Lueban, Logan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Moore, O'Brien, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Turnbull, Walker, Watson, Wells, Winsloe, Wood—49.
Nays—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Doyle, Hickey, Johnson, Kasanof, Kelley, Leonard, Madden, Mulcahy, Nangle, Newhall, Rice, Sullivan, Tobin—22.

Absent or not voting—Flynn, Gibbons, Martin, Miller—4.

The PRESIDENT—The rule is adopted and will be enforced by the Chair

REPORT OF TRANSIT COMMISSION.

The following was received:—

Boston Transit Commission,
20 Beacon Street,
Boston, January 19, 1899.

Daniel J. Kiley, Esq.,
President, Common Council.

Dear Sir:—

I have the honor to transmit herewith, in accordance with the provisions of section 24, chapter 548, acts of 1894, the annual report of this commission.

By order of the commission,
B. Leighton Beal, Secretary.
(Annexed was a copy of the report referred to.)
Sent up.

STREET SWEEPING.

The following was received:—
It is urged that his Honor the Mayor of the City of Boston:—

Order to be discontinued immediately, the use of horse power street-sweepers in the business and residential sections of the city, and substitute men sweepers, for the following reasons:

1. The prevalence of La Grippe, now amounting almost to an epidemic, is largely increased, aggravated in severity, and the danger of relapse intensified by the inhalation of all kinds of dust and dirt, which are loaded with every variety of germ capable of spreading contagious and infectious diseases.

2. The great clouds of dust and dirt which are disseminated through the air, from the streets to the house tops, by the present system of street-cleaning, is not only a menace to the public health, but a nuisance, and an insult to the intelligence of the traveling public, who are obliged to walk through blinding clouds of dust.

3. The pedestrian, if not himself infected, becomes a carrier of deadly germs to those susceptible of contagion.

To the merchants, hotel and house-keepers this dust is appalling. Moreover, the substitution of men for machines in street cleaning, would give employment to hundreds, who now see nothing but poverty staring them in the face for the rest of the winter.

The system of watering the streets in front of the sweeper is wholly inefficient, and even the work of machine sweepers is not superior to that of men.

I am confident that the medical profession will endorse my suggestions.

Geo. W. Galvin, M. D.,
Surgeon in Chief.

Boston Emergency Hospital.

Mr. BAGLEY of Wd. 1—Mr. President, I move that that communication be assigned for one week and printed.

At the request of Mr. Mulcahy of Wd. 14 the clerk read the communication again, for information.

Mr. MULCAHY—Mr. President, I hope that this matter will not be assigned. It seems to me to be a matter of interest to the public. It has been very well stated by the gentleman in his communication that it is a public menace to the health, and unless the gentleman can offer some reason why the communication should be assigned, I feel that the members of this body here who are in favor of the protection of the public health, in the interests of the citizens of this city, should vote to pass this order tonight. If the gentleman does not offer some reason why it should be assigned, I shall vote for the passage of this order tonight.

Mr. LUDON of Wd. 13—Mr. President, I would like to ask the Chair a question.

The PRESIDENT—The question is on the assignment for one week.

Mr. LUDON—I would like to ask the President if there is an order before the body?

The PRESIDENT—The paper before the body is a communication addressed to the President of this body, and a motion has been made by the gentleman from Wd. 1.

Mr. Bagley, that it be printed and assigned for one week.

Mr. LYDON of Wd. 13—Mr. President, I do not see what action we can take upon the communication, unless there is an order attached to it, unless somebody sees fit to introduce an order in connection with it.

The PRESIDENT—The Chair desires to state that, under the ordinary course of business, the communication would be referred to His Honor the Mayor; but the gentleman from Wd. 1 has asked to have it printed and assigned for one week. The question now comes on assignment.

The question was put on assignment, and, the Chair being in doubt, a rising vote was ordered, and the motion to assign was carried, 38 members voting in the affirmative, 25 in the negative.

PAPERS FROM THE BOARD OF ALDERMEN.

1. Ordered, That the Superintendent of Public Buildings be authorized to allow the use of Curtis Hall, waiving the fee, on the evening of February 7, 1899, by William Parkman Rebekah Lodge, I. O. O. F.

The question came on giving the order a second reading.

Mr. HOWARD of Wd. 20—Mr. President, it occurs to me that the allowing of the several ward rooms of the City of Boston and especially Curtis Hall, has been somewhat run into the ground. I do not understand why any private lodge should ask for the use of Curtis Hall or any other ward-room without paying the fee. They do not state that this is for charitable purposes. In fact, last year a number of times we had a request for the use of Curtis Hall, and there was nothing specified for what purpose it was to be used. I therefore, Mr. President, hope that this order will not pass. It strikes me that the time is now ripe when we should take some steps to stop the use of these wardrooms by private societies without any payment. There is a regular fee for the use of Curtis Hall, and why it should not be enforced by the Superintendent of Public Buildings I am at a loss to know. I hope that the order will not be given its second reading.

Mr. LEFTOVITH of Wd. 8—Mr. President, I desire to say at this time that the gentleman from Wd. 20, Mr. Howard, states that private societies apply for this hall, and that it is proposed not to charge them. At this time, I must state, Mr. President, that everybody who belongs to the order, and every man who does not belong to the order, must understand thoroughly well that the Independent Order of Odd Fellows is a charitable institution, that it maintains charity as one of its principles, and that it does charity all around, not only to its own members, but all over the United States—and supports many hundreds of thousands of members and keeps them from the necessity of applying for charity to public institutions. I cannot see why this evening the gentleman from Wd. 20 rises and says that it does not state that it is not a charitable institution. I do not believe that any man who desires charity must come down upon his knees to this Council and tell them all the inside and outside affairs of his institution. I do not believe it would be charitable, and I do not believe it would be manly for us to rise at this time and to refuse an organization that is known all over the country, and even in Europe, at this present time, for its eminent charity. I hope, Mr. President, that each and every member who has got anywhere within him a manly heart will rise and vote tonight for the passage of this order. I know that if they would inquire or would take the time to investigate that institution, they would find out what I know from being a member of it, that it does more

charity without saying anything than those who advertise themselves as doing charity. I hope that this order will be passed tonight.

Mr. JORDAN of Wd. 22—Mr. President, I sincerely hope this order will pass here tonight. I am a member of that order. One of the gentlemen says that the order does not state what it is for. I will state that this is for a charitable institution, an institution which relieves sickness and distress, and I hope the order will pass here tonight. I don't know any reason why it should not be passed by this body.

Mr. KLEMM of Wd. 21—Mr. President, I sympathize with the gentleman on my right (Mr. Leftovith) and the gentleman in the first division (Mr. Jordan), but it seems to me useless to pass this order, in view of the fact that No. 4 on the calendar is a message from His Honor which distinctly states that it will be impossible in the future to grant requests for the use of wardrooms without charge. I think it would at least be proper to defer consideration of this matter until after that has been acted upon, so that we may know where we are. I move, therefore, that this be laid upon the table until after No. 4 has been acted upon.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I rise for information. I would like to know whether Curtis Hall is a wardroom or not.

The PRESIDENT—The Chair would state that he is not informed as to whether Curtis Hall is or is not a ward room.

Mr. NEWJALL of Wd. 23—Mr. President, Curtis Hall is not a ward room. It is not used as a ward room at present.

The motion to assign to the next meeting was lost.

The question came on giving the order a second reading.

Mr. WATSON of Wd. 18—Mr. President, I simply wish to state to the Council that I promised His Honor the Mayor last fall, after he signed a similar order for me that I would not vote for any more orders of the kind. In order to keep my word to him, I wish to state to Mr. Jordan and to other members that I am against this order.

The order was read a second time and passed in concurrence.

2. Ordered, That His Honor the Mayor be requested to instruct the Board of Park Commissioners to abolish the practice of compelling the employees of the Park Department to wear uniforms, which are paid for out of their wages, and bought from a firm selected by the said commissioners.

Passed in concurrence.

3. Ordered, that the City Messenger be authorized to furnish a round table for the use of the reporters in the Aldermanic Chamber, and to separate the space occupied by said reporters from the rest of the chamber by a brass railing; the expense to be charged to the appropriation for Public Buildings Department.

Passed in concurrence.

4. Mayor's message notifying the City Council that it will be impossible in the future to grant requests for the use of the various ward-rooms in this city without charge.

Placed on file.

5. Mayor's message recommending the passage of the following order, on the request of the Board of Harbor and Land Commissioners, viz:

Ordered, That His Honor the Mayor be and he is hereby authorized, in the name and behalf of the city, to enter into an agreement with the Commonwealth of Massachusetts, whereby the city shall release the right to maintain its water pipes in E St., South Boston, as heretofore located, from Fargo St., to Summer St., and any other rights which it may have in said portion of E St., as heretofore located in consideration that the said Commonwealth shall fill to the grade of sixteen feet above mean low water a proposed extension of said E St., from Fargo

St., to Summer St., as shown on a plan of said proposed extension, dated December 28, 1898, signed by Frank W. Hodgdon, Engineer Harbor and Land Commissioners, and hereto attached; shall grant to the city the right to lay and maintain its water pipes in said proposed extension of E St., as shown on said plan, and shall pay to the city the reasonable cost of removing said water pipes from their present location, and relaying them in the new location to be provided as aforesaid.

The communication was placed on file, and the question came on giving the order a second reading.

Mr. LINEHAN of Wd. 13—Mr. President, as this work is to be done in Wd. 13, after consulting with both my colleagues from Wd. 1, we have come to the conclusion that we know nothing whatever as to what this is for or what they intend to do. I therefore move you, sir, that the matter be assigned for one week.

Mr. STOCKTON of Wd. 11—Mr. President, I hope this order will not be assigned for one week. Mr. Emery of the Board of Harbor and Land Commissioners, came to me today and pointed out the fact that this is merely the substitution of one street for that portion of E St. in which these pipes are now located. That portion of E St has been given up, and this new piece has been substituted, and E St., which has never been actually laid out, is entirely blotted out of the map of the city of Boston as a street. It is to the advantage both of the Commonwealth of Massachusetts and of the City of Boston that this order should be passed, and I hope it will be passed tonight.

Mr. LYDON of Wd. 13—Mr. President, I sincerely hope this order will be assigned for one week. I have not seen Mr. Emery or any of the Harbor and Land Commission, and, coming from Wd. 13, wherein that street is located, I think it is nothing but right that I should know something about the contemplated relocation of pipe. I would therefore like to ask the courtesy of the Council to look into the matter for a week. I hope the order will be assigned for a week.

The order was assigned to the next meeting of the Council.

6. Mayor's message transmitting the following order passed by the Board of Estimate and Apportionment, viz.:

Ordered, That the sum of twenty thousand (20,000) dollars be appropriated to be expended by the Wire Department in carrying out the provisions of chapter 454 of the Acts of 1894, and Acts in amendment or addition thereto, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The communication was placed on file and the question came on giving the order a second reading.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I move you, sir, that the order be assigned for one week.

The question came on assignment.

Mr. MULCAHY of Wd. 11—Mr. President, inasmuch as the Board of Apportionment has discussed this matter and granted the Wire Commissioner \$20,000 to be appropriated for the expenditures of that department, and the gentleman asks that the matter be assigned, and offers no reason, I would simply say that it seems to be a great hobby of this Council to have matters assigned without advancing any reason why it should be done. Inasmuch as the gentlemen of the Council can see that the Wire Department is a necessity, something that the city of Boston should have, and it cannot be run without money, and as the appropriations are about to be granted to all the various departments, it would seem to be courtesy on the part of the members of the Council to allow this matter to proceed tonight. I therefore hope the order will be placed upon its passage, Mr. President.

The PRESIDENT—In connection with this order, the Chair deems it his duty to make a statement to the Council, as a representative of the Council on the Board of Apportionment. This is an appropriation for a loan authorized according to the Acts and Resolves, chap. 454 of the Acts of 1894, the Act creating the Wire Department. The matter was considered by the Board of Apportionment, and it was considered absolutely necessary, according to the provisions of the act, to appropriate this sum of money at this time. The Chair simply makes that statement, feeling that it is his duty to make the members of the Council familiar with what has been done on the Board of Apportionment, as their representative in that body. The question is on the assignment of the order.

Mr. CHAMBERLAIN of Wd. 13—Mr. President, the gentleman from Wd. 11 (Mr. Mulcahy) seems to be perfectly willing to take the opinion of the Board of Estimates and Apportionment as his own. Now, Mr. President, it has always been customary in this body, so long as I have been a member of it, to assign almost any order contemplating an appropriation of money for one week, so that the members of the Council can become familiar with the order at issue. Now, Mr. President, I probably shall be in favor of this order after I have had a chance to look it up. I have not yet had a chance to do so, and I myself, personally, wish to have time to investigate any order, whether it comes from the Board of Estimate and Apportionment, from His Honor the Mayor, or from the head of any department of this city. I think, as it has been customary in the past, it is certainly a matter of courtesy to allow an order of this kind to be assigned for the benefit of those Councilmen who are not in thorough accord with the Board of Estimate and Apportionment.

Mr. ARMISTEAD of Wd. 11—Mr. President, this is a matter which I consider ought not to be acted upon hastily. I therefore favor an assignment. It has been well said by the gentleman in the Third Division (Mr. Mulcahy) that the Board of Apportionment has recommended the passage of this order; but I am very much like the other gentleman in the Third Division (Mr. Chamberlain), who desires more information. As he well stated, it has always been customary whenever there was an order calling for large sums of money to be appropriated, in this body, to have it assigned or referred. There can be no serious injury done by the delay, and, with such information as we may be able to obtain, the members of this body will be better prepared to vote upon this matter intelligently at the next meeting. I therefore trust that assignment will prevail.

Mr. MULCAHY—Mr. President, it would seem to me as though the Chair has stated this question and placed it before the Council as it came before the Board of Apportionment, and that it should be understood by this body. What information the gentlemen desire I don't know. They know that this is necessary, and the Legislature provides for a wire department, and to run that department a certain amount of money must be had. If the gentleman in the First Division (Mr. Armistead) will ask some questions in regard to this matter, I will be glad to answer them. I hope the matter will be acted upon tonight and passed.

The motion to assign to the next meeting was declared carried. Mr. Mulcahy doubted the vote and called for a rising vote. The Council stood divided, and the order was assigned to the next meeting, 40 members voting in the affirmative, 20 in the negative.

SANITARY CONDITION, MATHER SCHOOL.

The Council proceeded to take up No. 7, unfinished business, viz:—

7. Ordered, That the School Committee, through His Honor the Mayor, be requested to take immediate steps to improve the sanitary condition of the Mather School-house in Wd. 13, South Boston.

Passed. Sent up.

CROSSWALKS, WARD 22.

Mr. LOREY of Wd. 22 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to construct a crosswalk at Clive and Boylston Sts., Wd. 22.

Referred to His Honor the Mayor.

Mr. LOREY of Wd. 22 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to construct additional crosswalks at Boylston St., and Chestnut Ave., Wd. 22.

Referred to His Honor the Mayor.

BRANCH LIBRARY, NORTH END.

Mr. O'BRIEN of Wd. 6, offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to provide for the establishment of a branch of the public library at the North End.

Passed. Sent up.

SANITARY STATION, ROXBURY CROSSING.

Mr. NANGLE of Wd. 19 offered an order—That the Bath Commissioners be requested, through His Honor the Mayor, to construct and maintain a public convenience station in the vicinity of Roxbury Crossing; the expense of the same to be charged to the appropriation for Bath Department.

Mr. NANGLE of Wd. 19—Mr. President, I desire to say in regard to that order that I offered a similar order in the late fall of 1897. At that time this matter came under the Board of Health. The Board of Health took some action in the matter and were about to place a convenience station in that vicinity, but they delayed for some time until the Mayor in his inaugural address advised a Department of Baths, which has been organized, and that has changed the department having charge of these matters. It has taken some time, of course, for that department to get under way, and I did not feel authorized in offering this order before now. I believe now that this is a proper time to offer the order. Many of my constituents desire to have such an order passed. It is the place for such a station, and I think the passage of the order at this time would have a good effect.

The PRESIDENT—The order will be referred to His Honor the Mayor.

A QUESTION OF INFORMATION.

Mr. NANGLE—Mr. President, while up I would like to ask the President a question for information—whether under the rules of the Council it is the intention of the President tonight to appoint a committee on playgrounds for Wds. 18 and 19?

The PRESIDENT—The Chair will state, for the information of the gentleman from Wd. 19 (Mr. Nangle), that the Council has already authorized the Chair to appoint such committee, and the committee has been announced by the Clerk.

Mr. NANGLE—Mr. President, if the President and members of the Council will give me the privilege of the floor for a moment I will state why I asked that question.

The PRESIDENT—The Chair will ask the gentleman now if he is speaking upon the order as offered by him?

Mr. NANGLE—Yes.
Mr. NANGLE of Wd. 19—Mr. President, it was my intention at the time the order was offered to make it easier for the President and more satisfactory to the members coming from that district, to have six on that committee. I thought by having six that good results of the work desired to be done would be more assured. My attention was not called to the fact that six were not provided for until after the order was passed. So I trust that the President will put six members from the district on that committee. Seeing now that there are only five on the committee, I would, if it is in order, ask the President to place the members from Wd. 18 and two from Wd. 19—Messrs. McInerney and Doyle on the committee. I assure the President that I will do all in my power to assist them in their work. I think that such action will make it easier to get the playground desired. I thank the President and members of the Council.

The PRESIDENT—The Chair wishes to state, for the information of the Council and also of the gentleman from Wd. 19 (Mr. Nangle) that he believes no extra member can be appointed on that committee at this time, unless the order is rescinded or a motion is made by some member of the Council to add one member to the Committee, which motion the Chair is ready to entertain.

HALF DAY FOR LABORERS.

Mr. CUDDY of Wd. 8 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to take such action as may be necessary to allow payment for half a day to each laborer reporting for work in the several divisions of the Street Department, in inclement weather.

Referred to His Honor the Mayor.

REWARD FOR FIREMEN.

Mr. CUDDY of Wd. 8 offered an order—That the Fire Commissioner be authorized to increase the pay of any member of the Fire Department who distinguishes himself by conspicuous bravery, to the amount of twenty-five dollars per annum.

Passed. Sent up.

PAYMENT TO FAMILY OF EDWARD MELIA.

Mr. CUDDY of Wd. 8 offered an order—That His Honor the Mayor be requested to petition the General Court for the passage of an act to authorize the City of Boston to pay to the family of Edward Melia, late a police officer of said city, the balance of the salary to which he would have been entitled had he lived and continued to be such police officer until the close of the present fiscal year.

Passed. Sent up.

IMPROVEMENT OF E. SECOND ST.

Mr. DONAHOE of Wd. 14 offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation for the grading and macadamizing of East Second St., from K to Q St., South Boston, Wd. 14.

Passed. Sent up.

SEWERAGE FOR BATES SCHOOL.

Mr. BRAUER of Wd. 23 offered an order—That the Board of Estimate and Apportionment be requested to provide a sum sufficient to provide proper sewerage for the Phineas Bates School on Beech St., Wd. 23.

Passed. Sent up.

ASSIGNMENT OF SALARIES.

Mr. BENNETT of Wd. 5 offered an order—That the City Treasurer, through His Honor the Mayor, be requested to inform the Common Council the names of the heads of departments or divisions whose salaries are assigned at the present time;

also the length of such assignment.

The question came on giving the order a second reading.

Mr. CONNOLLY of Wd. 17—Mr. President, I ask to have the order read again for information.

The PRESIDENT—The Chair will ask the Council to be in order, so that communications read by the Clerk can be heard distinctly by the members of the Council.

(The Clerk read the order again, for information.)

Mr. CONNOLLY—Mr. President, I move that that order be assigned for one week.

Mr. BENNETT—Mr. President, I would like to have the gentleman from Wd. 17 state his reasons for desiring assignment. This is simply a request to His Honor the Mayor and the City Treasurer to give the Council certain information about the salaries of heads of departments, as to whether or not those salaries have been paid to the heads of departments themselves, and also to inform us, in case they have been assigned, the length of time that they have been assigned, and the reason for such assignment.

Mr. CONNOLLY—Mr. President, I simply desire to have the matter assigned, to look into it, on the same idea and with the same right that Mr. Chamberlain of Wd. 12 desired the order which came to us from the Board of Apportionment, No. 6 on the calendar, I believe, assigned for one week. I desire to look into the matter myself, in order to be able to vote upon it intelligently next Thursday. I do not believe a delay of one week will injure the matter one way or the other. I desire to look into it before I vote one way or the other upon it.

Mr. BENNETT—Mr. President, the gentleman has stated that he would like to have the order assigned for the same reason that the gentleman from Wd. 12 asked for the assignment of the other order. That other, which was assigned at the request of the gentleman from Wd. 12 was an order appropriating a large sum of money. This simply requests His Honor the Mayor and the City Treasurer to give certain information to the Council, and if it is laid over a week, it does not matter. If it is passed tonight it is the same thing.

The motion to assign was declared lost. Mr. Mulcahy of Wd. 14 doubted the vote and asked for a rising vote, which was taken, and the motion to assign was lost, 19 members voting in the affirmative, 30 in the negative.

The question came on giving the order a second reading.

The PRESIDENT—The order will be referred to His Honor the Mayor.

SANITARY STATION, WARD 6.

Mr. BRADLEY of Wd. 6 offered an order—that the Board of Estimate and Apportionment be requested to provide in the first loan bill a sum sufficient for an underground lavatory and public convenience station at the junction of Endicott and Blackstone Sts., Wd. 6.

Passed. Sent up.

INVESTIGATION ORDER.

Mr. BRADLEY of Wd. 6 offered the following:—

Whereas, a member of this body, Councilman Horrigan, stated at the last meeting, upon the floor, as reported in the official minutes, that he was offered the sum of fifty dollars for his vote for president of this body, and

Whereas, This body cannot afford to pass over a specific and formal charge of corruption made upon the floor by one of its own members,

Resolved, That a committee of seven members of this body be appointed to make a full and impartial investigation into such charges, and into all charges

which may be made touching the use, or attempted use, of money or other corrupt consideration or improper agencies to influence the action of any members of this body, in the election of its president, and that such committee be authorized to proceed with the investigation, to give hearings, to employ a stenographer, and send for papers and to report their finding in print, if they deem necessary; the expense attending the same to be charged to the appropriation for Common Council, Contingent Expenses.

Mr. BRADLEY of Wd. 6—Mr. President, I deem it my duty at this time to say a few words in regard to that order. On the floor of this chamber last Thursday evening I was accused by Councilman Horrigan of Wd. 3 of taking him from his residence and placing him in a hack, and he stated here that he did not know where he was going. He also stated that he received an offer of the sum of \$50 for the purchase of his vote. Now I, as a representative of my ward, am not aware that he received an offer of \$50—

The PRESIDENT—Will the gentleman pardon the Chair? The Chair desires to bring to the attention of every member of the Council a rule which has been frequently broken heretofore, and that is that each member of the Council shall refrain as much as possible from using the name of other members. He can respectfully designate the member without using his name. The Chair simply desires to call that rule to the attention of the Council, because that is one of the rules already adopted by the Council, and the Chair will ask the gentleman to refer to anybody to whom he desires to refer without referring to him by name.

Mr. BRADLEY—Mr. President, while I heartily agree with my presiding officer, last Thursday evening Councilman Horrigan designated me in this chamber as Councilman Bradley, and I don't know as it was any less against the rules than it is now.

The PRESIDENT—The Chair desires to say that the rule has been broken frequently heretofore, but the Chair desires to have that rule enforced hereafter.

Mr. BRADLEY—A few prefatory remarks I would like to make in regard to that order. This body has been held up to the public gaze as a party of buffoons. Every Thursday evening we have the public gaze centred upon us. Friday morning the press is eagerly scanned to see what the Common Council did the preceding night. Now, gentlemen of the Common Council, I would like to ask you if there has been corruption and fraud employed in the election of our presiding officer, why we should not know that? If there has been corruption et us know it. Investigations are always good. They purify. They cleanse and purify the body in a manner that is sometimes necessary. Gentlemen of the Council, I ask for this order this evening, that it may take its second reading and be passed tonight for the investigation.

The question came on giving the order a second reading.

Mr. CUDDY of Wd. 8—Mr. President, I move you, sir, the indefinite postponement of the order.

Mr. MULCAHY of Wd. 14—Mr. President, I rise for information. Will the Chair state whether the question on indefinite postponement is debatable.

The PRESIDENT—The question is debatable.

Mr. MULCAHY—Mr. President, I would ordinarily be surprised at the action of the gentleman from Wd. 8, but having seen him in consultation with the Chair a few moments ago, getting supplied with his information, it is indeed no surprise that he has asked for the indefinite postponement of this order. Mr. President and gentlemen, I hope that this motion will be voted down, and I ask that the members of the Council satisfy the public at large as to whether

or not there were fraudulent methods used pertaining to the election of the President. Now, gentlemen, you know as well as I do that this matter has been discussed from one end of the city to the other. Last Thursday the gentleman in the third division, Mr. Watson, the gentleman in the second division, Mr. Horrigan, stated on the floor—

Mr. HERRIGAN—Mr. President, I rise to a point of order. The gentleman, according to the rules of the Council, has no right to refer to the members of the Council by name; and I believe you ruled that way already this evening.

The PRESIDENT—The Chair will state that there is a rule of the Council preventing the use of the name during the deliberations of the body. The Chair has already called that rule to the attention of one member of the Council, and will call it to the attention of the gentleman from Wd. 4, and will most respectfully request him to try to confine himself to the rules of the Council.

Mr. MULCAHY—Mr. President, inasmuch as I am aware of such a rule, I am also aware that the Chair did not assume the responsibility last Thursday night of calling it to the attention of the gentleman who was speaking on the same issue. The gentleman stood on the floor of this chamber and mentioned names without any interruption on the part of the Chair. Inasmuch as the Chair was broad enough to allow him to mention names as he did, I feel justified in naming certain gentlemen who preferred the charges last Thursday evening.

The PRESIDENT—The Chair desires to state that he intends to be fair to every member of this Council. He has stated already at this meeting that the rule has been broken frequently by all members of the Council, or by a great many of the members, heretofore; and the Chair intends to enforce it and every rule of this Council hereafter, and will ask the gentleman from Wd. 14 to confine himself within the bounds of parliamentary decency and propriety.

Mr. MULCAHY—The gentleman will endeavor to do that, but feels justified in asking the Chair to be courteous and show that there is no partiality on his part to any member of this body. It would seem so sometimes from the action of the Chair. Now, Mr. President, this matter of indefinite postponement, as I said, of this order is a thing which we should not favor. Let it go through and let us pass this investigation and satisfy the people at large, as well as the members of this body. Everybody wants to know the result, and is waiting for it. If the Chair did not fear an investigation of this kind, the gentleman from Wd. 8 would never have risen to move the indefinite postponement of this matter. The Chair will remember that when he asked for a committee on investigation.

The PRESIDENT—The Chair will remind the gentleman that it is a specific rule of the Common Council that discourteous reflections upon the Chair must not be carried on during the deliberations of this body. The Chair will ask the gentleman once more to confine himself within the rules of parliamentary decency. (Laughter.)

Mr. MULCAHY—The gentleman will endeavor to do that, if the Chair will do the same. Mr. President, I do not desire to say any more about the order, but I would like to see the Chair a little more courteous than he has been in the past and allow the members of this body the right and privilege which they maintain, and let them represent the people they should represent upon the floor of this chamber.

Mr. LYDON of Wd. 13—Mr. President, I sincerely hope that this order will be indefinitely postponed. It seems to me that the only ones that are clamoring for an investigation are those who were in the minority on inauguration day. I do not

believe there is anybody else in the city of Boston clamoring for an investigation. I do not know as there is any great hindrance on the part of the people and the public in general, but there seems to be two or three gentlemen that are very officious, and they want an investigation. They want to know why every man did this and that.

Mr. RICE of Wd. 2—We will find out on election day all right.

Mr. LYDON—Mr. President, as far as I am concerned, I am entirely responsible to my constituents. As far as I am concerned, the gentleman back here—

Mr. HICKEY of Wd. 2—Mr. President, I rise to a point of order.

The PRESIDENT—The gentleman will state his point of order.

Mr. HICKEY—My point of order is that the question before the house is on indefinite postponement; and the gentleman is wandering from that question and endeavoring to explain why he neglected to vote on inauguration day.

The PRESIDENT—The Chair will rule the point of order not well taken. Mr. Lydon of Wd. 13 has the floor. (Light laughter and applause in the gallery.) The Chair will also ask the people in the galleries to refrain from demonstrations of any kind.

Mr. LYDON—Mr. President, I was only incensed to make the remarks by some mumbling and whispering by some defeated parties in back here, but I wish to say that there is nobody clamoring for an investigation except those who were in the minority on inauguration day, and they have been making more fuss and holler than has been made here for years. I believe that it is time that we got down to business and did not longer disgrace ourselves. This body has always been dignified, and I do not believe we are at all an inferior body to those who have preceded us here. Calling for investigation and investigation! (Who is asking for investigation? There is nobody here but a few, and those gentlemen are acting as the mouth pieces of the administration—and I believe it is the administration's idea and intention to have this council abolished, and that it hopes by setting up such little stories and games as these to bring about the abolition of the common council. I believe it is a duty that we owe to our constituents to act here manfully, and to stop these petty actions which we have been indulging in. An order of this kind cannot amount to anything, and those who introduce it know that at the start. I hope the order will be indefinitely postponed.)

Mr. WATSON of Wd. 18—Mr. President, I attempted to sit the evening out without saying anything, but the insane remarks of the member from Wd. 14 have been such, and his knowledge of parliamentary rules is so little—

Mr. HICKEY of Wd. 2—Mr. President, I again rise to a point of order.

The PRESIDENT—The gentleman will please state his point of order.

Mr. HICKEY—Mr. President, my point of order this time is somewhat similar to what it was a moment ago, that the question before this body is the question of indefinite postponement, and that the gentleman in the First Division is wandering off the track and attempting to attack the gentleman from Wd. 14. I presume it will be ruled not well taken.

The PRESIDENT—The Chair will state that the gentleman had not proceeded far enough in his remarks to permit the Chair to know whether he was speaking to the question or not, and therefore the Chair will rule the point of order not well taken.

Mr. WATSON—Mr. President, it was my purpose to speak in favor of the indefinite postponement of this order. I will say frankly that the first part of this evening my purpose was to vote all along the line for investigation; but after the ac-

tions of the member from Wd. 14, I am satisfied that the order is purely put in here for the purpose of bringing about the abolishment of the Common Council, and I am going to vote for the indefinite postponement of the order for that reason. I presume that I can reply to the remarks that were made by the gentleman from Wd. 14, I believe—

Mr. TOBIN of Wd. 9—Mr. President, I think the gentleman—

The PRESIDENT—Does the gentleman rise to a point of order?

Mr. TOBIN—Yes, sir; the question before the house is on indefinite postponement. The gentleman is speaking on another question altogether.

The PRESIDENT—The Chair will rule the point of order not well taken.

Mr. WATSON—Now, Mr. President, I am thoroughly satisfied that this investigation will not be a fair one, no matter what members are appointed upon it, and that is why I want the indefinite postponement of this order. There is not a member of this council but what is interested on one side or the other, and but what would be prejudiced if he sits on that committee. It will be just a political bluff—that is all it will be. It will amount to nothing. I am satisfied, as I said before, that the order was put in for the purpose of bringing about the abolition of the Common Council, and the brags of many members of this Council in the minority are being made practically that effect. Now, to show that we have gained some friends, I want to point to that vote of 48 against 22. They haven't got but 22 votes now. I trust that the order will be indefinitely postponed.

Mr. RICE of Wd. 2—Mr. President, I sincerely trust that this resolution will not be indefinitely postponed. I rise to speak in favor of the passage of this resolution tonight—and before I begin to speak in detail, I desire to state right here that I came to this body in order to be fair and honest and respectable and if anything has occurred in this body since I have been a member of it I want each and every member of this body to rise up and find out what has been the matter. The first day I came to this chamber there was trouble. I represent no machine. I came here in order to do what is right and proper for my constituents, and to be a credit to the Common Council of the city of Boston. I say that on inauguration day I was ashamed of the conduct of some of my colleagues. The next meeting was a disgrace, and the last meeting was the same. I have listened to men get up here and confess that they have been offered bribes—

Mr. WATSON—Mr. President, I rise to a point of order. I think the gentleman has been given considerable latitude, and that at present he is not speaking to the question at all. The question before the house is on the indefinite postponement of the order.

The PRESIDENT—The Chair will rule the point of order not well taken, and in doing so will ask the gentleman to kindly confine himself to the question before the house, which is the indefinite postponement of the order. The Chair desires to allow every member of the Council all the latitude possible within the rules of the Council, but he will remind the gentleman to kindly confine himself to the question before the Council.

Mr. RICE—Mr. President, I want to ask each and every member of this Council tonight to vote against the indefinite postponement. Our characters are at stake. The papers throughout the length and breadth of this country have been talking about the common councilmen of the city of Boston. A fellow Democrat of mine got up on this floor at the last meeting and stated that he was offered \$50 by a man in the Parker House. That member said he was in favor of an investigation, and

he will vote for it—I know he will—and he will vindicate himself before his constituents if he shows that certain men in the city of Boston should be behind the bars.

The PRESIDENT—The Chair will remind the gentleman that he is now talking on the merits of the original order, while the question before the house is on indefinite postponement. The Chair will ask the gentleman to confine himself to the question.

Mr. RICE—So, gentlemen, I state that if this resolution is indefinitely postponed, the same accusation against this body will continue. You will be continually accosted by men in the street. You will be insulted, as I have been many and many a time, by being accused of belonging to a body of savages. (Laughter.) I sincerely trust that every man in this chamber has the same pride that I have to be a member of this body for I feel that it is an august assembly. I believe it is the duty of each and every member, regardless of his political faith, to vote against indefinite postponement. We can then bring out the facts and find out who is at fault, and who is not.

Mr. BAGLEY of Wd. 1—Mr. President, as I think this whole matter is introduced here in order to place the Republican members on record as voting against the investigation, as it is hoped that they will, in order perhaps to try to elect a Democratic Mayor next fall, I move the previous question.

Mr. HERRIGAN of Wd. 3—Mr. President, I most sincerely hope the main question will not be put. I desire to speak a few words in regard to the matter introduced by the member from Wd. 6 (Mr. Bradley), and I most sincerely hope the previous question will not be put.

Mr. KASANOF of Wd. 9—Mr. President, I certainly hope that the main question will not be put, for the following reasons. As a member of this body last year I thought it was a great honor to be a member of the body, and therefore I was a candidate for re-election, and have come back this year. It seems that at the last two meetings gentlemen have got up here and have cast reflections on members of this body as men who have offered or accepted certain bribes. They have placed themselves on record here as being in favor of an investigation—

Mr. HERRIGAN—Mr. President, I rise to a point of order. The gentleman is not speaking to the question before the body.

The PRESIDENT—The Chair will rule the point of order not well taken.

Mr. KASANOF of Wd. 9—Mr. President, I believe the gentleman from Wd. 3 (Mr. Herrigan) has personally stated here—

Mr. HERRIGAN—Mr. President, I rise to a point of order. The question before the house is whether the main question shall now be put or not. The gentleman is speaking about a gentleman in Wd. 3—

The PRESIDENT—The Chair must rule the point of order not well taken, and in doing so will remind the gentleman from Wd. 9 (Mr. Kasanof) that he has already called his attention to the question before the body.

Mr. KASANOF—Mr. President, I am referring to the gentleman—

The PRESIDENT—That he has already called the attention of the Council to the rule which forbids the using of personal names in this chamber.

Mr. KASANOF—Mr. President, I have not used any personal names.

The PRESIDENT—Mr. Kasanof of Wd. 9.

Mr. KASANOF—Mr. President, I have simply referred to the member of Wd. 3 (Mr. Herrigan) saying that he himself stated personally here at the last meeting that he is in favor of an investigation. Now, Mr. President, we should act for the dignity of this body tonight. I trust that the order will not be indefinitely postponed and that the main question will not be put.

Mr. HICKEY of Wd. 2—Mr. President,

The PRESIDENT—The Chair will state that three minutes remain for debate on the question of ordering the previous question.

Mr. HICKEY—Mr. President, I am pleased even at this late moment to be permitted to say a few words in regard to the investigation. The order introduced by the gentleman in the first division (Mr. Bradley) is not perhaps quite so strong as the order I have tried to introduce into this body, but it is at least just as specific.

The PRESIDENT—The Chair will state that the question is, "Shall the main question be now put" and that debate on the main question is not now in order. The Chair will insist on enforcing the rules of the Council.

Mr. HICKEY—Mr. President, I sincerely hope the question will not be put at this time. I could, if permitted to speak on the merits of the question, asperse the motive of the gentleman from Wd. 8 (Mr. Cuddy) when he moved indefinite postponement, and I could perhaps show good reasons why the gentleman from Wd. 1 (Mr. Bagley) should move that the main question be now put. The amalgamation of the Wd. 8 Democrats and Republicans in this body is something that those who were driven into it should be ashamed of—

The PRESIDENT—The Chair will remind the gentleman that the question is, shall the main question be now put?

Mr. HICKEY—Mr. President, I hope the previous question will not be put.

The PRESIDENT—The time for debate has expired. The question is, shall the main question be now put?

The main question was declared ordered. Mr. Mulcahy of Wd. 14 doubted the vote and called for a rising vote. The Council stood divided, and the main question was ordered, 39 members voting in the affirmative, 19 in the negative.

The PRESIDENT—The question comes on giving the order a second reading.

Mr. CONNOLLY of Wd. 13—Mr. President, I move that when the vote is taken on the second reading of the order, it be taken by yeas and nays.

The PRESIDENT—The Chair was in error. The question is on the passage of the order. Mr. Connolly of Wd. 17 asks for the yeas and nays.

The yeas and nays were declared ordered, and the Clerk proceeded to call the roll. When Mr. Casey's name was reached, he said:—

Mr. President, what is the question?

The PRESIDENT—The question is on the passage of the order. As there seems to be an error on the part of some of the members in regard to the question before the Council, the Chair will state that the question is on the passage of the order offered by the gentleman from Wd. 6. The Clerk will call the roll.

The Clerk called the roll, and the order was rejected, yeas 24, nays 43:—

Yeas—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doyle, Hickey, Horrigan, Johnson, Kasanof, Kelley, Leonard, Logan, Madden, Martin, Mulcahy, Nangle, Newhall, Rice, Roemer, Tobin—24.

Nays—Armistead, Atwood, Bagley, Batis, Bordman, Brauer, Chamberlain, Cuddy, Doherty, Donovan, Eddy, Emery, Fenton, Giblin, Harvey, Hibbard, Howard, Jordan, Klemm, Leftvith, Linehan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Moore, O'Brien, Peck, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Turnbull, Walker, Watson, Wells, Winsloe, Wood—43.

Absent or not voting—Bennett, Collins, Donahoe, Flynn, Gibbons, Kiley, Miller, Sullivan—8.

Mr. Cuddy of Wd. 8 moved to reconsider, hoping the same would not prevail; lost.

ELECTRIC LIGHT, MALCOLM STREET.

Mr. ARMISTEAD of Wd. 11 offered an

order—That the Superintendent of Lamps be requested, through His Honor the Mayor, to locate and station either a gas or an electric light on Malcolm St., between Mt. Vernon and Chestnut Sts., Wd. 11.

Referred to His Honor the Mayor.

STREET IMPROVEMENTS, WD. 11.

Mr. ARMISTEAD of Wd. 11 offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation of \$20,000 for resurfacing and putting in complete order Grove, Phillips, Garden and Irving Sts., in Wd. 11.

Passed. Sent up.

OLD SOUTH ASSOCIATION MANAGERS

Mr. HIBBARD of Wd. 24 offered an order—That the Clerk of the Common Council be authorized to deposit one ballot, as the choice of this Council, for the following persons as managers of the Old South Association in Boston.

From the Board of Aldermen, David F. Barry.

From the Common Council, Daniel J. Kiley.

The order was passed, and the clerk attended to the duty assigned him, and David F. Barry and Daniel J. Kiley were declared the choice of the body for said managers.

ELECTRIC LIGHTS, ADAMS ST.

Mr. HIBBARD of Wd. 24 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to establish electric lights on Adams St., between Codman St. and Pierce Sq., Wd. 24.

Referred to His Honor the Mayor.

STREET CLEANING, DORCHESTER.

Mr. HIBBARD of Wd. 24 offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to establish the street cleaning service in all parts of Dorchester district not now covered by said service.

Passed. Sent up.

POWERS OF COMMON COUNCIL.

Mr. DONOVAN of Wd. 7 offered an order—That the President of the Common Council be requested to petition the General Court at its present session for the passage of legislation giving to the Common Council authority to compel the attendance by summons of any head of a department or employee of the city before the Council or any committee thereof, also providing that any order or request for information of any head of department made by the Council shall not require the approval of the Mayor.

The order was read a second time and the question came on its passage.

Mr. MULCAHY of Wd. 14—Mr. President, as I was out of the chamber when the order was read, I desire to ask the Clerk, through the Chair, to read it again.

The PRESIDENT—The Council will be in order, and members will be seated. The Chair desires to state that if the members will kindly maintain order it will not be necessary for the Clerk to repeat so often the reading of orders. The Clerk will read the order again for the information of the gentleman from Wd. 14.

The order was read again by the Clerk, and the question came on its passage.

Mr. CONNOLLY of Wd. 17—Mr. President, I desire to ask the Chair whether or not the Legislature can delegate its powers to summon witnesses to any other body than itself?

The PRESIDENT—The Chair will state for the information of the gentleman that

he believes the Legislature has power to make any laws not in violation of the constitution of the Commonwealth. The Chair, however, does not assume to give a legal opinion upon that order.

Mr. CONNOLLY—Mr. President, I move that the order be assigned to the next meeting of the Council. I desire to look into the matter. I don't believe the Legislature can delegate its power to summon witnesses to any body outside of itself.

Mr. MULCAHY of Wd. 14—Mr. President, I also join with the gentleman from Wd. 17 (Mr. Connolly) in asking that the matter be assigned. This seems to be rather a technical question, and as the Chair seems in doubt and Mr. Connolly and myself are in doubt, I move that the matter be assigned.

Mr. DONOVAN of Wd. 7—Mr. President, I hope the matter will not be assigned. As far as I know and have found out, I think that we have the power to petition the Legislature to enact any law concerning the city government of Boston. That is the reason why I offered this order. The reasons for offering it are very simple. We have a committee organized here to investigate the discharge of certain employees of the city of Boston—

Mr. MULCAHY of Wd. 14—Mr. President, I rise to a point of order. I understand the question to be on assignment.

The PRESIDENT—The question is on assignment of the order to the next meeting.

Mr. MULCAHY—Mr. President, the gentleman is not talking about assignment. He is talking about the discharge of employees.

The PRESIDENT—The Chair will say that the gentleman's point of order is not well taken. Mr. Donovan of Wd. 7.

Mr. DONOVAN—Mr. President, I desire to say that I hope the order will not be assigned for these reasons. We asked the Mayor about the right the city government had to call upon heads of departments and he said that the acts of the Legislature did not allow it. So I offer this order and I hope it will pass this evening.

The PRESIDENT—The question is on assignment of the order to the next meeting.

Mr. WALKER of Wd. 25—Mr. President, I will state that I have, as an attorney, made no special investigation as to the constitutionality of this order. I have not been aware of the order until this moment, but I am aware of a statute upon the books of the Commonwealth which does give the power to legislative bodies or to the selectment of any municipality or township to summon witnesses to testify before them upon any subject which is within their jurisdiction at any investigation of such a subject. It is also within the power of the legislature, as I understand it, to assign or to concede powers to this body, as one of the legislative bodies of the city of Boston, and it seems to me it is perfectly within its powers to give jurisdiction over the heads of departments of the city of Boston to this extent at least. We all know that we have little enough power, and it seems to me this is giving us no more than is our right, the authority to summon before us the heads of departments of the city of Boston, of which city we are a legislative body. I regret to say that we are not at the present time as honored a body as I believe we deserve to be, whosever the fault is. I believe that, as representing the great and honored city of Boston, we are entitled to recognition and honor, that the same honor given to the city should be given to us as representing the city; and, as I believe that under this order we will be given no more power than it is the right of the legislature to grant to us, I hope the order will pass tonight, without assignment.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, the Common Council of 1899 promises to be an investigating body. As

a member of the committee on the investigation of discharged city employees, I was able to behold the edifying spectacle of the mayor and heads of departments standing by on the other side and laughing at the committee trying to investigate.

Mr. MULCAHY of Wd. 14—Mr. Chairman, I desire to rise to a point of order.

The PRESIDENT—The Chair will request the gentleman to address the Chair in a respectful manner.

Mr. MULCAHY—Mr. President, pardon me for making a mistake. I have arisen here to address the Chair two or three times.

The PRESIDENT—With what purpose does the gentleman address the Chair?

Mr. MULCAHY—Mr. President, I raise the point of order that the question before this body is not the investigation of the discharge of laborers.

The PRESIDENT—For what purpose does the gentleman rise?

Mr. MULCAHY—Mr. President, I rise to a point of order that the gentleman's remarks are not germane to the question before the house, which is, as I understand it, on assignment, and not upon any investigation of the discharge of employees of the city of Boston.

The PRESIDENT—The Chair will rule that the point of order is not well taken.

Mr. MULCAHY—Mr. President, I expected that.

Mr. CHAMBERLAIN—Mr. President, I hope the gentleman from Wd. 14 feels better. As, in all probability, there will be many future investigations held, I consider it very important that this Council should have the power to summon such heads of departments to any investigation as it may see fit. For that reason, I most sincerely trust that the order will not be assigned, but will go on its passage tonight and will be passed unanimously.

Mr. RICE of Wd. 2—Mr. President, it seems to me it would be a good practice for this body, when we have doubtful cases like this one, as to whether the Legislature has power to invest us with the authority to summon witnesses here, to seek the advice of the Corporation Council. I think it would be a good idea to assign the order for one week, and in the meantime we can find out whether the Legislature can delegate to us that power. I have no doubt that we will have a great many investigations this year. I am very sorry tonight to see one investigation voted down. Consistency, gentlemen, is a good thing. You started out this year by voting for one investigation, and I voted with you. I favored another investigation, and you voted against me. Gentlemen, let us in the future vote honestly, vote with our consciences.

Mr. LYDON of Wd. 13—Mr. President, it seems to me that the Legislature has the power to delegate to the Common Council the authority to summon heads of departments to any investigation. I think the easiest and best manner to find out the facts, however, would be to have a committee go to the Legislature, and if the Legislature did not have the power it would certainly not give it to us. I don't think that is any reason why the matter should be assigned. It seems to me that there is an antagonism to anything that will give the Council more power. As I said early in the evening, it is the ambition of certain parties, as everybody knows, to abolish the Common Council, and it is naturally to be supposed that they will not assist in anything which will give the Council more power. There is certainly no question about the fact, as has been seen in the last few meetings of 1898 and in this body, that this Council has not power enough; and no member should retard anything which is in the line of giving the Council more power. I hope the order will be passed.

The PRESIDENT—The question is on assignment. As there seems to be some

difference of opinion as to the order, the Chair will direct the Clerk to read the order once more.

The Clerk read the order again.

The PRESIDENT—The question is on assignment of the order to the next meeting.

Mr. CONNOLLY of Wd. 17—Mr. President, I ask for assignment. In doing so, I believe I am right in stating that the Legislature cannot delegate its powers to summon witnesses. I agree with the gentlemen who have stated that the Council should have more power, but I hope and trust that the opportunity will be given me to come here next Thursday evening and show the legal lights of the Common Council—and I think I can do it—that it is on the statute books, and has also been decided by the Supreme Court, that the Legislature cannot delegate its power in this matter. I hope and trust that the assignment will prevail.

Mr. HICKEY of Wd. 2—Mr. President, I sincerely hope the order will be assigned. I rise to speak in favor of assignment, not, perhaps, on account of any demerit in the order which has been presented, but particularly because it has been the practice during the past year to allow postponement of orders of this kind for one week to members who wished it in order to obtain further information. That course has also been followed this evening on two or three important matters, and I sincerely hope that in this case postponement will prevail.

Mr. WALKER—Mr. President, I will ask the pardon of the President and members for speaking once more on this question. In the first place, as we all know, there is a limit to the time within which measures may be introduced at the Legislature. This must be introduced, if at all, before the last of this month. That is an argument against delay. I would like to ask the gentleman who has made the argument that the Legislature cannot delegate its power to summon witnesses how it is he can claim that the Legislature monopolizes that power, when—as is the fact—we have upon the statute books at the present time a law which gives the power to selectmen and to legislative bodies conducting an investigation to summon witnesses before them? The power is one which they can create. They make the charters of cities in this Commonwealth, and it is they who give this power to summon witnesses in investigations in various cities and townships of the Commonwealth. Here is simply another instance of the exercise of that power to summon witnesses, and I think it is very plain that the Legislature exercises no monopoly in the matter.

The motion to assign to the next meeting was lost. The order was passed. Mr. Cuddy moved to reconsider, lost.

STATIONERY FOR MEMBERS.

Mr. DONOVAN of Wd. 7 offered an order—that the City Messenger provide each member of the Common Council with a half ream of octavo note paper, in quality equal to No. 1 Baronial, white laid, plate finish, Old Berkshire, with suitable engraving at head; also with one box, quarter thousand, of envelopes to match; the expense of the same to be charged to the appropriation for Common Council, Contingent Expenses.

Passed.

BULLETIN OF LEGISLATIVE BILLS.

Mr. EMERY of Wd. 21 offered an order—that His Honor the Mayor authorize the clerk of committees to have posted in his room, also in the City Messenger's room, a list of all bills pertaining to the city of Boston which are before the General Court for the year 1899.

Referred to His Honor the Mayor.

ELECTRIC LIGHT, WARD 15.

Mr. GIBLIN of Wd. 15 offered an order—

That the Superintendent of Lamps be instructed, through His Honor the Mayor, to place an electric light at the corner of West Sixth and F Sts., Wd. 15.

Referred to His Honor the Mayor.

REPEAL OF APPOINTMENT ACT.

Mr. BORDMAN of Wd. 10 offered the following:—

Whereas, At the request of the Legislature of Massachusetts, the voters of the city of Boston, by a decisive vote, at the municipal election of 1897, expressed their wish that the Common Council continue to be a fundamental branch of their municipal government, and

Whereas, The voters of the city of Boston have invariably voted to preserve their present form of government when the matter has been referred to them, and

Whereas, In spite of the expressed will of the citizens, the Mayor has secured the passage of an act by the Legislature creating a Board of Estimate and Apportionment, which practically destroys all but the negative powers of the Common Council, and

Whereas, The Mayor has thus in an indirect way attained the object which the people refused to grant him, and

Whereas, The Mayor has, in his annual address, boasted of his success and contemptuously referred to this honorable body as a "palpable absurdity" and a "municipal debating club," now therefore be it

Resolved, That the Common Council of the City of Boston, in regular meeting assembled, hereby appeal to the great and general court of the Commonwealth to repeal the Apportionment act; to restore to them their former powers; to grant no further increase of power to the Mayor, and to attach the referendum to all future acts amending the charter of the city of Boston, and be it further

Resolved, That the Legislative Committee, when appointed, be directed to appear before the committees of the Legislature to further these objects and oppose all legislation not in accord with these resolutions.

Mr. BORDMAN of Wd. 10—Mr. President, in speaking to the resolutions which have just been read, I wish to preface my remarks by reading a few extracts—the first from the city charter granted in 1854; the second from the act amending that charter, passed in 1885; and the third an extract from the last address of the Mayor. They are as follows: Sect. 35, Ch. 448, Acts of 1854, p. 82: "All other powers heretofore by law vested in the town of Boston, or in the inhabitants thereof, as a municipal corporation, or in the City Council of the city of Boston, shall be and hereby are continued to be vested in the mayor, aldermen, and Common Council of the said city, to be exercised by concurrent vote, each board as hereby constituted having a negative upon the proceedings of the other, and the Mayor having a veto power as hereinafter provided."

The 2d: Sec. 1, Ch. 266, Acts 1885:—

"The Mayor of the city of Boston shall appoint, subject to confirmation by the Board of Aldermen, all officers and boards now elected by the City Council or Board of Aldermen, or appointed by him subject to confirmation, and all whose offices may hereafter be established by the City Council or Board of Aldermen; and he may remove any of said officers or members of such boards for such cause as he shall deem sufficient, and shall assign in his order for removal."

The 3d, from the Mayor's Address: "The maintenance of a lower chamber of seventy-five members, now having scarcely a vestige of financial power—only that of rejecting items passed by the Board of Apportionment—and with no control over street franchises, seems such a palpable absurdity, and such a costly method of maintaining a municipal debating club, if that be considered a desirable object, that

it seems to me scarcely possible that it can much longer be allowed to exist."

Mr. President, from those extracts we can trace the course of municipal development in the last 45 years. In the days of its prime, when His Excellency Gov. Roger Wolcott, Hon. J. Q. A. Brackett, Alex. H. Rice, J. Putnam Bradley and others of our representative men were members of the Common Council, the city government was a true type of the balanced system which is the only safe foundation for a democratic form of representative government.

Our national government is the most striking illustration of its success, and a study of that will show that the House of Representatives, the Senate and Executive each have an almost complete check on the action of the others in financial and legislative matters, and unless all are in accord, no measures can become law. As the three branches vary in their sensitiveness to the individual wishes of their constituents, the proper degree of conservatism is coupled with the radical tendencies of the House of Representatives, and as no measure can become a law unless it has been thoroughly considered and, as is usually the case, compromised, a proper degree of safety is assured.

This, Mr. President, was the form of government Boston had under the charter of 1854, as shown by the extract I have read. In those days the Common Council was an important body and our ablest men were among its members. Thirty years later, however, a change was made, and the appointing power was taken from the City Council and given to the Mayor, subject to confirmation by the aldermen. This was the entering wedge, though it but placed our city government more nearly on the plan of that at Washington, and left all legislative powers in the hands of the aldermen and Common Council. It was sufficient, however, to destroy the balance of power, and placed in the hands of the Mayor a powerful instrument, through the distribution of patronage, with which to make further attacks upon the other branches.

It remained for the present incumbent, Mayor Quincy, to be crafty enough to take full advantage of this and under him we have seen such a centralization of power that we no longer have a system balanced, between three branches, but a despotic one-man power, which tolerates one of the other branches, and sarcastically ridicules the existence of the third.

Mr. President, it may be that this is the modern tendency of government. It may be that our citizens desire to pattern after the imperialistic government of continental cities, rather than the representative system of democracy, but when we realize how rapidly the people of our country are concentrating in the great centres of population, and that the day is not far distant when only an insignificant portion of our population will not be dwellers within the limits of some city, I say the matter is one of supreme importance. Our fathers loved liberty because they were bred to it in the town meeting, and had a voice in public affairs. The town meeting is a thing of the past, and now an attack is made upon the representative system which is at the bottom of our national government. The form of our community governments will in time become the form for our country, and history will only be repeating itself if our republic ends in despotism.

Mr. President, in spite of the decided verdict by which the voters of our city favored the preservation of the Common Council two years ago, we find ourselves deprived through the intrigues of the present Mayor of all semblance of real power. He, in his fancied security, gloats over his selfish success. But a day of reckoning will come. The Roman aediles were able for a time to amuse the people with spectacles and games, with municipal concerts

and fountains, while they centralized the power and prepared the way for their Caesar. It is for us to profit by their example. There is a marked tendency nowadays to make what is everybody's business nobody's business, and to place faith in the wisdom of Abraham Lincoln's maxim—that you can fool part of the people all the time, and all the people part of the time, but you can't fool all the people all the time. One of the ablest of our city press recently said in its editorial columns, "It may be better to wait until a reaction sets in." But, Mr. President, to this we should say No! Let us start the reaction now. We want no modern Rome in our midst; we must not wait till a corrupt boss uses the centralized power Mayor Quincy has placed in his hands to wreck the future of our fair city. Let us begin a movement to decentralize the power now; let us seek to restore equality to the three branches of our government; let us return to that balanced system of representation which was the pride and the safeguard of our fathers!

Mr. President, I move that the resolutions be referred to the Committee on Legislative Affairs, when appointed.

The order was declared referred to the Committee on Legislative Affairs, when appointed.

Later in the session Mr. Bordman said:—

Mr. President, I desire to ask if it would be in order for me to ask the courtesy of the Council to have a yea and nay vote taken on the reference of the resolutions which I introduced to the Committee on Legislative Affairs. I would say, in explanation, that I think a yea and nay vote from this Council would have more effect upon the Legislature, believing as I do that the members, without regard to political affiliation, are in favor of the resolutions.

The PRESIDENT—The Chair will state that if the gentleman desires to make a motion to the effect that he desires to verify the reference of his order by a yea and nay vote, the Chair will entertain that motion.

Mr. BORDMAN—Mr. President, I move you, sir, to that effect.

Mr. NANGLE of Wd. 19—Mr. President, I don't see why this should require that we should verify that reference by a yea and nay vote. The question on its reference has been put and declared carried. Nobody doubted the vote at all, and I do not see why the matter should come up again at this time.

The yeas and nays were ordered on the motion to refer, and the resolutions were referred to the Committee on Legislative Affairs, when appointed—yeas 69, nays none:—

Yeas—Armistead, Atwood, Badaracco, Bagley, Battis, Bennett, Bordman, Brauer, Brennan, Broderick, Carrol, Chamberlain, Collins, Cuddy, Curley, Doherty, Donahoe, Donovan, Doyle, Eddy, Emery, Fenton, Giblin, Harvey, Hibbard, Hickey, Horri-gan, Howard, Johnson, Jordan, Kasanof, Kelley, Kiley, Klemm, Leftovith, Leonard, Linehan, Logan, Lorey, Lydon, Macdonald, Madden, Mansfield, Martin, McInerney, Milgram, Moore, Mulcahy, Nangle, Newhall, O'Brien, Peck, Rice, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sullivan, Sweeney, Tobin, Turnbull, Walker, Watson, Wells, Winsloe, Wood—69.

Nays—None.
Absent or not voting—Bradley, Casey, Connolly, Flynn, Gibbons, Miller—6.

SKATING, WD. 15.

Mr. GIBLIN of Wd. 15 offered an order—That the Park Commissioners be requested, through His Honor the Mayor, to flood a suitable lot of ground under their jurisdiction in Wd. 15 for skating purposes. Referred to His Honor the Mayor.

SHELTER AT NORTH FERRY.

Mr. BAGLEY of Wd. 1 offered an order—That the Superintendent of Streets be requested, through His Honor the Mayor, to extend the shelter at the East Boston side of the North Ferry, so that it may connect with the head house at said ferry. Referred to His Honor the Mayor.

IMPROVEMENT OF COWPER ST.

Mr. BAGLEY of Wd. 1 offered an order—That the Superintendent of Streets be requested, through His Honor the Mayor, to place Cowper St., between Moore and Short Sts., in proper condition. Referred to His Honor the Mayor.

POLO PLAYING, WOOD ISLAND PARK.

Mr. BAGLEY of Wd. 1 offered an order—That the Park Commissioners be requested, through His Honor the Mayor, to allow polo playing at Wood Island Park, between the hours of two o'clock P. M. and five o'clock P. M., on Tuesdays, Thursdays and Saturdays during the skating season. Referred to His Honor the Mayor.

USE OF EAST BOSTON GYMNASIUM.

Mr. BAGLEY of Wd. 1 offered an order—That the Bath Commissioners be requested, through His Honor the Mayor, to report to the Common Council the number, if any, of non-residents who have lockers in the East Boston Gymnasium, and also if proper steps are taken to give residents of Boston the preference in obtaining admission to the hand-ball court, etc. Referred to His Honor the Mayor.

BRANCH LIBRARY, EAST BOSTON.

Mr. BAGLEY of Wd. 1 offered an order—That the Board of Estimate and Apportionment be requested to provide in their first loan bill an appropriation of one hundred thousand dollars for a branch of the public library in East Boston. Passed. Sent up.

ELECTRIC LIGHT, WD. 19.

Mr. McINERNEY of Wd. 19 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to locate an electric light at the corner of Smith and Phillips Sts., Wd. 19. Referred to His Honor the Mayor.

CONDITION OF TICKNOR SCHOOL.

Mr. FENTON of Wd. 15 offered an order—That the School Committee be requested, through His Honor the Mayor, to investigate the sanitary condition of the Ticknor School, South Boston, and to make such changes and repairs as may be necessary to put the same in proper condition. Referred to His Honor the Mayor.

BINDERS FOR DOCUMENTS.

Mr. SANDERSON of Wd. 25 offered an order—That the City Messenger be authorized to procure improved Keystone Binders for members of the Common Council; the expense of same to be charged to the Common Council contingent fund when made. Passed.

FILES FOR RECORDS.

Mr. SANDERSON of Wd. 25 offered an order—That the City Messenger be authorized to procure files for the use of members of the Common Council the same to be used for the purpose of properly preserving the regular issue of the City Record; the expense to be charged to the Common Council, Contingent Fund. Passed.

INVESTIGATION OF WATER TAX.

Mr. CHAMBERLAIN of Wd. 12 offered an order—That a special committee of five members of the Common Council be appointed to investigate the method by means of which an extra water tax is levied upon each room in a house that is let for boarding or lodging purposes; said committee to report the result of its investigation, together with such suggestions or changes as seem proper, as soon as possible. Passed.

PAYMENT OF LEGISLATIVE EXPENSES.

Mr. CHAMBERLAIN of Wd 12 offered the following:—

City of Boston,

In the year one thousand eight hundred and ninety-nine.

An ordinance to amend chapter 23 of the Revised Ordinances of 1898.

Be it ordained by the City Council of Boston, as follows:—

Chapter twenty-three of the revised ordinances of 1898 is hereby amended in section two by striking out the words "incidental expenses of the City Council" in the twenty-first line of said section, and inserting in place thereof the words "mayor,—office."

Referred to the Committee on Ordinances, when appointed.

PORTRAIT OF PRESIDENT.

Mr. CHAMBERLAIN of Wd. 12 offered an order—That the President be requested to give a sitting for a portrait of himself to be hung in the President's room, according to the usual custom; the expense attending the same to be charged to the appropriation for Common Council, Contingent Expenses. Passed unanimously.

ALARM BOX, WARD 19.

Mr. DOYLE, of Wd. 19, offered an order—That the Fire Commissioner, through His Honor the Mayor, be requested to locate a fire alarm signal box on Hillside St., near Wait St., Wd. 19. Referred to His Honor the Mayor.

INCREASE OF PLAYGROUND COMMITTEE.

Mr. DOYLE offered an order—That the President of the Common Council increase the number of committee on playgrounds for Wds. 18 and 19 to six members from the aforesaid wards.

The PRESIDENT—The Chair wishes to state, in connection with that order, for the information of the gentleman from Wd. 19, that he has already appointed a member from Wd. 17 on that committee, and he sees no way now to get over the difficulty unless the gentleman from Wd. 19 is ready to suggest some way.

Mr. DOYLE—Mr. President, I understand that one of the members of that committee has suggested that he will be glad to resign from the committee.

The PRESIDENT—The Chair will state that if any resignation is handed in, which has not been the case up to the present date, the Chair will then be prepared to fill the vacancy, as the order provides, but until such time the Chair cannot entertain such an order.

Mr. DOYLE—Mr. President, I would very much like to have the order considered by the President, in view of the fact that there are six members from those two wards. I cannot see why the Chair should appoint a gentleman from Wd. 17 on a playground for Wds. 18 and 19. As I understand, the original order provided that five members from the district should be appointed.

The PRESIDENT—The Chair will state that he has appointed five members on the committee now, and if two members are

added that will make seven. There has been no provision made in any order up to the present time for the appointment of seven members. The Chair is therefore unable to make such an appointment on the committee.

Mr. DOYLE—Mr. President, I make a motion that two more members be added to that committee.

Mr. NANGLE—Mr. President, I simply rise to ask whether or not the appointment of that committee has been announced yet?

The PRESIDENT—The Chair will state that the appointment of the committee has been announced, but it is still within the power of the Council to add as many members as it sees fit.

Mr. NANGLE—It has been announced?

The PRESIDENT—The appointment of the committee has been announced through the Clerk.

Mr. NANGLE—Well, I haven't got any notification to the effect that I have been appointed or not. I understand that I am charged with being the member of the committee who is about to resign from the committee. I can assure the gentleman that I do not intend to resign. I shall be glad to perform the duty which has been assigned me for the benefit of my constituents.

The motion to increase the membership of the committee by two was carried.

ELECTRIC LIGHT, EAST BOSTON.

Mr. RICE of Wd. 2 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to place an electric light on Liverpool St., between Maverick and Sumner Sts., East Boston.

Referred to His Honor the Mayor.

PLACE TO BE CALLED "HAYES" SQ.

Mr. DOHERTY of Wd. 3 offered an order—That the Board of Street Commissioners be requested to cause the public ground bounded by Bunker Hill, Vine and Moulton Sts., Charlestown, to be named "Hayes Sq.," as a mark of respect to the memory of the late Senator James E. Hayes, an honored resident of that section of the city and for many years identified with all that appertained to its welfare.

The question came on the passage of the order.

The PRESIDENT—The Chair will state for the information of the gentleman from Wd. 3 that the Street Commissioners, and they alone, have the power to do that which he has requested in his order. He will suggest that the gentleman from Wd. 3 amend his order to read that the Street Commissioners be requested to so name the square.

Mr. DOHERTY of Wd. 3—Mr. President, I move that the order be amended to read, "that the Board of Street Commissioners be requested to cause the public ground," etc.

The order was passed as amended. Sent up.

STATUE OF HON. JAMES E. HAYES.

Mr. DOHERTY offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation sufficient to procure a statue of the late Senator James E. Hayes to be located in the public ground bounded by Bunker Hill, Vine and Moulton Sts., Charlestown; said statue to be in position and unveiled on the 17th of June of the present year, if possible.

Referred to the Board of Estimate and Apportionment. Sent up.

LAMP IN CHARLESTOWN.

Mr. DOHERTY offered an order—That the Superintendent of Lamps, through His

Honor the Mayor, be requested to locate a gas lamp at the corner of Edgeworth and Tremont Sts., Wd. 3.

Referred to His Honor the Mayor.

GYMNASIUM, CHARLESTOWN.

Mr. DOHERTY offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation of \$25,000 for an open air gymnasium on the playground in Wd. 3.

Passed. Sent up.

FLOODING OF COMMONWEALTH PARK.

Mr. LINEHAN of Wd. 13, offered an order—That the Board of Park Commissioners, through His Honor the Mayor, be requested to cause Commonwealth Park, South Boston, to be flooded for skating purposes.

Referred to His Honor the Mayor.

ORDINANCE REGARDING ENGINE SMOKE.

Mr. LINEHAN offered an order—That the Committee on Ordinances be requested to report to the City Council an ordinance to prevent the menace to the health and convenience of the citizens of Boston arising from smoke from locomotives passing or standing under the various railroad bridges of this city.

Referred to the Committee on Ordinances, when appointed.

OFFICE FOR COUNCILMEN.

Mr. LINEHAN offered an order—That the Superintendent of Public Buildings, through His Honor the Mayor, be requested to furnish one of the anterooms of the Common Council Chamber so as to adapt it for use as a private office for members of the Common Council; the work of furnishing to be under the direction of the President of the Common Council and the expense to be charged to the appropriation for Public Buildings Department.

Mr. LINEHAN—Mr. President, I think the necessity of this body having some room where they can go and sit and talk and write is evident to every member, and I hope it will be seen to that that room is fitted up in a comfortable, good manner, for the members of this body.

The order was referred to His Honor the Mayor.

ELECTRIC LIGHT, CHARLESTOWN.

Mr. KELLEY of Wd. 4 offered an order—That His Honor the Mayor be requested to instruct the Superintendent of Lamps to erect on Kingston St., opposite Kingston Ct., an electric light in place of the present gas light; and the expense of same to be paid by the Lamp Department.

Referred to His Honor the Mayor.

ASPHALTING OF HARRISON AVE.

Mr. SWEENEY of Wd. 7 offered an order—That the Board of Estimate and Apportionment be requested to allow in their next loan bill a sum sufficient to defray the expense of asphaltting Harrison Ave., between Kneeland and Bennett Sts.

Passed. Sent up.

MOTION TO ADJOURN.

Mr. WATSON of Wd. 18 moved that the Council adjourn.

The motion was declared lost by the President.

ELECTRIC LIGHT, CHARLESTOWN PLAYGROUND.

Mr. SULLIVAN of Wd. 4 offered an order—That the Board of Park Commissioners,

through His Honor the Mayor, be requested to provide an electric light at Charles-town Playground, Wd. 4, for the safety and convenience of the large number of people frequenting said playground for the purpose of skating.

Referred to His Honor the Mayor.

PAVING OF BLUE HILL AVE.

Mr. BRENNAN of Wd. 17 offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation of \$50,000 for the paving of Blue Hill Ave. from Dalmatia St. to Grove Hall.

Passed. Sent up.

ELECTRIC LIGHT, DORCHESTER.

Mr. HOWARD of Wd. 20 offered an order—That the Superintendent of Lamps be requested, through His Honor the Mayor, to locate an electric light at the corner of Grampian Way and Savin Hill Ave., Wd. 20.

Referred to His Honor the Mayor.

ASPHALTING OF MILTON ST.

Mr. LEFTOVITH of Wd. 8 offered an order—That the Board of Estimate and Apportionment be requested to include in their first loan order a sum sufficient for laying an asphalt pavement on Milton St., Wd. 8.

Passed. Sent up.

FLOODING OF LAND FOR SKATING.

Mr. ATWOOD, of Wd. 16, offered an order—That the Fire Commissioner, through His Honor the Mayor, be requested to flood for skating the vacant lot bounded by Kemp St., Washington Ave., Hyde St. and the N. Y., N. H. & H. R. R., provided that the owner of said lot shall consent to the same being done.

Referred to His Honor the Mayor.

POLICE STATION, GROVE HALL.

Mr. WOOD, of Wd. 20, offered an order—That the Board of Estimate and Apportionment include in their first loan order the sum of \$30,000, to provide a police station at or near Grove Hall, Wd. 20.

Passed. Sent up.

PAVING OF PARK ENTRANCE.

Mr. WOOD offered an order—That the Park Commissioners, through His Honor the Mayor, be requested to pave the space between the curbstone and the railroad tracks at the northerly corner of the park

entrance of Blue Hill Ave., opposite Glen-at or near Grove Hall, in Wd. 20.

Referred to His Honor the Mayor.

VESTIBULES ON STREET CARS.

Mr. HARVEY, of Wd. 24, offered the following:—

Resolved, That in the opinion of the City Council of Boston such legislation should be enacted by the General Court as will require all street railway companies in this city to equip their cars with vestibules for the protection both of motormen and passengers.

Referred to the Committee on Legislative Matters, when appointed, on motion of Mr. Harvey.

EXTENSION OF TEMPLE STREET.

Mr. NEWHALL of Wd. 23 offered an order—That the Board of Estimate and Apportionment be requested to include in the next loan bill an amount sufficient to lay out and construct Temple St. from its present termination to Centre St., Wd. 23.

Passed. Sent up.

PAYMENT FOR THEATRE LICENSES.

Mr. CASEY of Wd. 18, offered an order—That the Board of Aldermen be requested to amend the Revised Regulations of 1898, so that section 2 of chapter 3 of said regulations shall read as follows: "Every licensee, before he receives any license for a theatrical exhibition, public show, public amusement, or other performance or exhibition of any description to which admission is obtained by payment of money or the delivery of any valuable thing, or by any ticket or voucher obtained for money or any valuable thing, shall pay to the city clerk for such license covering performances or exhibitions, for one day, \$1, for a time exceeding one day and not exceeding six days, \$5; for a term exceeding six and not exceeding twelve days, \$25; provided, however, that for a license for any athletic entertainment the licensee shall pay \$10, and for a license for a theatrical season or for any circus he shall pay \$300 and shall cause facilities for entering and inspecting his place of amusement and viewing the exhibitions or performances therein to be furnished at all times to any member of the City Council applying therefor.

Assigned to the next meeting, on motion of Mr. Casey.

Adjourned at 10:13 o'clock P. M., on motion of Mr. Lydon of Wd. 13, to meet on Thursday, Jan. 26, at 7:45 o'clock, P. M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen

Monday, Jan. 23, 1899.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock, P.M., Chairman Barry presiding, and all the members present.

The Board voted, on motion of Ald. Berwin, to dispense with the reading of the records of the last meeting.

JURORS DRAWN.

Thirty-four traverse jurors were drawn for the Superior Criminal Court, under the provisions of Chap. 514, of the Acts of 1894, viz.: Charles F. Remington, Wd. 24; William J. Gross, Wd. 16; Orlando C. Allen, Wd. 25; David Fisher, Wd. 17; Martin O'Hara, Jr., Wd. 25; Thomas H. Roberts, Wd. 6; Peter P. Redican, Wd. 4; Edward E. Gardner, Wd. 14; H. Norman Cox, Wd. 9; Andrew S. Wheeler, Wd. 20; John H. G. Munro, Wd. 1; Frank S. Price, Wd. 7; Edward Callahan, Wd. 23; George B. Watson, Wd. 20; Ambrose L. Murphy, Wd. 13; James B. Reynolds, Wd. 11; Henry E. Sumpter, Wd. 3; Patrick J. Curtis, Wd. 13; Francis Lally, Wd. 1; Albert D. Rogers, Wd. 25; John J. Connelley, Wd. 23; Henry O'Gorman, Wd. 23; William H. Cuddy, Wd. 8; Franklin H. Raymond, Wd. 15; Timothy J. Driscoll, Wd. 4; William J. Callahan, Wd. 13; Allen C. Humphrey, Wd. 20; Charles H. G. Ferguson, Wd. 15; Arthur F. Clark, Wd. 14; Edward H. Goodale, Wd. 24; Josiah Villard, Wd. 5; James B. Finnegan, Wd. 20; James Farrell, Wd. 15; Charles E. Dunham, Wd. 16.

DESTRUCTION OF OLD SMALL-POX HOSPITAL.

The following was received:—

Mayor's Office, City Hall,

Boston, Jan. 23, 1899.

To the City Council:—

Last year the buildings and grounds on Canterbury St., known as the Old Small-Pox Hospital, for which the Board of Health had no further use, were placed in the charge of the Insane Hospital Trustees. The Insane Hospital Trustees now request permission to destroy the old buildings, as the Board of Health is of the opinion that it would be unsafe to make use of them, on account of the possibilities of infection, and I accordingly recommend the passage of the accompanying order.

Respectfully submitted,

Josiah Quincy, Mayor.

Insane Hospital Trustees,

Boston, Mass., Jan. 10, 1899.

Hon. Josiah Quincy, Mayor of Boston.

Dear sir: The Insane Hospital Trustees request permission to destroy the old buildings of the small-pox hospital transferred to them, as the Board of Health have stated that it was unsafe to make use of those buildings on account of the possibilities of infection.

Very truly yours,

Philip Coombs Knapp, Secretary.

City of Boston. In Board of Aldermen,

January 23, 1899.

Ordered, That the Insane Hospital Trustees be and hereby are authorized to destroy the old Small-pox Hospital buildings, the Board of Health being of the opinion that it would be unsafe to use them, on account of the possibilities of infection.

Passed. Sent down.

PETITIONS REFERRED.

The following petitions were received and were referred to the committees named, when appointed, viz:

Buildings Dept. (Ald.)

Petitions for leave to project signs, etc., viz:

Beacon Lunch Co., an illuminated sign, at 7 Charles St., Wd. 11.

Railroads.

West Roxbury & Roslindale St. Ry. Co., for a location of tracks from South St. at Ashland St., through Ashland and Oakland Sts. and Blue Hill Ave. to the line of Milton; also on Washington St., southerly, to a point about 400 feet south of Ashland St.; with the right to use the overhead trolley system thereon.

COUNTY COMMISSIONERS.

John W. Wheelwright, that the Board estimate the damages to his estate caused by the change of grade of Washington and Motte Sts., on account of the extension of the B. & P. R.R.

LEAVE GRANTED ON PETITION.

Ald. BERWIN presented the petition of J. W. Williams & Co. for leave to project a sign at 71 Warren Ave., Wd. 10.

The Board voted, on motion of Ald. Berwin, to suspend all rules, and leave was granted to the petitioner on the usual conditions.

PAPERS FROM COMMON COUNCIL.

1. Communication from the Boston Transit Commission transmitting their annual report, as required by section 24, of chapter 543 of the Acts of 1894.

Placed on file.

2. Notice of the election on the part of the Common Council of David F. Barry from the Board of Aldermen, and Daniel J. Kiley, from the Common Council, as managers of the Old South Association in Boston.

On motion of Ald. Codman the Board voted to cast one ballot for the election of David F. Barry and Daniel J. Kiley as managers of the Old South Association, and they were unanimously elected.

3. Ordered, That His Honor the Mayor be requested to petition the General Court for the passage of an Act to authorize the City of Boston to pay to the family of Edward Melia, late a police officer of said city, the balance of the salary to which he would have been entitled had he lived and continued to be such police officer until the close of the present fiscal year.

Passed in concurrence.

4. Ordered, That the Fire Commissioner be authorized to increase the pay of any member of the Fire Department who distinguishes himself by conspicuous bravery, to the amount of twenty-five (25) dollars per annum.

Passed in concurrence.

5. Ordered, That the Board of Street Commissioners be requested to cause the public ground bounded by Bunker Hill, Vine and Moulton Sts., Charlestown, to be named "Hayes Square," as a mark of respect to the memory of the late Senator James E. Hayes, an honored resident of that section of the city and for many years identified with all that appertained to its welfare.

Referred to the Committee on Public Improvements.

The Board voted, on motion of Ald. Berwin, to consider Nos. 6 to 19 inclusive, together, and that the same be read by their titles and referred to the Board of Estimate and Apportionment, viz:

6. Ordered, That the Board of Estimate and Apportionment be requested to provide

an appropriation of fifty thousand (50,000) dollars for the paving of Blue Hill Ave., from Dalmatia St. to Grove Hall.

7. Ordered, That the Board of Estimate and Apportionment be requested to provide an appropriation of twenty-five thousand (25,000) dollars for an open-air gymnasium on the playground in Wd. 3.

8. Ordered, That the Board of Estimate and Apportionment be requested to provide an appropriation of twenty thousand (20,000) dollars for resurfacing and putting in complete order Grove, Phillips, Garden and Irving Sts., in Wd. 11.

9. Ordered, That the Board of Estimate and Apportionment be requested to provide an appropriation for the grading and macadamizing of East Second St., from K to Q St., South Boston, Wd. 14.

10. Ordered, That the Board of Estimate and Apportionment be requested to provide a sum sufficient to provide proper sewerage for the Phineas Bates School on Beech St., Wd. 23.

11. Ordered, That the Board of Estimate and Apportionment be requested to include in the next loan bill an amount sufficient to lay out and construct Temple St., from its present termination to Centre St., Wd. 23.

12. Ordered, That the Board of Estimate and Apportionment include in their first loan order the sum of thirty thousand (30,000) dollars to provide a police station at or near Grove Hall, in Wd. 20.

13. Ordered, That the Board of Estimate and Apportionment be requested to include in their first loan order a sum sufficient for laying an asphalt pavement on Milton St., Wd. 8.

Ordered, That the Board of Estimate and Apportionment be requested to allow in their next loan bill a sum sufficient to defray the expense of asphaltting Harrison Ave., between Kneeland and Bennett Sts.

15. Ordered, That the Board of Estimate and Apportionment be requested to provide in their first loan bill an appropriation of one hundred thousand (100,000) dollars for a branch of the Public Library in East Boston.

16. Ordered, That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to establish street cleaning service in all parts of Dorchester District not now covered by said service.

17. Ordered, That the Board of Estimate and Apportionment be requested to provide in the first loan bill a sum sufficient for an underground lavatory and public convenience station at the junction of Endicott and Blackstone Sts., Wd. 6.

18. Ordered, That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to provide for the establishment of a branch of the Public Library at the North End.

19. The following order came up for its reference in concurrence to the Board of Estimate and Apportionment:—

Ordered, That the Board of Estimate and Apportionment be requested to provide an appropriation sufficient to procure a statue of the late Senator James E. Hayes, to be located in the public ground bounded by Bunker Hill, Vine and Moulton Sts., Charlestown; said statue to be in position and unveiled on the 17th of June of the present year, if possible.

Severally referred to the Board of Estimate and Apportionment.

20. Ordered, That the School Committee, through His Honor the Mayor, be requested to take immediate steps to improve the sanitary condition of the Mather Schoolhouse in Wd. 13, South Boston.

Passed in concurrence.

CONFIRMATION OF APPOINTMENT.

The Board proceeded to take up No. 21, unfinished business, viz:

21. Action on the appointment of Henry L. Plummer, to be a member of the Board of Overseers of the Poor, for the term end-

ing April 30, 1901, vice Frederick W. Day, resigned.

The question came on confirmation. Committee—Ald. Presho and Brick. Whole number of ballots cast, 11; yes 11, and the appointment was confirmed.

ORDERS FOR MONEY APPROPRIATIONS.

Ald. DIXON called up special assignment, No. 22, and moved that it be referred to the Committee on Public Improvements.

The Board voted, on motion of Ald. Codman, to consider special assignment, No. 22, with No. 22, viz:

22. Message of the Mayor transmitting the following order passed by the Board of Estimate and Apportionment:

Ordered, That the sum of one million (1,000,000) dollars be appropriated for the construction of sewerage works, under the provisions of Chapter 426 of the Acts of 1897, and Acts in amendment or addition thereto, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

23. Message of the Mayor, transmitting the following order passed by the Board of Estimate and Apportionment:—

Ordered, That the sum of ten thousand (10,000) dollars be appropriated to pay the expenses incurred in carrying on the work of the Wire Department, other than the work authorized by Chapter 454 of the Acts of 1894, and Acts in amendment or addition thereto, the same to be met out of the income and taxes received by the city during the financial year 1899-1900.

Severally referred to the Committee on Public Improvements.

BAY WINDOW—ORDER OF NOTICE.

On the petition of Crescent Associates for leave to project two bay windows from building, corner of Savin Hill Ave. and Spring St., Wd. 20—an order of notice was passed for a hearing thereon on Monday, Feb. 6, at 3 o'clock P.M., when any parties objecting thereto may appear and be heard.

CLERK HIRE.

A communication was received from Thomas F. Temple, Register of Deeds, in accordance with the provisions of Sec. 2, Chap. 435, of the Acts of 1895, certifying that certain persons had been employed in his office, commencing with Dec. 15, 1898, and that the work had been performed to the amount of \$2039 95.

Approved by the Board.

FRANKLIN FUND.

Ald. COLBY, for the committee appointed to examine the accounts of Samuel G. McCleary, Treasurer of the Franklin Fund, submitted a report—That they have attended to that duty, and have examined the accounts for the years 1896, 1897 and 1898, comprising the period in which the composition of the Board of Managers was in litigation. The committee found that said accounts had been correctly kept and that all vouchers for the securities were in proper condition. Said accounts and the character of the Fund at this date are contained in the exhibit hereto annexed. The present amount of the fund, which is to accumulate without expense until its final division between the city and the state in 1901, is \$124,631.36.

With the presentation of this report the committee submit, at his request, the resignation of Mr. McCleary as treasurer of this fund, and recommend that it be referred to the Board of Managers.

(Appended was a schedule of receipts and investments for the years referred to, and the resignation of Mr. McCleary as treasurer, under date of January 23, 1899.)

On motion of Ald. Colby, it was voted that the report be accepted and the resignation referred to the Board of Managers of the Franklin Fund.

It was voted, on motion of Ald. Berwin, that the report as presented be printed as a public document.

WIDENING OF CHELSEA BRIDGE DRAW.

Ald. McDONALD offered an order—That the communication of His Honor the Mayor of Nov. 14, 1898, submitting an estimate of the City Engineer of the cost of widening Chelsea bridge draw opening at North Draw, from its present width of 45 feet to 75 feet, be taken from the files and referred to the Board of Estimate and Apportionment, and that said Board be requested to provide in the next loan the sum of \$70,000 as a special appropriation for said purpose.

Referred to the Committee on Public Improvements, on motion of Ald. Presho.

SOUTH BOSTON EMERGENCY HOSPITAL.

Ald. McDONALD offered an order—That the Board of Estimate and Apportionment be requested to provide in the loan bill a sufficient amount of money for an emergency hospital in South Boston.

Referred to the Board of Estimate and Apportionment.

PRECAUTIONS AT FREEMAN ST. CROSSING.

Ald. ADAMS offered an order—That the officials of the New York, New Haven & Hartford Railroad Co. be requested, through His Honor the Mayor, to provide a flag-man or an electric gong at the Freeman St. crossing in Wd. 20, to prevent a repetition of the many accidents which have occurred at that crossing during the past two or three years.

Passed.

BICYCLE PATH ADJOINING COMMON.

Ald. ADAMS offered an order—That the Board of Estimate and Apportionment be requested to provide a sufficient appropriation to enable the Superintendent of Streets to construct a bicycle path of asphalt on Tremont, Boylston and Charles Sts., adjoining Boston Common, for the use of the bicycle riding public; and that said Board of Estimate and Apportionment be requested to grant a hearing to representatives of those interested in this matter.

Passed.

CHRISTOPHER GIBSON PLAYGROUND

Ald. ADAMS offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation of \$30,000 to be used in accordance with the plans and estimates of the Park Department for the construction and improvement of the Christopher Gibson playground, Dorchester.

Passed.

ELECTRIC LIGHTS.

Ald. DIXON offered an order—That the Superintendent of Lamps be requested to erect electric lamps on Medford St., and at the corner of Hanover Ave. and North St., North End; and at the corner of Cowper and Wordsworth Sts., East Boston.

Passed.

CLOSING OF CURTIS ST.

Ald. DAY offered an order—That the Superintendent of Streets be authorized to close the roadway on Curtis St., between Chelsea and Pope Sts., East Boston, during the time necessary for sewer construction on said street.

Passed, under suspension of the rule.

ENGINE HOUSE, FOREST HILLS.

Chairman BARRY offered an order—That the Board of Estimate and Apportionment include in the next loan bill the sum of \$30,000 for an engine house and site, to be located at Forest Hills, Wd. 23.

Referred to the Board of Estimate and Apportionment.

FIXING UP STREETS IN WD. 9.

Chairman BARRY offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan bill a sum sufficient to pave or asphalt the following streets—Seneca, Oneida, Oswego, Genesee, Rochester, Troy.

Referred to the Board of Estimate and Apportionment.

WIDENING OF CHELSEA ST.

Ald. PRESHO offered an order—That the Board of Estimate and Apportionment be requested to appropriate a sufficient sum of money in the first loan bill to enable the Board of Street Commissioners to widen Chelsea St., Charlestown, from Prospect St., north.

Referred to the Board of Estimate and Apportionment.

RECESS TAKEN.

The Board voted at 3:32 P.M., on motion of Ald. Doyle, to take a recess, subject to the call of the Chair, and the members retired.

The Board reassembled in the Aldermanic Chamber at 5:42 P.M.

ELECTRIC WIRES.

Ald. DOYLE, for the Committee on Electric Wires, submitted the following:—

Reports on petitions of the New England Tel. & Tel. Co. of Mass. (severally referred today), for leave to erect poles in certain streets—recommending the passage of orders of notice for hearings thereon on Monday, Jan. 30, when any parties objecting thereto may appear and be heard.

Poles on Monadnock St., Wd. 16, and on Moultrie St., Wd. 20.

Poles on Hewlett and Hastings Sts., Wd. 23.

Reports severally accepted; orders of notice passed.

LICENSES.

Ald. PRESHO, in the absence of Ald. Colby, submitted for the Committee on Licenses reports recommending that licenses be granted on the following petitions (referred today):—

A. L. Griffin, Manager, for a permit for Baby Blanche and Gussie Hunt to appear at the Bowdoin Square Theatre for one week, beginning January 23, 1899.

Cyrus H. Stowell, for a license for polo playing, roller skates, in the Wo. 17 ward room, on Tuesday and Friday evenings, January, February and March.

Hazel Club, for a license for an athletic exhibition, including wrestling, at Music Hall, on the evening of February 25, 1899.

Reports accepted; licenses severally granted, the latter by a yea and nay vote of 10 in the affirmative and none in the negative.

PUBLIC IMPROVEMENTS.

Ald. O'TOOLE, for the Committee on Public Improvements, submitted the following:—

(1) Report on the petition of Holbrook, Cabot & Daly, (referred today), for leave to close a portion of Boston St., Wd. 16, temporarily—recommending the passage of the accompanying order:—

Ordered—That the Superintendent of Streets be authorized to issue a permit to Holbrook, Cabot & Daly to close the road-

way on Boston St., from Blake St., for about 300 feet, northerly, during the time necessary for building the Boston St. abutments for the City of Boston.

Report accepted, order passed.

(2) Report on the order, (recommitted today), appropriating \$10,000 for the Wire Department—that the order ought to pass.

Report accepted, said order approved by the Board. Sent down.

(3) Reports on petitions, referred today, recommending the passage of orders that the Superintendent of Streets be authorized to issue permits for work to be completed on or before July 1, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto, as follows:—

William Minot and another, trustees, to construct, maintain and use a coal vault, 40 ft. by 6 ft., with one coal hole opening not exceeding 18 inches in diameter, with an iron cover of rough upper surface under and in the sidewalk in front of estate Nos. 19, 21, 23 Beacon St., Wd. 6.

Stephen Brennan, to erect, maintain and use four guy posts with the necessary ropes attached in the following locations in Wd. 6, viz.:—

One at or near the corner of Merchants Row and North St.; 1 at or near 23 North St.; 2 in Creek Sq.; same to be placed in locations to be approved by the Superintendent of Streets.

Holbrook, Cabot & Daly, to erect, maintain and use guy posts, with ropes attached in the following locations, viz.:—

One in Dorchester Ave., 275 ft. from Blake St.; 1 in Blake St., 200 ft. from Boston St.; 1 in Boston St., 400 ft. from Blake St.; for use in constructing the Boston St. abutments for city of Boston.

M. Frankel, to construct, maintain and use a coal hole opening 14 inches in diameter, with an iron cover, in the sidewalk in front of estate 82 Windsor St., Wd. 18.

Charles E. Stratton and others, trustees, to construct, maintain and use a coal hole opening not exceeding 18 inches in diameter, with iron cover, in the sidewalk in front of estate No. 4 Post Office Sq.

McNeil Brothers, to erect, maintain and use three guy posts with ropes attached thereto, on the easterly side of Beacon St., between Somerset and Park Sts., Wd. 11.

J. J. and T. F. Mack, to stretch, maintain and use two guy ropes over and across Pinckney St., at or near No. 15, Wd. 11.

Reports accepted; orders severally passed.

(4) Report on the petition of C. S. Roberts (referred today)—recommending the passage of an order that the Superintendent of Streets be authorized to issue a permit to the petitioner to construct, maintain and use a coal hole opening, 18 inches in diameter, with iron cover, in the sidewalk in front of estate 15 Pinckney St., Wd. 11.

Report accepted; order passed.

(5) Reports (on petitions referred today), recommending the passage of orders that the Superintendent of Streets be authorized to issue permits to move a wooden building, on the terms and conditions expressed in the ordinances of the city relating thereto, as follows:—

The John Cavanagh & Son Building Moving Co., 1, Mansard roof, 38 ft. in length, by 27 ft. in width, by 32 ft. in height, from 14 Ashford St., along Ashford, Pratt and Wadsworth Sts., to 7 Wadsworth St., Wd. 25.

John Soley, 1, pitch roof, 30 ft. in length, by 20 ft. in width, by 16 ft. in height, from the corner of Brandon and Birch Sts., through and across Brandon St. to South St., south side, to lot next to the railroad bridge, Wd. 23.

Reports accepted: orders passed.

(6) Report on the order (referred today) that the communication of His Honor the Mayor of November 14, 1898, submitting an estimate of the City Engineer of the cost of widening Chelsea Bridge, draw-

opening at north draw be taken from the files and referred to the Board of Estimate and Apportionment, etc.—That the same ought to pass.

Report accepted, said order passed.

(7) Report on the order (referred today) requesting the Street Commissioners that the public ground bounded by Bunker Hill, Vine and Moulton Sts. be named and hereafter known as "Hayes Square," etc.—Recommending the passage of the same in the accompanying new draft:—

Ordered, That the public ground bounded by Bunker Hill, Vine and Moulton Sts., be named and hereafter known as "Hayes Square."

Report accepted, order in new draft passed. Sent down.

(8) Reports on petitions (referred today) for illuminated signs—recommending that leave be granted to the following petitioners:—

William J. Logan & Co., 40 Province St.

Thomas J. Shanney, 1 Green St.

John F. Ketterer & Co., 168 and 170 Canal St.

Reports accepted, leave granted on the usual conditions.

(9) Report on the petition of Louis Corensky (referred today) for leave to maintain a stand for the sale of small wares in City Hall Ave.—Recommending that the petitioner have leave to withdraw.

Report accepted.

DAMAGES TO WHEELWRIGHT ESTATE.

The Board of Aldermen, acting as County Commissioners, on the petition of John W. Wheelwright (referred today) that the Board estimate the damages to his estate caused by the change of grade of Washington and Motte Sts., on account of the extension of the Boston & Providence Railroad—recommending the passage of an order of notice that John W. Wheelwright, the petitioner, with the Boston & Providence Railroad Corporation be notified to appear before this Board on Monday, February 6, at 3 P.M., at which time the Board will proceed to estimate the damages, as prayed for by said petitioner, and will also take such other measures in the premises as are, by the laws of this Commonwealth provided in such cases.

Report accepted, order of notice passed.

RAILROADS.

Ald. DIXON, for the Committee on Railroads, submitted a report on the petition

of the West Roxbury & Roslindale St. Ry. Co. (referred today), for a location of tracks from South St., at Ashland St., through Ashland and Oakland Sts. and Blue Hill Ave. to the line of Milton; also on Washington St., southerly, to a point about 400 feet south of Ashland St., with the right to use the overhead trolley system thereon.

The report was accepted, and the question came on giving the order of notice a second reading.

Ald. CODMAN—Mr. Chairman, I would like to have that order of notice assigned for one week. It asks for locations in a section which I have the honor to represent, if I am correct. My reason for desiring to have the order of notice laid over is that I think the location has already been asked for last year by another company, and possibly it would be more advisable, for various reasons, to grant the location to that company. The Company will doubtless come in again to the new Board for the location; and I ask that this be laid over so that the other company may be given a chance to be heard first, if the matter has come over from last year's committee. By the next meeting I will be able to better inform the Board about it.

The order of notice was assigned to the next meeting of the Board.

GENERAL RECONSIDERATION.

On motion of Ald. Berwin, the Board refused a general reconsideration on all votes taken today.

UNIFORMING OF PARK DEPARTMENT MEN.

Ald. DIXON offered an order—That His Honor the Mayor request the Chairman of the Park Commissioners and the Superintendent of the Park Department to appear before the Board of Aldermen on Monday next, January 30, 1899, at four o'clock P.M., to confer relative to uniforming the men, and that no further steps be taken by the Commissioners in regard to uniforming the men until after this conference.

Passed.

COMMITTEE ON RULES, ETC.

The Chairman announced, as the Aldermanic representation on the Joint Committee on Rules and Orders, Ald. O'Toole, Co. by, McDonald, Barry and Presho.

Adjourned, on motion of Ald. Berwin, at 6 P.M., to meet on Monday, Jan. 30, at 3 P.M.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be clearly documented and supported by appropriate evidence. This includes receipts, invoices, and other relevant documents that can be used to verify the information recorded.

In addition, the document highlights the need for regular audits and reviews. By conducting these checks frequently, any discrepancies or errors can be identified and corrected promptly. This helps to ensure the integrity and accuracy of the financial data throughout the entire process.

Furthermore, it is stressed that transparency is a key principle in financial reporting. All stakeholders should have access to the necessary information to understand the organization's financial health and performance. This involves providing clear and concise reports that are easy to interpret and understand.

Finally, the document concludes by reiterating the importance of honesty and ethical behavior in all financial dealings. It encourages individuals to act with integrity and to always follow the highest standards of professional conduct. This not only builds trust but also contributes to the long-term success and sustainability of the organization.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, Jan. 26, 1899.
Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7.45 o'clock, P.M. President Kiley presiding and a quorum present.

RECONSTRUCTION OF FANEULL HALL.

The following was received:
Mayor's Office, City Hall,
Boston, Jan. 26, 1899.

To the City Council:—

I respectfully transmit, under the provisions of Chapter 434 of the Acts of 1898, the accompanying order passed by the Board of Estimate and Apportionment, under said Act, on January 24th.

Respectfully,
Josiah Quincy, Mayor.

January 24, 1899.

To the Board of Estimate and Apportionment:

I request the passage of the accompanying loan order appropriating twenty-three thousand dollars (\$23,000) for finishing the reconstruction of Faneull Hall.

Respectfully yours,
Josiah Quincy, Mayor.

In Board of Estimate and Apportionment,
City of Boston,
Jan. 24, 1899.

Ordered, That the sum of twenty-three thousand dollars (\$23,000) be appropriated, to be expended by the Engineering Department to meet the expense of the electric lighting, plumbing, painting and plastering work on Faneull Hall, and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

In connection with the above the following were sent to the City Council for its information:

Mayor's Office,
City of Boston,
Jan. 24, 1899.

To the Board of Estimate and Apportionment:—

I herewith submit communications received from the Chiefs of the Electrical Construction and Architect Divisions requesting loan appropriations of eight thousand dollars (\$8000) for electric lighting work on Faneull Hall, five thousand dollars (\$5000) for heating purposes, three thousand dollars (\$3000) for plumbing work and seven thousand dollars (\$7000) for painting and plastering.

Respectfully submitted,

Josiah Quincy, Mayor.
Electrical Construction Division,
No. 11 Warcham St., Boston,

Jan. 24, 1899.

Hon. Josiah Quincy, Mayor of Boston:

Dear Sir—I desire to call attention to the fact that there is no provision for re-wiring Faneull Hall in connection with the work of reconstruction now in progress, and I am informed that the builders have reached a point in their work where it is desirable to have the work of wiring proceeded with. I therefore desire to ask

whether a loan cannot be appropriated at once for this purpose.

Yours respectfully, H. F. Cottle,
Chief of the Electrical Construction Division.

City of Boston, Engineering Department,
Architectural Division,

Jan. 25, 1899.

Hon. Josiah Quincy, Mayor of Boston:

Dear Sir—As regards the reconstruction work now in progress at Faneull Hall, I would say that an additional appropriation of \$15,000, divided as follows, will be needed to properly complete the building:—

| | |
|--------------------------------|---------|
| Heating apparatus..... | \$5,000 |
| Plumbing | 3,000 |
| Painting, plastering, etc..... | 7,000 |

\$15,000

The original appropriation was but \$80,000. When the advertised bids were opened Woodbury & Leighton were found to be the lowest and the contract was awarded to them for the sum of \$78,500. This contract does not include the heating apparatus or plumbing work.

In order to allow us to go ahead with the work and to give us a leeway on the appropriation, the sum for painting, plastering, etc., on the building, which would be the last work done, was temporarily deducted from their contract. This amounted to \$7000. Respectfully,

F. W. Chandler, Consulting Architect.
Assigned to the next meeting, on motion of Mr. Chamberlain of Wd. 12.

PAPERS FROM BOARD OF ALDERMEN

1. Notice of appointment of Aldermen O'Toole, Colby, McDonald, Barry and Presho, on Committee on Joint Rules and orders.

Placed on file.

2. The following order comes down passed as a substitute for the one on the same subject passed by this Council on January 19:

Ordered, That the public ground bounded by Bunker Hill, Vine and Moulton Sts., be named and hereafter known as "Hayes Square."

Substitute order passed in concurrence.

3. Ordered, That the Board of Estimate and Apportionment be requested to provide an appropriation of thirty thousand (\$30,000) dollars, to be used in accordance with the plans and estimates of the Park Department, for the construction and improvement of the Christopher Gibson playground, Dorchester.

Passed in concurrence.

Ordered, That the Board of Estimate and Apportionment be requested to provide a sufficient appropriation, to enable the Superintendent of Streets to construct a bicycle path of asphalt on Tremont, Boylston and Charles streets, adjoining Boston Common, for the use of the bicycle-riding public; and that said Board of Estimate and Apportionment be requested to grant a hearing to representatives of those interested in this matter.

Mr. WATSON of Wd. 18.—Mr. President, I move that the order be assigned for one week.

Mr. HIBBARD of Wd. 24.—Mr. President, I hope the order will not be assigned, unless the gentleman gives some reason for it.

Mr. WATSON—Mr. President, my purpose in asking to have it assigned is because I wish to ascertain whether or not the same will affect my district in any way. Some of my constituents ride bicycles, and I want to see whether they are in favor of the order or not I have not ascertained as yet. I ask for a delay of one week only.

Mr. PECK of Wd. 12.—Mr. President, both as a wheelman and as an ex-official of an organization which is supposed to favor such measures, I trust that no difficulties will be put in the way of the passage of this measure. Such of you as attended the hearing held in this council chamber last

year will recollect that the wheelmen agitated something in this line very strongly. At first Mayor Quincy offered a suggestion that a bicycle path be put across the Common, and that was supported by the wheelmen. But, owing to the patriotic sentiment which existed, that legislation was lost. This proposition partakes of the nature of a substitute for that. I will say, having listened to a great many of the arguments advanced here last year, and having a personal acquaintance with the parties making them, that I know this plan will be greatly appreciated by the wheelmen throughout the city and the suburbs. The time has arrived now when the bicycle has passed beyond the stage of a luxury, and is used in conjunction with business in many ways, and a great many employees of prominent mercantile houses, living in the suburbs, have adopted the bicycle as their means of conveyance to and from their places of business. It very frequently happens that Beacon Hill is in such a dangerous and slippery condition that those who are not skilled wheelmen find difficulty in ascending it and hesitate to come into the city in that way; whereas Tremont St., if dry, of course, is very acceptable; but very frequently it is covered with a sort of slimy mud, which makes it a dangerous undertaking for a bicyclist to attempt to ride upon its surface. I hope the measure will be heartily favored and carried through to a successful issue.

Mr. WATSON—Mr. President, I hope to be allowed to withdraw my motion.

The PRESIDENT—No objection being made, the motion will be considered withdrawn. The question is on giving the order a second reading.

Mr. KLEMM of Wd. 21—Mr. President, this order does not go far enough, in my estimation, but it will do as an entering wedge in directing attention to the fact that there are thousands of people in the city using wheels and that their rights and their reasonable needs should at last be recognized in the management of the streets. The proposition to asphalt a portion of the street does not appeal particularly to me. Far better would it be to have those streets mentioned put in good condition for wheeling and to make it a point to have them kept in that condition. The asphalt part of the street would in all probability be occupied by teams just as much as the rest of the street, and, by reason of the extent of street watering in summer, it might prove to be very treacherous ground to wheel upon. If anything is done for the wheelmen, I think this question of excessive street watering should be first considered. The views of his Honor the Mayor on physical exercise and development and the part the city should take in its aid and encouragement, are sufficiently known, and in a speech at a recent dinner of the League of American Wheelmen he took occasion to emphasize the friendly interest he felt in the organization and its aims and purposes. But I am not aware that anything has ever been done in the streets for the accommodation of the wheelmen. I gave the Superintendent of Streets an opportunity last year, when I introduced an order recommending a more careful sprinkling of the streets in the interest of the wheelmen, but I have seen no evidence that any notice whatever was taken of it. To cite an example: Massachusetts Ave., in the heart of the city, known to be one of the favorite thoroughfares for the use of wheelmen, is invaded at an early hour in the morning by the watering carts, converting it from curb to curb, one side, the asphalted portion, into a glassy surface, the other side, into a mudbed; and the unlucky bicyclist, unless he wants to walk, is left to choose between these two evils. Now, a progressive administration, will recognize that, since the advent of the wheel a new element has come into the streets, and the conditions now are

far different from what they used to be. We ought to adapt ourselves to the conditions. I think that a great many other cities are far ahead of us in this respect. In Providence I believe the watering of the street, down to the very size of the perforations in the sprinkler, is exactly regulated by law, just for the benefit of the wheeling public. I think we might well imitate this and make a start, by keeping the streets in good condition. I again recommend this to the attention of the Superintendent of Streets as a matter which has too long been neglected.

The order was read a second time and passed in concurrence.

5. Mayor's message relative to destroying buildings of the old Small Pox Hospital, and recommending the passage of the following order:—

Ordered, That the Insane Hospital Trustees be and hereby are authorized to destroy the old Small Pox Hospital buildings, the Board of Health being of the opinion that it would be unsafe to use them, on account of the possibilities of infection.

The communication was placed on file, and the question came on giving the order a second reading.

Mr. ROEMER of Wd. 22—Mr. President, I wish to state that I believe this building has been destroyed. I don't see any use of passing this order here. I saw that building burned yesterday, saw the fire, and there is no question that it is burned down.

Mr. HARVEY of Wd. 24—Mr. President, in view of the fact that the building is already burned to the ground, I move the indefinite postponement of the order.

The order was indefinitely postponed. Notice sent up.

6. Mayor's message transmitting the following order passed by the Board of Estimate and Apportionment, January 12, the same coming down without any alteration, viz:—

Ordered, That the sum of ten thousand (10,000) dollars be appropriated to pay the expenses incurred in carrying on the work of the Wire Department, other than the work authorized by chapter 454 of the Acts of 1894 and acts in amendment or addition thereto, the same to be met out of the income and taxes received by the city during the financial year 1899-1900.

The question came on giving the order a second reading.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I move you, sir, that the order be assigned for one week.

Mr. MULCAHY of Wd. 14—Mr. President, it rather surprises me to see the gentleman on my right rise once more to move the assignment of this order. At the last meeting, a week ago tonight, he did the same thing. He desired some information in reference to the order at that time. He has had a week to receive it. The information he desires now is another assignment.

Mr. President, I hope the members of this body will take the matter into consideration, and that they will also consider that the Boston papers tonight have stated that ten or eleven hundred men are now out of work for want of money. If it is a question for each individual department of the city of Boston to be put on the same basis, then this Council is responsible for such action if it assigns it tonight. This matter has been on the calendar for three weeks. It is a matter which refers to a department established some time ago, which has been a benefit to the city of Boston, and been beneficial to the citizens of Boston. It is merely asking for a small amount of money to carry on this work—\$10,000—and I see no reason why the members of this body should not pass it tonight. I hope that the members of this body will consider this matter tonight and that they will not have it assigned.

Mr. CHAMBERLAIN—Mr. President, I

will have to call the attention of my friend from Wd. 14 to the fact that it was not No. 6 that I asked for an assignment on, but to No. 9. The two orders are entirely different. This, to my knowledge, is the first time this order has appeared on this calendar, and following out the rule, which I think I was very explicit to state at the last meeting, I shall move to assign any order which has for its object the appropriation of money. Following out that rule I now ask for the assignment of this order for one week.

The PRESIDENT—If the Council will pardon me a moment, I desire to make a statement, as the representative of the Common Council on the Board of Estimate and Apportionment. This is an order for \$10,000 for the wire department, in advance of the annual appropriation order making provision for the current expenses of that department. The annual estimates have been submitted to the Board of Estimate and Apportionment, and as the Wire Commissioner came before the board and said that this department was urgently in need of this money, and that if it were not granted the employees would have to wait for their salaries, the Board of Estimate and Apportionment voted to give him \$10,000 in anticipation of the regular tax levy, that amount to be deducted from his future appropriation. The Chair desires to make that statement, as he feels he is in duty bound to do so, as the representative of the Common Council upon the Board of Estimate and Apportionment. The question now is on assignment of the order to the next meeting.

Mr. LEFTOVITH of Wd. 8—Mr. President, we have got some information from the President being a member of the Board of Apportionment. As I can see here this evening that this will affect the laboring man, I do not care who will not vote for it, I am one who will never block the progress of the laboring man. I shall never stand up in this hall, after being elected from a section of the city where almost every man is a laboring man, and vote against his interests.

I say that it would be a shame for me this evening to vote against this order. We may all say that we have enough to eat and drink, but when you discharge a laboring man who is only getting \$12 a week, and who, when you come to average his pay throughout the year, don't get more than \$8 a week, because there are days that he cannot work, and sometimes they fall short in their appropriations and he is laid off for three months—that, I say, is something we should not do. I want to know where there is any man here who, with a good conscience, can come forward and say he will not vote for the passage of this order this evening. I know that some men are successful in business and that they might feel disposed to oppose it; but I feel that I have to work pretty hard for a living, and I know that it comes hard for my neighbors, and I feel that we ought to vote for this order this evening. I say that it would be a wrong and unjust for any member of this Council this evening to vote this order down, because we will be coming forward at the next election, and if we did such a thing we would probably either lie or crawl over the fence and tell them that we didn't understand the question. We would tell them that we didn't know what it meant, and we would tell them all such stories. We would hire hails and explain it and try to carry the crowd. But I tell you that the time will come when the laboring man will get educated, and when he will come forward and run for office, and he will leave you at home, and that time will come very soon. I think, therefore, that we should pass this order this evening, and give the laboring men a chance to keep at work. We come here every night and are always ready to vote for improvements for bicyclists, to raise salaries of high officials, and to do everything, but we are never

ready to assist the laboring man in any measure that will enable him to make a living, I hope, therefore, that each and every member will vote for the passage of this order.

Mr. NANGLE—Mr. President, after listening to the able argument of the gentleman from Wd. 8, I think it satisfies all the members that this is an order that ought to pass. I won't enter into any lengthy argument, but I desire simply to move the previous question, without any desire at all to shut off any necessary debate.

The question came on ordering the main question.

Mr. MULCAHY—Mr. President, I simply desire to say that I was in error in the argument that I offered. I do not desire to take up any of the time of the Council, but I wish to state that I had reference to No. 9, but I would state that I offer the same argument upon the present order which is under consideration. I think that if the gentleman who moved the previous question had waited two or three minutes, our genial friend on my right would have settled the difficulty here tonight.

Mr. CHAMBERLAIN—Mr. President, inasmuch as the president has explained the order to my personal satisfaction, I will ask permission to withdraw the motion to assign.

The PRESIDENT—The Chair will state that the motion for the previous question cuts off the motion to assign.

The motion for the previous question was put, the main question was ordered, the order was read a second time, and was passed in concurrence.

DISCONTINUANCE OF HORSE STREET SWEEPERS.

The Council proceeded to take up No. 7, assignment, viz:

7. Communication from George W. Galvin, M.D., Surgeon-in-chief, Boston Emergency Hospital, relative to discontinuance of use of horse-power street-sweepers in business and residential sections of city and substitution of men-sweepers therefor. (City Doc. 47.)

Referred to His Honor the Mayor.

RELEASE OF WATER PIPE RIGHTS.

The Council proceeded to take up No. 8, assignment, viz:

8. Ordered, That His Honor the Mayor be and he is hereby authorized, in the name and behalf of the city, to enter into an agreement with the Commonwealth of Massachusetts, whereby the city shall release the right to maintain its water pipes in E St., South Boston, as heretofore located, from Fargo St., to Summer St., and any other rights which it may have in said portion of the E St., as heretofore located, in consideration that the said Commonwealth shall fill to the grade of sixteen feet above mean low water a proposed extension of said E St., from Fargo St., to Summer St., as shown on a plan of said proposed extension, dated December 28, 1898, signed by Frank W. Hodgdon, Engineer Harbor and Land Commissioners, and hereto attached; shall grant to the city the right to lay and maintain its water pipes in said proposed extension of E St., as shown on said plan, and shall pay to the city the reasonable cost of removing said water pipes from their present location, and relaying them in the new location to be provided as aforesaid.

On motion of Mr. Lydon, of Wd. 13, the reading of the order was dispensed with. Passed in concurrence.

APPROPRIATION FOR WIRE DEPT.

The Council proceeded to take up No. 9, assignment, viz:—

9. Ordered, That the sum of twenty thousand (20,000) dollars be appropriated to be expended by the Wire Department in carrying out the provisions of chapter 451 of the Acts of 1894, and Acts in amendment

or addition thereto, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The question came on the passage of the order in concurrence with the Board of Aldermen and the Board of Estimate and Apportionment.

The PRESIDENT—If the Council will pardon the Chair a moment, the Chair desires to make a statement in connection with this order. There are two characters of work performed, as the Chair understands from the statement of the Wire Commissioner to the Board of Estimate and Apportionment, by the wire department, namely, what is known as the outside work, consisting chiefly of the burying of wires, or work which it is compelled to do by the statute which created the Wire Commissioner's office—the statute of 1894. This appropriation is intended to cover that outside work. The other \$10,000 which was passed by the Board of Estimate and Apportionment, and which also appeared on our calendar, and which has been passed tonight, provides for inside work, or interior wire inspection, which is considered a current expense. That is the distinction drawn between the two orders, and the Chair offers that as an explanation of the two orders. Both will be charged up to the future appropriation for the Wire Department for the coming financial year.

Mr. CHAMBERLAIN—Mr. President, since the last meeting I have become convinced that the order is a just one, and that it is to provide money for a permanent improvement. I think it is all right and that it should be passed. I wish, at the same time, however, to make myself perfectly clear in this respect, that from this time on I shall be personally opposed to any order involving the appropriation of money, whether it comes from the Board of Estimate and Apportionment, from His Honor the Mayor, or from the office of the head of any department, which does not in some general way outline when, how and where the money shall be spent. I do not mean that I consider it necessary to go into minute details and say how many feet of wire are to be laid, or anything of that kind; but I do wish to know what the money is to be spent for, how it is to be spent, and where it is to be spent, and I think the Council ought to know the details of an order appropriating money when it is presented.

The order was passed in concurrence with the Board of Aldermen and the Board of Apportionment.

THEATRE LICENSES.

The Council proceeded to take up No. 10, assignment, viz:—

10. That the Board of Aldermen be requested to amend the Revised Regulations of 1898, so that section 2 of chapter 3 of said regulations shall read as follows: "Every licensee, before he receives any license for a theatrical exhibition, public show, public amusement, or other performance or exhibition of any description to which admission is obtained by payment of money or the delivery of any valuable thing, shall pay to the City Clerk for such license covering performances or exhibitions, for one day, one (1) dollar; for a time exceeding one day and not exceeding six, five (5) dollars; for a term exceeding six and not exceeding twelve days, twenty-five (25) dollars; provided, however, that for a license for any athletic entertainment the licensee shall pay ten (10) dollars, and for a license for a theatrical season, or for any circus, he shall pay three hundred (300) dollars, and shall cause facilities for entering and inspecting his place of amusement and viewing the exhibition or performances therein to be furnished at all times to any member of the City Council applying therefor.

The question came on giving the order a second reading.

Mr. HARVEY, Wd. 24—Mr. President, in view of the fact that the gentleman who introduced this order is not present tonight, I would move the reading of the order be dispensed with, and that it be assigned to the next meeting.

The motion was carried.

MEMBERS PRESENT.

The Clerk, by direction of the President, called the roll to ascertain the number of members present, with the following result:—

Present—Armistead, Atwood, Badaracco, Bagley, Battis, Bordman, Brauer, Brennan, Broderick, Carroll, Chamberlain, Collins, Connolly, Cuddy, Curley, Doherty, Donahoe, Donovan, Doyle, Emery, Fenton, Flynn, Gibbons, Gibling, Harvey, Hibbard, Hickey, Horrigan, Howard, Johnson, Jordan, Kasanof, Kelley, Kiley, Klemm, Leftovith, Linehan, Logan, Lorey, Lydon, MacDonald, Madden, Mansfield, Martin, McInerney, Mildram, Miller, Moore, Mulcahy, Nangle, Newhall, Peck, Rice, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Tobin, Turnbull, Walker, Watson, Wells, Winsloe, Wood—68.

Absent—Bennett, Bradley, Casey, Eddy, Leonard, O'Brien, Sullivan—7.

DISCHARGED AND SUSPENDED EMPLOYEES.

The PRESIDENT submitted the following:—

Jan. 26, 1899.

The committee of the Common Council appointed to inquire into the causes of the discharge and suspension of city employees during the four months ending Jan. 31, 1899, submits that pursuant to the order and authority of this body, it has summoned before your committee numerous discharged and suspended employees as well as heads of departments and divisions under whose immediate direction and supervision they were engaged. To such summons many discharged employees responded but no department or division heads, as these latter had been ordered by His Honor the Mayor to disregard the summons of your committee, presumably upon the ground that their testimony might involve their superior and tend to degrade and incriminate themselves.

Two public hearings were held and much testimony given—a verbatim copy of which is hereto annexed. The evidence, as a whole, leads your committee to believe that a gross and cowardly interference with the constitutional and statutory rights of many respectable citizens hitherto competent servants of the city has been attempted and that many ex-employees heard by your committee were discharged from the city employ because they sought to exercise political liberty and declined to submit to political coercion;—and that these discharges and suspensions were made in violation of law.

We recommend that a copy of this Report and evidence be forwarded to the District-Attorney for Suffolk County and that he be requested to lay the matter before the Grand Jury sitting for this County;—and further,

We recommend the adoption of the accompanying order. For the Committee.

Daniel J. Kiley, Chairman.

Mr. Connolly of the Committee. Dissents.

Ordered, That the Chairman of the Committee appointed to investigate the causes for the discharge and suspension of city employees be directed to present a copy of this Report and evidence to the District Attorney for Suffolk County and that he be requested to lay the same before the Grand Jury for said County at its next sitting.

Mr. CONNOLLY, of Wd. 17, offered the following and moved that it be substituted for the majority report.

Boston, Jan. 26, 1899.

The undersigned, a member of the special committee of the Common Council, appointed to investigate the causes of the discharge or suspension of city employees during the months of October, November and December, 1898, and January, 1899, hereby dissents from the findings of the majority of the said committee, and submits the following minority report:—

The Common Council had no powers conferred upon it by the charter of the city of Boston, or by the statutes of the commonwealth, to make an investigation of these discharges or suspensions, inasmuch as under the charter all officers and boards are appointed by the Mayor of the city, and they have the power to remove their subordinates for such cause as they may deem sufficient. The power to discharge a subordinate is an executive one, and under the said charter all executive powers are vested in the Mayor of the city, to be exercised through the several officers and boards of the city in their respective departments, under his general supervision, and they are responsible only to him. The Common Council has no power whatever over the employees of the city of Boston, and it is expressly prohibited by law from taking part directly or indirectly in the employment of labor. This hearing before your committee was an ex parte one, as only employees who were discharged, and the son of one of them, who is a member of the Common Council, testified. The heads of departments who caused discharges or suspensions did not testify, for the evident reason that your committee had no right to investigate any discharges or suspensions made by them. I have no desire to enter into the motives of the committee in thus attempting to perform services beyond their powers other than to say that the attempt to make political capital out of the investigation is apparent to all who followed the hearings, nor have I any desire to comment upon the character or the testimony of the witnesses who lost their places, other than to say that if the last witness, John McLaughlin, the former superintendent of pedlers is a fair sample of the discharged employees, then I believe that the city did not get rid of them any too soon. I here quote from the sworn testimony of Mr. McLaughlin, as given before your committee:

The Chairman—Is Mr. McLaughlin present?

(Mr. McLaughlin stepped forward.)
Q. (By the Chairman, Daniel J. Kiley). Mr. McLaughlin, you have been sworn, haven't you?

A. Yes, sir.
Q. Your full name?
A. John McLaughlin.
Q. Where do you reside, Mr. McLaughlin?

A. No. 31 Trenton Street.
Q. What ward is that in?
A. That is in Ward one.

Q. Ward one, East Boston?
A. Ward one, East Boston; yes, sir.
Q. Do you vote in East Boston?
A. I do not; I vote in Ward six.

Q. How long have you voted in Ward six?

A. I have voted in Ward six since I have been a voter—seventeen years.

Q. Formerly resided in Ward six?
A. Always lived in Ward six.
Q. How many years have you lived in Ward six?

A. Since I was born.
Q. Born in Ward six?
A. Yes, sir.

Q. How long have you lived in East Boston?
A. I have lived in East Boston close on to two years.

Q. Are you married, Mr. McLaughlin?
A. Yes, sir.
Q. What does your family consist of?
A. My wife and seven children.

But I will quote no further. A married man with a wife and seven children who

has lived in East Boston for two years, and who causes himself to be assessed and registered, and then casts his ballot in another section of the city is daring enough to give the testimony required of him by his Wd. 8 political mentors. In conclusion I would say that, from what I have been able to learn of the discharges or suspensions, that an investigation by any tribunal, having power to act, will show that the removals were made for the good, and, I believe, for the purity of the public service.

Timothy L. Connolly, Wd. 17.

The PRESIDENT—The question is on the substitution of the minority report for that of the majority.

MR. CONNOLLY of Wd. 17—Mr. President, I hope the minority report will be accepted. In the first place, we have no authority to go into such an investigation as has taken place under the direction of this body. I will submit for information a reference to chapter 266 of the Acts of the year 1885, entitled "An Act to amend the charter of the city of Boston." Sections 5 and 6 show the executive power of the Mayor and various heads of departments, showing that the Common Council has no right and no power to enter into such an investigation. Section 12 of that chapter directly prohibits the City Council from taking part in the employment, directly or indirectly, of employees of the city. Now, gentlemen, that shows that we have no right to go into such an investigation. If we desire to go into such an investigation we should go to the Legislature and get the right to do so. Further than that, you make a recommendation that we go to the grand jury, with the evidence submitted by the committee. If we should go to the grand jury, and go there as honorable men, what would you think of a witness before the grand jury who has lived in East Boston for two years, has a wife and seven children, and has himself assessed in Wd. 6? Gentlemen, it seems to me that man has clearly violated the laws of the Commonwealth. Does that man, a man who has violated the statutes of this Commonwealth, ask you to go to the grand jury and ask you that the heads of departments be indicted for discharging him, as he claims for political reasons?—which I question. I believe that if we do go before the grand jury it will be shown clearly why these men were discharged. We have heard one side of the evidence, but we did not hear the other side. We heard the gentleman who were discharged. I ask the committee why they did not go all through the city, throughout the entire year, and summon all men who were discharged from the city employ as witnesses? Why not do that, instead of going down to Wds. 6 and 8 and examining nine or ten men from that section of the city?

If we go into this matter, let us go before the Legislature and ask that all men employed by the city of Boston and discharged through the entire year be summoned before such a committee—not taking one or two wards into consideration for a few months in the year. It shows clearly the political feeling, the party feeling, that there is in Wds. 6 and 8 in regard to this matter. It is clearly not for the good of the city of Boston that this investigation should go on, but if you accept the majority report, and it does go on, I believe the grand jury will act, and I believe there is a clear case there for the grand jury to act upon the case of a man who has lived in East Boston for two years, and who is assessed in another ward, according to his own statement. Here is his testimony:—

Q. Your full name?—A. John McLaughlin—

And Mr. Kiley, the President of this Council, asks this gentleman these questions. They were not asked by me. The President asked them himself, and had the full right to ask them. You might

think it was some trick of mine, if I had asked the man these questions. But the questions were asked by Mr. Kiley, and you must understand that Mr. McLaughlin has been a prosecutor in his position of superintendent of pedlars of the city of Boston, that he has prosecuted 415 cases, as he stated at the hearing, and he understands testimony. He would not make a slip of the tongue; he would not be apt to make a mistake of that kind. If the man was not used to appearing before an investigating committee or a court, he might possibly make an error. But I cannot see the possibility of a mistake in this case. The questions asked were clear, and the answers were very clear:—

Q. Your full name?

A. John McLaughlin.

Q. Where do you reside, Mr. McLaughlin?

A. No. 31 Trenton St.

Q. What ward is that in?

A. That is in Wd. 1.

Q. Wd. 1, East Boston?

A. Wd. 1, East Boston, yes, sir.

Q. Do you vote in East Boston?

A. I do not; I vote in Wd. 6.

Q. How long have you voted in Wd. 6.

A. I have voted in Wd. 6 since I have been a voter—17 years.

Q. Formerly resided in Wd. 6?

A. Always lived in Wd. 6.

Q. How many years have you lived in Wd. 6?

A. Since I was born.

Q. Born in Wd. 6?

A. Yes, sir.

Q. How long have you lived in East Boston?

A. I have lived in East Boston close on to two years.

Q. Are you married, Mr. McLaughlin?

A. Yes, sir.

Q. What does your family consist of?

A. My wife and seven children.

Now, gentlemen, if you desire to accept the report of the majority of the committee and wish to go to the grand jury, go there on facts, substantiated by witnesses who do not contradict themselves, and then you may be able to make out a case. But if you go to the grand jury with the evidence of witnesses who contradict themselves, you make fools of yourselves. I believe we should act as sensible men and not go to the grand jury, and make fools of ourselves in connection with a matter with which we have properly nothing to do under the statutes. I hope such action will not be taken.

Mr. WATSON of Wd. 18—Mr. President, I sincerely trust that the substitute order will not prevail, but will be voted down here tonight. The substitute order, in the first place, is the first word we have heard from His Honor relative to this investigation. (Laughter)

The PRESIDENT—The Chair will ask the Council to maintain order.

Mr. WATSON—The Mayor and his subordinates refuse absolutely—

Mr. HICKEY of Wd. 2—Mr. President—

The PRESIDENT—Does the gentleman rise to a point of order?

Mr. HICKEY—Mr. President, I will rise to a point of order when I am recognized.

The PRESIDENT—Mr. Hickey of Wd. 2 will state his point of order.

Mr. HICKEY—Mr. President, my point of order is that the gentleman started off by attacking the Mayor, and I certainly feel that he should be reprimanded by the Chair instead of the Chair calling the Council to order.

The PRESIDENT—The Chair will rule the point of order not well taken, inasmuch as he believes the gentleman has not attacked anybody so far.

Mr. WATSON—Mr. President, for the benefit of the gentleman from Wd. 2 (Mr. Hickey) I wish to say that, in order to speak against substitution, I have to speak against His Honor. I feel in my heart, although I have not proof, that

that substitute order came direct from the Mayor's office, and I will not hesitate one moment in saying so. In the first place, the Councilman from Wd. 17 (Mr. Connolly) says we are making fools of ourselves, that we haven't any right in the premises, that the law is against us, and all that stuff. Why has he gone as far as he has, sitting on that committee and asking the idiotic question, "Do you know what the Burrage Ordinance is?" That was his stereotyped question—"Do you know what the Burrage Ordinance is?" That is all the attention he paid to the investigation. He probably knows what the Burrage Ordinance is now. If he had known it before, he never would have asked those questions. I think, as long as we have gone as far as we have in appointing this committee and delegating to them our powers, whatever they may be, that we ought to go further. I am thoroughly satisfied that the evidence obtained by that committee in this chamber is sufficient to indict anybody responsible for the position of affairs brought forth, under the civil service laws; and I assure you, members of the Council, that I know as much about the law as the gentleman from Wd. 17 (Mr. Connolly), however little that is.

Mr. CONNOLLY of Wd. 17—Mr. President, I desire to ask the gentleman from Wd. 18 (Mr. Watson) a question.

Mr. WATSON—Mr. President, under the rules of the Council, I have the floor until I am through, and I refuse to answer any questions.

Mr. CONNOLLY—All I want to know, Mr. President, is if he is giving facts or giving the Council a "jolly?"

Mr. WATSON—Mr. President, the gentleman from Wd. 17 has attempted to be humorous, but he cannot make me laugh. I want to say, in all sincerity, as long as this committee has come in and made a report, that it should be adopted and no substitute should be considered, just because one member thinks it should be. Mr. President, the whole thing is politics from start to finish. I say, as long as we have started out to investigate, let us go the limit. We have more power than we imagine we have. I sincerely hope the substitute order will not prevail.

Mr. NANGLE of Wd. 19 in the chair.

Mr. KILEY of Wd. 8—Mr. President, when I reported the findings of the special committee appointed on the authority of this Council, and when I submitted the report of that committee here tonight, I did not think that any member of the Council would have the temerity or the audacity to say that we had no right to investigate or inquire into the conduct of any municipal department of the city of Boston. We are not only inquiring into the conduct of certain departments of the city of Boston, but we are inquiring further, Mr. President, to determine whether or not those official heads under the supervision of and appointed by his Honor the Mayor have committed criminal acts, contrary to the laws of the Commonwealth of Massachusetts. If they have, the matter should properly be brought to the attention of the grand jury by the district attorney.

The committee appointed by this body, through its President, gave fair and ample opportunity to His Honor the Mayor and to the heads of the several departments appointed by him to be heard in evidence before the committee, in public hearings. They did not come forward. The men who have been discharged came forward and offered their testimony, and upon the evidence submitted to that committee we made our findings, and also our report to this body. Now, in opening the remarks that I have to make to the Council tonight, I desire to quote the law bearing upon this question, and in so doing I will first read from the Massachusetts Civil Service Law, which must insure to all employees of the city of Boston the protec-

tion which should be justly afforded to those working under the provisions of the law. Section 10 of the civil service law is as follows:—

"No person in the service of the State, or any city thereof, shall use his official authority or influence either to coerce the political action of any person or body, or to interfere with any election."

I also ask you to listen to me while I refer to section 24 of the same act:—

"Whoever, after a rule has been duly established and published according to the provisions of this act, makes an appointment to office or selects a person for employment contrary to the provisions of such rule, or wilfully refuses or neglects otherwise to comply with or conform to the provisions of this act, or violates any of such provisions, shall be liable to a penalty of not less than one hundred dollars or not more than one thousand dollars for each offence."

Now, let me read to you section 410 of chapter 548 of the Acts of 1898, which is as follows:—

"Whoever, by threatening to discharge a person from his employment or to reduce his wages, or by promising to give him employment at higher wages, attempts to influence a voter to give or to withhold his vote at an election, or whoever, because of the giving or withholding of a vote at an election, discharges a person from his employment or reduces his wages, shall be punished by imprisonment in jail not exceeding one year."

There is the law. Fellow members of the Council, as one of the legislative branches of this city government, have we not the right to inquire whether or not department heads have violated not only the laws of the civil service but the general laws of the Commonwealth of Massachusetts? If they have done so have they a right under existing laws to hold office? Have we not a right to call the attention of the grand jury of this county to such violations, if there are such? I maintain that the statements contained in the substitute report of the gentleman from Wd. 17 (Mr. Connolly) are not only foolish, but ridiculous in the extreme. He challenges the right of the Common Council to investigate into this, which we maintain is a proper subject for investigation, a subject which not only affects the constitutional and statutory rights of every individual in the Commonwealth, but more particularly those who are in the public service. These are acts which we maintain threaten the political liberty and the constitutional right of the citizen of this Commonwealth, that greatest of all privileges of any citizen of this free country, to exercise the right of franchise without any coercion from political bosses or department heads. The gentleman bases his entire minority report upon the statement of an honest gentleman who appeared before that committee as a witness, and I ask any member of the committee if they ever heard a more honest or more intelligent witness in their lives? He says that that witness has violated the laws of the Commonwealth by living in East Boston and voting in Wd. 6. Let me ask him where the Congressman from the Ninth Congressional District is assessed from and where he resides (laughter)—that man who procured the discharge of an honest workman in the city of Boston, who has seven children to support? And this member has the temerity to come in here tonight and question the right of that witness to vote in Wd. 6, and at the same time defends the action of another man who is responsible for his discharge.

Fellow members of the Council, I think you will agree with me when I say that the minority report is a ridiculous report and should receive the treatment that it deserves at the hands of this body. I hope that every member of this Council will stamp with his disapproval the acts of the heads of these departments, sponsored by the Chief Executive, in coercing employes

of this city and taking away their political rights and political liberties.

President Kiley in the Chair.

Mr. McLAUGHY of Wd. 14.—Mr. President, I hope that the minority report will be substituted for that of the majority. Inasmuch as the President, as the Chair in this body, appointed his own committee—appointing himself as chairman of that committee—and inasmuch as Wd. 8 was well represented on that committee, I think the other members of this body should have a chance to satisfy themselves in regard to this matter before acting upon it. If the President of this body was fair, he would have given the administration fair treatment on the committee. The Chair stated in his argument that the heads of departments have performed a criminal act. I dare say at this time that may be his opinion. I doubt, Mr. President, whether the heads of the departments who discharged these men have performed any criminal act. I doubt, Mr. President, if we have a right to present this matter to the grand jury. The heads of the departments of the city of Boston are appointed by the Mayor, the chief executive of this city, and it is a question, in your opinion, Mr. President, according to your argument, whether or not those heads of departments have the right to discharge a man. I say they unquestionably have that right, provided the man has violated any rule of any head of a department. The testimony of Mr. McLaughlin of East Boston, was that he lived in East Boston and votes in Wd. 6. I say, Mr. President, that such men as he should be discharged. Men who dare to offer such evidence as that in an investigation should be discharged, or any other man who will get up and state anything like that at any committee hearing.

The PRESIDENT—The question is on the substitution of the minority report for that of the majority.

Mr. HICKEY—Mr. President, when the report of the majority of the committee was presented here this evening and when the minority report was presented by the gentleman in the third division (Mr. Connolly), I was at that time strongly in favor of making a motion that both reports go over for one week, inasmuch as one report makes reference to a verbatim report of the testimony taken at the hearing. I was desirous of having the matter assigned to the next meeting of the Council so that I might read the evidence and see whether or not there were such glaring inaccuracies in other portions of it as appear in the testimony of Mr. McLaughlin. It is entirely apparent that the President, who has taken the floor here tonight, has a decided advantage over other members of this Council by reason of the part that he has taken in the investigation as presiding officer of this body and as a member of the committee, which committee he has with him. The man who took the chair and called the committee to order and heard every bit of the testimony that was offered before the committee, must be very conversant with everything that was said and done; whereas I, as an ordinary member of this body, have not heard anything except the two reports, and am not in a position at this time to enter into a detailed argument. But when the gentleman from Wd. 8 (Mr. Kiley) stands on the floor and says that the gentleman representing the 9th congressional district resides in Concord or somewhere else, and votes in Boston, I want to point out to him the fact that the man whose representative he is in this body is also guilty of misdemeanors which should be investigated; and if the gentlemen from Wd. 8 want a thorough, whole-souled investigation, Mr. President, why did they not vote for an investigation of the methods whereby you were elected president of this body?

The PRESIDENT—The Chair will call the gentleman to order, and will insist, if he continues in his remarks, that the

floor be confiscated from him for the evening. The Chair will remind the gentleman that he must confine himself within the bounds of parliamentary propriety and that his remarks must be upon the question, which is upon the substitution of the minority report for that of the majority.

Mr. HICKEY—Mr. President, after the lengthy speech made by the presiding officer, in which he frequently indulged in references to matters outside the body, I will attempt to adhere strictly to the question before the body. But I wish to assure you, Mr. President, that, as long as you went out of your way to mention the congressman from the 9th district you might also allow me to go a little outside of the strict rules of the body and mention the leader of the Hendricks Club on this floor. The majority report starts out with what, in my opinion, is a glaring misstatement, saying that "the committee of the Common Council appointed to inquire into the causes of the discharge and suspension of city employees during the four months ending January 31, 1899, submit that, pursuant to the order and authority of this body," etc. I am in entire accord with the suggestion in the minority report, that the body had no right to summon the heads of departments. In fact, the specific statement to that effect by the Mayor of Boston has as yet gone unchallenged by any member of the committee. As we have received two lengthy reports, from the majority and minority of the committee, I wish to move at this time that both reports be assigned to the next meeting of the Council, in order to give the members of the body who were not members of the committee an opportunity to investigate the subject and to read the verbatim report of the evidence submitted before the committee.

The PRESIDENT—Does the gentleman make that as a motion?

Mr. HICKEY—I make a motion that the matter be printed and assigned to the next meeting of the Council.

The motion to assign to the next meeting of the Council.

Mr. Connolly of Wd. 17 doubted the vote and called for the yeas and nays, which were declared not ordered. Mr. Connolly further doubted the vote, and called a rising vote. The Council stood divided, and more than one-fifth voting in the affirmative, the yeas and nays were declared ordered. The motion to assign to the next meeting was lost, yeas 24, nays 44.

Yeas—Badaracco, Brennan, Frederick, Carroll, Casey, Collins, Connolly, Curley, Doherty, Donahoe, Doyle, Gibbons, Hickey, Johnson, Kasanof, Kelley, Logan, Madden, Martin, Mulcahy, Naugle, Newhall, Rice, Tobin—24.

Nays—Armistead, Atwood, Bagley, Battis, Bordman, Brauer, Chamberlain, Cuddy, Donovan, Emery, Fenton, Giblin, Harvey, Hibbard, Horrigan, Howard, Jordan, Kiley, Klemm, Leftovith, Linehan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Miller, Moore, Peck, Roemer, Roland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Turnbull, Walker, Watson, Wells, Winslow, Wood—44.

Absent or not voting—Bennett, Bradley, Eddy, Flynn, Leonard, O'Brien, Sullivan—7.

The question came on the substitution of the minority report.

Mr. CONNOLLY of Wd. 17—Mr. President, I desire to answer a statement which Mr. Watson has made. He has made several of them before this council.

The PRESIDENT—The Chair will again remind the member of the Council that there is a specific rule which provides against the use of the name of any member of the council in parliamentary debate. The Chair will ask the gentleman to kindly confine himself as much as possible to the rules of the Common Council.

Mr. CONNOLLY—The gentleman from Wd. 18 states—

Mr. HERRIGAN of Wd. 3—Mr. President, I rise to a point of order.

The PRESIDENT—The gentleman will please state his point of order.

Mr. HERRIGAN—The question before the house is on the adoption of the minority report.

The PRESIDENT—The Chair will rule the point of order not well taken.

Mr. CONNOLLY—Mr. President, in speaking upon the adoption of the report, I desire to answer the gentleman from Wd. 18 (Mr. Watson). In a statement which he made he said the Mayor of Boston was speaking in my report. I desire to answer to him and say that when I wish to say anything here on this floor I do not have to go to any lawyer, or I do not have to go to any man who says that he controls my vote, for I control my own vote, and no man can tell me what to say. I believe I have enough intelligence to express my opinion on whatever comes before this body, and I do not need to go either to the Mayor of Boston or to any member of the bar in Boston, whether or not it be certain gentlemen that he may have named, or that he suspects may have instructed me to do certain things on this floor. I will say to him that I have not seen the Mayor of Boston for ten days, that I have not spoken to him for two weeks, because I had no business in the office, and have not been able to go down there. Having had no business in the office, of course I have not been before His Honor. Now, I desire to correct that statement, and hope that the members of this council will at least bear me out that this is my report. I have the notes here which I have made since I entered this council chamber,—and those are facts.

The question came on the substitution of the minority report.

Mr. WATSON—Mr. President, I trust that the chair will give me the same latitude which he gave to the gentleman from Wd. 17, in my attempt to reply to him. I am satisfied that he will do it. Mr. President, I want to say that I said I could not prove it—I say again I cannot prove it, but there is quite a suspicion lurking around the chamber—

Mr. MULCAHY of Wd. 14—Mr. President, I rise to a point of order.

Mr. WATSON—Mr. President, I trust the gentleman will give me an opportunity.

The PRESIDENT—The gentleman will please state his point of order.

Mr. MULCAHY—The gentleman, it seems to me, is not talking germane to the question before the house.

The PRESIDENT—The chair will rule the point of order not well taken. (Laughter.) The chair will ask the Council and the spectators to maintain order. This is no laughing matter. This is serious business.

Mr. WATSON—Mr. President, the gentleman from Wd. 14—

Mr. MULCAHY—Mr. President, I rise to a point of order, whether or not it is accepted by the chair, which is immaterial to me. I wish the Council—

The PRESIDENT—The Chair will remind the gentleman that he must state his point of order, and nothing else.

Mr. MULCAHY—Mr. President, it seems to me that the chair should remind the gentleman from Wd. 18 of the specific rule which provides against the casting of reflections by any member of the Council upon any other member of the body.

The PRESIDENT—The Chair will rule the point of order not well taken, inasmuch as the gentleman from Wd. 18 simply said "The gentleman from Wd. 14," which is a perfectly proper statement to make. Mr. Watson of Wd. 18 has the floor.

Mr. WATSON—Mr. President, the last gentleman who interrupted me with his point of order imagines that everybody is in the same condition that he is—out of order all the time.

The PRESIDENT—The Chair will ask the gentleman to confine himself to the

question before the house, which is on the subject of the minority report.

Mr. WATSON—Well, Mr. President, there has perhaps been enough said about the gentleman from Wd. 14. I will go back to the gentleman from Wd. 17. The gentleman from Wd. 17 gets up and denies the fact that that report comes from the Mayor's office. I will accept his apology, or his statement, if it can be called one, and will say that I will try hard to believe that he introduced it himself—but it is very hard, Mr. President, to believe that, when I go to work and see that four or five different copies of that substitute report are here in the Council chamber, all on the Mayor's own typewriter paper, and tied up as all the papers that come from that office are. Now, while I am not going to say that the Mayor came up here and gave it to him, I will say that I think the Mayor must have handed it to Mr. Connolly down stairs.

The motion to substitute the minority report for that of the majority was declared lost. Mr. Connolly doubted the vote and called for the yeas and nays, which were declared ordered.

Mr. MULCAHY of Wd. 14—I doubt that vote, and ask for a rising vote.

The PRESIDENT—The Chair will request the members to address the Chair respectfully, and not to speak upon the floor until the Chair has recognized them.

Mr. MULCAHY—It is the only way they will ever get the floor.

The PRESIDENT—The Chair will again request the gentleman from Wd. 14 to confine himself to parliamentary decency and propriety. Mr. Connolly of Wd. 17 doubted the vote on the substitution of the report, and asked for the yeas and nays, and they were declared ordered. Mr. Mulcahy now doubts that vote. Those in favor of ordering the yeas and nays will rise and remain standing until counted. (A large number arose.) It being evident that over one-fifth of the members have voted in the affirmative, the Chair will request the Clerk to call the roll.

The roll was called, and the motion to substitute the minority report for that of the majority was lost—Yeas 21, nays 45.

Yeas—Badaracco, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Doyle, Gibbons, Hickey, Johnson, Kasanof, Kelley, Madden, Martin, Mulcahy, Nangle, Newhall, Rice, Tobin—21.

Nays—Armistead, Atwood, Bagley, Battis, Bordman, Brauer, Chamberlain, Cuddy, Donahoe, Donovan, Emery, Fenton, Giblin, Harvey, Hibbard, Horrigan, Howard, Kiley, Klemm, Leftwirth, Linehan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Miller, Moore, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Turnbull, Walker, Watson, Wells, Winsloe, Wood—45.

Absent or not voting—Bennett, Bradley, Collins, Eddy, Flynn, Jordan, Leonard, Logan, O'Brien, Sullivan—10.

The question came on the acceptance of the majority report.

Mr. COLLINS of Wd. 13—Mr. President, I would like to ask, for information, if there was any evidence submitted to your committee that would warrant your censuring the Mayor of Boston in your report?

The PRESIDENT—The Chair desires to leave that to the members of the Council to infer for themselves. The evidence has been presented in the newspapers. The Chair, as Chairman of the committee, has ordered the superintendent of printing to have the evidence here tonight. It is no fault of the Chair that it is not here. The committee, by a vote of 6 to 1, have voted to submit this report, and it is for the members of the Council to determine whether or not the majority report is a proper one. The question now is on accepting the majority report.

Mr. COLLINS of Wd. 13—Mr. President, I would like to make myself clear on this matter. Personally, I feel that the laboring men who have been discharged in Wd. 8 have a very well founded grievance;

but to say to the Democratic members of this Council that they shall vote to give the Democratic Mayor a slap in the face, I do not think is right or consistent. I do not feel inclined to vote that way. I feel inclined to vote to censure any heads of departments who may be at fault, or to favor a vote of sympathy for the men who have been thrown out of work. I feel that they have a just grievance, but I do not desire to vote for the report as it is now, and I move an amendment, that all references to the Mayor of Boston be eliminated from the report of the committee. If you will accept that amendment, I will vote for the report of the committee.

The PRESIDENT—The question is on the acceptance of the majority report. In connection with that, does the gentleman from Wd. 13 desire to make a motion?

Mr. COLLINS—Mr. President, I understood that the majority report was disposed of.

The PRESIDENT—Yes, sir; the question is on accepting the majority report. Does the gentleman desire to make a motion?

Mr. COLLINS—I move to amend, Mr. President, that all references to the Mayor of Boston eliminated from that report.

The PRESIDENT—The Chair desires to state that the Mayor's name is not mentioned in the report.

Mr. COLLINS—Well, then, I beg pardon, I withdraw my amendment.

Mr. RICE of Wd. 2—Mr. President, I do not see how I can vote intelligently upon this question tonight, or I do not see how any member of this Council can vote intelligently upon this question tonight. The report of the majority of that committee is a very long one. There are various things in that report which are very important, and it is almost impossible for any member of this Council to remember exactly how the report read. Now, there is something in that report about submitting testimony before the grand jury. I do not think that this Council should go on record as countenancing anything of that sort. If this testimony is to be submitted to the grand jury, I believe it should be submitted by individuals, and that we should not have this Council go on record as saying that this matter should be investigated by it. If there should be anything of that sort, let the witnesses who appeared before the committee go before the grand jury, and let them submit their testimony, and have the grand jury act upon their testimony, instead of having this body go on record as saying that we intend to bring these men to justice. Now, I sincerely trust that this matter will be laid over for one week. As I understand, a motion was made earlier in the evening to lay both reports over for one week. I make the motion now that the majority report be laid over for one week, so that each and every member here may have a copy of that, and that they may see the testimony and read it over. If we vote upon this here tonight we are saying, or those who vote in favor of this majority report are saying, that we accept the judgment of those six members of that committee, that we believe they are telling the truth, and that we believe that one member of that committee is not telling the truth. Now, I think the members of the Council have a right to see if that committee did its work properly, and in an unprejudiced manner; and I sincerely trust that the matter may be laid over for one week. The gentleman from Wd. 12 has said that it was the custom during the past year to assign things for one week. He started some two weeks ago by assigning almost every matter that came up. I ask the members to assign this, and not to vote 45 to 21 on everything. Let us treat each other fairly and assign this matter to the next meeting.

The PRESIDENT—The Chair will rule that the motion to assign is not in order at this time, the Council having already

refused by a yea and nay vote to grant that request.

Mr. RICE—Mr. President, I would like to ask the stenographer, through the Chair, to read that motion which was made. I think it was this way, that both reports be laid over for one week.

The PRESIDENT—The Chair accepts the interpretation of the gentleman from Wd 2, and will state that the Chair thinks he is right in his statement; and the Chair also desires to say that the Chair believes he is right in ruling that, the vote having been taken upon that motion, that precludes the motion to assign being made again at this time. The question is on the adoption of the majority report.

Mr. CHAMBERLAIN—Mr. President, it seems to me that the gentlemen of the Council tonight are particularly apt at misinterpreting my remarks. The gentleman from Wd. 14 got things twisted a while ago, and now the gentleman from Wd. 2 follows suit. I think I said that any order involving the expenditure of money should be assigned. I do not see how the expenditure of money is involved in this question at issue. Inasmuch, Mr. President, moreover, as the mourners have been pretty well heard from, I move you, sir, the previous question.

Mr. HICKEY of Wd. 2—Mr. President, I hope the previous question will not be put; and, while I am on my feet, for the information of the gentleman from Wd. 13, if the Chair will permit me, I desire to read the part of the report of the majority which refers to His Honor the Mayor. The President made the statement a few moments ago that the name of the Mayor was not mentioned. I agree with him that the name was not mentioned, but the following words were used:

"To such summons many discharged employes responded, but no department or division heads, as these latter had been ordered by His Honor the Mayor to disregard the summons of your committee, presumably upon the ground that their testimony might involve their superior and tend to degrade and incriminate themselves."

That clause seems to refer to His Honor the Mayor, and it seems to me that it is quite explicit. I make that explanation, for the benefit of the gentleman from Wd. 13, who was on his feet a moment ago.

The PRESIDENT—The Chair desires to say that that section of the report of the committee was written on account of an article which appeared in every newspaper of Boston over the signature of His Honor the Mayor, with reference to the investigating committee appointed by this body. The question now is on ordering the main question.

Mr. MULCAHY—Mr. President, I hope that the members will not let this go now. It seems to me, Mr. President, that when a committee is appointed, we should not allow six members of that committee to control a majority of the members of this body. A committee has been appointed to investigate into certain matters. Six members of that committee appear to control of the votes of this body, telling everybody how to vote—

Mr. WATSON—Mr. President, I rise to a point of order. The question is on ordering the main question.

The PRESIDENT—The Chair will rule the point of order not well taken; and the Chair will ask the gentleman from Wd. 14 to confine himself as closely as possible to the question, which is "Shall the main question be put?"

Mr. MULCAHY—Now, Mr. President, as I said, when six members come in with a report of the committee, it is not right that a large majority of the 75 members of the body should accept that report here, without any evidence from the committee, and without hearing any of them. I myself know nothing about this. I did not know that the committee was to report to-

night, until I saw this resolve from the committee. I would like to see the members take a little more active part in this matter, and would like to see it a little more deeply considered by them. I hope they will allow it to go over, and then they will not go on record tonight on a matter of this importance.

The main question was ordered, the question coming on the acceptance of the majority report, and it was declared accepted. Mr. Connolly of Wd. 17 doubted the vote, and called for the yeas and nays, which were ordered, and the majority report was accepted—yeas 44, nays 22:—

Yeas—Armistead, Atwood, Bagley, Battis, Borman, Brauer, Chamberlain, Collins, Cuddy, Donahoe, Donovan, Emwery, Harvey, Hibbard, Horrigan, Howard, Jordan, Kiley, Klemm, Leftovith, Linehan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Miller, Moore, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Turnbull, Walker, Watson, Wells, Winsloe, Wood—4.

Nays—Badaracco, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Doyle, Gibbons, Hickey, Johnson, Kananof, Kelley, Logan, Madden, Martin, Mulcahy, Nangle, Newhall, Rice, Tobin—22.

Absent or not voting—Bennett, Bradley, Eady, Fenton, Flynn, Giblin, Leonard, O'Brien, Sullivan—9.

Mr. CUDDY of Wd. 8 moved to reconsider, hoping that the same would not prevail.

Mr. NANGLE of Wd. 17—Mr. President, I move the assignment of the motion to reconsider to the next meeting. In regard to that I would like to make a few remarks. I believe the gentleman has just stated that he expected to have a printed report before the Council on each member's desk. Now, I think it would be more satisfactory to himself if he would have reconsideration assigned for one week, and then have the printed report on each member's desk, and also the evidence submitted by the witnesses before the committee. I do not doubt but what the majority report will pass; but I do not see how it will injure the President or the members who seems to be willing to follow him to assign this matter for one week. I think such a course would be more satisfactory and pleasing to all, and for that reason, I move that the motion to reconsider be assigned for one week.

Mr. RICE of Wd. 2—Mr. President, I desire to speak on the assignment. Now, fellow members, I trust you will vote for the assignment. You will adopt the report next Thursday evening, as you have adopted it tonight, but I want to feel sure that this thing is all right. I voted for the investigation, but I am not going to take the report of this majority on faith. It might be all right, but I want to satisfy myself that it is all right. How can you men vote intelligently upon this thing? You don't know what the testimony before that committee was. You are taking these gentlemen's word for it. I do not think you have any right to do so, but that you should satisfy yourselves. You should look over the testimony and say, "Yes, I will vote with the majority, and I will vote that way honestly and intelligently." I ask you to vote for assignment. Don't vote it down 44 to 21 again. Give us a show. (Laughter.) I hope you will be fair in this matter. I am here, as I said, to be fair, independent and square. I dislike to see the entire Republican members sticking together with a certain few. Now, at the next meeting you can vote this thing down, the same as you did tonight, but vote in favor of the assignment, and then get a copy of the report of the testimony and vote intelligently at the next meeting.

Mr. BORDMAN of Wd. 10—Mr. President, in speaking in regard to this matter of assignment, I feel called upon to answer the imputations which have been cast

upon the Republican members of this Council. They have been accused of sticking together in support of a few. As a Republican member of this Council, I wish to resent any such imputation as that, on the part of the gentleman from Wd. 2. I wish to say that my vote—I know nothing of the other Republican members—on this matter was moved by considerations which I think are for the public welfare. I feel that this committee was appointed and authorized to investigate this matter by the Common Council. Through the act of a certain official of this city, the defence—we might say—or the other side of the argument was not presented. That is no fault of the committee of this Council. They sat there to do their duty. They did not get the information which might have changed the minds of certain gentlemen who signed the majority report. I can see no reason why the matter of reconsideration should be assigned for another week. The majority expected the printed report would be submitted tonight. I think the same reason which has hindered the copies of it being here tonight, and which prevented the heads of departments from testifying, will operate to delay the printed report beyond next week. I cannot see that we shall gain anything by assignment.

The PRESIDENT—In connection with this matter, the Chair desires to make a statement, in order that the committee's acts in the direction of the printing may be fully justified. The Chair tried in all possible manner to have the printed reports upon the table for each member of the Council tonight, but he believed that the printing department, like all other departments, is under the supervision and jurisdiction of the chief executive. The committee itself was obliged to take proof sheets of the evidence, in order to expedite their own business. The Chair makes that explanation of the position of the committee which this body has appointed.

The question came on the assignment of the motion to reconsider to the next meeting.

Mr. WALKER of Wd. 25—Mr. President, I wish to state that I believe that each member of that committee which brought in this report, or each member who favored the bringing in of it, felt conscientiously that he was doing his duty in so doing. I want to say that the committee, could not cover all the employees of the city, yet it did go far enough to convince the members who signed the majority report that the evidence was ample for presentation to the district attorney. Even the gentleman who has made the minority report of this committee, stated that if the thing goes before the Grand Jury, the Mayor will no doubt show us the reasons for discharging these men, which he claims were other than political reasons. Now, I claim, if that is the case, the sooner we know the reasons the better. So, I am opposed to any further postponement.

Mr. McINERNEY of Wd. 13—Mr. President, I move you, sir, the previous question.

The PRESIDENT—Mr. McInerney moves the previous question which cuts off the motion to assign.

The main question was ordered, and the motion to reconsider was lost.

The question came on the adoption of the order submitted in connection with the majority report. The order was read a second time, and the question came on its passage, on which question Mr. Connolly of Wd. 17 called for the yeas and nays, which were ordered, and the order was passed—Yeas 42, nays 23:—

Yeas—Armistead, Atwood, Bagley, Battis, Bordman, Brauer, Chamberlain, Cuddy, Donovan, Emery, Harvey, Hibbard, Horrigan, Howard, Jordan, Kiley, Klemm, Leftwith, Llanahan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Miller, Moore, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens,

Stockton, Stone, Sullivan, Turnbull, Walker, Watson, Wells, Winslow, Wood—42.

Nays—Badaracco, Brennan, Broderick, Carroll, Casey, Collins, Connolly, Curley, Doherty, Doyle, Gibbons, Hickey, Johnson, Kasanof, Kelley, Logan, Madden, Martin, Mulcahy, Nangle, Newhall, Rice, Tobin—23.
Absent or not voting—Bennett, Bradley, Donahoe, Eddy, Fenton, Flynn, Giblin, Leonard, O'Brien, Sweeney—10.

Mr. CUDDY moved to reconsider; lost.

MACADAMIZING OF RUGGLES ST.

Mr. WATSON of Wd. 18 offered an order—That the Board of Estimate and Apportionment be requested to provide in their next budget a sum sufficient to macadamize Ruggles St., between Shawmut Ave. and Cabot St., Wd. 18.

Referred to the Board of Estimate and Apportionment.

PAYMENT TO FAMILY OF M. F. McDONALD.

Mr. WATSON offered an order—That His Honor the Mayor be requested to petition the present General Court for the passage of an act to authorize the city of Boston to pay to the family of the late Martin F. McDonald, engineer of Engine 13, Boston Fire Department, who was killed Jan. 23, 1899, while performing his duty as said engineer, the balance of the salary to which he would have been entitled had he lived and continued to hold said position until the close of the fiscal year 1900.

Passed. Sent up.

COMMITTEES APPOINTED.

The President announced the appointment of the following committees:—

Common Council Rules—Messrs. Bordman, Lydon, Eddy, Rice, Stone.
Joint Rules—Messrs. Logan, Kiley, Stockton, O'Brien, Sanderson, Martin, Klemm.

Badges—Messrs. Hibbard, McInerney, Bagley.

Playground, Wds. 18 and 19—Messrs. McInerney, Nangle, Watson, Curley, Flynn, Casey, Doyle.

Water Tax in Boarding and Lodging Houses—Messrs. Chamberlain, Moore, Turnbull, Armistead, O'Brien.

Mr. CASEY of Wd. 18—Mr. President, I desire at this time to resign from the committee on which I have been appointed.

The PRESIDENT—The Chair will accept the resignation.

POSITION OF CARRIAGES AT FUNERALS.

Mr. CURLEY of Wd. 18 offered an order—That the Board of Police, through His Honor the Mayor, be requested to take such action as may be necessary to provide that carriages waiting outside of churches during funeral services shall stand in line on the side of the street on which the church is located.
Referred to His Honor the Mayor.

LEAVE OF ABSENCE FOR POLICEMEN.

Mr. CURLEY of Wd. 18 offered an order—That the Board of Police, through His Honor the Mayor, be requested to so amend the regulations of the Police Department as to permit two days' leave of absence a month to each member of said department, without loss of pay.
Referred to His Honor the Mayor.

REPAIR OF HILLSIDE STREET.

Mr. NANGLE of Wd. 19 offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan order a sum of money sufficient to put Hillside St., Wd. 19, in thorough repair from Parker St. to Parker Hill Ave.

Referred to the Board of Estimate and Apportionment.

ELECTRIC LIGHTS, ST. BOTOLPH ST.

Mr. MANSFIELD of Wd. 10 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to substitute for the gas lamps in use at present on St. Botolph St., Wd. 10, a suitable number of electric lights.

Referred to His Honor the Mayor.

MARINE PARK BATHING BEACH.

Mr. DONAHOE of Wd. 14 offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order a sum sufficient to put the bathing beach at the Head House, Marine Park, in the same condition as the bathing beach at the foot of L St. and known as the L St. bathing beach.

Referred to the Board of Estimate and Apportionment.

PURCHASE OF ESTATE.

Mr. SANDERSON, of Wd. 25, offered an order—That His Honor the Mayor be requested to petition the Massachusetts Legislature at its present session for authority to purchase, by the city of Boston, the estate on Chestnut Hill Ave. in Wd. 25, near the Reservoir; said estate containing 120,000 square feet more or less, being wholly surrounded by land of the city of Boston.

Referred to the Committee on Legislative Matters.

REPAIR OF PRINCETON STREET.

Mr. SIMPSON, of Wd. 1, offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan bill a sum sufficient for putting Princeton St., Wd. 1, in proper condition for safe travel.

Referred to the Board of Estimate and Apportionment.

CONCERT IN WARD 11.

Mr. ARMISTEAD, of Wd. 11, offered an order—That the Music Trustees, through His Honor the Mayor, be requested to provide a concert by the Municipal String Orchestra in the hall of the Phillips School, Wd. 11.

Referred to His Honor the Mayor.

MEMORIAL DAY APPROPRIATION.

Mr. ARMISTEAD offered an order—That all applications for money for memorial purposes under the provisions of Chap. 76 of the Acts of 1886, be submitted to the City Council on or before the first day of April, 1899, and that a special committee, to consist of five members of the Common Council, with such as the Board of Aldermen may join, be appointed to consider said applications and report to the City Council an apportionment of the money that may be appropriated for said memorial purposes.

Passed. Sent up.

REPAIR OF LA GRANGE ST.

Mr. BRODERICK of Wd. 23 offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order a sum sufficient to put in complete order La Grange St., Wd. 23, from Washington St. to the Newton line.

Referred to the Board of Estimate and Apportionment.

USE OF CURTIS HALL.

Mr. BRODERICK offered an order—That the Superintendent of Public Buildings be authorized to allow the use of Curtis Hall, waiving the fee, on the evening of Feb. 18, 1899, to Daniel Hersey Lodge, I. O. O. F., for the purpose of having its annual char-

itable dance in aid of the worthy poor in Wd. 23.

Passed. Sent up.

PLAYGROUND, ROSLINDALE.

Mr. BRODERICK offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan order an appropriation of \$31,000 for a suitable site and the establishment of a playground in Roslindale, Wd. 23.

Referred to the Board of Estimate and Apportionment.

STREET CLEANING, WD. 23.

Mr. BRODERICK offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan order a sum sufficient to establish a street cleaning service in all parts of Wd. 23 not now covered by such service.

Referred to the Board of Estimate and Apportionment.

READING ROOM, ROXBURY.

Mr. KLEMM of Wd. 21 offered an order—That the Trustees of the Public Library be requested and authorized, through His Honor the Mayor, to establish a public reading room in the building formerly the pumping station, and now used for ward-room purposes, on Elmwood St., Roxbury.

Mr. KLEMM of Wd. 21—Mr. President, I hope His Honor the Mayor and the Trustees of the Public Library will take favorable action on this order. I should not venture such a proposition if I thought the carrying it out would entail a large expenditure, but I believe the expense will be inconsiderable, and that it will be greatly outweighed by the resulting benefits. The Mayor, in a recent message on free lectures, pointed out that a much more extensive use could well be made of certain public buildings, referring then more particularly to school-houses, in the interest of the public. Now, this is a case in point, where a building which is used only occasionally for political purposes can be made of daily use. The district around Elmwood St. is a thickly populated one and the residents in great part are people whose means, and whose time, will not allow them to frequent public entertainments and amusements. For them and for others, such a reading room would be a welcome refuge, where they could spend a leisure hour in recreation and profitable enjoyment. I believe that my friends from Wds. 18 and 19, who are nearer the spot than I am, will cheerfully endorse my suggestion.

The PRESIDENT—The order will be referred to His Honor the Mayor.

ENGINE HOUSE, ROXBURY.

Mr. McINERNEY of Wd. 19 offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order the sum of \$20,000 as an appropriation for a chemical engine house and apparatus to be located at the corner of Hillside and Calumet Sts., Wd. 19.

Mr. McINERNEY—Mr. President, a short time ago one of the Councilmen from Wd. 19 introduced an order requesting the Mayor to consider the advisability of establishing some fire apparatus in that district. Now, nobody knows any better than the people of that district themselves what they need in the way of fire apparatus. It is not for the Mayor to consider the advisability of it, as the present apparatus is so far away that it takes eight minutes for it to get anywhere part way up the hill where we need the apparatus now—and in stormy weather they cannot get there at all. There was some difficulty a short time ago when they had a fire on top of the hill. It was in stormy weather, and the apparatus went a certain distance and got stuck, and could not go any further. Now, that

section of Wd. 19, and the other section known as the "Sand Bank"—in those two places the residents are very thrifty, and are a very industrious class of people. They have managed, through sheer industry, to build themselves little homes. If a fire should break out, they are unprotected. There is a house on Centre St. and another at Egleston Sq., and then the next one is on Green St., Jamaica Plain. They are about a mile and a half from any engine house. I hope, Mr. President, that this will be done.

The order was referred to the Board of Apportionment.

—
ASPHALTING OF SMITH ST.

Mr. McNERNEY offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation sufficient to secure the asphaltting of Smith St., from Phillips St. to St. Alphonsus St., Wd. 19.

Referred to the Board of Estimate and Apportionment.

—
PAY FOR CAUCUS OFFICERS.

Mr. McNERNEY offered an order—That His Honor the Mayor be requested to petition the General Court for the passage of an act authorizing caucus officers to receive compensation for their services.

Referred to His Honor the Mayor.

—
PAY FOR ADDITIONAL POLICE SERVICE.

Mr. WATSON of Wd. 18 offered an order—That the Police Commissioners be requested, through His Honor the Mayor, to pay the officers that have been detailed at the Common Council the past two meetings an additional day's pay for said service.

Referred to His Honor the Mayor.

—
PAVING OF SHAWMUT AVE.

Mr. CASEY of Wd. 18, offered an order—That the Board of Estimate and Apportionment be requested to report in their next loan the sum of \$8000 for the paving of Shawmut Ave., from Camden St. to Guild Row.

Referred to the Board of Estimate and Apportionment.

—
COMBINATION BUILDING, WD. 18.

Mr. CASEY offered an order—That the Board of Estimate and Apportionment report in their next loan the sum of \$30,000 for a new building in Wd. 18, to be used as a wardrobe, gymnasium, and bath house.

Referred to the Board of Estimate and Apportionment.

—
EXPENSES OF MUSIC COMMISSION.

Mr. CHAMBERLAIN of Wd. 12 offered an order—That the Music Trustees through His Honor the Mayor be requested to submit to the Common Council an itemized statement of all receipts and expenditures of their department from the date of its creation to the date of such report; the same to be presented to this body on or before Feb. 9, 1899.

Referred to His Honor the Mayor.

—
OPINIONS FROM LAW DEPARTMENT.

Mr. CHAMBERLAIN of Wd. 12 offered an order—That the Superintendent of Printing, under the direction of the Committee on Printing, when appointed, collect and caused to be published in a single volume and indexed all opinions rendered in writing to the City Council or any committee thereof by the Law Department since April 29, 1854; said publication to consist of one thousand copies; the expense of the same to be charged to the appropriation for City Council, Incidental Expenses.

Referred to the Committee on Printing.

INFORMATION REGARDING CITY OFFICERS.

Mr. CHAMBERLAIN of Wd. 12 offered an order—That His Honor the Mayor be requested to submit to the Common Council on or before Feb. 9, 1899, a list of the officers contained in or affected by Chapter 2, Sections 1 and 2, of the Revised Ordinances of 1898, whose names have not been submitted to and confirmed by the Board of Aldermen, in accordance with the specific provisions contained in said sections; and also that he give his reasons why, in violation of plain law contained in said sections, he has not submitted the names of such officers for confirmation.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, in connection with that request, I would like to call the attention of the members of the Council to chapter 2 of the Revised Ordinances of 1898. Section 1 of that chapter reads as follows:—

"The Mayor shall, in the year in which the term of the incumbent expires, appoint from the residents and legal voters of the city of Boston, unless otherwise provided by statute or ordinance, and subject to confirmation as hereinafter provided, the following officers, to serve for the terms hereinafter specified; that is to say:—

For the term of one year, beginning with the first day of May in the year of appointment:—

- The City Auditor,
- The City Collector,
- The City Engineer,
- The City Registrar,
- The City Solicitor,
- The City Treasurer.

And a great many other officers are also named. Now, I understand on good authority that the majority of the names in that list have not been appointed by the Mayor for the last year, and in some cases for the last two years.

I would like to call the attention of the Council to the case of the City Solicitor. Here is a gentleman who has always been looked upon with the highest esteem, not only by the taxpayers of the city of Boston, but by the members of the bar as well—a man who has always the best interest of the city at heart, and who takes special pride in seeing that his work is well done. I consider, Mr. President, that it is a slur on that man's reputation and character that he should be allowed to hold over in his office as he has been in the past year or two. I want to find out just how many of these gentlemen are "holdovers," and why they are "holdovers"—why they are not appointed every year, and why they are not confirmed by the Board of Aldermen, as the ordinance provides. Section 2 of this chapter reads as follows:—

"Whenever any officer, appointed by the mayor, and subject to confirmation by the Board of Aldermen, dies, resigns, or is removed, the Mayor shall forthwith appoint, subject to confirmation by the Board of Aldermen, a new officer to serve for the unexpired term. And whenever any officer appointed by the Mayor dies, resigns, or is removed, or from absence or other cause is unable to discharge his duties, the Mayor may designate some other head of a department to discharge such duties temporarily."

I would like to call the attention of the Council to the case of the Park Commissioners,—to the case of Mr. Wheelwright, who was appointed in place of the gentleman on that Board, who resigned about a year and a half ago. Mr. Wheelwright was not the head of a department when His Honor the Mayor appointed him Acting Park Commissioner, notwithstanding that the ordinance says that he may designate some other head of a department. Then, it says, "who shall discharge such duties temporarily." I would like to ask His Honor the Mayor what he considers the English word "temporarily" means? Does it mean a year and a half? In

connection with the position of a hold-over, "temporarily" would seem to me to refer to a short space of time—a few weeks, or, at the farthest, a few months. But here is a gentleman, not a head of a department, who was appointed to this position temporarily about a year and a half ago, and who still holds his office. I would like to know why the Mayor has acted in these cases as he has.

The PRESIDENT—The order will be referred to His Honor the Mayor.

DRINKING FOUNTAIN, EAST BOSTON.

Mr. BATTIS of Wd. 1 offered an order—That the Water Commissioner, through His Honor the Mayor, be requested to locate a drinking fountain for the use of man and beast at the junction of East Eagle, Prescott and Trenton Sts., Wd. 1.

Referred to His Honor the Mayor.

LIGHT ON EUTAW STREET.

Mr. BATTIS of Wd. 1 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to locate an electric light on Eutaw St., at the junction of White St., Wd. 1.

Referred to His Honor the Mayor.

RESURFACING OF PUTNAM SQUARE.

Mr. BATTIS of Wd. 1 offered an order—That the Board of Estimate and Apportionment be requested to provide an appropriation, as soon as possible, for resurfacing Putnam Sq., Trenton St., from Brooks St. to Prescott St., Prescott St. from Trenton St. to Saratoga St., and Putnam St. from Trenton St. to Saratoga St., Wd. 1.

Referred to the Board of Estimate and Apportionment.

WIDENING OF LONGWOOD AVE.

Mr. DOYLE of Wd. 19 offered an order—That the Street Commissioners give estimate cost of widening Longwood Ave., from Huntington Ave. to Brookline Ave., also Brookline Ave., from Beacon St. to Brookline line.

Referred to the Committee on Street Laying Out Dept., when appointed.

ENGINE HOUSE, WD. 19.

Mr. DOYLE of Wd. 19 offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order the sum of \$36,000 for the erection of an engine house at the corner of Calumet and St. Alphonsus Sts., Wd. 19.

Mr. DOYLE of Wd. 19—Mr. President, a few moments ago my brother member from Wd. 19 (Mr. McInerney) referred to an order I introduced at the second meeting of the Council to ascertain in regard to the advisability of placing fire apparatus in the vicinity of Parker Hill. In asking His Honor the Mayor to consider the advisability of it, I did so with the intention of finding the most suitable location for such apparatus. In the meantime I have circulated a petition throughout the district, in order to get the opinion of the taxpayers of that section of the ward. I have in my possession at the present time a petition representing \$100,000 worth of real estate in that district; and I want to say, also, that I informed my brother member a few weeks ago that I was going to introduce this order and had a petition in circulation. However, if he is discourteous enough to introduce another order, I intend to let my order stand at the present time, as I think the amount mentioned in his order is not sufficient for the right kind of apparatus in that vicinity.

The order was referred to the Board of Estimate and Apportionment.

REPORT OF BOARD OF ESTIMATE MEETINGS.

Mr. LINEHAN of Wd. 13 offered an order—That the Board of Estimate and Apportionment be requested to provide each member of the City Council with a printed stenographic report of each meeting of said board held during the present year, the expense attending the same to be charged to the appropriation for City Council, Incidental Expenses.

Referred to His Honor the Mayor.

EMPLOYEES AT HOUSE OF REFORMATION.

Mr. LINEHAN of Wd. 13 offered an order—That the trustees for children, through His Honor the Mayor, be requested to report to this body the name of each employee at the House of Reformation, date of engagement, residence at time of appointment, and by whom appointed; also similar information regarding employees at the office of said trustees.

Referred to His Honor the Mayor.

READING ROOM, SOUTH BOSTON.

Mr. LINEHAN of Wd. 13 offered an order—That the Trustees of the Public Library, through His Honor the Mayor, be requested to establish a reading room in Wd. 13.

Referred to His Honor the Mayor.

EXTENSION OF ALEXANDER ST.

Mr. WELLS of Wd. 16 offered an order—That the Board of Estimate and Apportionment be requested to report in their next loan bill a sum sufficient to extend Alexander St., Wd. 16, from its present terminus to Columbia Road.

Referred to the Board of Estimate and Apportionment.

LEAVE FOR FIREMEN.

Mr. MARTIN of Wd. 15 offered an order—That the Fire Commissioner, through His Honor the Mayor, be requested to give the members of the Boston Fire Department a leave of six hours every week, in addition to the one day which they now receive out of every eight days.

Referred to His Honor the Mayor.

BRIDGE ON TRAVERS ST.

Mr. BADARACCO of Wd. 6 offered an order—That the Board of Estimate and Apportionment include in their next loan bill a sufficient sum to erect a bridge over the Boston Elevated Street Railway tracks at Travers St., between Haverhill and Canal Sts., the bridge to be used for foot travel.

Referred to the Board of Estimate and Apportionment.

EMERGENCY HOSPITAL, SOUTH BOSTON.

Mr. LYDON of Wd. 13 offered an order—That the Board of Estimate and Apportionment be requested to provide a sufficient amount in their first loan order for the establishment and maintenance of an Emergency Hospital at South Boston and an ambulance in connection therewith.

Mr. LYDON of Wd. 13—Mr. President, I would like to say a word in regard to the order I have introduced, requesting that a sufficient sum be provided for the maintenance of an emergency hospital in South Boston. At the present time we are without such an emergency hospital. The district is very large, and at a meeting of the South Boston Citizens' Assn., a representative organization of South Boston, held last week, they voted unanimously to do all in their power to have an emergency hospital established in South Boston. At the present time, if an accident happens there, a life is often lost unnecessarily by reason of the time it takes to procure an

ambulance and to convey a person to the City Hospital. I hope the Board of Estimate and Apportionment will consider this matter very seriously.

The order was referred to the Board of Estimate and Apportionment.

CONVENIENCE STATION, SO. BOSTON

Mr. LYDON of Wd. 13 offered an order— That the Board of Estimate and Apportionment be requested to provide a sufficient sum for the erection and maintenance of a public convenience station, to be erected at the junction of West Broadway, Broadway Extension and Dorchester Ave., Wd. 13.

Referred to the Board of Estimate and Apportionment.

GRADING OF D ST.

Mr. LYDON of Wd. 13 offered an order— That the Superintendent of Streets, through His Honor the Mayor, be instructed to grade D St., from Baxter St. to Dorchester Ave., Wd. 13, and also macadamize the same.

Referred to His Honor the Mayor.

Adjourned at 9:50 P. M., on motion of Mr. Harvey of Wd. 24, to meet on Thursday, February 2, at 7:45 P. M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen

Monday, Jan. 30, 1899.

Regular meeting of the Board of Aldermen, at 3 o'clock P. M., in the aldermanic chamber, City Hall, Chairman Barry presiding and a quorum present.

JURORS DRAWN.

Jurors were drawn under Chapter 514 of the Acts and Resolves of 1894, as follows:—

Thirty traverse jurors, Superior Criminal Court, January sitting:—

Charles W. Kinney, Wd. 19; Levi E. Kent, Wd. 3; Chas. F. Russell, Wd. 21; Wm. P. Osgood, Wd. 8; Chas. W. Robertson, Wd. 13; Michael F. Power, Wd. 20; Arthur C. Raymond, Wd. 10; Benj. Daniels, Wd. 4; Martin Gordon, Wd. 2; Simon A. Butler, Wd. 17; Timothy J. Murphy, Wd. 6; Amos L. Swindlehurst, Wd. 19; Lawrence Farley, Wd. 19; Jeremiah Mahoney, Wd. 2; Rotheus E. Flanders, Wd. 18; Wm. H. Prior, Wd. 8; Alfred T. Forrest, Wd. 15; Wm. T. Bibbey, Wd. 2; Jas. A. Murphy, Wd. 6; Alien Curtis, Wd. 11; Alston S. Dexter, Wd. 1; Chas. E. Maxwell, Wd. 25; Benj. E. Frank, Wd. 10; Jas. F. Cooper, Wd. 14; Edward J. Malloy, Wd. 9; John J. Banden, Wd. 7; Austin W. Farwell, Wd. 1; John E. Smith, Wd. 10; Joseph D. Chute, Wd. 24; Julius Haller, Wd. 22; Carl S. Neilson, Wd. 24; Herman L. Beal, Wd. 20; Fred H. Woodward, Wd. 24; John J. Kiernan, Wd. 22.

Thirty traverse jurors, Superior Civil Court, first session, viz:—

Otis Stevens, Wd. 18; William A. McAuley, Wd. 24; Charles E. Wiggin, Wd. 17; William F. Cobb, Wd. 25; John E. Bcyle, Wd. 22; Charles M. Cabot, Wd. 11; Garrett G. Joyce, Wd. 15; Philip Powers, Wd. 13; Ambrose Woods, Wd. 19; Robert Gavagan, Wd. 15; John J. Davidson, Wd. 6; Henry Dobbins, Wd. 12; Charles T. Butler, Wd. 9; Nels Peterson, Wd. 2; Francis A. Daunt, Wd. 13; Walter A. Towne, Wd. 6; William P. O'Toole, Wd. 18; Edwin C. Howell, Wd. 4; William E. Allen, Wd. 18; Thomas Baker, Wd. 9; Henry S. Devonshire, Wd. 17; Francis E. Waller, Wd. 24; Charles D. Apicton, Wd. 11; Samuel Kelley, Wd. 15; Frederick W. French, Wd. 11; Frank T. Fuller, Wd. 20; Thomas H. Killion, Wd. 16; John Duffy, Wd. 19; Charles A. Jacobs, Wd. 5; Nicholas P. Savage, Wd. 14.

Thirty traverse jurors, Superior Civil Court, second session, viz:—

Seth B. Whitney, Wd. 9; John P. Stickney, Wd. 15; Thomas F. Goodale, Wd. 21; Michael P. Geary, Wd. 13; James W. O'Brien, Wd. 22; John J. Marshall, Wd. 19; John F. Pendergast, Wd. 13; Albert Marple, Wd. 9; Frederick A. Swan, Wd. 25; Charles E. Dodge, Wd. 12; Henry Hastings, Wd. 11; Frank De Silva, Wd. 11; Edward R. Flynn, Wd. 22; John J. Weidmann, Wd. 19; James T. Price, Wd. 8; Benjamin Andrews, Wd. 17; Edward Rivett, Wd. 25; Peter R. Sullivan, Wd. 21; Andrew J. Duran, Wd. 13; James W. Kelley, Wd. 15; Joseph H. Sheehan, Wd. 17; Jonas G. Kneeland, Wd. 20; Henry E. Sales, Wd. 17; Charles S. Harrington, Wd. 25; Thomas J. Ackland, Wd. 17; David E. Wood, Wd. 1; Charles P. Sillsby, Wd. 8; William F. Collins, Wd. 25; George P. Hayden, Wd. 23.

APPROPRIATION BILL.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 30, 1899.

To the City Council:—

I transmit herewith the annual maintenance budget as passed by the Board of Apportionment. It will be noticed that considerably more than half of the departments are given smaller appropriations than they had last year, and, consequently, it will be found this year more difficult than ever to conduct their operations within the appropriations, particularly as no surplus income, available for transfer at the end of the year, is to be anticipated. The Board of Estimate and Apportionment has endeavored to apportion the available financial resources of the city for the coming year as fairly as possible among the different departments; but, of course, the total sum available for such distribution is fixed by law, and is beyond the control of the Board. I hope to present later to the City Council some analysis of the growth of the expenditures of the city which will throw further light upon the situation presented by the budget for the coming year. I will only state now that the causes of the increased pressure upon the \$9,000 tax limit are to be found chiefly in the larger proportion of the available revenue which has been assigned by law to the use of the School Committee, to the increase in the population of our city insitutions at a more rapid ratio than the population of the city and its valuation have grown, and to the greater variety and better quality of the services demanded of the city by the citizens.

The expenses of the Police Department have increased faster than the proceeds of the limited tax levy, and in spite of the fact that the Board of Police is given power by statute to draw upon the City Treasury in excess of its appropriations, it seemed to me proper that this appropriation should be cut about in proportion to others, in the hope that the Board would be willing to do its part toward meeting the financial exigencies of the situation.

Respectfully submitted,

Josiah Quincy, Mayor.

City of Boston.

In Board of Estimate and Apportionment,
January 28, 1899.

Ordered, That to meet the current expenses payable during the financial year, beginning with the first day of February, 1899, of performing the duties and exercis-

ing the powers developed by statute or ordinance, or by vote of the City Council during the year, upon the city of Boston or the County of Suffolk, or the departments or officers thereof, and to meet their respective obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money hereinafter specified be, and the same are hereby, appropriated for the several departments, and for the objects and purposes, hereinafter stated.

Ordered, That the appropriations for Water Department, current expenses, and the payments to the State under the provisions of chapter 488 of the Acts of 1895 and acts in addition or amendment thereto, and for the interest or sinking fund requirements for loans issued for water purposes, be met by the income from said works; that the appropriation for maintenance of the Sewer Division of the Street Department, and for the interest and sinking fund requirements for loans issued for sewerage works, be met with the sewerage charges determined as provided in chapter 426 of the Acts of 1897; that the appropriation for the Street-Watering Division of the Street Department be met with the assessments for watering streets laid under the provisions of chapter 419 of the Acts of 1897; that the other appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on January 31, 1899, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation, and by the income of the financial year beginning February 1, 1899, and by taxes to the amount of \$10,498,045, and that said amount be raised by taxation on the polls and estates taxable in the city of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury and then credited to the appropriation of the department or division rendering such service or doing such work, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That to provide temporarily money to meet the appropriations aforesaid, the City Treasurer issue and sell, at such times and in such amounts as he may deem best, bonds, notes or certificates of indebtedness of the City of Boston, not exceeding eight million dollars in the total, in anticipation of the taxes of the current municipal year; that all such bonds, notes or certificates of indebtedness be dated the day the money for the same is received, be made payable with the interest thereon at the office of the City Treasurer within the current municipal year, from the taxes of said year, and bear interest from their date until the same are made payable at such rate as said Treasurer shall deem proper.

CITY OF BOSTON.

City of Boston.

In Board of Estimate and Apportionment, January 28, 1899.
The foregoing orders and appropriations were passed:

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

City of Boston.

In Board of Estimate and Apportionment, January 28, 1899.

Ordered, That the sum of four hundred and ten thousand (410,000) dollars be appropriated, to be expended by the Water Department in the extension of water mains; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation contained therein is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

City of Boston.

In Board of Estimate and Apportionment, January 28, 1899.

Ordered, That the sum of fifty-five thousand (55,000) dollars be appropriated, to be expended by the Board of Street Commissioners in making plans of territory or sections of land under the provisions of Chapter 323 of the Acts of 1891, and acts in amendment or addition thereto; and that the City Treasurer be authorized to issue, under the provisions of said act, and acts in amendment or addition thereto, from time to time, at the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation contained therein is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

City of Boston.

In Board of Estimate and Apportionment, January 28, 1899.

Ordered, That the sum of twenty-five thousand (25,000) dollars be appropriated to the Public Buildings Department, Repair Division, for working capital; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation contained therein is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

City of Boston.

In Board of Estimate and Apportionment, January 28, 1899.

Ordered, That the sum of ten thousand (10,000) dollars be appropriated to the Public Buildings Department, Electrical Construction Division, for working capital; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation contained therein is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

City of Boston.

In Board of Estimate and Apportionment, January 28, 1899.

Ordered, That the sum of ten thousand (10,000) dollars be appropriated to the Printing Department for working capital, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation contained therein is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

In Board of Estimate and Apportionment,
Jan. 23, 1899.

The foregoing orders and appropriations were passed, and we certify that the appropriations contained in the last five orders are not to meet current expenses.

Josiah Quincy,
John H. Sullivan,
Laurence Minot,
David F. Barry.

Members of the Board of Estimate and Apportionment,
Ordered printed, and assigned to the next meeting, on motion of Ald. Codman.

APPOINTMENT OF WEIGHER OF COAL.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 30, 1899.

To the Board of Aldermen:—

Subject to your approval and confirmation, I hereby appoint E. W. Johnson a weigher of coal for the term ending April 30, 1899.

Josiah Quincy, Mayor.

Laid over, under the law.

VETO OF USE OF SAMMET HALL.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 24, 1899.

To the City Council:—

I return herewith without my signature an order instructing the Superintendent of Public Buildings to allow the use of Sammet Hall, Wd. 22, to the Ancient Order of United Workmen, for a whist party on the evening of January 31st, 1899, waiving the usual fee, for the reason that, as stated in my communication of January 16th, the granting of the use of ward rooms without any payment therefor imposes a material extra expense upon the Public Building Department, and one which it has no means at its disposal to meet.

Respectfully submitted,

Josiah Quincy, Mayor.

The order was reconsidered, and the question came on its passage, the objections of the Mayor to the contrary, notwithstanding.

Referred to the Committee on Faneuil Hall and County Buildings, on motion of Ald. Codman.

VETO-ORDER TO BOX TREE.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 18, 1899.

To the Board of Aldermen:—

I return herewith, without my signature, the vote passed by your Board on Jan. 15, granting permission to L. Wingersky to box two trees in front of 51 Devon St., Roxbury, "for protection purposes only."

My reason for taking this action is that if it is merely desired to place a suitable guard around these trees for their protection, that can be done without any vote of your Board; while, on the other hand, if a sign is to be placed on the box, the vote of your Board would be illegal.

Respectfully submitted,

Josiah Quincy, Mayor.

The vote granting leave was reconsidered, and the veto of the Mayor was sustained. Yeas, 0; nays, 12.

WATERING STREETS BY ASSESSMENT.

Mayor's Office, City Hall,
Boston, Jan. 30, 1899.

To the City Council:—

It is necessary to make provision at

once in regard to the watering of streets under the assessment plan during the ensuing year, and I, therefore, recommend the speedy passage of the accompanying order, which is the same in form as that passed by the City Council of last year, except that it includes the whole city, instead of limited district. A petition will be presented to the Legislature requesting an amendment of the law, to authorize the division of the city into street watering districts, so that the service and the rate of assessment per front foot may be varied in different parts of the city.

Respectfully submitted,

Josiah Quincy, Mayor.

Ordered: That all streets and portions of streets within the city limits be watered during the current year wholly at the expense of the abutters.

Referred to the Committee on Public Improvements.

USE OF CURTIS HALL—VETO.

The following was received:—

Mayor's Office, City Hall,
Boston, Jan. 27, 1899.

To the City Council:—

I return herewith without my signature an order authorizing the Superintendent of Public Buildings to allow the use of Curtis Hall, waiving the fee, on the evening of February 7, 1899, for the reason that, as stated in my communication of January 16, the granting of the use of this hall without charging the customary fee entails a considerable extra expense upon the Public Buildings Department, and one which it has no funds to meet.

Respectfully submitted,

Josiah Quincy, Mayor.

The previous action of the board was reconsidered, and the message and order were referred, on motion of Ald. Codman to the Committee on Faneuil Hall, etc.

PETITIONS REFERRED.

The following petitions were received, and were referred to the committees named, viz:—

To the Committee on Bldg. Dept. Ald. (when appointed.)

Petitions for leave to project signs, etc., viz:—

Andrew A. Badaracco, an illuminated sign, at 121 North St., Wd. 6.

Frank Thomas, an illuminated sign, at 98 Boylston St., Wd. 7.

Wm. Naigles, a sign, at 26 Cambridge St., Wd. 8.

Hewes-Mayo Co., a sign, at 150 Lenox St., Wd. 18.

Geo. W. Hunt, to paint globe at 112 Court St., Wd. 6.

To the Committee on Claims (when appointed).

Esther Lake, for compensation for injuries received from a fall on Berkeley St.

H. & J. Pfaff Brewing Co., to be paid for damage to building caused by blasting by employees of the city on Columbus Ave.

Warren N. Gerald, to be repaid a part of the amount paid for an intelligence office license, which he used only six weeks.

Therese Kluge et al., for payment to themselves or to their attorney, Wilfred Bolster, of the balance remaining from tax sale of estate on N.W. side of Columbus Ave., cor. Sarsfield St.

Ten petitions of Patrick J. Daly, for payment to himself or to his attorney, Wilfred Bolster, of balances remaining from tax sale of estates on the northerly side of Westville St., Wd. 20.

Supt. of Public Grounds.

Louis A. Ginsburg, for the removal of two trees at 59-58 Webster St., Wd. 2.

Licenses.

Petitions for permits for children un-

der 15 years of age to appear in public places of amusement, as follows:—

George W. Magee, manager, for Goldie Grafton, at the Grand Opera House, during the week ending January 28, 1899.

A. L. Griffin, manager, for Baby Blanehe and Gussie Hunt, at the Bowdoin Square Theatre, for the week beginning Jan. 30, 1899.

Isaac B. Rich, for Isabelle Martin and five others, at the Hollis Street Theatre, for the week ending Feb. 4, 1899.

Public Improvements.

Benevolent Fraternity of Churches et als., for the repaving of Berkeley St., from Tremont St. to the railroad bridge, with asphalt.

Anthony Volta, for leave to maintain three bootblack stands in Franklin Ave.

George I. Robinson, Jr., for leave to erect lamps temporarily; one each in Dewey Sq., and in Central Sq.

Hanover Drug Co., for leave to erect an iron post, with an illuminated druggist's mortar thereon, in sidewalk, at 257 Hanover St.

A. T. Donovan, for leave to construct an area at 296-302 Harrison Ave., Wd. 9.

Barnes & Dunklee, for leave to erect a permanent awning in front of the Hotel Brunswick.

Albert J. Benfield, for leave to project a sign at 1051 Washington St.

W. F. Haley, for leave to stand a night lunch wagon at the junction of Shawmut Ave. and Tremont St.

George W. Tenney, for leave to place a tin sign on framework around tree at 429 Columbus Ave.

Julius Johnson, for leave to project an illuminated sign at 930 Washington St., Wd. 9.

A. T. Donovan, for leave to construct an area at 296-302 Harrison Ave., Wd. 9.

James P. Stearns and another, Trustees, for leave to maintain and use for storage of coal, merchandise, etc., the space under sidewalk in front of estate 44-50 Clinton St.

HEARINGS AT 3 O'CLOCK.

On petitions of the New England Telephone and Telegraph Company, for leave to erect poles, viz.:

1. On Hewlett and Hastings Sts., Wd. 23.

No objections. Referred to the Committee on Electric Wires.

2. On Monadnock St., Wd. 16, and on Moultrie Ave., Wd. 20.

No objections.

Ald. CODMAN—Mr. Chairman, I would like so much of the order as refers to Monadnock St. assigned to the next meeting. My reason is that I have a request of that nature from four property holders on Monadnock St., saying they would like to be heard, but cannot be here today.

No. 2 was assigned to the next meeting of the Board.

PAPERS FROM THE COMMON COUNCIL.

3. Notice of the appointment on the part of the Common Council of Messrs. Logan, Kiley, Stockton, O'Brien, Sanderson, Martin and Klemm, on the joint special committee on Rules and Orders.

Placed on file.

4. Notice of the indefinite postponement of the order passed by the Board of Aldermen Jan. 23, authorizing the destruction of the old small-pox hospital building.

Ald. McDONALD—Mr. Chairman, while I shall offer no objection to the indefinite postponement of this order, I desire to say that I think the Trustees of the Insane Asylum certainly ought to have waited until they had the authority from the City Government to destroy these buildings. In the future, I hope they will look into such matters carefully, before destroying buildings.

The notice was placed on file.

5. Ordered, That the Superintendent of Public Buildings be authorized to allow the use of Curtis Hall, waiving the fee, on the evening of February 16, 1899, to Daniel Hersey Lodge, I.O.O.F., for the purpose of having its annual charitable dance in aid of the worthy poor in Wd. 23.

Ald. BERWIN—Mr. Chairman, I move the indefinite postponement of No. 5.

Ald. CODMAN—Mr. Chairman, I trust that the alderman will withdraw that motion. I should like to move that the order be referred to the Committee on Faneuil Hall and County Buildings, and for this reason: It seems to me that these orders will constantly come up during the year, because possibly everybody does not know the position the Mayor has recommended taking in regard to our public halls. It would be well for the Committee on Faneuil Hall and County Buildings to know what the expense of opening Faneuil Hall and these other various wardrooms is going to be, and instead of waiving the fee, they might then report orders back with the minimum cost attached. Possibly that would be a better way of disposing of them.

Ald. BERWIN withdrew the motion to indefinitely postpone, and the order was referred, on motion of Ald. Codman, to the Committee on Faneuil Hall, etc.

6. Ordered, That His Honor the Mayor be requested to petition the present General Court for the passage of an act to authorize the city of Boston to pay to the family of the late Martin F. McDonald, engineer of Engine 13, Boston Fire Department, who was killed January 23, 1899, while performing his duty as said engineer, the balance of the salary to which he would have been entitled had he lived and continued to hold said position until the close of the fiscal year 1900.

Passed in concurrence.

7. Ordered, That all applications for money for memorial purposes under the provisions of chapter 76 of the Acts of 1886, be submitted to the City Council on or before the first day of April, 1899, and that a special committee, to consist of five members of the Common Council, with such as the Board of Aldermen may join, be appointed to consider said applications and report to the City Council an apportionment of the money that may be appropriated for said memorial purposes.

Passed in concurrence.

On motion of Ald. Codman, the Board voted to take up No. 8 to 24, inclusive, together, viz.:

8. Ordered, That the Board of Estimate and Apportionment be requested to provide in the first loan order a sum sufficient to establish a street-cleaning service in all parts of Wd. 23, not now covered by such service.

9. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan order the sum of twenty thousand (\$20,000) dollars as an appropriation for a chemical engine-house and apparatus, to be located at the corner of Hillside and Calumet Sts., Wd. 19.

10. Ordered, That the Board of Estimate and Apportionment be requested to provide an appropriation sufficient to secure the asphaltting of Smith St. from Phillips St. to St. Alphonsus St., Wd. 19.

11. Ordered, that the Board of Estimate and Apportionment be requested to provide in the first loan order an appropriation of thirty-one thousand (\$31,000) dollars for a suitable site and the establishment of a play-ground in Roslindale, Wd. 27.

12. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan order a sum sufficient to put in complete order La Grange St., Wd. 23, from Washington St. to the Newton line.

13. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan bill a sum sufficient for putting Princeton St., Wd. 1, in proper condition for safe travel.

14. Ordered, That the Board of Estimate

and Apportionment be requested to include in the first loan order a sum sufficient to put the bathing beach at the head-house, Marine Park, in the same condition as the bathing beach at the foot of L St., and known as the L-St. bathing beach.

15. Ordered, That the Board of Estimate and Apportionment be requested to provide in the first loan order a sum of money sufficient to put Hillside St., Wd. 19, in thorough repair, from Parker St. to Parker Hill Ave.

16. Ordered, That the Board of Estimate and Apportionment be requested to provide in their next budget a sum sufficient to macadamize Ruggles St., between Shawmut Ave. and Cabot St., Wd. 18.

17. Ordered, That the Board of Estimate and Apportionment include in their next loan bill a sufficient sum to erect a bridge over the Boston Elevated Street Railway tracks at Travers St., between Haverhill and Canal Sts., the bridge to be used for foot travel.

18. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan order the sum of thirty-six thousand (36,000) dollars for the erection of an engine house at the corner of Calumet and St. Alphonsus Sts., Wd. 19.

19. Ordered, That the Board of Estimate and Apportionment be requested to report in their next loan bill a sum sufficient to extend Alexander St., Wd. 16, from its present terminus to Columbia road.

20. Ordered, That the Board of Estimate and Apportionment be requested to provide an appropriation, as soon as possible, for resurfacing Putnam Sq., Trenton St. from Brooks St. to Prescott St., Prescott St. from Trenton St. to Saratoga St., and Putnam St. from Trenton St. to Saratoga St., Wd. 1.

21. Ordered, That the Board of Estimate and Apportionment report in their next loan the sum of thirty thousand (30,000) dollars for a new building in Wd. 18, to be used as a ward-room, gymnasium and bath house.

22. Ordered, That the Board of Estimate and Apportionment be requested to report in their next loan the sum of eight thousand (8000) dollars for the paving of Shawmut Ave., from Camden St. to Guild Row.

23. Ordered, That the Board of Estimate and Apportionment be requested to provide a sufficient amount in their first loan order, for the establishment and maintenance of an emergency hospital at South Boston, and an ambulance in connection therewith.

24. Ordered, That the Board of Estimate and Apportionment be requested to provide a sufficient sum for the erection and maintenance of a public convenience station, to be erected at the junction of West Broadway, Broadway Extension, and Dorchester Ave., Wd. 19.

Severally referred in concurrence.

On motion of Ald. DIXON, the Board took up special assignment, viz:—

25. Order of notice for a hearing February 13 on petition of the West Roxbury and Rosindale Street Railway Company for a location of tracks in certain streets in Wds. 23 and 24, with the right to use the overhead electric trolley system thereon.

Recommitted to the Committee on Railroads, on motion of Ald. Dixon.

LICENSE REPORTS.

Ald. COLBY, for the Committee on Licenses, submitted reports recommending that permits be granted, in accordance with the following petitions (severally referred today), viz:—

Isaac B. Rich, for a permit for Isabelle Martin, Irene Martin, Ethel L. Foster, Joseph Morrisey, Charles Kelley and Francis O'Brien, children under 15 years of age, to appear at the Hollis Street Theatre for the week ending February 4, 1899.

A. L. Griffin, Mgr., for a permit for Baby Blanche and Gussie Hunt, under 15 years of age, to appear at the Bowdoin Square

Theatre for one week beginning January 30, 1899.

George W. Magee, Mgr., for a permit for Goldie Grafton, under 15 years of age, to appear at the Grand Opera House during the week ending January 23, 1899.

Reports severally accepted; permits granted on the usual conditions.

INCREASE IN COMMITTEE.

Ald. COLBY offered an order—That the Committee on Rules and Orders of the Board of Aldermen consist of five members, instead of three, as heretofore ordered.

Passed.

COLLECTOR'S ACCOUNTS EXAMINED.

Ald. PRESHO—Mr. Chairman, I desire to submit the report of the expert employed by the Committee on Assessing Department to look over the accounts of the collector. The report has been delayed on account of the sickness of the expert, and, as Chairman of the Committee of last year, I make the report. I would move that it be printed and sent down.

(Ald. Prescho submitted the report referred to, giving a schedule showing the results of the expert's examination of the Collector's accounts.)

The report was ordered printed and sent down.

RIGHT TO USE TRACKS.

Ald. BRICK offered an order—That the Superintendent of Streets be requested to inform this Board, at its next meeting, what right, if any, the American Sugar Refining Company has to operate and use railroad tracks in and upon West First and Granite Sts., South Boston.

Passed.

ASPHALTING HARRISON AVE.

Ald. DOYLE offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan bill a sum sufficient for the asphaltting of Harrison Ave., from Northampton St. to East Lenox St.

Referred to the Board of Estimate and Apportionment.

ASPHALTING OF SMITH ST.

Ald. DOYLE offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan bill a sum sufficient for the asphaltting of Smith St., from Parker St. to Huntington Ave.

Referred to the Board of Estimate and Apportionment.

SEVENTEENTH OF JUNE.

Ald. PRESHO offered an order—That a special committee, to consist of three members of this board, with such as the Common Council may join, be appointed to make arrangements for the celebration of the Seventeenth of June.

Passed. Sent down.

REFUND OF SEWER ASSESSMENT.

The Chairman presented the petition of Hannah E. Dennis, by John Dennis, Adm., to be refunded \$50 paid by her in 1890 for use of sewer in Everett St., Brighton, and in connection with the same an order—That the City Treasurer be authorized to refund to the estate of Hannah E. Dennis the sum of Fifty Dollars, being the amount paid by her for right of drainage into the public sewer in Everett St., Brighton, she being now assessed for her proportionate part of the cost of sewer built in Everett St. in 1896, said sum to be paid from the amount received for entrance fees, Sewer Division.

Passed. Sent down.

**ABOLITION OF GRADE CROSSINGS,
EAST BOSTON.**

Ald. DAY offered an order—That the City Engineer be directed to prepare plans and estimates of the cost of such alterations of all the crossings of railroads and public ways in that part of Boston called East Boston as will avoid crossings at grade, in accordance with the provisions of Chapter 491 of the Acts of 1895, entitled "An act relative to the grade crossings of railroads and public ways in East Boston."
Passed.

MARINE PARK AT JEFFRIES POINT.

Ald. DAY offered an order—That the Board of Estimate and Apportionment be requested to consider in the first loan report a sum sufficient to establish a marine park and playground at Jeffries Point, Wd. 2.
Referred to the Board of Estimate and Apportionment.

REMOVAL OF TREE.

Ald. DAY offered an order—That the Superintendent of Public Grounds be requested to remove a dead tree standing in front of estate 182 Princeton St., East Boston; the expense attending the same to be charged to the appropriation for Public Grounds Department.
Passed, under a suspension of the rules.

FACILITIES FOR REACHING FIRES.

Ald. McDONALD offered an order—That the Fire Commissioner be requested to so arrange it that, in responding to fires, the captains of the respective engine companies be provided with better means of reaching fires than riding on the tender of the engine; the expense, if any, to be charged to the appropriation for Fire Department.
Referred to the Committee on Fire Department, when appointed, on motion of Ald. McDonald.

**ADDITIONAL PRIMARY SCHOOL,
DORCHESTER CENTRE.**

Ald. ADAMS offered an order—That the School Committee be requested to provide an additional primary school building in the Dorchester Centre district, Wd. 20.
Passed. Sent down.

VEHICLE ON SIDEWALK.

The CHAIRMAN offered an order—That permission be granted to Charles Huntington, a minor, to use a small vehicle on the sidewalks on Huntington Ave., for the purpose of propelling himself therein, between his residence and the Volkmar School, on said avenue.
Passed.

**PAYMENT TO WIDOW OF FIREMAN
MCDONALD.**

The CHAIRMAN offered an order—That there be paid to Annie McDonald, widow of Martin F. McDonald, a member of the Fire Department killed in the performance of duty, January 23, 1899, the sum of three thousand dollars.
Referred to the Board of Estimate and Apportionment.

RECESS TAKEN.

The Board voted, at 4 o'clock P.M., on motion of Ald. Dixon, to take a recess subject to the call of the Chair.

The Board reassembled in the Aldermanic Chamber at 4:43 P.M.

PUBLIC IMPROVEMENTS.

Ald. O'TOOLE, for the Committee on Public Improvements, submitted the following:—

(1) Reports on the following petitions

(severally referred today), recommending that leave be granted, viz.:—

Albert J. Benfield, for leave to project a sign at 1051 Washington St.

W. F. Healey, for leave to stand a night lunch wagon at the junction of Shawmut Ave. and Tremont St.

Julius Johnson, for leave to project an illuminated sign at 930 Washington St., Wd. 9.

Reports severally accepted; leave granted on the usual conditions.

(2) Report on the petition of George W. Tenney (referred today), for leave to place a tin sign on framework now around a tree at 429 Columbus Ave.—Recommending that the petitioner have leave to withdraw.
Accepted.

(3) Report on the petition of James P. Stearns and another, Trustees, (referred today), for leave to maintain and use for storage of coal, merchandise, etc., the space under sidewalk in front of estate 41-57 Clinton St.—Recommending the passage of the following:—

Ordered, That the Superintendent of Streets be authorized to issue a permit to James P. Stearns et al., Trustees, to construct, maintain, and use an area, with one coal hole opening with iron cover, under and in the sidewalk in front of estate on Clinton and Commercial Sts., Wd. 6, as shown on a plan on file in the Permit Office of the Street Department; the work to be completed on or before December 31, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.
Report accepted; order passed.

(4) Report on the petition of A. T. Donovan, (referred today), for leave to construct an area—Recommending the passage of the following:—

Ordered, That the Superintendent of Streets be authorized to issue a permit to A. T. Donovan to construct, maintain, and use an area, 44 ft. by 7 ft. 5 in., with two coal hole openings, not exceeding 18 inches in diameter, with iron cover under and in the sidewalk, in front of estate No. 296-302 Harrison Ave., Wd. 9; the work to be completed on or before Dec. 31, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.
Report accepted; order passed.

(5) Report on the petition of George I. Robinson, Jr., (referred today), for leave to erect lamps temporarily—Recommending the passage of the following:—

Ordered, That the Superintendent of Streets be authorized to issue a permit to George I. Robinson, Jr., to erect, maintain and use, for the period of two months, posts with plain, unlettered incandescent lamps thereon—one each in Dewey Sq. and Central Sq.; the location of said lamps to be approved by the Superintendent of Streets.
Report accepted; order passed.

(6) Report on the Mayor's message (referred Jan. 23) transmitting a loan order for \$1,000,000 for sewerage works—Recommending that the message be sent down, and that the order be passed.

The report was accepted, and the question came on the approval of the order.

Ald. DOYLE—Mr. Chairman, on that question I ask for the yeas and nays.

Ald. BERWIN—Mr. Chairman, I have no objection to the ordering of the yeas and nays, but I shall vote against the passage of the order. The matter has not been discussed in the Committee on Public Improvements. From my years of experience in this board, however, I am convinced that it is a matter of votes. Those in favor of the passage of the order seem to be in the minority, and for that reason I hardly assume that an argument of mine will operate against its passage. I do wish to say, however, that one of the reasons why the order should not pass this afternoon is simply this. There is now pending before the

legislature a bill asking for the repeal of the act creating the Board of Apportionment; there is also a bill before the legislature asking for the repeal of this particular act, authorizing this board to pass a vote for the expenditure of one million dollars for sewers. There is also pending before the Supreme Court a bill in which the legality of this assessment has been questioned.

These various reasons, Mr. Chairman, are in my opinion, good reasons why this Board should not take any hasty action in the line of passing this million dollar loan bill, because, if the board does pass it this afternoon, there is a question in my mind whether His Honor the Mayor would allow these bonds to be issued in the event of the Supreme Court acting unfavorably upon the petition of the city. From all I can learn and from the arguments that have been advanced, from general information that comes to me, I have reason to believe that the Supreme Court will, in all likelihood, render a judgment contrary to the position assumed by the city. I don't know that I can offer any stronger argument against the passage of this order today, inasmuch as I am not in physical condition to speak at length upon the questions this afternoon; but I think the board will show good judgment in allowing the matter to be further delayed, because no action one way or the other on the part of this honorable body can affect the matter. Under the new act creating the Board of Apportionment we are given the power to decrease, and not to add to, appropriations. Under the existing conditions, if this board takes no action upon the matter, within the limit of time prescribed by law, the order will become operative without our consent. The bonds can then be issued, and the board of apportionment must then assume the responsibility, and not this honorable board.

Ald. O'TOOLE—Mr. Chairman, the alderman from Wd. 6 (Ald. Berwin), puts it very tersely when he says the Supreme Court may rule against this new sewer assessment law. We have no reason to believe that they will give any immediate decision upon that matter. It may take them three, four or five months to render judgment upon it. In the meantime, certain sewers that have been constructed in the last several years have cost the city of Boston thousands of dollars, and the work on them has got to be stopped unless some such action as this is taken.

Take, for instance, the Canal St. sewer, which has been one of the biggest undertakings of the city of Boston in the sewer line for a great many years. It has been of great value to the particular part of Boston where work upon it has been carried on, and I would like to ask the gentleman from Wd. 6 if he would like, after the spending of thousands of dollars down in that section on the Canal St. sewer, as far as Cross St., in the business section of the city, to see the city of Boston put a bulkhead there and lose the amount of money expended on that sewer? In my own district we have a sewer similar to the Canal St. sewer. We spent thousands of dollars to construct it, and the same argument holds good there. If we have a bulkhead put in there, work on the different tributaries, sewers in that particular region has got to be stopped. Money has been thrown away in other ways, if we do not take immediate action which will make the work already done valuable. We are told that the Legislature may act upon this matter. I can assure the gentleman, being conversant with Legislative matters, that these bills go into committees and remain there for weeks and months; and I can also assure him that without any decision being rendered by the Supreme Court, the Legislature will not act upon this matter. It is important that we should have this million dollars to

construct the sewers of the city of Boston.

Ald. COLBY—Mr. Chairman, I do not agree with my colleague from Wd. 6 (Ald. Berwin) in his reasons for not voting for this order at the present time excepting in one particular. I do not think it is at all important, so far as we are concerned, what the Legislature may or may not do. As the matter stands at the present time, there is this law upon the statute books and we are bound by it, and the mere fact that at some time the Legislature may repeal it ought not to govern our action in the slightest degree. But it is a fact, as has been stated by the Alderman, that an action has been brought in our court so as to test the validity of this act. That has been urged before the Supreme bench, and we are simply awaiting the decision of the full court. It will probably come down very shortly, as the court understands the exigencies of the case.

Now, my position in the matter is simply this, that so long as this matter is before the Court in its present shape, and there is uncertainty with reference to the constitutionality of the act, I don't see how the loan can be negotiated. If we should pass this order today and the Mayor should advertise for bids, I don't see how anybody would make an offer under it, because there is a strong possibility that, after they had advertised for bids and were undertaking to float the loan, the act would be found illegal. That is what a decision against the city would mean. I am as anxious to see men at work as anybody, if there is anything for them to do, and I certainly do not wish to see thousands of dollars' worth of work upon the sewers come to naught by reason of any action on our part. But I imagine, in the financing of the city's affairs, it will not be necessary to throw a large number of good men out of employment or let work which has already been done go to waste, by reason of the failure of the Board to pass this loan this afternoon. I don't think the relation between the two is as absolute and positive as some would give us to understand. I had hoped that before this matter came up this week, we would know something as to when a decision in the pending case would be rendered by the courts; and I think it is a rather peculiar thing to ask us to pass a loan of this kind when there is very grave doubt whether the loan will be legal when passed. I had hoped that the members of the majority here would be willing to let this matter stand for another week or so, until something could be done about it. Certainly, the city will gain nothing by the passage of this order today. This loan can never be negotiated in the open market until the legal question is settled; and if, on the other hand, the city is going to do the work with its own money, money it now has on hand, it seems to me the city can find that money and appropriate it for these purposes without acting in this special way. As I say, I shall vote against the order, not because I do not believe in it, because I do. We are under obligation to pass it if it is in proper shape; but, on account of the uncertainty and the fact that we are not putting a good marketable loan on the market, I shall vote "No." I presume the vote of the Board will go the other way. But the result will be that no money will be had from outside. If any money is used under the million dollar act, before the decision of the supreme court, it will simply be money that the city has today, which it transfers from another pocket to this. I presume if the men in power wanted to do that, they could do it without this order, and could have done it some time ago.

Ald. BRICK—Mr. Chairman, it seems to me, as has been already stated, that there is an urgent necessity for the passage of this loan. From what I can gather from

reading the arguments and the statements in regard to the case in the newspapers, the question in controversy before the Supreme Court is the manner of assessment. It is a mere questioning of the sinking fund method, not of the legality of the loan. As I understand it, the loan itself would be entirely legal, although the manner of assessment, with the sinking fund method, may be declared illegal. Therefore, I can see no harm in passing the order today. It aids the city government and the employees of the Sewer Department, and facilitates the work of building the sewers. I, therefore, hope the order will pass today.

Ald. **PRESHO**—Mr. Chairman, I shall vote for this measure, but I don't want my vote to be construed as in favor of the last part of this act—that is, the sewer assessment. I am totally opposed to that. I don't believe there is any necessity for throwing these men out of work—not the slightest—although I believe that, as soon as the act passes, the men will go to work and as long as we hold back action on the act the men will be kept out of work. That is merely done by the Mayor to force us to pass the act. Therefore, I will vote for the act, on the ground that the men will then go to work and will be able to obtain a livelihood. I believe if this matter should have come up before election time the men would never have been ordered out. They were simply ordered out to force us to pass this act.

Ald. **DOYLE**—Mr. Chairman, in asking for the yeas and nays on this question, I did it in good faith, so that the matter might be brought up and finished today. It is entirely wrong that 1200 men working in the Sewer Department should be laid off at this time of the year. I believe if the loan bill passes today the men will go back to work again immediately. If the city had nothing to do and no money to spend, it would then be different, because there would be some ground for laying the men off. But, as I understand it, there are a great many large sewers in course of construction, which have to be built, and there is plenty of work for the men to do and no money to pay for it. Consequently, I hope the order will be passed today, so that the men will be put back to work in the Sewer Department.

Ald. **COLBY**—Mr. Chairman, I would like to ask the last alderman who spoke a question—as to whether he knows and can give the board the information that the men discharged have been discharged because of the failure of the board to pass this order, and whether he has any information that if this is passed the men will be put to work?

Ald. **DOYLE**—Mr. Chairman, I will say, in answer to that, that I have no absolute knowledge of the matter; but it seems to be the general consensus of opinion that if this loan order is passed the men will go back to work. I have not got it from any official source, but it seems to be the general opinion.

Ald. **MCDONALD**—Mr. Chairman, I shall certainly vote for the measure before the board, for the principal reason that this provision for sewers has helped the outlying sections of the city. I think it was a very wise act which the legislature passed appropriating one million dollars a year for sewers. We built many sewers last year under the act, and I cannot see why we should not go ahead under this act and build sewers. It is not for us to remain quiet and wait until the court decides on the petition before it. In passing this order we will have done our duty, and then let the courts take care of the matter hereafter.

Ald. **BERWIN**—Mr. Chairman, I do not rise to apologize for my position upon this matter. As I stated before, if my physical condition were better I believe I could offer some very strong arguments why this order should not pass. But I

do honestly believe this, that whether we pass this million dollar loan or not, the men in the sewer department will be taken back from time to time, as the demands and the condition of the department require. This is the annual bluff that the board has to submit to. I had an experience of the same kind in connection with the organization of the board last year. One of the strong reasons offered why we should organize was that we might pass a loan order, in order that the men employed in the sewer department might go to work. But there is no assurance that the men who have been discharged will be taken back. I have my suspicions that it is the same old weeding out which takes place every year in order to make places for the constituents of new men coming into the city government. That is the scheme of those in power every year, to make places for somebody, and the only way to get rid of those whom they desire to drop is to present the antediluvian bluff, saying: "We have no money and the men have to be turned out of employment." But, as soon as the money is appropriated, you will find a lot of new men at work; and I have very strong doubts in this case whether the old men who have been working there for years are going to get back. But that is neither here nor there.

I am opposed to the passage of the loan order for the reasons I first gave, and am opposed to the sewer assessment act on general principles. I do not believe in it. I know any number of people who have paid for building sewers and who are today paying for maintaining them; and who have been put to a great deal of additional expense in connection with sewers. We have no absolute knowledge of how this money is to be spent. The Alderman from Dorchester (Ald. McDonald) speaks of sewers being built out his way, but I don't know of any assurance from the Board of Apportionment or, as far as I can learn, from the Street Department, that any particular sewers are to be built. We don't know whether they will build sewers for months to come; we don't know what disposition will be made of the money. The law says that a million dollars may be raised for sewers, and immediately we have an order brought in here to raise the entire million dollars. It reminds me of the man in the lunch business. Somebody went to his place and got a sandwich and a glass of beer, for which the proprietor charged him seventy-five cents. The man said, "What do you charge me that for?" "Because I want the money." That is about the situation in that department. They are authorized to borrow one million dollars and they want every copper of it at once. Why don't they come in here in a reasonable way and say, "We want \$100,000," or "We want \$200,000, and as the work develops we will come in and ask for more?" The fact is, as Ald. Colby has told you—and I agree with him in his views on that point entirely—that they cannot place this million dollar loan while this matter is pending in the court. Everybody familiar with finances knows that. No man who is loaning large sums of money will take such chances. So there is nothing to be gained by hurrying this along. If we pass this order immediately, we are simply submitting, as I said before, to the annual bluff that we are invariably subjected to whenever we attempt to delay any matter upon good and reasonable grounds. As I have already stated, I am not apologizing for my position upon this matter. I believe my constituents will support me in the position I have taken, which I believe is the right position.

Ald. **COLBY**—Mr. Chairman, the gentleman from my ward (Ald. Doyle) said he had no definite information whether the men were discharged by reason of the failure of the board to pass this or not,

and didn't know whether, if the board passed the order, they would be set to work. I have received a little information, however, from a man who stands very high in the official circles of the city, and who says that all they want under this order proposed to be passed today is five thousand dollars to ten thousand dollars at the outset, that that will last them for some time. Now, if that is true, and they want but \$5000 to \$10,000, how far will that go towards employing the 1200 men who are now out of work? It is very evident that it would not give them many days' work. So I think it is hardly fair to ask us to put this through today, on the ground that by not putting it through we will deprive good men of an honest reward for their labor. I don't see how we will be helping the men any by passing the order now in its present form, in view of the general situation upon this sewer question. That is my only objection.

Ald. O'TOOLE—Mr. Chairman, I will simply say in answer to the alderman from Charlestown (Ald. Presho) and the alderman from Wd. 6 (Ald. Berwin) that anybody in the board who votes for the million dollar loan this afternoon does not therefore necessarily believe thoroughly in the assessment law. The fact is that the emergency has arisen, and it is the proper time for us to raise this money under the legislative act. In answer to the alderman from Wd. 12 (Ald. Colby), I will simply say that if we followed out the rules upon which he is arguing today we would not have any of these men employed. The fact is that \$5000 or \$10,000,

as he must know from his connection with the city government in the past, is such a small amount in the transaction of the business of a great metropolitan city like Boston, that the idea of raising such an amount to pay the men in the sewer department is simply ridiculous, absurd. I will say that if this million dollar loan bill passes today the Sewer Department will go along working on the basis that it has been working in the past. I hope the million dollar loan will pass.

The order was passed, yeas 10, nays 2, Aids. Berwin and Colby voting nay. Sent down.

LEAVE GRANTED ON PETITIONS.

Ald. COLBY presented the petition of James P. Stearns and another, trustees, for leave to construct basement floor of building 44-50 Clinton St., Wd. 6, at grade 7.33.

On motion of Ald. Colby, leave was granted under suspension of the rule.

Ald. O'TOOLE presented the petition of George Bleiler, Jr., 32 Bedford St., for an illuminated sign.

On motion of Ald. O'Toole, leave was granted on the usual conditions.

GENERAL RECONSIDERATION.

Ald. CODMAN moved a general reconsideration of the action taken on all papers today, trusting the same would not prevail; lost.

Adjourned, on motion of Ald. Codman, at 5.15 P. M., to meet on Monday, February 6, at 3 P.M.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, February 2, 1899.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7:45 o'clock P.M.

Mayor's Office, City Hall,
Boston, Feb. 2, 1899.

To the City Council:—

I transmit herewith a copy of a circular issued to heads of departments, in relation to a reduction in salaries and wages during the current financial year. It is clearly inequitable that the larger salaries fixed by ordinance should remain unaffected while smaller ones are reduced; while I believe that the reduction requested by me will be voluntarily accepted by heads of departments and other officials whose salaries are fixed by ordinance, it seems to me proper that this reduction should be provided for by an amendment of section 5, of chapter 3, of the Revised Ordinances, by which salaries are now fixed. I therefore recommend the passage of the accompanying ordinance.

Respectfully submitted,

Josiah Quincy, Mayor.

City of Boston, Office of the Mayor,

To the Heads of Departments:—

Gentlemen: Your attention is called to the appropriation for your department for the coming financial year contained in the maintenance budget, passed by the Board of Apportionment on January 28, and transmitted today to the City Council. As the latter body cannot raise the amount of any item, there is no possibility of an increase in the sum appropriated for your department; you are, therefore, requested to calculate at once a scale of weekly or monthly expenditure which will carry your department through the financial year upon the basis of such appropriation, and I feel it necessary to positively direct that your expenditures be kept strictly within this amount, whatever may be the restriction of the service of your department which may thereby be entailed. In the past the probability of a surplus income in excess of the estimates enabled the Mayor to allow a certain amount of latitude to the departments; this year there is no such surplus in sight, and the only possible manner in which any appropriation can be added to is by transfer from the reserve fund—and this is not to be reckoned upon, as it is only intended to meet extraordinary exigencies, and is very limited in amount. It must be distinctly understood that when any department has exhausted the amount of its appropriation, it will neither have any authority to incur, or any method to meet, any additional expenses, and its service will have to be entirely discontinued; the only way to avoid such an unfortunate result is to establish a scale of expenditure from the very beginning of the financial year which can be continued—with due allowance for the variation in expenses at different seasons—within the amount appropriated, to the end of the financial year.

I have reluctantly concluded, after full consideration, that the amounts of the department appropriations—falling as they do not only far below the estimates, but in many instances below the appropriations or expenditures for the financial year now closing,—require some general horizontal reduction in the amount of all salaries, and of certain wages, paid by the city. The situation obviously compels either the suspension of a considerable number of employees whose services are actually required for the proper operation

of the departments, with consequent impairment of the municipal service and injury to the interests of our citizens, or a general reduction in the scale of compensation paid to officials and employees.

It seems to me clear that it is only practicable, or fair, to make such a reduction at a uniform horizontal rate, applicable to all of the departments; while I am aware that this will work hardship, and perhaps injustice, in many cases, I can see no other course; the necessity arises from the limitation of the tax-rate established by statute law, and not from any failure on the part of the Mayor, the Board of Apportionment, or the City Council to appreciate the financial needs of the various departments as exhibited in their estimates, or as demonstrated by past experience. The question presented is not how much the city could wisely expend during the coming year, but in what way an amount limited by law can best be made to meet the various necessities and demands of the municipal service; the policy adopted has been that of making each department bear its share of the financial pressure, regardless of the character of the service rendered by it. I desire distinctly to disclaim any intention of expressing, or implying, the opinion that the scale of compensation now paid by the city is too high, or that it can be reduced with justice or with real advantage; my position is merely that this measure of reduction is necessary under the financial conditions which confront the city.

You are, therefore, directed to proceed at once to make a reduction of seven and one-half per cent in all salaries paid in your department of one thousand dollars (\$1000) a year or more, and of five per cent in all salaries amounting to seven hundred dollars (\$700) a year and not exceeding one thousand dollars (\$1000), and also to make a reduction of seven and one-half per cent in all wages amounting to three dollars and twenty-five cents (\$3.25) a day or more, and of five per cent in all wages not less than two dollars and fifty cents (\$2.50) a day and not exceeding three dollars and twenty-five (\$3.25) a day. In view, however, of the practical difficulties in the way of reducing the wages of certain classes of mechanics or laborers who perform work of just the same character as that performed for private employers below the full standard established in such employment,—where there is such a recognized standard—and of the objections to having the city exert an influence to reduce any recognized scale of wages prevailing among private employees, I think it necessary to have certain exceptions made in the reductions of wages above ordered, and heads of departments will, therefore, confer with me before putting such wage reductions into effect. It is expected that the reductions above called for will be made on the next pay-roll upon which it is practicable to make the necessary alterations in compensation.

While I have no legal authority to order the reduction of salaries paid to heads of departments and established by statute or by ordinance, it is obvious that the same considerations which require the decreases above mentioned also demand a voluntary reduction, in the same ratio, in the salaries received by such officials. They are, therefore, requested and expected to have their own rate of compensation placed upon the pay-roll with a reduction of seven and one-half per cent.

Yours respectfully,

Josiah Quincy, Mayor.

January 30, 1899.

An Ordinance to Amend Section Five of Chapter Three of the Revised Ordinances. Be it ordained by the City Council of Boston, as follows:—

Section five of chapter three of the Revised Ordinances of eighteen hundred and ninety-eight is hereby amended by adding at the end thereof the following:—

"Provided, however, that during the financial year 1899-1900, the several salaries above specified shall be fixed at sums seven and a half per cent less than the several amounts above named."

The communication was read, and, by the direction of the President, the Clerk began to read the particulars as to the heads of departments.

Mr. HARVEY of Wd. 24—Mr. President, in view of the length of the communication, I move that the reading be dispensed with, and that it be printed and assigned to the next meeting.

The PRESIDENT—If the gentleman does not object, the Chair desires to have the communication read, for the information of the Council. If the gentleman is willing to withdraw his motion, the Chair would like to have the communication read, in view of certain acts that may come before us for consideration at the next meeting.

Mr. HARVEY—I withdraw it.

The PRESIDENT—The Clerk will proceed.

The Clerk proceeded with the reading of the circular, and when he had finished, Mr. Donovan of Wd. 7 moved that the communication, with enclosures, be referred to the committee on ordinances, when appointed.

Mr. WATSON of W. 18—Mr. President, I move as an amendment, that it be printed and assigned to the next meeting.

The PRESIDENT—The Chair will state that the amendment is not in order at this time.

Mr. BAGLEY of Wd. 1—Mr. President, I have an order that I desire to offer in connection with that message.

The PRESIDENT—The Chair will state that the question now is on reference to the Committee on Ordinances, when appointed, and orders are not in order.

The motion to refer the matter to the Committee on Ordinances, when appointed, was carried.

PAPERS FROM BOARD OF ALDERMEN

1. Ordered, That a special committee, to consist of five members of this Board, with such as the Common Council may join, be appointed to make arrangements for the celebration of the Seventeenth of June.

Passed in concurrence.

2. Ordered, That the School Committee be requested to provide an additional primary school building in the Dorchester Centre District, Wd. 20.

Passed in concurrence.

3. Ordered, That the City Treasurer be authorized to refund to the estate of Hannah E. Dennis the sum of fifty (50) dollars, being the amount paid by her for right of drainage into the public sewer in Everett St., Brighton, she being now assessed for her proportionate part of the cost of sewer built in Everett St. in 1896, said sum to be paid from the amount received from entrance fees, Sewer Division.

Referred to the Committee on Claims, on motion of Mr. Wood of Wd. 20.

4. Mayor's message transmitting, under the provisions of chapter 434 of the Acts of 1898, the following order passed on January 12, 1899, by the Board of Estimate and Apportionment, under said act; the same coming down without any alteration, viz.:

Ordered, That the sum of one million (1,000,000) dollars be appropriated for the construction of sewerage works, under the provisions of chapter 426 of the Acts of 1897, and acts in amendment or addition thereto, and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The communication was placed on file, and the question came on giving the order a second reading.

The PRESIDENT—The Chair desires to make a statement, as a representative of

the Council on the Board of Apportionment, in connection with the order just read by the Clerk. The order appropriating one million dollars for sewerage purposes came before the Board of Apportionment for consideration about two weeks ago. Mr. Wells, the Superintendent of Streets, presented certain facts to the Board of Apportionment, upon which he asked for this appropriation of one million dollars. Feeling that the financial condition justified me, both as your representative, and as a member of the Board of Apportionment, in inquiring into the details for which this money was to be expended, I made certain inquiries of Mr. Wells with reference to this million dollars. He stated to me that the money already within the control of the Sewer Department would carry the employees of that department over the first of February. It then would be necessary for the City Council to appropriate upwards of \$313,000 to carry on work already contracted for by the city of Boston. Feeling satisfied that the Council would approve my action in voting for a sum sufficient to carry on work already under headway, and also feeling that I would be justified in voting for a liberal amount for that purpose, I amended that order as sent in by Mr. Wells, so as to appropriate \$500,000 for this purpose, saying to Mr. Wells that he might continue with the work already under headway; and when he needed more money he could come to the Board of Apportionment, ask for it, explain and itemize the purposes for which it was to be used, and if the purposes were proper, the Board of Apportionment would grant the money. Upon that proposition being made by me, a vote was taken, and it was rejected by a vote of four to one. I, therefore, voted against the appropriation of one million dollars for sewerage purposes without an itemized and detailed account of the purposes for which it was to be used. I voted then for \$500,000. I am still willing to vote for \$500,000. I feel that the Council is entitled to an explanation of my action on the Board, as your representative upon that body. The Chair now awaits the pleasure of the Council upon No. 4 on the calendar.

Mr. LINEHAN of Wd. 13—Mr. President, did Mr. Wells say that this work would be let out by contract?

The PRESIDENT—The Chair desires to state, for the information of the gentleman from Wd. 13, that he believes the greater portion of it is done by contract.

Mr. LINEHAN—Mr. President, I think it is evident to every member of the Council, the condition of work that the city has been getting by contract. The citizens of Boston have been deriving no benefit whatever from work let out by contract. Go out along the roadway, Columbia Road, or any similar place, and see the men that are working there! Are they citizens? They are working for \$1.10, and working nine hours a day. Now, Mr. President, if this money is to be provided for sewer work, I want to see the citizens of Boston get the benefit of it. Eleven hundred and some odd men have been laid off for no other purpose than to compel the representatives of the people to vote for this one million dollars, which it is intended to go to fatten the pockets of cheap contractors, who are employing cheap labor.

Mr. Walker of Wd. 25 moved to amend the order by reducing the amount from one million dollars to \$500,000.

The question came on the adoption of the amendment.

Mr. WALKER—Mr. President, just one word on the proposed amendment. I believe, with our President, that on general principles the business method in this case should be for the street commissioners, or for the sewer division, to present an itemized account, specifying the pur-

poses to which this money is to go. I think that if we were conducting a business ourselves which involved the expenditure of a great deal less sum than this, we would observe these principles, and it seems to me it is incumbent upon a great city like the city of Boston to be especially careful in regard to the expenditure of this money.

It seems to me we have here a duty to perform. We have here a trust which has been reposed in us by the city of Boston. We should be very careful in every step that we take in regard to the finances of the city. I believe that, on general principles, I believe also, in this particular case, that there are additional reasons why we should be so. We know there is a case in the hands of the Supreme Court at the present time for decision. That decision may not be handed down for some time, but at the same time there is a possible adverse decision hanging over the head of the city. At any time this adverse decision may come in, and may make utterly invalid and unconstitutional the act under which we are allowed as a city to negotiate this loan. It seems to me, therefore, that we should be especially careful under these circumstances. To put it a little more plainly, if this adverse decision comes what will happen? In a great many cases I am not sufficiently informed to be able to say in every case, the sewer assessments which have been paid under the statute will have to be refunded. I believe there is a statute which says suits for the refunding of taxes paid under this assessment must be brought within ninety days if the taxpayers wish to protect themselves. But, in any case, there will be a large amount of money to be refunded, and the bonds which have been negotiated, the million dollars worth of bonds which were negotiated last year—what is to become of those? I believe at the present time we are in financial straits sufficiently sore for us to pause and to reflect whether we want to get into the mire still deeper. It seems to me that for this reason the Street Commissioners should not come to us with a request for a million dollar appropriation, when we do not know where the money is to go to. I am therefore in favor of this amendment which I have presented. I believe that money is necessary at the present time to carry on the sewerage work.

We all know that there are certain very important features of work now in progress—notably the Moon Island work and the sewer in Canal St.—which should go on uninterruptedly. I think we can all see that. Now, I am willing to give enough money for the immediate necessities of the Sewer Division at this time. In order, also, that the laborers, who have been laid off for the present may be reinstated, or, at least a large number of them, and that the necessary work of the city may go on without interruption, I am willing to vote for this amount; but I am not ready, for one, to vote for a million dollar appropriation in a lump sum, without knowing where it is going to. I believe that \$500,000 will be ample for the work of this division for a good while to come, and when more is necessary let them come to us and bring us an itemized account, specifying where the money is to go to. Then, we will decide whether we will give it or not. At the present time, in the poverty-stricken condition of our city, it seems to me that any other policy would be very short-sighted.

The question came on the adoption of Mr. Walker's amendment.

Mr. HICKEY of Wd. 2.—Mr. President, I rise to say a few words in opposition to the amendment offered by the gentleman in the first division (Mr. Walker) and also to say a few words in support of the passage of the original order. When the Chair, as our representative on the Board of Apportionment, states that \$313,000 is

necessary to carry on the work already under process of construction, it seems to me that \$500,000 does not leave a sufficient balance on hand with the superintendent. I am strongly in favor of giving the Superintendent the entire amount asked for, for the simple reason that there are to-day several very important matters under consideration—not only the Moon Island Sewer, and the sewer on Canal St., completed thus far only as far as Cross St., but also a great deal of tributary work in various sections of the city—that should be attended to.

Reference has been made by the gentleman who was on his feet a moment ago to an adverse decision that might possibly be handed down by the Supreme Court. In reply to that statement I wish simply to say that, although the sinking fund method of assessment may be determined by the Supreme Court to be illegal, the loan itself may be perfectly legal. I maintain that, inasmuch as \$400,000 is needed to carry out the work already under process of construction, and in view of the fact that almost a thousand men are on the streets of Boston today, who, with this one million dollars in proper hands, might secure proper employment—I maintain, under these conditions, that it is the duty of the Council to pass the appropriation as it comes to us on the calendar. I am strongly in favor of the one million dollar loan.

Mr. MULCAHY of Wd. 14.—Mr. President, I rise at this time to say a few words in reference to the order on the calendar. It seems to me that the gentleman from Wd. 25 (Mr. Walker) is very well posted, considering that this is his first year, on the workings of the different departments especially the sewer department. I maintain that the Sewer Department of Boston is the most beneficial department, in my judgment, of the city to the people of Boston. One million dollars is asked for here to carry on the work of that department. I say that one million dollars is not too much to carry on the work of that department and to keep the necessary number of men employed. I hope that when the members vote on this order, they will not hold it up, as they all know, each and every individual member, that this will become a law in thirty days from this date, even if we do not pass it. So I believe each individual member, knowing what the result will be,—especially the democratic members—should vote for this measure, which is a democratic measure. I term it a democratic measure.

The PRESIDENT.—The question is on the adoption of the amendment offered by the gentleman from Wd. 25. The Chair desires to offer a further explanation, which he overlooked the last time he spoke. I have here a communication from the Superintendent of Streets, Mr. Wells, which gives a rough estimate of the cost of finishing work now under process of construction, as follows: This is the work upon which the city employees who have been suspended have been working. The city proper, \$15,438; Roxbury, \$29,428; Dorchester, \$156,566; South Boston, \$3370; Charlestown, \$11,700; East Boston, \$10,600; West Roxbury, \$35,342; Brighton, \$16,255;—making a total of \$313,639, which is necessary to carry on the work at present under process of construction, and to restore the working force of the Sewer Department.

Mr. HICKEY.—Mr. President, I think the statement you have just made is contrary to the statement you made originally. When you read off the first statement, you said that two weeks ago the Superintendent of Streets made a statement to the Board and said that \$313,000 would carry on the work up to February 1st.

The PRESIDENT.—If the gentleman will follow my remarks a little more closely, he will find that the first statement I made was that the amount of money left over at the first of the financial year was suf-

cient to carry the working force of the Sewer Department over February 1st. This is the amount of money which will be necessary to complete the work already under process of construction by the city—namely, \$313,000. Upon that representation of facts, your representative upon the Board of Apportionment voted for the amount of money which he believed was sufficient to cover this work and leave \$175,000 as a balance. The question is on the adoption of the amendment offered by Mr. Walker of Wd. 25.

Mr. Walker's amendment was declared adopted. Mr. Connolly of Wd. 17 doubted the vote, and called for the yeas and nays, which were ordered, and the amendment was adopted, yeas 39, nays 29:—

Yeas—Armistead, Atwood, Bagley, Battis, Brauer, Chamberlain, Cuddy, Donovan, Eddy, Emery, Harvey, Hibbard, Howard, Jordan, Kiley, Klemm, Leftovith, Linehan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Miller, Moore, O'Brien, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Walker, Wells, Winsloe, Wood—39.

Nays—Badaracco, Bennett, Bradley, Brennan, Carroll, Casey, Collins, Connolly, Curley, Doherty, Donahoe, Doyle, Fenton, Gibbons, Hickey, Horrigan, Johnson, Kasanof, Kelley, Leonard, Logan, Madden, Mulcahy, Nangle, Newhall, Rice, Sweeney, Turnbull, Watson—29.
Absent or not voting—Bordman, Broderick, Flynn, Giblin, Martin, Sullivan, Tobin—7.

The order as amended was passed. Mr. Connolly doubted the vote and called for the yeas and nays, which were ordered, and the order as amended was passed—Yeas 41, nays 29.

Yeas—Armistead, Atwood, Bagley, Battis, Bordman, Brauer, Chamberlain, Cuddy, Donovan, Eddy, Emery, Harvey, Hibbard, Howard, Jordan, Kiley, Klemm, Leftovith, Linehan, Lorey, Lydon, MacDonald, Mansfield, McInerney, Mildram, Miller, Moore, O'Brien, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Walker, Watson, Wells, Winsloe, Wood—41.

Nays—Badaracco, Bennett, Bradley, Brennan, Carroll, Casey, Collins, Connolly, Curley, Doherty, Donahoe, Doyle, Fenton, Gibbons, Giblin, Hickey, Horrigan, Johnson, Kasanof, Kelley, Leonard, Logan, Madden, Mulcahy, Nangle, Newhall, Rice, Sweeney, Turnbull—29.
Absent or not voting—Broderick, Flynn, Martin, Sullivan, Tobin—5.

Mr. McInerney of Wd. 19 moved to reconsider; lost. Sent up.

5. Report of M. J. Fitzgerald, public accountant, of an examination made by him, under the authority of the Committee on Collecting Department, of the accounts of the Collecting Department for the fiscal year ending January 31, 1898.

Placed on file.

REPAIRS ON FANEUIL HALL.

The Council proceeded to take up No. 6, assignment, viz.:—

6. Ordered, That the sum of twenty-three thousand (23,000) dollars be appropriated, to be expended by the Engineering Department to meet the expense of the electric lighting, heating, plumbing, painting and plastering work on Faneuil Hall, and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The question came on passage in concurrence with the Board of Estimate and Apportionment.

Mr. STEVENS of Wd. 11—Mr. President, I would respectfully request that No. 6 on the calendar be assigned for another week, and that we be given more definite information in regard to the \$80,000 item passed by this body last year. When that order was up here for a loan of \$90,000, we were given to understand that that would put the building in perfect repair for a term of five or six years at least, without additional expense. Now, that \$80,000 seems to have been spent, and we are asked to appropriate \$23,000 more

to equip it with electric lights, etc. I don't say that I will not vote for the order finally, but in the meantime I move that it be assigned for a week at least and that we be given more definite information in regard to it. I feel this way particularly, considering the financial condition of the city. I think everything of that kind should be thoroughly looked into, and I hope the order will be assigned for another week, so that we may be given the desired information.

The question came on assignment to the next meeting.

Mr. MULCAHY of Wd. 14—Mr. President, it is not of much use, I suppose, to endeavor to offer any arguments against any measure that will appropriate a certain amount of money, after the action of the last vote. Here is an order which definitely states what the money is to be spent for—electric lighting, plumbing and plastering work on Faneuil Hall. The gentleman refers to the \$80,000 appropriated last year; but did the gentleman ever go to Faneuil Hall himself and see whether or not the \$80,000 was spent there properly? Now, Mr. President, it is time that the members of this body should do either one thing or the other. If that gentleman goes down to Faneuil Hall, he will see that the \$80,000 has been spent by the city of Boston, and has been spent properly, and that it has been spent in Faneuil Hall, and no place else.

Mr. LINEHAN—Mr. President, I would like to ask the gentleman a question.

Mr. MULCAHY—Mr. President, I am not here for any cross-examination by any gentleman of the Council.

The PRESIDENT—Mr. Mulcahy of Wd. 14 has the floor.

Mr. MULCAHY—Mr. President, on this order, I move the previous question, and ask that the roll be called.

The PRESIDENT—The question is, "Shall the main question be now put?"

Mr. CHAMBERLAIN—Mr. President, on the ordering of the main question on No. 6 I will state that I was one of the few members of the Council last year who voted against the appropriation of the \$80,000 for Faneuil Hall. I voted as I did for this reason. I yield to no man in the Council in my admiration for any old landmarks or relics of olden times, such as Faneuil Hall, but I believed in the financial condition of the city last year \$80,000 was too much of a sum to spend in putting it in fireproof condition. Here comes in an order for \$23,000 for refitting Faneuil Hall, and I trust that this order will be killed. It seems that in the present financial condition of the city of Boston, when all the employees of the city are subject to a 7½ per cent and a 5 per cent discount, is a poor time to appropriate—

Mr. MULCAHY of Wd. 14—Mr. President, I rise to a point of order.

Mr. CHAMBERLAIN (Continuing)—to appropriate \$23,000 for Faneuil Hall. That is all, Mr. President.

The PRESIDENT—The gentleman will please state his point of order.

Mr. MULCAHY—It is too late now.

Mr. ARMISTEAD of Wd. 11—Mr. President, I trust that the main question will not be put at this hour. I feel that No. 6 on the calendar is an order that demands at the hands of the members of this Council more debate. I am sorry to differ with my friend in the third division when he says that he hopes that this order will be killed. I am more friendly disposed toward the order than that, and I agree with my friend in the Fourth Division, in hoping that it will be assigned.

I trust that the members of this Council, if they do not see fit to pass this order tonight, will render to him the courtesy of allowing it to be assigned. I voted in favor of \$80,000 for Faneuil Hall, and I did so because I believed it was at that time a great necessity. I am of the same belief as the gentleman in the Fourth

Division. The order plainly states the purpose for which the \$23,000 is to be used; yet, I feel, at the same time, that it is an order that requires more debate, and that the members of this body should thoroughly talk over this order before voting one cent towards Faneuil Hall, or any other place. But I was very much grieved, Mr. President, when I heard the gentleman in the Third Division, (Mr. Chamberlain), say the order ought to be killed. I am much afraid he is so deadly opposed to the administration that he cannot countenance a good act when he sees it. I cannot agree with him on those lines, and I hope, Mr. President, that the previous question will not be put, but that the members will be given an opportunity to ventilate their ideas in regard to this matter. I consider that it is a great necessity, and, while I have an eye single to the city's finances and do not believe in spending money needlessly, I believe this is a grave question, and I hope that the matter will be assigned.

The PRESIDENT—Mr. Miller of Wd. 20, three minutes remaining for debate upon the motion for the previous question. The Chair desires to state that if the motion is carried, that it cuts off the motion to assign.

Mr. MILLER of Wd. 20—I desire to correct the Chair. The Wd. 16 representatives might object if I moved into their ward. Now, Mr. President, I wish to say that this seems to me to be simply a business transaction. The condition of affairs at Faneuil Hall at the present time is such that the contractors cannot proceed unless some of the work that is necessary to be done before they can do their work, is done before they go any farther. This is not any bunco game, in any way, shape or manner. They state exactly what they want this for. It is something that is necessary to carry on the work that has been started there. Perhaps I have gone further than Brother Stevens in regard to this matter. I have been inquiring of the people who are engaged on that work, and I think that if the gentleman from Wd. 12, who objects so strongly to this appropriation, should go through Faneuil Hall and make an examination of the work done there, he will see that the money has been spent, that it has been spent in the interest of the city, and that it has been spent by contractors who are above reproach, who figured for this work in a legitimate manner, and who got the work. This is not a matter of politics, or a matter between Republicans and Democrats, but it is a matter of proceeding at once to finish up work that has been started, and it seems to me that every one should be willing to vote to grant them the \$23,000, without any further delay on the part of the Council, as there is no question that the work is being done in a business-like manner.

The PRESIDENT—The time for debate has expired, and the question is, "Shall the main question be now put?"

Mr. MULCAHY—Mr. President, I rise to a question of personal privilege.

The PRESIDENT—The gentleman will please state his question of personal privilege.

Mr. MULCAHY—I desire to withdraw my motion for the previous question.

Mr. CHAMBERLAIN—I object.

The PRESIDENT—The Chair will rule that the question of personal privilege is not a question of personal privilege. (Laughter.)

The motion was put on ordering the main question, and it was not ordered.

The question came on the assignment of further consideration of the matter to the next meeting.

Several members addressed the Chair.

Mr. WATSON of Wd. 18—Mr. President, I rise for the purpose of saying a word in favor of assignment. I am one of the

members of last year's Council who was jolted into voting \$30,000 for Faneuil Hall. I was told by every Ancient in Boston, and from every other place that they could get here, that if we gave them \$30,000 they would preserve old Faneuil Hall—and I, like a lot of other suckers, bit. (Laughter.) Now, Mr. President, it is not my purpose to vote for any more money for Faneuil Hall.

The PRESIDENT—The Chair will ask the Council to be in order.

Mr. WATSON—Mr. President, it is not my purpose to vote for any more money for the preserving of Faneuil Hall until I see more preserving done with the \$30,000 we have already given them. As a matter of fact, Mr. President, when the bids were asked for for the contract, they left out certain plumbing and lighting work in the specifications, giving the builders an opportunity to bid a good, swell price—and they did it. They ate up \$79,000 of the \$30,000, leaving \$1000 for the balance of the improvements. If we grant them this money now, what assurance have we that they will not come in later for \$23,000 more for some other newfangled improvement? Mr. President, I am delighted to see some members get up here and assert themselves and get from under when they see that there is something coming. I am satisfied that the man who is in charge of the work on Faneuil Hall is not a competent man for that purpose. I think that if we grant this money it will be squandered. If I can get sufficiently reliable information that this \$23,000 is absolutely all that is needed, and that it will surely complete the job, I may vote for it, but I trust that assignment will prevail.

Mr. RICE of Wd. 2—Mr. President, this order seems to me to be one of the simplest orders that this Council has had to deal with this year. The gentleman in the fourth division objects to it because it is not explicit enough. I cannot imagine any order more explicit than this is. It distinctly says that the \$23,000 is to be used in electric lighting, heating, plumbing and plastering work, etc. He asks for an assignment for one week, so that he can find out something more definite about the order. I do not see what more definite information he wants than that which is stated in the order. Does he want to know how many lights are needed, how many days plumbing work there is, how many pots of paint will be needed, and so forth? It seems to me very explicit. My friend in the First Division is going to vote for the order. My friend in the Fourth Division is also going to vote for it. They are using common sense here tonight. They think that the providing of this money is the proper thing. The Board of Estimate and Apportionment have passed the order, and they think it should go through here tonight, and that an assignment is not necessary, because the work might be started during the coming week and put a great many men to work. I think the order is proper and fair, and that it should be voted upon tonight and passed.

Mr. JORDAN of Wd. 23—Mr. President, I hope that this will be assigned for one week. I was down to Faneuil Hall yesterday. I don't know what they have done on the top floor, but on the second floor they have torn out the old work, and have simply put in some timber supports. If it takes all of \$30,000 to simply tear out that old work and put in supports, I don't know where the money goes. I know a little of something about such matters, because that is the business I follow, and I want to say that if that is all that has been done, I hope the order will not be passed. I hope it will be assigned for one week.

Mr. HICKEY of Wd. 2—Mr. President, I was one of the members of last year's

Council who voted in favor of the \$80,000 appropriation for this purpose, and I am one tonight who is perfectly willing to vote for the extra appropriation of \$23,000. I hope that the order will be passed by the Council tonight. At any rate, I am willing to have the matter forced to an issue tonight, for the simple reason that it has been assigned one week, and now appears on our calendar as an assignment. I was always ready during my first year, and have always been ready this year, to grant the courtesy of an assignment to any member of the Council who desired it, where there was any ground or reason for so doing; but in this case, where it has been assigned once, and where the purposes for which the money is wanted are enumerated so plainly and distinctly, I am strongly opposed to assignment, and hope that the order will go upon its passage tonight, and that it will be passed, if the Council see fit to pass it, or that it will be defeated, if the majority of the Council see fit to defeat it. I wish to say that I was very much gratified by the talk made by the gentleman in the First Division in regard to the would-be leader of the Republican party in the Council. I hope that such festivities will continue between the Republican members throughout the year.

Mr. LINEHAN—Mr. President, I rise to a point of order.

Mr. HICKEY—Mr. President, I am through, and the gentleman's point of order is not well taken.

Mr. LYDON of Wd. 13—Mr. President, it seems to me we are discussing what we wish to learn during the coming week. Several gentlemen have told us that if we go down to Faneuil Hall we would see that the money had been well spent, and that there is no question how the \$80,000 that was appropriated last year has been spent. It is my opinion that we should go very slow in appropriating money this year—that we should look into everything thoroughly and determine it upon its merits. That \$23,000 is quite a sum of money. It may appear to some to be a small amount, but that is $7\frac{1}{2}$ per cent. on over \$300,000. It would be of interest to city employees if we could save that amount, and I think it would be to the advantage of city employees and of the citizens at large for us to do so. If we could look into this and see what has been done with the \$80,000, and also what will be done with this \$23,000, if we pass it, I think we would be doing the taxpayers a favor.

Mr. LINEHAN of Wd. 13—Mr. President, I hope this matter will be assigned for one week. I would like to ask any member of this Council if he has seen a copy of the original \$80,000 contract, and if they know what is embodied in it? What evidence have we but what these items have been embodied in that general contract? It is customary for all corporations and municipalities to embody everything in one general contract, and to ask for one lump sum to cover it all. I would like to see that general contract and the specifications which go with it, and would like to see if these items are embodied in that or not.

Mr. STEVENS of Wd. 11—Mr. President, I would like to say one or two things in regard to my position on this matter, and particularly do I desire an opportunity to inform my democratic friends as to why I feel as I do. When that order for \$80,000 for the reconstruction of Faneuil Hall was put through, it required fifty votes. There were 50 votes and no more. I was one of the people who worked hard for the passage of that order. I voted for it, and I did so because before that was passed we were given to understand by supposedly the proper authorities, that \$80,000 would equip that hall and supply everything that would be required for a term of five years. I think the period of five or six or seven years was mentioned, and we were told

that \$80,000 would put the hall in such condition that nothing more would be required for that time. I do not wish to cast any reflection upon the contractors, for whom I have the highest respect, but it seems to me that we can properly make certain statements in regard to the people who made the estimates. If they at that time made an estimate that \$80,000 would be sufficient to preserve Faneuil Hall and to put it in perfect condition, I want to know who made estimate that \$23,000 more would be needed for electric lighting purposes, and so forth, and to see just how much can be done with that amount of money? It seems to me we should look into the matter thoroughly, for, as it now stands, we do not know but what they will bring in an order later for \$15,000 more, stating that they need that amount to finish the work. That is the reason why I want this order assigned.

The PRESIDENT—The Chair desires to state, for the information of the gentleman from Wd. 11 that the same gentleman made the estimates for the \$23,000 who made the estimates for the \$80,000. The same gentleman appeared before the Board of Estimate and Apportionment in regard to the matter. The question is on assignment.

Mr. MILLER of Wd. 20—Mr. President, I will say that I don't doubt that the speaker is perfectly right in his statement, but I doubt the ability of this Council, if every item was brought in here on electrical work, plastering, painting and all the different kinds of work, to form any intelligent judgment in regard to it. I doubt whether the members will be any better able to judge whether \$23,000 would complete that building after the items had all been placed before us than they are at the present time. There have been several reflections made in regard to the expenditure of the \$80,000. If the gentleman will look back, he will see that all this work was put out by contract and was figured upon by responsible parties and the party who received the contract, on the lowest bid, is above reproach in any way, shape or manner, whether he has two studs or ten studs placed in that building. The contractors figured on that contract and received it at a certain sum of money, and have carried out their work as far as they can proceed on this contract, until certain necessary parts of the work, in the way of wiring and other such things, are attended to. It is not that the \$80,000 has been spent at the present time. The present contractors have a great deal of work to do, but they cannot go farther with their work until an appropriation is made under which different contracts necessary in connection with that building may be sublet. That is the reason why I am in favor of this order being passed tonight, because I think we know as much about it now as we will a week from now. I, for one, want to see Faneuil Hall finished and put in proper condition. I don't want to see this Council drag the matter out from week to week.

Mr. WATSON of Wd. 18—Mr. President, I want to put myself in a proper light before the Council and the citizens of Boston. If I said anything which can be construed into a criticism of the contractors doing the work, I desire to withdraw my remarks in that respect. My reference was intended for the Superintendent of Public Buildings, for all he knows about Faneuil Hall is simply what he has written about it—nothing else. He doesn't know a piece of maple from a piece of pine. I made no reference to the contractors, and, as a matter of fact, I don't know who they are. I hope I have put myself right.

Mr. MULCAHY of Wd. 14—Mr. President, I cannot understand the action of some members who desire a postponement of

this order. Do they not consider that this is the most valuable piece of property the city of Boston possesses today? This building, I understand, turns in \$80,000 yearly in rent. Now, the question is simply this—whether the members of this body are in favor of giving the department \$23,000 to put this building in condition or not.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I am very glad that the disturber of the peace from Wd. 2 is so hilarious over the threatened break in the Republican ranks. He listened to a very good speech by my friend from Wd. 11 (Mr. Armistead), referring to me, and then jumps to the conclusion that we are going to have a—

Mr. HICKEY of Wd. 2—Mr. President, I rise to a point of order, that the gentleman is not talking to the question.

The PRESIDENT—The Council will be in order. The gentleman from Wd. 2 rises to a point of order. The gentleman will state his point of order.

Mr. HICKEY—Mr. President, I rise to a point of order. My point of order is that the question is assignment of the matter to the next meeting, and the gentleman seems to be applying his remarks entirely to his democratic colleague from Wd. 2. I hope that the President will rule that my point of order is well taken, and surprise the public.

The PRESIDENT—The Chair will declare the point of order not well taken, and will rule the remarks of the gentleman from Wd. 2 contrary to the rules of the Council and beyond the bounds of parliamentary decency and propriety.

Mr. HICKEY—That is nothing unexpected, Mr. President—nothing unexpected at all.

The PRESIDENT—The gentleman will be in order. (Rapping to order.)

Mr. HICKEY—Hit it again.

(Disturbance in the gallery.)

The PRESIDENT—The Chair will remind the gentlemen in the galleries that if demonstrations do not cease the Chair will order the galleries to be cleared.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, when I last spoke on the floor I was in favor of putting this order on its passage tonight and killing it. I am perfectly willing, however, that this order should be assigned to the next meeting of the Council. I think it will be time to kill it at that time. I do not agree with my friend from Wd. 11 in the first division (Mr. Armistead). I think this order is pure buncombe. It is one of those instalment orders that come along in a way peculiarly the Mayor's own. Why did not the mayor of Boston last year ask for \$103,000 to put Faneuil Hall in proper shape? Because he knew very well that he could not get that amount through the City Council. In fact, he had to work hard to get fifty votes in this body, having to depend at that time on the vote of a late comer to make up the number. I believe that Faneuil Hall is in as good condition, speaking from the fire-proof standpoint, as it has been at any time within fifteen years. I believe it can wait. I don't believe it is necessary to adopt such luxuries as electric lighting, painting, plumbing and the like, there at just this time. I believe in holding the order up until we can take care of things of this kind. We have got to knock out appropriations of money for other things in order to get salary appropriations this year. I believe this is a good thing to begin to knock out on. By knocking out this \$23,000 we will help to a certain extent the maintenance of proper salaries.

Mr. ARMISTEAD of Wd. 11—Mr. President, in justice to myself, and also in justice to the position which I have taken upon this question, I deem it necessary that I should make an explanation at this time. I am very much afraid however, that the position which I took was so amusing to my democratic friends in the

third division, that they may have really misunderstood my meaning. So far as my friend and Republican colleague in the third division, (Mr. Chamberlain), is concerned, I desire to say that I am very glad to know that he is coming around to my way of thinking. In the first place, I did not advocate the passage of this order tonight, but I did advocate an assignment, and if anyone has misunderstood me, I desire to inform him at this time that my object was to have the order assigned. That is the position I took at the outset, and that is the position I stand by now. I do not agree with the gentleman in the third division when he says there is the slightest intimation of a break on the part of the Republican members. Ever since the beginning of this Council, we have stood together as one man, and I believe we are ready to do so on this matter. Without any desire to further delay matters, Mr. President, I will move that—no, I will retract that, I see that my colleague, Mr. Stevens, desires to speak. I was going to move the previous question, but I will say nothing more at this time.

Mr. STEVENS of Wd. 11—Mr. President, I would like to say one or two words in regard to this matter, to explain my position. My democratic friend from Wd. 14 (Mr. Mulcahy) says if any member here will go down to Faneuil Hall he will easily see by walking through there how well, and judiciously the \$80,000 has been spent. My friend from Wd. 20 (Mr. Miller) says the money has not been spent—not all of it. Now, there is quite a difference of opinion on this matter. Some others say that they can only see that some parts of the building have been torn down. So I don't feel that, under all the conditions, we can go down there and see what the \$80,000 has done or will do. Further, I don't think there is any man in this body—and I don't flatter myself that I am—capable of going down, and in a cursory manner, calculating whether the work has cost \$80,000 or \$40,000. It is only the parties who make the estimates and who are familiar with the work who know about that. The amount required may be more or less. But I am very much inclined to think that, if the order is passed, the \$23,000 will be spent, and they will then come in and ask for more. Now, I very much hope an amount will be appropriated to finish the job, for I want to see Faneuil Hall put in condition for a long term of years. One of the members says that he does not believe I would know anything more about it if we were given an estimate as to the number of lamps, feet of wire, etc. I don't think that anybody would seriously consider that what I wanted was information of that kind. I consider that a little out of order.

The order was declared assigned to the next meeting. Mr. Mulcahy doubted the vote and called for the yeas and nays, which were declared not ordered. Mr. Mulcahy further doubted the vote, and a rising vote was taken, and the yeas and nays were declared ordered by a vote of more than one-fifth of the members present.

The order was assigned to the next meeting—Yeas 52, nays 22.

Yeas—Armistead, Atwood, Bagley, Battis, Bennett, Bordman, Brauer, Brennan, Chamberlain, Collins, Cuddy, Dcherty, Donahoe, Donovan, Doyle, Eddy, Emery, Giblin, Harvey, Hibbard, Horrigan, Howard, Jordan, Kiley, Klemm, Leftwith, Linehan, Logan, Lorey, Lydon, MacDonald, Mansfield, Martin, McInerney, McDrain, Moore, O'Brien, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Turnbull, Walker, Watson, Wells, Winsloe, Wood—52.

Nays—Bararacco, Bradley, Breridick, Carroll, Casey, Corolly, Cur'ley, Fenton, Flynn, Gibbons, Hickey, Johnson, Kasanof, Leonard, Malden,

Miller, Mulcahy, Nangle, Newhall, Rice, Sullivan, Tobin—22.

Absent or not voting—Kelley—1.

REGULATIONS REGARDING THEATRE LICENSES.

The Council proceeded to take up No. 7, assignment, viz:—

7. That the Board of Aldermen be requested to amend the Revised Regulations of 1898, so that section 2 of chapter 3 of said regulations shall read as follows: "Every licensee, before he receives any license for a theatrical exhibition, public show, public amusement, or other performance or exhibition of any description to which admission is obtained by payment of money or the delivery of any valuable thing, or by any ticket or voucher obtained for money or any valuable thing, shall pay to the City Clerk for such license covering performances or exhibitions, for one day, one dollar; for a term exceeding one day and not exceeding six days, five dollars; for a term exceeding six and not exceeding twelve days, twenty-five dollars: provided, however, that for a license for any athletic entertainment the licensee shall pay ten dollars, and for a license for a theatrical season, or for any circus, he shall pay three hundred dollars, and shall cause facilities for entering and inspecting his place of amusement and viewing the exhibitions or performances therein to be furnished at all times to any member of the City Council applying therefor."

On motion of Mr. Harvey of Wd. 24, the reading of the order was dispensed with.

Mr. CASEY of Wd. 18—Mr. President, feeling that that order will not go through the Board of Aldermen, I move its reference to the Committee on Ordinances, when appointed.

The order was referred to the Committee on Ordinances, when appointed.

Mr. WATSON of Wd. 18—Mr. President, I move that the last vote be reconsidered. I understand that Mr. Armistead of Wd. 11 has an amendment which he wishes to offer and to have submitted to the committee along with the order.

The PRESIDENT—The Chair desires to state that if the gentleman from Wd. 11 (Mr. Armistead) has an amendment to offer, he can do so at this time, and it will be referred to the Committee on Ordinances, when appointed.

Mr. ARMISTEAD offered the following amendment, to be added to the order:—

"Whenever it shall be proven to the satisfaction of the Board of Aldermen that the licensee or agent thereof, in any place of amusement, operating under the provision of this chapter, has discriminated against any person or persons on account of race, color or creed, the license of such place of amusement shall be revoked."

Mr. ARMISTEAD of Wd. 11—Mr. President, the question of theatres and their managers are having a good deal of attention shown them just now, and perhaps a word along that line from one whose race these managers are inclined to discriminate against would not be amiss. At a hearing before the Board of Aldermen on Monday, Jan. 23, one of the managers, whose name did not appear, objected to an alderman giving theatre tickets to colored people. In order to screen himself from the law, replying to a question of the alderman, he said he did not object to colored people in his house, but as the alderman got the best seats, it was preferred that he use them himself. Meaning, I presume, that they were not intended for a colored person, however respectable or refined. Mr. President, this bit of information leads me to believe that the managers of our playhouses are slightly tainted with colorphobia. It strikes me as being the most inhuman statement I have heard for a long time. It is an insult to my race, a stab in the back which

I cannot allow to pass silently by. It is not in keeping with the spirit of Mass., and I am reluctant to believe it voices the sentiment of cultured Boston. I believe a manager of a theatre has the right to issue passes to whom he sees fit, but I question his right to say that an alderman, councilman, or any other person shall not give that pass to a colored person, merely because it happens to be a choice seat. I believe also that he has the right to discriminate against and exclude all objectionable parties, white and black alike, but when he draws the line on one and allows the other to escape, it strikes me as being a little mite unfair.

To insult and degrade a free man and tie his hands with social and statute wires that cut and burn as well as restrain, is worse than to seize him bodily and yoke him to a dray as a slave. The sight of a slave insults humanity and breeds protest and cure. The social exclusion and degradation of a race only hardens the hearts of those who are vain and cruel enough to hold the gates, while the banned people are wounded and demoralized. We'll might we hang our heads in shame at the thought that, though being in a land based upon the idea of equality before the law, there are yet men in high rank who are slaves to a narrow and foolish prejudice of race. The man who has disgraced himself and the city of Boston, the cradle of liberty, by uttering such whimsical statements, ought to be marked with a scarlet letter, his playhouse boycotted, and finally his license revoked.

The Dred Scot decision made the name of Roger B. Tracey odious to liberty-loving Americans, for the reason that in it was incorporated the doctrine that a negro had no rights which a white man was bound to respect; but it was supposed that the results of the war, with the various constitutional amendments, had forever buried this abominable doctrine. The negro is a full fledged American citizen, clothed with all the rights and privileges that belong to any other citizen. The race is proud of its citizenship, and will continue to protest against and resist any invasion of their rights.

I have no desire to stir up strife, nor do I ask for special legislation for colored people. All I want is equal rights in this matter, and for that I appeal from the decision of those who would place the status of the negro on a level with the lowest of humanity, to that of a wise, enlightened and Christian civilization.

With such shameful statements going abroad is it any wonder that the tribunals of justice in the South are spurned and sneered at, and that each white fellow feels that he is superior to judge or jury? It is a well established fact that systematic outrage of the rights of one class of people or citizens, leads to a general disregard of the accepted tenets of law and equity. When the machinery of the law is degraded into a weapon of torture for one class, and of immunity for another, the favored class soon learns to despise the subserviency of an instrument which, to preserve the appearance of decency and impartiality, must needs proceed with some show of caution and deliberation. Justice is always tardy in behalf of the negro in the south, but it is not so in Massachusetts. There are colored people in this city who are sufficiently respectable, genteel and refined to grace any occasion by their presence, or to occupy choice seats in any theatre, and I plead in their behalf. Whenever they apply for admission, whether to purchase tickets or present a pass, they should not be denied or must not be obtraced by a law of limitation. It is a bad law, mean law and unjust. The manager of a theatre who insists on drawing the color line, by having it understood that tickets sold from the box office to colored people must be for seats in a certain locality, without any

regard for the applicant's appearance, respectability or anything else should have his license revoked.

Think of it, gentlemen! Think of a man making such a Cheap John, Rip Van Winkle statement in this enlightened age, and in Boston, proud Boston, liberty-loving Boston, where once lived your Sumner, Garrison and Phillips, in the presence of men whose feet are keeping pace with the civilization of the 19th century, and within a stone's throw of the State House. I plead for the passage of my motion, sir, because it is right, and am actuated by no other motive.

Unhand the black man, cut from his limbs your cruel limitations, give him and his the same chances which your boasted superiority enjoys, clear the way, and let him have free course in all the departments of business, professional activities, and the pursuit of happiness, and then if he is outstripped in the race I shall be the last to protest against the turkey gobbler airs and cock-a-doodle strut of this particular theatre manager. Till then, however, I shall protest against and denounce it as disgraceful and false to the English principle of fair play to discriminate against my race on account of their color. (Applause.)

The PRESIDENT—The Council will be in order. The amendment, with the original order, will be referred to the committee on ordinances when appointed.

TWELVE HOUR BASIS FOR FIREMEN.

Mr. WATSON of Wd. 18 offered the following:

Resolved: That the Common Council of Boston hereby endorses the bill now pending before the Massachusetts Legislature, introduced by Senator Tague, providing for the establishment of the Boston Fire Department upon a twelve hour basis.

Passed.

REDUCTION OF FIREMEN'S SALARIES.

Mr. WATSON of Wd. 18 offered the following:

Resolved: That the Common Council hereby expresses its disapproval of the plan of obliging the members of the Fire Department to submit to the reduction of their salaries; said Council believing that such reduction will tend to a demoralization of the discipline and efficiency of the department, and will work a great hardship to its members as well as to all those dependent upon them for a livelihood.

Resolved: That His Honor the Mayor be hereby requested to instruct the Fire Commissioner to allow the old rate of compensation for members of the Fire Department to remain without alteration.

The question came on giving the resolution a second reading.

Mr. WATSON of Wd. 18—Mr. President, the firemen being fully aware of the fact that no words of mine will add any strength to the resolution, I desire to say a few words upon it merely as an expression of the opinion of seventy-five members of the Common Council of Boston, the members of which are the only men, in my judgment, who represent the people of the different districts of the city. I am thoroughly satisfied, Mr. President, that every citizen of Boston, with possibly one or two exceptions whom I might name but will not, believes that the firemen get little enough money for their 365 days of service every year. It is a fact, Mr. President and fellow members, that the fire department employees of Boston, from the chief of the department down to the firemen—all, in fact, except the callmen—are continually in the service of the city. It is true that they receive one day off in eight, but they are continually under the iron hand of the Commissioner of the Fire Department. Any action of theirs at any time may meet with disapproval, followed

by the imposition of a fine, loss of a day's pay, or possible dismissal. Nobody can question the fact that they are in the service of the City of Boston for 365 days in the year. Every day they are on duty for twenty-four hours, and hard duty. True, they are allowed an hour to go to dinner, to supper and to breakfast, but they are continually under the eye of the department.

Mr. President, we are fully aware of the fact that the Police Department has not agreed to this seven and one-half per cent cut. I do not envy them their exemption a particle. I merely wish that all employees of the city were exempt. But, in view of the fact that the policemen are not to be affected by this act, I think it would be justice to also exempt the Fire Department. The cut in the salaries of the firemen will amount to \$92 for each man. That is a lot of money. They cannot stand such a reduction, and many of them have told me so. There is not a man in the department who can stand a seven and one-half per cent cut. I am not backward in saying that the Mayor will not again receive and the democratic party will not receive twenty-five per cent of the votes of the Fire Department of Boston. This is a mere dodge, so as not to give them an increase which will make their pay equivalent to the amount received by firemen in New York. It is merely a dodge, and I hope my humble words will help the resolution a little. I trust that it will pass.

The question came on giving the resolutions a second reading.

Mr. LINEHAN of Wd. 13—Mr. President, I would like to say just a word. When we see laboring men struggling to get money to live on, when we see the Mayor of Boston siding in with those laboring men on the one hand, and when we see him, on the other hand, struggling to cut the salaries of men who give 24 hours to the government, I say that he is adopting the tactics of the robbing corporations, who are always oppressing the working man—and I say for the firemen that they ought to go on a strike to a man. They cannot get along without them. Also, for the other gentlemen who are working for the city, I say that if they stand for it and tolerate it, they ought to have their throats cut instead of their salaries. (Laughter.)

Mr. CHAMBERLAIN of Wd. 12—Mr. President, just a word on the resolutions. I consider the proposed cut on the salaries of the firemen of the city of Boston the meanest, sneakiest thing ever attempted by the Mayor of any city of this country. Now, Mr. President, I am in thorough sympathy with both the Fire Department and the Police Department of this city. I believe we have as good a Fire Department, and also as good a Police Department, as any city in this country. I understand, however, that the Police Department, as a rule, are better paid than the Fire Department. I would very much like to see the salaries of the firemen increased, from the lowest hoseman, up to the chief—and, by the way, I understand that the chief of our city is the most underpaid chief of any city in the country of a proportionate size to Boston. As for the policemen, as a rule, their trouble is such that you can very easily see it. The average policeman very seldom is in danger of his life, and if he is, he generally is prepared with tools of some kind to defend himself. The fireman, on the other hand, from the moment he leaves his house until such time as he returns, after doing his duty at the fire, is in continual, and oftentimes, unseen danger. Mr. President, I most sincerely hope that the resolutions will be passed unanimously, and I would ask for a roll call upon their adoption.

Mr. MOYERNEY of Wd. 19—Mr. President, I was thinking of introducing an or-

der, the same as the one Mr. Watson has introduced. Now, time and again we have heard the papers of the city of Boston laud the firemen for their services at a fire. We have seen representatives of the governments of other cities who were interested in fire apparatus and fire department matters come to this city to see the Boston Fire Department, and our department would give an exhibition of the means which we have for putting out a fire, and of getting to it from the time the alarm comes in. What do they get for it? The Mayor of Boston sees fit to slap them in the face. Mr. President, as the gentleman from Wd. 12 says, the Mayor is not using the firemen right. The firemen are the poorest paid class of men we have in the employ of the city of Boston. I have figured it out that they get, on an average, 13 cents an hour. A regular hoseman is to be reduced about \$90 a year. In speaking to a fireman, he said that that much would pay for his clothes, and possibly would help to buy some necessities for his household.

If the Mayor, instead of cutting the men's salaries had tried to establish the fire department on a twelve-hour basis, instead of cutting their pay, the general public would have commended him for it, and he would have strengthened the democratic party, if he was interested in it. As it is, he has given it a death blow. I say that if he intends to cut the fire department 5 and 7½ p. c., respectively, he will be dealing a death blow to the democratic party of this city.

Mr. GIBLIN of Wd. 15—Mr. President, it is a sad state of affairs when the various departments in the city of Boston have to be cut on a horizontal basis of 7½ p. c.; but the saddest of all these things is to cut one of the most efficient and deserving departments of the whole municipality. Mr. President, I am not here to eulogize the firemen, but it is the method by which this thing has come about that I am opposed to. If we look over the estimates for the coming year, Mr. President, we can see where money is going to different commissions that perhaps the public and the people of Boston could very well do without, when it comes to a matter of saying whether or not a dollar should be taken out of the pockets of the firemen. Mr. President, I know very little about finance—perhaps less about the mechanism of politics; but I tell you, Mr. President, that I conceive it to be a good business principle to cut a department according to its utility, its necessity, and its efficiency. Mr. President, perhaps there are many people in the city of Boston like myself who care less about the Symphony Concerts, or about a selection from Gounod, than they do about a minor musical selection; and when we see moneys going to such a department as this and the firemen standing around in want of his salary, or one of the workmen standing on the corner with his hands in his pockets and his stomach empty, what good is this music to him? (Laughter.)

Mr. President, I can see that it is an injustice. It is not right to cut the salaries of these people, who are called out of bed at all hours of the night, when we sometimes are ensconced in our own homes, when we hear the fire bells and say that it is not near us, and consider ourselves safe. We should remember, Mr. President, that that fellow who is called out of bed carries his life in his hand, and in the morning papers we read of several calamities where the brave fellows went in and discharged their duties and were carried out corpses. Mr. President, we had a sad spectacle the other day at a fire, where one of the brave fighters was thrown under a cart. He was to meet his family in twenty-five minutes, and they met him a corpse. Mr. President, it is not right, it is not just, and I say, Mr. President, that anybody who would promote

such a scheme, to my mind, does things equal to taking the dollar out of the pocket of the widow and the bread out of the mouth of the orphan of tomorrow. Mr. President, I hope the resolutions will go through unanimously.

Mr. LYDON of Wd. 13—Mr. President, I hardly question but what there will be a unanimous vote in favor of the resolutions this evening. Our action is simply in the line of a suggestion. I regret very much that we have not got any more power in this matter. If the firemen's salaries were arranged by ordinance, it would be possible for us to see that their salaries should remain at the same sum. The firemen, of course, will feel this out more than any other department. It is a foregone conclusion, and is accepted by most people, that city employees are better paid than the average man; but the city employees of Boston are not better paid than the city employees of other cities, and I believe it is poor financiering to cut down the salaries of the city employees to secure money for the annual appropriations. Here we have many thousands of dollars to be disbursed, and we cut every salary 7½ per cent, in order to bring in about \$200,000. Mr. President, as I say, our action tonight is simply expressing our opinion, hoping that it will be looked upon with favor by the Mayor and the Board of Estimate and Apportionment; but, as I say, I regret that we have not got the final power in this matter. It seems to me that the saving of money could be made in a better way.

For instance, it could be brought about by abolishing some department which could be very well dispensed with, and also in reducing the appropriations for other departments which are receiving too much money. I believe that if this reduction goes into effect, the result will be the demoralization of the democratic party, and that it will put that party into a state such as it has not been in for the past 10 or 15 years. I know from talking with city employees, and from residents of the city, that they do not know what this means. They do not understand it. They do not know what the Mayor's idea is in doing this. Then, again, I believe it is the Mayor's intention, in the near future, to go to the Legislature and ask them to increase the tax rate for the city of Boston, claiming that he has had to get down to hard pan and reduce the salaries of the poor men in the fire department in order to make both ends meet on a \$9 tax rate. Mr. President, I do not believe any such thing. I do not believe anybody in this Council believes that it is necessary to cut the salaries of the firemen, or of the employees generally. It is, I believe, the intention of the Mayor to use this to cause the Legislature to increase the tax rate. I believe the taxpayers of Boston at the present time are over-taxed. To be sure, the tax is low—\$13.60—but when you take into comparison the amount of buildings that are empty and the amount of rent that can be obtained for buildings, you will see that the tax rate is practically about \$13.60, in view of the amount of money that they receive from their property. I hope that the vote tonight will be unanimous, in favor of the resolutions, showing to the people of Boston that the Council is not in sympathy with any such a movement.

Mr. KASANOF of Wd. 9—Mr. President, I agree with some things that my friend from Wd. 13 has said. I believe tonight that the fire department is the most underpaid department of any department in the city of Boston. And as far as I understand, it is the unanimous sentiment of the members of this body to pass the resolutions tonight, and therefore I move the previous question.

The question came on ordering the main question.

Mr. WATSON of Wd. 18—Mr. President,

in view of the importance of the resolutions and thoroughly trusting that the vote will be unanimous, I move that when the vote is taken, it be taken by a rising vote.

Mr. TOBIN of Wd. 9—Mr. President, I do not quite agree with some of the previous speakers in regard to the action taken by the Mayor. I believe it may be right in the action which it has taken in regard to the cut-down of salaries in general, but in one particular, I think the Council can go on record in not agreeing to cut down the firemen. As my friend from Wd. 13 says, they ought to go on a strike. I wish they could, but they are in a position where they cannot. They are not allowed to do anything of that kind by the contract which they made when they entered the employment of the department. I hope and trust that the wages of the firemen will not be cut, because if anybody deserves the wages they get, and more, too, it is the firemen. I think they should have a raise, instead of a cut down, in that department. If any department is underpaid, it is that department. I sincerely trust that the resolutions will be passed tonight.

Mr. STEVENS of Wd. 11—Mr. President, in speaking in regard to these resolutions that have been offered by Mr. Watson, I shall be very sorry to see the pay of the firemen cut. The firemen are men for whom I have the greatest respect, are men whom we all respect, are men who do the most difficult, dangerous and arduous work—work which they are called upon to do at any hour of the day or night, or any day of the week. It is indeed unfortunate that their salaries should be cut, and it is all brought about by the unfortunate condition of the finances of the city of Boston, which is in large part owing to the past legislation. Now, I think it would be far better to abolish some of the commissions, reduce the amount spent by some others, and save the amount which we have got to in this way. It is an unfortunate condition for the city of Boston, and one which will be heralded from the Atlantic to the Pacific, when the city's treasury is so low that we have to reduce the pay of city employees 7½ per cent, and ask the heads of departments to make a voluntary contribution, in order to carry on the business of the city of Boston.

Several members addressed the Chair, and Mr. Hickey of Wd. 2 was recognized. The PRESIDENT—The Chair will remind the gentlemen that a great deal of latitude has been allowed members in speaking upon this motion. The Chair will state that he has allowed this latitude to be taken, feeling that there is no objection to the resolutions, but the Chair desires to remind the gentlemen of the Council that, the question being "Shall the main question be now put?" the members of the Council should endeavor to confine themselves to that question.

Mr. HICKEY of Wd. 2—Mr. President, at this late hour, with the previous question pending, and with such unanimity of opinion as already expressed, I hope the President will allow me the same latitude that he has allowed the other members who have been on their feet. I merely desire to say a word, and that is to the effect that the fire department is composed today of an underpaid class of men, considering the hours they have to devote to their labor. It should be remembered that they are obliged to support an insurance company, to buy their uniforms, and so forth, and when you add that all up, you will find that they are an underpaid class of men, as compared with others.

Inasmuch as the outlook is that the police officers may not be—not to put it any stronger—subjected to this cut in salaries, I think that the firemen should not be. The men in the fire department, as compared with the police department, are not

properly paid today, and on their behalf, I hope that these resolutions will pass.

Several members addressed the Chair. The PRESIDENT—The time for debate has expired. The question is, "Shall the resolutions now be given a second reading?"

The resolutions were read a second time, and were passed by a unanimous rising vote.

PAVING OF LENOX ST.

Mr. CASEY of Wd. 18 offered an order—That the Board of Estimate and Apportionment report in their next loan the sum of \$5000 for the paving of Lenox St., from Shawmut Ave. to Washington St.

Referred to the Board of Estimate and Apportionment.

CONTRACTS FOR CITIZENS.

Mr. LINEHAN of Wd. 13 offered an order—That the Committee on Ordinances, when appointed, be requested to report an ordinance providing that none but citizens of Boston shall be allowed to make contracts for the performance of city work, and that no contracts for such work shall be made with parties who are unwilling to agree that they will employ none but citizens of Boston as laborers under their contracts.

Referred to the Committee on Ordinances, when appointed.

PROCEEDINGS OF BOARD OF APPORTIONMENT.

Mr. LINEHAN of Wd. 13 offered an order—That the Board of Estimate and Apportionment be requested to provide the members of the City Council with verbatim reports of all the meetings of said board; the expense attending the same to be charged to the appropriation for City Council, Incidental Expenses.

Passed. Sent up.

PUBLIC LANDING, APPLE ISLAND.

Mr. O'BRIEN of Wd. 6 offered an order—That the Board of Estimate and Apportionment be requested to provide in their next loan bill the sum of \$1000 for the establishment and maintenance of a public landing at Apple Island.

Referred to the Board of Estimate and Apportionment.

GYMNASIUM, NORTH END PARK.

Mr. O'BRIEN of Wd. 6 offered an order—That the Board of Estimate and Apportionment be requested to provide in their next loan bill the sum of \$25,000 for the establishment of a gymnasium at the North End Park.

Referred to the Board of Estimate and Apportionment.

ELECTRIC LIGHT, COMMERCIAL ST.

Mr. O'BRIEN of Wd. 6 offered an order—That the Superintendent of Lamps be instructed, through His Honor the Mayor, to erect and maintain an electric light on Commercial St., between Charter and Hull Sts.

Referred to His Honor the Mayor.

REDUCTION OF SALARIES.

Mr. BAGLEY of Wd. 1 offered an order—That His Honor the Mayor be requested to reconsider his instructions to the heads of departments in regard to a decrease in the compensation of the several city officers and employes, and recommend instead a decrease in such compensation according to the following schedule:—

The Mayor's salary reduced 20 per cent.; all paid \$7500 or over, 17½ per cent.; \$6000 or over, 15 per cent.; \$5000 or over, 12½ per cent.; \$4500 or over, 11 per cent.; \$4000 or over, 10 per cent.; \$3500 or over, 9 per cent.;

\$3000 or over, 8½ per cent.; \$2500 or over, 8 per cent.; \$2000 or over, 7½ per cent.; \$1500 or over, 7 per cent.

Mr. BAGLEY of Wd. 1—Mr. President, my reasons for offering that order are these: I consider that the Mayor has used very poor judgment, and did not show much generosity in cutting his own salary 7½ per cent., the same as he would cut a man getting \$1000 a year. Seven and one-half per cent. to him does not amount to anything. If he is to be generous at all, let him take a little more off of his salary. He can afford it. There are a great many other ways in which he might cut expenses. For instance, there is a lot of dead wood in City Hall that he might get rid of, and he might hire some good, live men to take their places, and if he did that, he would be able to cut appropriations considerably.

Mr. LEFTOVITH of Wd. 8—Mr. President, I am very much pleased with the order that my friend has introduced here this evening; but if he should insert that the Board of Aldermen should cut down somewhat their own expenses of carriages, I should favor it more than I would a cut of 20 per cent. in the Mayor's salary. I believe that it is high time for us to consider the question—

The PRESIDENT—The Chair will state at this time that any allusions to a co-ordinate branch of the Government are in violation of all parliamentary rules. The Chair will remind the gentleman not to cast any reflections upon a co-ordinate branch of the City Council.

Mr. LEFTOVITH—Mr. President, I do not cast any reflections on any member of the city government; but in reading the papers, the same as some of you do, it has occurred to me that some of us cast reflections on the papers of Boston, because they criticize our actions. Now, I believe before the papers criticize the actions of the city government, that we, as members of the city government have got a right to criticize our own members, and that this is the proper place where the proper language can be used to remind the gentlemen that they should not do it again. I speak of it because it is now necessary to cut out all the unnecessary expenses of the city of Boston—and I have always voted to do that. I say that something should be done. I believe something should be done towards the cutting down these expenses which the citizens and taxpayers have to pay for. I believe, that the time has come when some of the members of the City Government must be reminded of certain facts in order to compel them to govern themselves a little better than they did last year.

Mr. TOBIN of Wd. 9—Mr. President, I rise to a point of order. The gentleman is not talking to the question before the body.

The PRESIDENT—The Chair will remind the gentleman to confine himself to the question, and will rule the point of order well taken.

Mr. LEFTOVITH—Mr. President, I claim, as I said before, that it is not for us to criticize the Boston papers for making comments. I thank God tonight that I can stand up and criticize the press if it deserves it—that the time has passed by when the great silver-tongued orator, Wendell Phillips, when he first advocated the freedom of the slaves, was obliged to desist on account of the press. I am thankful to God tonight that we can at least express our opinion in regard to the Boston press, and that they are willing to print it for us. I am not afraid to say what I may think in regard to any action of the press, and I will not be ashamed if they criticize my action. I am ready to stand by it.

Mr. HIBBARD of Wd. 24—Mr. President, I rise to a point of order, that the gentleman is not talking to the question before the house.

The PRESIDENT—The Chair will ask

the Council to preserve order, and the Chair will once more remind the gentleman to confine himself to the question before the house.

Mr. LEFTOVITH—Mr. President, I believe every gentleman in this Council has been given the same privilege, and at least more latitude than I am given. I do not believe that I have said anything out of the way. I believe I am coming to the question very nearly. Mr. President, this order that my friend has put in provides that certain men shall be cut down, and that others shall be allowed to remain where they are. I say, Mr. President, that any man who received \$1200 salary, with the exception of the firemen—and I am in favor of their getting more pay than they now do, if possible—can stand a cut better than the laboring man who gets \$2 a day. I think we certainly can get along by cutting down the other salaries properly, and by trying to save a dollar here and a dollar there. But we cannot do it if we want gymnasiums and everything else. I see the gentleman from Wd. 6 has introduced an order to have a gymnasium built in Wd. 6. Now, such things as that should be let go by at this time. I say that equal rights should be given to everybody, with the exception of the laboring man who receives under \$2.50 a day. We find that if the laboring man is laid off, he doesn't get any pay, but the foremen, who receive \$1600, receives pay just the same. He receives his full week's wages, but the laboring man, when he gets his wages, finds that he gets \$2 less for every day that he is laid off on account of it raining or anything like that. I claim that the district foremen, and such a man as that, who gets a high salary, can stand a cut down better than the man who gets \$2 a day.

The PRESIDENT—The order will be referred to His Honor the Mayor.

IMPROVEMENT OF WINTHROP SQ.

Mr. BENNETT of Wd. 5 offered an order—That the Board of Estimate and Apportionment include in their estimates \$2500 for general repairs on Winthrop Sq., Charlestown.

Referred to the Board of Estimate and Apportionment.

PAYMENT FOR JAMES POWERS.

Mr. McINERNEY of Wd. 19 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to allow compensation for time lost by James Powers on account of injuries received in the discharge of his duties as a laborer in the Sanitary Division of the Street Department.

Referred to His Honor the Mayor.

BICYCLE PATH, MASSACHUSETTS AVE.

Mr. PECK of Wd. 12 offered an order—That the Board of Estimate and Apportionment be requested to provide in the next loan a sufficient appropriation to enable the Superintendent of Streets to construct a bicycle path of asphalt in place of the present unsatisfactory one on Massachusetts Ave., between Albany St. and Edward Everett Sq., for the use of the bicycle riding public.

Referred to the Board of Estimate and Apportionment.

GYMNASIUM, WD. 19.

Mr. DOYLE of Wd. 19 offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan order the sum of twenty-five hundred dollars to fit up the ward room on Elmwood St., Wd. 19, as a gymnasium, for use as such when not occupied for

ward purposes, and to provide gymnastic apparatus and shower baths.

Referred to the Board of Estimate and Apportionment.

HOLIDAYS FOR EMPLOYEES.

Mr. DOYLE of Wd. 19 offered an order—That His Honor the Mayor be requested to instruct heads of departments to grant holidays, without loss of pay and in part compensation for their services to the city, to all employees whose services can be dispensed with, on Washington's Birthday, Evacuation Day, and Patriot's Day.

Referred to His Honor the Mayor.

INFORMATION REGARDING CONTRACTS.

Mr. CHAMBERLAIN of Wd. 12 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to report to the Common Council on or before March 2, 1899, a complete list of all the contracts above \$2000 entered into by the city of Boston, through the Street Department, since Jan. 1, 1898, which have not been open to competition through a public advertisement; also, the amount of said contracts and the names of the contractors.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, I understand that a very large number of contracts have been awarded contrary to the spirit of the law which requires public competition. The law distinctly says that contracts for amounts above \$2000 shall be open to public competition, unless upon written recommendation of His Honor the Mayor such competition shall be dispensed with. Out of this state of affairs, Mr. President, has grown a series of abuses. A large contractor, for instance, who has blasting of rock or removal of earth to do, can charge the city for blasting the rock and can then charge the city again for using the same rock in some other locality. He can remove dirt from one locality and charge the city for the same dirt in some other locality.

The street inspectors in some cases—especially in the case of large contractors—are either so blind to the facts or the influence of the contractors is so great that the inspectors do not dare to make a complaint. Take the asphaltting of streets and what is the method of procedure? Supposing, for instance, Boylston Street was to be asphalted from Park Sq. to Massachusetts Ave., for an amount of \$20,000. This is the way it would have been done in Boston the past year: They would give a contractor a contract for \$2000 to asphalt Boylston St. from Park Sq. to Arlington St. At the completion of the contract they would give him a contract for \$2000 more to asphalt from Arlington St. to Berkeley St.; at the completion of that contract a contract of \$2000 more to carry the work on to Clarendon St., and so on. In other words, a large contract is cut up, under the regime of the street department, dividing it up on the instalment plan.

I have in mind one instance—and I shall speak no names until the time is ripe—where the Street Department during the last year, 1898, gave a contract of upwards of \$50,000 to a certain contractor without any competition at all, of any kind, and that contractor charged twice as much per square yard for that contract as an

equally well known contractor said he would be perfectly willing to take the job for. In fact, this other contractor said he would give a bonus of \$500 to any man who would procure him that contract for half the price the contract was awarded for. So it seems that the ability to procure a contract in the city of Boston is a valuable asset to any man under the present administration. Mr. President, this is an order that admits of no denial. It must be answered, or the Common Council must know why such information is refused it.

The order was referred to His Honor the Mayor.

PAVING OF BEACON STREET.

Mr. STEVENS, of Wd. 11, offered an order—That the Board of Estimate and Apportionment be requested to consider the desirability of paving Beacon St. from Massachusetts Ave. to the B. & A. R. R. Bridge, with asphalt.

Referred to the Board of Estimate and Apportionment.

INFORMATION REGARDING MEN ON PAY-ROLLS.

Mr. ARMISTEAD of Wd. 11 offered an order—That the City Auditor be requested to furnish to the City Council, through His Honor the Mayor, the names of the departments on whose pay-rolls have been carried the names of dead men, or men who are on the roll in violation of law, as stated by a newspaper of Boston; the amount paid under such circumstances, and the names of the parties to whom said money has been given.

Referred to His Honor the Mayor.

INFORMATION REGARDING EXCESS IN SALARIES.

Mr. ARMISTEAD of Wd. 11 offered an order—That the City Auditor, through His Honor the Mayor, be requested to furnish to the City Council the names of the heads of departments receiving from the city treasury any sums in excess of their salaries as defined by the revised ordinances, the amounts so paid, the length of time through which such excess has been drawn, and the reason for such payments, if any has been made.

Referred to His Honor the Mayor.

CROSSWALKS, DORCHESTER.

Mr. HIBBARD of Wd. 24 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be requested to construct crosswalks at the junction of Richmond St. and Butler St., Wd. 24.

Referred to His Honor the Mayor.

GYMNASIUM, DORCHESTER PARK.

Mr. HIBBARD of Wd. 24 offered an order—That the Park Commissioners, through His Honor the Mayor, be requested to establish an open air gymnasium in Dorchester Park, Wd. 24.

Referred to His Honor the Mayor.

Adjourned, on motion of Mr. Turnbull of Wd. 4, at 9:50 o'clock P. M., to meet on Thursday, February 9, 1899, at 7:45 o'clock P. M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen.

Monday, Feb. 6, 1899.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock P.M., Chairman Barry presiding and all the members present.

The Board voted, on motion of Ald. Berwin, to dispense with the reading of the records of the last meeting.

APPOINTMENT BY THE MAYOR.

The following was received:—

Mayor's Office, City Hall,
Boston, Feb. 6, 1899.

To the Board of Aldermen:—

Subject to your approval and confirmation, I hereby appoint Charles R. Williams a weigher of coal for the term ending April 30, 1899. Josiah Quincy, Mayor.

Laid over, under the law.

FINANCIAL CONDITION OF CITY.

The following was received:—

Mayor's Office, City Hall,
Boston, Feb. 6, 1899.

To the City Council:—

I transmit herewith a communication from the Board of Statistics, which throws a great deal of light upon the present financial situation of the city and the causes which have led to it, and I recommend that it be printed as a document.

Respectfully,

Josiah Quincy, Mayor.

DEPARTMENT OF MUNICIPAL STATISTICS, 71 CITY HALL.

Boston, Feb. 3, 1899.

Hon. Josiah Quincy, Mayor of Boston:—

Sir: With reference to the appropriation orders now before the City Council, the following figures are of interest:—

In the six-year period, from 1892-93 to 1897-98, inclusive, the ordinary expenditures of the city, excluding Water Department expenditures, have increased from \$14,371,643.97 to \$17,229,851.40, or a little less than 29 per cent.

Excluding also expenditures for interest and sinking-funds and payments to the State, they have increased from \$10,592,231.85 to \$12,914,425.83, or a little less than 22 per cent.

The amount available for department appropriations, (Auditor's Report 1897-98, p. 256), has increased from \$10,450,000.00 to \$11,993,997.00, or a little less than 15 per cent.

The population of the city, as estimated by the Board of Health, has increased from 467,260 to 528,912, or a little more than 13 per cent.

Expenditures for interest, sinking-funds and payments to the State have increased from \$3,779,412.12 to \$4,315,425.57, or a trifle over 14 per cent.

It may fairly be said, therefore, that 14 per cent. is a normal increase for the six years in any given line of work.

During the six years, expenses of the various institutions for the care of the sick, paupers, and criminals, increased from \$1,026,021.01 to \$1,369,072.88, or a little more than 33 per cent.

Or, if we take the net cost, after deducting income covered into city treasury, they increased from \$867,887.89 to \$1,209,857.66, or a little more than 39 per cent.

The expenses of the Park Department have increased from \$77,779.83 to \$143,517.21, or 84½ per cent.

The expenses of the Police Department, including liquor license expenses, and cost of police signal system, have increased from \$1,228,291.73 to \$1,667,887.26, or a little less than 36 per cent.

The School expenses increased from \$1,988,606.15 to \$2,482,542.47, or nearly 25 per cent.

The general expenses of the county increased from \$520,009.12 to \$638,883.46, or over 32 per cent.; or, if we deduct the income, from \$393,626.40 to \$502,352.96, or 27½ per cent.

These five classes of expenditures have increased, as a whole, from \$4,840,707.89 to \$6,351,903.23, or a little over 31 per cent.

The expenditures of all other departments increased from \$5,751,523.96 to \$6,562,522.55, or a little over 14 per cent., equal to the normal increase warranted by the increasing resources of the city.

If we take a fresh start, and compare the actual expenditures of 1897-98 with the appropriations asked for to meet the expenditures of 1899-1900, we get the following results:—

Amount available for department appropriations has increased in two years from \$11,993,997 to \$12,610,229, or a trifle over 5 per cent. (Tax of \$2.85 per \$1000 for schools is included in latter amount).

The amount (asked) for support of dependent and criminal population has increased from \$1,369,072.88 to \$1,509,590, or a little more than 10 per cent.; or, if estimated income is deducted, from \$1,209,357.66 to \$1,329,090, or nearly 10 per cent.

The amount (asked) for expenses of Park Department has increased from \$143,517.21 to \$185,000, or nearly 29 per cent.

The amount (asked) for expenses of Police Department has increased from \$1,667,887.26 to \$1,747,793, or nearly 5 per cent.

The amount (now fixed by statute at \$2.85 per \$1000 in 1899-1900) for school expenses has increased from \$2,482,542.47 to \$2,777,423, or nearly 12 per cent.

The amount (asked) for general expenses of the country has increased from \$688,883.46 to \$700,000.00, or less than 2 per cent.

The five classes of expenditures mentioned above have increased (based on appropriations asked for) from \$6,351,903.23 to \$6,913,811.00, or a trifle under 9 per cent.

All expenditures (except Water Department, interest, sinking-funds and payments to State, but including schools—now fixed by statute—and maintenance of sewers and street-watering—now paid for by assessment) would increase (on basis of appropriations asked for) from \$12,914,425.83 to \$13,861,773, or not quite 7½ per cent.

For the five classes of expenditures named above, from \$6,351,903.23 to \$6,919,811, or a trifle less than 9 per cent.

For all other departments, including maintenance of sewers and street-watering, from \$6,562,522.55 to \$6,867,466, or a little less than 5 per cent.

On the basis of appropriations as passed by the Board of Estimate and Apportionment, the figures are:—

Increase in all expenditures, except Water Department, interest, sinking-funds and payments to State, but including schools, (now fixed by statute), maintenance of sewers and street-watering, from \$12,914,425.83 to \$13,102,657, or not quite 1½ per cent.

Dependent and criminal classes, from \$1,369,072.88 to \$1,405,650, or a little more than 2½ per cent.

Parks—From \$143,517.21 to \$140,000, or a decrease of 2½ per cent.

Police—From \$1,667,887.26 to \$1,693,590, a decrease of a little less than 2 per cent.

Schools, (fixed by statute)—From \$2,482,542.47 to \$2,777,428, or nearly 12 per cent.

County, general expenses—From \$688,883.46 to \$700,000, or a trifle over 1½ per cent.

The five classes above mentioned, from \$6,351,903.23 to \$6,661,578, or a little less than 5 per cent.

Omitting schools, the increase is from \$3,869,369.81 to \$3,884,150, or about 4-10 of 1 per cent.

All other departments, including maintenance of sewers and street-watering, decrease from \$6,562,522.55 to \$6,411,079, or a trifle less than 2 per cent.

The estimates for 1899-1900, on account of sewer maintenance and street-watering, (to be provided for by assessment), were \$350,000 and \$150,000, respectively.

The excess of income over the Auditor's estimates since 1892-93 has been as follows:—

| | | | |
|--------------|--------------|--------------|------------|
| 1892-93..... | \$331,606.72 | 1895-96..... | 329,276.60 |
| 1893-94..... | 247,322.38 | 1896-97..... | 666,980.84 |
| 1894-95..... | 475,536.95 | 1897-98..... | 855,567.65 |

SUMMARY.

Applying these figures to the present financial situation, we have the following results:—

The ordinary expenditures for all purposes, except for Water Department and for interest, sinking-funds and payments to the State, were, in 1892-93:—

| | |
|-------------------------------------|----------------|
| For the five classes specified..... | \$4,840,707.89 |
| For all other departments..... | 5,751,523.96 |

Total.....\$10,592,231.85

The appropriations, including schools, maintenance of sewers and street-watering, are, for 1899-1900:—

| | |
|-------------------------------------|----------------|
| For the five classes specified..... | \$6,661,578.00 |
| For all other departments..... | 6,441,079.00 |

Total.....\$13,102,657.00

So that the increase in seven years is:—

| | |
|--------------------------------------|------------------------|
| For the five classes specified | \$1,820,870.11 or 37½% |
| For all other departments | 689,555.04 or 12% |

Total.....\$2,510,425.15 or nearly 24%

If the expenditures of the five classes enumerated had increased only in proportion to the increase of all expenditures, there would have been available for the other departments about \$659,000. If the expenditures of the five classes enumerated had increased only in the same proportion as the other departments, there would have been available for the other departments about \$1,240,000 in excess of present appropriations.

Very respectfully,
Laurence Minot, Chairman.

Ordered printed and assigned to the next meeting, on motion of Ald. Berwin.

APPROPRIATION FOR ELECTRICAL CONSTRUCTION.

The following was received:—

Mayor's Office, City Hall,
Boston, February 6, 1899.

To the City Council:—

I respectfully transmit, under the provisions of Chapter 434 of the Acts of 1893, the accompanying order, passed by the Board of Estimate and Apportionment under said Act at its meeting on February 3, 1899.

Respectfully,
Josiah Quincy, Mayor.

City of Boston,

In Board of Estimate and Apportionment,
Feb. 3, 1899.

Ordered: That the sum of fifteen thousand dollars (\$15,000) be appropriated to the Public Buildings Department, Electrical Construction Division, for additional working capital; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

Passed, and we certify that the appropriation contained therein is not to meet a current expense.

Josiah Quincy,
David F. Barry,
John H. Sullivan,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

Referred to the Committee on Public Improvements, on motion of Ald. Berwin.

COMMUNICATION REGARDING SEWER EXPENSES.

The following was received:—
Mayor's Office, City Hall,
Boston, Feb. 6, 1899.

To the City Council:—

I transmit herewith a communication from the Superintendent of Streets in relation to proposed sewer expenditures.

Respectfully,
Josiah Quincy, Mayor.
Street Department, City Hall,
Boston, Feb. 6, 1899.

Hon. Josiah Quincy, Mayor.

Sir:—I submit herewith statement in relation to sewerage works, and would respectfully suggest that this be forwarded to the City Council, in order that the situation may be made clear to its members, and more intelligent action be taken on the sewerage loan than was indicated by the statements and votes of the Common Council at its last meeting.

The figures are those submitted by me to the Board of Apportionment. In further explanation, I would say that it is necessary to lay out and plan the sewerage work for the entire year. If but \$500,000 is to be authorized, this will only cover the work already in hand or contracted for, and no new work can be authorized or planned. The Sewer Division would necessarily be organized on a smaller scale, and petitioners for sewers would be advised that only such work as was provided for by the appropriation could be undertaken.

I would say further that there is nothing novel in the authorization of a considerable sum for sewerage works. Under the old act, there was available such portion of the \$3,000,000 authorized by chapter 323 of the Acts of 1891, as the Superintendent of Streets deemed necessary to expend therefor.

The statement submitted shows the demands for work to be far in excess of the maximum appropriation that is possible under the act.

A rough estimate of the cost to finish work now in progress, by districts, is as follows:—

| | |
|-------------------|-------------|
| City Proper..... | \$45,438.00 |
| Roxbury..... | 29,428.00 |
| Dorchester..... | 156,566.00 |
| South Boston..... | 8,370.00 |
| Charlestown..... | 11,700.00 |
| East Boston..... | 10,500.00 |
| West Roxbury..... | 35,342.00 |
| Brighton..... | 16,295.00 |

Total.....\$313,639.00

| | |
|--|------------|
| To this must be added the cost of completing work at Pumping Station | 54,500.00 |
| And cost of completing contracts at Moon Island..... | 239,000.00 |

Total estimated cost of completing work now in progress.....\$607,139.00

The work contemplated by the Sewer Division, and sewerage works ordered by the Street Commissioners, but not yet begun, by districts, is as follows:—

| | |
|-------------------|--------------|
| Brighton..... | \$299,357.00 |
| West Roxbury..... | 226,266.00 |
| East Boston..... | 276,100.00 |
| Charlestown..... | 72,000.00 |
| Dorchester..... | 287,748.00 |
| South Boston..... | 125,151.00 |
| Roxbury..... | 248,288.00 |
| City Proper..... | 49,964.00 |

Total estimated cost of completing work ordered, but not begun.....\$1,584,874.00

In addition to the amounts named above, there is always a considerable amount of small work petitioned for, and which we find too urgent to be put off, but of which we have no knowledge at the beginning of the year. The amount of such work brought to the attention of the division last year, and built, came to \$164,000, and I see no reason why an even larger amount

should not be necessary this year, more particularly as the work of the division the past year has been largely that of building large mains which now render it possible to build a large number of small lateral sewers which could not previously have been built.

In addition to the amounts previously mentioned, the following is the estimated cost of sewers petitioned for and not yet ordered:—

| | |
|---|--------------|
| Dorchester | \$145,049.00 |
| Roxbury | 50,484.00 |
| West Roxbury..... | 88,614.00 |
| Charlestown | 140.00 |
| City Proper..... | 276.00 |
| South Boston..... | 4,040.00 |
| Brighton | 3,345.00 |
| East Boston..... | 29,777.00 |
| Total estimated cost of sewers petitioned for, and not yet ordered..... | \$321,725.00 |

SUMMARY.

| | Estimated Cost. |
|---|-----------------|
| Total estimated cost of completing work now in progress..... | \$607,139.00 |
| Total estimated cost of completing work ordered by the Street Commissioners, but not yet begun..... | 1,584,874.00 |
| Total estimated cost of constructing sewers petitioned for, but not ordered..... | 321,725.00 |
| Total estimated cost of constructing necessary small sewers, not yet petitioned for | 164,000.00 |
| Grand total..... | \$2,577,738.00 |

On the lower portion of Stony Brook, from the property of the Boston Belting Company down to the park, the city will surely be compelled to do some work. The total estimated cost of rebuilding the proposed channel is \$220,000.00. I should think it safe to estimate that the city could hardly escape expending at least \$50,000.00 of this amount during the coming year.

Respectfully submitted,

Benj. W. Wells, Supt. of Streets.

Read and sent down.

HEARINGS AT 3 O'CLOCK.

1. On petition of the Crescent Associates for leave to project bay windows, one over Savin Hill Ave. and one over the corner of Savin Hill Ave. and Spring St., from building on the corner of said streets, Wd. 20.

No objections. Referred to the Committee on Public Improvements, on motion of Ald. Adams.

2. On petition of the directors of an association for the formation of the Winthrop & Revere Street Railway Company for a location of tracks on Saratoga St., from a point near the tracks of the Boston, Revere Beach & Lynn Railroad Company to the line of the town of Winthrop, with the right to use the overhead trolley electric system thereon.

No objections. Referred to the Committee on Railroads, on motion of Ald. Dixon.

3. On petition of John W. Wheelwright, that the Board estimate the damages to his estate caused by the changes of grade of Washington and Motte Sts., on account of the extension of the Boston & Providence Railroad.

The Board of Aldermen, acting as County Commissioners, gave the petitioner leave to withdraw, at his own request, on motion of Ald. Colby.

PETITIONS REFERRED.

The following petitions were received, and were referred to the committees named, when appointed, viz.:—

Building Dept. (Ald.).

Petitions for leave to project signs, etc., viz.:—
Qung Lee, a sign, at 109 Cambridge St., Wd. 8.

Dr. H. C. Edwards, two tablet signs, at 15 Temple Pl., Wd. 7.

E. & F. Couture, an illuminated sign, at 19 Tremont Row, Wd. 6.

Christian Altman, a sign, at 8 Staniford St., Wd. 8.

J. H. Carlton, a V shaped sign at 103-105 Blackstone St., Wd. 6.

Robert Leavitt, a sign, at 1222 Washington St., Wd. 9.

Frank F. Boodro, two pole signs, at 221 W. Eighth St., Wd. 15.

Claims.

Joseph H. Davis, for payment of balance remaining from tax sale of estate on Itchards St.

Amy C. B. Wells, for payment of balance remaining from tax sale of estate on northerly side of Charter St.

Eliza Dooley, for compensation for damage to her estate, 804 Parker St., on account of defective drainage.

Electric Wires.

Boston Electric Light Company, for leave to erect three poles on Washington St., between Ruggles and Vernon Sts.

Brookline Gas Light Company, for leave to erect eight poles on Braintree St., between Franklin and Everett Sts.

Petitions of New England Tel. & Tel. Co. of Mass., for leave to erect poles, lay conduits, etc.:—

To erect poles in Melville Ave., Wd. 20, Salem St., Wd. 5, St. John and Rockview Sts., Wd. 22, and to erect and remove poles in Washington St., Wd. 20.

To lay conduits in Bay State Road, Minot and Anderson Sts.

For extension of time in which to erect poles in Princeton St.

For extension of time to May 31, 1899, in which to erect poles in Morton St., Wd. 23.

For extension of time to May 31, 1899, in which to erect poles in Fairview and Corinth Sts., and in Roberts St. extension.

Supt. of Public Grounds.

J. B. Sias et al., for the trimming of trees on grounds of the Old Dorchester High School, overhanging estates 12-14 Parkman St., Dorchester.

Licenses.

Frank A. Feeney, for license to run three passenger barges between Highland, West Roxbury and Spring-St. stations and the Dedham and Newton lines.

H. M. Temple, for a license for dancing and musical entertainments at Temple Hall, 1139 Washington St.

Mrs. Thomas Mack, for a license and permit for Sadie Peyser and 199 other children to take part in performance at Boston Theatre in aid of the Tyler St. Day Nursery, Feb. 25, March 2, 3, 4, 1899.

Railroads.

Newtonville & Watertown St. Railway Company, for leave to lay a turnout on No. Beacon St., with the right to use the overhead electric system on the same.

Newton & Boston Street Railway Company, for a location for its tracks and overhead electric system on Beacon St., from the Newton line to Chestnut Hill Ave.

Thomas H. Keenan et als., of Dorchester, for a transfer station at Northampton St.

Street Commissioners.

Thomas Minton et als., that Walk Hill St., between Morton and Washington Sts., be widened to a width of sixty feet.

Public Improvements.

City of Boston, Public Buildings Dept., for leave to erect guy posts and attach guy ropes thereon, on Vale and E. Ninth Sts., Wd. 15.

Estate of Chauncey Thomas & Co., for

leave to construct an iron grating in sidewalk, at 101 Chestnut St., Wd. 11.

R. H. White Company, for leave to construct an area in sidewalk at 538-552 Washington St., Wd. 7.

Jones & Marshall, for leave to erect a sidewalk clock at 28-32 Merchants row, Wd. 6.

Wm. H. Burlen, trustee, for leave to construct a bulkhead opening at 23 No. Market St., Wd. 6.

Eastern Cold Storage Co., for leave to construct an area under sidewalk, at 41 North St., Wd. 6.

Paris Pattern Supply Co., for leave to erect a post clock in the sidewalk at 163 Tremont St., Wd. 7.

H. S. Angus, for leave to move a wooden building from 14 Ashford St., Wd. 25, to Pratt St. (lot 7) Wd. 25.

Boston Transit Co., for certain routes for its omnibuses for conveying persons, merchandise and mail, etc., in this city.

LEAVE GRANTED ON PETITIONS.

Ald. BERWIN presented the petition of John Spinnelli, for leave to project two barber poles at 112 Court St., Wd. 6.

The rules were suspended, on motion of Ald. Berwin, and leave was granted on the usual conditions.

Ald. BRICK presented two petitions, viz: Jordan Bros., for leave to project two signs at 146 Canal St., Wd. 8.

H. M. Rich & Co., for leave to project an auction flag at 79 Franklin St., Wd. 7.

The rules were suspended, on motion of Ald. Brick, and the petitioners were severally granted leave on the usual conditions.

Ald. COLBY presented the petition of the Eastern Cold Storage Co., for leave to construct the part of the cellar at its new building at the Creek Sq. end, at grade No. 1, and the part of North St. at grade No. 5.

The rules were suspended, on motion of Ald. Colby, and leave was granted on the usual conditions.

Ald. CODMAN presented the petition of Laurence W. Lunt, for leave to project a sign at 117 Washington St., Wd. 24.

The rules were suspended, on motion of Ald. Codman, and leave was granted, on the usual conditions.

PAPERS FROM THE COMMON COUNCIL.

4. Ordered, That the Board of Estimate and Apportionment be requested to provide the members of the City Council with verbatim reports of all the meetings of said Board; the expense attending the same to be charged to the appropriation for City Council, Incidental Expenses.

Referred to the Committee on Public Improvements, on motion of Ald. Brick.

The Board voted, on motion of Ald. Berwin, to consider Nos. 5 to 11, inclusive together and that they be read by their titles, viz:

The seven following orders were sent up for concurrence in their reference to the Board of Estimate and Apportionment:

5. Ordered, That the Board of Estimate and Apportionment include in their estimates twenty-five hundred (2,500) dollars for general repairs on Winthrop Sq., Charlestown.

6. Ordered, That the Board of Estimate and Apportionment be requested to consider the desirability of paving Beacon St., from Massachusetts Ave. to the Boston & Albany Railroad bridge with asphalt.

7. Ordered, That the Board of Estimate and Apportionment be requested to provide in the first loan order the sum of twenty-five hundred (2,500) dollars to fit up the wardroom on Elmwood St., Wd. 19, as a gymnasium, for use as such when not occupied for ward purposes, and to provide gymnastic apparatus and shower baths.

8. Ordered, That the Board of Estimate

and Apportionment be requested to provide in the next loan a sufficient appropriation to enable the Superintendent of Streets to construct a bicycle path of asphalt in place of the present unsatisfactory one on Massachusetts Ave., between Albany St. and Edward Everett Sq., for the use of the bicycle-riding public.

9. Ordered, That the Board of Estimate and Apportionment be requested to provide in their next loan bill the sum of one thousand (1000) dollars for the establishment and maintenance of a public landing at Apple Island.

10. Ordered, That the Board of Estimate and Apportionment be requested to provide in their next loan bill the sum of twenty-five thousand (25,000) dollars for the establishment of a gymnasium at the North End Park.

11. Ordered, That the Board of Estimate and Apportionment report in their next loan the sum of five thousand (5000) dollars for the paying of Lenox St., from Shawmut Ave. to Washington St.

Severally referred in concurrence to the Board of Estimate and Apportionment.

12. The order passed by this Board January 30, appropriating one million (1,000,000) dollars for the construction of sewerage works, comes up passed in Common Council February 2, in concurrence with the Board of Estimate and Apportionment, with an amendment substituting five hundred thousand (500,000) dollars in place of one million (1,000,000) dollars.

Ald. DOYLE—Mr. Chairman, I move non-concurrence of this branch of the government with the lower branch on No. 12. In doing so, I simply wish to say that I think the matter was talked over pretty thoroughly at the last meeting of the Board and was pretty distinctly understood, and, unless there is some reason why a member of the Board may want to discuss it further this afternoon, I think we should non-concur with the Common Council.

Ald. PRESHO—Mr. Chairman, the point made by the gentleman who argued the question last week—that the passage of this loan would be the means of putting the men in the Sewer Division at work—is what guided my action at that time. Now, if we put through this order for \$500,000, certainly the Mayor will be enabled to put the men at work under it. I doubt whether, with the present temper of the Common Council, an order for one million dollars will be passed by that body, and for us to non-concur at this time, will simply mean further delay. If these gentlemen are sincere in their desire to put the men at work, they will pass the order for \$500,000. The Council will certainly not pass one million dollar order. As I said last week, when the matter came up, the Mayor simply used the argument about putting the men in the division at work as a means to whip us into line, so that we would put the million dollar loan through. The order has been passed by the Common Council in the form now before us, and let us stand up and put it through at this time in concurrence with the Common Council. By doing so, it will go to the Mayor for signature immediately, and it ought to be signed as soon as possible.

Ald. DOYLE—Mr. Chairman, I make no claim at all to knowing the inside workings of the Common Council. Of course, I do not feel that I know their minds as fully as my brother, Ald. Presho, does. But, as long as the original order provided for a loan of one million dollars, I certainly see no harm in passing the order in that form. There is no question of the department's getting the one million dollars all at once. They will probably not negotiate for all the money at once, but this is simply a step in the right direction, enabling them to plan for their year's work. It is better to have the order passed at this time for one million dollars, and allow the negotiation of it as may be proper, than to have the order passed for one-half million dollars, and have them

coming in later on, and then having the same fight all over again. I, therefore, hope the Board will non-concur with the Common Council, and will adhere to former action.

Ald. BERWIN—Mr. Chairman, I shall vote against the proposition anyway, for the reasons I gave at the last meeting of the Board. I simply desire to make my position clear to the men who are anxious to get back to work in that department, simply saying that, no matter what action this Board takes, they will probably not get the one million dollars. The act creating the Board of Estimate and Apportionment gave this body simply the right to consider such matters as this and to cut down appropriations. If we are unwilling to do that and simply football this proposition between the two branches of the government, within thirty days the proposition suggested by the Board of Estimate and Apportionment becomes a matter of law, without any act of ours. That is just about the situation in which the matter will remain, in my humble judgment. I am going to vote against non-concurrence with the Common Council, and in doing so I merely want my position understood. My position is that I will not vote for the raising of one million dollars, as proposed here today, that I want the matter determined by the Court, and that I shall then vote as I think wise and best.

But, whatever we do, the matter is going to ultimately result as the Mayor wishes, because he has it where he wants it. I don't speak with any authority from the Chief Magistrate of the city, but that is my summing up of the situation and I think the Board will decide that I am a pretty good prophet in regard to this one million dollar loan.

Ald. O'TOOLE—Mr. Chairman, I am very sorry that the alderman from Wd. 6 (Ald. Berwin) and the alderman from Charlestown (Ald. Presho) should interject politics into this particular loan bill. I do not think there is a member of this board—and I do not say it with egotism—who has had the sewer men knocking at his door more than I have. I will leave it to the sewer men themselves whether they have knocked at the door of the alderman from Charlestown more than they have at mine. The situation is this, that, irrespective of any ideas the Mayor of Boston may have on this question, certain things are necessary, and nothing should be allowed to prejudice the needs of that department a particle. I was elected a member of this Board of Aldermen to act as my own conscience would dictate, as I saw fit to act. But I want to say to the alderman from Charlestown that irrespective of whether this five hundred thousand dollars bill or a million dollar bill goes through the Board of Aldermen today, under the Apportionment Board act—for which I don't know that anybody is more responsible than his party is—these men will not be able to go to work.

It is, however, a step in the right direction to pass the million dollar order at this time. Without rehashing the old arguments at a previous meeting of the Board, I will simply say that it is far better to give the Sewer Department one million dollars at this time than to give them a smaller amount and let the matter go along until next June, when we will again have the same trouble. I can see no more argument in favor of the \$500,000 loan than for the million dollar loan, and I cannot for the life of me see the force of the argument of the alderman from Charlestown (Ald. Presho), who stands on the floor and tries to interject politics into the question and to place the democratic members as against the interests of the working men, saying that we have not their interests at heart. I will simply say that I refute that statement and say that he does not know what he is talking about.

Ald. PRESNO—Mr. Chairman, I only stated that the gentlemen about this

Board distinctly and implicitly declared that they wanted to put the men to work, and that was their only motive in voting for the order last week. The Mayor at the last meeting simply used that as a whip to get the members of this Board to vote for the order. Now, I want to give the members who have supported the Mayor in that a chance to show their sincerity. If we pass this five hundred thousand dollar order today, it can go into effect at once; if not, we are simply keeping the matter hanging along until thirty days have elapsed, and until that time has elapsed it will simply be tied up between the Board of Aldermen and the Common Council.

Ald. O'TOOLE—Mr. Chairman, I would like to ask the gentleman a question—what material difference it will make whether they are given the \$500,000 or the million dollars at this time?

Ald. PRESNO—It makes this difference, if they get the \$500,000 at this time, by our passing the order in concurrence today, there will be no delay and the men can go to work at once. They can then before the first day of June, get the other \$500,000. There will be no need of waiting at all, because when they get this \$500,000 they will have enough to keep them going until the other \$500,000 is taken up and acted upon.

Ald. DAY in the Chair.

Ald. BARRY—Mr. Chairman, I do not feel, as a member of the Board of Estimate and Apportionment, that the necessity of the department obtaining this million dollars has been brought clearly enough to the attention of the Board. Under the new law by virtue of which the Board of Estimate and Apportionment acts, it is provided that if no action is taken by the City Council on loans drafted by the Board of Estimate and Apportionment and sent to the City Council, in thirty days their recommendations go into effect without the action of the City Council. In other words, the City Treasurer cannot float the bonds until after thirty days has expired. The appropriation bill came into this board the 16th day of January. The result is, whether the amount is made \$500,000 or a million dollars, there will still be no money, the bonds cannot be floated, and the money cannot reach the Treasurer so that he can make it applicable to the department, until it can be properly done under the law. This sewer loan is one of the greatest blessings to the real estate men of the city of Boston.

In the old times gone by sewers were built and charged to appropriations made for the purpose; but under this law, it is provided that the money shall come back at the expiration of thirty years. At that time in this case, the one million dollars will be paid back into the treasury. In the meantime, the bonds are floated at 3½ per cent., bringing a premium to the city also, and a sinking fund is provided for. In other words, we will assume that there is no sewer in School St. today, and that this loan is floated at the present time. One million dollars are placed to the credit of the sewer division. That is laid by for the purpose of building sewers. As I say, let us illustrate by taking School St. If there is no sewer there and the Board of Street Commissioners orders one built, that is practically the end of their duty until they levy the assessment. The Superintendent of Streets proceeds in the matter and makes an estimate of the cost of building the sewer in School St. We will suppose that it costs \$10,000. That is divided up among the real estate owners on School St., along the line of the sewer. We will presume that there is a piece of property on the opposite side of the street upon which the assessment amounts to \$100. The owner of the property could not perhaps pay the whole amount into the City Treasury at once; but, under the law, it can be paid in thirty parts, the

payment continuing during thirty years, and at the end of the thirty years the amount paid out for the sewer in School St., as well as for other sewers paid for out of the million dollars, finds its way back into the city Treasury. Today the city of Boston is nothing more nor less than a lender of money on credit to build sewers here and in the outlying districts. I will ask any of the gentlemen from Dorchester—Ald. McDonald, Alderman Adams, Ald. Codman, whether there have not been more sewers built under this act in their district in the past two years than have been built at any previous time? In that district in the past two years nearly two million dollars have been expended in this direction. Gentlemen, you will make no headway if you concur with the Common Council in the passage of this order. I say that one million dollars is a small amount for this purpose—and why? Because it was shown before the Board of Estimate and Apportionment by the Superintendent of Sewers that he had in his possession petitions for sewers to be built in the limits of the city of Boston which would cost \$1,800,000. We have not money enough this year to comply with the requests of the Department. They must find out where sewers are most needed, and build them there, and when they are built the people who live on the line will pay for them. I hope the Board will non-concur with the Council, that we will adhere to our former action and send the original bill back to the Common Council.

Ald. PRESHO—Mr. Chairman, in speaking as I have today, I was simply bringing up the argument made here at the last meeting to the effect that this must go through, that it could not be delayed, that the department must have money to work with at the present time, in order to put the men to work and keep them employed. That was the argument that was brought out at the last meeting, that there must be no delay, but that the department must have this money at the present time. But a different attitude is assumed today. We are now asked to insist on our previous action, although, by so doing, we are simply delaying matters.

Ald. O'TOOLE—Mr. Chairman, I dislike very much to get on the floor again, but I think my friend, the alderman from Charlestown, (Ald. Presho), misinterprets the arguments on this floor. The argument at the last meeting, as I think he will acknowledge if he remembers rightly, was that there should be a certain definite policy pursued in this matter, and the action then taken was in line with that policy. It was not a question of the appropriation of a million dollars or a cent for the Sewer Department.

Ald. CODMAN—Mr. Chairman, I did not intend to speak on this question, although I voted at the last meeting in favor of the full amount of one million dollars; but, as Dorchester has been mentioned, and as Dorchester people always want sewers, as I believe that Dorchester has some requests for sewers before the Sewer Department this year, it may be well to state in brief some of the chief reasons why I voted as I did last week, and why I am still in favor of a million dollar loan being made. As far as Dorchester is concerned, it makes very little difference whether we appropriate the \$500,000 or the million dollars at once; but it seems to me a simple matter, and I don't see why the money should be split up into two appropriations. I know from my two years' experience in the Board, that what the Chairman of the Board has stated, is a fact; we have had better accommodations in the building of sewers in the last two years in that section. Considerably more than the usual amount of sewer work has been started and completed, work in the way of surface drainage, and so on; and, recognizing the good work that has been done, I voted, and shall continue to vote for the one million dollars to be devoted

to this purpose. In doing so, I am carrying out the purpose for which I was sent here—to help along the interests, as far as possible, of the citizens of Dorchester. I believe all of the three aldermen from Dorchester have voted conscientiously and for the interests of the section by voting for the million dollar loan at the last meeting, and I trust that their vote will continue to be in that line. I hope the million dollars will be passed, that the sewers will be commenced, and that the Sewer Department men will be employed and will go to work at once.

Ald. COLBY—Mr. Chairman, I don't know that any further explanation is necessary, but it strikes me that the alderman from Dorchester who has last spoken has entirely misconceived the purposes and ideas of the gentlemen who voted against the order at the last meeting. I should dislike to have him go back and tell the citizens of Dorchester what he has practically intimated here, that the members who voted against the order did so for two reasons—one, that they did not want the men in the sewer department set to work, and the other that they were not in favor of the order. Now, if there was one thing that Ald. Berwin and myself—I think we were the only ones who voted against the order—tried to make entirely plain, it was this—or, simply speaking for myself, I will say that this was my idea, that I was not opposed to the million dollar loan, that I would vote for it when I thought the time was ripe for it, but that I did not think it feasible to put it through at the present time. In fact, basing my opinion on the language of the act itself, it seems to me that we will have no final discretion in the matter. The act in effect says that we shall appropriate not exceeding one million dollars. We are compelled to do it; only it did not seem to me, in the present situation of the case, that anything would be gained by passing the order at the present time. I am still of that opinion. Hasty action on our part will be of no avail, in my opinion, for two reasons: First, the whole matter will have to wait until the decision of the court; second, it doesn't make any difference what we may do or what the Common Council may do, the thing will become a law at the expiration of thirty days. Whether we vote for it or against it makes no difference—when the time expires it will go into effect. Whatever we are to do we will have to do before that time, and if the City Council has not taken definite action, when the time has expired the order becomes a law. Under the thirty day limitation, on the 16th day of February—if I have the date right—this becomes operative. I should, therefore, like to see the labor question not brought in here any more than is necessary, because it simply is not germane to the issue. Nothing can be done to assist the laboring men in any way except by unanimous action on the part of the Common Council and the Board of Aldermen—which anyone conversant with the political make-up of the two bodies knows is out of the question.

Ald. CODMAN—Mr. Chairman, it was not my intention to cast any slur on the Alderman's vote last week or to reflect upon him one way or the other. I felt that he had explained his position fully, and I simply thought I would take occasion to explain my position more at length than I had an opportunity to do at the last meeting. The difference between Ald. Colby's position and mine is that he speaks as a lawyer. He prefers to hang matters up pending a legal decision. I, for one don't feel that it is necessary to wait until the court decides this question. If the legislation in regard to sewers is wrong, action must be taken according to the decision of the court; if it is right, it is just as well for us to go ahead at this time. I don't understand

that anything we may do or anything that may be done in regard to this loan will in any way block any decision of the court, and I think it is just as well to express my opinion at this time and to endeavor to have action taken at this time and to let the matter go by thirty days' default,—if I may use the term. If I took the position of the alderman, I might feel that, no matter what came up this year, I would allow it to go by default. But I prefer to express my opinion within thirty days, and if we have not acted within that time I hope this will become a law without our approval.

The CHAIR—The Chair will state that a communication has been received from the Mayor transmitting a letter from the Superintendent of Streets in relation to the proposed sewerage expenditure. If there is no objection, the Chair will direct the Clerk to read this, as it may throw some light on the matter.

(The Clerk read the message and communication referred to, which will be found earlier in the meeting, among the Mayor's messages, under the heading "Communication regarding Sewer Expenses.")

The question came on motion to nonconcur with the Common Council and adhere to former action, upon which Ald. Barry called for the yeas and nays.

The motion was declared lost upon a roll-call, yeas 0, nays 12.

Ald. BARRY—Mr. Chairman, there seems to be a misunderstanding. I move a reconsideration of the last vote, hoping that the same will prevail.

Reconsideration prevailed, and the Board voted to nonconcur with the Common Council and adhere to former action, Ald. Barry calling for the yeas and nays, yeas 8, nays 4.

Yeas—Ald. Barry, Briek, Codman, Day, Dixon, Doyle, McDonald, O'Toole—8.
Nays—Ald. Adams, Berwin, Colby, Presho—4.

Chairman Barry in the chair.

CONFIRMATION OF APPOINTMENT.

The Board proceeded to take up No. 13, unfinished business, viz.:

13. Action on the appointment of E. W. Johnson, to be a Weigher of Coal for the term ending April 30, 1899.

The question came on confirmation. Committee—Ald. Colby and Dixon. Whole number of ballots cast, 12, yeas 12, and the appointment was confirmed.

POLES ON MONADNOCK ST.

The Board proceeded to take up No. 14, special assignment, viz.:

14. Hearing on petition of the New England Telephone and Telegraph Company of Massachusetts for leave to erect poles on Monadnock St., Wd. 16, and on Moultrie Ave., Wd. 20.

No objections. Recommitted to the Committee on Electric Wires.

APPROPRIATION BILL.

The Board proceeded to take up No. 15, special assignment, viz.:

15. Message of the Mayor, transmitting the appropriation bill for 1899-1900, with certain loan orders and the annual estimates of departments. (Doe, 42.)

Referred to the Committee on Public Improvements, on motion of Ald. Colby.

CHANGES IN NAMES OF STREETS.

Communications were received from the Board of Street Commissioners notifying the Board of Aldermen that, subject to its approval, orders were passed changing the names of the following streets:—

(1) Bell St., leading from Chestnut Ave. to Lamartine St., to be changed to Billmore St.

(2) Avon Pl., leading from Washington

St. to Chauncy St., to be changed to Avon St.

(3) High St., leading from Water St. to Ericsson St., to be changed to Port Norfolk St.

(4) Shelton St., leading in continuance of Wrentham St., from Bruce St. to Adams St., to be changed to Wrentham St.

The several orders were laid over, under the law.

OPINION REGARDING PASSAGE OF ORDERS SENT TO MAYOR.

The following was received:—

City of Boston, Law Department.

Feb. 3, 1899.

J. M. Galvin, Esq., City Clerk.

Dear Sir:—In reply to your enquiries as to

1. "Whether an order passed by the Board of Aldermen or City Council, and presented to the Mayor within a period of less than ten days prior to the expiration of the municipal year, and the Mayor neither approves said order nor vetoes it, is to be considered as passed," I have to say that, in my opinion, such order is not to be considered as passed.

2. "Whether in case an order for a location for a railway company is passed and submitted to the Mayor, as set forth in question 1, and the Mayor neither approves nor vetoes said order, you are to receive and file a paper purporting to be an acceptance of the location specified in said order," I have to say that, in my opinion, you have no authority to receive and file any such paper. Respectfully,

Andrew J. Bailey,

Corporation Counsel.

Placed on file.

INVITATION FROM HOSPITAL TRUSTEES.

The following was received:—

Boston City Hospital,

Boston, Feb. 6, 1899.

Hon. David F. Barry, Chairman of the Board of Aldermen, Boston, Mass.—

My Dear Sir: The Trustees of the Boston City Hospital present their compliments to the Honorable Board of Aldermen of the city of Boston, and cordially request the pleasure of their company at the opening of the New Surgical Department and Amphitheatre, on Wednesday, Feb. 15, at 12 o'clock M.

Invitations have been extended to His Honor Mayor Quincy and to the Honorable Common Council.

Luncheon will be served in the library immediately after the members of the City Council have inspected the surgical branch of the service and the general hospital as well, as far as time will permit.

I have the honor to be, for the Board of Trustees, awaiting your acceptance.

Very truly yours,

A Shuman, President.

Accepted.

BAY WINDOW—ORDER OF NOTICE.

On the petition of Frank Lally, for leave to project one bay window from building No. 153 Putnam St., Wd. 1—an order of notice was passed for a hearing thereon on Monday, Feb. 20, at 3 o'clock P.M., when any parties objecting thereto may appear and be heard.

PRINTING OF MUNICIPAL REGISTER, ETC., 1899.

Ald. BERWIN offered an order—That the vote of this Board of January 9, 1899, referring the order for the printing of the municipal register and the pocket edition of the rules and orders to the Committee on Printing, when appointed, be rescinded, and the order passed in concurrence.

Ald. BERWIN—Mr. Chairman, I wish to explain that this is merely concurring with the Common Council in the passage

of the order, and it will hurry along the printing of these documents. The disposition of them will remain in the hands of the Committee on Printing, when appointed.

The order was passed in concurrence.

RETAINING WALL, CENTRE ST.

Ald. O'TOOLE offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan bill the sum of \$2500 for the construction of a retaining wall on the easterly side of Centre St., opposite New Heath St.

Referred to the Board of Estimate and Apportionment.

ELECTRIC LIGHT, SCHOOL ST.

Ald. O'TOOLE offered an order—That the Superintendent of Lamps be requested to locate and maintain a suitable number of electric lights on School St., Wd. 22, between Washington St. and Franklin Park; the expense of the same to be charged to the appropriation for Lamp Department.

Passed, under a suspension of the rules.

ACCEPTANCE OF DAVENPORT AVE.

Ald. ADAMS offered an order—That the Street Commissioners be requested to accept and lay out as a public highway, Davenport Ave., Wd. 16, from Columbia Road to Virginia St., under the provisions for such work contained in the Acts of 1891.

Passed. Sent down.

TUNNEL TO EAST BOSTON.

Ald. DAY offered an order—That the Boston Transit Commission be requested to inform this Board, at its next session, why work has not been commenced on the tunnel to East Boston, as provided in Sect. 26 of Chap. 548, of the Acts of 1894, and Acts in amendment thereof and addition thereto.

Passed.

RAILROADS.

Ald. DIXON, for the Committee on Railroads, submitted the following:—

(1) Reports on petitions for locations for tracks—recommending the passage of orders of notice for hearings thereon on Monday, Feb. 27th, at 3 o'clock, P.M., when any parties objecting thereto may appear and be heard, viz.:—

West End Street Railway Co., (referred Jan. 16), for a location for double tracks on Washington St., between Newcomb and Ball Sts.

West Roxbury & Roslindale Street Railway Co., (referred Jan. 23), for a location of tracks from Smith St. at Ashland St., through Ashland and Oakland Sts. and Blue Hill Ave., to the line of Milton; also in Washington St., southerly, to a point about 400 feet south of Ashland St., with the right to use the overhead trolley system thereon.

Reports accepted; orders of notice passed.

(2) Report on the order (referred Jan. 16), relative to a hearing on the relocation of tracks in Tremont and Boylston Sts.—that no action is necessary.

Accepted.

(3) Report on the petition of the Boston & Albany R.R. Co. (referred last year), for leave to lay and operate a temporary track in Lehigh and South Sts.—that the petitioner have leave to withdraw at its own request.

Accepted.

LICENSES.

Ald. COLBY, for the Committee on Licenses, submitted the following:—

(1) Report on the petition of H. M. Temple (referred today), for a license for Temple Hall, 1139 Washington St., for season ending August 1, 1899, for dancing and mu-

sical entertainments—that a license be granted.

Report accepted; license granted on the usual conditions.

(2) Report on the petition of Mrs. Thomas Mack (referred today), for a license and permit for Sadie Peysner and 190 other children to take part in performance at Boston Theatre in aid of the Tyler St. Day Nursery, Feb. 25, March 2, 3, 4, 1899—that a license and permit be granted.

Report accepted; license and permit granted on the usual conditions.

ELECTRIC LIGHTS, SOUTH UNION STATION.

Ald. BRICK offered an order—That the Superintendent of Lamps be requested to locate and maintain a sufficient number of electric lights on the streets leading to the South Union Station to suitably light said streets; the expense of the same to be charged to the appropriation for Lamp Department.

Passed, under a suspension of the rules.

RECESS TAKEN.

The Board voted, at 3:52 o'clock P. M., on motion of Ald. Dixon, to take a recess, subject to the call of the Chairman.

The Board reassembled in the Aldermanic Chamber at 4:50 o'clock P. M., and were called to order by the Chairman.

PUBLIC IMPROVEMENTS.

Ald. O'TOOLE, for the Committee on Public Improvements, submitted reports (on petitions referred today), recommending the passage of the following:—

(a) Ordered, That the Superintendent of Streets be authorized to issue a permit to William H. Burlen, trustee, to construct, maintain and use a bulkhead opening, 4 ft. long by 18 inches wide, with a wooden cover, under and in the sidewalk in front of estate No. 23 North Market St., Wd. 6, the same to be securely closed at night; the work to be completed on or before July 1st, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

(b) Ordered, That the Superintendent of Streets be authorized to issue a permit to R. H. White & Co. to construct, maintain and use an area, with sidewalk light covers, under and in the sidewalk in front of estate No. 538 to 552 Washington St., Wd. 7, as shown on plan dated February 6th, 1899, on file in the Permit Office of the Street Department; the work to be completed on or before Dec. 31, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

(c) Ordered, That the Superintendent of Streets be authorized to issue a permit to Eastern Cold Storage Company to construct, maintain and use an area, with sidewalk light covers, under and in the sidewalk in front of estate No. 44 North St., Wd. 6, as shown on a plan dated Feb. 6th 1899, on file in the Permit Office of the Street Department; the work to be completed on or before Dec. 31, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

(d) Ordered, That the Superintendent of Streets be authorized to issue a permit to Jones & Marshall to erect, maintain and use an iron post, with a clock surmounted thereon, in the sidewalk in front of estate No. 28-32 Merchant's Row, Wd. 6; the work to be completed on or before July 1st, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

(e) Ordered, That the Superintendent of Streets be authorized to issue a permit to estate of Chauncey Thomas & Co. to place, maintain, and use an iron grating 18 inches by 16 inches in the sidewalk in front of estate No. 101 Chestnut St., Wd. 11; the work to be completed on or before July

1, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

(f) Ordered, That the Superintendent of Streets be authorized to issue a permit to City of Boston, Public Buildings Dept., to erect, maintain, and use two guy posts on Vale St., and two guy posts on East Ninth St., with necessary ropes attached thereto, Wd. 15; the work to be completed on or before July 1, 1899, and done on the terms and conditions expressed in the ordinances of the city relating thereto.

(g) Ordered, That the Superintendent of Streets be authorized to issue a permit to Paris Pattern Supply Co. to erect, maintain, and use an iron post, with a clock surmounted thereon, in the sidewalk in front of estate No. 169 Tremont St., Wd. 7; the work to be completed on or before July 1, 1899, and done on the terms and conditions expressed in the ordinances of the city relating thereto.

(h) Ordered, That the Superintendent of Streets be authorized to issue a permit to H. S. Angus to move a wooden building, mansard roof, 40 feet in length, by 36 feet in width, by 33 feet in height, from No. 14 Ashford St., through Ashford St. and Pratt St., to lot No. 7 on said Pratt St., Wd. 25, on the terms and conditions expressed in the ordinance of the City relating thereto.

Reports severally accepted; orders severally passed.

BITUMINOUS COAL NUISANCE.

Ald. BERWIN offered an order—That a special committee, to consist of three members of this Board, be appointed to consider and report what additional legislation, if any, is necessary to abate the nuisance arising from the consumption of bituminous coal in this city.

Ald. BERWIN—Mr. Chairman, that may, to some, look a very innocent order, but I have no desire to take advantage of any member of the Board in introducing it and asking for its immediate passage without some explanation on my part. Assuming that the Chair will allow me an appointment on that committee, it is to be my purpose to thoroughly investigate this subject, Mr. Chairman, and report to this Board what the findings of the committee may be and what legislation is needed. I have had the matter brought to my attention by a great many people, and this nuisance has grown to such an extent during the last few years, that something very radical should be done by the Government, and I hope, Mr. Chairman, that the rules may be suspended and the order may go upon its passage.

The rules were suspended, and the order was passed. The Chairman appointed as said committee, Ald. Berwin, Brick and McDonald.

TRACKS ON TREMONT STREET.

Ald. BRICK offered the following:

Resolved: That in the opinion of the Board of Aldermen of the City of Boston, public convenience and necessity require that the tracks formerly located on Tremont and Boylston streets, and removed by order of the Transit Commission under the direction of the Legislature, should be replaced as soon as possible.

Ordered: That the City Clerk be directed to transmit a copy of this resolve to the Committee of the General Court which is now considering the subject.

Ald. BRICK—Mr. Chairman, this is a matter which has in some measure been gone into in connection with the previous order which I introduced on Inauguration Day. It is a matter which I believe to be of vital interest to the people of Boston, especially the working people. It affects me directly through the people of my own district. At this present time there is a hearing going on at the Legislature,

where they have the matter in charge. When the matter was discussed by my brother aldermen, some of them seemed to think that it was not a matter which we should take cognizance of. The Committee on Railroads has reported that further action is not necessary. I think at this time we should declare our sentiments in this regard. The people of my district, the working people especially, working men and girls who work in Houghton & Dutton's and in other shops along Tremont St., complain that they are annoyed, that they have not the means of transportation between the uptown portions of the city and the West End. It is a matter upon which I think every alderman here should place himself on record.

It is not a question of the railroad being allowed to have tracks on Tremont St., it is a question of the real live interests of the working people. I don't believe the subway is affording at the present time the convenience which it was considered that it would. I think we do need on Tremont St. the tracks, so as to give from the southerly and northerly directions an outlet for travel. For instance, take people coming from the South End on the Belt Line cars; it is necessary for a Belt Line car, instead of coming, as it formerly did, through Temple Place, Tremont St. and Scollay Sq., to the West End, to now go down Milk St., through Post Office Sq., through Congress St., thence through Devonshire St. to Washington St., and thence through Hanover St., making the running time nearly fifteen minutes longer than it formerly was. People going from the North Union Station to Brighton or Roxbury after 12 o'clock at night are forced to go through Washington St., thence through Boylston St., thence through Tremont St., south of Boylston St., thence through Eliot St. to Park Sq. in a circuitous manner. Now, I firmly believe that the working people who use the cars, and who need to be taken care of, are in favor of this method, are in favor of the relocation of the tracks. Complaints are made that the stores on Tremont St. are suffering, that Washington St. is congested, and I hope that this resolution will pass at this time so that it may have its effect upon the Legislature. I ask a suspension of the rule and a yea and nay vote.

Ald. PRESHO—Mr. Chairman, I would like to say a word in support of this resolution. It is a mistaken idea that the subway was built on account of congestion caused on Tremont St. by vehicles. Tremont St. has never been crowded with vehicles, but congested by cars. It would be a great convenience to the people of my district to have a line on Tremont St. A great many people haven't the time to go down to and climb up from the subway, and there are many people who would like to go to certain points, and in order to do so, would like to avail themselves of a line of cars on Tremont St., so that they could get off in the vicinity of West St., of Keith's, or other places along Tremont St., at the stations which were established when the tracks were on Tremont St. I think this is a great necessity.

It has been found in New York and other cities, and the same in London, in fact, wherever there has been an overhead system or a subway introduced in addition to surface cars, that it is necessary to have the surface lines still retained. In New York, as I saw by an editorial in the New York Sun and also in the Boston Herald at the first of the year, the traffic has fallen off greatly on the elevated lines since they have put in new, finely appointed electric cars on the surface lines. With these new underground trolley electric lines, where they used to have the bob-tail cars in New York, the travel on the surface lines has great appreciated, and it has been demonstrated that the traffic is going to the surface cars instead of to the elevated. Take it between here and Charlestown, in the latter part of the af-

ternoon, and you will have a block extending down to Haymarket Sq. and sometimes upto Scolley Sq. and to have these tracks on Tremont St. would relieve that block to a great degree and would relieve Washington St. The argument advanced by the storekeepers is, I believe, true—that their business on Tremont St. is decreasing. I heard some very strong testimony from the shopkeepers along the line of Tremont St. the other day, and I was convinced that they were speaking in all sincerity. The figures they submitted were undoubtedly true.

Ald. McDONALD—Mr. Chairman, I shall certainly vote for this resolution offered by the Alderman from Wd. 8 (Ald. Brick). I am sure that the Board of Aldermen would have been very glad to have given a hearing to the merchants doing business on Tremont St., but as no petition for a hearing came in from those merchants, the committee thought they would report as they have today. It is an undisputed fact that the merchants of Boston have never been refused a hearing before the Board of Aldermen, and they would certainly have received a hearing if the petition had been sent in.

I understand that the sales of the merchants doing business on Tremont St. today have been cut down 25 p. c. at least, by reason of the removal of the surface tracks on the street, and I am sure that the citizens of Boston are very much in favor of having the tracks relocated. We can have our subway and our surface tracks, exactly as they have them in New York City. Certainly the merchants who

have stores on Tremont St., when the amount they pay for rentals today is taken into consideration, are entitled to all the privileges that can be granted to them. I think the citizens of Boston and the people doing business on that street ought to have their interests looked after. I hope a bill replacing the tracks on Tremont St. will pass the legislature.

Ald. DAY—Mr. Chairman, the Board has heard from the people of the West End and Charlestown, and I want to speak for the people of East Boston. There is no other section of the city that is inconvenienced so much by the taking of the tracks from Tremont St. as is East Boston. We have no connection whatever with the subway. Our treatment in the matter of rapid transit has been simply outrageous, and it would be a great help to every man, woman and child in East Boston, if we could have these tracks put back on Tremont St. I certainly hope the resolution will pass. As far as business is concerned, I will simply say that I know a man who was engaged in business on Tremont St., in the same line that I am in, and that man has failed simply by reason of the taking of the tracks off Tremont St. I hope the resolution will pass.

The resolution and order were passed, Ald. Brick calling for the yeas and nays—Yeas 12, nays 0.

Adjourned at 5:06 o'clock P.M., on motion of Ald. Doyle, to meet on Monday, Feb. 13, at 3 o'clock P.M.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, February 9, 1899.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7:45 o'clock P.M., President Kiley in the chair.

INSPECTION OF HOSPITAL.

The following was received:—
Boston City Hospital,

Boston, Feb. 6, 1899.

Hon Daniel J. Kiley, President Common Council, City Hall.—

My Dear Sir: The Trustees of the Boston City Hospital present their compliments to the Honorable Common Council of the City of Boston, and cordially request the pleasure of their company at the opening of the New Surgical Department and Amphitheatre, on Wednesday, February 15, at twelve o'clock noon.

Invitations have been extended to His Honor Mayor Quincy and to the Honorable Board of Aldermen.

Luncheon will be served in the library immediately after the members of the City Council have inspected the Surgical Branch of the service and the general hospital as well, as far as the time will permit.

I have the honor to be, for the Board of Trustees, awaiting your acceptance.

Very truly yours,

A. Shuman, President.

The invitation was accepted.

PUBLIC CONVENIENCE STATION,
ROXBURY CROSSING.

The following was received:—

Mayor's Office, City Hall,
Boston, Feb. 9, 1899.

To the Common Council:—

I transmit herewith a communication from the Bath Commission in reply to your order requesting them to construct and maintain a public convenience station in the vicinity of Roxbury Crossing.

Respectfully,

Josiah Quincy, Mayor.

Department of Baths, 64 Pemberton Sq.,
Boston, February 8, 1899.

Hon. Josiah Quincy, Mayor of the City of Boston:—

Dear Sir—We return herewith the order of Councilman Nangle of Wd. 19, dated January 19, 1899.

I am requested by the Bath Commission in answer to this order to state that no money is available at present to construct a convenience station where requested, and that if money is appropriated to build such a station, the Bath Commission have no funds available this year to maintain it.

Very respectfully yours,

Daniel D. Kearns, Secretary.

Mr. CONNOLLY—Mr. President, in the absence of Mr. Nangle, I move that that communication be assigned for one week.

The motion to assign further consideration of the matter to the next meeting was carried.

RECONSTRUCTION OF MALDEN
BRIDGE.

The following was received:—

Mayor's Office, City Hall,
Feb. 9, 1899.

To the City Council:—

I respectfully transmit, under the provisions of Chapter 334 of the Acts of 1898, the accompanying order appropriating \$50,000 for rebuilding the draw and reconstructing the present Malden bridge, passed by the Board of Apportionment under said Act on February 7th, 1899.

Respectfully submitted,

Josiah Quincy, Mayor.

City of Boston,

In Board of Estimate and Apportionment,
Feb. 7, 1899.

Ordered: That the sum of fifty thousand dollars (\$50,000) be appropriated for rebuilding the draw and reconstructing the present Malden Bridge, at a width of not less than fifty (50) feet, such work to be completed during the year 1899; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city, payable in ten years from their date, to said amount for said purpose.

Passed, and we certify that the appropriation contained therein is not to meet a current expense.

Josiah Quincy,
Daniel J. Kiley,
John H. Sullivan,
David F. Barry,
Laurence Minot,

Members of the Board of Estimate and Apportionment.

Assigned to the next meeting, and ordered printed, on motion of Mr. Chamberlain of Wd. 12.

PAPERS FROM THE BOARD OF ALDERMEN.

1. Mayor's message transmitting a communication from the Superintendent of Streets in relation to the proposed sewer expenditure.

Passed on file.

2. Ordered, That the Street Commissioners be requested to accept and lay out as a public highway Davenport Ave., Wd. 16, from Columbia road to Virginia St., under the provisions for such work contained in the Acts of 1891.

Passed in concurrence.

3. The order (January 12) of the Board of Apportionment for a loan appropriation of one million (1,000,000) dollars for the construction of sewerage works, which was amended by this Council by reducing the sum to five hundred thousand (500,000) dollars, comes down with an entry thereon that the Board of Aldermen had concurred with the Common Council and adhered to its former action.

The question came on reading and concurring with the Board of Aldermen.

Mr. WALKER of Wd. 55—Mr. President, I move that we non-concur with the Board of Aldermen and adhere to our former action.

Mr. WATSON of Wd. 18—Mr. President, I rise at this time to ask the Council to listen to me while I say a few words in opposition to the gentleman who has just preceded me. While I know that we have absolutely no power in the matter of passing or rejecting this order, at the same time, I feel that the Council should put itself in the proper light before the workmen of Boston, the sewer employees. The cry of the sewer men is that as soon as the Common Council concurs with the Board of Aldermen in the one million dollar loan appropriation, they will go to work. I am not inclined to agree with that. I am satisfied that the sewer men will go to work at a certain time anyway; but, for the sake of showing that the poor laboring man is being used in this matter, I trust that we will take advantage of the eleven days and make the act of the Board of Apportionment a law at this time. I doubt if, by doing so, one man will get back to work any sooner. But, as I have stated, if the men feel that they will get back—and many of them have been jollied into believing that—let us not adhere to our former action, but concur with the Board of Aldermen. I sincerely trust that we will concur with the Board of Aldermen.

Mr. HICKEY of Wd. 2—Mr. President, I hope the Council will recede from its former action and concur, not only with the Board of Aldermen, but with the entire city government of Boston. The

Common Council today is the one part of the municipal machinery of this city that refuses to go ahead and make this proper, necessary and important appropriation. It is necessary principally because 1100 men are today on the streets of Boston, who will, the moment the order passes, in all probability be returned to their work and stay there; and it is also necessary and important because the construction and maintenance of the sewerage system of Boston itself is necessary and important. I had believed, up to the time the gentleman in the first division (Mr. Walker) made his motion tonight, that he was laboring under a misapprehension, influenced probably by the misleading statements made at the last meeting by our representative on the Board of Apportionment. President Kiley said at the last meeting of the Council that from the first of February it would be necessary for the City Council to appropriate upwards of \$313,000 to carry on the work already contracted for by the city of Boston. Benjamin W. Wells, in a letter which was read and accepted by the Board of Aldermen last Monday, and which passed the scrutiny of that Board of Aldermen without being successfully challenged or contradicted, distinctly stated that the figures he presented in that letter were also presented to the Board of Apportionment, and, as a natural conclusion, those figures must have been presented to our representative on that Board; and when our representative on that Board states that \$313,000 is the total amount the city has contracted for, I want tonight to contradict that statement, on the strength of the letter of Benjamin W. Wells, Superintendent of Streets. That letter shows that the \$313,000 referred to by our President is necessary to complete the tributary work in the various districts of the city which has been already contracted for, and the Superintendent said, furthermore, that \$4,000 extra was needed for the work on the pumping station, and that for the Moon Island sewer—which the gentleman in the first division agrees is a work which is worthy and should be completed—\$299,000 is needed. The gentleman's amendment calls for \$500,000.

The Superintendent of Streets says the total cost of completing the work now under process of construction will be \$607,139, and I ask the gentleman in the first division who makes the motion, or our representative on the Board of Apportionment, to successfully contradict the statement of the Superintendent of Streets. I believe that the majority of the members of this Council voted at the last meeting as they did on account of the inaccurate and misleading statements made by our representative on the Board, when he said that \$313,000 was sufficient to complete the work contracted for by the City of Boston.

He makes that statement in the City Council minutes, page 109, raising a question of veracity between him and Mr. Wells; and I will say, as one member of this Council, who has been here one year and a short part of the present year, and as one who has not yet spoken to the Superintendent of Streets, that I would rather take his word than the word of our representative, so-called, on the Board of Apportionment.

The PRESIDENT—The Chair desires to make a statement in connection with this matter at this time. The gentleman from East Boston in the third division (Mr. Hickey), has quoted statements made by the chair in connection with this matter, and the chair has been quoted inaccurately. The chair has allowed the gentleman considerable latitude in his statement, but the chair wishes to call the attention of the Council to the fact—and he is willing to have the exact words quoted from the minutes of last week—that he said the work on which city employees were employed necessitated the expenditure of

\$313,000. The balance of the work is contract work. The chair made that statement at that time and makes the statement now, and challenges successful contradiction of the truthfulness of it. The chair awaits the pleasure of the council on the motion made by gentleman from Wd. 25 (Mr. Walker) to non-concur and adhere to former action.

Mr. DONOVAN of Wd. 7—Mr. President, I sincerely hope and trust that this body will adhere to former action, mostly on account of the letter which the gentleman from Wd. 2 (Mr. Hickey) refers to as sent to the Board of Aldermen by the Superintendent of Streets. In that letter he said that he hoped the Board of Aldermen would use better judgment than the majority of the members of this Council did at the last meeting. I don't care to criticize the Superintendent of Streets, but I think he knows no more about the making of streets or the building of sewers than I know about the making of a watch—and that is nothing. Mr. President, I sincerely hope and trust that we will adhere to our former action.

Mr. Hickey and Mr. Rice addressed the Chair.

Mr. HICKEY—Mr. President, I rise to a question of personal privilege.

The PRESIDENT—The gentleman will state his question of personal privilege.

Mr. HICKEY—It is simply this, Mr. President, that the President in replying to me stated I misquoted the proceedings of the Council, and I respectfully ask that I be permitted to reply to the President.

The PRESIDENT—The Chair will state that that is not a question of personal privilege. Mr. Rice of Wd. 2.

Mr. RICE of Wd. 2—Mr. President, it is with some little reluctance that I arise tonight to speak in favor of our receding and concurring with the Board of Aldermen. A little reluctant am I, because I have grave doubts of the efficacy of my remarks tonight, on account of the action of the Council at the last meeting. But, nevertheless, I cannot remain quiet in my seat in the face of existing circumstances which are connected with the holding up of this loan appropriation. I feel that it is my duty to present tonight my views plainly, impartially, and in an unbiased manner, upon this all-important subject. If I may be permitted to predict the Council's final vote on this subject, I will state that it will be against concurrence. My claim of being a prophet is not based upon any ability in the way of mind reading, but upon a belief in the axiom of judging the future by the past. I sincerely hope that my prophecy will turn out to be wrong. But I can but feel, from the way that certain members have voted in the past, that my prediction will turn out to be correct.

Now, gentlemen, the first question to be decided tonight is whether or not one million dollars is too much to give. This body at the last meeting thought \$500,000 was sufficient. You were told by our honored President that over \$300,000 was actually needed, was necessary to complete work already started. So that, with \$500,000, you see that all the money the departments would have for new work during the year would be less than \$200,000. Now, sewer construction is very expensive, and I really think that we should give the entire \$1,000,000 tonight and not have this department coming back to us from time to time asking for certain additional instalments. The instalment practice is not a practice which should be regarded favorably by a city like Boston. It is too far beneath us. A department is a far better judge of what it needs than is the Common Council, and the head of the department which asks for this appropriation has a far better knowledge of the city's needs as far as his department is concerned, than has any member of this body. I simply desire to remind the members of the Council who are likely to vote against the passage of this order that more than a thousand men are idle, wait-

ing for the action of this Council tonight. One fact is certain, that this will become a law within fifteen days. The Board of Aldermen has seen fit not to concur with us. I think it would be charitable in this Council tonight to let the sewer employees see that we are with the laboring man. Don't let us be stubborn; let us crush our personal pride. I don't want to see the Board of Aldermen dictate to this Council, but I do believe we should be charitable and not be stubborn and vote against concurrence, keeping these thousand men out of employment. To the gentlemen who have come here especially for the first time this year, I appeal to you as men who have a political future. I advise you tonight to vote for the concurrence in the passage of this order. If you do not, those men who are idle will remember it in the future and you will find that when the time for re-election comes around you will regret tonight's action. Don't cut your nose off to spite your face. Remember, gentlemen, that this party you are standing by tonight will not stand by you at election time. Vote honestly, vote with the laboring man; and, since we cannot gain anything by refusing concurrence tonight, let us take the other alternative, let us go ahead and concur in the passage of this order, making this a law tonight, and setting these men to work two or three days ahead of the time when they would otherwise be put to work, thereby gaining the respect of the men who are now out of work.

Mr. STEVENS of Wd. 11—Mr. President and Gentlemen of the Council, I hope we will adhere to our former action. I am more than ever convinced, after hearing the remarks of the two or three preceding gentlemen, that we were right in taking the action we took last week. The only argument advanced tonight seems to be in favor of supporting whatever the Board of Aldermen and the Board of Apportionment do. It seems that we are not to consider that we have any rights in the matter. I, for one, do not propose to do anything of the kind. I have an opinion of my own, and I propose to use it. The principal argument of the gentleman preceding me—I don't know whether or not he intended to convey that impression—is that we should pass this order, so that the work may be done, thereby giving employment to the men in the sewer division, whether the city needs the work or not. I want to say that I am as anxious that the laboring men shall have work as is the gentleman who last spoke, or any other man in this body, but I also want to see the city of Boston get full value for every dollar it spends. The gentleman speaks of the instalment plan. Well, an instalment plan based on a sum of \$500,000 is a pretty comprehensive instalment plan; and I will state that the \$500,000 provided for under Mr. Walker's amendment is entirely sufficient to employ these men whom we are all anxious to have employed—I as much as any other member of this body. I sincerely hope we will adhere to our former action and that we will have more light cast upon this matter—and that we will know where the proposed sewers are to go. I think that is one of the most important parts of the subject. That is all I have to say.

Mr. MULCAHY of Wd. 14—Mr. President, I hope the members of this body will not adhere to their former action. It seems to me that the Board of Aldermen and the Board of Apportionment have passed a loan of one million dollars for the sewer department of the City of Boston. It would seem, further, to me, that the democratic members of this body should use a little judgment and vote also for the passage of this order, after having it lie on the calendar for one week. The gentleman in the fourth division (Mr. Stevens), the preceding speaker, comes from Wd. 11 and takes a different stand on this matter of

labor from some other members of this body. Probably if he lived in some other ward, some other district, where he would have a number of laborers following him all the time, poor, hardworking fellows, seeking a day's employment, he would vote for the passage of an order of this kind.

But, as the gentleman comes from Wd. 11 and is not brought in contact with that respectable class of people—even if they do happen to be poor—he gets away from them. I say it is the duty of a democrat—the duty of each and every individual member of this body, who is a democrat—to vote for a measure of this kind, which is democratic.

Mr. LINAHAN of Wd. 13—Mr. President, in reply to the gentleman who stands in the same division that I do, I would like to state that I come from a ward which has, I believe, as many laboring men as any ward in Boston, and I also belong to a labor organization; and I would like to state that I am not in favor of having laboring men used as tools to club their representatives into voting for this thing or that thing, or to compel us to vote away the money which belongs to the taxpayers. Mr. President, I would like to say a few words in reference to a speech made by the Chairman of the Board of Aldermen in regard to sewers and sewer construction. He stated, Mr. President, that, supposing there was a sewer needed in School St. and it took \$10,000 to build the sewer, and supposing there was a piece of property on the street which was taxed, in connection with that sewer, for \$100, its proportionate part of the sewer assessment, we would not make that man pay the \$100 all at once, but would give him thirty years, an opportunity to pay it in thirty different payments. He wants the people of South Boston to pay as much for sewers built in Dorchester as do the people who live in Dorchester. Therefore, I would like to say, as coming from Wd. 13, a place which gets no recognition in improvements, to speak of, that I am opposed to spending millions of the people's money, the taxpayers' money—not the money of the heads of departments or of any individual—without our knowing where it is going.

Mr. ARMISTEAD of Wd. 11—Mr. President, I hope the Council will adhere to its former action, notwithstanding the fact that we have heard a good deal from the democratic members of this Council in regard to the workingman, and also as to why this one million loan order should pass. I am prepared to say at this hour that the same honest motive which caused me to vote against the passage of that order at the last meeting of the Council prompts me to vote against it now. My views are unchanged. I am placed in a position somewhat similar to that of a tramp who had unwittingly strayed into a meetinghouse, and when the contribution box was passed, shook his head and said, "There is no change in me." (Laughter.) Mr. President and gentlemen, I have for a week carefully observed the finances of the city of Boston in regard to this particular loan. After a mature and deliberate consideration, after consulting men who are far more versed in finance than I am, I am of the opinion that \$500,000, as was passed unanimously by this body at the last meeting of the Council, will be sufficient, notwithstanding the fact that a loan of one million dollars has been indorsed by His Honor the Mayor and approved by a double-headed democratic board. I believe that a municipal corporation is entitled to every dollar it expends, the same as if it were an individual, and it is entitled to the best values that it can obtain for the money appropriated for the salaries of its servants. If those two propositions are fulfilled, municipal administration is reduced to a minimum, and the management of a great city like Boston bears a direct analogy to successful business methods. I

believe that the best thought for Boston's welfare emanates from her own citizens, and that so far as is possible with the autonomy of the State, the cities within its boundaries should be accorded home rule and given the greatest latitude in the management of their own affairs. One of the reasons why the city of Boston is in such a dilapidated condition, from a financial standpoint, at the present time, is because her affairs have been managed at the State House; and for that reason I desire to say at this time that I believe the citizens of Boston are more capable of handling their affairs than is the Great and General Court. I admit the fact that certain general statutes affecting the entire State are as essential to a healthy body politic as are the veins which conduct the blood to the different portions of the human body.

But questions that do not affect the entire State and only affect those localities with congested populations can be solved most wisely by the people in those localities, when they are made to feel that the responsibility rests upon them, and that appeals to legislative aid and the prejudice and possible passions of men unfamiliar with their problems, may accomplish other than for the general good. Men will not knowingly acquiesce in a condition of affairs contrary to their personal interests, when conscious that action on their part would bring about a different result. His Honor the Mayor may have found the cost occasioned by the new railroad station too much, and therefore he has called upon the city employees to help relieve our finances. Can you blame His Honor the Mayor? The fault is not in Mayor Quincy, much less in the Board of Apportionment. The fault is in the Governor and the General Court. They have undertaken to manage Boston's city finances, and they have made the most scandalous failure. They themselves do not know how far they have run our finances into the mire. Nor is reform possible until the Governor and the General Court abstain from interfering in Boston's finances. The worse city government could not work greater injury than the Governor and the General Court have done in our city's finances—for a very bad city government would recognize that the people of Boston had some rights, and the Governor and the General Court are prone to the belief that the citizens of Boston have no right which they are bound to respect, not granting to the city of Boston as much right to life, liberty and justice, as a criminal. They think their power over the city and its finances absolute, and they have exercised that power without limit, but not without ominous consequences. Just what these consequences are in dollars and cents, you can find out by asking the City Auditor, who can tell you in part what the city owes, and the State Auditor, who may be able to tell approximately what liabilities the Governor and the General Court have incurred for Boston.

The table of expenses just made by the Board of Apportionment I cannot support in its entirety, but I am willing to vote \$500,000, which I consider an adequate sum—a sum that will enable the men who are out of work to be put back, that they may pay these taxes. I think the paving of the business streets more important than parks, because the paving of those streets helps to earn taxes and to pay for parks. I am against unproductive expenses, and if they are to come at all, let them come at a great reduction. Reform is impossible, so long as the Governor and the General Court run the city into debt—or until the city is given the right to manage its own affairs at its own risk. Just now nobody knows what the city owes, or what it will be called upon to spend in 1899. The Board of Estimate and Apportionment tells one story, but the story will not be told until after the adjournment of the

General Court. Mr. President, I hope that the Council will stand by its former action.

Mr. MARTIN of Wd. 15—Mr. President, I hope the Council will not adhere to its former action. Being one of the members who voted at the last meeting in favor of cutting the appropriation down to \$500,000, I wish to say, gentlemen, that I was misled at the last meeting. My position is this: When the laborers of this city are out of work, I believe, sir, we should vote then willingly \$1,000,000 to put them to work. Mr. President, it is not a question of finances. It is a question at this time, with snow on the ground, of whether the laborers will be given an opportunity to earn bread for their children or not, who need it. What do we care, Mr. President, whether Mr. Wells or anybody else tells us that this should be done or that should be done. We do not care what they say. We have our own common sense, and this is the place to express it, and we can express it by our votes tonight. Mr. President, one week ago I believed that \$500,000 was enough money to put these men back to work, and, as our representative on the Board of Apportionment told us that \$330,000 was plenty of money, I wish to say now that I do not think it plenty of money. I am one of those members who are willing to be convinced if I am wrong—and I believe I was wrong one week ago tonight. I believe that we should not adhere to our former action, but that we should vote the \$1,000,000, and put these men back to work.

Mr. PECK of Wd. 12—Mr. President and gentlemen of the Council, in voting away a large sum of money like this, I believe that it is always policy to make an analysis of the purposes for which it is to be voted away. I have the utmost confidence in our representative on the Board of Apportionment, and I take the liberty of calling the attention of the Council to the report of our last meeting, on page 110, in which an analysis is made relative to the \$500,000. I will quote from his words: "This is the work upon which the city employees who have been suspended have been working. The city proper, \$45,438; Roxbury, \$23,423"—and then he continues to give the various sections of the city— "making a total of \$313,639, which is necessary to carry on the work at present under process of construction, and to restore the working force of the sewer department." As I say, I have the utmost confidence in the Chair, and I believe that this question of throwing men out of employment does not enter into it. I trust that the Council will adhere to its former action.

Mr. COLLINS of Wd. 13—Mr. President, the question of throwing men out of employment does enter into this question, and it enters into it entirely with me. It is the principal reason why I vote for the million dollar loan. I voted for it at the last meeting, and I will vote for it again, on the same ground. Coming from Wd. 13, which is largely a laborer's ward, I have to state that it is not the expression of opinion entirely over there that we should look altogether after the taxpayers' interests to the utter disregard of the working people. I feel that the men who have been employed in the sewer division have some rights, and I should like to see this million dollar loan endorsed by the Council tonight. I agree with the gentlemen on the opposition, in that I would like to have an itemized report. I would like first rate to have it myself. I believe in guarding the city treasury of Boston, but at the same time this body voted \$500,000 at the last meeting, and promised that when that was spent and an application was made for more, they were willing to vote for it. That was promising one million dollars—and why not vote for it tonight and let these men go back to work? There is no question about it. The poor men who are thrown out of work are the only ones

who will feel this materially. I have met a great many of them, and I have told them that I would like to see them all back to work. My action in voting for this will be for the sake of the working men, who are on the streets. No matter who is to blame for their being on the streets, I want to see them back at work, and that is my reason for voting for this tonight.

Mr. STEVENS of Wd. 11—Mr. President, I quite agree with the gentleman who just preceded me in that I would be more than happy to see all laboring men employed, and see them get just as good wages as they want. He says he voted for this one million dollars in the interests of the laboring man. I do not for one minute believe that if we pass that one million dollar loan tonight it would put one man at work a single minute before the order for \$500,000 would. I believe he entirely misunderstood it, as I look at the matter. Moreover, he says that we promised that after the \$500,000 was spent, they could come to us and we would give them \$500,000 more. I did not understand it so at all. We said that we would pass that \$500,000 and that we would like to see where the other \$500,000 was to go. I think he will acknowledge that in that matter he was misinformed. I would also like to reply to the gentleman, the democratic representative in the third division (Mr. Rice), who has disappeared for a moment, when he shook his forefinger in glorious awe and warned us to look to our political futures if we did not vote for one million dollars. I want to answer him—I don't know where he is, but perhaps he is in the lobby—and any other gentlemen, that I am not so wedded to my political future that I am willing to sink my honest opinions just in the interest of getting votes. On the other hand, he refers to instalments. I think that if the past city government had paid a little more attention during the two or three previous years to the particular plan which he refers to, the laboring man would not be out of work today.

Mr. HICKEY of Wd. 3—Mr. President, I wish to say just a few words. I won't detain the Council long. I wish to remind the gentleman in the first division who offered the amendment a week ago tonight and who renewed his motion again tonight, that out of the \$313,000, which our friend has referred to in the records of the last meeting as being the total amount of work contracted for by the city of Boston, as per the Council minutes, page 109, right hand column—I wish to remind that gentleman that out of the \$313,000 spoken of, to his great district of Brighton, there is only \$16,000 of sewer work apportioned, whereas the Board of Street Commissioners have recommended \$299,351 to put the sewers in his district alone in proper repair. I want to ask my colleagues from Wd. 1 if they can go back to the people of East Boston and justify themselves for voting thainst this? In that amount, East Boston has only \$10,500 to put in repair the sewers in that district, where as the Board of Street Commissioners have recommended and have ordered to be done \$276,000 worth of sewer work in East Boston alone. I want to ask my republican colleagues in East Boston if there is any way by which they can go back to their constituents and justify themselves for voting against this?

And while I am on my feet, I want to reiterate the statement I made a moment ago. I want any member who desires to do so to refer to Council minutes, page 109, where the President says: "It then would be necessary for the City Council to appropriate upwards of \$313,000 to carry on work already contracted for by the city of Boston." I do not care to put it too strong—I do not care to be known further in the light of a disturber—but I do want to say

right here that the Superintendent of Streets has sent a communication to the Board of Aldermen—and I have no doubt our representative on the Board of Apportionment has familiarized himself with that letter before this, and if he were prepared to deny it, he would do so. In that communication, he states that \$617,000 is required to complete the work at present in process of construction. If that does not raise a distinct question of veracity, if it is not a question of misrepresentation, whether it be malicious or otherwise—

The PRESIDENT—The Chair will request the gentleman to confine himself to the bounds of parliamentary decency and propriety, and to make no disrespectful reflections upon the Chair or any other member of the body.

Mr. HICKEY—Mr. President, during my time in this Council, it never has been necessary for any presiding officer to call me to order and warn me to be decent. I am decent, Mr. President; and I am referring to facts and figures which cannot be contradicted by any man in this Council, nor by our representative on the Board of Apportionment, when I say that \$617,000—\$300,000 more than you said at the last meeting—is necessary to complete the work at the present time under process of construction. If those figures can be denied, I am willing to go back on the public letter of the Superintendent of Streets. I want to say that sewer work in this city of Boston is one of the most important branches of the public service. I want to say, also, that in this same letter, which is the only record I have to depend upon—for although I am called an administration man, I never in all my experience have spoken one word to the Superintendent of Streets or to the Mayor of Boston, and have never met either one of them—it states that \$2,677,000 worth of sewers have already been ordered by the Street Commissioners of this city.

At the last meeting of this Council it was my honest opinion that the majority of the members who voted for the \$500,000 looked at it in this light—that on the statement of our representative on the Board of Apportionment \$300,000 was all that was necessary, and they all said to themselves, "Why, the Superintendent of Streets has an elegant gall to come in here and ask for the loan of a million of dollars when he can only account for an estimated expenditure of \$300,000." I ask each member of the Council to disabuse himself of that delusion; \$600,000 is needed to complete the work already in process of construction—notwithstanding the statement of our President to the contrary, made at the last meeting of the Council.

Mr. BAGLEY of Wd. 1—Mr. President, in answer to the gentleman from Wd. 2, I desire to state that I come from a laboring ward, although it is a Republican ward. I am not ashamed to come here and vote to suit myself. I am not afraid of losing votes by doing so. I voted for the \$500,000 for the benefit of the laboring man, in order that he might get back to work. If the Board of Aldermen had wanted the men to get to work why didn't they concur with us? If they had done that they would have got to work before this. I was promised twice last year, and I think I was also promised the year before, that sewerage in my district would be attended to if I voted for \$500,000 at two different times. I did not take anybody's word for it this year. I concluded that I might as well vote against it as to be promised. The promises don't go. There is a sewer in my ward that should be attended to, and which I have been trying for a long time to have attended to. There is a great deal of sickness around where it is. I will admit that perhaps if I had voted for this \$1,000,000 there might have been some chance that it would have been attended to; but I am

willing to stand by my action of a week ago tonight.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, inasmuch as the greatest latitude has been allowed in the debate on this question, I move you, sir, the previous question, and ask for a roll call on the motion of the gentleman from Wd. 25.

The main question was ordered, and the question came on non-concurring and adhering to former action. Mr. Chamberlain asked for the yeas and nays which were ordered, and the Council voted to non-concur and adhere to former action—Yeas 36, nays 34:—

Yeas—Armistead, Atwood, Bagley, Battis, Boraman, Chamberlain, Cuddy, Donovan, Eddy, Emery, Harvey, Hibbard, Howard, Jordan, Kiley, Klemm, Leftovith, Linehan, Lorey, Mansfield, McInerney, Mildram, Miller, Moore, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Walker, Wells, Winsloe, Wood—36.

Nays—Badaracco, Bennett, Bradley, Brennan, Broderick, Carroll, Casey, Collins, Connolly, Doherty, Donahoe, Doyle, Fenton, Flynn, Gibbons, Giblin, Hickey, Horrigan, Johnson, Kasanof, Kelley, Logan, Lydon, Madden, Martin, Mulcahy, Newhall, O'Brien, Rice, Sullivan, Swaney, Tobin, Turnbull, Watson—34.

Absent or not voting—Brauer, Curley, Leonard, McDonald, Nangle—5.

Mr. CUDDY of Wd. 8 moved to reconsider; lost. Sent up.

APPROPRIATION FOR FANEUIL HALL

The Council proceeded to take up No. 4, assignment, viz:—

4. Ordered, That the sum of twenty-three thousand (\$23,000) dollars be appropriated, to be expended by the Engineering Department to meet the expense of the electric lighting, heating, plumbing, painting and plastering work of Faneuil Hall, and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The question came on passage in concurrence with the Board of Estimate and Apportionment.

Mr. STEVENS of Wd. 11 moved to amend by striking out the words "\$23,000" and inserting the words "\$15,000" in place thereof.

The question came on the adoption of the amendment.

Mr. STEVENS—Mr. President, so that there may be no misunderstanding in regard to that, I would like to explain why I have offered that amendment. I will repeat what I said at the last meeting, that we were given to understand that \$80,000 would put Faneuil Hall in proper condition—and by putting it in proper condition I mean that it would fix it up for a term of years. I saw yesterday the consulting architect, in the engineering department, in regard to this. He said that when that estimate of \$80,000 was made it was supposed that they would not have to go below the floor of Faneuil Hall. Now, as a matter of fact, before the city engineer would allow the steel structure and the tile floor to be put in, 25 pillars were put in for two floors, or what would be equal to 50 pillars for one floor. Besides that, they had to go below and increase the foundation. That took about \$18,000. If it had not been for that, the \$80,000 would have come very nearly completing that building. Now, in this additional sum which is requested, there is an amount of \$7000 which is intended to replace what was deducted temporarily from the contract. It also contains an estimate of \$5000 for heating, \$3000 for plumbing, and \$3000 is asked for by the electrical construction division for electric fixtures, etc. Now, as I understand it—and I think I am correct, for I have obtained the opinion of as good authority as there is in the city—the first three sums, namely, the \$7000 to replace the amounts deducted, the \$5000 for heating, and the \$3000 for plumbing, have been opened to public

competition for bids. As to the \$8000 asked for by the electrical construction division, if I am correct in my supposition, there has only been one organization, and that is the electrical construction department of the city, that has made any estimates upon that work; and it is for that reason I have offered the amendment to substitute the words "\$15,000" for "\$23,000." I ask that that item be open to public competition, just as the rest have been in the past. If that is done, and if I am convinced that the expenditure is necessary, I will undoubtedly favor it. I hope this amendment will be adopted.

Mr. MULCAHY of Wd. 14—Mr. President, I hope that the gentleman's amendment will not prevail. He has given us quite an itemized account of what it is proposed to expend the \$23,000 for. He wants to complete a whole building, and to do all the heating, plastering and plumbing, for \$15,000. Previous to the calling to order of this meeting, this gentleman told me he would vote for this order, providing that the contract would be open to bids. In one part of his speech he admits that the contract will be open to bids, and in the latter part he says that it will not be. I want to tell the gentleman from Wd. 11 that, as I understand it, there is \$10,000 worth of plumbing work to be done on Faneuil Hall. Now, the members of this body should consider this matter. I know that several of them have been there and looked the building over, and I will leave it to them as to whether this is enough money or not. I trust that this amendment will not prevail.

Mr. SANDERSON of Wd. 25—Mr. President, at a meeting of the Board of Estimate and Apportionment, Prof. Chandler put in an estimate of \$5,000 for steam heating, \$7,000 for painting and plastering, and \$3,000 for plumbing—in place of \$10,000, as was just been stated. The electrical construction division put in an estimate of \$8,000 for electric wiring. Now, Mr. President, I have been to see some of the practical builders and some experts on electric wiring, and I have found out that in Faneuil Hall the city does not intend to install an electric light plant at all. They simply intend to wire the building, and then to purchase the current from the electric companies. Now, any man who knows anything about electrical construction knows that it will not cost \$8,000 to wire Faneuil Hall, or any hall of its size. In fact, electrical experts have told me that \$5,000 would be a very large sum to appropriate for any such purpose. Now, in regard to the steam heating, Prof. Chandler announces that we require \$5,000 for that purpose. In 1898, on February 14th, Prof. Chandler addressed a letter to Josiah Quincy, Mayor of Boston, in which he said that \$3,554 would not only put in a steam plant, but that it would also put on fire escapes upon the building—and in the next sentence in his communication he says that after careful estimates have been made, even this sum may be lowered. Now, in February, 1899, he comes in and wants \$5,000 for a steam plant alone, without any fire escapes.

Mr. President, they do not intend to put in any steam boilers in Faneuil Hall whatever. They simply intend to pipe the hall and bring the steam heat across the street, from a separate place. Faneuil Hall is all let, and there is no place to put in a steam boiler. \$5000 for simply piping Faneuil Hall is out of all reason. In fact, \$2,000 will do the work, and there will be a little left, besides. In regard to painting and plastering, the contractor who has the building now under construction put an item in his bid of \$1000 for inside painting, and I have forgotten what it was for the plastering; but there will not be more than 4000 square yards of plastering in Faneuil Hall, and the market price anywhere for putting on plastering on metal laths is about 50 cents a square yard. At 50 cents a square yard, 4000 yards would amount to

about \$2000. \$1000 more for painting would make \$3000 for painting and plastering in Faneuil Hall. In fact, the only estimate that I can find that is anywhere near right is the estimate for plumbing of \$3000. I sincerely trust that the amendment as offered by Mr. Stevens of Wd. 11 will prevail.

Mr. STEVENS—Mr. President, if I did not misunderstand the representative from Wd. 14, he said that it would require \$10,000 for plumbing work in Faneuil Hall. Now, I have here before me on this paper the figures given me by Prof. Chandler. I understand that work is under his control, and I think he knows what he refers to. Also, he said that I said I would vote for this appropriation if it were open to public competition; and I am given to understand on what I consider the best authority there is that \$8000 has never been open to public competition, and has only been considered by the electrical construction division. I want to see that work opened to public bids and advertised, like the rest of the city business.

Mr. HICKEY of Wd. 2—I voted, Mr. President, originally for the appropriation of \$80,000 for Faneuil Hall last year. At the last meeting I voted against assignment, and I gave as my reason at that time the fact that assignment had already prevailed once, and the order at that time appeared on the calendar under the head of "Assignments." Tonight, in view of the new facts that have been brought in by the gentlemen in the second and fourth divisions, I will respectfully ask that the matter be further assigned for one week; \$15,000 is asked for, in place of \$25,000. Personally, I am inclined to take the figures of the Board of Apportionment, and I do not believe they would have asked us to pass this order as it is now if they had not had good reason for so doing; but, in view of the charges which have been brought by the gentlemen in those two divisions, and in view of the new facts which they have adduced, I would respectfully ask that the matter be deferred for one week, in order to allow us to look into the matter and to enable us to reply to their arguments at the next meeting of the Council.

The question came on assignment.

Mr. BORDMAN of Wd. 10—Mr. President, I rise to a point of information. I would like information as to when the order was passed by the Board of Apportionment, and I ask that information in order to see when the 30 days expire, at the end of which, under the provisions of the law, the order will go into effect without action by the city government.

The PRESIDENT—The Chair will state that the order was considered and passed by the Board of Apportionment on January 24, and has been on the calendar of the Council for two weeks now.

Mr. STEVENS—Mr. President, may I rise to a question of information? As I understand it, that order will not become a law without our vote until February 23d?

The PRESIDENT—The Chair will state that it will not become a law until the 30 days have expired from January 24.

Mr. STEVENS—Then, under those conditions, Mr. President, I should be very happy to grant the gentleman from wd. 2 the privilege of an assignment, in order to give him and the other gentlemen the information they wish. I like to get information, and I like to see other gentlemen have the same spirit; and I like to accord the privilege to them.

The President put the question on assignment, and, being in doubt as to the result, ordered a rising vote, which was taken, and further consideration of the matter was assigned to the next meeting.

RULES AND ORDERS OF THE CITY COUNCIL.

The PRESIDENT submitted the following:—

The joint special committee on the joint rules of the City Council, having consid-

ered the matter, beg leave to report, in part, at this time, and submit herewith the accompanying draft for adoption by the City Council as the rules for the ensuing year, the only changes being an increase in the membership of the committees from four to seven to five and eight, and the striking out of rules made unnecessary by the creation of the Board of Estimate and Apportionment.

For the Committee,

Edward L. Logan.

Alderman Colby dissents from the foregoing report.

JOINT RULES AND ORDERS OF THE CITY COUNCIL.

Joint Standing Committees.

Rule I. There shall be appointed at the commencement of the municipal year the following joint standing committees, the members of which shall be appointed by the respective branches in such manner as they may determine. Said committees shall respectively examine as often as they deem necessary the accounts of public moneys received and expended by the several departments. Each of said committees to consist of five aldermen and eight councilmen; namely:—

- 1—A committee on the Art Department.
 - 2—A committee on the Assessing Department.
 - 3—A committee on the Auditing Department.
 - 4—A committee on the Bath Department.
 - 5—A committee on the Building Department.
 - 6—A committee on the Cemetery Department.
 - 7—A committee on the City Clerk Department.
 - 8—A committee on the City Messenger Department.
 - 9—A committee on the Clerk of Committees Department.
 - 10—A committee on the Collecting Department.
 - 11—A committee on the Election Department.
 - 12—A committee on the Engineering Department.
 - 13—A committee on the Fire Department.
 - 14—A committee on the Health Department.
 - 15—A committee on the Hospital Department.
 - 16—A committee on the Institutions Departments.
 - 17—A committee on the Lamp Department.
 - 18—A committee on the Law Department.
 - 19—A committee on the Library Department.
 - 20—A committee on the Market Department.
 - 21—A committee on the Music Department.
 - 22—A committee on the Overseeing of the Poor Department.
 - 23—A committee on the Park Department.
 - 24—A committee on the Public Buildings Department.
 - 25—A committee on the Public Grounds Department.
 - 26—A committee on the Registry Department.
 - 27—A committee on the Statistics Department.
 - 28—A committee on the Street Department.
 - 29—A committee on the Street Laying-out Department.
 - 30—A committee on the Treasury Department.
 - 31—A committee on the Vessels and Ballast Department.
 - 32—A committee on the Water Department.
 - 33—A committee on the Weights and Measures Department.
 - 34—A committee on the Wire Department.
- There shall also be appointed annually,

in like manner, the following joint standing committees to perform the duties assigned them:—

1. A committee on Claims, to consist of five aldermen and eight councilmen, to whom shall be referred all claims against the city arising from the act or neglect of any of its departments. They shall report monthly the number and nature of the claims awarded or approved by them, and the amount of money awarded or paid in settlement thereof.

2. A committee on the Contingent Expenses of the City Council, to consist of five aldermen and eight councilmen, to whom shall be referred all matters involving expenditures from any appropriations for such purposes. They shall examine all bills and vouchers for expenditures chargeable to such appropriation, and, if the same are correctly certified to, shall authenticate them, if correct, by the signature of their chairman, and send the same to the city auditor on or before the twenty-fifth day of each month, to be paid as the bills of the several departments are paid.

3. A committee on Legislative Matters, to consist of five aldermen and eight councilmen, who shall, unless otherwise ordered, appear before committees of the general court and represent the interests of the city; provided, said committee shall not, unless directed to do so by the city council, oppose any legislation petitioned for by the preceding city council. It shall report in print to the city council all bills, resolves, and petitions presented to the legislature affecting the city of Boston or any department thereof. Such printed report shall be made at the next meeting of either branch after such application is made, or earlier, at the discretion of said committee.

4. A committee on Ordinances, to consist of the members of the committee on law department, to whom shall be referred all ordinances introduced in either branch or transmitted to them by vote of any standing committee. Unless specially instructed, they shall pass upon the question of the form and legality of the ordinance so referred, they may append an order that such ordinance "ought not to pass," and give their reasons therefor, or report such ordinance in a new draft. Such report shall be made in not over two weeks from the meeting at which the reference was ordered, or the ordinance received from a committee.

5. A committee on Police, to consist of five aldermen and eight councilmen, to whom shall be referred all matters relating to the police department.

6. A committee on Printing, to consist of five aldermen and eight councilmen, who shall have the charge of all printing, advertising, or publishing ordered by or for the city council, or either branch, as one of its contingent or incidental expenses, and the supply of all stationery or binding for the same purpose. The committee shall fix the number of copies to be printed of any document printed as above, the minimum, however, to be six hundred; and they shall have the right to make rules and regulations for the care, custody, and distribution of all documents, books, pamphlets, and maps by the city messenger.

7. A committee on Public Lands, to consist of five aldermen and eight councilmen, to whom shall be referred all matters relating to public lands.

8. A committee on Schools and School Houses, to consist of five aldermen and eight councilmen, to whom shall be referred matters relating to the public schools, and requests of the School Committee for additional school accommodations.

Joint Special Committees.

Rule 2. Every joint special committee ordered by the City Council shall, unless

otherwise provided in the order, be appointed in the manner provided in rule 1.

Joint Committees.

Rule 3. The member of the Board of Aldermen first named on every joint committee shall be its chairman; and, in case of his resignation or inability, the other members of the same Board, in the order designated by the Chairman of the Board, and after them the members of the Common Council in the order named, shall act as Chairman. The Chairman shall call meetings of the Committee at his discretion, or at the written request of a majority of the members.

Rule 4. Every joint committee shall cause records of their proceedings to be kept in books provided for that purpose; and at every meeting of a committee the records of the previous meeting shall be read, unless otherwise ordered by the committee. In all such meetings of committees all votes shall, at the request of any member, be taken by yeas and nays, and recorded.

Rule 5. No meeting of any committee shall, without the consent of all the members thereof, be called upon less notice than twenty-four hours from the time the clerk shall have mailed the notices or despatched them by special messenger.

Rule 6. Any joint committee may expend from the appropriation for contingent expenses an amount not exceeding two hundred dollars in one year, for purposes connected with the duties of said committee for which no provision has been otherwise made.

Conference Committees.

Rule 7. In every case of disagreement between the two branches of the city council, if either branch shall request a conference, and appoint a committee of conference, the other branch shall also appoint such a committee, and such committees shall consist of not less than five members each. Both committees shall, at an hour to be agreed upon by their chairmen, meet and state to each other, verbally or in writing, as either shall choose, the reasons for the action of their respective branches in relation to the matter in controversy, shall confer freely thereon, and shall report to their respective branches.

Reference to Committees.

Rule 8. When an order or resolution relates to a subject which may properly be examined and reported upon by an existing committee of the city council, such order or resolution shall, upon presentation, be referred to such committee. Either branch of the city council may commit or recommit to a joint committee, but a reference with instructions shall require concurrent action.

Reports of Joint Committees.

Rule 9. No report of a joint committee shall be received by either branch of the city council unless agreed to by such committee at a duly notified meeting thereof. The report of a committee upon any subject referred to it shall, unless otherwise ordered by the city council or by the committee, be presented to the branch in which the order of reference originated. It shall be the duty of every joint committee to which any subject may be specially referred, to report thereon within four weeks, or to ask further time.

Rule 10. All reports submitted to the City Council shall be written or printed, and no indorsement of any kind shall be made on the reports, memorials, or other papers, excepting those made by the officers of either branch, or the name of the member offering the same. Every report of a committee shall be signed by a member belonging to the body to which it shall be presented, unless otherwise directed by the committee. Every member presenting an order, ordinance or resolu-

tion shall have his name indorsed thereon. Such member shall be informed, by the clerk of the committee to which the matter is referred, of the time fixed for its consideration, if he give notice of his desire to be heard thereon.

Rule 11. Any report containing any recommendation, other than "leave to withdraw," or "inexpedient to take further action," or reference to another board or committee, shall be accompanied by an ordinance, order or resolve, embodying such recommendation; and such report shall be acted upon separately.

Rule 12. Any member of a joint committee may submit a minority report at the same time as the majority report, and, if the latter be in print, he shall be allowed to submit his report also in print. Either branch may order to be printed the report of any committee submitted to it, or any document relating to a subject under consideration, the expense thereof to be charged to the general appropriation for printing.

Notice to Other Branch.

Rule 13. All papers requiring concurrent action shall be transmitted from one branch of the City Council to the other before the next regular meeting of the latter branch, with the action of the branch sending them indorsed thereon, and signed by the regular presiding officer of such branch, or, in his absence, by the clerk, or assistant clerk, of such body. In case of votes or action by either branch, not based on written orders or papers, notice of the same shall be transmitted to the other branch, signed as hereinbefore directed. In case any ordinance, order, or resolution, originating in one branch, shall fail to pass in the other, notice thereof shall be given, under the signature of the clerk, to the branch in which the same originated.

Orders and Resolutions.

Rule 14. In all votes requiring concurrent action the form of expression shall be "Ordered" for everything by way of command; and the form shall be "Resolved" for everything expressing opinions, principles, facts, or purposes.

Appropriations and Expenditures.

Rule 15. Whenever the city council shall order an expenditure by any committee, board, or officer, either in addition to the estimates on which the appropriation is made, or for an object not included in such estimates, it shall provide for the payment of the same.

Rule 16. No expenditure shall be made from the reserve fund except by a transfer to some other appropriation, or to a new appropriation to be established, and no expenditure shall be charged to the appropriation for incidental expenses except transfers and the expenditures therefrom provided for in the ordinances.

Bills and Accounts.

Rule 17. No presiding officer of a board or chairman of a committee, unless duly authorized by such board or committee, shall approve any bill or account against the city.

Amendment or Repeal.

Rule 18. The foregoing rules shall not be altered, amended, suspended, or repealed, at any time, except by the votes of two-thirds of the members of each branch of the city council present and voting thereon.

MINORITY REPORT.

In Common Council, February 9, 1899.

The undersigned respectfully dissent from the majority report of the committee on joint rules and orders in so far as said report provides that each of the joint committees shall consist of five aldermen and eight councilmen, and present herewith a minority report providing that said committees shall consist of three aldermen and five councilmen.

The reasons for such action are briefly these:—

Joint committees in general have consisted of eight members or less for at least thirty-five years preceding the last municipal year, and years of experience never developed the fact that committees were not large enough to properly do the work entrusted to them. In 1898, owing to an equal division of the board of aldermen between the democrats and republicans, it was decided that the parties were entitled to an equal representation on committees so far as the board was concerned. With this in mind the joint committees of 1898 were made up of four aldermen and seven councilmen, thus increasing the number of members on committees from eight to eleven.

One year's experience demonstrated conclusively that the committees were too large and that it was almost impossible to secure a quorum. With the present year and a removal of the causes which led to the increase in the size of committees in the past year, the logical inference would seem to be that we should return to the well established joint committees of eight members.

But not willing to return to that and not satisfied with the increase of last year to eleven members the majority of the committee have reported in favor of a further increase in the membership of joint committees of thirteen, and this in spite of the fact that the importance, duties and powers of the committees of the city council have decreased in even greater proportion than have the powers of the council itself.

There are, however, at least two committees, building department and claims, which hold stated meetings and have important duties to perform, and in whose proper and efficient working the taxpayers of the city have a direct interest, and it is the almost unanimous opinion of those who have had experience with those committees that the proposed increase in them will make them inefficient and probably inoperative for want of a quorum.

Absolutely the only reason advanced in or out of the committee for the proposed increase is that it simplifies the matter of committee appointments for the presiding officers, and at best this can hardly be considered of sufficient importance to warrant the proposed change.

In view of these facts the undersigned respectfully recommend the passage of the accompanying amendment to the rules as submitted by the majority of the committee.

John H. Colby,
Frank J. O'Toole,
David F. Barry.

Ordered, That the draft of the rules and orders of the City Council, as reported by the majority of the committee on said subject, be amended in Rule 1 by striking out the words "five" and "eight," wherever they occur in said rule, and inserting in place thereof the words "three" and "five" respectively.

The PRESIDENT—If there is no objection, the Clerk will dispense with the reading of the report in full.

The question came on the acceptance of the majority report.

Mr. LYDON of Wd. 13—Mr. President, I most respectfully move that the matter be assigned for a week.

Mr. LOGAN of Wd. 14—Mr. President, I hope the matter will not be assigned for a week. I think the arguments in favor of or against the acceptance of this report might just as well be heard tonight as a week from tonight. The majority of the Committee, who submit this report, are willing to state their reasons for it. We have increased the number of committees by adding three. We have put in a committee on art department, a committee on music department, and a committee on statistics department, and the committee on joint rules has eliminated those committees whose existence is made

unnecessary by the passage, by the Massachusetts Legislature last year of the act creating the Board of Estimate and Apportionment. In regulating the size of the committees which we thought it would be advisable for this council to have for the ensuing year, the members of the committee took into consideration the size of the committees which the state legislature of Massachusetts had deemed it wise to appoint from their bodies. The proportion of membership between the Common Council and the Board of Aldermen is almost exactly the same as the proportion of membership between the House of Representatives of Massachusetts and the State Senate of Massachusetts. So we thought it might be advisable and that perhaps more work could be done if we increased the size of the committees on the part of the Council to eight, and on the part of the Board of Aldermen to five. In that way we would have committees on the part of the Board of Aldermen of the same size as committees on the part of the Massachusetts Senate, and committees of the Common Council of the same size as committees on the part of the House. I hope the matter will not be assigned for a week, but that the Council will take it up at once.

Mr. MULCAHY of Wd. 14—Mr. President, I hope the motion of the gentleman from Wd. 13 (Mr. Lydon) will prevail. This report is something that we are not very well posted on. Coming in here tonight, I don't think it is fair to ask any man who is not on the committee to vote for it on the impulse of the moment, as there is not only a majority but a minority report. I think each member of the body is justified in asking for an assignment of the matter under the circumstances. I hope and trust that it will be assigned for a week.

The PRESIDENT—The question is on assigning for one week.

Mr. MARTIN of Wd. 15—Mr. President, I hope this matter will not be assigned. As a member of that committee I will simply say that we talked this matter over, and the alderman who has dissented told us at the time that he would dissent from the committee's report. I see no reason why we cannot settle this business tonight. It is simply a matter of having three more members on a committee. The gentleman in the second division (Mr. Logan) tells us plainly that it will facilitate matters to have more members on the committee, and I believe it will. We should have a larger membership on committees. What power has the Common Council or the Board of Aldermen got at the present time except through committees? I believe if we have any power in our hands we should keep it. I hope the matter will not be assigned for a week, but will be acted on tonight.

Mr. STOCKTON of Wd. 11—Mr. President, as a member of the committee I hope this matter will not be assigned. The only question on which the majority and minority reports are at variance is the question of the number of aldermen and councilmen respectively which shall constitute committees. That, sir, is a question which can be perfectly well understood by every member of this council tonight and on which it seems entirely unnecessary to waste further time. I hope the matter will be acted on tonight.

Mr. HICKEY of Wd. 2—Mr. President, I hope the matter will be assigned to the next meeting, with all due deference to the Committee. The only fault I have to find with the committee is that they have been poring over this subject and have had a number of meetings to consider it and are perfectly familiar with it, whereas this is the first time I have seen it. There are nine or ten printed pages here, and I would like an opportunity to read them. I would respectfully ask the members of the committee who have pre-

sented this report tonight to allow it to go over, so that members will have an opportunity to read it before next Thursday night.

Mr. LYDON—Mr. President, in moving assignment, I wish to say that I don't believe I will be antagonistic to this a week from tonight. I believe the joint rules are something very important, something that should be looked into, but I have no question that in a week's time I will be able to vote on the matter intelligently. I don't think, however, it is right to come in with a matter of this importance and ask us to vote upon it at once. I believe it should be laid over a week to give members a chance to look into it, and it is possible that some members may wish to offer suggestions and make a few corrections. Perhaps the report is all right and ought to be accepted, but we certainly cannot say intelligently whether it should be accepted until we have an opportunity to look it over. I hope assignment will prevail.

Mr. WATSON of Wd. 13—Mr. President, I trust that assignment will not prevail. My reason is that the majority report is signed by all the members of the Council on the committee. Not one member of the Council dissents, but only members of the Board of Aldermen. I am thoroughly satisfied that when all the members of the Common Council on that committee come in here with a majority report which they have signed, that report is for the benefit of the Common Council, although it may not be for the benefit of the Board of Aldermen. It stands to reason that the Council members of the committee will look out for the Council end of it; and when you see three republicans and four democratic members of the Common Council—the entire representation of this body—a unit in this matter, you may make up your minds that something has been done which may not be for the benefit of the Board of Aldermen, but which is certainly for the benefit of the Common Council. I hope assignment will not prevail.

Mr. LOGAN—Mr. President, in asking that the matter be assigned for a week. I did so for this reason: We will be glad to have the committees appointed as soon as possible, in order that they may get right down to work. But if the matter is assigned for a week, some members will not then be satisfied but will want it assigned for another week. There will therefore be a delay in the making up and announcement of committees. It is with the object in view of having the Committees made up and announced as soon as possible that I hope the matter will not be assigned for a week, and I still persist in my desire that this shall be acted upon tonight.

Mr. McINERNEY of Wd. 19 moved the previous question.

The PRESIDENT—The Chair desires to state that the previous question will cut off the motion to assign.

Mr. LYDON—Mr. President, I sincerely hope the previous question will not be put. It seems to me that assignment for a week will not hurt anybody to any extent. I don't see why the report should not be assigned. If it will not do any good, it certainly can do no harm. The matter is in the hands of the Council, and if it is assigned for a week members will have an opportunity to look it over and will perhaps see a chance for improvement. I believe we should have a chance to look over the report and see if any improvements can be suggested. I see no harm that can be done by an examination of the report, and I sincerely trust that the main question will not be put.

The main question was declared ordered. Mr. Mulcahy doubted the vote and asked for a rising vote, which was taken, and the main question was ordered, 39 members in the affirmative, 13 in the negative. The report was accepted, and the rules

were adopted. Mr. Cuddy of Wd. 8 moved to reconsider; lost. Sent up.

CROSSWALK, WD. 22.

Mr. LOREY of Wd. 22 offered an order—That His Honor the Mayor be requested to instruct the Superintendent of Streets to construct a crosswalk at the junction of Bromley and Heath Sts., Wd. 22. Referred to His Honor the Mayor.

ELECTRIC LIGHTS, LAMARTINE ST.

Mr. LOREY of Wd. 22 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to locate a suitable number of electric lights on Lamartine St., between Boylston St. and Green St., Wd. 22. Referred to His Honor the Mayor.

TRACKS ON CAMBRIDGE ST., WD. 4.

Mr. SULLIVAN of Wd. 4 offered an order—That the Boston Elevated St. Railway Company be requested to remove the car tracks which are not now being used and apparently will not be needed again on Cambridge St., between Main St. and Brighton St., Wd. 4. Passed. Sent up.

LIST OF EMPLOYEES.

Mr. CHAMBERLAIN of Wd. 12 offered an order—That His Honor the Mayor be requested to submit to the Common Council on or before May 4, 1899, a list of the employees of every department in the city under his control on the first day of January, 1896, or thereabouts, their names and salaries when such salary or wages amounted to more than \$1.50 per day; and a corresponding list of all employees of every department in the city under his control on the first day of January, 1899, or thereabouts, their names and salaries when such salary or wages amounted to more than \$1.50 per day; and an accompanying table showing the gross number in each department on said dates or thereabouts with a gross total of salary expenditures for each department, and a table showing in a general way the increase of salaries appertaining to any particular office, position or class of employees, for the information of the Common Council, benefit of the tax-payers of the city of Boston, and for the interest of the business community. Referred to His Honor the Mayor.

REPAVING OF WEST CEDAR ST.

Mr. STEVENS of Wd. 11 offered an order—That the Board of Estimate and Apportionment be requested to include in the next loan order a sum sufficient to repave West Cedar St. Referred to the Board of Estimate and Apportionment.

FARRAGUT DAY.

Mr. DONAHOE of d. 14 offered an order—That a special committee, to consist of seven members of the Common Council, with such as the Board of Aldermen may join, be appointed to prepare and report a programme for the celebration of June 28, Farragut Day; the expense of the same, not to exceed twelve hundred dollars, to be charged to the appropriation for City Council, Incidental Expenses. Passed. Sent up.

GYMNASIUM, WD. 14 PLAYGROUND.

Mr. DONAHOE of Wd. 14 offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order the sum of \$25,000 as an appropriation for a gymnasium on the Wd. 14 playground. Referred to Board of Estimate and Apportionment.

PUBLIC MARKET, PARK SQUARE.

Mr. BORDMAN of Wd. 10 offered an order—That His Honor the Mayor be requested to take the steps necessary to secure the Park Square Station property of the New York, New Haven and Hartford Railroad Company for use as a public retail market, when the same is vacated by said railroad company. Referred to His Honor the Mayor.

REPEAL OF SEWER LAW.

Mr. BORDMAN of Wd. 10 offered the following:

Whereas, The Legislature in 1897 passed an act entitled "An Act Relative to the Sewerage Works of the City of Boston," which lays a heavy, unequal, and in many cases, unjust burden upon property owners in this city, and

Whereas, Said Act, if constitutional, is unfair, ill-judged and opposed to the true interests of the citizens of Boston, be it

Resolved: That the Common Council of the City of Boston, in regular session assembled, hereby places itself on record as opposed to that law, and as favoring the passage of the bills now before the Legislature providing for its repeal. Passed.

GYMNASIUM, WARD 7.

Mr. STONE of Wd. 7 offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order an appropriation of \$35,000 for an in-door gymnasium and bath-house in Wd. 7.

Referred to the Board of Estimate and Apportionment.

GYMNASIUM, ORCHARD PARK.

Mr. FLYNN of Wd. 17 offered an order—That the Board of Estimate and Apportionment be requested to provide a sum sufficient for a gymnasium in Orchard Park in the first loan bill reported to the City Council.

Referred to the Board of Estimate and Apportionment.

HAMPDEN ST. WIDENING.

Mr. FLYNN of Wd. 17, offered an order—That the Board of Street Commissioners be requested to report to the Common Council an estimate of the cost of widening Hampden St. to a width of seventy feet.

Referred to the Mayor.

LEAVE OF ABSENCE FOR FIREMEN.

Mr. WATSON of Wd. 13 offered an order—That His Honor the Mayor request the Fire Commissioner to grant to the members of the Fire Department who have lost or may lose their regular twenty-four hours leave of absence because of the storm of January 31 and February 1, 1898, an additional twenty-four hours leave of absence following their next day off, but in case it should be deemed not expedient to grant the additional twenty-four hours leave of absence as above provided, then the Fire Commissioner shall be requested, through His Honor the Mayor, to grant to the members of said department who have lost or may lose their twenty-four hours leave of absence because of the said storm, an additional day's pay.

Mr. WATSON of Wd. 13—Mr. President, I desire to say but a word on the order, and it is this: About one year ago we had a very severe storm, by reason of which the members of the Fire Department, from the chief down to the humblest members of the department, lost two days each. Those were the days that they were allowed under the provision giving them one day off in eight. For sixteen days they received no day off. This same order was introduced last year and referred to

His Honor the Mayor. This Council received no notice of what was done, but I have found out that they did nothing. I merely ask His Honor the Mayor, the man whom the firemen elected Mayor of Boston—for without their assistance he would not have won—to be fair with the men, in all justice, giving them what belongs to them. He has already taken $7\frac{1}{2}$ per cent from their wages—from the wages of men working 365 days every year. I now ask, through this resolution, His Honor the Mayor and the Fire Commissioner to at least give the men pay for the two days they lost. That belongs to them, and the keeping of it from them is robbery. The Fire Commissioner is the man who is perpetrating that robbery. I trust that he will take some action.

The order was referred to His Honor the Mayor.

FLAGSTAFF, CO. D ARMORY.

Mr. DOHERTY of Wd. 13 offered an order—That the Board of Aldermen be requested to provide a flagstaff and flag for the armory of Co. D, Ninth Regiment, corner of Lexington and Bunker Hill Sts., Charlestown.

Passed. Sent up.

WATERING TROUGH, CITY SQ.

Mr. BENNETT of Wd. 5 offered an order—That the Water Commissioner, through His Honor the Mayor, be requested to cause the watering trough for horses to be relocated in City Sq., Charlestown, when the reconstruction of said square is completed.

Referred to His Honor the Mayor.

ELECTRIC LIGHT, VT. VERNON AVE., WD. 5.

Mr. BENNETT of Wd. 5 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to place an electric light on Mt. Vernon Ave., Wd. 5, Charlestown.

Referred to His Honor the Mayor.

GYMNASIUM, Wd. 5.

Mr. BENNETT of Wd. 5 offered an order—That the Board of Estimate and Apportionment include in their estimates a sufficient sum to construct and carry on an all around the year gymnasium in Wd. 5.

Referred to the Board of Estimate and Apportionment.

WD. 15 GYMNASIUM.

Mr. FENTON of Wd. 15 offered an order—That the Board of Estimate and Apportionment be requested to include in the next loan order the sum of thirty thousand dollars (\$30,000) for completing and furnishing the gymnasium and bath house, now being erected in Wd. 15.

Referred to the Board of Estimate and Apportionment.

ASPHALT GUTTERS, DORCHESTER STREET.

Mr. FENTON of Wd. 15 offered an order—That the Board of Estimate and Apportionment be requested to provide a sufficient appropriation to enable the Superintendent of Streets to construct asphalt gutters on each side of Dorchester St. to the width of four feet, between Dorchester Ave. and Eighth St.

Referred to the Board of Estimate and Apportionment.

MOTION TO ADJOURN.

Mr. HARRIGAN of Wd. 3 moved to adjourn.
Lost.

SPEEDWAY, FRANKLIN FIELD.

Mr. MILDAM of Wd. 24 offered an order—That the Board of Park Commissioners, through His Honor the Mayor, be requested to take such action as will result in a strip of land bordering on the southerly side of Franklin Field being set aside and made available for a speedway.

The order was referred to His Honor the Mayor.

Mr. HARVEY of Wd. 24—Mr. President, I tried to catch your eye so as to get recognition, before that order was referred.

The PRESIDENT—The Chair has referred the order to His Honor the Mayor.

Mr. HARVEY—Mr. President, in regard to that order I wish to say merely a word. I will see His Honor the Mayor later. In regard to the order introduced by the gentleman from my ward, I spoke to him earlier in the evening. The order was brought to my notice about two weeks ago, and I told him at the time that, while I was not opposed to it, I did not feel justified in taking action on the matter without consulting with the people in my neighborhood, this being in my immediate district. Monday night of this week, at a meeting of an improvement association of which I am a member, I brought the matter to the notice of the Association. The opinion was there unanimously expressed that they were opposed to this location for a speedway, at this end of the field, and they instructed the Secretary to notify the Park Commissioners to that effect. I hope His Honor the Mayor will act accordingly when the matter is brought to his notice.

The PRESIDENT—The order is referred to His Honor the Mayor.

EXTENSION OF COVE ST.

Mr. GIBLIN of Wd. 15 offered the following:—

Whereas, A notice has been filed with the Secretary of State that certain people would petition the Legislature for the repeal of the Cove St. bill,

Resolved, That this body declare itself against the repeal of said law and that it remonstrate against the same at such time and place as the Legislature may see fit.

Passed.

PAVING UTICA PL.

Mr. DONOVAN of Wd. 7 offered an order—That the Board of Estimate and Apportionment insert in the next loan bill a sum sufficient to pave Utica Pl. in Wd. 7.

Referred to the Board of Estimate and Apportionment.

GYMNASIUM, COMMONWEALTH PARK

Mr. COLLINS of Wd. 13 offered an order—That the Board of Estimate and Apportionment report in the first loan bill an appropriation of \$10,000 for the furnishing and completion of the gymnasium at Commonwealth Park, South Boston.

Referred to the Board of Estimate and Apportionment.

WAITING ROOM, EAST BOSTON.

Mr. BAGLEY of Wd. 1, offered an order—That the Board of Estimate and Apportionment include in the next loan bill the sum of \$10,000 for the purpose of furnishing and maintaining a waiting room at the Boston side of the North Ferry for persons waiting for cars.

Mr. BAGLEY of Wd. 1—Mr. President, for a number of years the members of this body coming from my ward have been endeavoring to get a waiting room for the passengers waiting for the cars at the North Ferry. The present condition of affairs is very hard for the people to endure. They have no room down there in which to wait, and they frequently have

to wait ten, fifteen or twenty minutes for cars. Tonight in coming over here I myself waited fifteen minutes, with perhaps 150 others. As the city provides a waiting room on the East Boston side, I think perhaps the Board of Apportionment might vote \$10,000 for this purpose on the city side.

The order was referred to the Board of Estimate and Apportionment.

FENCE ALONG RAILROAD TRACKS.

Mr. BAGLEY offered an order—That the Boston, Revere Beach & Lynn R. R. Co. be requested, through His Honor the Mayor, to place a fence along their tracks between the Harbor View station and Byron St., Wd. 1.

Referred to His Honor the Mayor.

GATES AT RAILROAD CROSSING.

Mr. BAGLEY offered an order—That the Superintendent of Streets be requested to take necessary steps to have gates placed at the railroad crossing at Curtis St., Wd. 1.

Referred to His Honor the Mayor.

LIGHT ON BREMEN ST.

Mr. BAGLEY offered an order—That the Superintendent of Lamps be requested, through His Honor the Mayor, to place a gas light in front of estate No. 370 Bremen St., Wd. 1.

Referred to His Honor the Mayor.

APPOINTMENT TO FILL VACANCY.

The President announced that Mr. Klemm of Wd. 21 was appointed on the Committee on Playground, Wds. 18 and 19, vice Mr. Casey, resigned.

CATCH BASIN, MARSHFIELD ST.

Mr. BRENNAN of Wd. 17 offered an order—That the Superintendent of Streets, through His Honor the Mayor, be instructed to construct a catch basin on the north-easterly side of Marshfield St., near the corner of Batchelder St., Wd. 17.

Referred to His Honor the Mayor.

ELECTRIC LIGHT, ROXBURY.

Mr. BRENNAN offered an order—That the Superintendent of Lamps, through His

Honor the Mayor, be requested to place an electric light at the corner of Magazine and Dunmore Sts., Wd. 17.

Referred to His Honor the Mayor.

ASPHALT PAVING OF DUDLEY ST.

Mr. BRENNAN offered an order—That the Board of Estimate and Apportionment be requested to provide in the first loan order a sum sufficient to pave with asphalt the easterly side of Dudley St., from Dunmore St. to Woodward Ave., Wd. 17.

Referred to the Board of Estimate and Apportionment.

EMERGENCY HOSPITAL, CHARLESTOWN.

Mr. GIBBONS of Wd. 5 offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order a sum sufficient to enable the Trustees of the Boston City Hospital to establish and maintain an emergency hospital in Charlestown and an ambulance in connection therewith.

Referred to the Board of Estimate and Apportionment.

GYMNASIUM, CHARLESTOWN.

Mr. GIBBONS offered an order—That the Board of Estimate and Apportionment be requested to include in the first loan order an amount sufficient for the purchase of land for a playground and for the establishment of an open air gymnasium in Wd. 5.

Referred to the Board of Estimate and Apportionment.

SCHOOL ACCOMMODATION AT CENTRAL STATION.

Mr. NEWHALL of Wd. 23 offered an order—That the School Committee, through His Honor the Mayor, be requested to provide school accommodations of the primary grade at that section of Wd. 23 known as Central Station.

Referred to His Honor the Mayor.
Adjourned at 9:23 o'clock P. M., on motion of Mr. Hibbard of Wd. 24, to meet on Thursday, Feb. 16, at 7:45 o'clock P. M.

CITY OF BOSTON.**Special Meeting of the Board of Aldermen.**

Friday, Feb. 10, 1899.

A special meeting was called at 12 o'clock,

noon, to draw jurors, and a quorum was present.

Six additional jurors were drawn for Superior Civil Court, fourth session, under the provisions of Chap. 514 of the Acts of 1894, viz:—

James P. Sullivan, Wd. 1; Talbot B. Aldrich, Wd. 11; John McKinlay, Wd. 22; Edwin G. Schuler, Wd. 3; James F. Curran, Wd. 13; Alvestus A. Howe, Wd. 8.

Adjourned at 12:10 o'clock P. M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen.

Monday, Feb. 13, 1899.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock P. M., Chairman Barry presiding. Absent—Ald. Berwin.

The Board voted, on motion of Ald. Doyle, to dispense with the reading of the records of the last two meetings.

NIGHT LUNCH WAGON—VETO.

The following was received:—

Mayor's Office, City Hall,
Boston, February 10, 1899.

To the Board of Aldermen:—

I return herewith without my approval the vote of your Board granting permission to W. F. Healey to stand a night-lunch wagon at the junction of Shawmut Ave. and Tremont St. I felt obliged nearly three years ago to adopt the policy of declining to sign any further permits for lunch wagons, on the ground that as many permits of this character had been issued as it was in the public interest to grant. I feel it necessary to adhere strictly to this policy, unless peculiar and extraordinary conditions seem to afford a reason for granting a permit in some particular place, as might possibly be the case in some outlying district; but I can see no reason for making an exception in this locality.

Respectfully submitted,
Josiah Quincy, Mayor.

The vote whereby the permit was granted was reconsidered and on motion of Ald. Codman the message was referred to the Committee on Public Improvements.

COST OF WIDENING HANCOCK ST.

The following was received:—

Mayor's Office, City Hall,
Boston, Feb. 13, 1899.

To the Board of Aldermen:—

I transmit herewith a communication from the Board of Street Commissioners in reply to your order requesting an estimate of the cost of widening Hancock St., Dorchester, from Columbia Road to Freeport St., to a width of 80 feet.

Respectfully, Josiah Quincy, Mayor.

City of Boston,
Street Commissioners' Office,
City Hall, Feb. 13, 1899.

Hon. Josiah Quincy, Mayor:—

Sir: The Board of Street Commissioners respectfully report upon the order of the Board of Aldermen of January 9, 1899, of which a copy is sent you herewith, that in their opinion the cost of the widening of Hancock St., Dorchester, from Columbia Road to Freeport St., to a width of eighty feet, would require an appropriation of sixty thousand dollars.

By order of the Board of Street Commissioners. J. H. Jenkins, Secretary.

Referred to the Board of Estimate and Apportionment.

CLOSING OF STREETS.

Ald. PRESHO presented a petition from the Board of Police for the closing of certain streets to public travel.

Under a suspension of the rule, Ald. PRESHO offered the following, in connection therewith, viz:—

Ordered—That the Board of Police be authorized to close to public travel, on February 16, 1899, between the hours of 9:30 and 11 o'clock A.M., the several streets entering Park Sq., also Boylston St., from Charles St. to Berkeley St., Arlington St., Beacon St., from Arlington St. to Park St., Park St., and Tremont St., from Park

St. to Eliot St., and such other streets as may be necessary; said closing being on account of the reception of the President of the United States.

Passed, under a suspension of the rule.

PETITIONS REFERRED.

The following petitions were received, and were referred to the committees named, when appointed, viz:—

Building Dept. (Ald.).

Petitions for leave to project signs, etc., viz:—

Silas and Peter Coluci, four barber poles, at 4 Chelsea St., Wd. 5.

Flanders & Hoffman, one sign, at 19 Province St., and one at 14 Chapman Pl.

G. O. Goldsmith, a sign, at 37 Haverhill St., Wd. 6.

John A. Heyl, a sign, at 243 Washington St., Wd. 6.

Fred D. Bacon, a sign, at 71 Cornhill, Wd. 6.

Ryder & Brocks, an illuminated sign, at 12 Essex St., Wd. 7.

Claims.

Anna M. Sallaway, for payment to George H. Sallaway of balance remaining from tax sale of estate, 374 Chelsea St.

Catherine A. Macdonald, for payment to Albert A. Teele, or to his attorney, Edgar S. Fisher, of balance remaining from tax sale of estate on Granville St.

Harriet B. Preston, for payment of balance remaining from tax sale of estate on Mill St.

Faneuil Hall, Etc.

Farmers' National Congress, for the use of Faneuil Hall on October 3, 4, 5 and 6.

Licenses.

A. L. Griffin, Manager, for a permit for Baby Blanche and Gussie Hunt, under 15 years of age, to appear at the Bowdoin Square Theatre for the week beginning Feb. 13, 1899.

Public Improvements.

H. Burr Crandall, for assessment of damages for lowering grade of McLeilan St., Dorchester.

Woodbury & Leighton, for leave to erect guy posts in North and South Markets Sts., Dock Sq. and Union St.

American Sugar Refining Co., to be allowed to operate and use with cars and engines the tracks on First and Granite Sts., East Boston, a location for which tracks was granted to the Standard Sugar Refinery Co. in 1882.

Railroads.

Timothy D. Sullivan et als., for the removal of the tracks of the North Shore Traction Co., now controlled by the Boston & Lynn R.R. from Walley St.

PAPERS FROM COMMON COUNCIL.

1. The following was passed by the Common Council, and sent up:—

Ordered, That the Board of Aldermen be requested to provide a flagstaff and flag for the armory of Company D, Ninth Regiment, corner of Lexington and Bunker Hill Sts., Charlestown.

Referred to the Committee on Armories.

2. Ordered, That the Boston Elevated Railway Company be requested to remove the car tracks which are not now being used, and apparently will not be needed again, on Cambridge St., between Main St. and Brighton St., Wd. 4.

Referred to the Committee on Railroads.

3. Ordered, That a special committee, to consist of seven members of the Common Council, with such as the Board of Aldermen may join, be appointed to prepare and report a programme for the celebration of June 28, Farragut Day; the expense of the same, not to exceed twelve hundred (\$1200) dollars, to be charged to the

appropriation for City Council, Incidental Expenses.

Referred to the Board of Estimate and Apportionment.

There being no objection, the Board took up Nos. 4 to 16, inclusive, viz.:-

The thirteen following orders were sent up for concurrence in their reference to the Board of Estimate and Apportionment:-

4. Ordered, That the Board of Estimate and Apportionment be requested to include in the next loan order a sum sufficient to repave West Cedar St.

5. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan order the sum of twenty-five thousand (25,000) dollars as an appropriation for a gymnasium on the Wd. 14 Playground.

6. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan order an appropriation of thirty-five thousand (35,000) dollars for an in-door gymnasium and bath-house in Wd. 7.

7. Ordered, That the Board of Estimate and Apportionment be requested to provide a sum sufficient for a gymnasium in Orchard park, in the first loan bill reported to the City Council.

8. Ordered, That the Board of Estimate and Apportionment include in their estimates a sufficient sum to construct and carry on an all-round-the-year gymnasium in Wd. 5.

9. Ordered, That the Board of Estimate and Apportionment be requested to include in the next loan order the sum of thirty thousand (30,000) dollars for completing and furnishing the gymnasium and bath-house now being erected in Wd. 15.

10. Ordered, That the Board of Estimate and Apportionment be requested to provide a sufficient appropriation to enable the Superintendent of Streets to construct asphalt gutters on each side of Dorchester St., to the width of four feet between Dorchester Ave. and Eighth St.

11. Ordered, That the Board of Estimate and Apportionment insert in the next loan bill a sum sufficient to pave Utica Pl., in Wd. 7.

12. Ordered, That the Board of Estimate and Apportionment report in the first loan bill an appropriation of ten thousand (10,000) dollars for the furnishing and completion of the gymnasium at Commonwealth Pk., South Boston.

13. Ordered, that the Board of Estimate and Apportionment include in the next loan bill the sum of ten thousand (10,000) dollars for the purpose of furnishing and maintaining a waiting-room at the Boston side of the North Ferry, for persons waiting for cars.

14. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan order, an amount sufficient for the purchase of land for a playground and for the establishment of an open-air gymnasium in Wd. 5.

15. Ordered, That the Board of Estimate and Apportionment be requested to include in the first loan order a sum sufficient to enable the trustees of the Boston City Hospital to establish and maintain an emergency hospital in Charlestown, and an ambulance in connection therewith.

16. Ordered, That the Board of Estimate and Apportionment be requested to provide in the first loan order a sum sufficient to pave with asphalt the easterly side of Dudley St., from Dunmore St. to Woodward Ave., Wd. 17.

Severally referred to the Board of Estimate and Apportionment.

17. Majority and minority reports of the joint special committee on joint rules and orders of the City Council. (Doc. 44.)

The majority report and the draft of rules submitted with said report come up for concurrence.

Referred to the Committee on Public Improvements, on motion of Ald. Colby.

18. The order passed by the Board of Estimate and Apportionment appropriating one million (1,000,000) dollars for the construction of sewerage works, and authorizing a loan therefor, which was amended in Common Council February 2 by substituting five hundred thousand (500,000) dollars in place of one million (1,000,000) dollars, and on which this Board, at its last meeting non-concurred with the Common Council, and adhered to its action of January 30, in the passage of said order as originally submitted, comes up non-concurred in Common Council February 9, and adhered to former action.

The Board voted, on motion of Ald. Doyle, to adhere to its former action, yeas 3, nays 2, Ald. Adams and Presto voting nay.

CONFIRMATION OF APPOINTMENT.

The Board proceeded to take up No. 19, unfinished business, viz:

19. Action on the appointment of Charles R. Williams to be a Weigher of Coal, for the term ending April 30, 1899.

The question came on confirmation. Committee—Ald. Adams and McDonald. Whole number of ballots cast 11, yes 11, and the appointment was confirmed.

CHANGING OF STREET NAMES.

The Board voted, on motion of Ald. Presto, to consider Nos. 20, 21, inclusive, unfinished business, together, viz:

Action on certain orders passed by the Board of Street Commissioners changing the names of certain streets, viz:

20. Changing the name of Avon Pl., leading from Washington St. to Chauncy St., to Avon St.

21. Changing the name of Shelton St., leading in continuation of Wrentham St. from Bruce St. to Adams St., to Wrentham St.

22. Changing the name of Bell St., leading from Chestnut Ave. to Lamartine St., to Biltmore St.

23. Changing the name of High St., leading from Water St. to Ericsson St., at Dorchester, to Port Norfolk St.

The action of the Board of Street Commissioners was confirmed.

FINANCIAL SITUATION OF CITY.

The Board proceeded to take up No. 24, unfinished business, viz.:-

24. Message of the Mayor transmitting a communication from the Board of Statistics in relation to the financial situation of the city. (Doc. 55.)

Sent down.

TUNNEL TO EAST BOSTON.

The following was received:-

Boston Transit Commission,
20 Beacon St.,

Boston, Feb. 9, 1899.

To the Honorable Board of Aldermen:-

The Boston Transit Commission has received the request of your board for information as to the reasons why work has not been commenced on the tunnel to East Boston, as provided in Section 280 of Chapter 548 of the Acts of 1894 and the Acts in amendment thereof and in addition thereto. Chapter 548 of the Acts of the year 1894 gave to this commission discretionary power to construct a tunnel or tunnels from a point on or near Scollay Sq. in the city of Boston, where a suitable connection may be made with the subway or subways provided for by that act, to a point on or near Maverick Sq. in that part of Boston called East Boston, where a suitable connection with surface tracks may be made.

The appropriation provided in that act was insufficient to build such a tunnel in addition to the building of the subway.

By Chapter 500 of the Acts of the year 1897 the commission was required to construct a tunnel to East Boston so soon as the elevated railway should be authorized

to begin the construction of its railroad over the route first applied for as provided in Section 13 of said Act. For such construction an additional appropriation of \$500,000 was made. This appropriation together with the balance of the original appropriation available for the construction of the tunnel was insufficient to construct a tunnel to East Boston from a point on or near Scolley Sq. under the Act of 1894, but the estimates indicated that it was sufficient to construct a tunnel to East Boston beginning at a point on the surface on or near Hanover St., and the Corporation Counsel was of the opinion that the building of such a tunnel was within the scope and intent of the Act of 1897.

On the 19th of July, 1898, the elevated railway company having been authorized to begin the construction of its railroad as provided in the act, it was

"Voted, that the construction of the East Boston tunnel be proceeded with in accordance with the statute requirements."

The Chief Engineer of the Commission was forthwith instructed to proceed with the preparations of plans and specifications and on Nov. 23 an advertisement for bids for the construction of Section A of the tunnel, being the East Boston entrance thereto, was published.

Before the date fixed for the reception of bids the members of the commission were served with a notice of the pendency of proceedings before the Supreme Judicial Court contesting the constitutionality of the Act of 1897 and the right of the commission to proceed thereunder in the construction of a tunnel and to expend the funds of the city therefor. Thereupon, under the advice of counsel, all work in relation to the tunnel was suspended, pending the hearing and determination by the Supreme Judicial Court upon the questions presented.

Respectfully submitted,
Boston Transit Commission,
By George G. Crocker, Chairman.
B. Leighton Beal, Secretary.

Ordered printed and assigned to the next meeting, on motion of Ald. Day.

STORING OF OIL.

A report was received from the Fire Commissioners on the petition of E. A. Mutel, for a license to store and keep oils or fluids composed wholly, or in part, of the products of petroleum, at 37-9 Jamaica St.,—recommending that leave be granted. A license was granted by the Board.

COASTING ON HOWARD AVE.

Ald. McDONALD offered an order—That coasting be allowed during the present winter season on Howard Ave., from Dewey St. to Quincy St., under such restrictions as the Board of Police may impose.

Passed.

ELECTRIC LIGHT, WD. 20.

Ald. McDONALD offered an order—That the Superintendent of Lamps be requested to locate an electric light at the corner of Geneva Ave. and Bloomfield St., Wd. 20.

Passed.

GYMNASIUM, NORTH END.

Ald. DIXON offered an order—That the Board of Estimate and Apportionment be requested to provide the sum of \$50,000 for the establishment of an open-air gymnasium in the Wd. 6 Playground.

Referred to the Board of Estimate and Apportionment.

IMPROVEMENT OF NORTH END BEACH.

Ald. DIXON offered an order—That the Board of Estimate and Apportionment be requested to provide the sum of \$10,000

for the improvement of the North End Bathing Beach.

Referred to the Board of Estimate and Apportionment.

REQUEST TO THEATRE MANAGERS.

Ald. DIXON offered an order—That the managers of the various theatres be requested to have the national air played at the close of every performance.

Passed.

PLAYSTEAD, NEPONSET.

Ald. CODMAN offered an order—That the Board of Estimate and Apportionment be requested to provide the sum of \$25,000 for the improvement and construction of the Neponset Playstead, Wd. 24.

Referred to the Board of Estimate and Apportionment.

RETAINING WALL, FREEPORT ST.

Ald. CODMAN offered an order—That the Board of Estimate and Apportionment be requested to provide the sum of \$5000 for the completion of the retaining wall, Freeport St., Wd. 24.

Referred to the Board of Estimate and Apportionment.

PUBLIC LANDING, DORCHESTER BAY

Ald. CODMAN offered an order—That the Board of Estimate and Apportionment be requested to provide the sum of \$1000 for a public landing in Dorchester Bay.

Referred to the Board Estimate and Apportionment.

NON-PAYMENT OF CONTINGENT BILLS.

The CHAIRMAN, for Ald. Berwin, offered an order—That the City Auditor be and is hereby requested not to pay any bills contracted during 1898, or before that time, out of the appropriation for Board of Aldermen, Contingent Expenses, for the year 1899.

Passed.

SEWER IN FISHER AVE.

Ald. DOYLE offered an order—That the Superintendent of Streets be requested to begin the work of constructing the sewer in Fisher Ave., Wd. 19, as soon as possible.

Passed.

"HEATH SQUARE."

Ald. DOYLE offered an order—That the territory bounded by New Heath St., Old Heath St. and Parker St., be named and hereafter known as Heath Sq.

Passed.

IRON FENCE AROUND HEATH SQ.

Ald. DOYLE offered an order—That the Board of Estimate and Apportionment be instructed to provide a sum sufficient in the first loan order to place an iron fence around the square bounded by New Heath, Old Heath, and Parker Sts.

Referred to the Board of Estimate and Apportionment.

LAYING OUT CHICKERING PLACE.

Ald. DOYLE offered an order—That the Board of Street Commissioners be requested to report to this Board, as soon as possible, the estimated cost of laying out Chickering Pl., Wd. 7, at a width of forty feet.

Passed.

CLOSING SILVER ST.

Ald. ADAMS offered an order—That the Superintendent of Streets be authorized

to close the roadway on Silver St., at the bridge of the New York, New Haven & Hartford Railroad; said bridge being dangerous for public travel.

Passed.

LICENSES.

Ald. COLBY, for the Committee on Licenses, submitted the following:—

(1) Reports recommending that minors' licenses be granted to 640 newsboys, 34 bootblacks, 4 vendors of songs, and 1 vendor of soap.

Reports severally accepted; licenses approved of by the Board.

(2) Report on the petition of A. L. Griffin, manager, (referred today), for a permit for Baby Blanche and Gussie Hunt, under 15 years of age, to appear at the Bowdoin Square Theatre for the week beginning Feb. 13—that a permit be granted.

Report accepted; permit granted on the usual conditions.

(3) Report on the petition of Rev. J. N. Supple (referred Jan. 9), for license for dramatic, musical and dancing entertainments at St. Francis Parochial Hall, Bunker Hill St., for the season ending Aug. 1, 1899—that a license be granted.

Report accepted; license granted on the usual conditions.

(4) Report on the petition of Frank A. Feeney (referred Feb. 6), for license to run three passenger barges between Highland, West Roxbury and Spring St. stations and the Dedham and Newton lines, for the present seasons—that a license be granted.

Report accepted; license granted on the usual conditions.

ASPHALTING OF BERKELEY ST.

Ald. COLBY offered an order—That the Board of Estimate and Apportionment be requested to provide the sum of \$22,800 as a special appropriation for asphaltting the roadway on Berkeley St., between Tremont St. and the railroad bridge.

Referred to the Board of Estimate and Apportionment.

PROPOSED INJUNCTION AGAINST TUNNEL.

Ald. DAY offered an order—That His Honor the Mayor be requested to instruct the City Solicitor to endeavor to secure a hearing by the Court, at the earliest possible date, on the petition that has been filed asking for an injunction against the construction of the proposed tunnel to East Boston.

Passed.

HOSPITALITIES TO PRESIDENT.

Ald. CODMAN offered an order—That a special committee of five members of the Board of Aldermen, including the Chairman, be appointed to wait upon President McKinley upon his arrival in Boston, and extend the hospitality of the city to him.

Passed, and Ald. Codman, Colby, Dixon and Presho, were appointed, with the Chairman on said Committee.

Later in the session the vote whereby the above order was passed was reconsidered on motion of Ald. Codman, who offered the following substitute:—

Ordered: That His Honor the Mayor be hereby requested to extend the courtesies of the City of Boston to the President on the occasion of his visit to this city, through a committee consisting of himself and such members of the City Council as he may appoint.

Passed.

FANEUIL HALL, ETC.

Ald. CODMAN, for the Committee on Faneuil Hall, submitted the following:

(1) Reports that no action is necessary on the Mayor's message vetoing orders, under date of January 30, as follows:

Order to grant to the A. O. U. W. the use of Sammet Hall on January 31, 1899.

Order granting to William Parkman Reberah Lodge, I. O. O. F., the use of Curtis Hall, on the evening of February 7, 1899.

The reports were accepted, the previous action of the Board in passing the orders was reconsidered, and the question came on the passage of the orders, the objections of His Honor the Mayor to the contrary notwithstanding.

The Board refused to pass the orders over the Mayor's vetoes, yeas 0, nays 11.

(2) Report on the petition of Sarah Wise (referred Jan. 23) for leave to maintain a fruit stand in front of the Old Court House on Court Sq.—that the petitioner have leave to withdraw.

Report accepted, petitioner given leave to withdraw.

(3) Report that the following ought not to pass.

Order granting to Daniel Hersey Lodge, I. O. O. F., the use of Curtis Hall, on the evening of February 16.

Report accepted, order rejected. Notice sent down.

STATE AID.

Ald. DIXON, for the Committee on State Aid, submitted a report recommending the passage of an order providing for the payment of aid to soldiers and sailors and their families in the city of Boston for the month of February, under the provisions of the various acts of the Legislature providing for said payment.

(Annexed was a list of the beneficiaries.) The report was accepted and the order was passed, the reading of the names being dispensed with.

A RECESS TAKEN.

The Board voted, at 3:32 o'clock, P.M., on motion of Ald. Day, to take a recess, subject to the call of the Chairman.

The members of the Board reassembled in the Aldermanic Chamber and were called to order by the Chairman at 4:54 o'clock, P.M.

PUBLIC IMPROVEMENTS.

Ald. O'TOOLE, for the Committee on Public Improvements, submitted the following:—

(1) Report on the petition of the Crescent Associates (recommitted February 6) for leave to project two bay windows from building corner of Savin Hill Ave. and Spring St., Wd. 20.—recommending reference of the same to the Committee on Building Department (Ald.) when appointed.

Report accepted; said reference ordered.

(2) Report on the petition of the American Sugar Refining Co. (referred today), to be allowed to operate and use with cars and engines the tracks on First and Granite Sts., South Boston, a location for which track was granted to the Standard Sugar Refinery in 1882—recommending the passage of an order of notice for a hearing thereon Monday, March 6, at 3 P.M., to take into consideration the expediency of granting the prayer of the petition, when any parties who object thereto may appear and be heard.

Report accepted, order of notice passed.

(3) Report on the report of the Joint Special Committee on Rules and Orders of the City Council (referred today), recommending that the minority report be substituted in place of the majority report. The report was accepted, and the question came on the substitution of the minority report for that of the majority.

Ald. Adams called for the yeas and nays, and the Board voted to substitute the minority report for that of the majority and to adopt the rules as recommended by the minority, yeas 6, nays 5.

Yeas—Ald. Barry, Brick, Colby, Day, Dixon, O'Toole—6.

Nays—Ald. Adams, Codman, Doyle, McDonald, Presho—5.

(4) Report on the regulation (referred January 9) to amend Chapter 3 of the Revised Regulations of 1898, in reference to amusement licenses—that the same ought not to pass.

Report accepted; said regulation rejected.

(5) Report on the order from the Common Council (referred Feb. 6) requesting the Board of Estimate and Apportionment to provide the members of the City Council with a verbatim report of all the meetings of said Board, etc.—that the same ought not to pass.

Report accepted, and the Board voted to reject said order, in non-concurrence; yeas 8, nays 3.

Yeas—Ald. Barry, Brick, Colby, Day, Dixon, Doyle, McDonald, O'Toole—8.

Nays—Ald. Adams, Codman, Presho—3.

Notice sent down.

(6) Report on the petition of the Benevolent Fraternity of Churches and others (referred Jan. 30), for the repaving of Berkeley St., from Tremont St. to the railway bridge with asphalt—recommending reference of the same to the Board of Estimate and Apportionment.

Report accepted, said reference ordered.

(7) Report on the petition of Woodbury & Leighton (referred today), for leave to erect guy posts in North and South Market Sts., Dock Sq. and Union St.—recommending the passage of the following:

Ordered—That the Superintendent of Streets be authorized to issue a permit to Woodbury & Leighton to erect, maintain and use guy posts with the necessary ropes attached thereto, in and over the following named streets in Wd. 6, viz:

- One opposite 32 North Market St.
- One opposite 24 South Market St.
- One opposite 32 Dock Sq.
- One opposite 1 Dock Sq.
- One opposite 8 Union St.

For use in reconstructing Fanueil Hall. Said posts to be placed in locations satisfactory to the Superintendent of Streets.

The work to be completed on or before Dec. 31, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

Report accepted, order passed.

(8) Report on the message from His Honor the Mayor transmitting an order passed by the Board of Estimate and Apportionment at its meeting on February 3rd for an appropriation of \$15,000 for additional working capital for the Public Buildings Department, Electrical Construction Division,—recommending the passage of said order, and that the message be sent down.

The report was accepted and the order was approved. Sent down.

ELECTRIC WIRES.

Ald. DOYLE, for the Committee on Electric Wires, submitted the following:—

(1) Reports on petitions for leave to erect and remove poles, lay conduits, etc.—recommending the passage of orders of notice for hearings thereon on Monday, Feb. 20, at 3 o'clock, P. M., when any parties objecting thereto may appear and be heard, viz:

Boston Electric Light Co. (referred Feb. 6), to erect three poles in Washington St., between Ruggles and Vernon Sts.

The New England Tel. & Tel. Co. of Mass. (referred Feb. 6), to lay conduits in Bay State Road, Minot and Anderson Sts., etc.

The New England Tel. & Tel. Co. of Mass. (referred Feb. 6), to erect poles in Melville Ave., Wd. 20, Salem St., Wd. 5, St. John and Rockview Sts., Wd. 22, and for leave to erect and to remove poles in Washington St., Wd. 20.

The New England Tel. & Tel. Co. of

Mass., (referred Jan. 16), to erect and to remove poles in Forest Hills St., Wd. 23.

The New England Tel. & Tel. Co. of Mass., (referred Jan. 16), to erect poles in Chester and Farrington Sts., Wd. 25.

Reports severally accepted; orders of notice passed.

(2) Report on the petitions of the New England Tel. & Tel. Co. of Mass., (severally referred Jan. 16), for an extension of time in which to erect poles in certain streets—recommending the passage of the following:—

Ordered, That the time allowed The New England Telephone and Telegraph Company of Mass. in which to erect poles in the following streets, and under orders passed by the Board of Aldermen, viz:—

Columbus Ave., order passed February 1, 1897.

Columbus Ave., order passed November 24, 1897.

Morton St., order passed October 17, 1898.

Fairview and Corinth Sts., and Roberts-St. extension, order passed October 17, 1898.

Princeton St., Wd. 1, order passed August 30, 1898.

Be and the same is hereby extended to May 31, 1899.

Report accepted; order passed.

(3) Report on the petition of the New England Tel. & Tel. Co. of Mass., and Postal Cable Co., (referred Jan. 16), that permission be granted to said telephone company to attach its wires to poles of said telegraph-cable company on Boston St.—recommending the passage of the following:—

Ordered, That permission be granted to the Postal Telegraph Cable Company to allow the attachment of, and to The New England Telephone and Telegraph Company of Mass. to attach the wires of said telephone company to four poles of said telegraph-cable company on Boston St.

Report accepted; order passed under a suspension of the rule.

(4) Report on the petition of the New England Tel. & Tel. Co. of Mass. (recommitted Feb. 6), for leave to erect poles on Monadnock St. and Moultrie Ave., Wd. 20—recommending the passage of that part of the order relating to Moultrie Ave., as follows:—

Ordered, That permission be granted to The New England Tel. & Tel. Co. of Mass. to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by George H. Dresser; said poles to be located as follows:—

Moultrie Ave., Wd. 20, 3 poles, 35 feet in height by 12 inches in diameter; width of sidewalk 7 feet, date of plan Jan. 14, 1899.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying streets for placing and maintaining said poles on the conditions specified in chapter 38, section 15, of the Revised Ordinances of 1898. The work of locating said poles to be completed within ninety days from the date of the passage of this order.

The question came on the acceptance of the report.

Ald. ADAMS—Mr. Chairman, just a word in regard to the petition for poles on Moultrie Ave. Moultrie Ave. is a private way, and I don't see that this Board has any jurisdiction in the matter whatever. Moultrie Ave., Wd. 20, is a private street.

Ald. DOYLE—Mr. Chairman, in view of the fact that I am not thoroughly posted on that matter, I shall ask to have it assigned to the next meeting.

The report and order were assigned to the next meeting of the Board.

(5) Report on the petition of the New England Tel. & Tel. Co. of Mass. (recommitted Jan. 30), for leave to erect poles on Hewlett and Hastings Sts., Wd. 23,—recommending the passage of the following:—

Ordered, That permission be granted to The New England Tel. & Tel. Co. of Mass.

to place and maintain poles for the support of wires at points designated by red dots on a plan deposited in the office of the Superintendent of Streets, made by George H. Dresser; said poles to be located as follows:—

Hewlett St., Wd. 23, 6 poles, 35 feet in height by 12 inches in diameter; width of sidewalk, 7 feet.

Hastings St., Wd. 23, 5 poles, 35 feet in height by 12 inches in diameter; width of sidewalk, 7 feet; date of plans, Jan. 13, 1899.

The Superintendent of Streets is hereby authorized to issue permits for opening and occupying streets for placing and maintaining said poles on the conditions specified in chapter 38, section 15, of the Revised Ordinances of 1898.

The work of locating said poles to be completed within ninety days from the date of the passage of this order.

Report accepted; order passed under a suspension of the rule.

RECALL OF APPROPRIATION BILL.

Ald. COLBY—Mr. Chairman, I move a reconsideration of the vote whereby the appropriation bill for 1899-1900, together with certain loan orders, was referred to the Committee on Public Improvements. I do so for several reasons. It is not a pleasant matter to get up here and make a motion which is absolutely certain to be defeated, but I believe it is due to the citizens of Boston that certain matters should be brought to their attention, and I see no way other than this of doing it. This loan order was passed by the Board of Estimate and Apportionment on the 28th day of January. On the 30th day of January it was supposed to be before this Board, but it was stated to us that there had been a mistake on the part of the printer; and, although it came in here on Monday, it was much later than was expected. The only reason why we were not in condition to act upon it, if we saw fit to do so, was that there had been a mistake down in the Municipal Printing Office. I did not suppose such things ever happened there, but they did in this case. Therefore it was perfectly proper to allow the matter to go over for a week, because there are appropriations for the departments of \$13,904,000, and accompanying it were loan orders amounting to \$510,000—

Ald. BRICK—Mr. Chairman, I rise to a point of order. I understand that the gentleman is speaking on reconsideration. I hardly think that, under the rule, he is entitled to speak on reconsideration at this time, reconsideration having been refused at the meeting at which the vote was taken.

The CHAIRMAN—The Chair will call the alderman's attention to the fact that Rule 26 provides that a committee of the Board to whom matters may be specially referred shall report within four weeks. At that meeting, a motion was made to reconsider all orders. That motion was lost. These matters are now in the hands of the Committee on Public Improvements, and reconsideration cannot prevail at the present time, all action having been reconsidered by the Board at that time. The time—namely, four weeks, which that committee has to consider these matters, has not yet expired. Consequently, the Chair cannot, under the rule, entertain the motion to reconsider.

Ald. COLBY—I am not at all surprised at that, Mr. Chairman, except that—

The CHAIRMAN—I hope the alderman will remember that the Chair is only working under the rules.

Ald. COLBY—Certainly, the member appreciates the fact that this loan bill becomes a law within thirty days, if no action is taken upon it, and he admits there is a rule which provides that such a matter may be referred to the Committee on Public Improvements and kept there for four weeks, that the thirty days within which this will become a law, may expire and nothing can be done about it. If that

is the position of the democratic members of this Board, as one member of the Board, I cheerfully acquiesce in the position taken by the Chair. I admit that when the member raised the point of order there was nothing for the Chairman to do but insist on the enforcement of the rule. If the majority of the Board desire to take that technical position with reference to it, I am ready to accept it, and I trust that the citizens of Boston will accept the situation.

LAYING OUT KILTON ST.

Ald. McDONALD offered an order—That the Board of Street Commissioners be requested to order the laying out and construction of Kilton St., from Harvard St. to Talbot Ave., Wd. 20, under Chapter 323 of the Acts of 1891 and amendments thereto.

Referred to the Board of Street Commissioners.

RECALL OF APPROPRIATION BILL.

Ald. COLBY—Mr. Chairman, I would like to ask if it is proper at any time for a member of this Board to call for a report from a committee?

The CHAIRMAN—It is proper.

Ald. COLBY—Then, Mr. Chairman, if I make a motion to the effect that the Committee on Public Improvements be requested to report that bill, I will ask if that will not be in order?

The CHAIRMAN—Does the gentleman make the motion?

Ald. COLBY—He does.

The CHAIRMAN—It is perfectly in order.

Ald. COLBY—I will now ask if I am not at liberty to state my reasons for asking a report from the Committee?

The CHAIRMAN—The alderman is.

Ald. COLBY—Mr. Chairman, my reasons for asking for that report are these, that this matter came before the Board on the 30th day of January, and, owing to a mistake in the printing department, was assigned for one week. On the 6th day of February the matter came up and we were advised at that time that there were certain orders which the law department had been given charge of to put through or to draw up, which should have been down here, and, as they were not down here, we were asked to lay this matter over for a week. Now, nothing can be sent in, in my opinion, in connection with that appropriation bill or loan bill, except such matters as were passed upon by the Board of Estimate and Apportionment on the 28th day of January, and have the Board of Estimate and Apportionment lost their records? Cannot they find out what they did do on the 28th day of January? Is it necessary that we should wait until the Law Department can say what they did do? I cannot understand why it happened that by the 6th day of February they did not get down the records of the Board of Estimate and Apportionment, but they did not do so, apparently.

The CHAIRMAN—Will the gentleman allow the Chair to say a word?

Ald. COLBY—Certainly.

The CHAIRMAN—The Chair will say that, as a member of the Board of Estimate and Apportionment he is governed by the law establishing that board, so far as the floating of this loan and making it legal is concerned.

Ald. COLBY—Mr. Chairman, I have endeavored to the best of my ability, to ascertain the reason for holding it up, and the only reason I can get is that there are certain orders that the Law Department is to prepare, and that when they come down the Committee on Public Improvements will be ready to consider them. Now, I ask again, what can there be that we can consider in connection with this matter that the Board of Estimate and Apportionment did not consider on the 28th day of January? Anything else is another matter, and let them send in

another order covering it. We have now come down to the 13th day of February and are told that the Law Department cannot find the orders, cannot send them in. We shall adjourn presumably to February 20th, letting the matter stand where it is. The next time we come together will be the 20th day of February; Now, let us suppose, what has not happened in the last few weeks, that they should discover the records of the Board of Estimate and Apportionment, should discover what they did on the 28th day of January, and that it was of legal effect, and that we should then go ahead and act, passing the bill. Then, suppose our action of the 20th day of February was sent to the Common Council. What happens then? They meet on the 23d day of February, and have only that one meeting in which to act within the thirty days within which such matters can be considered by the City Council at all. I submit that it is not a fair proposition for the Board of Aldermen to take a bill involving some fourteen million dollars and side-track it in committee, hold it there over twenty days of the possible thirty days within which it may be considered by the City Council.

I submit that the Common Councilmen have some rights in the matter, that they are entitled to look it over, that they have as much right to consider it and examine into it as we have. If the Common Council had taken the matter in the first place and held it up nearly all of the possible thirty days, I think they would hear something from the members of the Board. Now, while I may be mistaken in regard to the whole matter, it is open to the suspicion that it is being put into a position where it will become a law in thirty days without any action being taken by either branch of the City Government, and I sub-

mit that that is not a fair business proposition; that we ought, in all good conscience and good faith, to report this bill in some shape or other today and send it down to the Common Council, giving them time to act upon it. For that reason, I insist upon my motion that the Committee on Public Improvements be requested to report forthwith.

The motion that the Committee on Public Improvements be requested to report forthwith was declared lost. Ald. Presho doubted the vote and called for the yeas and nays, which were declared ordered.

Ald. O'TOOLE—Mr. Chairman.
The CHAIRMAN—The Chair will say that the yeas and nays have been ordered, and that no debate is in order at this time.

The motion that the Committee be requested to submit their report forthwith was lost, yeas 4, nays 7:

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The CHAIRMAN—One of the aldermen has called my attention to a fact, which I overlooked, that Ald. Berwin is absent. I have asked the alderman whether this question is one on which Ald. Berwin would wish to be paired, and it appears that it is. That being the case, the Chair will ask the Board that I be permitted to be recorded as not voting. I understand that if Ald. Berwin were here he would vote yes; I would vote no. There being no objection on the part of the Board, I will consider my vote as withdrawn. Four members have voted in the affirmative and six in the negative and it is not a vote.

Adjourned on motion of Ald. Dixon, at 5.21 P. M., to meet on Monday, Feb. 20, at 3 P. M.

CITY OF BOSTON.

Special Meeting of the Board of Aldermen.

Thursday, Feb. 16, 1899.

Special meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 7 o'clock, P.M., Chairman Barry presiding. Absent—Ald. Berwin.

The Clerk read the call, as follows:—
City of Boston, Office of the Mayor,
Feb. 15, 1899.

To the Board of Aldermen:—

You are hereby requested to assemble in the Aldermanic Chamber, City Hall, on Thursday, February 16th, at 7 P.M., for the purpose of taking action upon the annual maintenance appropriation order, so that the same may be transmitted to the Common Council at its meeting on that evening.

This call is issued at the request of several members of your Board.

Yours respectfully,
Josiah Quincy, Mayor.

Placed on file.

JURORS DRAWN.

Nine additional traverse jurors were drawn for the Superior Civil Court, January sitting, first session, under the provisions of Chap. 514 of the Acts of 1894, viz.:

Charles V. Read, Wd. 5; John H. Crowley, Wd. 14; Francis Warner, Wd. 23; Joseph D. Murphy, Wd. 9; Leo McAuley, Wd. 23; Charles M. Hagar, Wd. 3; Morris E. Williams, Wd. 17; Clinton A. Spencer, Wd. 16; Charles E. Fish, Wd. 6.

INTEREST ON TAXES.

The CHAIRMAN offered an order—That all taxes raised to meet the appropriations of the Board of Estimate and Apportionment, and all taxes assessed for meeting city's proportion of the State tax of the year 1899, or of any other taxes or assessments payable to the Commonwealth, be due and payable on the first day of October, 1899; that all such taxes paid after the first day of November, 1899, bear interest from and including said day until paid at the rate of six per cent per annum up to the first day of January, 1900, and at the rate of seven per cent per annum after and including said first day of January, except that taxes assessed upon shares of stock of national banks shall bear interest at the rate of twelve per cent per annum from and including said first day of November, until paid; and that all interest which shall have become due on taxes shall be added to and be a part of such taxes.

Ald. COLBY—Mr. Chairman, I would like to ask if that order is permissible under the call pursuant to which this meeting is held?

The CHAIRMAN—The Chair will rule that, this being part of the loan bill, to make the loan bill legal, that it would be in order, as we are considering the loan bill.

Ald. COLBY—Mr. Chairman, may I ask if that is the long lost order?

The CHAIRMAN—The Chair does not understand the gentleman's question.

Ald. COLBY—Well, to make it more explicit, is that the document for which we have been waiting for two weeks?

The CHAIRMAN—I presume that is the document that we were to have at the last meeting, but, unfortunately, we did not get it.

Ald. COLBY—Well, I would like to ask if that is a part of the proceedings of the Board of Estimate and Apportionment on January 23?

The CHAIRMAN—It is not.

Ald. COLBY—Then I would like to ask how that can be a part of the appropriation bill before the Board of Aldermen at the present time?

The CHAIRMAN—This is an order drawn by the Corporation Counsel, to make legal, so far as we possibly can, the appropriation bill which the Board is now considering.

On motion of Ald. Brick, the motion was declared referred to the Committee on Public Improvements.

On motion of Ald. Brick, it was voted to take a recess, subject to the call of the Chair.

Ald. Brick moved to reconsider the vote, as the Board reassembled.

SALARIES OF POLICEMEN AND FIREMEN.

The following was received:—

Mayor's Office, City Hall,
Boston, February 16, 1899.

To the City Council:—

While the Mayor has no executive or financial control over the administration of the Police Department, I thought it proper to send to the Board of Police, for its information and consideration, a copy of the executive circular issued by me just after the annual appropriation order had been approved by the Board of Estimate and Apportionment, directing heads of departments to make a reduction in certain salaries and wages, in order that it might be made possible to conduct their operations under the reduced appropriations rendered necessary by the pressure upon the limited financial resources of the city. I have today received a communication from this Board in which it takes the position that as it "has no authority to reduce the wages, or change the pay of police officers or matrons, without a concurrent vote of the City Council, and as that body has usually taken the initiative in fixing the salaries of such officials, the Board prefers to await the decision and action of the city government" before taking any action in relation to the reduction of the pay of police officers and matrons. The Board further states that two of the commissioners (the third not having been yet consulted on account of his absence) will voluntarily make a reduction of seven and one-half per cent, in their own salaries, and that the clerk of the Board will do the same; and the Board also states that the salaries in the clerical department and the signal service, which it has the sole jurisdiction over, will be reduced substantially in accordance with the direction to other heads of departments.

In view of this attitude of the Board of Police, the question presents itself to me whether to recommend to the City Council to take the action necessary on its part to effect the reduction suggested. While firmly believing that such action would be proper under the financial conditions which confront the city, I cannot but feel that it would be an empty and useless form for me to make such a recommendation, in view of the past and present action of the City Council upon similar matters. It was only a few months ago that an increase in the pay of police officers was adopted by both branches of the City Council, and I can see no reason to believe that either its membership, or the motives which influenced its action, have in the meantime undergone any such changes as to warrant the slightest expectation that it would consent to any reduction in the pay of police officers. I therefore feel that it is practically necessary either to seek some other method of economizing in our expenditures, or to throw upon the Board of Police the responsibility either of living within its appropriation, or of creating a deficit in the City Treasury by using its legal power to draw in excess of it.

It has been strongly urged upon me that in view of the general similarity of the conditions of service in the Police and Fire Departments, it would not be fair to the members of the latter service, who are not upon the whole as well paid, and who are obliged to incur greater risks, to subject them to a reduction in pay from which the members of the Police Department were exempted. That the unanimous sentiment of the members of the City Council would be opposed to any reduction in the pay of firemen might indeed have been expected, and I do not attach any undue weight to it; but it also seems to be the belief of many citizens and taxpayers, who have no political interest in members of the Fire Department, that their services are of such a nature that some way should be found to relieve them from suffering any reduction in their pay. In view of these conditions, and believing that some way can be found to make up to the Fire Department the amount which would be saved by the contemplated reduction in salaries, I desire to inform the City Council that the Fire Commissioner has been directed by me to restore the old rate of pay to the men in his department, and that there is, therefore, no occasion for reducing or striking out any appropriation in the order as it now stands as an indirect method of exerting a pressure for accomplishing this object.

Respectfully submitted,
Josiah Quincy, Mayor.

The CHAIRMAN—The message will be sent down.

Ald. CODMAN—Mr. Chairman, I would like to know if a motion to have that printed as a city document would be in order? I would like to move that that be printed as a city document.

The CHAIRMAN—The Chair will say at this time that if the Board is going to act on the appropriation bill it would be well for this to go with the appropriation bill when it goes to the Common Council to-night.

Ald. CODMAN—Mr. Chairman, I don't see the connection between this and the appropriation bill. This is simply a statement of what the Mayor intends to do. It does not affect the appropriation bill in the least.

The CHAIRMAN—The Chair will entertain any motion.

Ald. CODMAN—Mr. Chairman, I would move, as there doesn't seem to be any particular hurry about that, and it doesn't seem to be anything except a statement of His Honor the Mayor, nothing for us to act upon, that it be assigned and printed.

The CHAIRMAN—The Chair will only say that if the Board is going to act on the loan bill tonight it would be advisable for this communication to go with the loan bill.

Ald. CODMAN—Mr. Chairman, I have no objection to having that communication referred with the loan bill, but simply desire to state that, in that case, it had better be referred with the loan bill to the committee on public improvements and then brought back and assigned and printed. I have no objection to that. But I would like to have this printed.

The CHAIRMAN—The Chair will entertain any motion.

Ald. CODMAN—Mr. Chairman, I move you that this be referred to the Committee on Public Improvements, together with the other document.

The CHAIRMAN—The question is on Ald. Codman's motion to refer to the Committee on Public Improvements.

Ald. O'TOOLE—Mr. Chairman, I have no objection to having this referred to the Committee on Public Improvements, but it does seem to me at this time that certain members of this Board on the other side—in other words, the Republicans—have seen fit to interject politics into this particular question, and on this floor to infer that the Democratic members of this Board are not taking as good a position as

they are, and if I had the opportunity, under parliamentary rules, I would have shown that the Mayor of Boston and the Democratic members of this Board were in accord with a proposition to have the salaries cut in the Fire Department on the 7½ per cent put back on the original basis. I am sorry to say that certain gentlemen, aldermen on this floor, should put us in such an embarrassing position, and I can say not only for myself but for the seven democratic members on this floor, that they agree with the Mayor of the city of Boston that having the salaries of the firemen of the city of Boston cut 7½ per cent was an injustice to them. I simply say this so that the republican members of this Board shall not have it go forth, as they would like to do,—and I do not say this with any prejudice or partisanship or with a desire to interject politics into this particular matter—and say that they were the sponsors and mentors of the firemen of the city of Boston in saying that they should have their salaries put back to the original basis and that the democratic members were against it and acquiesced in the 7½ per cent cut.

Ald. COLBY—Mr. Chairman I presume the same courtesy that has been extended to my brother alderman, to talk in a manner that is entirely out of order, not in reference to any matter that is before this board, will be extended to me, that I can have the same privilege, and say that he has brought to light some things we had not heard of until we heard the Mayor's communication read. The gentleman's memory is peculiar and perhaps intermittent, because he does not remember some things that were, and he does remember some thing that were not. I did not say anything about a 7½ per cent reduction in the firemen's salaries, and if he will refer to my remarks—I take it from the inclination of his head, the tone of his voice and the look of his eye, that he referred to me—I think he will find that I made no remarks in any way except as to the general scheme of tying this bill up for more than thirty days. What the gentleman is trying to do is to tell some things that happened in the Committee on Public Improvements, which were not suggested by any republican there, and only came out after the democrats and republicans had agreed to report the bill and then found out that they were not so sure of themselves as they thought they were and found it necessary to reconsider and tie it up until the powers that be could be seen and an arrangement made. Now, that is the fact in the matter.

As for anything being interjected in the way of politics, I claim that we had no part in anything of that sort in any way, shape or manner. The question of a 7½ per cent cut in the pay of the firemen was not mentioned by us at the last meeting of the Board in any way, shape or manner, directly or indirectly, and it only remained for the democratic member of the Board and His Honor the Mayor to consult together and get up this beautiful document, to meet what they anticipated was going to come. But for the gentleman to draw his imagination and say that we said and did this and so, is entirely a wrong proposition. I will say, however, that even if it were simply a political question, I must confess that I think my party associates and myself had the best of it, because we simply insisted upon it as a business proposition and it will appear by the meeting called tonight and the generous attendance of the members, that our position was upheld, and that we have carried our point.

Ald. McDONALD—Mr. Chairman, I hope the motion to refer the communication of His Honor the Mayor to the Committee on Public Improvements will prevail, and when the appropriation bill is reported back to the Board of Aldermen, I will desire to say a few words in regard to the firemen.

Ald. O'TOOLE—Mr. Chairman, I simply want to say, in reply to the alderman from Wd. 12 (Ald. Colby), in regard to the appropriation order, that he came on this floor and asked to have the appropriation bill reported back from the committee. But it does strike me, as he has said—and I have great confidence in the alderman from Wd. 12, because of a little experience I had with him the first of January, and have always thought he was fair-minded, honest and non-partisan, up to this time—that it does strike me, when in connection with this matter he says that he does not interject politics, that his statement is not a fair one. Perhaps he is right, and I have no right to criticise the gentleman in the matter; but it does strike me that when that million dollar sewer bill came before this body it went along for several weeks, two or three consecutive meetings of the Board of Aldermen, and he stood on this floor and spoke against the million dollar sewer loan. It does seem funny to me when it comes to the appropriation bill he should take the stand he does. I will have to admit—because open confession is good for the soul—that I did know to a certain extent when the cut for the firemen was coming that ultimately it would be fixed, but it does seem strange to me that he stood on this floor and was a staunch supporter of appropriations for certain departments which could have gone along in certain directions without anybody being thrown out of work, and when it came to that million dollar loan he stood on this floor and advocated not one dollar for the Sewer Department. It strikes me to a certain extent that he is hypocritical in a certain sense, in advocating the cause of departments that could go along for months. I might say, and being against a particular department that depended upon a certain loan. I cannot understand why he stands on this floor as the great advocate of this appropriation bill, and against that million dollar loan. It simply comes back to the point that I say he is interjecting politics for certain reasons into this appropriation bill and against the million dollar sewer department loan.

Ald. COLBY—Mr. Chairman —

The CHAIRMAN—The Chair will say at this time that, while he has given latitude, as he is free to admit, to some of the members of the body, this debate is out of order, and the Chair does not desire to refuse Ald. Colby an opportunity to reply.

Ald. COLBY—Mr. Chairman, I think the statement by the Chair is eminently proper. The only embarrassment under which I labor is the gentleman's reference to me as perhaps a hypocrite, with other allusions to which I might possibly reply under a question of privilege, if I deemed it desirable or profitable to do so. My mental processes are so slow and my intellectual perception so illy defined, that I absolutely cannot follow my brother alderman in his argument. He goes away beyond me, and I cannot keep up with him. But apparently it is based, as I said before, upon a number of things that are not so. For instance, he goes back to ancient history. If I had been a member of the Board last year I suppose he would have referred to something that happened last year. But now he goes back only to the first of the year, on the matter of the sewer appropriation. I defy the gentleman to find at any time, in any way, any remark of mine to the effect that I was opposed to the sewer appropriation, and he knows it. He is honest, and when he is not talking politics I presume he is all right. He knows absolutely well that I never said I was opposed to the sewer appropriation. I simply said that, as a matter of business judgment, I didn't believe it could be negotiated in its present shape. The alderman knows that. What is the use of all this talk of my being opposed to the sewer appropriation? It is all

politics, my friend, and cheap politics. Beyond that in reference to this matter at the present time he says that I am a strong advocate of the appropriation bill, and that I want to vote money for departments that do not need it. How does he know that I would not vote to strike out every item of the appropriation bill, if I thought any good could be achieved by so doing? How does he know what my position is upon any of these financial matters that have come before us this year? The fact is, his premises are purely imaginary, and therefore his whole argument comes to naught. I am, in fact, rather ashamed to get up and reply to him, although you know that even a rhinoceros will sometimes get nettled. It is time, however, gentlemen, that we were honest with each other upon these matters. Whatever stand I have taken upon this matter has been merely that it might be considered as a business proposition, so that we might get it into the shape it ought to be in. I am glad to see that the majority of the members of the Board agree with me in this position, that our only endeavor is to get the matter reported. Any blame in connection with this will have to be laid at the door of those gentlemen who have succeeded in preventing its being brought in.

Ald. DIXON—Mr. Chairman, I see no reason why we should refer this to the Committee on Public Improvements. There is no need of that reference. When we go into Committee on Public Improvements, our whole action is reported to the gentlemen on the opposite side of the house after we leave there. Everything is reported to the gentlemen in the opposite corner there. I will say, Mr. Chairman, that I am one gentleman who is opposed to the appropriations as they stand in the Committee on Public Improvements. I was going to cut down certain departments, to sustain the Fire Department of the city of Boston, gentlemen, and I am opposed now to referring this subject, the Mayor's letter, to the Committee on Public Improvements. Let us fight it right out here before the public, gentlemen.

The CHAIRMAN—The question is on reference to the Committee on Public Improvements.

Ald. PRESHO—Mr. Chairman, I simply want to say a word on this question. I think it is eminently proper to refer this, because we may see some means of getting the money. That is, we may see some means whereby the money may be forthcoming, although we may not now see just how it is to be provided. I hope it will be referred with the loan bill.

The communication was declared referred to the Committee on Public Improvements.

Ald. Dixon doubted the vote, and called for the yeas and nays, which were taken, and the motion to refer was lost, yeas 5, nays 6.

Yeas—Ald. Barry, Brick, Colby, McDonald, Presho—5.

Nays—Ald. Adams, Codman, Day, Dixon, Doyle, O'Toole—6.

The CHAIRMAN—The communication will be sent down.

Ald. CODMAN—Mr. Chairman, inasmuch as I withdrew my motion that this be printed and assigned, so that it could go to the Committee on Public Improvements, I would now like to renew my motion, in this form, that the communication be printed and sent down.

The communication was ordered printed and sent down.

On motion of Ald. Brick, the Board voted to take a recess at 7:46 P.M.

PUBLIC IMPROVEMENTS.

Ald. O'TOOLE, for the Committee on Public Improvements, submitted the following:—

(1) Report on the order (referred today) relative to the payment of taxes and rate

of interest thereon—That the order ought to pass.

Report accepted, order passed. Sent down.

(2) Report on the message of the Mayor, transmitting the appropriation bill for 1899-1900, with certain loan orders—Recommending the passage of the appropriation bill and loan orders as submitted, and that the message be sent down.

The report was accepted, and the question came on the passage of the appropriation bill and loan orders.

Ald. PRESHO submitted the following amendment to the appropriation bill:—

Ordered, That the appropriation bill for 1899-1900 be amended by reducing or striking out the following items, the following amounts:—

Bath Dept., \$19,500; Municipal Statistics, \$13,000; Art Dept., \$1000; City Record, \$5000; Music Dept., \$5000; Public Buildings Dept., \$20,000; Electrical Construction, \$7000; Lectures, \$3000, the total amount of the cut-down being \$74,500.

The question came on the adoption of the amendment.

The board reassembled in the Aldermanic Chamber at 8:30 p.m.

Ald. PRESHO—Mr. Chairman, I offer this amendment, which will place the sum of \$74,500 in the reserved fund, and I believe that it will render unnecessary a cut in wages of the city employes. The Mayor has stated in his communication that a way will be found so that the firemen will not have to be cut, for which I am sincerely glad, and I have no doubt that with the addition of this further sum, the other city employes can be kept on the old basis. The amendments do not affect any departments which can not afford to be cut down, and in some cases, they affect departments which I believe can well be spared, as they are not an absolute necessity for the good government of the city. I think this very amendment would have been brought in by somebody on the other side to prevent this reduction if they had not been informed of the putting back of the firemen on the old basis. I believe the experience of the past three years alone should show us that we ought to go slowly, and that we ought to provide money before we spend it.

Ald. McDONALD—Mr. Chairman: I regret exceedingly that the finances of the city are in such condition that compels His Honor to recommend a reduction in the salaries of the city employes. I am pleased with the Mayor's declaration that the mechanics and laborers are not included in this reduction—thus showing his unwavering friendship for the laboring people. His Honor's declaration in the message which has just been received by the Board insures to the brave firemen a restoration of their salaries, and the closing part of the message I shall read: "I desire to inform the City Council that the Fire Commissioner has been directed by me to restore the old rate of pay to the men in his department." This straightforward order will be adhered to by the Commissioner. The attitude of the Board of Police Commission leaves the wages of the policemen just as they have been with no reduction—which is, I believe, a just act. The gallant firemen, ever ready at a moment's notice to respond to the call of duty—who risk life and limb to protect life and property, and who need only to be told and without hesitation respond to the call of duty, and who in one fire save by far more than was proposed in this bill. The gallant policemen, while they do not take the same risk as the firemen do, are the guardians of our peace and home; their uniform is the moral influence that tells the evil doer to beware, and in behalf of law and order they show their true Yankee grit. I am sorry that the City Council has no control, as they assuredly have no responsibility, for this reduction in salaries, at a time when the wave of

prosperity is sweeping all over our land, and I wish to place myself upon record as opposed to the reduction of the wages of the firemen and policemen, and I trust some way will be found to restore the salaries of other hard working employes of the City, who are entitled to it. I remember the great Boston fire of Nov. 9 and 10th, 1872 (the fire was stopped at my house off Purchase St.) when gallant Chief John Damrell was at the head of the fire department, and with his brave men saved this city from being destroyed. Millions and millions worth of property was saved to our citizens. We all remember the great fire at the Pope building on Columbus Ave., when District Chief John Ryan, who had charge of one of the divisions at that fire, by the great ability which he displayed prevented the wall of that building from falling, and no man could tell how many lives would have been lost had the wall fallen; for this excellent work on the part of District Chief Ryan he received the thanks of his superior officers. Who can but remember the fire at Brown, Durrell's, when gallant Eagan hung suspended in mid air on a telegraph wire; when the citizens who were watching the progress of that destructive fire held their breath, expecting every moment to see him fall into the street, which meant instant death. His brave comrades held the net, and he dropped into it, and his life was spared. We all remember the great fire on Kingston St., where brave Eagan and Ryan, and other heroes of the department, saved many lives by ordering the panic-stricken employes to jump for the net. The disastrous Merrimac St. fire will never be forgotten by the citizens of Boston, when brave Eagan and his gallant comrades went down in the ruins. Such heroism was never displayed in any fire department in this country. The poor fellows lost their lives and all Boston mourned over their death; but the grateful people who love the firemen subscribed a liberal sum of money raised by subscription by the Boston Globe and Boston Post for the widows and orphans of these brave men. We have the best fire department in the country, if not in the world. What citizens of Boston would want the pay of these brave men reduced? Not one. I have no desire to antagonize His Honor the Mayor or the Board of Estimate and Apportionment; they have their opinions—I have mine. The men at this Board were elected to legislate for the best interests of the people. No man respects the Mayor more. I have no hesitation in saying that, five years from now, when the administration of Mayor Quincy is viewed in a calm and dispassionate manner, the people not alone of Boston, but the state and country, will look up to him as Boston's great mayor, who had done more to advance the welfare of the people of this city than a generation of his predecessors. I shall vote for the appropriation bill without amendment.

Ald. COLBY—Mr. Chairman, the alderman's remarks remind me of my school-boy days, and the time when we were reading Caesar. Caesar would give a very graphic description of the battles in which his troops were engaged, and would enlarge on the great skill and bravery of his opponents, and always wound up by remarking that his troops were successful in defeating them. The alderman who has just spoken has eulogized the Mayor and the Board of Apportionment, and has enlarged on their power and ability, and yet he shows conclusively that he has been successful in defeating them, and I think myself that he is entitled to a good deal of credit, and has really represented himself as being larger and more powerful than are they, and should be well satisfied with what he has accomplished. It may not be amiss, however, to state that there are others who would have made themselves

felt in the matter if it had been necessary. No more important matter has been before us this year, or will be during the year, than the matter which we have before us tonight. The financial problem in Boston is one of great importance, and not free from perplexities, and it is admitted on all sides that the present situation is unsatisfactory and unfortunate, and the interests both of the taxpayers and the city employees demand a careful and candid consideration of the matter. It would seem that the present situation is due to bad financing, but it is not for me to say who is responsible for it. I don't think it can be laid to the door of any one man, and while we all agree that it was necessary that something should be done, few of us, I think, would be willing to admit or even claim that the recent attempt to reduce salaries had been a success.

We are told this evening that the pay of laborers and mechanics is not to be reduced; that the Mayor has no control over policemen, and their salaries will remain as heretofore; and now, receding from his former position, the mayor says that the firemen are to receive their usual compensation, so there must be but a very few of us left upon whom the reduction is to work, and, with all those exceptions to the rule, it would seem that the only fair thing to do is to restore the salaries of all on the old basis. If the Mayor found, as we know he did, that it was necessary to reduce expenses, I am of the opinion that if he had called the heads of the departments together and had asked them to indicate how a saving could have been made they could very easily have shown him some method which would not have curtailed the amount of work done, nor reduced the compensation of the employees. Personally I am of the opinion that there are quite a number carried in the pay-rolls who could be dispensed with without any great loss to the city's working force. We must all admit that there are a large number of persons receiving compensation from the city who are indebted to political influence for it. I have great respect for the Mayor, but I am not thereby bound by his views on municipal finance, nor by his views on the administration of city affairs. Some retrenchment is necessary, but I submit that the Mayor has not yet discovered the proper way to bring it about. To me it is somewhat of a humiliating spectacle to have the Mayor of this great city send out an appeal almost personal in its nature asking the city employees to consider the unfortunate financial condition in which the city is, and to kindly contribute a few dollars from each of their salaries to make up a deficiency. This may be socialistic, but it is not, so far as I can learn, received with any great enthusiasm at City Hall. If the present plan is adhered to it seems not improbable that the small contribution boxes now in various parts of the city appealing for help for the various charities may be supplanted by those designed to give the worthy citizens an opportunity to contribute a few cents to the help of the good old City of Boston. The plan suggested by the amendment is perfectly simple. It drops certain items which we believe can be spared without thereby impairing the efficiency of any essential department of the city. It simply strikes out certain things which are in the nature of luxuries; and can only be enjoyed by a party who is able to pay all debts, and as the mayor by his proposition this evening proposes to take enough out of the reserved fund to make out the pay of the firemen, there is sufficient saved by this plan to restore everyone's pay on the old basis, which in my opinion is the only equitable thing to do. I believe the majority of this Board are of the same mind, and would vote for this if they could free themselves from party shackles. It is too much to expect

that they will vote with us, but it remains true that we have offered them the opportunity of straightening this matter out in the only straightforward and businesslike way in which it can be done. I shall vote for the amendment as offered by the alderman from Charlestown (Ald. Presho), and I trust the good sense of the other members of the board will help them to do the same.

Ald. CODMAN—As this meeting was called in order to send this bill down to the other branch, I do not intend to take any more time than is necessary. I presume every one of us would like to express in full his opinion. Practically everything that has been said I coincide in, but it strikes me that these amendments, offered as a whole, are too sweeping to be passed upon by a single vote. Therefore I would like to ask that each appropriation be considered separately, because although all of them are not satisfactory to the members of the Board, yet there are some appropriations, for which cuts have been suggested, which would perhaps meet with the approval of enough members of the Board to substantially make up this amount of \$74,500. I would ask, Mr. Chairman, that the vote be taken separately on these items.

Ald. DOYLE—Mr. Chairman, I have no special mission from His Honor the Mayor to defend any action of his, if any defence is necessary, but as he has stated in his communication that the firemen's salaries would be replaced to the figure they were in the past I don't think we need to spend much time on that. I hope this amendment will not pass because it will go a great way to render void some of the greatest improvements that Boston has seen in a number of years, such as the Bath Department, Art Department and Music Department. The great system of Public Baths that His Honor the Mayor has established is something that I believe if left to the public there would be no question as to what their judgment would be. I don't think it would be fair to cripple any of these departments without giving them a fair trial, and I hope this amendment of Alderman Presho's will not prevail. I feel as much pleased as any member of this Board to find that the firemen's salaries are to be put back at the old figure as the Mayor has promised, and I think we ought to be satisfied with that, and I sincerely hope this amendment will not pass.

Ald. BRICK—Mr. Chairman, following the gentleman from Wd. 12, on the republican side of the chamber, and dropping into reminiscence, the estimate of the character of Lord Randolph Churchill as used by Sir Charles Russell in his argument upon the Irish Home Rule bill occurs to me as peculiarly adaptive to the alderman from Charlestown:—

"Stiff in opinion, often in the wrong;
Everything by starts and nothing long.
But in the course of one revolving moon,
Was green and orange, statesman and buffoon."

This talk is pure and simple politics. It is, under cover of the Alderman from Charlestown, an attack on the Mayor and the administration. There is no sense in it. The financial condition of the city called for a reduction and the Mayor has attempted to reduce. We find that the general trend of sentiment is against the reduction of the firemen, and I yield to no man in my regard for the firemen of the City of Boston. The alderman from Charlestown desires a cut down in the Bath Department of \$19,000. Just where he wants to cut it out I can't imagine. They are given \$69,500 now, and if they are cut down I would like to know where the cut is to be made. If the cut is made in the Music Department that branch of the public service will be cut out. I hope the appropriation orders will pass without the amendment.

Ald. ADAMS—Mr. Chairman, I did not intend to take any part in this debate tonight, but the remarks of the Alderman

from Wd. 8 (Ald. Brick) have brought me to my feet. He says we are attempting to play politics and that this amendment is not necessary, but I contend that he is the one who has brought politics into the matter, while we would avoid it. I believe that cuts can be made in this appropriation so that no reduction in the salary or pay of any employee of the city of Boston will be necessary. I defy any member of the board to stand up here and say tonight that the interests of the City of Boston would suffer if a cut of \$5000 was made in the Music Department, which reduces it to just the amount we were accustomed to give it two, three or four years ago, when the citizens had a chance to hear considerable music on Boston Common every Sunday afternoon. Then, again, a cut of \$1000 for the Art Department. I fail to see where any interest will suffer if that cut is made. On the cut of \$19,500 in the Bath Department I wish to call the attention of the members of the board to the fact that Mayor Quincy has stated in New York and other places that the Bath Department of the City of Boston can be run for \$35,000 or \$40,000 a year, and I agree with him. I believe that the present bath system can be run for that amount. I do not know that we can build additional bath houses this present year on that amount, but I do say that if the present system can be run on an appropriation of \$40,000, why should we appropriate \$69,500 in this year of financial stringency? Again, take the matter of \$8000 for publishing the City Record. I would like to know who cares whether the City Record is published or not. We get every fact that comes out in it in the daily papers, and it has a list of eight subscribers and is sent around to the members of the city government—\$8000 practically thrown away, and it is absurd to cut down the salaries of honest officials in order to maintain such useless institutions as the City Record, Statistics Department, Art Department, and other departments which really give nothing and add nothing to the pleasure, comfort or convenience of the citizens of Boston. I certainly hope this amendment will prevail, and I fail to see how any member of this board can vote against such an amendment.

Ald. DAY—Mr. Chairman, every member of this Board has gone on record as being a friend of the firemen, and I want to take this occasion to rise here and say that I am as good a friend of the firemen as any member of this Board, and I am pleased that their pay is to be restored. I am perfectly satisfied with the intelligence, wisdom and policy of the Mayor and the Board of Estimate and Apportionment, who have given a great deal of time to that bill.

Ald. DIXON—Mr. Chairman, in answer to the alderman from Wd. 20 (Ald. Adams) in regard to the Bath Department, I will say that last year was the first year of the Bath Department, and the increase in the number of bathers was remarkable. Frequently there were 6000 or 7000 in bathing at the North End Park on a Sunday, and there was a corresponding increase at L St. and the other houses. Why shouldn't the department expenses and appropriation be increased? They require about ten times as many suits, towels, etc., as formerly, and even last year they did not have bathing clothes enough, and I believe the appropriation should be increased rather than decreased. I do not believe it is fair to come in here at the last moment with such an amendment as this, and I do not believe it is necessary. The firemen's salaries are to be restored, for which I am sincerely glad. I believe they deserve an increase rather than a decrease. I was down at the engine house on Bulfinch St. only the other day, and found they had answered 27 calls this month, and that goes to show whether or not the firemen earn their wages. However, I do

not believe this amendment is necessary, and I hope it will not prevail.

Ald. O'TOOLE—Mr. Chairman, I believe every member of this Board, irrespective of party, is glad to have the firemen's salaries put back, and I don't believe that any one member is the champion of the Fire Department. If it was a question of cutting down appropriations in order to give the firemen their old salaries, I would cheerfully agree to it; but I don't believe it is necessary. I will take the Mayor's word. I think he is responsible, and we will hold him responsible, and if he agrees that the salaries will be replaced, we do not need this amendment; and I hope it will not be carried.

The item reducing the appropriation for Bath Department by \$19,500 was rejected, Ald. Adams calling for the yeas and nays. yeas 3, nays 8:—

Yeas—Ald. Adams, Colby and Presho—3.
Nays—Ald. Barry, Brick, Codman, Day, Dixon, Doyle, McDonald, O'Toole—8.

The item striking out the appropriation of \$1000 for Art Department was rejected, yeas 4, nays 7:—

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The item striking out the appropriation of \$13,000 for Municipal Statistics Department was rejected, yeas 4, nays 7:—

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The item striking out the appropriation of \$6000 for City Record was rejected, yeas 4, nays 7:—

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The item reducing the appropriation for Music Department by \$5000 was rejected, yeas 4, nays 7:—

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The item reducing the appropriation for Public Buildings Department by \$20,000 was rejected, yeas 4, nays 7:—

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The item striking out the appropriation of \$7000 for Electrical Construction Department was rejected, yeas 4, nays 7:—

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The item striking out the appropriation of \$3000 for Public Lectures was rejected, yeas 4, nays 7:—

Yeas—Ald. Adams, Codman, Colby, Presho—4.

Nays—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

The question came on the passage of the appropriation bill as reported by the committee, and the bill was adopted. Yeas 7, nays 4.

Yeas—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald, O'Toole—7.

Nays—Ald. Adams, Codman, Colby, Presho—4.

Sent down.

The question came on the passage of the five loan orders accompanying the bill. On motion of Ald. Colby, the orders were read by their titles, and passed. Yeas 11, nays 0. Sent down.

Ald. DOYLE moved to reconsider all action taken by the Board at the meeting; lost.

Adjourned, on motion of Ald. Adams, at 9 P.M., to meet on Monday, Feb. 20, 1899, at 3 P.M.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, Feb. 16, 1899.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7.45 o'clock P.M., President Kiley in the chair and a quorum present.

LOCKERS IN EAST BOSTON GYMNASIUM.

Mayor's Office, City Hall,
Boston, Feb. 9, 1899.

To the Common Council:

I transmit herewith a communication from the Bath Commission in reply to your order requesting a report as to the number, if any, of non-residents who have lockers in the East Boston gymnasium, and also if proper steps are taken to give residents of Boston the preference in obtaining admission to the hand-ball court.

Respectfully,

Josiah Quincy, Mayor.

Department of Baths,

Boston, Feb. 8, 1899.

Hon. Josiah Quincy, Mayor, City of Boston.

Dear Sir:

We return herewith the enclosed order of Councilman Bagley of Wd. 1, dated January 9, 1899, and I am requested by the Bath Commission to state that the matter mentioned in the order has been carefully investigated and that no non-residents of Boston have any permanent lockers in the East Boston gymnasium and that, as far as possible, no citizens of Boston are debarred from using the hand-ball courts in this gymnasium by reason of the use by non-residents. While it is true that at times non-residents, working in East Boston, make use of the gymnasium so far as we can ascertain the privileges of citizens are in no way affected.

Very respectfully,

David D. Kearns, Secretary.

Before the reading of the communication had been finished, Mr. Klemm of Wd. 21 said:

Mr. President, I rise to a point of order, that there is no quorum present.

The PRESIDENT—The Chair will rule the point of order not well taken, as it seems to the Chair that there is a quorum present.

When the reading of the communication had been finished, Mr. Bagley of Wd. 1, said:

Mr. President, since I introduced that order I have investigated the matter further, and I feel satisfied that everything is satisfactory there, and I hope the communication will be placed on file.

The communication was placed on file.

PAPERS FROM THE BOARD OF ALDERMEN.

1. Message of the Mayor, transmitting communication from the Board of Statistics in relation to the financial situation of the city. (City Doc. 55.)

Placed on file.

2. Notice of non-concurrence in the passage of the order authorizing the use of Curtis Hall, waiving the fee, on the evening of February 16, to Daniel Hersey Lodge, I. O. O. F.

Placed on file.

3. Notice of rejection of the order requesting the Board of Estimate and Apportionment to provide the members of the City Council with verbatim reports of all the meetings of said board.

The question came on placing the notice on file.

Mr. CHAMBERLAIN of Wd. 12—Mr. President, this order, as I understand it,

was referred by the Board of Aldermen to the Committee on Public Improvements—that bourne from which but few orders ever return, and where the meetings are secret. I am very much surprised, Mr. President and gentlemen of the Council, that the Board of Aldermen should refuse our request, namely, to be provided with a verbatim report of all meetings of the Board of Estimate and Apportionment. The reports of the Board of Aldermen and Common Council are printed in The Advertiser on the morning following the meeting, but we are not allowed ourselves to have a verbatim report of the proceedings of the Board of Estimate and Apportionment. I do not believe, Mr. President, that this is starting out on the right track. I believe the members of this body, as well as the Board of Aldermen, should know every single thing that transpires in the Board of Estimate and Apportionment—especially since the time has now come when the Board of Estimate and Apportionment have taken away all the financial powers that formerly were possessed by us. Of course, we ourselves can do nothing in regard to the matter, but I do think it a very unwise move on the part of the Board of Aldermen to refuse us our request.

Mr. HICKEY of Wd. 2—Mr. President, I hope that the message will be placed on file. It seems to me that there is no undue secrecy concerning the meetings of the Board of Estimate and Apportionment. We have a representative on that Board who frequently makes statements to this body in regard to the doings of that Board, and the Board of Aldermen also have a representative, who makes public statements in regard to the doings of the Board to that body, and, in addition, the doings of the Board of Estimate and Apportionment are printed in full in the City Record. I therefore feel, as I said before, that no undue secrecy attaches to the meetings of that Board, and that we have no more right to pry into the debate of that body than we have into the debates which occur in the Committee on Public Improvements of the Board of Aldermen, or of any other committee. While I am on my feet, I wish to call the attention of the gentleman who preceded me to the fact that the statement was made on the floor of the Board of Aldermen this evening that the doings of the Committee on Public Improvements were not secret, but that they were made public.

The notice was placed on file.

4. The order of the Board of Estimate and Apportionment for a loan appropriation of one million dollars for the construction of sewerage works, amended by this Council by reducing the sum to five hundred thousand dollars, comes down for concurrence with an entry thereon that the Board of Aldermen non-concurred with the Common Council, and adhered to its former action.

The PRESIDENT—The Chair will rule, in reference to No. 4 on the calendar, that under the provisions of section 6 of chapter 324 of the Acts of 1898, no action can be taken by the Council on this order at this time. Therefore, if there is no objection, the Chair will direct the Clerk to send the order and communication back to the City Clerk.

5. The report of the Joint Special Committee on Rules and Orders of the City Council (City Document 44), which was accepted and the rules, therewith submitted, adopted by this Council, comes down for concurrence with an entry thereon that the minority reported was substituted for the report of the majority, and accepted, and the rules and orders, as recommended by said minority report, were adopted in place of those recommended by the majority report.

The question came on receding from former action, and concurring with the Board of Aldermen.

Mr. HICKEY of Wd. 2—Mr. President, I

hope that we will recede and concur with the Board of Aldermen. I would be the last member of the Common Council to go on record as being opposed to any action of this body which would serve to give this body, or the committees thereof, greater power; but, gentlemen, I contend that the system of committees which has served so admirably for 35 years prior to last year, is one good enough for us in the future. I can see no good reason for increasing the number of members of committees, and I think that the argument advanced in opposition thereto, that it will be next to impossible to secure a majority or a quorum of those committees, is a good one, and one that should be taken into consideration. So far as the power of the Common Council is concerned, I maintain that with joint committees made up of five members of the Common Council and three members of the Board of Aldermen, the Council would have just as much power as it could have under the new proposed rules, and while I am sorry to oppose a report which is unanimous on the part of the members of the committee of the Common Council, I feel that no good argument can give them the support of the proposition to increase the number on the committees. The only argument that was made by the gentleman in the second division was that it would be placing the committees of this body on the same basis as the committees which now exist at the State House. This, I do not agree with. The committees of this body and of the Legislature, cannot be compared as regards their duties, and there is no good reason why the same number of members on each committee should exist in the two bodies. I hope that the minority report will be adopted, and I believe that better work can be done by committees throughout the year composed of eight members than can be done by committees composed of thirteen.

Mr. BORDMAN of Wd. 10.—Mr. President, in the absence of the Chairman on the part of the Council of the joint committee on rules, I would move that the matter be assigned for one week.

Mr. WATSON of Wd. 13.—Mr. President, I move as an amendment that it be assigned to 9 o'clock. Perhaps the member referred to may be here by that time.

The PRESIDENT—The Chair desires to state, for the information of the Council, being a member of the committee on joint rules and orders, in the absence of the chairman of that committee, that the only changes in the rules as reported by the majority of that committee, and as unanimously agreed upon by the common council members of the committee, were those necessitated by the Board of Apportionment act, in obliterating the committee on finance and the committee on appropriation, and also the sections of the rules which referred to the doings of those committees; the changing of the name of the "committee on inspection of vessels and ballast" to the name "Committee on Vessels and Ballast," and of the committee on "Sealer of Weights and Measures" to the committee on "Weights and measures department." Those, with the change of the membership of the joint committees from four in the board of aldermen to five, and from seven in the common council to eight, were the changes that were made by the committee. The report of the committee, so far as the members of the council were concerned, was unanimous. If there is any further information that any member of the council desires, the Chair will furnish it, in the absence of the chairman of the committee.

Mr. KASANOF of Wd. 9.—Mr. President, out of courtesy to the chairman of that committee, I am in favor of assigning this to the next meeting; but, so far as the rules are concerned, and so far as revising the rules of last year by having the committees consist of eight on the part of the council and five on the part of the board

of aldermen is concerned, Mr. President and members of the Common Council, I wish to state, for the information of those gentlemen who have not served on committees, that there are practically only three or four committees which have any duties assigned to them whatever. Those four committees are Committee on Finance, the Committee on Appropriations, the Committee on Building Department, and the Committee on Claims. It is true that the Committee on Rules have a few meetings at the first of the year. Practically all the rest of the committees are of no effect so far as I have seen, having had practically no meetings whatever. I have served on eight committees, and the only committees that have had any meetings whatever were the Committee on Building Department. The other committees, like the Committee on Health Department, the Committee on Assessing Department, the Committee on Library Department, and a great many other committees on which I have served, have not had a meeting during the whole year of 1893. Perhaps the new members of this body may think that the members are appointed upon the committees to take action on matters referred to those committees, and that every week they will have some work to do upon those committees. I wish to say that, of the thirty-four committees, there are only four or five which will probably be called upon to act.

So far as increasing the membership is concerned, I wish to say that I have seen time and time again when there was no quorum present, simply because the committee consisted of eleven members. Of course we all understand that last year, owing to the conditions which existed then, it was necessary that the Board of Aldermen should increase the membership of the committees on the part of that Board from three to four, and so of course the Council had to increase their number from five to seven; but I do not see any reason why the number of members of committees should be further increased this year. Eight members on any committee are enough to perform any duties that will come before that committee. I therefore hope that assignment for another week will prevail.

Mr. WATSON—Mr. President, I desire to answer Councilman Kasanof in reference to the statement that there are only five committees which will meet. I do not see how he can look ahead so far as to size up the situation and say that only five committees will meet this year. I believe it is within the province of the president of this body to make all committees meet, by referring all orders to the proper committees. They will then meet. It is true that a good many committees did not meet last year. There are four committees which I have in mind,—the Committee on Vessels and Ballast, the Committee on Engineering Department, the Committee on Registry Department, and the Committee on Elections—which have not had a meeting, as I understand, in three years; and it was my pleasure to be on all those committees during the past year. Now, Mr. President, I believe the question comes first on the motion to assign to nine o'clock. Am I right, Mr. President, in assuming that the question is on assigning to nine o'clock?

The PRESIDENT—The Chair will rule that the question comes first on the longest time, under our rules, and that therefore the question is on assignment of the matter to the next meeting of the Common Council.

Mr. WATSON—Well, Mr. President, I trust that we will vote down that motion, for the reason, if it is voted down, we can then move to assign the matter to nine o'clock. Perhaps then the Chairman, on the part of the Council, will be here to defend his report. I therefore trust that assignment for one week will not prevail, because if we wait a week longer

we will have to wait just so much longer for the committees to be appointed, and we are all getting anxious. I understand, Mr. President, that Mr. Logan, the Chairman of the Committee, is now here, and I hope that assignment will not prevail.

Mr. BORDMAN of Wd. 10—Mr. President, I would respectfully ask to withdraw my motion to assign further consideration of the matter to the next meeting.

The PRESIDENT—No objection being made, the motion will be withdrawn.

Mr. WATSON of Wd. 13—Mr. President, I would like to withdraw my motion to assign the matter to nine o'clock.

The PRESIDENT—No objection, the motion will be withdrawn.

Mr. KASANOF—Mr. President, I wish to ask for an assignment of the rules to the next meeting of the Council.

The PRESIDENT—The Chair will rule the motion out of order as a motion has already been made to that effect and has been withdrawn by unanimous consent.

The question came on receding from former action and concurring with the Board of Aldermen, and the motion was lost.

The Council voted to adhere to former action. Notice sent up.

6. Message of the Mayor transmitting, under the provisions of Chapter 434 of the Acts of 1898, the following order, passed by the Board of Estimate and Apportionment, under said act, at its meeting on February 3, 1898, the same coming down without alteration, viz:—

Ordered, That the sum of fifteen thousand (15,000) dollars be appropriated to the Public Buildings Department, Electrical Construction Division, for additional working capital; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The question came on placing said message on file, and passing the order in concurrence with the Board of Estimate and Apportionment.

Mr. CHAMBERLAIN of Wd. 12 moved that the matter be assigned for a week, Mr. Connolly of Wd. 17 calling for the yeas and nays.

The message and order were assigned for a week—Yeas 38, nays 28.

Yeas—Armistead, Atwood, Bagley, Bennett, Bordman, Brauer, Chamberlain, Collins, Cuddy, Donovan, Eddy, Emery, Harvey, Jordan, Kiley, Kieran, Leftovich, Linahan, Lorey, MacDonald, McInerney, Midram, Miller, Moore, O'Brien, Peck, Roemer, Rolland, Sanderson, Simpson, Stevens, Stockton, Stone, Sweeney, Walker, Wells, Winslow, Wood—38.

Nays—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Doherty, Donahoe, Doyle, Fenton, Gibbons, Hickey, Horrigan, Johnson, Kasanof, Kelley, Leonard, Logan, Lydon, Martin, Mulcahy, Nangle, Newhall, Rice, Sullivan, Turnbull, Watson—28.

Absent or not voting—Battis, Curley, Flynn, Giblin, Hibbard, Howard, Madden, Mansfield, Tebin—9.

CONVENIENCE STATION, ROXBURY.

The Council proceeded to take up No. 7, assignment, viz:—

7. Message of the Mayor transmitting a communication from the Bath Commission in reply to the order requesting it to construct and maintain a public convenience station in the vicinity of Roxbury Crossing.

The question came on placing the message on file.

Mr. NANGLE—Mr. President, I desire to say, being the member who offered that order, that I have no objection to placing the message on file, but, in connection with it I desire to offer the following, and ask for a suspension of the rules, in order that it may go upon its passage:—

Ordered, That the Board of Estimate and Apportionment be requested to include in

the next loan bill a sum sufficient to construct and maintain a public convenience station at Roxbury Crossing.

Mr. NANGLE—Mr. President, I desire to make a few remarks in regard to that order. This is a matter that we have been looking for for two years. It is a well known fact that at this place where I ask that this station be located the place has become a nuisance. There is a great crowd of people there every night, and it is an unhealthy and very unsightly sight to see in the morning. I hope that when this matter comes before the Board of Apportionment they will see the advisability of making a sufficient appropriation for the purpose.

Mr. STEVENS of Wd. 11—Mr. President, I would be very happy to vote for the gentleman's order if I felt that it really meant what it said. We had a little experience last year in regard to \$20,000 which it was intended to appropriate for that purpose. It appeared finally that there was no intention of using the money for that purpose: If this is intended to be used for that purpose alone, I should be very happy to vote for it.

Mr. NANGLE—For the information of the gentleman who last spoke, Mr. President, I would say that this money is intended entirely for this purpose, and that if we get it, as I hope we will, I will guarantee that it will not be transferred for any other purpose.

The order was passed. Sent up,

APPROPRIATION FOR FANEUIL HALL

The Council proceeded to take up No. 8, assignment, viz:

8. Ordered, That the sum of twenty-three thousand (23,000) dollars be appropriated, to be expended by the Engineering Department to meet the expense of the electric lighting, heating, plumbing, painting and plastering work on Faneuil Hall, and that to meet the said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The question came on the amendment offered by Mr. Stevens at the last meeting, that the sum of \$15,000 be substituted for the sum of \$23,000.

Mr. STEVENS—Mr. President, my idea in offering this amendment, as I said at the last meeting, was that when the electric lighting work has been thrown open to public bids, and it has become evident that this amount of money will be needed for that work, I shall be very happy indeed to vote for it; but, as a matter of business principle, I see no reason why that part of the work should not be thrown open to bids from reliable contractors just as much as the plumbing, the heating, the ventilating, and the other work, should be. I would be very glad to see that amendment passed, and if, later, they show us that they need \$5,000, \$6,000 or \$8,000, or whatever the amount may be that should be used for that purpose, I should then be very glad indeed to vote for it. I wish to say, however, that I have reason to think that perfectly reliable contractors in the city of Boston will do this work fully as well for considerably less money; and, in the financial condition of the city, I think this is a matter that should be looked into very carefully.

Mr. MULCAHY of Wd. 14—Mr. President, after listening to the gentleman from Wd. 11 (Mr. Stevens) it seems to me it is a question of debate on contractors. He says that \$15,000 is enough. Now, if we are to have a debate on the contract question here it would be well for the gentleman from Wd. 11 to have his debate with the engineering department and settle that debate there. It would seem to me, as I said at the last meeting, that \$23,000 is really necessary. The gentleman from Wd. 11 does not know how he feels on the matter. He says pass the \$15,000, and if they need more money let them come

around in six or eight months. This is not business, and I think if we are going to pass the appropriation for Faneuil Hall we should give it to them in a lump sum and not on the installment plan, as the gentleman from East Boston (Mr. Rice) calls it. I believe in passing the bill in one sum or not at all. Therefore, I am in favor of the \$23,000.

Mr. HICKEY of Wd. 2.—Mr. President, I have not one harsh word to say against the gentleman in the fourth division (Mr. Stevens), who so kindly granted me assignment at the last meeting of the council; but since that time I have taken every opportunity presented to me to look into the matter. I have secured figures on the contract question, and from those in authority on the work, and have looked through the building myself, and I have come to the conclusion that an appropriation of \$23,000 is necessary. That belief is based not only on what I have been told by those in charge of the work, and from a thorough scrutiny of the order appropriating \$23,000, but it is also based on what has been told to me by experienced men in the business which is being carried on inside that hall. The work is being done to the entire satisfaction of the people in the stalls underneath. The opposition of the gentleman in the fourth division (Mr. Stevens) is entirely confined to the electrical construction division, and I feel that it would be no aspersion on his motives to say that it is due to some antagonism on his part to the electrical construction division. It seems to me that this particular item would not have been picked out if it had not been asked for by that division. I hope, Mr. President, that the appropriation of \$23,000 will pass.

Mr. KASANOF.—Mr. President, I was greatly surprised at the gentleman in the fourth division when he moved to amend this order by reducing the amount from \$23,000 to \$15,000. I think that it would be wise for the members who are interested in the finances of the city of Boston to investigate matters before they go into any figures. The gentleman in the fourth division has stated that \$15,000 is sufficient. I would like to know whether he has obtained figures from any contractors as to the work which is to be done there. I visited Faneuil Hall today with certain members of this Council on the republican side, and they have been satisfied that \$23,000 is not any too much for fixing up Faneuil Hall, as far as electrical construction, ventilating, heating, plastering and plumbing work are concerned. I want to state to those who wish to vote for the \$15,000 that they ought to give the matter more consideration, and go down and see the work themselves, if possible, and not come up here and argue in regard to a matter which they have never seen or made any figures about whatever.

Mr. ARMISTEAD of Wd. 11.—Mr. President, just a word in support of the amendment offered by my colleague in the fourth division (Mr. Stevens). The role of the bear on the stock market is to bring down the price of stocks. There are those in every walk of life who play the part of the bear. That is my position. The gentleman in the third division has given a very good reason why \$23,000 should be appropriated. He has said that \$23,000 was necessary. Why is it necessary? It is necessary because one of the departments of the city of Boston is going to do the work. If the work had been given out for public competition, I believe that it could have been done for \$15,000. Now, there is no question about that, in my mind. I am satisfied that the gentlemen who are so gallant in getting up here and saying that we ought to spend \$23,000 for this purpose, which is not necessary, if they had an opportunity to go back to their wards and ask the tax-paying element there whether they should

vote for \$23,000 or \$15,000, when it can be done for \$15,000, I believe that those constituents of theirs would say to them, "You go back and vote for the \$15,000." Now, Mr. President, I trust that the amendment offered by the gentleman in the fourth division will prevail.

Mr. MULCAHY.—Mr. President, in reply to the gentleman in the first division (Mr. Armistead), with all due respect to the gentleman himself and to the contractors from whom he claims he has obtained his figures, I must say that they had very little to do if they drew up figures on a contract of that nature for a gentleman from Wd. 11. Mr. President, he is like his colleague from Wd. 11, who does not know whether the work which it is proposed to do on Faneuil Hall will take \$15,000 or \$23,000. He must confess that there are several items mentioned here in the order—electric lighting work, heating work, plumbing and plastering work. He must admit if he will go down through those items, that they can spend \$23,000—and I am sure he will admit it if he will go to Faneuil Hall and inspect the work. He will see that that amount of money can be spent there, and spent honestly and conscientiously by the engineering department of the city of Boston.

Mr. LINEHAN of Wd. 13.—Mr. President, I just wish to say a word in regard to this \$15,000. The gentleman in the third division stood up here in this Council three weeks ago and told us to go down to Faneuil Hall and see how the \$80,000 had been spent. Now, Mr. President, I made it my business to investigate this thing, and I found out, on going to the city engineer's office, that there had only been \$10,000 of that \$80,000 spent as yet. I would like to know what they knew about this thing, and whether they came in here for the purpose of trying to bluff us people or not. They say to us, "You will see the way the \$80,000 has been spent," when really there has not been \$10,000 spent as yet. I say that \$23,000 is too much. I know men who are in this line of business. I don't care to give figures, but I think I have enough information to justify me in stating that \$23,000 is too much money for this work.

Mr. STEVENS.—Mr. President, the gentleman who just preceded me said he had been to the City Engineer's office, and that they told him \$10,000 has not been spent as yet. I think it was one week ago tomorrow that I was in that office, and they told me exactly the same thing. It is a fact, however, that two weeks ago tonight the gentleman from Wd. 11 who is so anxious to see this rushed through, said that if we would go down to that building at that time, two weeks ago, we could see where \$80,000 had been spent, although a week ago the engineer department said there had not been \$10,000 spent. Now, if we can see \$80,000 worth of work where there is only \$10,000 worth, I think we had better look into this very much more carefully before we pass it. As to the remark made by that gentleman to the effect that I said \$15,000 would do this work, I think his hearing failed him then. I stated that I wanted the \$8000 struck out until that electric lighting work had been thrown open to bids of reliable contractors in the city of Boston. I do not care to quote figures, but I have strong reason to feel that \$8000 is quite a good deal in excess of the amount that would be required for doing this work by other parties who know the business just as well as this division, and who have just as reliable a standing before the public. He also made the remark that I seemed to be willing that all the other items should pass. I am very glad to see them pass, for, as I understand it, the work which they provide for has been open to bids of reliable contractors. I think that is business. The only reason I am against this electric lighting work is that it has not been open to bids of reliable contractors. I wish, however, to say that I have no

feeling against that department of the city, or division of a department, or whatever it is called. I have as kindly feelings for it as I have for any department. The gentleman from Wd. 14 seemed to think I was objecting to this purely on that ground. I wish it understood that there is nothing of that nature in it. It is simply a question of business principles. That is what I want, and nothing else.

Mr. BORDMAN of Wd. 10—Mr. President, I believe that under the Board of Apportionment Act, whatever the action of the Common Council is upon this matter, it will probably take effect for the full amount of \$23,000 on the 24th day of February, whether or not we reduce it to \$15,000. Otherwise, there will not be time enough to pass it over the Mayor's veto, if he sees fit to veto it, as he probably would; and all parties having had a thorough opportunity to place themselves on record, I would move the previous question.

The question came on ordering the main question.

Mr. HICKEY of Wd. 2—Mr. President, I hope the main question will be put, and when it is put, I ask for the roll call.

Mr. STEVENS—Mr. President, I hope the main question will not be put just at present. I see that there are several men who want to express an opinion on this, and as it is something that has aroused a good deal of interest, I hope that all who want to express an opinion will have that privilege. There is nothing on the calendar that will be liable to keep us here very late, and I hope that every man will have an opportunity to express his opinion who wishes to do so.

The question came on the amendment offered by Mr. Stevens of Wd. 11.

Mr. MULCAHY of Wd. 14—Mr. President, I desire to reply to the gentleman from Wd. 11 (Mr. Stevens), as also to the gentleman from Wd. 13 in this division (Mr. Linehan). I am afraid that when they were seeking for figures in the Engineering Department, they got into the wrong room. It would seem to me that the gentleman from Wd. 11 contradicts his own statement that he made here a week ago tonight. He said he went to the Engineering Department, and that there was \$18,000 spent. He admits in his argument tonight that there was only \$10,000 spent, although a week ago he stated that there was \$18,000 spent. Now, why should the gentleman get things mixed up in any such way?

The PRESIDENT—The question is on Mr. Stevens' amendment.

Mr. LINEHAN—Mr. President, I would like to say one or two words in reply to the gentleman in regard to the \$18,000 being spent. When I went in there, the amount of money that Woodbury & Leighton, the contractors, had received, was \$5200. It is customary for the city of Boston to pay 75 per cent of contract work done. That would not leave \$10,000 done. But \$5200 has been paid on that work.

Mr. SANDERSON of Wd. 25.—Mr. President, in connection with the remarks of the gentleman from Wd. 11, I wish to say that the figures obtained and given to the Council last week were not obtained from any city department. I went to the contractors and obtained the figures—from Woodbury & Leighton themselves. They informed me that they had received an amount of \$5200 from the city. The figures which have been given the Council last week and this week remind me of a story. It seems that there was once a gentleman who wished to cross the ferry. He walked towards the wharf, and as he approached the ferryboat he heard the bell ring. He rushed down and saw that the boat was a short distance out in the stream, five or six feet, and with a mighty effort he jumped and landed on the deck. He stumbled and fell, and after he finally succeeded in getting to his feet he looked around and saw that the boat was fifty or 60 yards out in the stream. Looking back over the distance between the boat and the

wharf, he said "Great Scott! Wasn't that a devil of a jump!" (Laughter.) I can't see why, when a steam plant, etc., could have been put in for \$5400 in 1898, \$23,000 is needed here now. I trust that Mr. Stevens' amendment will prevail.

Mr. STOCKTON of Wd. 10—Mr. President, I hope the amendment offered by my colleague Mr. Stevens, will prevail. So far no figures have been given by any gentleman who has opposed the amendment. The only figures given us on this matter at all were given by Mr. Stevens, and it seems to me clearly, under the circumstances, that the burden is on the other side to show that this amendment ought not to prevail. I therefore hope it will be adopted.

Mr. LEONARD of Wd. 9—Mr. President, it would appear to me that the members are wandering entirely from the real question before the body. We will admit that the contract for \$79,000 has been made with Messrs. Woodbury & Leighton for the performance of certain portions of work on this building. Nobody contradicts that; no person denies it. It is immaterial whether they have performed \$5000 worth of work or \$50,000 worth of work. Their contract calls for \$79,000, or nearly \$79,000. We might go back to last year, when, as several members say, they were approached by every Ancient in Boston in order to induce them to vote on this question. The members of last year's Council will remember that the Consulting Architect of last year, who, I believe, is the same this year, wanted \$100,000 for the repairing of this building, for putting it into the condition into which it is intended to put it now; \$100,000 was what was asked for. The members of last year's council will remember that the \$30,000 was a compromise measure, and did not cover an amount that the consulting architect claimed would be sufficient to repair this building. I don't wish to say whether the mover of the amendment here is consistent or not. He accepts of the items for plumbing, plastering, steam heating, etc., amounting in all to \$15,000, and he wipes out completely the item for electric lighting. Now, Mr. President, if he is honest, if he has received figures which say that this can be done for a less amount than \$3000, why doesn't he add the amount for which he thinks it can be done onto the \$15,000, and prove his consistency to this body? I think that he presents no argument to this body why we should accept the amendment.

As I say, if he is consistent, if he is honest in the matter, why not add the sum he thinks should be spent for the purpose right on to the \$15,000, the amount he claims it will cost to place electric lights in this building? Then I don't know but what I might vote for his amendment, if he can prove that \$8,000 is too much. I will state that, personally, being sick for the last three or four weeks, I had no opportunity to look up this thing. I don't know what has been done, and it is immaterial what labor has been done on the building. As I stated before, \$30,000 is all put out under contract, and whether the work is done or not, that amount we will have to pay. I trust that the amendment will not prevail tonight, but that we will vote in favor of the original order, unless there is another way out of this. If the gentleman wishes, as I said before, to add on to this \$15,000 what he considers sufficient to place electric lights or wiring in this building, that might give us an opportunity to support it.

Mr. WOOD of Wd. 16—Mr. President, in answer to the argument of the gentleman in the second division (Mr. Leonard) in regard to the estimate of \$100,000 made by the expert for repairs on Faneuil Hall, I will say that these figures were made when it was intended to turn the tenants out of Faneuil Hall and make the repairs from the foundation. The explanation given by the engineering department at that time

was that the foundations of Faneuil Hall were strong enough to make the necessary repairs, taking the foundations as they were and beginning on the second floor, placing the temporary roof over the tenants in there and not removing them to make the necessary repairs which would be done under this estimate of \$100,000. Figures were then given out by the firm of Woodbury & Leighton, and they took this contract for \$79,000 for repairs. Since making these changes it has been found that the foundation was not heavy enough to carry the building, and there have been certain pillars inserted in the foundation, which made an expense of some \$6,000 or \$7,000 necessary. As I understand this matter today, this amount has been transferred from the sum that was originally set aside to meet the contract given to Woodbury & Leighton and has been spent on this building.

I understand that in this estimate for \$23,000 there is a sum of \$7000 called for for plastering this building. Figures have been given me by a contractor who is interested in this work, showing that there are only 4000 yards of plastering to be done on the building, and anyone who is in the least acquainted with plastering knows that this work can be done for 50 cents a yard. It would only require, at that rate, the sum of \$2000 to do the plastering, and I would like to know where the other \$5000 come in? In regard to the wiring of this building, I have understood from contractors who are familiar with this work, that it is simply to wire the building, that it is not the intention of the city at all to supply the plant for lighting; that they intend to hire the light from electric lighting plants outside. I am at a loss to know where \$5000 can be expended in wiring this building. Now, I am in favor of preserving any old landmarks, such as Faneuil Hall, but I don't wish to see the money of the taxpayers of the city of Boston wasted, unless there is some reasonable excuse given, some plausible explanation of where the money is going to. As I have always understood it, and as it was stated in Council last year, \$79,000 was enough to complete the entire work. If the Council of last year, or the gentlemen who had charge of giving out these contracts did not look into this wiring, etc., I see no way of getting out of it, but by appropriating a sufficient sum of money to complete that work, and I believe it can be done with the appropriation of \$15,000. Unless the gentlemen who have charge of this work can show me where it is going to require more, I shall never vote for an amount above \$15,000.

Mr. STEVENS—Mr. President, the gentleman in the second division (Mr. Leonard) said the contract was for \$79,000, and defied anybody to dispute it. I looked at the book of the Consulting Architect in the City Engineer's office, and the amount is \$78,500—a difference of only \$500—of course, a small item, but there is a little difference. Then he also said that a year ago the consulting architect said it would require \$100,000. Well, we are getting so personal on this matter that we might as well get to the bottom of it. Professor Chandler came into the office where I am within a few days and told me that about \$18,000 has been spent below the floor of Faneuil Hall. When that contract of \$80,000 was made, it was supposed that no expenses had to be incurred above that floor. Today they have spent \$18,000. I don't know whether it has been paid for, but work has been done to the extent of about \$18,000; and my good democratic friend from Wd. 14 who constantly seems to enjoy misinterpreting me, says that I said that \$28,000 has been spent. As I understand it, only \$10,000, or less, has been spent under that contract, but \$18,000 of work has been done outside of that. That is another matter. Now, these figures, I think, are absolutely true. Professor Chandler told me

also that if it had not been for the extra requirement of \$18,000 or thereabouts, the \$80,000 which we appropriated last year would have completed, or very nearly completed, this contract. I hope these figures will be taken just as I have given them. I have not tried to misconstrue them.

Mr. KASANOF of Wd. 9—Mr. President, I wish to answer my friend in the fourth division (Mr. Stevens). Under the present building law there is a great difference in what has to be done to buildings as compared with the building laws of the past. There have been amendments to the building laws of 1897, 1898 and this year. I wish to remind the gentleman from Wd. 11 that there is a good deal that has to be done under the buildings laws this year that would not have had to be done last year. When this contract was entered into with Woodbury & Leighton, as I understand, there was no work proposed to be done on the lower floor. But I wish to remind the gentleman that the Building Commissioner and the Building Department, as authorized by the Legislature, have compelled the City of Boston to make certain repairs upon the lower floor, which has been done. Therefore, as I have said, being compelled to comply with the laws, they have gone to an expenditure of about \$18,000 on that account.

Mr. LYDON of Wd. 18—Mr. President, it seems to me we have gone over this matter thoroughly, both at the last meeting of the Council and tonight. I believe every member here is ready to vote on the matter, and I most respectfully move the previous question.

The PRESIDENT—The previous question having been moved once and rejected by the Council, the Chair is in doubt whether it is a proper motion to make at this time. The Chair will, however, as it is doubtful, leave it to the decision of the Council.

The main question was ordered.

The question came on the adoption of the amendment offered by Mr. Stevens of Wd. 11.

Mr. MULCAHY—Mr. President—

The PRESIDENT—Does the gentlemen rise to a point of order? The main question having been ordered, discussion is not in order.

Mr. MULCAHY—Mr. President, I ask that the roll be called. The yeas and nays were ordered, and Mr. Stevens's amendment was adopted, yeas 37, nays 29:—

Yeas—Armistead, Atwood, Bagley, Bennett, Bordman, Brauer, Chamberlain, Cuder, Donovan, Eddy, Harvey, Jordan, Kiley, Klemm, Leftovith, Linehan, Lorey, Lydon, MacDonald, Mildram, Miller, Moore, O'Brien, Peck, Roemer, Rolland, Sander-son, Simpson, Stevens, Stockton, Stone, Turnbull, Walker, Watson, Wells, Wins-loe, Wood—37.

Nays—Badaracco, Bradley, Brennan, Broderick, Carroll, Casey, Connolly, Curley, Doherty, Donahoe, Doyle, Fenton, Gibbons, Giblin, Hickey, Horrigan, Johnson, Kasanof, Kelley, Leonard, Logan, Martin, McInerney, Mulcahy, Nangle, Newhall, Rice, Sullivan, Sweeney—29.

Absent or not voting—Battis, Collins, Emery, Flynn, Hibbard, Howard, Madden, Mansfield, Tobin—9.

The order as amended was passed.

Later in the session, reconsideration of the passage of the order was refused, on motion of Mr. Stevens.

RECONSTRUCTION OF MALDEN BRIDGE.

The Council proceeded to take up No. 9 assignment, viz:

9. Ordered, That the sum of fifty thousand (\$50,000) dollars be appropriated for rebuilding the draw and reconstructing the present Malden bridge, at a width of not less than fifty (50) feet; such work to be completed during the year 1899; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city, payable in 10

years from their date, to said amount for said purpose (City Doc. 57.)

Q. On passage in concurrence with the Board of Estimate and Apportionment.

The PRESIDENT—The Chair, as a member of the Board of Apportionment, desires to make a statement in connection with No. 9 on the calendar. The order provides \$50,000 for the purpose of widening and repairing the draw of the Malden bridge. It was suggested by His Honor the Mayor, on account of pending legislation before the Senate and House of Representatives, a bill concerning that bridge having been referred by both of those bodies to the committee on metropolitan affairs. That bill would compel the city to build a bridge which will cost somewhere in the vicinity of \$200,000 outside of the debt limit. Realizing that the city of Boston is bound by previous legislation to build this bridge and maintain it in proper order, the Board of Estimate and Apportionment has passed this order. The question is on the passage of the order in concurrence with the Board of Estimate and Apportionment.

The order was passed in concurrence with the Board of Estimate and Apportionment. Sent up.

SALARIES OF FIREMEN AND POLICEMEN.

A message was received from His Honor the Mayor, submitted to the Board of Aldermen and sent down, relative to the salaries of policemen, and the re-establishing of the salaries of firemen.

(See proceedings of the Board of Aldermen of this date).

Referred to the Committee on Fire Department, when appointed.

MONEY FOR FIREMEN.

Mr. WATSON of Wd. 13 offered an order—That His Honor the Mayor be requested to draw a sum sufficient from the reserved fund to make good the deficit now existing in the Fire Department appropriation, so that the wages of the members of the Fire Department may be restored to the 1898 rate.

The rule was suspended, the order was read a second time, and the question came on its passage.

Mr. HICKEY of Wd. 2—Mr. President, before the order goes upon its passage, while I do not wish to antagonize the gentleman from Wd. 13 (Mr. Watson), I respectfully ask the gentleman if he will kindly explain in detail what his order means?

Mr. WATSON—Mr. President, I am aware that the gentleman in the third division (Mr. Hickey) has been more or less antagonistic to all my orders. But, however, I will endeavor to answer his question. My purpose is to have the money come from the proper source. The reserve fund is to be drawn upon in time of necessity, and I am satisfied that if money is not taken from the reserve fund it will be taken from a place where we will all feel it. I offer the order more as a suggestion to His Honor than as a direct order.

Mr. HICKEY—Mr. President, I hope that order will not go on its passage. I have never gone out of my way to antagonize any order presented to the Council by the gentleman from Wd. 13, and I do not yield to him in endeavoring to do anything good that we may be able to accomplish for the firemen through this body. When the proposed reduction of the pay of the firemen was brought before this body in the form of a resolution by Mr. Watson objecting to the same, I was ready and willing, as I did at that time, to speak in favor of and support the resolution, and all along I have been against any reduction of the pay of the firemen. But it seems to me that that part of His Honor's letter, which has been just read, which says he

has directed the Fire Commissioner to restore to the members of the Fire Department their former pay, is quite sufficient, and that it is unbecoming members of this body, with our limited knowledge of the finances of the city, to suggest that the Mayor shall take the necessary money from a certain specific fund. I think it should be left to his discretion. He has already directed the Commissioner to restore the old pay to the firemen. That seems to be as far as the matter should go.

The PRESIDENT—The Chair desires to once more call the attention of the Council to the rule which directs that members of the Council shall not use the names of other members in debate. The Chair will request members to use the respectful designation provided by the rules for all other members to whom they refer in debate. That rule has been violated twice tonight; the Chair intends to see that the rule shall be enforced hereafter. The Chair will direct the Clerk to read the order for the information of the Council.

The Clerk read the order. The order was read a second time and the question came on its passage.

Mr. MILLER of Wd. 20—Mr. President, I do not object to drawing money from almost any source to restore the firemen's pay. I am heartily in favor of their pay being restored. I think it is a disgrace that the financial condition of the city is such that a cutdown in their wages should be even suggested. I cannot say, however, that I am willing to put myself on record, until I have further information in regard to this, as willing to have money drawn from the reserved fund to pay these men, when in the appropriation bill there are many items which might be cut, which are not necessary. I admit that it is necessary to pay the firemen, but there are a great many things in the appropriation bill that are not necessary, and I would prefer to see the bill come to the Council and have reductions made, if necessary, before we draw on the reserved fund to pay these men. There is no question in my mind but what these men will be paid, for a great many reasons. The Mayor of Boston has sent in this communication so that there will not be any cut made in some departments where he wants to have work carried out. I would like, to see the appropriation bill come to the body and be cut in the right places, not drawing from the reserved fund when we are paying out in other directions money that we cannot afford, for luxuries.

Mr. STEVENS—Mr. President, as regards paying these men from the reserved fund, if I am not misinformed, that is about \$2500 overdrawn now.

Mr. WATSON—Mr. President, if the information I have is correct, there is \$130,000 there.

The PRESIDENT—The Chair will state, for the information of the Council, that in the annual budget which has been referred to the Board of Aldermen by the Board of Estimate and Apportionment, \$123,000 is included for the reserved fund.

Mr. LINGHAN of Wd. 13—Mr. President, I would like to state, for my part, that I am in favor of drawing the money from any fund to pay those men the money that belongs to them.

Mr. HICKEY of Wd. 2—Mr. President, I would like to ask the President whether or not at this time a motion to indefinitely postpone the order will be in order.

The PRESIDENT—The motion will be in order.

Mr. HICKEY—Mr. President, I move the indefinite postponement of the order. My reason is this: I think an attempt is being made to secure more political capital out of the matter than any man is entitled to. When the gentleman from Wd. 13 (Mr. Watson), introduced his order in behalf of the firemen at a previous meeting of the Council, he found that the members of the Council supported him unanimately.

ly. They all voted in favor of the firemen; there was no division of opinion here. No matter who might recommend a cut in the wages of the firemen, the members stood unanimously against it. Now, the communication which comes to us from His Honor the Mayor states distinctly—so distinctly that it should satisfy the best friends of the firemen in this body—that the Fire Commissioner has been directed to restore the old pay to the firemen. If there is anything else the firemen want, I would like to know what it is. I am willing to go back to my ward and justify my vote against this order. The gentleman is very likely thinking of something sarcastic to say about me, but I have nothing to say against him personally. I am antagonizing his order on principle, and I believe he is looking for more political credit in this matter than is his just desert. When he is with the firemen honestly, he will find the other members of the Council with him.

Mr. WATSON—Mr. President, I cannot think of anything half as sarcastic as the speech of the man who has just taken his seat. However, I will say that there are lots of things the firemen want. They want one day's leave of absence a week—there are barrels of things that they want. I will say to the gentleman from Wd. 2! It is not my fault that the communication from the Mayor has come in at this time. I had my order to introduce, but I had to wait until after that communication was read. I desire to say that the reserved fund is the only fund to take the money from. No matter how much you cut the appropriation bill otherwise, you cannot find any fund from which the money can be so well taken as from that. It has been said that we are a 'debating society.' However that may be, the fact remains that we drove His Honor the Mayor into giving the men the money that rightfully belongs to them. If it were not for the Common Council, the firemen would suffer the 7½ per cent. cut the balance of the year. It is the sentiment we aroused in this body that made him give the men what belongs to them. There is no reason for indefinitely postponing my order. Let it go to the Mayor, and let him do as he pleases with it. Probably he will throw it in the waste basket, as he does all my orders. However, I owe nothing to the Mayor or to the Fire Commissioner for my position in this Council. I am here by choice of the people of Wd. 18, irrespective of the Mayor or the Fire Commissioner. If I look for higher honors in Wd. 18, I am just as likely to get them without their support. I hope the motion to indefinitely postpone the order will not prevail.

On motion of Mr. McINERNEY of Wd. 19, the main question was ordered.

The order was passed. Mr. Watson moved to reconsider; lost. Sent up.

SYMPATHY FOR JAMES A. GALLIVAN, ET ALS.

Mr. WATSON offered the following:

Resolved, That the Common Council hereby extends its sympathy to the Hon. James A. Gallivan and others who were injured in the fall of the elevator at City Hall this day, and the members also trust their recovery will be speedy.

Passed.

EXTRA COMPENSATION FOR POLICEMEN.

Mr. LINEHAN of Wd. 13, offered an order—That the Board of Police be requested, through His Honor the Mayor, to allow extra compensation to day police officers who are on duty at municipal lectures; the expense of the same to be charged to the appropriation for municipal lectures.

Mr. LINEHAN of Wd. 13—Mr. President, I would like to say just a word on that order. Seeing that all the halls are paid for out of that appropriation, that all

the janitors who work in these halls and all the lecturers are paid for, I think it is no more than right that the police officers should also be paid. Men who do duty day times should have some compensation for work done at night.

The order was referred to His Honor the Mayor.

COMMITTEE TO INVESTIGATE ELEVATOR ACCIDENT.

Mr. LINEHAN offered an order—That a special committee of five members of the Common Council, including the President, be appointed to investigate the cause of the accident to the elevator in the City Hall on this date, Feb. 16, and that said committee report at the next meeting.

The order was passed and the President appointed as said committee Messrs. Linehan of Wd. 13, Logan of 14, Stevens of 11, and Eddy of 16, together with himself, as provided in the order.

ELECTRIC LIGHT, REGENT ST.

Mr. WINSLOE of Wd. 21 offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to place an electric light at the corner of Alpine and Regent Sts., Wd. 21, the expense of same to be charged to lamp department.

Referred to His Honor the Mayor.

COASTING ON WEST FIFTH ST.

Mr. GIBLIN of Wd. 15 offered an order—That coasting privilege be granted on West Fifth St., from Dorchester St. to E St., between the hours of 7 P. M. and 10 P. M., subject to the regulations of the Board of Police.

Passed. Sent up.

ELECTRIC LIGHTS, HYDE PARK AVE.

Mr. BRODERICK, of Wd. 23, offered an order—That the Superintendent of Lamps be requested, through His Honor the Mayor, to substitute electric lights for the gas lamps on Hyde Park Ave., between Walk Hill St. and Mt. Hope St., Wd. 23.

Referred to His Honor the Mayor.

LAYING OUT OF CUSTER STREET.

Mr. BRODERICK, of Wd. 23, offered an order—That the Board of Street Commissioners be requested to accept and lay out as a public way Custer St., from South St. to the Parkway, Wd. 23.

Referred to His Honor the Mayor.

REMOVAL OF TREE.

Mr. ROEMER, of Wd. 22, offered an order—That the Superintendent of Public Grounds, through His Honor the Mayor, be requested to remove tree in front of premises 252 Lamartine St., Wd. 22.

Referred to His Honor the Mayor.

ELECTRIC LIGHTS, BOYLSTON ST.

Mr. ROEMER offered an order—That the Superintendent of Lamps, through His Honor the Mayor, be requested to locate a sufficient number of electric lights to properly light Boylston St., between Washington and Amory Sts., Wd. 22.

Referred to His Honor the Mayor.

SKATING AT WOOD ISLAND PARK.

Mr. RICE of Wd. 2 offered an order—That His Honor the Mayor request the Park Commissioners to take immediate steps towards putting Wood Island Park in good condition for skating and that they keep it so during the rest of the season.

Referred to His Honor the Mayor.

PAYING OF CONDOR ST.

Mr. SIMPSON of Wd. 1 offered an order—That the Board of Estimate and Appor-

tionment be requested to provide in the next loan bill the sum of \$10,000 to be used in paving Condor St., Wd. 1, with granite blocks, from Meridian St. to Brooks St.
 Referred to the Board of Estimate and Apportionment.

—
FIRE ESCAPE FOR SCHOOLHOUSE.

Mr. SIMPSON offered an order—That the Board of Estimate and Apportionment be requested to include in the next loan bill \$2500, to provide the Chapman Schoolhouse, Wd. 1, with suitable means of escape in case of fire.
 Referred to the Board of Estimate and Apportionment.

—
MACADAMIZING OF PRINCETON ST.

Mr. SIMPSON offered an order—That the Board of Estimate and Apportionment be requested to include in the next loan bill the sum of \$10,000 to be used for macadamizing Princeton St., Wd. 1.
 Referred to the Board of Estimate and Apportionment.

—
HAND RAILS FOR TUNNEL.

Mr. ROLAND of Wd. 25 offered an order—That the Superintendent of Streets be requested, through His Honor the

Mayor, to provide suitable hand rails in centre of stairway at each entrance of the Franklin St. tunnel, Wd. 25, in addition to those on the side.
 Referred to His Honor the Mayor.

—
NUMBER OF BUILDING INSPECTORS.

Mr. CHAMBERLAIN, of Wd. 12, offered an order—That the Building Commissioner, through His Honor the Mayor, report to the Common Council on or before March 2, 1899, the number of men he employs as building inspectors under the authority of Chapter 8, Section 1, of the Revised Ordinances of 1898, and under what or by whose authority more than the legal number are employed.
 Referred to His Honor the Mayor.

—
PASSAGEWAY AT STOPPING PLACES.

Mr. LYDON of Wd. 13 offered an order—That the Boston Elevated Railway Company, through His Honor the Mayor, be requested to keep a passageway clear at their different "stopping places."
 Referred to His Honor the Mayor.
 Adjourned at 9:15 o'clock P.M., on motion of Mr. Turnbull of Wd. 4, to meet Thursday, Feb. 23, at 7:45 o'clock P.M.

CITY OF BOSTON.

Proceedings of the Board of Aldermen.

Monday, Feb. 20, 1899.

Regular meeting of the Board of Aldermen, held in the Aldermanic Chamber, City Hall, at 3 o'clock, P. M., Chairman Barry presiding. Absent—Ald. Berwin.

The Board voted, on motion of Ald. Colby, to dispense with the reading of the records of the last meeting.

VETO—CLOCK ON POST.

The following was received:

Mayor's Office, City Hall,
Boston, February 17, 1899.

To the Board of Aldermen:—

I return herewith my approval of the order authorizing erection of an iron post, surmounted by a clock, in the sidewalk in front of the estate No. 163 Tremont St., partly for the reason that there is already a similar clock upon this street not far from this point. It seems to me that permits of this character should be granted very sparingly, and only for locations where the convenience of the public will clearly be served and where the character of the street is not unsuitable for the purpose. Tremont St., in its present condition, should be preserved as one of the finest business streets in the city, and I do not believe that the city should permit it to be disfigured with clocks erected within the lines of the sidewalk—and chiefly for advertising purposes.

Respectfully submitted,

Josiah Quincy, Mayor.

The vote whereby leave was granted was reconsidered and the question came on granting permission, the Mayor's veto to the contrary notwithstanding. The Board refused to grant permission over the Mayor's veto, the vote being yeas 3, nays 8.

OPINION REGARDING TRACKS IN SOUTH BOSTON.

The following was received:—

Mayor's Office, City Hall,
Boston, Feb. 20, 1899.

To the Board of Aldermen:—

I enclose herewith a communication from the Superintendent of Streets, in reply to your order asking for a report as to "what right, if any, the American Sugar Refining Company has to use and operate railroad tracks in and upon First and Granite Sts., South Boston."

Respectfully submitted,

Josiah Quincy, Mayor.

Street Department, City Hall.

Boston, Feb. 20, 1899.

Hon. Josiah Quincy, Mayor.

Sir:—In accordance with the inclosed order of the Board of Aldermen inquiring "what right, if any, the American Sugar Refining Company has to operate and use railroad tracks in and upon First and Granite Sts., South Boston," I beg to inclose copy of opinion received from the Corporation Counsel.

Yours very respectfully,

Benjamin W. Wells,

Supt. of Streets.

City of Boston, Law Department, Tremont Building, 73 Tremont Street, Rooms 730-741.

Boston, February 13th, 1899.

Benjamin W. Wells, Esq., Superintendent of Streets.

Dear Sir:—I am informed that the tracks spoken of in the within communications are held by the American Sugar Refining Company, as they claim, by virtue of an assignment from the Standard Sugar Refinery. If this is all the right they have

to maintain and operate said tracks, I think they have no legal right to maintain and operate the same. Respectfully,

(Signed) Andrew J. Bailey,

Corporation Counsel.

Referred to the Committee on Public Improvements, on motion of Ald. O'Toole.

HEARING ON EAST BOSTON TUNNEL.

The following was received:—

Mayor's Office, City Hall,
Boston, February 20, 1899.

To the Board of Aldermen:—

I transmit herewith a communication from the City Solicitor in relation to the order passed at your last meeting requesting him to secure a hearing by the court on the petition for an injunction against the construction of the proposed tunnel to East Boston. Respectfully,

Josiah Quincy, Mayor.

City of Boston, Law Department,

Boston, Feb. 20, 1899.

Hon. Josiah Quincy, Mayor.—

Dear Sir: I return herewith the request of the Board of Aldermen. On motion made to the Court last week the bill in equity brought by Causten Browne and others to restrain the building of the tunnel to East Boston has been set down for a hearing this week.

It will probably be heard Thursday or Friday. Very respectfully,

Thomas M. Babson, City Solicitor.

Placed on file.

HEARINGS AT 3 O'CLOCK.

1. On petition of Frank Lally, for leave to project one bay window over the corner of Bennington and Putnam Sts., from building, 153 Putnam St., Wd. 1.

2. On petition of the Boston Electric Light Company, for leave to erect three poles in Washington St., between Ruggles and Vernon Sts.

No objections. Severally referred to the Committee on Building Dept. (Ald.).

On petitions of the New England Telephone and Telegraph Company of Massachusetts, viz:—

3. For leave to erect poles in Melville Ave., Wd. 20, Salem St., Wd. 5, St. John and Rockview Sts., Wd. 22, and for leave to erect and to remove one pole in Washington St., Wd. 20.

Mr. B. B. Whittemore, representing residents on Melville Av., appeared and objected to the granting of the petition on the ground that the erection of poles would render the street unsightly and injure the property. It was a beautiful street and the residents of it wished to keep it so.

Messrs. Edward C. Wheeler, William L. Terhune, Frank W. Whitcher, Edward S. Farwell, James Smith and Lewis S. Adams, all residing on Melville Av., also objected. Recommended to the Committee on Electric Wires.

4. For leave to erect and to remove one pole on Forest Hills St., Wd. 23.

No objections. Recommended to the Committee on Electric Wires.

5. For leave to erect poles in Chester St. and Farrington Av., Wd. 25.

Mr. William M. Farrington, residing on Farrington Av., appeared for the residents on said avenue and objected to the granting of the location on the ground that it would render the street unsightly.

Recommended to the Committee on Electric Wires.

6. For leave to lay and maintain underground conduits, etc., in Bay State road, Minot and Anderson Sts.

No objections. Recommended to the Committee on Electric Wires.

PETITIONS REFERRED.

The following petitions were received and were referred to the committees named, when appointed, viz:

Building Dept. (Ald.).

Petitions for leave to project signs, etc., viz:

New Broom Company, 55 Fulton St., Wd.

6. J. E. Peckham & Co., 35 Hartford St., Wd. 7.

William H. Crone, an illuminated sign, at 18 Hanover St., Wd. 6.

Qung Lee, for leave to project a sign at 109 Cambridge St., Wd. 4.

Building Dept.

Collas, Whitman & Co. Limited, for leave to build a wooden addition on wharf rear 329 Marginal St., Wd. 2.

Claims

Augusta A. Way, for payment of balance remaining from tax sale of estate 161 Morris St. Wd. 1.

Thomas B. Wells, for compensation for damage to estate 2 Hammond Ave., Wd. 8, caused by an excavation.

Washington Press, for compensation for damage to estate 18 Essex St., caused by the bursting of a water main.

Armstrong Transfer Express Company, to be paid for damage to one of its coaches caused by one of the teams of the city.

J. B. Foster, to be paid for personal injuries caused by a defect in Gibson, Dorchester.

John B. Martin, et al., executors, to be refunded a part of the amount of a liquor license paid for by Patrick Raftery, deceased.

Electric Wires.

Petitions of The N. E. Tel. & Tel. Co., of Mass., viz:

For leave to erect and to remove one pole in E. Second St., Wd. 14.

For leave to remove six poles in Providence St., Wd. 11.

Licenses.

Edwin Read, manager, for a license for a biograph and an exhibition of paintings in store 170 Tremont St., for the season ending August 1, 1899.

Public Improvements.

I. Mandlstein, for leave to box a tree at 126 Sumner St., Wd. 2.

Bay State Real Estate Association, for leave to construct an area in sidewalk at 36 North St., Wd. 6.

LEAVE GRANTED ON PETITIONS.

Ald. COLBY submitted the petition of the Bay State Real Estate Association for leave to locate basement floor of building 36 North St., at grade 5.

The rules were suspended, on motion of Ald. Colby, and leave was granted on the usual conditions.

Ald. PRESHO submitted the petition of Silas and Peter Coluci, for leave to project four barber poles at 4 Chelsea St., Wd. 5.

The rules were suspended, on motion of Ald. Presho, and leave granted on the usual conditions.

Ald. O'TOOLE submitted the petition of Ryder & Brooks, for leave to project an illuminated sign at 12 Essex St., Wd. 7.

The rules were suspended, on motion of Ald. O'Toole, and leave was granted on the usual conditions.

PETITIONS PRESENTED.

Ald. McDONALD presented the following petitions for signs, viz:—

J. H. Carlton, V sign, 103-5 Blackstone St., Wd. 6.

Mrs. M. G. Weber, four V shaped signs, 37 Temple Pl., Wd. 7.

John N. Rieger & Co., V shaped sign, 36 Pleasant St., Wd. 7.

Beacon Lunch Co., illuminated sign, 7 Charles St., Wd. 11.

Dr. H. C. Edwards, two tablet signs, 15 Temple Pl., Wd. 7.

M. P. Sadler, sign, corner Washington and Bowdoin Sts., Wd. 20.

Ald. McDONALD moved a suspension of the rule, that leave might be granted.

Ald. DIXON—That should go to the Committee on Building Department, shouldn't it?

The CHAIRMAN—The Chair will say that is the committee they would usually go to.

Ald. McDONALD—Mr. Chairman, my reason for asking a suspension of the rule, that the petition may be granted, is the fact that this gentleman is a sign painter located on the avenue, and he has been waiting since the first of January in order to put out these signs. As there has been no committee on Building Department appointed, it seems too bad that this gentleman should be obliged to wait until the Committee is appointed before he goes to work. That is the only reason why I ask that the prayer of the petition be granted at this time.

Ald. DIXON—Mr. Chairman, there is a joint committee of both branches of the City Government, I don't see why that committee should not consider the matter.

Ald. McDONALD—Mr. Chairman, I withdraw my motion and move reference of the matter to the Committee on Public Improvements.

The petition was referred to the Committee on Public Improvements.

PAPERS FROM COMMON COUNCIL.

7. Message of the Mayor transmitting order passed by the Board of Estimate and Apportionment, viz:

Ordered, That the sum of fifty thousand (50,000) dollars be appropriated for rebuilding the draw and reconstructing the present Malden bridge, at a width of not less than fifty (50) feet, such work to be completed during the year 1899; and that the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city, payable in ten years from their date, to said amount for said purpose.

Referred to the Committee on Public Improvements, on motion of Ald. Presho.

8. Message of the Mayor transmitting order passed by the Board of Estimate and Apportionment, viz:—

Ordered, That the sum of (A) twenty-three thousand (23,000) dollars (B) be appropriated, to be expended by the Engineering Department to meet the expense of the electric lighting, heating, plumbing, painting and plastering work on Faneuil Hall, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds of the city to said amount for said purpose.

The foregoing order was altered by the Common Council February 16, by striking out the words and figures between (A) and (B) and inserting instead the words and figures "fifteen thousand (15,000) dollars."

Referred to the Committee on Public Improvements on motion of Ald. Codman.

9. Ordered, That coasting privilege be granted on West Fifth St., from Dorchester St. to E St., between the hours of 7 P.M. and 10 P.M., subject to the regulations of the Board of Police.

The CHAIRMAN—The Chair would suggest that that order go to the Committee on Public Improvements. The Common Council has no right to pass orders of that kind. If this is referred to the Committee on Public Improvements, that committee can, if it is considered necessary, bring in a new order.

The order was referred to the Committee on Public Improvements.

10. Ordered, That His Honor the Mayor be requested to draw a sum sufficient from the Reserved Fund to make good the deficit now existing in the Fire Department appropriation, so that the wages of the members of the Fire Department may be restored to the 1898 rate.

Indefinitely postponed, on motion of Ald. Adams. Notice sent down.

11. Ordered, That the Board of Estimate and Apportionment be requested to in-

clude in the next loan bill a sum sufficient to construct and maintain a public convenience station at Roxbury Crossing.

Passed in concurrence.

The three following orders came up for reference in concurrence to the Board of Estimate and Apportionment:—

12. Ordered, That the Board of Estimate and Apportionment be requested to include in the next loan bill twenty-five hundred (\$2500) dollars to provide the Chapman Schoolhouse, Wd. 1, with suitable means of escape in case of fire.

The question came on the passage of the order in concurrence.

Ald. DAY—Mr. Chairman, I don't know what that order means. The Chapman Schoolhouse is in my district. I went there this morning, went up to the top of the building, and saw the fire escapes. There are five fire escapes on that building, and they seem to be in perfect working order. I propose to introduce later an order that will cover that, anyway. If passed it will do away with the necessity for anything of this kind; and, until I can get some information as to what this means, I move its reference to the Committee on Public Improvements.

The order was referred to the Committee on Public Improvements.

The Board voted, on motion of Ald. Presho, to consider Nos. 13 and 14, together, viz:

13. Ordered, That the Board of Estimate and Apportionment be requested to include in the next loan bill the sum of ten thousand (10,000) dollars to be used for macadamizing Princeton St., Wd 1.

14. Ordered, That the Board of Estimate and Apportionment be requested to provide in the next loan bill the sum of ten thousand (10,000) dollars to be used in paving Conder St., Wd. 1, with granite blocks, from Meridian St. to Brooks St.

Referred to the Board of Estimate and Apportionment in concurrence.

15. The minority report of the Committee on Joint Rules and Orders, which was accepted in place of the report of the majority, and the Rules and Orders, as recommended by said minority report, which was adopted in place of those recommended by the majority, and sent down for concurrence February 13, comes up endorsed: "In Common Council, February 16, 1899. Non-concurred and adhered to former action."

Referred to the Committee on Public Improvements, on motion of Ald. O'Toole.

POLES ON MOULTRIE AVE.

The Board proceeded to take up No. 16, unfinished business, viz:

16. Order granting the New England Telephone and Telegraph Company of Massachusetts permission to erect three poles in Moultrie Ave., Wd. 20.

Ald. DOYLE—Mr. Chairman, after investigating this matter I find that Moultrie Av. is a private way. Consequently I believe the Board has no jurisdiction in the matter. I therefore move that the order be rejected.

The order was rejected.

INFORMATION FROM TRANSIT COMMISSION.

The Board proceeded to take up No. 17, special assignment, viz:

17. Communication from the Boston Transit Commission giving reasons why work has not been commenced on the tunnel to East Boston. (Doc. 53.)

Ald. DAY—Mr. Chairman, that communication from the Transit Commission is not satisfactory to me, nor is it satisfactory to the people of East Boston. It is true that the Commissioners answer plainly and explicitly the question this board asked them, but in doing so they have written themselves down as hostile to the East Boston tunnel. They have stopped work on this tunnel, work that the Legislature ordered them to do. The act of the Legislature was mandatory and they had no discretion in the matter at all,

and the only reason why they stopped was because certain parties petitioned for a hearing in connection with an attempted injunction against the tunnel. There has been no injunction granted, no hearing has been held, the date for a hearing has not even been set; and yet they have stopped work in this manner.

When the sewer appropriation came before this board it was suggested here that there were proceedings in the court that might render that illegal, but this board went along and paid no attention to proceedings in the court. We did what the legislature gave us the power to do and left the court to take care of itself. In this case it seems to me that the Transit Commission ought to have done its work, and if they had gone ahead building the tunnel there could have been a temporary injunction granted and they would have had to stop them. But what we object to is their stopping when there was no need of it, when they had full power and authority to proceed until the court did act in the matter. Now, it is pretty generally conceded that all law is made for the protection of property. In old times property used to be protected by force of arms. That was too expensive and dangerous, so people then resorted to trial by jury. That has since been continually improving. But it seems to me this is going a step too far, because these people stopped working on this tunnel under authority given them by the legislature simply because a certain association asks for a hearing. Without giving any reasons at all, they stopped and shut us out from the benefits of rapid transit. The association that petitions for the hearing is organized, apparently, for the purpose of hiring a very able gentleman to oppose anything that East Boston wants. We don't know when this hearing is to be granted, and in the meantime the people of East Boston are to lose the benefit intended to accrue from the Act as completely as if an injunction had been issued. The work has been stopped. It may be possible that the hearing will be delayed so long that there will not be an East Boston man in the speaker's chair at the Legislature, and then it will be a good deal easier to substitute "may" for "shall" in that bill, shutting out the people of East Boston from the benefits of rapid transit. Every other section is getting some benefit in that direction today. But they have denied us entrance into the subway, have taken up the tracks on Tremont St., and are now trying to prevent us from having a tunnel. They are not using us fairly in this matter. I know this Board cannot do anything in the matter, and I am sorry that it cannot. We have asked the Mayor, through the City Solicitor, to push for a hearing on the matter—that is all we want. If a hearing is given, we don't think any reason can be shown for granting an injunction. I know the members of the Board are in favor of the East Boston tunnel, to benefit the people of East Boston, and I am only sorry that we have no jurisdiction in the matter. I am perfectly satisfied to let the communication take the usual course.

The communication was placed on file.

CLERK HIRE.

A communication was received from Thomas F. Temple, Register of Deeds, in accordance with the provisions of sec. 2, chap. 493 of the Acts of 1895, certifying that certain persons had been employed in his office, that the work had been performed, and that the same was necessary to the amount of \$1807.71.

Approved by the Board.

CHANGES IN NAMES OF STREETS.

Communications were received from the Board of Street Commissioners, notifying the Board of Aldermen that, subject to its approval, orders were passed changing the names of the following streets:—

(1) Dalmatia St., leading in extension of Woodcliff St., from Howard Ave. to Blue Hill Ave., to be changed to Woodcliff St.

(2) The ways known as Hunneman St., Yeoman St. and Norfolk Ave., in Roxbury and Dorchester, forming a continuous thoroughfare from Washington St. in Roxbury to East Cottage St. in Dorchester. be changed to Franconia St.

Severally laid over under the rules.

EXTENSION OF DORCHESTER LINE.

Ald. McDONALD offered an order—That the Boston Elevated Railway Company be requested to continue its Dorchester line of tracks on Washington St., Wd. 20, to Dorchester Lower Mills.

Referred to the Committee on Railroads.

HEARING ON REPAVING "DOWNTOWN" STREETS.

Ald. DIXON offered an order—That the Board of Estimate and Apportionment be hereby requested to appoint a time and place, and duly advertise the same, for a hearing of persons interested, relative to repaving the streets in the business section of the city.

EDGESTONE ASSESSMENT RE-SCINDED.

Ald. DOYLE offered an order—That so much of the order of the Board of Aldermen, approved December 28, 1898, as levied an edgestone assessment of \$218.65 against St. Philip's church, on East Lenox St., be, and the same is hereby, rescinded. Passed, under a suspension of the rule.

REMOVAL OF ICE AND SNOW.

Ald. DOYLE offered an order—That the Superintendent of Streets be requested to have the snow and ice removed from the sidewalks surrounding Blackstone and Franklin Sqs. Passed.

BUILDING OF CHAPMAN SCHOOL.

Ald. DAY offered an order—That the School Committee be requested to remodel the Chapman school building and to add a six room wing to it, also to widen the corridors, rebuild the stairs, provide suitable sanitariums for the boys and install a system of heating and ventilation and report their opinion to this Board at their earliest convenience.

Ald. DAY—Mr. Chairman, that is a very important matter, and I would like to say just a few words, in order to call public attention to it. In that district there are 250 children who are housed in hired buildings, in quarters not intended for school rooms. I am familiar with the school, am a graduate of the school and my parents before me, and I have two children in that school today. I have been up there and investigated the schoolhouse and know just the condition it is in. They need six more rooms there; the building should be remodeled; the corridors should be widened, being very narrow. I stood there today and watched the children as they filed out, and certainly if a fire occurred there, a great many children would be hurt. With a large mass of pushing and struggling children in that corridor, under the influence of excitement, it is unavoidable that a great many would be hurt and perhaps killed. Whenever a man walks down those stairs they shake. They have already dropped two inches on one side. They are not safe for a class of heavy boys to go over. The sanitary for the boys is simply disgraceful and a nuisance to the whole neighborhood. The flow from the sanitary is one and one half feet from the bottom, and a foot and a half of filth stays there and is not cleaned out more than once a year. It is not a fit condition of things to allow to remain in that

school. The ventilation is very bad, old-fashioned, the ventilation not having been changed for a great many years. The teachers are obliged to open the windows, and I have had my own children catch cold there. I don't blame the teachers—they have to open the windows, to get fresh air, and the result is a draft and a great many children are catching cold in that way. The heating apparatus is very old, much of it having been there for twenty years. In the last snowstorm the janitor got there at two o'clock in the morning, and at nine o'clock he got the place heated to only fifty degrees, so that the pupils had to be sent home. A committee of the School Committee in 1894 said that these things were needed, and it would seem that, if public attention is called to the matter and they will only investigate it, they will see that the present state of affairs is remedied. The order was passed. Sent down.

RAILROADS—ORDERS OF NOTICE.

Ald. DIXON, for the Committee on Railroads, submitted reports on petitions (severally referred Feb. 6), of Newton & Boston and Newtonville & Watertown Street Railway Companies, for locations for tracks and overhead electric system—Recommending the passage of orders of notice for hearings thereon on Monday, March 13, at 3 o'clock P.M., when any parties objecting thereto may appear and be heard. Reports accepted; orders of notice passed.

LICENSES.

Ald. COLBY, for the Committee on Licenses, submitted reports recommending that minors' licenses be granted to 19 newsboys and 1 bootblack. Approved by the Board.

WARD ROOM, WARD ONE.

Ald. DAY offered an order—That the Board of Estimate and Apportionment provide in the next loan bill the sum of \$20,000 for a ward room in Wd. 1, and that they also be requested to give a special hearing on the same.

Referred to the Board of Estimate and Apportionment.

RECESS TAKEN.

The Board voted at 3:50 o'clock P.M., on motion of Ald. Dixon, to take a recess subject to the call of the Chairman.

The members of the Board reassembled in the Aldermanic Chamber and were called to order at 5:12 o'clock P.M., by the Chairman.

PUBLIC IMPROVEMENTS.

Ald. O'TOOLE, for the Committee on Public Improvements, submitted the following:—

(1) Report on the order (referred Feb. 13), that coasting be allowed on West Fifth St.—that the same ought to be passed in concurrence.

Report accepted; order passed in concurrence.

(2) Report on the report of the Committee on Joint Rules and Orders of the City Council (referred today)—recommending that the said report be recommitted to the said joint committee.

Report accepted; said reference ordered.

(3) Report on the order (referred today) passed by the Board of Estimate and Apportionment on Feb. 9th, appropriating \$50,000 for rebuilding the draw and reconstructing the present Malden bridge—recommending the passage of the same in concurrence with the Common Council and the Board of Apportionment.

Report accepted; said order passed in concurrence.

(4) Report on the order (referred today)

passed by the Board of Estimate and Apportionment on January 24th, appropriating \$23,000 for electric lighting, heating, plumbing, painting and plastering work on Faneuil Hall—recommending the passage of the order, as amended by the Common Council (by reducing the amount to \$15,000).

Report accepted; said order passed, as amended, in concurrence with the Common Council.

(5) Report on the petition of the Bay State Real Estate Association (referred today), recommending the passage of the following:—

Ordered, That the Superintendent of Streets be authorized to issue a permit to the Bay State Real Estate Association to construct, maintain, and use an area 18 feet by 7½ feet with sidewalk light covers, under and in the sidewalk in front of estate No. 36 North St. as shown on a plan dated Feb. 10, 1899, on file in the permit Office of the Street Department; the work to be completed on or before July 1, 1899, according to the terms and conditions expressed in the ordinances of the city relating thereto.

Report accepted; order passed.

(6) Reports (on petitions referred today) recommending that leave be granted to project signs, as follows:

M. P. Sadler, at corner Washington and Bowdoin Sts., Wd 20.

Dr. H. C. Edwards, 2 tablet signs, at 14 Temple Pl., Wd 7.

Beacon Luncheon Co., an illuminated sign, at 7 Charles St., Wd 11.

John A. Reiger & Co., a V-shaped sign, at 36 Pleasant St., Wd. 7.

Mrs. M. G. Weber, 4 V-shaped signs, at 37 Temple Pl., Wd. 7.

J. H. Carlton, a V-shaped sign, at 103-105 Blackstone St., Wd. 6.

Reports severally accepted; leave granted on the usual conditions.

(7) Report on the petition of J. Mendlestein (referred today), for leave to box a tree at 126 Sumner St., East Boston—Recommending that the petitioner have leave to withdraw.

Report accepted.

ELECTRIC WIRES—ORDER OF NOTICE

Ald. DOYLE, for the Committee on Electric Wires, submitted a report on the petition of the New England Tel. & Tel. Co. of Mass. (referred today), for leave to erect and to remove one pole in East Second St., Wd. 14—Recommending the passage of an order of notice for a hearing thereon on Monday, Feb. 27th, at 3 o'clock P. M., when any parties objecting thereto may appear and be heard.

Report accepted; order of notice passed.

BOARD OF APPORTIONMENT ACT.

Ald. PRESCHO offered the following:—Resolved, That in the opinion of this Board Chapter 434 of the Acts of the year 1898 entitled "An Act relative to the finances of the city of Boston," otherwise known as the Board of Estimate and Apportionment Act, should be repealed.

Ald. PRESCHO—Mr. Chairman, I offer this resolution not in any partisan spirit, but for the best interest of the city as I conceive it, according to my own light. It was well known here last year that both republicans and democrats in this Board united and went to the Legislature to oppose the passage of this act. I believe this act belongs to that class of legislation known as special legislation. I have now been in the hall going on six years, and I have seen a great many acts of this kind advocated at the State House, simply because some Mayor wants to do something. I don't care whether the Mayor is a republican or a democrat—he will go to the Legislature and ask for one of these special acts. I don't believe these acts should be passed so readily by the Legislature. I believe the referendum should be applied to all acts affecting any great principle of government in the city of Boston. The great curse of American

legislation, especially legislation by the States, is the great number of special acts that are passed and that is the great argument that has carried biennial sessions in a great many States. This is distinctly a special act—an act giving into the hands of the Mayor of Boston, to a certain degree, all the financial power. It robs that power from the popular branches of the city government. Here we have 12 aldermen elected at large and three councilmen from each ward, a popular representation, and what have they to do? Practically nothing. They have no power to increase items of appropriation; they can simply reject or strike out. Under the provisions of the act, the Mayor practically shapes the action of the Board of Apportionment. He has practical control, and a shrewd mayor holds the situation in his own hands. He is enabled to get control of the City Government, so as to carry out his own ideas. I believe that is contrary to the best principles of government. The people should have a chance to express their opinion, and how are they going to do it if the members of the popular branch have nothing to say about it? What have we to say this year? Simply nothing. I don't say it of Mayor Quincy especially, but this is the only instance where we have had an opportunity of judging of the effect of the act. Here is a budget brought in this year by the Mayor, and before the bill is passed he has been obliged to reverse his policy. He started in with a salary cut, and he comes in at the last meeting of the Board and acknowledges that he will allow the old pay of the firemen to stand, practically reversing his policy. Now, I have never seen anything of that kind in connection with any budget brought in by any appropriation committee since I have been a member of the Board. I believe the Legislature, in enacting this legislation, turns back upon its own principles. During the last two or three years the tendency has been, in connection with any legislation of this kind, to recognize the minority.

The legislature of Massachusetts has acknowledged the minority principle in a great many charters. I don't believe there has been a charter granted by the legislature in the last ten years that has not had some provision for minority representation—just as we have one feature of it in our method of electing the Board of Aldermen. But in this Board of Apportionment the minority have no rights. Of course, I am a republican and it perhaps grinds me this year, but I am speaking without any partisan bias, as we spoke together last year without any partisan bias, and I say it is a wrong principle. I believe the minority should have something to say. Here is a fairly strong minority in this government, not represented in this board. Of course, in either branch, if party lines are drawn strictly, they can be completely crushed. That is a bad principle. If it were arranged in some way so that the minority had representation upon the Board of Apportionment, there might be some fairness about it, but, as it is, the whole thing is simply an instrument for the Mayor to carry out his will. He can direct things practically as he wants to. A shrewd mayor can direct things practically to suit himself. For instance, some year there will be a mayor who is not a father of the bill. Of course, the present mayor will smooth things over greatly, because he is the father of the bill and does not want to have any friction or anything brought up that will be against the bill, when the matter comes up tomorrow. But take some time when there is a mayor, an independent fellow, who has a strong party behind him, and he will say "I will have this thing done in such a way," and he will get one branch to hold up his budget until thirty days have expired, when it will go into effect without the sanction of the City Government. How does this minority come in then? I say

it is not a fair bill, and I have introduced this order feeling that there are some men at the State House who feel as I do. I simply wish to enter a protest from one of the popular branches of the City Government. We are a popular branch; we are elected by the people by just as direct and popular a vote as the Mayor is, and we ought to have something to say. Are we to sit here as figureheads doing nothing, our power disappearing from year to year, or shall we make a determined stand against the Board of Apportionment before the Legislature?

Ald. BRICK—Mr. Chairman, I move that that resolution be assigned to the next meeting.

The motion to assign was declared carried. Ald. Adams doubted the vote and called for the yeas and nays.

The Clerk called the roll, with the following result:—

Yeas—Ald. Barry, Brick, Day, Dixon, Doyle, McDonald—6.

Nays—Ald. Adams, Codman, Colby, O'Toole, Presho—5.

The CHAIRMAN—The Chair will say, for the information of members of the board, that in the absence of Ald. Berwin, at the request of Ald. Presho, I am to stand paired with Ald. Berwin. I will ask the clerk to withdraw my vote, and the vote will then stand 5 in the affirmative and 5 in the negative. The motion to assign is lost. The question comes on the passage of the resolution.

Ald. BRICK—Mr. Chairman, I hope the resolution will not pass at this time. Despite the assertion of the alderman from Charlestown, it does strike me that there is politics in this resolution, his disclaimer to the contrary, notwithstanding. This act has been passed, and whether for good or ill there has been very little trial to show. There are in other cities of this nation boards of apportionment, and they have had their trial. What its effect will be here we cannot tell, because we have had but two months of it. If the aldermen from Charlestown had intended to bring this subject up so as to throw some light on it, he might at least have given us some notice in the Committee on Public Improvements, where we would have had some opportunity to talk it over and discuss the question. While at this time I do not say that I favor the Board of Apportionment, I am reluctant to vote for their resolution without an opportunity to think the matter over more than I have been able to do up to the present time.

Ald. ADAMS—Mr. Chairman, I am surprised that the Alderman from Wd. 8 (Ald. Brick) should take the stand he has today on this matter. One or two meetings ago the gentleman who has just spoken introduced a resolution here asking for the relaying of the tracks on Tremont Street. Now, those tracks were removed by an act of the Legislature, and the same argument would apply to that particular matter as to this—that is, that the act had not had sufficient time to be tried to the satisfaction of the people of Boston. He spoke in favor of the repeal of the act, and his resolution was passed here by a unanimous vote. We ask here today to bring up precisely the same matter. We ask for a repeal of the Board of Apportionment act, because we believe the act will work a disadvantage to the citizens of Boston. There have been hearings held here this week before the Board of Apportionment, and I have heard members of all parties and beliefs, both republicans and democrats, condemn them and say they are a perfect farce, and that the Board of Apportionment under this act is an instrument working to the disadvantage of the whole city. We have certainly seen that we, as members of this Board, really have very little to do here under this act. We simply have an opportunity to act on a few minor matters. I believe this resolution should be passed at this

time. If it is to do any good at all before the Legislature it must be passed at once, as the matter is coming up.

Ald. COLBY—Mr. Chairman, while I am not at all clear as to what the outcome of the Board of Apportionment will be, I am not prepared to say that the act establishing that board should be absolutely repealed. The act as at present drawn is not in my opinion, working just as it should. For instance, the act was drawn at a time when it was believed that there would be a single chamber in the Government, and (here are certain things in reference to the act, looking at it from that point of view, which are not working well in connection with the two branches. Certainly, in my opinion, the bill should be amended; it should not be left in its present form. I am not, however, prepared at this time to go on record as saying I believe that the act itself should be repealed—for this reason; it is bad enough to have special legislation, but it is worse, it seems to me, to keep running up to the legislature at every session and continually doing things and then undoing them. This act, good or bad, is on the statute book, and I believe it should stand there until it has worked out some logical conclusion. While the alderman is perfectly right in saying that the effect of the act is to give the Mayor substantially absolute power, I am not so sure, under all the circumstances, but what it is just about as well that he should have the power given by the act. That is to say, the Mayor is elected as Mayor, and he, if anybody, is responsible for the financial policy of the city; and I am not so sure but what it ought to be fixed in some way so that there shall be no divided responsibility. If, at the end of the year the outcome is not what it should have been, the citizens will be able to look at the Mayor and say: "You have had this money in your charge, have handled it entirely, and we blame you and nobody else. If it is arranged so that the responsibility can be divided, then all the Mayor has to say is "Well, I wanted to do this and so, but I was prevented from doing it." While it is unfortunate for us who are in the minority that the Chief Magistrate of the city is not of our persuasion politically, I am not so sure but what it is about as well for us politically to allow him to have full swing, and then we can turn to him and say: "You are responsible, and no one else." I quite agree with the alderman in saying that the bill is not satisfactory in its present form. That statement I cheerfully subscribe to. But I cannot go on record now, at this early stage, as saying that I am in favor of a repeal of the act.

Ald. O'TOOLE—Mr. Chairman, I want to say a word on this matter. I voted last year with the other members of the Board unanimously in favor of going to the Legislature against the apportionment bill. I stand in that same position today. I believe it is about time that the members of the City Government of Boston should have some power. Now, I argue differently from my friend from Charlestown (Ald. Presho) and say that his party is responsible in the Legislature for this abominable act. It is immaterial who advocated the act before the Legislature—his party had the votes there. They put it through, and it then went on the statute books. I agree with Ald. Colby of Wd. 12 that perhaps certain amendments may be made to that apportionment board act that will better it; but, taking it all in all, I want to state my position as going on record against the apportionment act. I have every confidence in the gentlemen who make up that board. One of them has served in the state senate, has been in the Governor's council; has been in the Boston Board of Aldermen. He is acquainted with the finances of a municipality like this. Then there is on that

board a gentleman who was President of the Common Council for a great many years and who is chairman of this year's Board of Aldermen. He is acquainted with the finances of the city. Another gentleman on that board is a man of business, a man no doubt thoroughly conversant with financial questions. One of the members also is, the President of the Common Council of this year. I want to strike the bottom facts in regard to this bill, and I think it is about time, irrespective of politics, that democrats and republicans should stand on this floor and oppose by voice and vote any such act as this Apportionment Board act. It takes away all the powers of the city government—those of the upper and lower branches. The gentleman from Charlestown (Ald. Presho) has well said that both branches of the City Council have but little power. I strike back again and say that I am not interjecting politics into this matter when I say that his party is responsible for it. For years on Beacon Hill they have opposed certain measures pertaining to the betterment of the City Council, in the line of giving us more power. They have done just the opposite. I don't want to stand on this floor and say anything against the Mayor of Boston. I have been a strong advocate of the Mayor, and I have every confidence in his financial ability. I do want to say again, however, that I am emphatically against this Apportionment Board act, and I will vote in that way. The gentleman from Wd. 8 (Ald. Brick) has taken a certain ground in regard to it. I don't believe in being discourteous to any member of the Board. This is a large undertaking. Anything we may say today will have no influence. I will assure the gentleman from Charlestown, upon the Legislature, because we did this same thing last year prior to the matter being acted upon by the committee, and it had no influence whatever. As I understand, it was subsequently advocated by a full committee. I will now move reconsideration of the vote on assignment, trusting that it will prevail.

The motion to reconsider was declared carried. Ald. Codman doubted the vote and asked for the yeas and nays.

Reconsideration was carried, yeas 6, nays 4:—

Yeas—Ald. Brick, Day, Dixon, Doyle, McDonald, O'Toole—6.

Nays—Ald. Adams, Codman, Colby, Presho—4.

The CHAIRMAN—The question is on the passage of the resolve, and the Clerk will call the roll.

Ald. PRESHO—Mr. Chairman, I will ask if the question is not on assignment?

The CHAIRMAN—The motion to reconsider prevailed. The subject is now before the Board, and the question comes on the passage of the resolve.

Ald. O'TOOLE moved that the matter be assigned to the next meeting, which motion was carried, yeas 6, nays 4:—

Yeas—Ald. Brick, Day, Dixon, Doyle, McDonald, O'Toole—6.

Nays—Ald. Adams, Codman, Colby, Presho—4.

REMOVAL OF ELECTRIC LIGHT POLE.

Ald. O'TOOLE offered an order—That the Boston Electric Light Company be directed to remove the pole of said company located at the corner of Dudley and Washington Sts.

Passed, under a suspension of the rule.

ERECTION OF ELECTRIC LIGHTS.

Ald. ADAMS offered an order—That the Superintendent of Lamps be requested to place electric lamps at the following locations: One on Centre St., opposite Allston St.; one at Park St., opposite Greenbriar St.; one at corner of Greenbriar and Tonawanda Sts.; one at corner of Greenbriar and Bloomfield Sts.; one at corner

of Cushing Ave. and Sawyer Ave.; all in Wd. 20.

Passed, under a suspension of the rule.

FUNDS FOR NEEDED NEW SCHOOL-HOUSES.

Ald. ADAMS offered an order—That the Board of Estimate and Apportionment be requested to include in the next loan bill the additional amount asked for by the School Committee, to be used in the construction of additional new school buildings in those districts needing new school-houses.

Referred to the Board of Estimate and Apportionment.

SALARY OF FIREMEN.

Ald. CODMAN offered an order—That His Honor the Mayor be requested to instruct the Fire Commissioner to allow the men employed in the department the amount of salary which they lost in the period between the reduction of their salaries and their restoration.

Passed. Sent down.

CARS TO STOP AT UPTON STREET.

Ald. COLBY offered an order—That the Boston Elevated Railway Company be requested to make a stopping place for their cars at the corner of Upton and Tremont Sts., Wd. 9.

Passed.

CARLETON ST. FIRE.

Ald. COLBY offered an order—That the Fire Commissioner be requested, through His Honor the Mayor, if he deem it advisable, to extend thanks for the citizens of Boston and the fire department to W. D. Ross, an engineer on the New York, New Haven & Hartford Railroad, for his prompt action in giving the alarm and his efficient assistance at the recent Carleton St. fire.

Ald. COLBY offered an order—That the Fire Commissioner, through His Honor the Mayor, be requested to place fire-alarm box No. 98, corner of Columbus and Massachusetts Aves, on a lamp-post with a red signal light.

Ald. COLBY—Mr. Chairman, probably the members of the Board, through the press this morning, saw about a very serious affair in a residential neighborhood of the ward in which I live. It was stated in the papers that the fire was on Claremont Park. As a matter of fact, it was on Carleton St. The name of that street must have a familiar sound to those who have been in the City Government in the past and who have known about various items for Carleton St. which have been proposed in several loan bills. The Carleton St. question is also being considered by this year's Board of Estimate and Apportionment. As a matter of fact, this private way is in a very serious condition, and the fact that the engines could not get through the street assisted in the direful results of the fire. A word of reference to the fire box there may not be out of place. I think at most of the corners at the South End where the boxes have been placed, a lamp post surmounted with a red signal has been used. But it so happens that the one in this district has not been changed; and it is on the lee side of a very large pole or stick of timber, almost hidden from view from three-quarters of the horizon. There was considerable delay by reason of nobody being able to find the box and ring in the alarm. As far as thanks to the railroad engineer are concerned, while I suppose it is the duty of every good citizen who sees a fire to give the alarm, as a matter of fact this engineer, when going through there, saw the light and stopped the train, although it was a good ways above when it stopped, and he succeeded in making such a noise with the bell and whistle on the locomotive that he aroused the whole neighborhood. He then got off his engine and

climbed over the fence and got at the fire in good shape. I think when anybody does as much as he does he is entitled to recognition at the hands of the Fire Commissioner.

The orders were passed.
Sent down.
Adjourned at 5:45 P.M., on motion of Ald. Brick, to meet on Monday, Feb. 27, at 3 P.M.

CITY OF BOSTON.

Proceedings of the Common Council.

Thursday, February 23, 1899.

Regular meeting of the Common Council, held in the Council Chamber, City Hall, at 7.45 o'clock P. M., President Killey in the chair.

LIST OF CITY EMPLOYEES.

The following was received:—

Mayor's Office, City Hall, Boston.
February, 23, 1899.

To the City Council:—

I transmit herewith for your information, and with the suggestion that the same be printed as a document, a classified statement of the number, designation and salary of officers and employees of the different departments, not including mechanics and laborers.

Respectfully submitted,

Josiah Quincy, Mayor.

(Annexed was the list referred to.)

Ordered printed, and assigned to the next meeting, on motion of Mr. Chamberlain of Wd. 12.

LEAVE OF ABSENCE FOR POLICEMEN.

The following was received:—

Mayor's Office, City Hall, Boston.
February, 23, 1899.

To the Common Council:

I transmit herewith a communication from the Board of Police in regard to your order requesting the Board to so amend its regulations as to permit two (2) days leave of absence a month, without loss of pay, to each member of the Police Department.

Respectfully yours,

Josiah Quincy, Mayor.

City of Boston, Police Department.

Office of the Board of Police.

February 21, 1899.

Hon. Josiah Quincy, Mayor of Boston.—

Dear Sir: The Board of Police is in receipt of an order passed by the Honorable Common Council, requesting this department to amend its regulations so as to permit two days leave of absence a month to each member of said department without loss of pay.

In reply, would say: The Board has given this matter careful consideration and finds that it would be impossible to comply with this order without great detriment to the efficiency of the department, or, adding very largely to its annual expenditure.

There are now 1129 officers of all grades in the police department, and if the provisions of this order were carried out, allowing 24 days leave of absence for each man and maintaining the same standard of efficiency by increasing the number of men in the department, as we should necessarily be obliged to do, it would cost \$31,440 per annum. This, in addition to the ordinary absentees on account of sickness and leave of absence, which would average to number about 50 men per day, would cripple the efficiency of the department unless some provision were made to increase the number of men on duty.

Notwithstanding the increase in the number of patrolmen during the past few years, there is a constant demand for more police officers, not only for ordinary patrol duty, but for special work such as protection for street crossing and other special details.

In view of these facts the Board does not see how it would be justified in complying with the request made in this order of the Common Council.

Very respectfully,

A. P. Martin, Chairman.

Mr. WATSON of Wd. 18—Mr. President, in view of the fact that the councilman who offered the order is not present, I move that the communication be printed and assigned to the next meeting.

The motion was carried.

ELEVATOR ACCIDENT.

The following was received:—

Mayor's Office, City Hall,
Feb. 23, 1899.

To the City Council:—

The unfortunate and alarming accident occasioned by the falling of one of the elevators in City Hall on February 16th, was at once made the subject of investigation by the City Engineer, at my direction, and also by the Building Department in the course of the regular performance of its duties. I now transmit herewith, for your information, communications from the City Engineer, from the Building Commissioner, and from the Whittier Machine Company, which had inspected the elevator.

Respectfully submitted,

Josiah Quincy, Mayor.

City of Boston.

Engineering Department, 50 City Hall.

Feb. 20th, 1899.

Hon. Josiah Quincy, Mayor.

Sir:—In compliance with your request an examination has been made of the westerly elevator in the City Hall and its appurtenances, which were wrecked on Thursday, Feb. 16th last, and I find that the piston rod, the cross head and the travelling sheave yoke connected with the same are broken, and the sheaves pulled toward the elevator well by the ropes connected to the car. In my opinion the fall of the car was caused by the breaking of the piston rod cross head and connecting yoke.

Yours respectfully,

William Jackson, City Engineer.

Whittier Machine Company, Elevators.

Boston, Feb. 17th, 1899.

Mr. William Jackson, City Engineer, City Hall, Boston.

Dear Sir:—At the request of City Architect, Mr. Howard, we have examined the west elevator at City Hall Building, with a view to ascertaining the cause of the recent accident. We are of the opinion the accident was caused by the breaking of the connection between the piston and the yoke carrying the travelling sheaves. The break occurred at the end nearest the sheaves. There are indications of a slight fracture, but it is impossible to say what caused it. The safety apparatus on the car failed to operate from the fact that the hoisting ropes were taut during the descent of the car. The car was found about 8 inches from its lowest position and the safeties set, thereby holding the car firmly in this position. We can account for this from the fact that when the car struck the buffers at the bottom of the wellway it rebounded, thereby slacking the hoisting ropes and allowing the safeties to operate.

Yours truly,
H. P. King, Treasurer.

City of Boston—Building Department.

Office of the Building Commissioner.

Old Court House, Feb. 23, 1899.

Hon. Josiah Quincy, Mayor.

Sir:—I enclose herewith for your information, the report made to me by three of the building inspectors of this Department in respect to the elevator accident which occurred at City Hall on Feb. 16th.

Respectfully,

John S. Damrell,

Building Commissioner.

City of Boston—Building Department.

Office of the Building Commissioner.

Old Court House, Feb. 17, 1899.

John S. Damrell, Esq., Building Commissioner.

Dear Sir:—In compliance with your instruction, the undersigned have invest-

igated the accidental fall of the westerly elevator in City Hall, on Thursday afternoon last, and beg leave to submit the following report:—

The hoisting machinery is located in the basement of the building, and is operated by hydraulic power, supplied from tank pressure. The apparatus consists of a horizontal cast-iron cylinder, nine feet in length and twenty-six inches internal diameter, within which a piston is actuated by a flow of water that is regulated by the movement of a rope inside the passenger car. The piston is attached by means of a hollow cast-iron tube, seven inches external, and six inches internal, diameter, to traveling sheaves carrying four metallic cables $\frac{5}{8}$ in. diameter, to which the car is suspended. The tube or piston rod is connected with the sheaves by means of a yoke or cross head that serves to maintain the sheaves in position and to communicate motion. This apparatus raises the car by a pulling force upon the cables that are set in motion by the application of water within the cylinder which forces the piston outward and causes a force to be exerted by means of the piston rod against the sheaves, which are thus given a horizontal movement, each sheave at the same time revolving independently and thus drawing the cables over stationary pulleys located overhead in the elevator shaft, and raising the car to the height desired. The descent is accomplished by gravity when the valve is opened to allow the escape of water from the cylinder, the column of water in which cylinder supports the car and permits its stoppage whenever the valve is closed.

At the time the accident occurred the elevator was ascending and had nearly reached the second landing. It contained six passengers, besides the operator, all of whom were injured and several quite severely.

The operator reports that he noticed no difference in the action of the car until it began to fall. It fell a distance of about thirty feet, and is apparently uninjured, except that the glass windows and chandelier are broken. The piston rod is broken at a point near the cross head, which also is broken and detached. The broken end of the piston rod rests upon the concrete floor and the other end is partially torn from the piston head. The movable sheaves were forced against the end of the cylinder, which they must have struck with some power, for the flanges are broken and they are thrown out of line. It is evident that the car began to fall when the ruptured piston rod no longer held the sheaves in place. Their freedom from the supporting column of water in the cylinder left nothing to prevent the fall of the car, the weight of which caused the cables to unwind.

We find that the car is provided with a safety appliance that is not carried into action except by a slackening or breakage of the cables. In this instance, however, the weight of the falling car maintained the cables taut, and thus prevented the engagement of the safety device. That this apparatus is in good condition is manifest from the fact that the car is now held by the safety appliance, having rebounded when it reached the limit of descent and thus slackened the cables which no longer prevented the engagement of the said appliance.

It seems reasonable to infer that the speed of the falling car was somewhat checked before it completed the descent, the cables having become caught upon the broken and ragged end of the piston rod, which was forced outward so as to bring a restraining force into operation by means of the entangled cables. This is conjectural, but in this singular case conclusions must be reached by inference and conjecture. The cause of the accident itself must forever remain in doubt, al-

though it is quite apparent that it is attributable to a well defined flaw in the metal comprising the piston rod, at the point of fracture. It can never be certainly determined that the initial rupture was where the flaw exists, but presuming that the derangement first occurred at this point of weakness, it is not difficult to account for what followed, while upon any other theory the conditions cannot so easily be explained, even if they admit of explanation.

The imperfection to which the accident may be attributable extends for several inches lengthwise of the piston rod and inward to a depth of from $\frac{1}{8}$ in. to $\frac{1}{4}$ in., or half through the shell of the tube. Parts of the metal seem porous and structurally weak, without texture or cohesive strength, and from a superficial examination it can be determined that the quality of the iron is itself defective and unsuitable to be employed in the manufacture of vital parts of machinery upon the integrity of which human life depends. In this instance had the metal been of better quality and in greater quantity the accident might not have occurred.

In conclusion we place on record the conviction that the defect so easily perceptible after the accident could not have been detected by any provision within the grasp of human thought or by any power of human perception. Were it suspected or known to exist, its discovery would have been improbable by the ordinary methods of inspection, or by any method in vogue to discover impairment in metallic substances.

P. H. Costello,
Fred C. Floyd,
Thos. J. Lavery,
Building Inspectors.

Referred to the special committee on elevator accident.

REPAIR OF FANEUIL HALL.

The following was received:—

Mayor's Office, City Hall,
Boston, Feb. 23, 1899.

To the Common Council:—

I transmit herewith, for the information of your body, a communication addressed to me by the Consulting Architect, in reference to Faneuil Hall.

Respectfully submitted,
Josiah Quincy, Mayor.

City of Boston, Engineering Department,
Architectural Division, 70 City Hall.
February 3rd, 1899.

Hon. Josiah Quincy, Mayor, Boston.

Dear Sir:—I have thought it best to lay before you the exact condition to date of all matters relating to the reconstruction of Faneuil Hall, for the purpose of enlightening the members of the Common Council, if you see fit.

No member of that body has visited this office for information on the subject and the discussion in the Council last Thursday evening was based on utterly wrong premises.

In March, 1898, Messrs. Woodbury & Leighton gave this office an approximate estimate for the reconstruction of Faneuil Hall, provided that this reconstruction need only include from the ceiling of the market floor up. They felt that the old work below this line was strong enough even to carry safely the heavier iron and plaster work of the new construction. Under these conditions the estimate for the entire work was about \$80,000 and on this estimate an appropriation was immediately asked for to allow this office to at once prepare for actual operations.

I personally explained to the Committee on Finance that this was only an estimate which I then considered too low, and asked for \$100,000, which I felt would be necessary to properly complete the work.

The matter of preserving the old sub-structure was next referred to the Engineering Department and they strongly ob-

jected to let any of the old work stand unless every column was examined as well as its foundation. The result of this examination was that the Engineering Department decided that 50 of the old columns must be replaced. This, of course, greatly added to the cost of the undertaking, but on this new basis, specifications were written and estimates invited. It was found that one item, the examination of foundations below cellar floor, and the strengthening of the same if necessary, had better be left to day work, for bids for such work would have to be made by guess work and the contractor would certainly estimate high enough to protect himself.

Seven estimates were received as follows:

| | |
|--------------------------|-------------|
| Woodbury & Leighton..... | \$73,500.00 |
| James Fagan..... | 84,337.00 |
| J. S. Jacobs & Son..... | 84,943.00 |
| Gerry & Norcross..... | 91,773.00 |
| Norcross Bros.,..... | 97,000.00 |
| E. Noyes Whitcomb..... | 99,800.00 |
| Connery & Wenworth..... | 101,000.00 |

The estimate of Woodbury & Leighton was accepted. This included everything about the building with the exception of heating and ventilation, plumbing and electric lighting, and the day work on the foundations, if the same was found necessary.

As the appropriation made by the City Council for the work was but \$80,000, and as the contract estimate was \$73,500, it was deemed advisable at the time to deduct from Woodbury & Leighton's contract such items of work as need not be done until the last thing. Therefore a reduction amounting to \$7,000.00 was made for painting, plastering, etc., with the agreement with the contractors that the same amount should be added to the contract again when an additional appropriation was made.

This extra sum allowed us to make borings to determine the condition of the soil, to take care of the pictures and other works of art in the building, and to do any preliminary work on plumbing and heating which, if postponed later, would mean unnecessary cutting and jobbing of completed work.

The work was started in September, 1898, and to date there has not been a single unforeseen extra incurred, and only one payment to the contractor has been made, amounting to \$3,325.50.

The additional appropriation of \$23,000 asked for at this time is to entirely complete the building, and it is to take care of the following matters:

| | |
|---|------------|
| Heating and ventilation..... | \$5,000.00 |
| Plumbing..... | 3,000.00 |
| Painting and plastering (originally deducted),..... | 7,000.00 |
| Electric work..... | 8,000.00 |

This last item of \$8,000.00 for electric work is the estimate furnished by the Electrical Construction Division.

I should be very glad to have all our drawings, specifications and contract, as well as the conduct of this work examined by any member or members of the Council. If any just criticism can be made I shall be very glad to hear it.

Respectfully yours,

F. W. Chandler, Consulting Architect.

Placed on file.

PETITION REFERRED.

To the Committee on Ordinances, when appointed—Communication from the Boston Central Labor Union in favor of the passage of an ordinance to establish the Building Construction Department.

PAPERS FROM THE BOARD OF ALDERMEN.

1. Notice of indefinite postponement of order requesting the Mayor to draw from the reserved fund a sum sufficient to make

good the deficit now existing in the Fire Department appropriation.

The question came on placing the notice on file.

Mr. WATSON of Wd. 18—Mr. President, I am perfectly satisfied to have the communication placed on file. As the one who introduced the order, I will simply say at this time that I understand the Mayor intends to take the money from that fund anyway, and I am perfectly willing.

The notice was placed on file.

2. Ordered, That the Fire Commissioner, through His Honor the Mayor, be requested to place fire-alarm box No. 98, corner of Columbus and Massachusetts Aves., on a lamp-post with a red signal light.

Passed in concurrence.

3. Ordered, That the School Committee be requested to remodel the Chapman School Building, and to add a six-room wing to it, also to widen the corridors, rebuild the stairs, provide suitable sanitaries for the boys and install a system of heating and ventilation and report their opinion to this Board at their earliest convenience.

Mr. BAGLEY of Wd. 1—Mr. President, the only objection I have to this order is the fact that it does not ask for a new schoolhouse altogether. This school is one of the worst buildings probably in the city of Boston that is used for school purposes. It is a building perhaps forty-five or fifty years old, and it is in a tumble-down condition. The corridors are about nine feet wide and the scholars, of which there are about a thousand, have to hang their coats in the corridors for lack of room. They also have to occupy buildings in that district that are not built for school purposes. This order, in asking for a six-room wing, does not ask any too much. The building is in dreadful shape and should be replaced by a new one, in my opinion.

Mr. HICKEY of Wd. 2—Mr. President, the building referred to in this order is not in my ward, but is in the district which I have the honor to represent in part, and the order was presented to the Board of Aldermen by the alderman from that district. I desire to say that the building, from my own personal knowledge of it, is thoroughly dilapidated and thoroughly unfit to be used for the accommodation of the school children of that district. According to the statement made by the alderman in the Board, over 250 children living in that immediate vicinity, have to attend school in rooms hired by the city outside of any regular school building. The sanitary condition and the ventilation of this building are also a disgrace to the city of Boston. I hope the order will pass.

Mr. BATTIS of Wd. 1—Mr. President, I would like to add one word in regard to this order. This being a school in my ward, close to my home, I am interested in seeing it remodeled. In fact, I would like, as the first speaker has said, to see a new school there. It is something that should be put there, really. This school has been there for fifty years. I attended the school over twenty years ago myself, and there has been nothing done to it since, so far as I can see—nothing in the way of remodeling. I trust that the School Committee will take the matter in hand and will remodel and make this a good building. I know a great many of the school children have to attend school in rooms hired outside. I have a child of my own who attends a school in a building outside, because he cannot be accommodated in any of the schoolrooms in this building. I trust this order will pass.

Mr. SIMPSON of Wd. 1—Mr. President, I want to say just a word in regard to this building. I called there today and examined its condition. The building is in a very dilapidated condition. The floors are very poor, dangerously so, and the plastering is liable to fall down at any

time. If something is not done within a short time, a disaster may occur there. I trust the School Committee will act favorably upon the request.

The order was read a second time and passed in concurrence.

4. Ordered, That His Honor the Mayor be requested to instruct the Fire Commissioner to allow the men employed in the department the amount of salary which they lost in the period between the reduction of their salaries and their restoration.

Passed in concurrence.

5. Ordered, That the Fire Commissioner be requested, through His Honor the Mayor, if he deem it advisable, to extend thanks for the citizens of Boston and the Fire Department to W. D. Ross, an engineer on the New York, New Haven & Hartford Railroad, for his prompt action in giving the alarm and his efficient assistance at the recent Carleton St. fire.

Passed in concurrence.

6. Message of the Mayor, transmitting the Appropriation Bill for 1899-1900, as passed by the Board of Estimate and Apportionment on January 23, together with five orders for loans, also passed by said Board on the same date, to be appropriated as follows:

\$410,000 for extension of water mains.

\$55,000 for making plans of territory or sections of land under provisions of chapter 323 of the Acts of 1891, and acts in amendment or addition thereto.

\$25,000 for working capital, Public Buildings Department, Repair Division.

\$10,000 for working capital, Public Buildings Department, Electrical Construction Division.

\$10,000 for working capital, Printing Department.

The above bill and orders are contained in City Document No. 42, and come down from the Board of Aldermen without any alteration.

The message was placed on file, and the question came on the passage of the appropriation bill and loan orders in concurrence with the Board of Estimate and Apportionment.

Mr. CHAMBERLAIN of Wd 12 offered the following amendment:

Amend the appropriation bill as follows:

In the item for Art Department, strike out \$1000, and insert \$200.

In the item for Bath Department, strike out \$69,500 and insert \$50,000.

In the item for Children's Institutions Department, strike out item for Marcella St. Home, \$1400 making appropriation for said department \$153,600.

In the item for Mayor, Public Celebrations and Lectures, strike out item for Free Public Lectures, \$3000, making the appropriation \$24,800.

In the item for Music Department, strike out \$10,000 and insert \$5000.

In the item for Public Buildings Department, General expenses, strike out \$150,500 and insert \$140,000, and strike out Electrical Construction Division, \$7000, making appropriation for said department \$140,100.

Strike out item for Statistics Department, General Expenses, \$13,000, and City Record, \$6000, total \$19,000.

In the appropriation for Street Department, Sanitary Division, strike out \$570,000, and insert \$522,000, making total appropriation for said Department \$1,945,650.

In the appropriation for Lamp Department, strike out \$670,000, and insert \$660,000.

Mr. CHAMBERLAIN of Wd. 12.—Mr. President—In making a few remarks upon this amendment I trust that I shall be allowed the same latitude of parliamentary courtesy as has been given gentlemen of this body at the two last meetings of the Council.

Since 1885, Mr. President and Gentlemen of the Council, the tendency has been in this city to centralize the financial power formerly possessed by the City Council in the hands of the Mayor.

Last year Mayor Quincy succeeded in

passing through a hypnotized legislature an act creating the Board of Estimate and Apportionment. When at divers times the Mayor has had occasion to refer to this act, he has gloried in the fact that the time had at last arrived, when the financial affairs of the city had been taken out of the hands of the politicians and placed in the care of business men. Before taking up the Appropriation Bill for 1899 to 1900—the first act of importance that has come to us from the Board of Estimate and Apportionment—I wish to state the facts as they are in regard to the greatest imposture ever perpetrated upon a municipality—that is, this so-called Business Men's Board.

Who comprises the Board of Estimate and Apportionment? First, Laurence Minot, representative of the tax-payers of the city and a business man. Unwitting tool of Mayor Quincy. Second, John H. Sullivan, quasi-banker, a gentleman who will father any and all schemes, providing East Boston gets the lion's share. Professional politician; tool of the Mayor. Third, David F. Barry, representative of the poor laboring man, but who did not utter a word of protest when the question of the reduction of the wages and salaries of city employees was before the Board. Professional politician; everlasting seeker after office; tool of the Mayor.

Mr. BRADLEY of Wd. 6—Mr. President, I think there is a rule—

The PRESIDENT—Does the gentleman rise to a point of order?

Mr. BRADLEY—Yes, sir.

The PRESIDENT—The gentleman will please state his point of order.

Mr. BRADLEY—I think there is a rule of this Council, and I also think it is only common courtesy, that we members of the lower branch of the City Government should refrain from alluding to the members of the other branch of the City Council in the manner in which the gentleman in the third division has.

The PRESIDENT—The Chair will rule the point of order not well taken, and will ask the gentleman from Wd. 12 to confine himself within the bounds of parliamentary practice.

Mr. CHAMBERLAIN—Fourth, His Honor, Mayor Quincy, representative of Josiah Quincy and as unrepresentative of true Democracy as the Board of Directors of the New York, New Haven & Hartford Railroad or Herr Most of Chicago—the Socialistic Anarchist, Fifth, Daniel J. Kiley, representative of this body,—the only one who had the courage to protest against the pernicious Appropriation Bill that we now are considering, which led to the Mayor's outrageous, unnecessary cut in wages and salaries of the city employees.

The employees of the city of Boston are worthy of their hire, and although there may be, in many departments an unnecessary and burdensome number, many that are there do their work well and are necessary. That these employees, receiving but fair wages for their labor, should be reduced in salary to support departments such as the Statistics Department, Music Department and the Bath Department, which are distinctly municipal luxuries and socialistic contrivances of an unsound mind, is indefensible and worthy of the strongest public condemnation.

Far be it from me to prevent Boston from having a thousand bath houses if the citizens desire them and the money in the treasury admits. Far be it from me to prevent every square, street and lane from ringing with the sonorous swell of Mozart, Wagner and Bach, if such be the demand of the people, and such be the condition of the treasury as to pay our municipal pipers; but with a limited and contracted purse, meat, bread and clothes must be bought before debts are contracted for baths, music, art and the intellectual ecstasies of lectures by such a man as our present Mayor.

When, these departments must be maintained at the expense of a reduction of seven and a half per cent of the salary of the honest wage earners in the employ of the city, I say, without equivocation, and challenge contradiction that it is unsound, unwise, unprincipled and thoroughly wrong, and, if the proposition were submitted to any man in Boston, except the crowd of hirelings which depend upon the bounty of Mayor Quincy, his verdict must assuredly be that the proposition that I have stated is undeniably and irrefutably true.

It has been said that the Board of Estimate and Apportionment was composed of men who possessed opinions of their own, who were endowed with individuality and with sufficient courage to withstand the withering influence of the Mayor's domination. That three of these men do not possess these characteristics, and are as clay or plaster, under the fingers of a potter or moulder, is abundantly shown in an analysis of the proceedings of the said Board when it produced this ill devised bill which we find before us. The proof of my assertion is found in this, that when there was involved the expenditure of the enormous sum of nearly \$14,000,000 among fifty departments, with innumerable items, the recommendations of the Mayor were accepted by these same three men without question, criticism or dissent. Have these men even common individuality, the courage of a craven or the ideas of a school boy? They had no suggestion to make and no criticism to offer. The Mayor's will was theirs, the facts prove it, and they allowed a seven and a half per cent. reduction in salary to be made in order to support departments which I have characterized before, I hope, with sufficient strength.

Any one at all familiar with affairs at City Hall knows that in almost every department money is wasted every year. It is a matter of public knowledge that much of the money paid by the tax-payers of this city for public improvements and necessities has been squandered on political ward heelers—paid in many instances more money in a single year than they have honestly earned in a lifetime.

The principal reason offered for the establishment of the Board of Estimate and Apportionment was that the City Council was incapable of understanding the first principles of financial wisdom. By an analysis of the appropriations made last year and those made this year let us see by what startling improvement and what exemplary financial wisdom the Board of Estimate and Apportionment shows itself superior to the City Council.

The Assessing, Auditing, Building, Cemetery, City Clerk, Collecting and the Election Departments have all been reduced by from two to \$10,000.00, yet the business they have to do is one of the greatest necessity and commanded by statute and their needs have increased and not decreased.

The fire department was reduced about \$50,000, Children's Institutions \$15,000, Insane Hospital \$15,000, Paving Division of the Street Dept. \$35,000, Deer Island Institution \$30,000, and House of Correction \$15,000. All these departments meet municipal needs which are of long standing and whose service should not be reduced, but extended.

On the other hand the appropriation for Public Baths has been increased by the Board of Estimate and Apportionment to \$69,000, where they received \$35,000 last year,—a department purely created for the gratification of a whimsical Mayor,—his own department. But to establish Baths the Board of Health must suffer a serious inroad in their appropriation. Where is the reason, where is the sense?

The Music Department has received an appropriation of \$3000 more than it did last year. Another personal creation and fancy of the Mayor. The Printing Plant, another

hobby, stands with substantially the same appropriation as it had last year. The Statistics Department has received an increase of \$4000. Again a department created by the Mayor to expend money and give false information to the city's expenditures.

If this is a proof of the financial wisdom of the Board of Estimate and Apportionment, if this shows that the Board is sounder and more sane in its disposition of city funds than the City Council, may I be struck dumb and blind, for then, indeed, I am bereft of reason and the world becomes inverted. The results are plain and simple. In the bill before us we see nothing but the unsound individuality of the Mayor. The Board of Estimate and Apportionment is he and he alone. The Legislature of Massachusetts has put it in the power of one man, no matter how irresponsible that man may be, either in finance or in reason, to control absolutely the expenditures of the entire revenue of this municipality, for this bill becomes operative in 30 days' time after it is received by the City Council, whether the representatives of the people agree with it or not.

I have offered the amendment which is before you for consideration with this intent and in this spirit, that, whether it becomes effective or not, it expresses our opinion of how the money should be spent and makes an issue between the Board of Estimate and Apportionment and the Common Council, for the people to decide which is the soundest, which is the sanest, which is right, Mayor Quincy or the City Council.
